(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of July 22, 2016, there were 51,261,905 ordinary shares of Fresh Del Monte Produce Inc. issued and outstanding.

Forward-Looking Statements

This report, information included in future filings by us and information contained in written material, press releases and oral statements, issued by or on behalf of us contains, or may contain, statements that constitute forward-looking statements. In this report, these statements appear in a number of places and include statements regarding the intent, beliefs or current expectations of us or our officers (including statements preceded by, followed by or that include the words “believes”, “expects”, “anticipates” or similar expressions) with respect to various matters, including our plans and future performance. These forward-looking statements involve risks and uncertainties. Fresh Del Monte’s actual plans and performance may differ materially from those in the forward-looking statements as a result of various factors, including (i) the uncertain global economic environment and the timing and strength of a recovery in the markets we serve, and the extent to which adverse economic conditions continue to affect our sales volume and results, including our ability to command premium prices for certain of our principal products, or increase competitive pressures within the industry, (ii) the impact of governmental initiatives in the United States and abroad to spur economic activity, including the effects of significant government monetary or other market interventions on inflation, price controls and foreign exchange rates, (iii) the impact of governmental trade restrictions, including adverse governmental regulation that may impact our ability to access certain markets such as uncertainty surrounding the recent vote in the United Kingdom to leave the European Union (often referred as Brexit), including spillover effects to other Eurozone countries, (iv) our anticipated cash needs in light of our liquidity, (v) the continued ability of our distributors and suppliers to have access to sufficient liquidity to fund their operations, (vi) trends and other factors affecting our financial condition or results of operations from period to period, including changes in product mix or consumer demand for branded products such as ours, particularly as consumers remain price-conscious in the current economic environment; anticipated price and expense levels; the impact of crop disease, severe weather conditions, such as flooding, or natural disasters, such as earthquakes, on crop quality and yields and on our ability to grow, procure or export our products; the impact of prices for petroleum-based products and packaging materials; and the availability of sufficient labor during peak growing and harvesting seasons, (vii) the impact of pricing and other actions by our competitors, particularly during periods of low consumer confidence and spending levels, (viii) the impact of foreign currency fluctuations, (ix) our plans for expansion of our business (including through acquisitions) and cost savings, (x) our ability to successfully integrate acquisitions into our operations, (xi) the impact of impairment or other charges associated with exit activities, crop or facility damage or otherwise, (xii) the timing and cost of resolution of pending and future legal and environmental proceedings or investigations, (xiii) the impact of changes in tax accounting or tax laws (or interpretations thereof), and the impact of settlements of adjustments proposed by the Internal Revenue Service or other taxing authorities in connection with our tax audits, and (xiv) the cost and other implications of changes in regulations applicable to our business, including potential legislative or regulatory initiatives in the United States or elsewhere directed at mitigating the effects of climate change. All forward-looking statements in this report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. Our plans and performance may also be affected by the factors described in Item 1A-“Risk Factors” in our Annual Report on Form 10-K for the year ended January 1, 2016 along with other reports that we have on file with the Securities and Exchange Commission.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. General

Reference in this report to Fresh Del Monte, “we”, “our”, “us” and the “Company” refer to Fresh Del Monte Produce Inc. and its subsidiaries, unless the context indicates otherwise.

We were incorporated under the laws of the Cayman Islands in 1996 and are engaged primarily in the worldwide production, transportation and marketing of fresh produce. We source our products, which include bananas, pineapples, melons, tomatoes, avocados and non-tropical fruit (including grapes, apples, pears, peaches, plums, nectarines, citrus and kiwis) primarily from Central America, North America, South America, Africa, the Philippines and Europe. We distribute our products in North America, Europe, Asia, South America, Africa and the Middle East. Our products are sourced from our Company-owned farms, through joint venture arrangements and through supply contracts with independent growers. We have the exclusive right to use the DEL MONTE® brand for fresh fruit, fresh vegetables and other fresh and fresh-cut produce and certain other specified products on a royalty-free basis under a worldwide, perpetual license from Del Monte Corporation, an unaffiliated company that owns the DEL MONTE® trademark. We are also a producer, marketer and distributor of prepared fruit and vegetable, juices and snacks and we hold a perpetual, royalty-free license to use the DEL MONTE® brand for prepared foods throughout Europe, Africa, the Middle East and countries formerly part of the Soviet Union. Del Monte Corporation and several other unaffiliated companies manufacture, distribute and sell under the DEL MONTE® brand canned or processed fruit, vegetables and other produce, as well as dried fruit, snacks and other products in certain geographic regions.

The accompanying unaudited Consolidated Financial Statements for the quarter ended July 1, 2016 have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. They do not include all information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments of a normal recurring nature considered necessary for fair presentation have been included. Operating results for the quarter and six months ended July 1, 2016 are subject to significant seasonal variations and are not necessarily indicative of the results that may be expected for the year ending December 30, 2016. For further information, refer to the Consolidated Financial Statements and notes thereto included in our annual report on Form 10-K for the fiscal year ended January 1, 2016.

We are required to evaluate events occurring after July 1, 2016 for recognition and disclosure in the unaudited Consolidated Financial Statements for the quarter and six months ended July 1, 2016. Events are evaluated based on whether they represent information existing as of July 1, 2016, which require recognition in the unaudited Consolidated Financial Statements, or new events occurring after July 1, 2016, which do not require recognition but require disclosure if the event is significant to the unaudited Consolidated Financial Statements. We evaluated events occurring subsequent to July 1, 2016 through the date of issuance of these unaudited Consolidated Financial Statements.

2. Recently Issued Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board ("FASB") issued an Accounting Standards Update ("ASU"), which simplifies several aspects of the accounting for share-based payment transactions, including the

income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. This ASU will be effective for us beginning the first day of our 2017 fiscal year. Early adoption is permitted. We are evaluating the impact of adoption of this ASU on our financial condition, result of operations and cash flows, but do not expect this ASU to have a significant effect.

In February 2016, the FASB issued an ASU, which requires a dual approach for lessee accounting under which a lessee would account for leases as finance leases or operating leases. Both finance leases and operating leases will result in the lessee recognizing a right-of use asset and a corresponding lease liability. For finance leases, the lessee would recognize interest expense and amortization of the right-of-use asset, and for operating leases, the lessee would recognize a straight-line total lease expense. The guidance also requires qualitative and specific quantitative disclosures to supplement the amounts recorded in the financial statements so that users can understand more about the nature of an entity's leasing activities, including significant judgments and changes in judgments. This ASU will be effective for us beginning the first day of our 2019 fiscal year. Early adoption is permitted. We are evaluating the impact of adoption of this ASU on our financial condition, result of operations and cash flows, but do not expect this ASU to have a significant effect.

Table of Contents

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

2. Recently Issued Accounting Pronouncements (continued)

In November 2015, the FASB issued an ASU, which amends the existing accounting standards for income taxes. The amendment required companies to report their deferred tax liabilities and deferred tax assets each as a single non-current item on their classified balance sheets. The Company elected to adopt the amendments in the first quarter of fiscal year 2016 and applied them prospectively to the current period presented, as permitted by the standard. The adoption of the amendments had no impact on the Company's net earnings or cash flow from operations for any period presented.

In July 2015, the FASB issued an ASU for measuring inventory. The core principal of the guidance is that an entity should measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. This guidance does not apply to inventory that is being measured using the Last-In, First-Out (LIFO) or the retail inventory method. The guidance is effective for us on a prospective basis beginning on the first day of our fiscal 2017 year. Early adoption is permitted. We are evaluating the impact of adoption of this ASU on our financial condition, result of operations and cash flows, but do not expect this ASU to have a significant effect.

In May 2014, the FASB issued an ASU in the form of a comprehensive new revenue recognition standard that will supersede existing revenue guidance. The ASU's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The standard outlines a five step model, whereby revenue is recognized as performance obligations within a contract are satisfied. The standard also requires new, expanded disclosures regarding revenue recognition. The amendments in this ASU will be effective for us beginning the first day of our 2018 fiscal year. Early adoption is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. We have not yet selected a transition method. We are evaluating the impact of adoption of this ASU on our financial condition, result of operations and cash flows, but do not expect this ASU to have a significant effect.

Table of Contents

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

3. Asset Impairment and Other Charges, Net (continued)

Exit Activity and Other Reserves

Exit activity and other reserve balances are recorded in the Consolidated Balance Sheets included in accounts payable and accrued expenses, for the current portion and in other noncurrent liabilities for the noncurrent portion.

The following is a rollforward of 2016 exit activity and other reserves (U.S. dollars in millions):

	Exit activity and other reserve balance at January 1, 2016	Impact to earnings	Cash paid	Foreign exchange impact	Exit activity and other reserve balance at July 1, 2016
Contract termination and other exit activity charges	\$ 1.1	\$	—\$(0.3)	\$ (0.1)	\$ 0.7
	\$ 1.1	\$	—\$(0.3)	\$ (0.1)	\$ 0.7

The exit activity and other reserve balance at July 1, 2016 relates to contract termination costs for an underutilized facility in the United Kingdom in previous periods. We do not expect additional charges related to the exit and other activities mentioned above that would significantly impact our results of operations or financial condition.

4. Acquisition

During June 2016, we purchased a blueberry farm in Chile of approximately 320 acres, which includes agricultural production land, packing houses and farm equipment. The purchase price for this business acquisition was \$7.1 million and was funded using operating cash flows and available borrowings under the Credit Facility (as defined in Note 10 “Long-Term Debt and Capital Lease Obligations”). The initial accounting for this business combination has not been completed because the appraisal of the property, plant and equipment has not yet been received.

5. Noncontrolling Interests

The following table reconciles shareholders’ equity attributable to noncontrolling interests (U.S. dollars in millions):

	Six months ended	
	July 1, 2016	June 26, 2015
Noncontrolling interests, beginning	\$42.9	\$ 40.0
Purchase of noncontrolling interest ⁽¹⁾	(19.5)	—
Net income attributable to noncontrolling interests	1.0	3.1
Translation adjustments	0.3	(0.3)

Retirement benefit adjustment	(0.1)	(0.1)
Capital contributions from, net	—	0.1
Noncontrolling interests, ending	\$24.6	\$ 42.8

We purchased the remaining interest of our Variable Interest Entity ("VIE") for \$45.0 million on April 28, 2016.

- (1) We recorded a charge of \$25.5 million to equity as a result of the difference between the fair value of the consideration of \$45.0 million less the \$19.5 million carrying value of the noncontrolling interest. Refer to Note 6, "Variable interest Entities", for disclosures related to the purchase of the remaining interest in our VIE.

Table of Contents

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

6. Variable Interest Entities

One of our Del Monte Gold® Extra Sweet pineapple producers met the definition of a VIE pursuant to the ASC guidance on “Consolidation” and is consolidated. Our variable interest in this entity included an equity investment and certain debt guarantees. All of this VIE's pineapple production was sold to us. Based on the criteria of this ASC, as amended, we were the primary beneficiary of this VIE’s expected residual returns or losses in excess of our ownership interest.

On April 28, 2016, we acquired the remaining interest of our VIE for \$45.0 million of which we paid \$40.0 million using operating cash flows and available borrowings under the Credit Facility (as defined in Note 10 “Long-Term Debt and Capital Lease Obligations”) and the remaining \$5.0 million is expected to be paid during the next 12 months. We recorded a charge of \$25.5 million to equity as a result of the difference between the fair value of the consideration of \$45.0 million less the \$19.5 million carrying value of the noncontrolling interest. This acquisition of the remaining 60% ownership interest was accounted for as an acquisition of a noncontrolling interest.

7. Financing Receivables

Financing receivables are included in other accounts receivable less allowances on our accompanying Consolidated Balance Sheets and are recognized at net realizable value, which approximates fair value. Other accounts receivable may include value-added taxes receivables, seasonal advances to growers and suppliers, which are usually short-term in nature, and other financing receivables.

A significant portion of the fresh produce we sell is acquired through supply contracts with independent growers. In order to ensure the consistent high quality of our products and packaging, we make advances to independent growers and suppliers. These growers and suppliers typically sell all of their production to us and make payments on their advances as a deduction to the agreed upon selling price of the fruit or packaging material. The majority of the advances to growers and suppliers are for terms less than one year and typically span a growing season. In certain cases, there may be longer term advances with terms of up to 10 years.

These advances are collateralized by property liens and pledges of the respective season’s produce; however, certain factors such as unfavorable weather conditions, crop disease and financial stability could impact the ability for these growers to repay their advance. Occasionally, we agree to a payment plan or take steps to recover the advance via established collateral. Allowances for advances to independent growers and suppliers are determined on a case by case basis depending on the production for the season and other contributing factors.

The following table details financing receivables including the related allowance for advances to independent growers and suppliers (U.S. dollars in millions):

	July 1, 2016		January 1, 2016	
	Short-term	Long-term	Short-term	Long-term
Gross advances to independent growers and suppliers	\$37.1	\$ 0.2	\$41.7	\$ 0.3
Allowance for advances to independent growers and suppliers	(1.6)	—	(2.1)	—
Net advances to independent growers and suppliers	\$35.5	\$ 0.2	\$39.6	\$ 0.3

The current and noncurrent portions of the financing receivables included above are classified in the Consolidated Balance Sheets in other accounts receivable and other noncurrent assets, respectively.

7. Financing Receivables (continued)

The following table details the credit risk profile of the above listed financing receivables (U.S. dollars in millions):

	Current status	Past due status	Total
Gross advances to independent growers and suppliers:			
July 1, 2016	\$ 35.7	\$ 1.6	\$37.3
January 1, 2016	39.9	2.1	42.0

The allowance for advances to independent growers and suppliers and the related financing receivables for the quarters and six months ended July 1, 2016 and June 26, 2015 were as follows (U.S. dollars in millions):

	Quarter ended		Six months ended	
	July 1, 2016	June 26, 2015	July 1, 2016	June 26, 2015
Allowance for advances to independent growers and suppliers:				
Balance, beginning of period	\$2.1	\$ 1.9	\$2.1	\$ 2.4
Provision for uncollectible amounts	—	0.1	—	0.1
Deductions to allowance related to write-offs	(0.5)	—	(0.5)	(0.5)
Balance, end of period	\$1.6	\$ 2.0	\$1.6	\$ 2.0

8. Stock-Based Compensation

Our shareholders approved and ratified the 2014 Omnibus Share Incentive Plan (the “2014 Plan”), which allows us to grant equity-based compensation awards, including stock options, restricted stock awards and restricted stock units including performance stock units. We disclosed the significant terms of the 2014 Plan and prior plans in our annual financial statements included in our Annual Report on Form 10-K for the year ended January 1, 2016.

Stock-based compensation expense included in selling, general and administrative expenses related to stock options, restricted stock awards ("RSA"), restricted stock units ("RSUs") and performance stock units ("PSUs") is included in the accompanying Consolidated Statements of Income were as follows (U.S. dollars in millions):

	Quarter ended		Six months ended	
	July 1, 2016	June 26, 2015	July 1, 2016	June 26, 2015
Stock Options	\$0.6	\$ 1.0	\$1.3	\$ 2.2
RSUs/PSUs	2.6	1.7	5.7	3.5
RSAs	—	—	0.9	0.7
Total	\$3.2	\$ 2.7	\$7.9	\$ 6.4

There were \$0.2 million for the six months ended July 1, 2016 and \$0.3 million for the six months ended June 26, 2015 of excess share-based payment deductions resulting from stock options exercised through a reduction in taxes currently payable and related effect on cash flows. Proceeds of \$4.2 million for the six months ended July 1, 2016 and \$19.7 million for the six months ended June 26, 2015 were received from the exercise of stock-based options.

Table of Contents

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

8. Stock-Based Compensation (continued)

Stock Option Awards

Under the 2014 Plan and prior plans, 20% of the options usually vest immediately, and the remaining options vest in equal installments over the next four years. Options under the 2014 Plan and prior plans may be exercised over a period not in excess of 10 years from the date of the grant. Prior plan provisions are still applicable to outstanding options and awards under those plans. There were no stock option grants for the six months ended July 1, 2016 and for the six months ended June 26, 2015.

The fair value for stock options was estimated at the date of grant using the Black-Scholes option pricing model, which requires us to make certain assumptions. Volatility is estimated based on the historical volatility of our stock over the past five years. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected term of grant. The dividend yield is estimated over the expected term based on our dividend policy, historical cash dividends and expected future cash dividends. The expected term of grant was based on the contractual term of the stock option and expected employee exercise and post-vesting employment termination trends. Forfeitures are estimated based on historical experience.

Restricted Stock Awards

A share of “restricted stock” is one of our ordinary shares that has restrictions on transferability until certain vesting conditions are met.

For RSAs awarded under the 2014 Plan, 50% of each award of our restricted stock vested on the date it was granted. The remaining 50% of each award vests upon the six-month anniversary of the date on which the recipient ceases to serve as a member of our Board of Directors. Restricted stock awarded during the six months ended July 1, 2016 and June 26, 2015 allows directors to retain all of their awards once they cease to serve as a member of our Board of Directors and is considered a nonsubstantive service condition in accordance with the guidance provided by the ASC on “Compensation – Stock Compensation”. Accordingly, it is appropriate to recognize compensation cost immediately for restricted stock awards granted to non-management members of the Board of Directors.

The following table lists the various restricted stock awards and related compensation expense under prior plans for the six months ended July 1, 2016 and June 26, 2015 (U.S. dollars in millions except share and per share data):

Date of award	Shares of restricted stock awarded	Price per share
January 4, 2016	22,946	\$38.13
January 2, 2015	21,875	33.60

Restricted Stock Units / Performance Stock Units

Under the 2014 Plan, each RSU/PSU represents a contingent right to receive one of our ordinary shares. The PSUs are subject to meeting minimum performance criteria set by our Compensation Committee of our Board of Directors. The actual number of shares the recipient receives is determined based on the results achieved versus performance goals. Those performance goals are based on exceeding a measure of our earnings. Depending on the results achieved, the

actual number of shares that an award recipient receives at the end of the period may range from 0% to 100% of the award units granted. Provided such criteria are met, the PSUs will vest in three equal annual installments on each of the next three anniversary dates provided that the recipient remains employed with us. The RSUs will vest 20% on the award date and 20% on each of the next four anniversaries.

RSUs and PSUs do not have the voting rights of ordinary shares, and the shares underlying the RSUs and PSUs are not considered issued and outstanding. However, shares underlying PSUs are included in the calculation of diluted earnings per share to the extent the performance criteria are met.

Table of Contents

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

8. Stock-Based Compensation (continued)

The fair market value for RSUs and PSUs is based on the closing price of our stock on the award date. Forfeitures are estimated based on population of employees and historical experiences.

The following table lists the various RSUs and PSUs awarded under the 2014 Plan and prior plans for the six months ended July 1, 2016 and June 26, 2015 (U.S. dollars in millions except share and per share data):

Date of award	Type of award	Units awarded	Price per share
February 24, 2016	PSU	140,000	\$38.99
February 24, 2016	RSU	50,000	38.99
February 18, 2015	PSU	175,000	33.44
February 18, 2015	RSU	50,000	33.44

RSUs and PSUs are eligible to earn Dividend Equivalent Units ("DEUs") equal to the cash dividend paid to ordinary shareholders. DEUs are subject to the same performance and/or service conditions as the underlying RSUs and PSUs and are forfeitable.

We expense the fair market value of RSUs and PSUs, as determined on the date of award, ratably over the vesting period provided the performance condition, if any, is probable.

9. Inventories

Inventories consisted of the following (U.S. dollars in millions):

	July 1, 2016	January 1, 2016
Finished goods	\$137.4	\$182.6
Raw materials and packaging supplies	140.9	140.8
Growing crops	145.7	158.5
Total inventories	\$424.0	\$481.9

10. Long-Term Debt and Capital Lease Obligations

The following is a summary of long-term debt and capital lease obligations (U.S. dollars in millions):

	July 1, 2016	January 1, 2016
Senior unsecured revolving credit facility (see Credit Facility below)	\$191.0	\$251.2
Various other notes payable	—	1.4
Capital lease obligations	1.4	1.6
Total long-term debt and capital lease obligations	192.4	254.2
Less: Current portion	(0.5)	(1.5)
Long-term debt and capital lease obligations	\$191.9	\$252.7

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

10. Long-Term Debt and Capital Lease Obligations (continued)

Credit Facility

On April 16, 2015, we entered into a five-year \$800 million syndicated senior unsecured revolving credit facility maturing on April 15, 2020 (the "Credit Facility") with Bank of America, N.A. as administrative agent and Merrill Lynch, Pierce, Fenner & Smith Inc. as sole lead arranger and sole book manager. Borrowings under the Credit Facility bear interest at a spread over LIBOR that varies with our leverage ratio. The Credit Facility also includes a swing line facility and a letter of credit facility. We capitalized \$1.5 million of debt issuance costs, which are included in other noncurrent assets on our Consolidated Balance Sheets.

We have a renewable 364-day, \$25.0 million commercial and stand-by letter of credit facility with Rabobank Nederland.

The following is a summary of the material terms of the Credit Facility and other working capital facilities at July 1, 2016 (U.S. dollars in millions):

	Term	Maturity date	Interest rate	Borrowing limit	Available borrowings
Bank of America credit facility	5 years	April 15, 2020	1.45%	\$ 800.0	\$ 799.8
Rabobank letter of credit facility	364 days	June 21, 2017	Varies	25.0	13.0
Other working capital facilities	Varies	Varies	Varies	18.0	9.0
				\$ 843.0	\$ 821.8

The current margin for LIBOR advances is 1.00%. We intend to use funds borrowed under the Credit Facility from time to time for general corporate purposes, which may include the repayment, redemption or refinancing of our existing indebtedness, working capital needs, capital expenditures, funding of possible acquisitions, possible share repurchases and satisfaction of other obligations.

The Credit Facility requires us to comply with financial and other covenants, including limitations on capital expenditures, the amount of dividends that can be paid in the future, the amount and types of liens and indebtedness, material asset sales and mergers. As of July 1, 2016, we were in compliance with all of the covenants contained in the Credit Facility. The Credit Facility is unsecured as long as we maintain a certain leverage ratio and is guaranteed by certain of our subsidiaries. The Credit Facility permits borrowings under the revolving commitment with an interest rate determined based on our leverage ratio and spread over LIBOR. In addition, we pay a fee on unused commitments.

As of July 1, 2016, we applied \$12.0 million to the Rabobank Nederland letter of credit facility, in respect of certain contingent obligations and other governmental agency guarantees combined with guarantees for purchases of raw materials and equipment and other trade related letters of credit. We also had \$15.7 million in other letters of credit and bank guarantees not included in the Rabobank or Bank of America letter of credit facilities. Refer to Note 6, "Variable Interest Entities", for further discussion of VIEs.

11. Commitments and Contingencies

DBCP Litigation

Beginning in December 1993, certain of our U.S. subsidiaries were named among the defendants in a number of actions in courts in Texas, Louisiana, Hawaii, California and the Philippines involving claims by numerous non-U.S. plaintiffs alleging that they were injured as a result of exposure to a nematocide containing the chemical dibromochloropropane (“DBCP”) during the period 1965 to 1990. As a result of a settlement entered into in December 1998, the remaining unresolved DBCP claims against our U.S. subsidiaries are pending or subject to appeal in Hawaii, Delaware and the Philippines.

On October 14, 2004, two of our subsidiaries were served with a complaint in an action styled Angel Abarca, et al. v. Dole Food Co., et al. filed in the Superior Court of the State of California for the County of Los Angeles on behalf of more than 2,600 Costa Rican banana workers who claim injury from exposure to DBCP. On January 2, 2009, three of our subsidiaries were served with multiple complaints in related actions styled Jorge Acosta Cortes, et al. v. Dole Food Company, et al. filed in the Superior Court of the State of California for the County of Los Angeles on behalf of 461 Costa Rican residents. An initial review of the plaintiffs in the Abarca and Cortes actions found that a substantial number of the plaintiffs were claimants in prior DBCP actions in Texas and may have participated in the settlement of those actions. On June 27, 2008, the court dismissed the claims of 1,329 plaintiffs who were parties to prior DBCP actions. On June 30, 2008, our subsidiaries moved to dismiss the claims of the remaining Abarca plaintiffs on grounds of forum non conveniens in favor of the courts of Costa Rica. On September 22, 2009, the court granted the motion to dismiss and on November 16, 2009 entered an order conditionally dismissing the claims of those remaining plaintiffs who allege employment on farms in Costa Rica exclusively affiliated with our subsidiaries. Those dismissed plaintiffs re-filed their claim in Costa Rica on May 17, 2012. On January 18, 2013, all remaining plaintiffs in California filed Requests for Dismissal effecting the dismissal of their claims without prejudice. On September 25, 2013, our subsidiaries filed an answer to the claim re-filed with the courts of Costa Rica. A second DBCP-related lawsuit was filed in Costa Rica in March 2015. The claim is under jurisdictional review by the local court. A third DBCP-related lawsuit was filed in Costa Rica in May 2015. After a recent jurisdictional ruling, the plaintiffs moved to dismiss the case.

In February 2011, a group of former banana cooperative workers from the Philippines filed a complaint in the Philippines against two of our subsidiaries claiming injury from exposure to DBCP. The trial court dismissed the complaint against our subsidiaries on October 3, 2011. Plaintiffs appealed the dismissal to the Court of Appeals. On March 9, 2015, the Court of Appeals affirmed the trial court’s dismissal of the complaint. Plaintiffs motion for reconsideration was denied by the Court of Appeals on December 15, 2015. On February 29, 2016, the Supreme Court denied Plaintiff’s petition for review. On May 10, 2016, plaintiffs filed a motion for reconsideration with the Supreme Court. On June 15, 2016, the Supreme Court denied Plaintiff’s motion for reconsideration.

On May 31 and June 1, 2012, eight actions were filed against one of our subsidiaries in the United States District Court for the District of Delaware on behalf of approximately 3,000 plaintiffs alleging exposure to DBCP on or near banana farms in Costa Rica, Ecuador, Panama, and Guatemala. We and our subsidiaries have never owned, managed or otherwise been involved with any banana growing operations in Panama and were not involved with any banana growing operations in Ecuador during the period when DBCP was in use. The plaintiffs include claimants who had cases pending in the United States District Court for the Eastern District of Louisiana which were dismissed on September 17, 2012. On August 30, 2012, our subsidiary joined a motion to dismiss the claims of those plaintiffs on the grounds that they have first-filed claims pending in the United States District Court for the Eastern District of

Louisiana. The motion was granted on March 29, 2013. On September 21, 2012, our subsidiary filed an answer with respect to the claims of those plaintiffs who had not already filed in Louisiana. On May 27, 2014, the court granted a motion made by a co-defendant and entered summary judgment against all plaintiffs based on the September 19, 2013 affirmance by the United States Court of Appeals for the Fifth Circuit of the dismissal of related cases by the United States District Court for the Eastern District of Louisiana. On July 7, 2014, our subsidiary joined in a motion for summary judgment as to all plaintiffs on the basis of the court's May 27, 2014 ruling. Plaintiffs agreed that judgment be entered in favor of all defendants for the claims still pending in the United States District Court for the District of Delaware on the basis of the summary judgment granted on May 27, 2014 and the district court entered judgment dismissing all plaintiffs' claims on September 22, 2014. On October 21, 2014, a notice of appeal was filed with the United States Court of Appeals for the Third Circuit, but the notice expressly limited the appeal to the claims of 57 (out of the more than 2,400) plaintiffs. On August 11, 2015, the Court of Appeals affirmed the dismissal of the claims of these plaintiffs. Plaintiffs filed a Motion for Rehearing en Banc with the Third Circuit, which was granted on September 22, 2015. The rehearing was held on February 17, 2016.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

11. Commitments and Contingencies (continued)

In Hawaii, plaintiffs filed a petition for certiorari to the Hawaii Supreme Court based upon the Hawaii Court of Appeals affirmance in March 2014 of a summary judgment ruling in defendants' favor at the trial court level. The Hawaii Supreme Court accepted the petition and oral argument was held on September 18, 2014 with respect to whether the claims of the six named plaintiffs were properly dismissed on statute of limitations grounds. On October 21, 2015, the Hawaii Supreme Court reversed the Hawaii Court of Appeals and the Hawaii state trial court's grant of partial summary judgment against the DBCP plaintiffs on statute of limitations grounds. The Hawaii Supreme Court remanded the case back to the Hawaii state trial court for further proceedings.

Kunia Well Site

In 1980, elevated levels of certain chemicals were detected in the soil and ground-water at a plantation leased by one of our U.S. subsidiaries in Honolulu, Hawaii (the "Kunia Well Site"). Shortly thereafter, our subsidiary discontinued the use of the Kunia Well Site and provided an alternate water source to area well users and the subsidiary commenced its own voluntary cleanup operation.

In 1993, the Environmental Protection Agency ("EPA") identified the Kunia Well Site for potential listing on the National Priorities List ("NPL") under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended. On December 16, 1994, the EPA issued a final rule adding the Kunia Well Site to the NPL.

On September 28, 1995, our subsidiary entered into an order (the "Order") with the EPA to conduct the remedial investigation and the feasibility study of the Kunia Well Site. Under the terms of the Order, our subsidiary submitted a remedial investigation report in November 1998 and a final draft feasibility study in December 1999 (which was updated from time to time) for review by the EPA. The EPA approved the remedial investigation report in February 1999 and the feasibility study on April 22, 2003.

As a result of communications with the EPA in 2001, we recorded a charge of \$15.0 million in the third quarter of 2001 to increase the recorded liability to the estimated expected future cleanup cost for the Kunia Well Site to \$19.1 million. Based on conversations with the EPA in the third quarter of 2002 and consultation with our legal counsel and other experts, we recorded a charge of \$7.0 million during the third quarter of 2002 to increase the accrual for the expected future clean-up costs for the Kunia Well Site to \$26.1 million.

On September 25, 2003, the EPA issued the Record of Decision ("ROD"). The EPA estimates in the ROD that the remediation costs associated with the cleanup of the Kunia Well Site will range from \$12.9 million to \$25.4 million and will last approximately 10 years. It remains to be determined how long the remediation will actually last.

On January 13, 2004, the EPA deleted a portion of the Kunia Well Site (Northeast section) from the NPL. On May 2, 2005, our subsidiary signed a Consent Decree with the EPA for the performance of the clean-up work for the Kunia Well Site. On September 27, 2005, the U.S. District Court for Hawaii approved and entered the Consent Decree. Based on findings from remedial investigations at the Kunia Well Site, our subsidiary continues to evaluate with the EPA the clean-up work currently in progress in accordance with the Consent Decree.

During 2014, as a result of a meeting held with the EPA which resulted in changes to the remediation work being performed, we reduced the liability related to the Kunia well site clean-up by \$1.4 million. During 2015, due to market fluctuations which resulted in changes to the discount rate, we reduced the liability related to the Kunia well site

clean-up by \$0.8 million, net of other charges. The undiscounted estimates are between \$14.8 million and \$28.7 million. The undiscounted estimate on which our accrual is based totals \$15.7 million and is discounted using a 4% rate. As of July 1, 2016, there are \$13.1 million included in other noncurrent liabilities and \$0.7 million included in accounts payable and accrued expenses in the Consolidated Balance Sheets for the Kunia Well Site clean-up, which we expect to expend in the next 12 months. We expect to expend approximately \$0.7 million in 2016, \$1.7 million per year in 2017 and 2018, \$0.7 million in 2019, \$1.0 million in 2020 and \$8.0 million thereafter.

Additional Information

In addition to the foregoing, we are involved from time to time in various claims and legal actions incident to our operations, both as plaintiff and defendant. In the opinion of management, after consulting with legal counsel, none of these other claims are currently expected to have a material adverse effect on the results of operations, financial position or our cash flows.

We intend to vigorously defend ourselves in all of the above matters.

12. Earnings Per Share

Basic and diluted net income per ordinary share is calculated as follows (U.S. dollars in millions, except share and per share data):

	Quarter ended		Six months ended	
	July 1, June 26,		July 1, June 26,	
	2016	2015	2016	2015
Numerator:				
Net income attributable to Fresh Del Monte Produce Inc.	\$96.2	\$ 64.5	\$177.9	\$ 107.0
Denominator:				
Weighted average number of ordinary shares - Basic	51,164,528	55,228	51,396,505	55,831,466
Effect of dilutive securities - Share based employee options and awards	535,907	492,376	471,950	447,257
Weighted average number of ordinary shares - Diluted	51,700,535	55,720,604	51,868,455	56,278,723
Antidilutive awards ⁽¹⁾	140,734	176,147	140,734	176,147
Net income per ordinary share attributable to Fresh Del Monte Produce Inc.:				
Basic	\$1.88	\$ 1.22	\$3.46	\$ 2.03
Diluted	\$1.86	\$ 1.21	\$3.43	\$ 2.01

⁽¹⁾ Certain unvested PSU's are not included in the calculation of net income per ordinary share because the effect would have been antidilutive.

Refer to Note 18, "Shareholders' Equity", for disclosures related to the stock repurchase program and retired shares.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

13. Retirement and Other Employee Benefits

The following table sets forth the net periodic benefit costs of our pension plans and post-retirement plans (U.S. dollars in millions):

	Quarter ended		Six months ended	
	July 1, June 26,		July 1, June 26,	
	2016	2015	2016	2015
Service cost	\$1.3	\$ 1.5	\$2.6	\$ 2.9
Interest cost	1.6	1.6	3.3	3.3
Expected return on assets	(0.9)	(0.9)	(1.9)	(1.9)
Amortization of net actuarial loss	0.3	0.4	0.6	0.8
Net periodic benefit costs	\$2.3	\$ 2.6	\$4.6	\$ 5.1

We provide certain other retirement benefits to certain employees who are not U.S.-based not included above. Generally, benefits under these programs are based on an employee's length of service and level of compensation. These programs are immaterial to our consolidated financial statements. The net periodic benefit costs related to other non-U.S.-based plans is \$0.5 million for the quarters ended ended July 1, 2016 and June 26, 2015. The net periodic benefit costs related to other non-U.S.-based plans is \$1.1 million for the six months ended July 1, 2016 and June 26, 2015.

14. Business Segment Data

We are principally engaged in one major line of business, the production, distribution and marketing of bananas, other fresh produce and prepared food. Our products are sold in markets throughout the world with our major producing operations located in North, Central and South America, Asia and Africa.

Our operations are aggregated into business segments on the basis of our products: bananas, other fresh produce and prepared food. Other fresh produce includes pineapples, melons, tomatoes, avocados, non-tropical fruit (including grapes, apples, pears, peaches, plums, nectarines, citrus and kiwis), fresh-cut products, other fruit and vegetables, a third-party ocean freight business and a plastic products business. Prepared food includes prepared fruit and vegetables, juices, beverages, snacks, poultry and meat products.

We evaluate performance based on several factors, of which net sales and gross profit by product are the primary financial measures (U.S. dollars in millions):

	Quarter ended		June 26, 2015	
	July 1, 2016			
	Net	Gross	Net	Gross
	Sales	Profit	Sales	Profit
Banana	\$497.4	\$66.5	\$513.8	\$44.6
Other fresh produce	496.8	59.9	523.7	54.9
Prepared food	94.4	19.0	96.6	14.5

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

15. Derivative Financial Instruments

We account for derivative financial instruments in accordance with the ASC guidance on “Derivatives and Hedging”. This ASC requires us to recognize the value of derivative instruments as either assets or liabilities in the statement of financial position at fair value. The accounting for changes in the fair value (i.e., gains or losses) of a derivative instrument depends on whether it has been designated as a hedge and qualifies as part of a hedging relationship. The accounting also depends on the type of hedging relationship, whether a cash flow hedge, a fair value hedge, or hedge of a net investment in a foreign operation. On entry into a derivative instrument, we formally designate and document it as a hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transaction.

Derivatives are recorded in our Consolidated Balance Sheets at fair value in prepaid expenses and other current assets, other noncurrent assets, accounts payable and accrued expenses or other noncurrent liabilities, depending on whether the amount is an asset or liability and whether it is short-term or long-term in nature. The fair values of derivatives used to hedge or modify our risks fluctuate over time. These fair value amounts should not be viewed in isolation, but rather in relation to the cash flows or fair value of the underlying hedged transactions or assets and other exposures, as well as the overall reduction in our risk. In addition, the earnings impact resulting from our derivative instruments is recorded in the same line item within the Consolidated Statements of Income as the underlying exposure being hedged.

We predominantly designate our hedges as cash flow hedges. A cash flow hedge requires that the effective portion of the change in the fair value of a derivative instrument be recognized in other comprehensive income, a component of shareholders’ equity, and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of the change in fair value of a derivative instrument is to be recognized in earnings in the same line in which the hedge transaction affects earnings.

Counterparties expose us to credit losses in the event of non-performance on hedges. We monitor our exposure to counterparty non-performance risk both at inception of the hedge and at least quarterly thereafter. However, because these contracts are entered into with highly rated financial institutions, we do not anticipate non-performance by any of the counterparties. The exposure is usually the amount of the unrealized gains, if any, in such contracts.

Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the cash flows or fair value of the underlying exposures being hedged. In addition, we perform an assessment of hedge effectiveness, both at inception and at least quarterly thereafter, in order to determine whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the cash flows or fair value of the related underlying exposures. Any ineffective portion of a financial instrument’s change in fair value is immediately recognized in earnings.

Foreign Currency Hedges

We are exposed to fluctuations in currency exchange rates against the U.S. dollar on our results of operations and financial condition and we mitigate that exposure by entering into foreign currency forward contracts. Certain of our subsidiaries periodically enter into foreign currency forward contracts in order to hedge portions of forecasted sales or cost of sales denominated in foreign currencies, which generally expire within one year. Our foreign currency hedges were entered into for the purpose of hedging portions of our 2016 foreign currency exposure.

The foreign currency forward contracts qualifying as cash flow hedges were designated as single-purpose cash flow hedges of forecasted cash flows. Based on our formal assessment of hedge effectiveness of our qualifying foreign currency forward contracts, we determined that the impact of hedge ineffectiveness was de minimis for the quarters and six months ended July 1, 2016 and June 26, 2015.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

15. Derivative Financial Instruments (continued)

Certain of our derivative instruments contain provisions that require the current credit relationship between us and our counterparty to be maintained throughout the term of the derivative instruments. If that credit relationship changes, certain provisions could be triggered, and the counterparty could request immediate collateralization of derivative instruments in net liability position above a certain threshold. As of July 1, 2016, the aggregate fair value of all derivative instruments with a credit-risk-related contingent feature was \$2.8 million. If the credit-risk-related contingent features underlying these agreements were triggered on July 1, 2016, we would not be required to post collateral to our counterparty because the collateralization threshold had not been met.

We had the following outstanding foreign currency forward contracts as of July 1, 2016:

Foreign currency contracts qualifying as cash flow hedges:	Notional amount
Euro	EUR 90.9 million
Japanese yen	JPY 2,040.5 million
Philippine peso	PHP 737.3 million

The following table reflects the fair values of derivative instruments, all of which are designated as Level 2 of the fair value hierarchy, as of July 1, 2016 and January 1, 2016 (U.S. dollars in millions):

Derivatives designated as hedging instruments ⁽¹⁾

	Foreign exchange contracts July 1, January 1, 2016 2016 (2)
Balance Sheet location:	

Asset derivatives:

Prepaid expenses and other current assets	\$5.1	\$ 11.9
Total asset derivatives	\$5.1	\$ 11.9

Liability derivatives:

Accounts payable and accrued expenses	\$2.8	\$ —
Total liability derivatives	\$2.8	\$ —

⁽¹⁾ See Note 16, "Fair Value Measurements", for fair value disclosures.

⁽²⁾ We expect that \$2.3 million of the net fair value of hedges recognized as a gain in accumulated other comprehensive income ("AOCI") will be transferred to earnings during the next 12 months, along with the earnings effect of the related forecasted transactions.

	July 1, 2016	June 26, 2015		July 1, 2016	June 26, 2015
Foreign exchange contracts	\$(10.0)	\$(0.2)	Net sales	\$2.7	\$20.3
Foreign exchange contracts	0.4	0.1	Cost of products sold	0.1	(0.1)
Total	\$(9.6)	\$(0.1)		\$2.8	\$20.2

16. Fair Value Measurements

We measure fair value for financial instruments, such as derivatives and equity securities, on an ongoing basis. We measure fair value for non-financial assets when a valuation is necessary, such as for impairment of long-lived and indefinite-lived assets when indicators of impairment exist. Fair value is measured in accordance with the ASC on "Fair Value Measurements and Disclosures". The ASC on "Fair Value Measurements and Disclosures" defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measures required under other accounting pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value.

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

16. Fair Value Measurements (continued)

Derivative Instruments

We may choose to mitigate the risk of fluctuations in currency exchange rates and bunker fuel prices on our results of operations and financial condition by entering into foreign currency cash flow hedges and bunker fuel hedges, respectively. We account for the fair value of the related forward contracts as either an asset in other current assets or a liability in accrued expenses. We use an income approach to value our outstanding foreign currency and bunker fuel cash flow hedges. An income approach consists of a discounted cash flow model that takes into account the present value of future cash flows under the terms of the contract using current market information as of the measurement date such as foreign currency and bunker fuel spot and forward rates. Additionally, we built an element of default risk based on observable inputs into the fair value calculation. Due to the fact that inputs to fair value these derivative instruments can be observed, they are classified as Level 2.

The following table provides a summary of the fair values of assets and liabilities measured on a recurring basis under the ASC on “Fair Value Measurements and Disclosures” (U.S. dollars in millions):

	Fair value measurements	
	Foreign currency forward contracts, net asset	
	July 1, 2016	January 1, 2016
Quoted prices in active markets for identical assets (Level 1)	\$ —	\$ —
Significant observable inputs (Level 2)	2.3	11.9
Significant unobservable inputs (Level 3)	—	—

In estimating our fair value disclosures for financial instruments, we use the following methods and assumptions:

Cash and cash equivalents: The carrying amount reported in the Consolidated Balance Sheets for these items approximates fair value due to their liquid nature and are classified as Level 1.

Trade accounts receivable and other accounts receivable, net: The carrying value reported in the Consolidated Balance Sheets for these items is net of allowances, which includes a degree of counterparty non-performance risk and are classified as Level 2.

Accounts payable and other current liabilities: The carrying value reported in the Consolidated Balance Sheets for these items approximates their fair value, which is the likely amount for which the liability with short settlement periods would be transferred to a market participant with a similar credit standing as ours and are classified as Level 2.

Capital lease obligations: The carrying value of our capital lease obligations reported in the Consolidated Balance Sheets approximates their fair value based on current interest rates, which contain an element of default risk. The fair value of our capital lease obligations is estimated using Level 2 inputs based on quoted prices for those or similar instruments.

Refer to Note 10, “Long-Term Debt and Capital Lease Obligations”.

Long-term debt: The carrying value of our long-term debt reported in the Consolidated Balance Sheets approximates their fair value since they bear interest at variable rates or fixed rates which contain an element of default risk. The fair value of our long-term debt is estimated using Level 2 inputs based on quoted prices for those or similar instruments.

Refer to Note 10 , “Long-Term Debt and Capital Lease Obligations”.

Table of Contents

FRESH DEL MONTE PRODUCE INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

16. Fair Value Measurements (continued)

Fair Value of Non-Financial Assets

The following is a tabular presentation of the non-recurring fair value measurements along with the level within the fair value hierarchy in which the fair value measurements in their entirety fall (U.S. dollars in millions):

Fair value measurements for the six months ended July 1, 2016

	Quoted Prices in Active Markets Total for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Underutilized assets in Central America	\$1.0	\$ —	\$ —
Philippines plantation conversion to pineapple	0.3	—	0.3
	\$1.3	\$ —	\$ —

During the second quarter of 2016, we recognized \$0.6 million in asset impairment and other charges related to certain underutilized assets in Central America. The asset impairment consisted of a write-down of \$0.6 million related to the assets with a carrying value of \$1.6 million. We estimated the fair value of these assets of \$1.0 million using the market approach. The fair value of these assets are classified as Level 3 of the fair value hierarchy due to the mix of unobservable inputs utilized.

During the second quarter of 2016, we recognized \$2.5 million in asset impairment and other charges as a result of our decision to convert a banana plantation in the Philippines to a pineapple plantation during the next three years. The asset impairment consisted of a write-down of \$2.5 million related to the plantation with a carrying value of \$2.8 million. The plantation was written down to a fair value of \$0.3 million. We estimated the fair value of this asset using an income based approach, whereby our cash flows were adjusted for a market premium risk. The fair value of the plantation of \$0.3 million is classified as Level 3 of the fair value hierarchy due to the mix of unobservable inputs utilized.

The fair value of the banana reporting unit's goodwill and the prepared food unit's remaining trade names and trademarks are highly sensitive to differences between estimated and actual cash flows and changes in the related discount rate used to evaluate the fair value of these assets. We disclosed the sensitivity related to the banana reporting unit's goodwill and the prepared food unit's remaining trade names and trademarks in our annual financial statements included in our Annual Report on Form 10-K for the year ended January 1, 2016.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

18. Shareholders' Equity (continued)

On July 29, 2015, our Board of Directors approved a three-year stock repurchase program of up to \$300 million of our ordinary shares, in addition to the three-year stock repurchase program to repurchase up to \$300 million of our ordinary shares approved on May 1, 2013. We have repurchased \$358.7 million of ordinary shares, or 10,742,746 ordinary shares, under the aforementioned repurchase programs and retired all the repurchased shares. The stock repurchase program approved on May 1, 2013 has been fully utilized as of July 1, 2016. We have a maximum dollar amount value of \$241.3 million of shares that we can purchase under the stock repurchase program approved on July 29, 2015.

Subsequent to the quarter ended July 1, 2016 no ordinary shares were repurchased.

Dividend activity is summarized as follows:

Six months ended

July 1, 2016		June 26, 2015	
Dividend Date	Cash Dividend Declared, per Ordinary Share	Dividend Date	Cash Dividend Declared, per Ordinary Share
June 3, 2016	\$ 0.125	May 29, 2015	\$ 0.125
April 1, 2016	\$ 0.125	March 27, 2015	\$ 0.125

We paid \$12.7 million in dividends in the six months ended July 1, 2016 and \$13.1 million in dividends in the six months ended June 26, 2015.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are one of the world's leading vertically integrated producers, marketers and distributors of high-quality fresh and fresh-cut fruit and vegetables, as well as a leading producer and marketer of prepared fruit and vegetables, juices, beverages and snacks in Europe, Africa, the Middle East and countries formerly part of the Soviet Union. We market our products worldwide under the DEL MONTE® brand, a symbol of product innovation, quality, freshness and reliability since 1892. Our global sourcing and logistics system allows us to provide regular delivery of consistently high-quality produce and value-added services to our customers. Our major producing operations are located in North, Central and South America, Asia and Africa. Production operations are aggregated on the basis of our products: bananas, other fresh produce and prepared food. Other fresh produce includes pineapples, melons, tomatoes, avocados, non-tropical fruit (including grapes, apples, pears, peaches, plums, nectarines, citrus and kiwis), fresh-cut produce, other fruit and vegetables, a plastic products business and a third-party ocean freight service. Prepared food includes prepared fruit and vegetables, juices, beverages, snacks, poultry and meat products.

Liquidity and Capital Resources

Net cash provided by operating activities was \$268.9 million for the first six months of 2016, compared with net cash provided by operating activities of \$179.5 million for the first six months of 2015, an increase of \$89.4 million. The increase in net cash provided by operating activities was principally attributable to higher net income combined with changes in operating assets and liabilities.

Working capital was \$566.0 million at July 1, 2016 compared with \$604.0 million at January 1, 2016 a decrease of \$38.0 million. This decrease in working capital is principally due to lower levels of fresh produce inventory which is seasonal in nature as a result of the end of offshore melons from Central America and deciduous fruit from Chile. Partially offsetting this decrease in inventory were lower accounts payable and accrued expenses, principally a result of lower cost of sales.

Net cash used in investing activities for the first six months of 2016 was \$67.0 million compared with \$46.7 million for the first six months of 2015. Net cash used in investing activities for the first six months of 2016 consisted of capital expenditures of \$67.3 million and purchase of a business for \$7.1 million, partially offset by proceeds from sales of property, plant and equipment of \$7.4 million. Capital expenditures for the first six months of 2016 consisted primarily of expansion of our distribution and fresh-cut fruit facilities in North America and Asia related to the other fresh produce and banana segments; expansion and improvements to our banana operations in the Philippines and Central America; expansion and improvements to our manufacturing facilities in the Middle East and Kenya related to the prepared food and other fresh produce segments; and expansion and improvements to production facilities in Costa Rica and Chile in the other fresh produce segment. Purchase of a business consisted of the purchase of a blueberry farm in Chile. Proceeds from sale of property, plant and equipment for the first six months of 2016 consisted primarily of the sale of surplus land in Central and South America.

Net cash used in investing activities for the first six months of 2015 consisted of capital expenditures of \$52.5 million, partially offset by proceeds from sales of property, plant and equipment of \$5.8 million. Capital expenditures for the first six months of 2015 included expansion of banana operations in the Philippines and Central America; expansion and improvements to our production facilities principally in Kenya, Costa Rica, Jordan and Saudi Arabia related to the prepared food segment; improvements and expansion of production facilities in Japan, Chile, Costa Rica and North America related to the other fresh produce segment and for worldwide information technology projects related to all of our business segments. Proceeds from sale of property, plant and equipment for the first six months of 2015 consisted primarily of the sale of two refrigerated vessels.

Net cash used in financing activities for the first six months of 2016 was \$183.1 million compared with net used in financing activities of \$136.9 million for the first six months of 2015. Net cash used in financing activities for the first six months of 2016 consisted of net repayments on long-term debt of \$66.0 million, purchase of noncontrolling interest of \$40.0 million, distributions to noncontrolling interest, net of \$0.1 million, dividends paid of \$12.7 million, repurchase and retirement of ordinary shares of \$68.7 million, partially offset by proceeds from stock options exercised of \$4.2 million and excess tax benefits from stock-based compensation of \$0.2 million. Cash used in financing activities for the first six months of 2015 consisted of net repayments on long-term debt of \$58.8 million, distributions to non-controlling interest, net of \$0.2 million, dividends paid of \$13.1 million and repurchase and retirement of ordinary shares of \$84.8 million and partially offset by proceeds from stock options exercised of \$19.7 million and excess tax benefit from stock-based compensation of \$0.3 million.

On April 16, 2015, we entered into a new five year, \$800 million syndicated senior unsecured revolving credit facility maturing on April 15, 2020 (the "Credit Facility") with Bank of America, N.A. as administrative agent and Merrill Lynch, Pierce, Fenner & Smith Inc. as sole lead arranger and sole book manager. Borrowings under the Credit Facility bear interest at a spread over the

Table of Contents

London Interbank Offer Rate ("LIBOR") that varies with our leverage ratio. The margin for LIBOR advances under the Credit Facility currently is 1.00%. The Credit Facility also includes a swing line facility and a letter of credit facility. We intend to use the Credit Facility from time to time for general corporate purposes, which may include the repayment or refinancing of our existing indebtedness, working capital needs, capital expenditures, funding of possible acquisitions, possible share repurchases and satisfaction of other obligations.

We have a renewable 364-day, \$25.0 million commercial and stand-by letter of credit facility with Rabobank Nederland.

At July 1, 2016, we had \$191.0 million outstanding under the Credit Facility bearing interest at a per annum rate of 1.45%. In addition, we pay a fee on unused commitments under the Credit Facility.

The Credit Facility is unsecured as long as we maintain a certain leverage ratio and also requires us to comply with certain financial and other covenants, including limitations on capital expenditures, the amount of dividends that can be paid in the future, the amount and types of liens and indebtedness, material asset sales and mergers. As of July 1, 2016, we were in compliance with all of the financial and other covenants contained in the Credit Facility.

At July 1, 2016, we had \$821.8 million available under committed working capital facilities, primarily under the Credit Facility. At July 1, 2016, we applied \$12 million to the Rabobank letter of credit facility, in respect of certain contingent obligations and other governmental agencies and purchases of equipment and raw material guarantees and other trade related letters of credit. We also had \$15.7 million in other letters of credit and bank guarantees not included in the Rabobank or Bank of America letter of credit facilities.

As of July 1, 2016, we had \$192.4 million of long-term debt and capital lease obligations, including the current portion, consisting of \$191.0 million outstanding under the Credit Facility and \$1.4 million of capital lease obligations.

Based on our operating plan, combined with our available borrowing capacity under our Credit Facility, we believe we will have sufficient resources to meet our cash obligations in the foreseeable future.

As of July 1, 2016, we had cash and cash equivalents of \$42.8 million.

As a result of the closure of distribution centers and restructuring in Europe in previous periods, we paid approximately \$0.3 million in contractual obligations during the first six months of 2016. We expect to make additional payments of approximately \$0.7 million principally related to the closure of certain facilities in the United Kingdom.

The fair value of our foreign currency cash flow hedges changed from a net gain of \$11.9 million as of January 1, 2016, to a net gain of \$2.3 million as of July 1, 2016. We expect that a gain of \$2.3 million will be transferred to earnings during the next 12 months, along with the earnings effect of the related forecasted transactions.

Recent Developments

On April 28, 2016, we acquired the remaining 60% interest in one of our pineapple producers for \$45.0 million of which we paid \$40.0 million using operating cash flows and available borrowings under the Credit Facility and the remaining \$5.0 million is expected to be paid during the next 12 months. This pineapple producer met the definition of a Variable Interest Entity and was consolidated. This acquisition of the remaining 60% ownership interest was accounted as an acquisition of a noncontrolling interest and allows us to increase efficiency and facilitates expansion of our production capabilities. We recorded a \$25.5 million charge to equity as a result of the difference between the

fair value of the consideration of \$45.0 million less the \$19.5 million carrying value of the noncontrolling interest. Refer to Note 6, "Variable Interest Entities".

During June 2016, we purchased a blueberry farm in Chile of approximately 320 acres and includes agricultural production land, packing houses and farm equipment. The purchase price for this acquisition was \$7.1 million and was funded using operating cash flows and available borrowings under the Credit Facility (as defined in Note 10 "Long-Term Debt and Capital Lease Obligations"). The initial accounting for this business combination has not been completed because the appraisal of the property, plant and equipment has not yet been received.

Table of Contents

Results of Operations

The following tables present for each of the periods indicated (i) net sales by geographic region and (ii) net sales and gross profit by product category, and in each case, the percentage of the total represented thereby (U.S. dollars in millions, except percent data):

Net sales by geographic region:

	Quarter ended			Six months ended		
	July 1, 2016		June 26, 2015	July 1, 2016		June 26, 2015

Second Quarter 2016 Compared with Second Quarter of 2015

Net Sales. Net sales for the second quarter of 2016 were \$1,088.6 million compared with \$1,134.1 million for the second quarter of 2015. The decrease in net sales of \$45.5 million was principally attributable to lower net sales in all of our business segments.

Net sales in the other fresh produce segment decreased \$26.9 million, principally as a result of lower net sales of pineapples, tomatoes and grapes, partially offset by higher net sales of fresh-cut products, avocados and plantains. Net sales of pineapples decreased due to lower sales volumes primarily as a result of unfavorable weather conditions in our Costa Rica and Philippines production areas. Partially offsetting the lower sales volumes were higher per unit sales prices in all of our regions. Worldwide pineapple sales volume decreased 25%. Net sales of tomatoes decreased due to a planned reduction of planted acreage in our Florida operation during the spring growing season, partially offset by higher per unit selling prices.

Table of Contents

Net sales of grapes decreased due to lower sales volumes in Asia, North America and Europe principally as a result of lower supplies from Chile.

Net sales of fresh-cut products increased due to higher worldwide sales volumes primarily as a result of increased customer demand in all regions combined with higher per unit sales prices in Asia.

Net sales of avocados increased due to higher sales volume in North America primarily due to higher customer demand and increased shipments from Mexico.

Net sales of plantains increased due to higher customer demand in North America.

Net sales of bananas decreased by \$16.4 million principally due to lower net sales in Europe and North America, partially offset by higher net sales in the Middle East and Asia. Worldwide banana sales volume decreased 5%. Europe banana net sales decreased due to lower sales volume principally as a result of the loss of customers in Northern Europe due to competition combined with lower industry volumes. Partially offsetting this decrease were higher per unit selling prices.

North America banana net sales decreased primarily as a result of lower sales volumes principally due to lower industry volumes and increased competition.

Middle East banana net sales increased due to higher sales volume resulting from an expanded customer base, partially offset by lower per unit sales prices.

Asia banana net sales increased primarily due to higher per unit sales prices as a result of lower industry supplies. Partially offsetting the higher banana per unit sales prices were lower sales volumes.

Net sales in the prepared food segment decreased \$2.2 million principally due to lower per unit sales prices in our poultry business in Jordan as a result of increased competition. Also contributing to the decrease in net sales in our prepared food segment were lower sales volume of canned pineapple principally as a result of decreased production in our Kenya operations and lower sales volumes of beverage products principally due to lower customer demand. Partially offsetting these decreases in net sales were higher pricing of industrial products and higher sales volume of canned deciduous fruit.

Cost of Products Sold. Cost of products sold was \$943.2 million for the second quarter of 2016 compared with \$1,020.1 million for the second quarter of 2015, a decrease of \$76.9 million. This decrease was primarily attributable to lower sales volumes and lower transportation costs. Also contributing to the decrease in cost of sales were lower fruit cost, principally for bananas, and lower production cost in the prepared food segment.

Gross Profit. Gross profit was \$145.4 million for the second quarter of 2016 compared with \$114.0 million for the second quarter of 2015, an increase of \$31.4 million. This increase was attributable to higher gross profit in all of our business segments.

Gross profit in the banana segment increased \$21.9 million primarily due to lower per unit costs and higher per unit selling prices in Asia and Europe. Partially offsetting these increases in banana gross profit were lower per unit sales prices in the Middle East. Lower per unit costs was principally due to lower transportation costs and lower fruit costs. Worldwide banana per unit sales prices increased 2%, and per unit costs decreased 4%.

Gross profit in the other fresh produce segment increased \$5.0 million principally due to higher gross profit on non-tropical fruit and tomatoes, partially offset by lower gross profit on melons.

Gross profit on non-tropical fruit increased due to higher selling prices of grapes in North America primarily as a result of low industry volumes.

Gross profit on tomatoes improved principally due to higher per unit selling prices for the re-pack tomato business combined with the absence of quality problems that we experienced in our Florida growing operations during the spring growing season of 2015.

Gross profit on melons decreased due to lower per unit selling prices in North America primarily as a result of higher industry volumes.

Gross profit in the prepared food segment increased by \$4.5 million principally due to higher gross profit on pineapple products as a result of higher sales prices on industrial pineapple products and canned pineapple primarily due to favorable market conditions combined with lower costs on canned pineapples. Partially offsetting these increases were lower gross profit in our Jordan poultry business primarily as a result of lower selling prices due to increased competition.

Table of Contents

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$2.6 million from \$41.9 million in the second quarter of 2015 to \$44.5 million for the second quarter of 2016. The increase was principally due to higher executive compensation as a result of increased earnings and higher stock price combined with higher professional fees and increased information technology costs.

Gain on Disposal of Property, Plant and Equipment, Net. The gain on disposal of property, plant and equipment, net, of \$8.9 million during the second quarter of 2016 was principally related to sales of surplus land in Central and South America. The gain on disposal of property, plant and equipment of \$1.0 million during the second quarter of 2015 consisted primarily of the sale of a refrigerated vessel.

Asset Impairment and Other Charges (Credits), Net. During the second quarter of 2016, asset impairments and other charges (credits), net, was a charge of \$3.1 million and relates to an asset impairment of \$2.5 million due to our decision to convert a banana plantation in the Philippines to a pineapple plantation during the next three years. In addition, we incurred \$0.6 million in impairment charges related to underutilized assets in Central America in the banana segment. During the second quarter of 2015, asset impairment and other charges (credits), net, was a credit of \$(0.5) million and relate principally to a gain of \$(0.8) million on the settlement of litigation regarding the infringement of European Union competition rules by a former indirect subsidiary not controlled by us in our banana segment. Partially offsetting this gain was a charge of \$0.3 million for damages incurred as the result of floods in Chile affecting non-tropical fruit operations.

Operating Income. Operating income for the second quarter of 2016 increased by \$33.1 million from \$73.6 million in the second quarter of 2015 to \$106.7 million for the second quarter of 2016. This increase was due to higher gross profit and higher gain on disposal of property, plant and equipment, partially offset by higher selling, general and administrative expenses and higher asset impairments and other charges (credits), net.

Interest Expense. Interest expense was \$1.3 million for both second quarter of 2016 and for the second quarter of 2015.

Other Income (Expense), Net. Other income (expense), net, was income of \$0.7 million for the second quarter of 2016 as compared with an expense of \$(0.1) million for the second quarter of 2015. The change in other income (expense), net, of \$0.8 million was principally attributable to foreign exchange gains during the second quarter of 2016 as compared with foreign exchange losses during the second quarter of 2015.

Provision for Income Taxes. Provision for income taxes was \$8.7 million for the second quarter of 2016 compared to \$6.4 million for the second quarter of 2015. The increase in the provision for income taxes of \$2.3 million is primarily due to higher earnings.

First Six Months of 2016 Compared with First Six Months of 2015

Net Sales. Net sales for the first six months of 2016 were \$2,106.7 million compared with \$2,142.5 million for the first six months of 2015. The decrease in net sales of \$35.8 million is due to lower net sales in all of our business segments.

Net sales of bananas decreased by \$12.1 million principally due to lower sales net sales in Europe and North America, partially offset by higher net sales in Asia and the Middle East. Worldwide banana sales volume decreased by 2%.

Europe net sales decreased due to lower sales volume principally as a result of the loss of customers in Northern Europe due to competition combined with lower industry volumes.

North America banana net sales decreased principally as a result of lower sales volumes principally due to lower industry volumes and increased competition.

Asia banana net sales increased as a result of higher sales volume and per unit sales prices principally due to increased customer demand and expanded shipments from our Central America operations.

Middle East banana net sales increased principally due to higher sales volume resulting from an expanded customer base, partially offset by lower per unit sales prices.

Net sales in the other fresh produce segment decreased \$10.6 million principally as a result of lower net sales of pineapples, tomatoes and grapes, partially offset by higher net sales of fresh-cut products, avocados and plantains.

Table of Contents

Net sales of pineapples decreased due to lower sales volumes primarily as a result of unfavorable weather conditions in our Costa Rica and Philippines production areas. Partially offsetting the lower sales volumes were higher per unit sales prices in Asia, Europe and North America. Worldwide pineapple sales volume decreased 12%.

Net sales of tomatoes decreased due to a planned reduction of planted acreage in our Florida operation, partially offset by higher per unit selling prices. Higher per unit selling prices was primarily the result of a higher percentage of our tomato net sales comprised of re-pack tomatoes which command higher selling prices.

Net sales of grapes decreased due to lower sales volumes in Asia and North America principally as a result of lower supplies from Chile.

Net sales of fresh-cut products increased due to higher worldwide sales volumes primarily as a result of increased customer demand in all regions combined with higher per unit sales prices in Asia and North America.

Net sales of avocados increased due to higher sales volume in North America primarily due to higher customer demand and increased shipments from Mexico.

Net sales of plantains increased due to higher customer demand in North America.

Net sales in the prepared food segment decreased \$13.1 million principally due to lower per unit sales prices in our poultry business in Jordan as a result of increased competition. Also contributing to the decrease in net sales in our prepared food segment were lower sales volume of canned pineapple principally as a result of decreased production in our Kenya operations and lower sales volumes of beverage products principally due to lower customer demand. Partially offsetting these decreases in net sales were higher pricing of industrial products, higher sales volume of canned deciduous fruit and new prepared food products in the Middle East market.

Cost of Products Sold. Cost of products sold was \$1,820.6 million for the first six months of 2016 compared with \$1,928.1 million for the first six months of 2015, a decrease of \$107.5 million. This decrease was primarily attributable to lower transportation costs, lower banana fruit cost and lower production cost in the prepared food segment. Also contributing to the decrease in cost of product sold was a 3% reduction in total sales volumes.

Gross Profit. Gross profit was \$286.1 million for the first six months of 2016 compared with \$214.4 million for the first six months of 2015, an increase of \$71.7 million. This increase was attributable to higher gross profit in all of our business segments.

Gross profit in the banana segment increased by \$34.7 million principally due to lower transportation cost combined with lower fruit cost. Worldwide banana per unit sales prices increased 1% and per unit cost decreased 4%.

Gross profit in the other fresh produce segment increased \$31.3 million principally due to higher gross profit on tomatoes, non-tropical fruit, fresh-cut products and avocados, partially offset by lower gross profit on melons.

Gross profit on tomatoes improved principally due to higher per unit selling prices for the re-pack tomato business combined with the absence of quality problems that we incurred in our Florida growing operations during the first two growing seasons of 2015.

Gross profit on non-tropical fruit increased due to higher selling prices of grapes in North America primarily as a result of low industry volumes.

Gross profit fresh-cut products increased principally due to higher sales prices and sales volumes in North America and Asia combined with higher sales volume in Europe. Also contributing to the increase in gross profit on fresh-cut products were lower per unit costs in Europe, principally as a result of improved efficiency. Partially offsetting these increase in gross profit were lower per unit selling prices in Europe and the Middle East.

Gross profit on avocados increased primarily due to increased sales volumes and lower fruit procurement costs in North America.

Gross profit on melons decreased due to lower per unit selling prices in North America primarily as a result of higher industry volumes.

Gross profit in the prepared food segment increased by \$5.7 million principally due to higher gross profit on pineapple products as a result of higher sales prices on industrial pineapple products and canned pineapple primarily due to favorable

Table of Contents

market conditions combined with lower costs on canned pineapples. Partially offsetting these increases were lower gross profit in our Jordan poultry business primarily as a result of lower selling prices due to increased competition.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased \$5.8 million from \$85.8 million for the first six months of 2015 to \$91.6 million for the first six months of 2016. The increase was principally due to higher executive compensation as a result of increased earnings and higher stock price combined with higher professional fees and increased information technology costs. Also contributing to the increase were higher selling expenses in the Middle East.

Gain on Disposal of Property, Plant and Equipment, Net. The gain on disposal of property, plant and equipment, net, was \$5.8 million during the first six months of 2016 and consisted primarily of gains on the sale of surplus land in Central and South America, partially offset by the disposal of low-yielding banana plants in Costa Rica and Guatemala in order to replant and improve productivity. During the first six months of 2015, the gain on disposal of property, plant and equipment of \$2.2 million consisted primarily of the sales of two refrigerated vessels.

Asset Impairment and Other Charges (Credits), Net. Asset impairment and other charges (credits), net, was \$3.1 million during the first six months of 2016 as compared with \$0.9 million during the first six months of 2015.

Asset impairments and other charges (credits), net, for the first six months of 2016 were:

- \$2.5 million due to our decision to convert a banana plantation in the Philippines to a pineapple plantation during the next three years; and

- \$0.6 million related to underutilized assets in Central America related to the banana segment.

Asset impairments and other charges (credits), net, for the first six months of 2015 were:

- A credit of \$(0.8) million as a result of the settlement of litigation regarding the infringement of European Union competition rules by a former indirect subsidiary not controlled by us in the banana segment;

- \$1.5 million related to damages incurred as the result of floods in Chile affecting non-tropical fruit operations; and

- \$0.2 million related to underutilized equipment in Kenya in the other fresh produce segment.

Operating Income. Operating income increased by \$67.3 million from \$129.9 million in the first six months of 2015 to \$197.2 million for the first six months of 2016. The increase in operating income was due to higher gross profit and higher gain on disposal of property, plant and equipment, partially offset by higher selling, general and administrative expenses and higher asset impairment and other charges (credits), net.

Interest Expense. Interest expense decreased by \$0.4 million from \$2.6 million for the first six months of 2015 to \$2.2 million for the first six months of 2016 principally due to lower average debt balances combined with lower interest rates.

Other income (Expense), Net. Other income (expense), net, was of \$3.3 million for the first six months of 2016 as compared with expense of \$(6.0) million for the first six months of 2015. The change in other income (expense), net, of \$9.3 million is principally attributable to foreign exchange income during the first six months of 2016 as compared with foreign exchange losses during the first six months of 2015.

Provision for Income Taxes. Provision for income taxes was \$19.8 million for the first six months of 2016 as compared with \$11.4 million for the first six months of 2015. The increase in the provision for income taxes of \$8.4 million is primarily due to higher earnings.

Fair Value Measurements

Potential impairment exists if the fair value of a reporting unit to which goodwill has been allocated is less than the carrying value of the reporting unit. The amount of the impairment to recognize, if any, is calculated as the amount by which the carrying value of goodwill exceeds its implied value. Future changes in the estimates used to conduct the impairment review, including revenue projection, market values and changes in the discount rate used, could cause the analysis to indicate that our goodwill or trademarks are impaired in subsequent periods and result in a write-off of a

portion or all of goodwill or trademarks. The discount rate used is based on independently calculated risks, our capital mix and an estimated market risk premium. The fair value of the prepared food reporting unit's trademarks is highly sensitive to differences between estimated and actual cash flows and changes in the related discount rate used to evaluate the fair value of these assets. If we are unable to recover from challenging economic conditions in Europe and we fail to meet our current expectations, the prepared food reporting unit's trademarks may be at risk for future impairment. We disclosed the sensitivities related to the banana reporting unit's goodwill and the prepared food reporting unit's trademarks in our annual financial statements included in our Annual Report on Form 10-K for the year ended January 1, 2016

Table of Contents

Seasonality

Interim results are subject to significant variations and may not be indicative of the results of operations that may be expected for the entire 2016 fiscal year. See the information under the caption “Seasonality” provided in Item 1. Business, of our Annual Report on Form 10-K for the year ended January 1, 2016.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in market risk from the information provided in Item 7A. Quantitative and Qualitative Disclosures About Market Risk of our Annual Report on Form 10-K for the year ended January 1, 2016.

Item 4. Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of July 1, 2016. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed in the reports the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms. Such officers also confirm that there was no change in our internal control over financial reporting during the quarter ended July 1, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

See Note 11, “Commitments and Contingencies”, to the Consolidated Financial Statements, Part I, Item 1 included herein.

Item 1A. Risk Factors

“Item 1A. Risk Factors” of our Form 10-K for the year ended January 1, 2016 includes a discussion of our risk factors. The information presented below updates, and should be read in conjunction with, the risk factors and information disclosed in our Form 10-K. Except as presented below, there have been no material changes from the risk factors described in our Form 10-K.

Economic conditions and regulatory changes leading up to and following the United Kingdom’s likely exit from the European Union could have a material adverse effect on our business and results of operations.

Following a referendum in June 2016 in which voters in the United Kingdom approved an exit from the European Union ("EU"), it is expected that the U.K. government will initiate a process to leave the EU (often referred to as Brexit) and begin negotiating the terms of the United Kingdom's future relationship with the EU. Our fresh produce and prepared food business faces uncertainty regarding the impact of the likely exit of the United Kingdom from the EU. Adverse consequences such as deterioration in economic conditions, volatility in currency exchange rates or adverse changes in regulation governing import duties or tariffs could have a negative impact on our operations, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information regarding our purchases of ordinary shares during the periods indicated:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Program (2)
April 2, 2016 through April 30, 2016	55,916	\$ 41.98	55,916	\$241,294,101
May 1, 2016 through May 31, 2016	—	\$ —	—	\$241,294,101
June 1, 2016 through July 1, 2016	—	\$ —	—	\$241,294,101
Total	55,916	\$ 41.98	55,916	\$241,294,101

(1) For the quarter ended July 1, 2016, we purchased and retired 55,916 of our ordinary shares.

(2) On July 29, 2015, our Board of Directors approved a three-year stock repurchase program of up to \$300 million of our ordinary shares.
