March 25, 2005

Dear Shareholder:

You are cordially invited to attend the 2005 Annual Meeting of Shareholders of The Chubb Corporation, which will be held on April 26, 2005 at 10:00 a.m., local time, in the Amphitheater of our corporate headquarters located at 15 Mountain View Road, Warren, New Jersey 07059.

Details regarding admission to the meeting and the business to be presented at the meeting can be found in the accompanying Notice of 2005 Annual Meeting of Shareholders and Proxy Statement.

Your vote is important. Regardless of whether you are able to attend, it is important that your shares be represented at the meeting. You may vote over the internet, as well as by telephone or by returning your proxy card. Directions for using these voting options are provided in the enclosed materials.

On behalf of the Board of Directors and the management of Chubb, I extend our appreciation for your continued support.

Yours sincerely,

John D. Finnegan
*Chairman, President and Chief
Executive Officer*

PROXY STATEMENT

PROXY AND VOTING INFORMATION

Our Board of Directors has provided you with these proxy materials in connection with our solicitation of proxies to be voted at the annual meeting of shareholders. We will hold the annual meeting on Tuesday, April 26, 2005 in the Amphitheater at The Chubb Corporation, 15 Mountain View Road, Warren, New Jersey, beginning at 10:00 a.m., local time. Please note that throughout these proxy materials we may refer to The Chubb Corporation as "Chubb," "we," "us," or "our." We first began mailing this proxy statement and accompanying proxy card on or about March 25, 2005.

Who Can Vote

Our Board has set March 7, 2005 as the record date for the annual meeting. Shareholders of record of our common stock at the close of business on March 7, 2005 may vote at the annual meeting.

How Many Shares Can Be Voted

Each shareholder has one vote for each share of common stock owned at the close of business on the record date. On the record date, 194,166,186 shares of our common stock were outstanding.

How You Can Vote

Record Holders. If your shares are registered in your name with EquiServe Trust Company, N.A., our dividend agent, transfer agent and registrar, you are considered a shareholder of record, and these proxy materials are being sent directly to you by us. Shareholders of record can vote in person at the annual meeting or give their proxy to be voted at the meeting in any one of the following ways:

over the internet;

by telephone; or

by completing and mailing the enclosed proxy card.

The internet and telephone voting procedures have been set up for your convenience. These procedures are designed to authenticate your identity, to allow you to give voting instructions and to confirm that those instructions have been recorded properly. If you are a shareholder of record and you would like to vote by using the internet or by telephone, please refer to the voting instructions attached to your proxy card. If you wish to vote using the enclosed proxy card, please sign, date and return your proxy card before the annual meeting, and we will vote your shares as you direct.

Chubb Plan Participants. If you are a participant in our 401(k) plan, your proxy will incorporate all shares allocated to you in the plan (Plan Shares), which you may vote over the internet, by telephone, by completing and mailing the enclosed proxy card or by voting in person at the meeting. Your proxy will serve as a voting instruction for the trustees of those plans. If your voting instructions are not received by April 21, 2005 any Plan Shares you hold will be voted in proportion to the way the other plan participants vote their shares.

Brokerage and Other Account Holders. You are considered to be the beneficial owner of shares held for you in an account by a broker, bank or other nominee. These proxy materials are being forwarded to you with respect to those shares by your broker, bank or nominee who is

the shareholder of record. You

have the right to direct your broker, bank or nominee on how to vote, and you may also attend the annual meeting. Your broker, bank or nominee has enclosed a voting instruction card. Beneficial owners of shares who wish to vote at the meeting must obtain a legal proxy from their broker, bank or nominee and present it at the meeting. The availability of telephone and internet voting for beneficial owners will depend on the voting processes of the broker, bank or nominee. Please refer to the voting instructions of your broker, bank or nominee for directions as to how to vote shares that you beneficially own.

Voting. Whether you vote over the internet, by telephone or by mail, you can specify whether you wish to vote your shares for or have your vote withheld from all, some, or none of the nominees for election as director (Proposal 1 on the proxy card). You can also specify whether you vote for or against, or abstain from, Proposal 2. If you abstain, your vote will not count for or against Proposal 2.

If you duly execute the proxy card but do not specify how you want to vote, your shares will be voted as our Board recommends, which is "FOR" the election of each of the nominees for director as set forth under Proposal 1 below and "FOR" ratification of the appointment of Ernst & Young LLP as independent auditor as described in Proposal 2 below.

Revocation of Proxies

If you are a shareholder of record or a holder of Plan Shares, you may revoke your proxy at any time before it is exercised in any of four ways:

by notifying our Corporate Secretary of the revocation in writing;

by delivering a duly executed proxy card bearing a later date;

by properly submitting a new timely and valid proxy via the internet or by telephone after the date of the revoked proxy; or

by voting in person at the annual meeting.

You will not revoke a proxy merely by attending the annual meeting. To revoke a proxy, you must take one of the actions described above.

If you hold your shares in a brokerage or other account, you may submit new voting instructions by contacting your broker, bank or nominee.

Required Votes

The presence, in person or by proxy, of the holders of a majority of all outstanding shares of our common stock entitled to vote at the annual meeting is necessary to constitute a quorum. For Proposal 1, election of directors, directors are elected by a plurality of the votes cast at the annual meeting. This means that the 13 nominees receiving the greatest number of votes will be elected as directors. Approval of Proposal 2, ratification of the appointment of Ernst & Young LLP as independent auditor, requires the affirmative vote of a majority of the votes cast on the proposal at the meeting. Abstentions are counted as shares present at the meeting for purposes of determining a quorum. Similarly, shares which brokers do not have the authority to vote in the absence of timely instructions from beneficial owners (broker non-votes) also are counted as shares present at the meeting for purposes of determining a quorum. Abstentions and broker non-votes are not considered votes cast and will not be counted either "for" or "against" these proposals and, accordingly, will have no effect on the outcome of the vote for Proposals 1 or 2.

Other Matters to be Acted upon at the Meeting

Our Board presently is not aware of any matters other than those specifically stated in the Notice of Annual Meeting, which are to be presented for action at the annual meeting. If any matter other than

those described in this proxy statement is presented at the annual meeting on which a vote may properly be taken, the shares represented by proxies will be voted in accordance with the judgment of the person or persons voting those shares.

Adjournments and Postponements

Any action on the items of business described above may be considered at the annual meeting at the time and on the date specified above or at any time and date to which the annual meeting may be properly adjourned or postponed.

Combined Annual Report and Form 10-K

We have prepared a combined Form 10-K and 2004 Annual Report to Shareholders in accordance with the rules of the Securities and Exchange Commission (SEC). A copy of this combined report, which is not a part of the proxy soliciting materials, accompanies this proxy statement and proxy card. **This report is available on our website at *www.chubb.com*. It also is available without charge by sending a written request to The Chubb Corporation, attention of the Corporate Secretary at 15 Mountain View Road, P.O. Box 1615, Warren, New Jersey 07061-1615.**

Important Notice about Security

All meeting attendees may be asked to present a valid, government-issued photo identification (federal, state or local), such as a driver's license or passport, and proof of beneficial ownership if you hold your shares through a broker, bank or other nominee before entering the meeting. Attendees may be subject to security inspections. Video and audio recording devices and other electronic devices will not be permitted at the meeting.

CORPORATE GOVERNANCE

Commitment to Corporate Governance

Our Board and management have a strong commitment to effective corporate governance. We have in place a comprehensive corporate governance framework for our operations which, among other things, takes into account the requirements of the Sarbanes-Oxley Act of 2002, the SEC and the New York Stock Exchange (NYSE). The key components of this framework are set forth in the following documents:

our Restated Certificate of Incorporation;

our By-Laws;

our Audit Committee Charter;

our Corporate Governance & Nominating Committee Charter;

our Organization & Compensation Committee Charter;

our Corporate Governance Guidelines;

our Code of Business Conduct; and

our Code of Ethics for CEO and Senior Financial Officers.

Copies of each of these documents are available on our website at www.chubb.com. Copies also are available without charge by sending a written request to our Corporate Secretary.

Corporate Governance Guidelines

Our Corporate Governance Guidelines address a number of policies and principles employed in the operation of our Board and our business generally, including our policies with respect to:

the size of our Board;

director independence and minimum qualifications;

factors to be considered in selecting candidates to serve on our Board;

director nominating procedures, including the procedures by which shareholders may propose director candidates;

term limits, director retirement, director resignations upon job change and Board vacancies;

directors' outside directorships and outside audit committee service;

Edgar Filing: CHUBB CORP - Form DEF 14A

role and responsibilities of the independent Lead Director;

director responsibilities;

director attendance at Board meetings, committee meetings and the annual shareholders meeting;

executive sessions of our independent directors;

director access to management and our Board's ability to retain outside consultants;

director compensation;

stock ownership guidelines for directors and certain employees;

administration of our legal compliance and ethics program;

charitable contributions and related party transactions;

director orientation and continuing education;

management succession and evaluation of the Chief Executive Officer;

annual self-assessments of the Board and each of the Audit Committee, the Corporate Governance & Nominating Committee (the Governance Committee) and the Organization & Compensation Committee (the Compensation Committee); and

shareholder access to our Board and Audit Committee.

Director Qualifications and Candidate Considerations

Our Board has established the Governance Committee which is comprised solely of directors satisfying the independence requirements of the NYSE. A copy of the charter of the Governance Committee is available on our website at www.chubb.com. Copies also are available by sending a written request to our Corporate Secretary. The Governance Committee is responsible, among other things, for:

recruiting qualified independent directors, consisting of persons with diverse backgrounds and skills who have the time and ability to exercise independent judgment and perform our Board's function effectively and who meet the needs of our Board; and

identifying the respective qualifications needed for directors serving on the committees of the Board and serving as chairmen of such committees, recommending to the Board the nomination of persons meeting such respective qualifications to the appropriate committees of the Board and as chairmen of such committees, and taking a leadership role in shaping our corporate governance policies.

We require that our Board have a majority of directors who meet the criteria for independence under applicable law and the rules of the NYSE. We believe that variety in the lengths of service among the directors benefits us. Accordingly, we do not have term limits for service on our Board. As an alternative to term limits, all director nominations are considered annually by the Governance Committee. Individuals who would be age 72 or older at the time of election are ineligible for nomination to serve on our Board. While our Board does not require that in every instance directors who retire or change from the position they held when they were elected to the Board resign, it does require that the Governance Committee consider the desirability of continued Board membership under the circumstances.

The Governance Committee considers a number of factors in selecting director candidates, including:

the personal and professional ethics, integrity and values of the candidate;

the independence of the candidate under legal, regulatory and other applicable standards, including the ability of the candidate to represent all of our shareholders without any conflicting relationship with any particular constituency;

the diversity of the existing Board, so that we maintain a diverse body of directors, with diversity reflecting gender, ethnic background, and geographic and professional experience;

whether the professional experience and industry expertise of the candidate will complement that of the existing Board;

the compatibility of the candidate with the existing Board;

the length of tenure of the members of the existing Board;

the number of other public company boards of directors on which the candidate serves or intends to serve, with the expectation that the candidate would not serve on the boards of directors of more than four other public companies;

Edgar Filing: CHUBB CORP - Form DEF 14A

the number of public company audit committees on which the candidate serves or intends to serve, with the expectation that, if the candidate is to be considered for service on our Audit Committee, the candidate would not serve on the audit committees of more than two other public companies;

the candidate's service on the boards of directors of other for profit, not-for-profit, trade associations or industry associations;

the ability and willingness of the candidate to devote sufficient time to carrying out his or her Board duties and responsibilities effectively;

the commitment of the candidate to serve on our Board for an extended period of time; and

such other attributes of the candidate and external factors as the Governance Committee deems appropriate.

The Governance Committee has the discretion to weight these factors as it deems appropriate. The importance of these factors may vary from candidate to candidate.

Director Independence

Our Governance Committee reviews each director's independence annually in accordance with the standards set forth in our Corporate Governance Guidelines and the requirements of the NYSE. No member of our Board will be considered independent unless the Governance Committee determines that the director has no material relationship with us that would affect the director's independence and that the director satisfies the independence requirements of all applicable laws, rules and regulations. To facilitate the analysis of whether a director has a relationship with us that could affect his or her independence, in our Corporate Governance Guidelines, we have identified the following categories of relationships which should not affect a director's independence and therefore are deemed immaterial:

Charitable contributions made by us to any organization:

pursuant to our Matching Gifts Program on terms applicable to employees and directors;

in amounts that do not exceed \$25,000 per year; or

that have been approved by the Governance Committee.

Commercial relationships with any entity or organization where the annual sales to, or purchases from, us are less than two percent of our annual revenue and less than two percent of the annual revenue of the other entity or organization.

Insurance, reinsurance and other risk transfer arrangements entered into in the ordinary course of business on an arm's length basis.

Although not required by law or the NYSE, because we act primarily as a holding company, our Board believes that it is in our best interest and the best interest of our shareholders for our principal operating subsidiary, Federal Insurance Company, to have a majority of its directors meet the criteria for independence applicable to our directors. As a result, for 2004, as the sole shareholder of Federal Insurance Company, we elected to its board of directors the members of our Board, and persons who serve as members of our Board's committees were appointed by the board of directors of Federal Insurance Company to serve on the same committees of the board of directors of Federal Insurance Company. Our Board believes that such board and committee responsibilities are consistent with the independence requirements applicable to service on our Board and its committees and that simultaneous service on our Board and on the board of directors of Federal Insurance Company and their respective committees enhances the effectiveness of such service.

Edgar Filing: CHUBB CORP - Form DEF 14A

Our Board reviewed director independence in 2004 based on the assessment of the Governance Committee. During this review, our Board considered relationships and transactions during the year

between each director, or any member of the director's immediate family, and us. As a result of its review, our Board determined that each of our directors, other than Mr. Finnegan, who is our Chairman, President and Chief Executive Officer, is independent. In reaching this determination, the Board noted the following charitable contributions which were previously approved by the Governance Committee:

A contribution of \$60,000 was made to the Institute for Civil Justice, a part of RAND Corporation. We have been a long time supporter of the Institute. Until January 2004, Ambassador Seitz served as an advisor to RAND Europe, which is also a subsidiary of RAND. Ambassador Seitz did not receive compensation from RAND Europe in connection with his advisory services.

The fifth annual installment, in the amount of \$80,000, of an \$800,000 pledge we made in February 2000 to the Friends of the National Zoo (which pledge is to be paid in ten equal annual installments commencing in 2000). The National Zoo is part of the Smithsonian Institution. Mr. Small is Secretary of the Smithsonian Institution and Ms. Burke is its Deputy Secretary and Chief Operating Officer. Ms. Williams' husband retired from his position as a Regent of the Smithsonian Institution on December 31, 2004.

Our Board determined that none of these relationships impaired the independence of any director and that all of the directors, other than Mr. Finnegan, are independent.

Nominating Procedures

The primary purpose of our nominating procedures is to identify and recruit outstanding individuals to serve on our Board. Our Board has delegated responsibility for identifying director candidates to the Governance Committee, which meets periodically to consider the slate of nominees for election at our next annual meeting. If appropriate, the Governance Committee schedules follow-up meetings and interviews with potential candidates. The Governance Committee submits its recommended nominee slate to our entire Board for approval.

The Governance Committee will consider candidates recommended by directors, members of management and our shareholders. In addition, the Governance Committee may, in its discretion, engage one or more search firms to assist in the recruitment of director candidates.

The procedures for shareholders to propose director candidates are set forth in Article I, Section 10 of our By-Laws. For a shareholder proposed candidate to be considered, in addition to complying with the notice period described in our By-Laws, the shareholder must provide:

all information relating to each person whom the shareholder proposes to nominate for election as a director as would be required to be disclosed in a solicitation of proxies for the election of such person as a director pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (Exchange Act), including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if so elected;

the name and address of the shareholder giving the notice, as they appear on our books, and of the beneficial owner of those shares; and

the class and number of shares which are owned beneficially and of record by the shareholder and the beneficial owner.

The Governance Committee may make such additional inquiries of the candidate or the proposing shareholder as the Governance Committee deems appropriate. This information is necessary to allow the Governance Committee to evaluate the shareholder's proposed candidate on the same basis as those candidates referred through directors, members of management or by consultants the Governance Committee retains. The Governance Committee will not consider any candidate who it concludes does not meet its minimum director qualifications described above.

Edgar Filing: CHUBB CORP - Form DEF 14A

Shareholders wishing to propose a candidate for consideration should refer to Article I, Section 10 of our By-Laws, the section of this proxy statement entitled "2006 Shareholder Proposals and Nominations" and the SEC rules relating to shareholder proposal submission procedures.

Lead Director

Our Board annually elects an independent director to serve as Lead Director to ensure our Board's independence and proper functioning when, as is presently the case, the offices of Chief Executive Officer and Chairman of the Board are combined. The Lead Director has the following authority:

to call special meetings of the Board;

to call special meetings of any committee of the Board;

with the consent of a majority of the members of our Board's Executive Committee, to call special meetings of the shareholders;

in the absence of the Chairman of the Board, to preside at meetings of the Board;

to preside at all executive sessions of the non-management directors and the independent directors;

in the absence of the Chairman of the Board, to preside at shareholder meetings;

to provide direction regarding the meeting schedule, information to be sent to the Board and the agenda for the Board meetings to assure that there is sufficient time for discussion of all agenda items;

at the Lead Director's election, to attend committee meetings of any committee on which he or she is not otherwise a member;

to hire independent legal, financial or other advisors as he or she deems desirable or appropriate, without consulting or obtaining the approval of any officer of Chubb in advance; and

to exercise such additional powers as may be conferred upon the office of Lead Director by resolution of the Board or the Governance Committee from time to time.

The Lead Director serves on our Board's Executive Committee and is eligible to serve on any or all other committees of the Board. The office of Lead Director is not subject to term limits. Joel J. Cohen has served as our Lead Director since December 2003 when our Chief Executive Officer, John D. Finnegan, succeeded Mr. Cohen as Chairman of the Board.

Contacting our Board of Directors and Audit Committee

Director Communications

Shareholders interested in contacting our Board, the Chairman of the Board, the Lead Director or any individual director are invited to do so by writing to them in care of the Corporate Secretary at:

The Chubb Corporation
15 Mountain View Road
P.O. Box 1615
Warren, New Jersey 07061-1615

Edgar Filing: CHUBB CORP - Form DEF 14A

Complaints and concerns relating to our accounting, internal accounting controls or auditing matters should be communicated to the Audit Committee of our Board using the procedures described below. Shareholder communications addressed to a particular director will be referred to that director. All other shareholder communications addressed to our Board will be referred to our Lead Director and tracked by the Corporate Secretary.

Audit Committee Communications

Complaints and concerns relating to our accounting, internal accounting controls, or auditing matters should be communicated to the Audit Committee of our Board, which consists solely of non-employee directors. Any such communication may be anonymous and may be reported to the Audit Committee through our General Counsel by writing to:

Senior Vice President and General Counsel
The Chubb Corporation
15 Mountain View Road
P.O. Box 1615
Warren, New Jersey 07061-1615
GeneralCounsel@chubb.com

All such concerns will be reviewed under Audit Committee direction and oversight by the General Counsel, Internal Audit, or such other persons as the Audit Committee determines to be appropriate. Confidentiality will be maintained to the fullest extent possible, consistent with the need to conduct an adequate review. Prompt and appropriate corrective action will be taken when and as warranted in the judgment of the Audit Committee. The General Counsel will prepare a periodic summary report of all such communications for the Audit Committee.

Our Code of Business Conduct provides that we will not discharge, demote, suspend, threaten, harass or in any manner discriminate against any employee in the terms and conditions of employment based upon any lawful actions of such employee with respect to good faith reporting of complaints regarding accounting matters or otherwise as specified in Section 806 of the Sarbanes-Oxley Act of 2002.

Required Certifications

As of the mailing date of this proxy statement, our Chief Executive Officer and Chief Financial Officer have timely delivered the certifications required under applicable rules of the SEC and the NYSE.

Meeting Attendance and Related Matters

Our directors are expected to attend all Board meetings, meetings of committees on which they serve and the annual meeting of shareholders. Except for four directors who were unavoidably delayed due to a major traffic accident, all of our directors attended the 2004 annual meeting of shareholders. Directors also are expected to spend the time needed and to meet as frequently as necessary to properly discharge their responsibilities. The Chairman of the Board generally presides at all Board meetings. In December 2003, our Board decided to re-combine the offices of Chairman of the Board and Chief Executive Officer, which the Board previously had separated when John D. Finnegan was hired from outside Chubb to serve as our President and Chief Executive Officer. In December 2003, our Board also elected Joel J. Cohen, who had served as non-executive Chairman, to serve as Lead Director. The Lead Director presides at all executive sessions of our non-management and independent directors.

All of our directors also are directors of our principal insurance company subsidiary, Federal Insurance Company. It is the practice of our Board to hold concurrent meetings with the board of directors of Federal Insurance Company. In 2004, our Board met six times. All of our incumbent directors attended at least 75% of the meetings of our Board and the committees on which they served.

Audit Committee

The Audit Committee is directly responsible for the appointment, compensation and retention (or termination) of our independent auditor. The Audit Committee also is responsible for the oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, the independence and qualifications of our independent auditor, the performance of our internal audit function and

independent auditor and other significant financial matters. Our Board has designated James M. Cornelius, an independent director, as our "audit committee financial expert" (as defined by SEC rules). Mr. Cornelius presently serves on the audit committees of three other public companies. Our Board of Directors has determined that this service does not impair Mr. Cornelius' ability to effectively serve on our Audit Committee. In 2004, the Audit Committee met eight times. The Audit Committee Report for 2004 is set forth in this proxy statement.

Governance Committee

The Governance Committee assists our Board in identifying individuals qualified to become members of the Board and oversees the annual evaluation of the Board and each committee. As provided in its charter, the Governance Committee also makes recommendations to the Board on a variety of corporate governance and nominating matters, including recommending standards of independence, director nominees, appointments to committees of the Board, designees for chairmen of the committees, non-employee director compensation and corporate governance guidelines. In 2004, the Governance Committee met six times.

Compensation Committee

The Compensation Committee discharges the Board's responsibilities relating to compensation of our executives. The Compensation Committee's primary responsibilities include establishing general compensation policies and overseeing the development and implementation of compensation and benefit programs. The Compensation Committee also evaluates the performance and sets the compensation of our Chief Executive Officer. In addition, the Compensation Committee recommends the form and amount of compensation for the non-management directors of our Board, subject to review by the Governance Committee and approval by the Board. The Compensation Committee's duties also include administering several of our incentive compensation and equity plans. In 2004, the Compensation Committee met five times. The Organization & Compensation Committee Report for 2004 is set forth in this proxy statement.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is a current or former officer or employee of Chubb or any of our subsidiaries. There were no Compensation Committee interlocks, within the meaning of the SEC's proxy rules, with other companies during 2004.

Directors' Compensation

Cash Compensation

Non-employee directors received the following cash compensation:

	<u>2004</u>	<u>2003</u>
Annual Director Stipend	\$ 35,000	\$ 35,000
Lead Director Annual Supplemental Stipend	50,000	N/A
Annual Non-Executive Chairman's Stipend	N/A	200,000
Fee Per Board and Committee Meeting	1,500	1,500
Annual Committee Stipend	7,500	7,500
Audit Committee and Compensation Committee Chairmen's Stipend (in lieu of regular committee stipend)	15,000	15,000
Governance Committee Chairman's Stipend (in lieu of regular committee stipend)	10,000	10,000

Under our Deferred Compensation Plan for Directors, directors who are not officers or employees of Chubb or any of our subsidiaries may defer receipt of all or a portion of their cash compensation. The

amounts are payable at the option of the director either upon the director's termination of service or at a specified date chosen by the director. This plan provides that amounts deferred may be invested in:

- a cash account which earns interest at the prime rate;
- a market value account with units based on the market value of our common stock; or
- a shareholder's equity account with units based on the book value of our common stock.

Our Board has adopted guidelines suggesting that eligible non-employee directors voluntarily defer 50% of all stipends into a market value account. A participant may elect to receive the compensation deferred in either a lump sum or in annual installments. All amounts are paid in cash except for the market value account which is paid in shares of our common stock. At December 31, 2004, deferred compensation accounts were maintained for ten directors, of which seven directors are currently deferring compensation pursuant to this plan. For 2004, directors deferred an aggregate of \$289,875 of compensation.

At December 31, 2004, the aggregate account values reflecting directors' deferrals and earnings on such deferrals were as follows:

Cash Account	\$	59,705
Market Value Account	\$	2,821,852
Shareholder's Equity Account	\$	397,499

During 2004, Messrs. Seitz and Small recognized imputed income of \$1,866 and \$206, respectively, in connection with life insurance policies purchased prior to 2002 under our Estate Enhancement Program. The cost of the life insurance policies to us will not exceed the after-tax cost we expect to incur in connection with the payment of previously deferred amounts under the Deferred Compensation Plan for Directors. No policies have been purchased since the enactment of the Sarbanes-Oxley Act of 2002.

Equity Compensation

The Chubb Corporation Stock Option Plan for Non-Employee Directors was originally adopted by the Board and approved by shareholders in 1988. From 1988 through 2001 it was amended three times to adjust the number of shares issuable thereunder. In 2004, our shareholders voted to replace The Chubb Corporation Stock Option Plan for Non-Employee Directors with The Chubb Corporation Long-Term Stock Incentive Plan for Non-Employee Directors (2004) (the 2004 Director Plan).

The 2004 Director Plan is administered by the Governance Committee. Subject to adjustment upon the occurrence of certain events described below, a maximum of 250,000 shares may be issued under the 2004 Director Plan in respect of annual and discretionary stock-based awards. The 2004 Director Plan provides for a specific level of annual grants to be made to each non-employee director in the form of performance shares and stock units. The 2004 Director Plan also authorizes the Governance Committee to make additional grants in its discretion which may be in the form of performance shares, performance units, stock awards, stock units, stock options or stock appreciation rights. Each of the 12 non-employee directors who we expect to continue serving on our Board after the annual meeting will be eligible to receive awards under the 2004 Director Plan.

Effective immediately following the annual meeting of our shareholders occurring in each calendar year during which the 2004 Director Plan is in effect, each non-employee director then in office will receive an annual grant comprised of performance shares and stock units, where the ratio of performance shares to stock units is three to one. The number of performance shares and stock units in each annual grant will be established so that the aggregate value of the annual grant will be approximately \$90,000 (or such higher amount not greater than the value of 1,500 shares of our common stock, as the Governance Committee may determine). The 2004 Director Plan also authorizes the Governance Committee to make grants to non-employee directors in addition to the annual grants described in the preceding paragraph.

These discretionary grants may be made in the form of any type of award authorized for grant under the 2004 Director Plan. It is currently anticipated that discretionary grants will be made to address special circumstances, such as when one or more non-employee directors are called upon to provide services to us above and beyond that required of non-employee directors generally. The Governance Committee will also exercise this discretionary authority to make awards to any non-employee director who is first elected to the Board other than at the time of an annual shareholders meeting.

Performance shares or units comprise 75% of each annual grant. The payment of performance shares and performance units is conditioned upon meeting one or more specified performance goals. Subject to the Governance Committee's discretion to adjust the applicable performance goal as it deems equitable to reflect unusual or non-recurring events affecting us or changes in tax law or accounting principles or other factors, the performance goal with respect to any such annual grant will be the total return to our shareholders, inclusive of dividends paid, during the applicable performance period, determined relative to the total shareholder return of the companies included in the Standard & Poor's 500 Index on the date the annual grant is made, who will have continued to file public reports which will allow us to perform such comparison for the entire time covering the performance period. The Governance Committee may provide at grant that, depending on actual performance measured against the stated performance goals, the amount payable in respect of performance shares and units will range from 0% to 200% of the target grant for each such award. A non-employee director whose service as a member of the Board terminates during a performance cycle will be entitled to receive the same payment in respect of performance shares (including those made as part of the annual grant) and performance units, without proration, that would have been payable had his or her service continued until the end of the applicable performance cycle. Any amount payable to a departed non-employee director will generally be paid at the same time as amounts in respect of similar awards are paid to other participants in the 2004 Director Plan (or at such earlier time as the Governance Committee may permit). However, if a non-employee director is removed from the Board for cause (or resigns in anticipation of such removal) the director will forfeit all rights to receive any payment in respect of his or her outstanding performance shares or performance units.

Stock or stock units comprise 25% of each annual grant. These awards fully vest immediately upon grant. However, if a non-employee director is removed from the Board for cause (or resigns in anticipation of such removal), the director will forfeit all rights to receive any payment in respect of his or her outstanding stock units.

Director Stock Ownership Guidelines

Our Board has adopted a stock ownership guideline which provides that within five years of the later of first being elected and June 2003, a director should achieve an ownership level in our common stock or common stock equivalents, such as market value equivalents, which has a value equal to five times the annual stipend paid to non-employee directors for Board service.

Director's Charitable Award Program

Effective January 1, 1992, we established the Director's Charitable Award Program. Under the program, which is administered by the Compensation Committee, each non-employee director following his or her first election to the Board by shareholders may recommend that we direct one or more charitable contributions totaling up to \$500,000 to eligible tax exempt organizations. The program may be funded by us through, among other things, the purchase of life insurance policies on the lives of the directors. Generally, eligible directors are paired for purposes of buying second-to-die life insurance policies. The proceeds of this policy are used to fund the contributions to the organizations selected by the directors upon the death of the second paired director. At March 7, 2005, 10 current directors were participating in the program. We may amend or terminate the program at our election at any time. In addition, the director is entitled to change his or her designated charities at any time.

OUR BOARD OF DIRECTORS

Our Board oversees our business operations, assets, affairs and performance. In accordance with our long-standing practice, each of our directors other than our Chief Executive Officer is independent. Our Corporate Governance Guidelines provide that no director may be nominated to a new term if the director would be age 72 or older at the time of election.

The name, age, principal occupation and length of service of each incumbent director, together with certain other biographical information, are set forth below. Our shareholders elected each of this year's nominees to serve as directors during 2004. Unless otherwise indicated, each nominee has served for at least five years in the business position currently or most recently held. The age of each director is as of April 26, 2005, the date of the annual meeting.

ZOË BAIRD (Age 52)

Director since 1998

Zoë Baird is President of the Markle Foundation, a private philanthropy that focuses on using information and communications technologies to address critical public needs, particularly in the areas of health care and national security.

COMMITTEE ASSIGNMENTS

Our Board has established six committees to assist the Board in fulfilling its responsibilities. Those committees are the Audit Committee, the Compensation Committee, the Executive Committee, the Finance Committee, the Governance Committee, and the Pension & Profit Sharing Committee. The charter for each of the Audit, Compensation and Governance Committees, which are available on our website at www.chubb.com, requires that all members satisfy the independence requirements of the NYSE. The Governance Committee annually considers committee assignments, with appointments being effective as of the date of the annual shareholders' meeting. Current members of our committees are identified below:

Audit Committee

James M. Cornelius (Chair)	Daniel E. Somers
Zoë Baird	Alfred W. Zollar
Joel J. Cohen	

Compensation Committee

Daniel E. Somers (Chair)	Lawrence M. Small
Sheila P. Burke	Karen Hastie Williams

Executive Committee

John D. Finnegan (Chair)	James M. Cornelius
James I. Cash, Jr.	Daniel E. Somers
Joel J. Cohen	

Finance Committee

John D. Finnegan (Chair)	David G. Scholey
Sheila P. Burke	Raymond G.H. Seitz
Klaus J. Mangold	Alfred W. Zollar

Governance Committee

AUDIT COMMITTEE REPORT

Purpose

The Board has formed the Audit Committee to assist the Board in monitoring:

the integrity of our financial statements;

our compliance with legal and regulatory requirements;

the independence and qualifications of our independent auditor; and

the performance of our internal auditors and independent auditor.

Composition and Meetings

The Audit Committee is composed of five directors, each of whom our Board has determined to be independent and each of whom satisfies the applicable legal and regulatory independence requirements. James M. Cornelius serves as the chairman of the Audit Committee and our Board also has designated him as the audit committee financial expert. The Governance Committee and the full Board consider Audit Committee membership annually. Committee appointments are effective as of the date of the annual meeting. In addition to Mr. Cornelius, Ms. Baird and Messrs. Cohen, Somers and Zollar presently serve on the Audit Committee. The Audit Committee met eight times during 2004.

Charter and Self-Assessment

The Audit Committee operates pursuant to its written charter, which has been approved by the Audit Committee and our entire Board. The Audit Committee Charter is subject to review at least annually. It was last revised in February 2005.

Pursuant to its charter, the Audit Committee performs an annual self-assessment. For 2004, the Audit Committee concluded that, in all material respects, it had fulfilled its responsibilities and satisfied the requirements of its charter and applicable laws and regulations.

Appointment of Independent Auditor

Under its charter, the Audit Committee, among other things, is directly responsible for the appointment, compensation, retention and oversight of the work of the independent auditor engaged for the purpose of preparing or issuing an audit report or related work or performing other audit, review or attest services for us. The Audit Committee has appointed Ernst & Young LLP to serve as independent auditor. The Audit Committee has recommended to the Board that Ernst & Young's appointment as independent auditor be submitted for ratification by Chubb's shareholders. This matter is described in this proxy statement under the heading "Proposal 2, Ratification of Appointment of Independent Auditor."

Review of Financial Information

Management is responsible for our internal controls over the financial reporting process and the independent auditor is responsible for performing an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and for issuing a report on its audit. The Audit Committee is charged with overseeing and monitoring these activities on behalf of the Board. During 2004 and the first quarter of 2005, the Audit Committee reviewed and discussed with management and the independent auditor our quarterly financial statements, our audited consolidated financial statements for the year ended December 31, 2004 and the results of the independent auditor's review of our 2004 quarterly financial statements. In particular, the Audit Committee discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 61, as amended

by Statement on Auditing Standards No. 90, Audit Committee Communications and SEC Final Rule Release Nos. 33-8183 and 33-8183a.

Critical Accounting Policies

During its discussions with the independent auditor, the Audit Committee reviewed our critical accounting policies and practices and alternative treatments of financial information.

Independence

The Audit Committee received the written disclosures and the letter from the independent auditor required by Independence Standards Board Standard No. 1 and discussed with the independent auditor the firm's independence and objectivity. The Audit Committee has reviewed and pre-approved all fees of the independent auditor for the years ended December 31, 2004 and 2003, and have determined that the provision of these services is compatible with maintaining the independence of the independent auditor.

Inclusion of Consolidated Financial Statements in Form 10-K

Based on the foregoing, the Audit Committee has recommended to the Board that the audited consolidated financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2004 to be filed with the SEC during the first quarter of 2005.

The foregoing report has been furnished by the following members of the Board of Chubb who comprise the Audit Committee:

James M. Cornelius (Chair)	Daniel E. Somers
Zoë Baird	Alfred W. Zollar
Joel J. Cohen	

This Audit Committee Report shall not be deemed to be "soliciting material," to be "filed" with the Commission, subject to Regulation 14A or 14C or to the liabilities of Section 18 of the Exchange Act, except to the extent that we specifically request that the information be treated as soliciting material, nor shall it be incorporated by reference into any document filed under the Securities Act of 1933, as amended (Securities Act), or the Exchange Act unless we specifically incorporate it by reference.

ORGANIZATION & COMPENSATION COMMITTEE REPORT

The Organization & Compensation Committee (the Compensation Committee), which establishes and administers our compensation program, has furnished the following report for the year 2004.

Compensation Policies

Our compensation program is designed to align shareholder interests with our business strategy, values and management initiatives based on the following principles:

a substantial portion of management's compensation should depend on our overall financial performance;

members of senior management should be encouraged to own our stock;

we should attract and retain superior executives by providing them with the opportunity to earn competitive total compensation packages that are aligned with company and individual performance;

we should reward individual results by recognizing performance through salary, annual cash incentives and long-term incentives; and

we should manage compensation based on the level of skill, knowledge, effort and responsibility needed to perform the job successfully.

Compensation Strategy

In 2004, the Compensation Committee continued utilizing the principles and policies it has employed in the past to guide the design and implementation of, and decisions relating to, compensation. To assess the competitiveness of total compensation opportunities for our Chief Executive Officer and the three Vice Chairmen and to validate their pay and performance relationship, the Compensation Committee uses a peer group of 14 companies in the property and casualty insurance and financial services industries. For compensation benchmarking for other members of senior management, the Compensation Committee utilizes a variety of broader industry surveys, which include companies in the property and casualty insurance industry and the insurance and financial services peer group, and assesses data for positions of similar scope and responsibility. The total compensation program for senior management emphasizes performance-based compensation as a significant portion of the total pay mix. The proportion of at-risk pay increases for higher levels of management.

To assist in the analysis of 2004 executive pay, the Compensation Committee engaged a nationally recognized compensation consultant to review and assess our compensation program. Their study indicated that our compensation program provided competitive total pay opportunities for named executive officers reflective of our compensation strategy, and that total pay received for the prior year was generally aligned with our relative performance versus peers. A significant part of the study included a review of new long-term incentive award alternatives that would help to reduce the emphasis on stock option awards and assist in lowering equity use. The Compensation Committee, with input from management and the consultant, adopted the new program design (as described in this report), and put forth to shareholders The Chubb Corporation Long-Term Stock Incentive Plan (2004) (the 2004 Employee Plan). On April 27, 2004, the shareholders approved the 2004 Employee Plan and all 2004 employee equity awards were made thereunder.

Deductibility of Compensation in Excess of \$1 Million

Under Section 162(m) of the Internal Revenue Code, compensation paid to certain named executive officers in excess of \$1 million per year is not deductible for federal income tax purposes by an employer unless the compensation is "performance-based" as described in the regulations under Section 162(m).

The Compensation Committee understands the desirability of designing compensation in a manner which avoids non-deductibility under Section 162(m), but also recognizes the need to structure competitive pay packages that properly incentivize management and aligns their interests with those of our shareholders. For 2004, a substantial portion of the overall compensation paid to our named executive officers is not subject to the deduction limitation of Section 162(m), including base salaries, all annual cash incentive awards and 2004 total shareholder return-based performance share awards. However, we also paid or provided for certain non-deductible compensation, including our named executive officers' performance share payouts relating to the 2002-2004 performance cycle (which were subject to certain retroactive adjustments to account for certain prior year developments, as discussed further below under the heading "Performance Share Plan Payments").

Components of Compensation

The primary components of our compensation program for senior management are:

base salary;

annual cash incentive awards;

long-term incentive awards; and

benefits.

The level of annual cash and long-term incentive awards, which constitute the majority of the compensation opportunity for members of senior management, varies with corporate, business unit and individual performance.

Base Salary

Amounts paid as base salary, including merit salary increases, are determined by:

the employee's individual performance;

salary level within the established pay range for the individual's position; and

salaries offered in the industry for comparable positions.

The Compensation Committee monitors the factors described above and periodically approves changes in base salary for members of senior management.

Annual Cash Incentive Awards for 2004

Annual Incentive Compensation Methodology

Annual cash incentive compensation for our executive officers is determined and paid pursuant to our Annual Incentive Compensation Plan (2001). In March 2004, the Compensation Committee established the 2004 target award pool, the annual performance goals and the payout schedules for plan participants. This goal-setting process differed from past practices in two important respects. First, the Compensation Committee replaced its practice of considering year-end adjustments to our financial results based on extraordinary events with formulaic adjustments that are established at the beginning of the performance period. Second, the Compensation Committee eliminated the peer group adjustments that it had utilized in the past. The rationale for each of these actions is discussed, in turn, below.

With respect to the shift from year-end adjustments to formulaic ones, the Compensation Committee observed that certain unpredictable events relating to prior years, in some cases decades old (such as asbestos-related issues) can have a material impact on current year results and, therefore, have a material

impact on the achievement of performance metrics established at the outset of the year. The Compensation Committee's philosophy has been, and continues to be, that it is inappropriate to penalize or reward current employees in respect of these matters.

For 2004, the Compensation Committee adopted a more systematic approach to address these issues by establishing certain categorical exclusions from corporate results for purposes of the annual incentive compensation formula at the time of its adoption. This eliminated the uncertainty associated with the year-end impact of these unpredictable factors on the pre-established goals and performance metrics. In addition to providing a more equitable incentive compensation calculation, addressing these unpredictable events at the time the award formula was established allowed the bonus payments to be exempt from the deduction limits of Section 162(m) of the Internal Revenue Code.

As described below, although the Committee established a number of categorical exclusions in March 2004, only one of these exclusions, the \$75 million strengthening of asbestos reserves in the fourth quarter, impacted our 2004 performance results.

Turning to the elimination of peer group adjustments utilized in past years, the Compensation Committee determined that the peer group analysis is of limited utility because the impact of catastrophes and other one-time events can have very different effects on us and our peers, thereby making it difficult to perform a meaningful comparison. The Compensation Committee also noted that, given the emphasis on relative performance in our new long-term incentive program and our reliance on peer group analysis for benchmarking overall compensation generally, it was appropriate to increase the line of sight between our actual performance and bonuses payable under our annual cash incentive program.

2004 Annual Incentive Compensation Award Pool

For 2004 annual cash incentive awards, the Compensation Committee calculated the total incentive compensation pool by comparing our results with the pre-established performance metrics our combined ratio and operating income goals to which it assigned equal weight. Under the formula adopted in March 2004, the pool could range in size from 0% to 200% of the target dollar award for all participants covered by the Annual Incentive Compensation Plan (2001). Our year-end performance, excluding the increase in asbestos reserves noted above, surpassed our targets for each of the two performance metrics. Under the annual incentive compensation formula, our combined ratio was 91.7% and our operating income was \$1,451,200,000. This yielded an award pool of 133.8% of the target. The Compensation Committee determined the final award pool by applying this percentage to the target dollar award pool for each payband.

In determining actual award payouts for most members of management, 2004 incentive compensation generally was based on three factors:

- the size of the incentive compensation pool;
- the business unit performance (as appropriate); and
- the individual's performance.

However, for the Chief Executive Officer and the three Vice Chairmen, the Compensation Committee determined their incentive compensation based exclusively on the size of the incentive compensation pool without further adjustment for business unit or individual performance.

Long-Term Incentive Awards

Long-term incentive awards are made under the 2004 Employee Plan, which the Compensation Committee administers. This plan provides stock-based awards to eligible employees, including the named executive officers and most other levels of management and can include:

performance share awards (including total shareholder return-based performance shares, described below);

restricted stock and restricted stock units; and

stock options.

Except for stock option grants to employees in certain foreign jurisdictions made for purposes of tax efficiencies, the current intention is to grant only performance shares and restricted stock units.

These awards are based on guidelines that provide for competitive award opportunities commensurate with payband levels. For the Chief Executive Officer and the three Vice Chairmen, the award opportunities reflect competitive practices within our peer group of 14 insurance and financial services companies against which we benchmark pay opportunities. For other members of senior management, the Compensation Committee generally uses a variety of broader industry surveys which include members of both the 14 company peer group and the broader industry peer group described above in this report under the heading " Compensation Strategy" in this proxy statement.

2004 Employee Plan

We have long had in effect stock-based incentive plans that have allowed us to grant management and other key employees various types of awards, including stock options, performance shares and restricted stock. The use of these programs reflects our Board of Directors' belief that encouraging stock ownership by senior management and other key employees serves to attract, retain and motivate such personnel by providing them a direct, personal financial interest in our continued success. However, our Board has concluded that shifting away from stock options in favor of total shareholder return-based performance shares (TSRs) and restricted stock or units will better align their interests with those of our shareholders and serve as a stronger retention tool for key employees. Accordingly, while there still may be times or circumstances where stock option grants are a more appropriate means of providing long-term incentive, the 2004 Employee Plan emphasizes TSRs, restricted stock and restricted stock units.

An additional benefit of this shift in award type is that substantially fewer shares are needed to provide competitive awards when grants are primarily in the form of TSRs, restricted stock and restricted stock units, rather than stock options. The number of shares utilized for equity compensation plans is often referred to as stock usage, which we define as a percentage equal to shares granted as equity compensation in a calendar year divided by the outstanding number of shares of common stock. Under The Chubb Corporation Long-Term Stock Incentive Plan (2000) (the 2000 Employee Plan), stock options were the predominant form of equity award and resulted in a stock usage of approximately 2.5% per year. In 2004, our stock usage under the 2004 Employee Plan dropped dramatically to 0.7% assuming TSR payouts at target and 0.9% if the maximum TSR payout is achieved. In shares, this equates to a decline of 2,989,632 shares from 4,711,943 shares granted for all types of equity awards in 2003 to 1,722,311 shares granted in 2004 (assuming a share reserve at the maximum payout for TSRs).

In 2004, the Compensation Committee granted TSRs representing a total of 857,132 shares, restricted stock units representing an aggregate of 776,244 shares and options (all to employees outside the United States) representing a total of 88,935 shares. All restricted stock unit grants will vest three years after the grant date subject to the grantee's continued service, except in the case of death, disability, attainment of retirement or otherwise as the Compensation Committee may determine.

We anticipate granting long-term incentive compensation in 2005 using the same award types, approximately the same number of eligible participants and the same award targets as used in 2004 for annual grants to be made in March 2005.

TSR Awards

TSR awards are generally granted annually and will become earned, if at all, based on the total shareholder return (share price change plus dividends) for our shareholders over a three-year performance period relative to the total shareholder returns over the same period for the companies in the S&P 500 Index on the date the performance period begins who continue to file public reports through the entire performance period. The number of TSRs granted is based on payband level, an assessment of the recipient's most recent level of performance and anticipated future contributions to our success. The number of TSR shares earned for each three-year performance period can vary from 0% to 200% of the original target award based on attainment of a relative total shareholder return position. Final earned award values are dependent not only on relative TSR performance, but also on the final share price at the end of the three-year period, thus providing a strong link between the interests of employees receiving these awards and those of shareholders.

For equity awards made to members of senior management (including the named executive officers) in 2004, the Compensation Committee determined that TSRs should comprise 75% of the target dollar amount of long-term compensation for each recipient. The performance cycle for these awards ends on December 31, 2006 and payment of these awards, if any, will be made in March 2007 subject to the grantee's continued service, except in the case of death, disability, attainment of retirement or otherwise as the Compensation Committee may determine.

Restricted Stock and Restricted Stock Units

The Compensation Committee intends that restricted stock and restricted stock units will be used in combination with TSRs but will be secondary to these performance-based awards. The Compensation Committee has authority to determine the length of the restricted period, the conditions under which restricted stock and restricted stock units may be forfeited, as well as the other terms and conditions of such awards including the establishment of performance goals for the grant of such awards based on one or more performance criteria. Restricted stock units may be paid, at the discretion of the Compensation Committee, in cash or shares or a combination of both. Unless the Compensation Committee establishes a different period, the restriction period applicable to any award of restricted stock or restricted stock units will lapse on the third anniversary of the date of grant provided the recipient remains employed by us over that period, except in the case of death, disability, attainment of retirement or otherwise as the Compensation Committee may determine. If a participant is (or is reasonably expected to be) a "covered employee" within the meaning of Section 162(m) of the Internal Revenue Code for the calendar year in which delivery of such stock would ordinarily be made, we will delay delivery of all such shares of stock to the recipient until six months after the termination of his or her employment with us. It is currently expected that 25% of target long-term compensation awards for senior management will be in the form of restricted stock units.

For equity awards made to members of senior management (including the named executive officers) in 2004, the Compensation Committee determined that restricted stock units should comprise 25% of the target dollar amount of long-term compensation for each recipient. For other levels of management, equity awards consisted exclusively of restricted stock units. For all 2004 recipients, the restricted stock unit awards vest on the third anniversary of the grant date, except in the case of death, disability, attainment of retirement or otherwise as the Compensation Committee may determine.

Performance Share Plan Payments

In 2002, we granted performance shares under the 2000 Employee Plan. The performance cycle for these awards ended on December 31, 2004. The performance criteria for these awards was based on a three-year cumulative earnings per share target established by the Compensation Committee at the time of the grants. As it did last year in determining awards for the three-year performance cycle ended December 31, 2003, the Compensation Committee decided to exclude the impact of the increase in asbestos reserves in the third and fourth quarters of 2002. Similarly, the Compensation Committee also excluded the impact of the asbestos reserve strengthening in 2003 and 2004. In 2004, the Compensation Committee also excluded the positive impact of the second quarter reserve release of \$80 million related to World Trade Center loss reserves attributable to the September 11, 2001 terrorist attack. The rationale for these adjustments is that the associated events have a distorting impact on our results and therefore, regardless of whether the events have a positive or negative effect on our results, it is appropriate to exclude them from the formula in the calculation of cumulative earnings per share. By taking these actions, the Compensation Committee reaffirmed its belief that current employees should be rewarded for their efforts during the 2002-2004 performance cycle and their award opportunity should not be materially diminished by the need to increase loss reserves as a result of unforeseen prior year developments in asbestos cases which continue to cause Chubb and the rest of the property and casualty industry to reassess estimates of ultimate asbestos exposure. The Compensation Committee took a consistent position in determining that current employees should not benefit from the favorable development in our World Trade Center loss reserves which was attributable to developments relating to prior years. Taking the foregoing adjustments into account, the Compensation Committee determined that 102.5% of the three-year performance goal was attained, resulting in the award of 105.0% of the performance shares originally granted for the 2002-2004 performance cycle.

Benefits

Our health care and other core benefit programs are the same for all employees, including the named executive officers. The named executive officers are provided a financial counseling benefit that is available to all Senior Vice Presidents and above and some are provided with access to a business or country club membership for business entertainment purposes. Also, where there is a significant business reason, such as safety, protection of our confidential business information or enhancing efficiency, certain executive officers may be permitted reasonable personal use of company assets, such as corporate aircraft and, in the case of our Chief Executive Officer, a company driver and company-owned automobile. In March 2005, the Board formalized its policy regarding personal use of corporate aircraft.

Share Ownership

In March 2004, the Compensation Committee approved stock ownership guidelines for members of senior management. The suggested ownership guidelines range from a stock ownership level for the Chief Executive Officer equal to five times base salary to one times base salary for officers at the Senior Vice President level. Members of management subject to the guidelines have a five-year phase-in period beginning on the later of becoming an officer subject to the stock ownership guidelines and May 2004 in which to achieve the suggested ownership level. A provision included in these guidelines provides that an individual will be deemed in compliance with the guidelines if he or she falls below the suggested ownership threshold due to a decline in the price of our stock, provided that the individual has deferred receipt of all restricted stock unit awards granted under the 2004 Employee Plan. These guidelines credit management for shares held outright, shares allocated to their accounts in our retirement plans, unvested restricted stock and restricted stock units and any shares that have been earned but the payment of which has been deferred. Included among any shares earned but deferred will be all shares issuable upon the expiration of the restrictive period applicable to any award of restricted stock units made to the named executive officers who will defer receipt of all such shares until termination of their employment.

CEO Compensation

John D. Finnegan has been employed as our President and Chief Executive Officer since December 1, 2002. We entered into an employment agreement with Mr. Finnegan effective as of that date. In December 2003, Mr. Finnegan also was named Chairman of the Board. The terms of Mr. Finnegan's employment agreement are summarized in this proxy statement under the heading "Executive Compensation Employment and Change in Control Agreements." Under the terms of the employment agreement, Mr. Finnegan received a 2004 annual base salary of \$1,200,000. During the term of his employment agreement, Mr. Finnegan may receive merit based increases in his base salary in the Compensation Committee's discretion.

The Compensation Committee granted to Mr. Finnegan on April 27, 2004, 81,429 performance shares having a fair market value as of the grant date of \$5,700,030 and 27,142 restricted stock units having a fair market value as of the grant date of \$1,899,940. These monetized targets were presented by the Compensation Committee's outside consultant as being competitive and reflective of our executive compensation strategy (to target long-term incentive and total compensation in the second quartile of the peer group discussed above) and were subsequently approved by the Compensation Committee.

Mr. Finnegan received an annual cash incentive award of \$2,000,700 for 2004 which reflected his target award based on the pool generated under the Annual Incentive Compensation Plan (2001). The Compensation Committee noted a number of initiatives pursued at Mr. Finnegan's direction including an emphasis on expense control, underwriting discipline, internal controls, risk reduction, commitment to diversity, attention to performance management and succession management, and the refocusing on core business opportunities which contributed to our very strong 2004 results.

The foregoing report has been furnished by the following members of the Board who comprise the Compensation Committee:

Daniel E. Somers (Chair)	Lawrence M. Small
Sheila P. Burke	Karen Hastie Williams

This Organization & Compensation Committee Report shall not be deemed to be "soliciting material," to be "filed" with the Commission, subject to Regulation 14A or 14C or to the liabilities of Section 18 of the Exchange Act, except to the extent that we specifically request that the information be treated as soliciting material, nor shall it be incorporated by reference into any document filed under the Securities Act or the Exchange Act unless we specifically incorporate it by reference.

EXECUTIVE COMPENSATION

Summary Compensation Table

The following Summary Compensation Table sets forth information on compensation earned by or paid to John D. Finnegan (our Chairman, President and Chief Executive Officer) and each of our four other most highly compensated executive officers (with Mr. Finnegan, the named executive officers) during each of the past three fiscal years.

(1)

Bonus amounts reported for Messrs. Finnegan, Motamed, O'Reilly, Degnan, and Krump for 2003 and 2004 were paid under the Annual Incentive Compensation Plan (2001) (including certain amounts that were deferred at the election of certain of those executives). Bonus amounts reported for Messrs. Finnegan, Motamed, O'Reilly, Degnan and Krump for 2002 were paid outside of the Annual Incentive Compensation Plan (2001) (including certain amounts that were deferred at the election of certain of those executives).

The value of the restricted stock and restricted stock unit awards included in this column are based on the per share price of our common stock on the date of grant. The total number, value (based on the per share price of our common stock at December 31, 2004 of \$76.90), and vesting schedule of outstanding non-vested restricted stock and restricted stock unit awards as of December 31, 2004 are shown in the following chart. Dividends are paid on restricted stock and dividend equivalents are paid on restricted stock units.

Based on the per share price of our common stock on December 31, 2004 of \$76.90.

(3) Amounts reported include options granted in such years (including restoration options) under the 2000 Employee Plan.

(4) Amounts reported represent payments made in settlement of performance share awards for Messrs. Motamed, O'Reilly, Degnan, and Krump for the three-year periods ended December 31, 2002, 2003 and 2004. The Compensation Committee administers the grant and settlement of performance share awards. In calculating whether the performance target was met for the three-year performance period ended December 31, 2002, the Compensation Committee eliminated the effect of after-tax costs related to the September 11, 2001 terrorist attack and excluded pre-tax charges relating to increases in asbestos reserves in the third and fourth quarters of 2002. In calculating whether the performance target was met for the three-year performance period ended December 31, 2003, the Compensation Committee eliminated the effect of after-tax costs related to the September 11, 2001 terrorist attack and excluded pre-tax charges relating to increases in asbestos reserves in the third and fourth quarters of 2002 and the fourth quarter of 2003. In calculating whether the performance target was met for the three-year performance period ended December 31, 2004, the Compensation Committee excluded pre-tax charges relating to increases in asbestos reserves in the third and fourth quarters of 2002 and the fourth quarters of 2003 and 2004, and also excluded the positive impact of the second quarter 2004 reserve release of \$80 million related to World Trade Center loss reserves attributable to the September 11, 2001 terrorist attack. For additional information about the payments made in settlement of performance share awards for the three-year period ending December 31, 2004, see the Organization & Compensation Committee Report in this proxy statement.

2004 Long-Term Executive Incentive Plan Awards

The following table shows the number of TSRs awarded to the named executive officers in 2004 under the 2004 Employee Plan and the number of shares that would be awarded at threshold, target and maximum. One TSR represents one share of common stock. The number of TSRs earned and paid out at the end of the three-year performance period can vary from 0% to 200% of the original target award based on our total shareholders return relative to the total shareholder returns over the same period for the companies in the S&P 500 Index on the date the performance period begins who continue to file public reports through the entire performance period.

Threshold is the minimum level of performance required to earn this number of shares; no shares will be earned for performance below the threshold.

Restricted stock unit awards granted in 2004 are reflected in the Restricted Stock Awards column of the "Summary Compensation Table" above. For additional information regarding the 2004 Employee Plan, see the discussion under the heading "Organization & Compensation Committee Report 2004 Employee Plan."

Pension Program

Our eligible employees and certain eligible employees of our subsidiaries participate in the Pension Plan of The Chubb Corporation, Chubb & Son Inc. and Participating Affiliates (Pension Plan). As in effect during 2004, the Pension Plan provides to each eligible employee annual retirement income beginning at age 65 equal to the product of:

the total number of years of participation in the Pension Plan; and

the excess, if any, of (i) 1³/₄% of average compensation for the five years in the last ten years of participation prior to retirement during which the employee was most highly paid (final average earnings), over (ii) an amount related to the employee's primary social security benefit.

Effective January 1, 2001, a cash balance benefit was added to the Pension Plan. Participants who participated in the Pension Plan prior to January 1, 2001 (including Messrs. Motamed, O'Reilly, Degnan and Krump) will receive a benefit under the Pension Plan equal to the greater of the pension benefit described in the preceding paragraph or the amount calculated under the cash balance formula. Because the amount of the pension benefit described in the preceding paragraph will be greater than the amount calculated under the cash balance formula for Messrs. Motamed, O'Reilly, Degnan and Krump for the foreseeable future, it is likely that none of these individuals will receive a benefit under the Pension Plan based on the cash balance formula.

The Employee Retirement Income Security Act of 1974, as amended (ERISA), and the Internal Revenue Code, impose maximum limitations on the annual amount of a pension which may be paid under a funded defined benefit plan such as the Pension Plan. The Pension Plan complies with these limitations. The Board adopted, effective as of January 1, 1976, an unfunded benefit equalization plan of the type

permitted by ERISA, which will provide payments to persons who are participants under the Pension Plan and their beneficiaries. Such payments will be equal to the difference between:

the benefits which would be payable to such persons under the Pension Plan, without taking into consideration the limitations imposed by ERISA and the Internal Revenue Code; and

the maximum annual benefits to which those persons are entitled under the Pension Plan by reason of such limitations.

Accordingly, there are generally two sources of funds available to provide the retirement benefits listed in the table below (and to provide the retirement benefits that will be payable to Mr. Finnegan pursuant to his employment agreement):

the Pension Plan, to the extent that benefits may be provided thereunder in accordance with the above referenced limitations; and

our general corporate assets for the portion of these benefits that may not be provided under the Pension Plan.

The operation of the limitations on the benefits that can be provided under the Pension Plan generally results in a very substantial percentage of the retirement benefits payable to our executive officers being provided from our general corporate assets. As of December 31, 2004, our named executive officers would receive between approximately 79% and 99% of their total retirement benefits from general corporate assets, instead of from the Pension Plan. Assuming for illustrative purposes that each of the named executive officers had obtained the age of 65 and was in pay status, as of December 31, 2004, we estimate that the maximum aggregate retirement benefits payable to the named executive officers out of general corporate assets would be approximately \$4.5 million per year. The unfunded benefits equalization plan allows for distribution of the actuarial present value of the portion of the retirement benefits payable thereunder in a lump sum or various forms of annuity following an executive officer's retirement.

The following table shows the estimated annual benefits payable upon retirement to persons in specified remuneration and years-of-service classifications under the Pension Plan and the unfunded benefit equalization plan (referred to collectively as the Pension Program).

Remuneration covered by the Pension Program includes salary (including salary contributed to the Capital Accumulation Plan of The Chubb Corporation, Chubb & Son Inc. and Participating Affiliates) (the Capital Accumulation Plan), overtime and awards under The Chubb Corporation Annual Incentive Compensation Plans, the Investment Department Incentive Plan and the Profit Sharing Plan in the year paid rather than the year earned.

The retirement benefits shown assume retirement as of December 31, 2004 at age 65 and computed on the basis of straight life annuity benefits. The benefits shown in the table are subject to an offset of an amount related to the primary social security benefits in an amount approved by the Internal Revenue Service in effect at the time of retirement.

Messrs. Finnegan, Degnan, Motamed, O'Reilly and Krump have, for the purposes of the Pension Program, 1, 13, 26.5, 34 and 21.5 years of credited service, respectively, and their 2004 remuneration for purposes of the Pension Program was \$3,465,000, \$1,431,150, \$1,641,301, \$1,483,000 and \$926,250, respectively. In 1999, Mr. Motamed relinquished the right to receive under the Pension Program a lump sum amount equal to \$300,000 plus interest in accordance with his participation in our Estate Enhancement Program.

Mr. Finnegan's estimated pension payable at age 65, reflecting his annual base salary of \$1,200,000 and target award under the Annual Incentive Compensation Plan (2001) and payment in the normal form of a straight line annuity, is \$1,620,000 per year. This includes the amount that Mr. Finnegan is entitled to receive under the supplemental pension benefits provisions of his employment agreement. For additional information, see the summary of Mr. Finnegan's employment agreement under the heading "Executive Compensation Employment and Change in Control Agreements."

Deferred Compensation Plans

In addition to the retirement benefits that are described above, we provide the opportunity for certain of our employees to electively defer the payment of certain components of the compensation that would otherwise be payable to them for their services. Frequently, those employees who elect to voluntarily defer compensation chose to have the amounts deferred paid following the termination of their services with us and our affiliates. To avoid current taxation for those employees who participate in these deferral opportunities, the amounts deferred (and any earnings credited thereon) may not be funded and must be payable out of our general corporate assets. The amounts deferred are credited with earnings based on the deemed returns that would have been received had such amounts been invested at a fixed rate of return specified under the arrangements, or other investment options permitted under these arrangements that are generally available for investment in the marketplace. The amounts electively deferred have previously been reported in the Summary Compensation Table to the extent that a participant in these arrangements was an executive officer required to be included in such table in the year for which the compensation was earned. Earnings have not been reported in this table in accordance with the applicable rules promulgated by the SEC for the disclosure of executive compensation because none of the investment measures provides an above-market rate of return within the meaning of such rules. At December 31, 2004, the aggregate amount recorded on our balance sheet in respect of these arrangements for our named executive officers was \$1,459,883, of which amount \$1,400,000 related to amounts deferred by such officers.

Employment and Change in Control Agreements

Mr. Finnegan

Mr. Finnegan entered into an employment agreement with us effective December 1, 2002. The agreement has an initial term of three years. The agreement provides Mr. Finnegan with an annual base salary of \$1,200,000, subject to annual increases as determined by the Compensation Committee. He also is eligible to receive annual cash bonuses of between 125% and 250% of his annual base salary based upon performance targets established by the Compensation Committee. Mr. Finnegan will receive an annual supplemental pension benefit equal to 6% of his final average compensation for each year of employment up to a maximum of 60% of his final average compensation, subject to certain offsets. He also is eligible to participate in all retirement plans and health and welfare, perquisite, fringe benefit and other arrangements generally available to other senior executives.

Under the terms of his employment agreement, for 2002, Mr. Finnegan received a salary of \$100,000 representing one-twelfth of his annual salary and cash bonus of \$125,000, representing one-twelfth of his target bonus. In order to induce Mr. Finnegan to leave his previous employer, the Compensation Committee endeavored to make Mr. Finnegan whole for the value of cash and stock incentives he forfeited at his former employer to become our President and Chief Executive Officer.

In recognition of specified cash incentive compensation that Mr. Finnegan forfeited upon leaving his prior employer, we agreed to pay to him a cash payment, not to exceed \$3,000,000, equal to the value of those forfeited incentives as and when substantiated. In February 2003, we determined that value to be \$2,160,789 and paid Mr. Finnegan that amount.

As compensation for Mr. Finnegan having forfeited options to purchase his previous employer's stock, the Compensation Committee agreed to grant Mr. Finnegan stock options under the 2000 Employee Plan having a Black-Scholes value equal to the Black-Scholes value of his forfeited options. Accordingly, on December 2, 2002, the Compensation Committee granted Mr. Finnegan options to purchase 250,920 shares of our common stock at an exercise price of \$58.43, the average of the high and low prices of our common stock on the date of grant. The options have a ten-year term and vest in three equal installments. The first two installments vested on December 2, 2003, and December 2, 2004, respectively. The remaining installment vests on December 1, 2005, provided Mr. Finnegan remains employed by us through the remaining vesting date.

On December 2, 2002, the Compensation Committee also granted to Mr. Finnegan 61,617 shares of restricted stock having a fair market value as the date of grant of \$3,600,000 as compensation for his having forfeited performance awards from his previous employer. The restrictions lapsed as to 30,809 shares on December 1, 2003 and as to 30,808 shares on December 2, 2004. On December 1, 2003, Mr. Finnegan's employment agreement was amended to provide for the forfeiture of the 30,308 unvested shares of restricted stock in exchange for a grant of a like number of restricted stock units, as described in the Organization & Compensation Committee Report in the 2004 proxy statement.

As part of the target compensation established for our Chief Executive Officer, on December 2, 2002, the Compensation Committee granted to Mr. Finnegan a five-year option to purchase 236,109 shares of our common stock at an exercise price of \$73.03, 125% of the fair market value on the date of grant, and a ten-year option to purchase 133,618 shares of common stock at an exercise price of \$58.43, the fair market value on the date of grant. One-half of each of the options vested on December 2, 2003 and the second half vested on December 2, 2004.

Consistent with the award practice implemented for all senior executives, Mr. Finnegan's employment agreement was amended to reflect the granting of a restricted stock award in 2003, in lieu of a performance share award for the 2003-2005 performance cycle provided for under the employment agreement, as described in the Organization & Compensation Committee Report in the 2004 proxy statement.

If Mr. Finnegan's employment is terminated by us, except for cause (as defined in his employment agreement), death or disability, or if he resigns for a good reason (as defined in his employment agreement), or if we do not renew his employment agreement beyond its initial three-year term, he would be eligible to receive:

a cash payment equal to the sum of his annual base salary and any accrued vacation pay through the date of termination, outstanding reimbursable business expenses and the annual cash bonus for the previous year (if not previously paid);

a pro-rated annual cash bonus for the year of his termination; and

an additional payment equal to up to 2.5 times (that multiple being subject to reduction under certain circumstances) the sum of his annual base salary and the average of his annual cash bonuses paid in the preceding three years.

In addition, any stock options, restricted stock, restricted stock units, performance shares and any other stock-based long-term incentive compensation awards held by Mr. Finnegan would vest and his stock options would continue to be exercisable until the earlier of the fifth anniversary of the date of termination of employment or the expiration of the option term.

If Mr. Finnegan's employment is terminated for cause or if he resigns other than for good reason or provides us with a notice that he does not wish to renew his employment agreement, we will have no other obligations to him except to provide a cash payment equal to his annual base salary and any accrued vacation pay through the date of termination, any benefits or amounts which he is eligible to receive under our retirement and benefit plans up to the date of termination and, if termination occurs after December 1, 2005, retiree health benefits. Under his employment contract, if Mr. Finnegan's employment terminates because of his death, his beneficiary would receive life insurance proceeds under group life plans or supplemental plans equal to five times his annual base salary. In the case that his employment is terminated due to his becoming disabled, Mr. Finnegan would receive 60% of his annual base salary under the terms of his employment agreement. In addition, in the case of his death or disability, Mr. Finnegan or his beneficiary would receive a cash payment consisting of the prior year's annual cash bonus (if not previously paid) and a pro-rata annual cash bonus for the year in which his employment was terminated.

The employment agreement provides Mr. Finnegan with indemnification under our restated certificate of incorporation and By-Laws and coverage under our directors and officers insurance policies. The

employment agreement also provides for certain restrictive covenants to which Mr. Finnegan has agreed, such as non-competition and non-solicitation provisions which run during the term of Mr. Finnegan's employment through the second anniversary of the termination thereof.

The employment agreement provides that Mr. Finnegan will receive the change in control benefits provided to our senior executives generally and an additional payment to compensate him for any excise tax assessed against his change in control payments. However, Mr. Finnegan will not receive severance pay or benefits under his employment agreement if those payments and benefits are paid under the change in control agreement he has with us. The change in control agreement is described below.

Mr. Finnegan's change in control agreement provides generally that the terms and conditions of his employment (including position, location, and benefits) would not be adversely changed during the three-year period after a change in control. If a change in control occurs and we terminate Mr. Finnegan's employment (other than for cause, death or disability) or if Mr. Finnegan resigns for good reason during the three-year period following a change in control (or upon his termination as a result of certain events in connection with or in anticipation of a change in control), Mr. Finnegan would be generally entitled to receive:

a cash payment equal to the sum of his annual base salary and any accrued vacation pay through the date of termination, outstanding reimbursable business expenses and the annual cash bonus for the previous year (if not previously paid);

a pro-rata bonus through the date of termination for the year in which the termination of employment occurs;

three times his annual base salary and "highest annual bonus" (as defined in the agreement); and

continued benefits under our welfare benefit plans and programs for three years and the value of benefits he would have accrued under our qualified and supplemental pensions plans if he had continued to be employed for an additional three years.

In addition, any stock options, restricted stock, restricted stock units, performance shares and any other stock-based long-term incentive compensation awards held by Mr. Finnegan would vest and his stock options would continue to be exercisable until the earlier of the fifth anniversary of the date of termination of his employment or the expiration of the option term.

In general, a change in control is one or more of the following events:

certain changes are made to the composition of our Board;

any person acquires 20% or more of our outstanding common stock;

a merger, sale of all or substantially all of our assets or similar transaction; or

if we are completely liquidated or dissolved.

The change in control agreement provides for confidentiality, non-competition and non-solicitation on the part of Mr. Finnegan. The non-competition and non-solicitation provisions run during the term of Mr. Finnegan's employment through the second anniversary of the termination thereof.

Messrs. Motamed, O'Reilly and Degnan

We have severance agreements with Messrs. Motamed, O'Reilly and Degnan. These agreements become operative only upon a change in control that occurs while the executive officer is employed by us. In general, a change in control is one or more of the following events:

certain changes are made to the composition of our Board; or

any person acquires more than 25% of our outstanding common stock.

Edgar Filing: CHUBB CORP - Form DEF 14A

These agreements have an initial term of two years and are automatically extended for successive two-year periods unless we give one year's prior notice that we are terminating the agreement at the end of the then current two-year period.

If a change in control occurs and the executive officer's employment with us terminates within two years thereafter (other than by reason of death, disability, retirement at normal retirement age, discharge for cause, or voluntary termination by the executive officer except for good reason as described in the severance agreements), the executive officer becomes entitled to twice the sum of:

one year's salary at the annual rate in effect at the time of the change in control; and

the average of his annual awards under our cash incentive compensation plans for the three years preceding such change in control.

Also, we must maintain in force the insurance and disability benefits available to the executive officer immediately prior to the change in control, or their equivalents, until the earlier of two years after termination or the commencement of new, full-time employment.

EQUITY COMPENSATION PLAN INFORMATION

The following table shows certain information with respect to our equity compensation plans as of December 31, 2004.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (excluding securities reflected in column (a))
	(a)	(b)	(c)

Equity compensation plans not approved by security holders(1)	218,584(3)\$	57.78(5)	215,213(1)
Total	20,331,621 \$	62.54(5)	15,372,236

- (1) These plans are The Chubb Corporation Defined Contribution Excess Benefit Plan (Excess Benefit Plan) and the Deferred Compensation Plan for Directors (Deferred Compensation Plan), under which 91,825 shares of common stock and 123,388 shares of common stock, respectively, are available for future issuance.

The Excess Benefit Plan is a non-qualified, defined contribution plan and covers those participants in the Capital Accumulation Plan and The Chubb Corporation Employee Stock Ownership Plan whose total benefits under those plans are limited by certain provisions of the Internal Revenue Code. A participant in the Excess Benefit Plan is entitled to a benefit equaling the difference between the participant's benefits under the Capital Accumulation Plan and The Chubb Corporation Employee Stock Ownership Plan, without considering the applicable Internal Revenue Code limitations, and the participant's actual benefits under such plans. A participant's excess Employee Stock Ownership Plan benefit is expressed as shares of Chubb common stock. Payments under the Excess Benefit Plan are generally made: (1) for excess benefits related to the Capital Accumulation Plan in cash annually as soon as practical after the amount of excess benefit can be determined; and (2) for excess benefits related to The Chubb Corporation Employee Stock Ownership Plan, in common stock as soon as practicable after the earlier of the participant's 65th birthday or termination of employment.

The material terms of the Deferred Compensation Plan are described in this proxy statement under the heading "Corporate Governance Directors' Compensation."

- (2) Includes 1,113,300 shares, representing 150% of the aggregate target performance share awards for the three-year performance cycle ended December 31, 2004 and 200% of the aggregate target for the total shareholder return awards for the three-year performance cycle ending December 31, 2006, which is the maximum number of shares issuable under these Plans. At the end of each performance cycle, the Compensation Committee determines the actual number of shares to be received by Plan participants. In March 2005, the Compensation Committee determined that recipients would receive 105% of their performance share targets for the three-year performance cycle ended December 31, 2004. For additional information about the payments made in settlement of performance share awards for the three-year period ended December 31, 2004, see the Organization & Compensation Committee Report in this proxy statement.
- (3) Includes an aggregate of 43,615 shares issuable upon exercise of the special option grants awarded to three independent directors in 2002 as individual compensation for their service on our CEO search committee.
- (4) Weighted average exercise price excludes shares issuable under outstanding performance share awards, TSR awards, restricted stock unit awards and director stock unit awards.

Edgar Filing: CHUBB CORP - Form DEF 14A

- (5) Weighted average exercise price consists of exercise price of special option grants described in note (3) above, and excludes shares issuable in connection with the Excess Benefit Plan and the Deferred Compensation Plan.
- (6) Includes 7,069,966 shares available for issuance under the Global Employee Stock Purchase Plan (2001), 6,841,565 shares available for issuance under the 2004 Employee Plan, 245,492 shares available for issuance under the 2004 Director Plan and 1,000,000 shares available for issuance under The Chubb Corporation 2003 Producer Stock Incentive Plan.

CERTAIN TRANSACTIONS AND OTHER MATTERS

Transactions with Certain Shareholders

At December 31, 2004, AXA was the beneficial owner of more than 5% of our outstanding common stock. During 2004, our property and casualty insurance subsidiaries ceded reinsurance to subsidiaries of AXA of approximately \$8.2 million. In addition, in 2004, AXA purchased insurance policies from certain of our property and casualty insurance subsidiaries with an aggregate net written premium of approximately \$572,000.

At December 31, 2004, Capital Research and Management Company was the beneficial owner of more than 5% of our outstanding common stock. In 2004, Capital Research and Management Company purchased insurance policies from certain of our property and casualty insurance subsidiaries with an aggregate net written premium of approximately \$2.3 million.

At December 31, 2004, Dodge & Cox was the beneficial owner of more than 5% of our outstanding common stock. As of December 31, 2004, Dodge & Cox managed approximately \$202 million of assets in our Pension Plan. Dodge & Cox also manages one of the funds offered to participants in our Capital Accumulation Plan. In addition, Dodge & Cox purchased insurance policies from one of our property and casualty insurance subsidiaries with an aggregate net written premium of approximately \$340,000.

At December 31, 2004, Morgan Stanley was the beneficial owner of more than 5% of our outstanding common stock. As of December 31, 2004, an affiliate of Morgan Stanley managed approximately \$216 million of assets in our Pension Plan. In addition, a Morgan Stanley affiliate manages one of the funds offered to participants in our Capital Accumulation Plan. In 2004, a subsidiary of Morgan Stanley purchased insurance policies from one of our property and casualty insurance subsidiaries with an aggregate net written premium of approximately \$2.3 million.

Transactions with Directors, Executive Officers and their Associates

UBS AG of Switzerland, through its affiliated companies, provides certain securities transaction services to us and to our subsidiaries. In addition, we have entered into two credit derivatives transactions with entities affiliated with UBS AG. Sir David G. Scholey, CBE is a Senior Advisor to UBS Investment Bank, the investment banking division of UBS AG of Switzerland. We believe that our transactions with these firms were effected on terms as favorable to us and to our subsidiaries as could be obtained from other sources in view of the nature of the services rendered.

In 2004, we made several donations to charitable organizations with which certain of our directors (or members of their immediate families) were affiliated. Certain of these donations are described in greater detail under the heading "Corporate Governance Director Independence" in this proxy statement.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers and persons who beneficially own more than 10% of our common stock to file reports of securities ownership and changes in such ownership with the SEC.

Based solely upon a review of copies of such reports or written representations that all such reports were timely filed, we believe that each of our directors, executive officers and greater than 10% beneficial owners complied with all Section 16(a) filing requirements applicable to them during 2004, except for Joanne L. Bober, former Senior Vice President and General Counsel, and Henry B. Schram, Senior Vice President and Chief Accounting Officer, each of whom filed a Form 4 due on December 22, 2004 on December 23, 2004 due to an administrative oversight; Michael J. Marchio, Executive Vice President of Chubb & Son, a division of Federal Insurance Company, who filed a Form 4 due on November 4, 2004 on February 10, 2005 due to an administrative oversight and Robert C. Cox, Executive Vice President of Chubb & Son, a division of Federal Insurance Company, who filed a Form 4 due on February 6, 2005 on February 11, 2005 due to an administrative oversight.

STOCK PERFORMANCE GRAPH

The following performance graph compares the performance of our common stock during the five-year period from December 31, 1999 through December 31, 2004 with the performance of the Standard & Poor's 500 Index and the Standard & Poor's Property & Casualty Insurance Index. The graph plots the changes in value of an initial \$100 investment over the indicated time periods, assuming all dividends are reinvested.

The information contained under the heading "Stock Performance Graph" shall not be deemed to be "soliciting material," to be "filed" with the Commission, subject to Regulation 14A or 14C or to the liabilities of Section 18 of the Exchange Act, except to the extent that we specifically request that the information be treated as soliciting material, nor shall it be incorporated by reference into any document filed under the Securities Act or the Exchange Act unless we specifically incorporate it by reference.

**PROPOSAL 1
ELECTION OF DIRECTORS**

Our Board has nominated the following individuals for election to our Board this year:

Zoë Baird
Sheila P. Burke
James I. Cash, Jr.
Joel J. Cohen
James M. Cornelius
John D. Finnegan
Klaus J. Mangold

Sir David G. Scholey, CBE
Raymond G.H. Seitz
Lawrence M. Small
Daniel E. Somers
Karen Hastie Williams
Alfred W. Zollar

Each nominee for director was previously elected by our shareholders at the 2004 annual meeting and has served continuously since then. Information regarding the business experience of each nominee is provided in this proxy statement under the heading "Our Board of Directors." Each director is elected annually to serve until the next annual meeting and until his or her successor is elected and qualified. There are no family relationships among our executive officers and directors.

Our Board expects that all of the nominees named in this proxy statement will be available for election, and, if elected, will be willing to serve as a director. If any nominee is not available, then the proxies may vote for a substitute as may be designated by the Board, unless the Board reduces the number of directors. The Board has, in accordance with our By-Laws, fixed the number of directors to be elected at 13. If elected, each director will serve until the next annual meeting of shareholders and until his or her successor is duly elected and qualified.

If you sign your proxy card but do not give instructions with respect to the voting of directors, your shares will be voted for the 13 individuals recommended by the Board. If you wish to give specific instructions with respect to the voting of directors, you may do so by indicating your instructions on your proxy card.

The Board of Directors unanimously recommends that you vote "FOR" each of the foregoing nominees for director.

PROPOSAL 2
RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITOR

The Audit Committee, acting pursuant to the authority granted to it in its charter, has retained Ernst & Young LLP as our independent auditor. The appointment of Ernst & Young is being submitted to our shareholders for ratification. Ernst & Young has acted as our independent auditor for many years. The following summarizes the fees billed to us by Ernst & Young for professional services rendered in 2004 and 2003:

	2004	2003
Audit Fees(1)	\$ 6,325,000	\$ 3,755,000
Audit-Related Fees(2)	\$ 395,000	\$ 640,000
Tax Fees(3)	\$ 390,000	\$ 450,000
All Other Fees(4)	\$ 410,000	\$ 210,000

- (1) Audit Fees primarily relate to the audit of our annual financial statements, review of our financial statements included in our quarterly reports on Form 10-Q, statutory audits for our insurance subsidiaries and review of SEC registration statements. Audit Fees for 2004 and 2003 include \$2,864,000 and \$230,000, respectively, incurred in connection with our compliance with the requirements of the Sarbanes-Oxley Act of 2002.
- (2) Audit-Related Fees primarily relate to employee benefit plan audits and certain non-insurance related statutory audits.
- (3) Tax Fees primarily relate to tax compliance, tax advice and tax planning.
- (4) All Other Fees relate to other services not described in notes (1), (2), and (3) above.

The Audit Committee has considered whether the provision of these services is compatible with maintaining Ernst & Young's independence.

From and after August 2002, the Audit Committee has pre-approved all services performed for us by Ernst & Young. Our policy on pre-approval of independent auditor services is attached to this proxy statement as Annex A.

Representatives of Ernst & Young are expected to be present at the annual meeting and to have the opportunity to make a statement should they desire to do so and to be available to respond to appropriate questions.

The affirmative vote of a majority of the shares of our common stock represented and voting at the annual meeting is required to ratify the appointment of Ernst & Young as our independent auditor. If our shareholders do not ratify the appointment of Ernst & Young, the Audit Committee will reconsider the appointment.

The Board of Directors unanimously recommends that you vote "FOR" ratification of the appointment of Ernst & Young LLP as independent auditor.

SOLICITATION OF PROXIES

We will pay the cost of this solicitation of proxies. In addition to the solicitation of proxies by use of the mails, we may use the services of one or more of our directors, officers or other regular employees (who will receive no additional compensation for their services in such solicitation) to solicit proxies personally, by telephone or by other electronic means. Arrangements will be made with brokerage firms and other custodians, nominees and fiduciaries to forward solicitation material to the beneficial owners of shares held on the record date by such persons and we will reimburse them for reasonable expenses actually incurred by them in so doing. In addition, we have entered into an agreement with Georgeson Shareholder Communications Inc., New York, New York, pursuant to which Georgeson will assist us in the solicitation of proxies by mail, in person and by telephone for a fee, which is estimated not to exceed \$12,500 plus out-of-pocket expenses.

2006 SHAREHOLDER PROPOSALS AND NOMINATIONS

Any proposal that a shareholder intends to be included in our proxy statement and form of proxy card for presentation at our annual meeting of shareholders in the year 2006 must be in writing and be received by our Corporate Secretary at The Chubb Corporation, 15 Mountain View Road, P.O. Box 1615, Warren, New Jersey 07061-1615 no later than November 24, 2005, and must otherwise comply with the rules promulgated by the SEC in order to be eligible for inclusion in our proxy materials for the 2006 annual meeting.

Under our By-Laws, if a shareholder desires to bring a matter before the annual meeting or if a shareholder wants to nominate a person for election to our Board, the shareholder must follow the procedures outlined in our By-Laws. A copy of Article I, Section 10, of our By-Laws, which covers those matters, is available without charge to shareholders of record upon written request to our Corporate Secretary. Our By-Laws also are available on our website at www.chubb.com. Our By-Law procedures are separate from the SEC's requirements that a shareholder must meet in order to have a shareholder proposal included in our proxy statement.

One of the procedural requirements in our By-Laws is timely notice in writing of the business the shareholder proposes to bring before the meeting and/or the nomination the shareholder proposes to make at the meeting. Notice of business proposed to be brought before the 2006 annual meeting and/or director nominations proposed to be made at the 2006 annual meeting must be received by our Corporate Secretary no earlier than December 27, 2005 and no later than January 26, 2006.

The notice for business that the shareholder proposes to bring before the meeting must be a proper matter for shareholder action and must describe:

the business proposed to be brought before the meeting;

the reasons for conducting the business at the meeting;

any material interest of the shareholder in the business;

the beneficial owner, if any, on whose behalf the proposal is made;

the name and address of the shareholder giving the notice, as they appear on our books, and of the beneficial owner of those shares; and

the class and number of shares which are owned beneficially and of record by the shareholder and the beneficial owner.

Edgar Filing: CHUBB CORP - Form DEF 14A

The notice for a nomination the shareholder proposes to make at the meeting must describe:

all information relating to each person whom the shareholder proposes to nominate for election as a director as would be required to be disclosed in a solicitation of proxies for the election of such person as a director pursuant to Regulation 14A under the Exchange Act, including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if so elected;

the name and address of the shareholder giving the notice, as they appear on our books, and of the beneficial owner of those shares; and

the class and number of shares which are owned beneficially and of record by the shareholder and the beneficial owner.

By Order of the Board of Directors,

HENRY G. GULICK
Vice President and Secretary

March 25, 2005

ANNEX A
THE CHUBB CORPORATION
POLICY ON PRE-APPROVAL OF INDEPENDENT AUDITOR SERVICES

I. Statement of Principles

The Audit Committee of the Board of Directors is responsible for the appointment, compensation, retention, and oversight of the work of the independent auditor. The Chubb Corporation and the Audit Committee are committed to ensuring the independence of the auditor, both in appearance and in fact. Accordingly, significant attention is directed toward ensuring that services provided by the auditor are consistent with the SEC's rules on auditor independence.

The Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor or its affiliates on behalf of The Chubb Corporation or any of its subsidiaries (collectively, the "Corporation") in order to assure that the provision of such services does not impair the auditor's independence from the Corporation. In the case of audit services, pre-approval by the Audit Committee is required for such services provided to all consolidated subsidiaries of the Corporation, whether provided by the principal independent auditor or other firms.

II. Delegation

The Audit Committee has delegated to the Chairman of the Audit Committee authority to pre-approve specific services not to exceed \$25,000 per engagement. Any services pre-approved by the Chairman shall be reported to the Audit Committee at its next scheduled meeting.

The Audit Committee may consult with management but does not delegate its responsibilities to pre-approve services performed by the independent auditor to management.

III. Audit Services

Audit services include all services to be performed to comply with generally accepted auditing standards and those services that generally only the Corporation's independent auditor can provide, such as comfort letters, statutory audits, attest services, consents and assistance with and review of documents filed with the SEC.

IV. Audit-Related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Corporation's financial statements and that are traditionally performed by the independent auditor. The Audit Committee believes that the provision of audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence. Audit-related services include, among other services, audits of employee benefit plans; due diligence related to mergers and acquisitions; internal control reviews; attest services that are not required by statute or regulation and consultations related to financial accounting or reporting standards.

V. Tax Services

The Audit Committee believes that the provision of tax services to the Corporation including tax planning, compliance, and advice does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence. Tax services include tax planning, compliance, and advice; preparation and review of original and amended tax returns; assistance with claims for refund and tax payment-planning services, tax audits and appeals before the IRS and similar state, local and foreign agencies; and advice related to mergers and acquisitions, employee benefit plans and requests for rulings or technical advice for taxing authorities. The Corporation shall not record a transaction or transactions, the primary business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations; the rendering of services to the

Corporation, its executive officers and its directors by the independent auditor in connection with the auditor's recommendation of such transaction or transactions is prohibited.

VI. All Other Services

The Audit Committee believes that certain specific non-audit services do not impair the auditor's independence. Accordingly, the Audit Committee may grant pre-approval to specific, permissible non-audit services classified as "All Other Services" that it believes are routine and recurring services that would not impair the independence of the auditor. "All Other Services" may include preparation of actuarial reports in accordance with regulatory requirements provided that the Audit Committee reasonably concludes that the results of these services will not be subject to audit procedures during an audit of the Corporation's financial statements.

VII. Procedures

Requests for services to be rendered by the independent auditor will be provided annually to the Audit Committee for specific pre-approval. The requests will include a description of the particular services to be rendered and the expected fee range. On a periodic basis at subsequent Audit Committee meetings, an update on independent auditor services and all other audit services will be provided to the Audit Committee and any proposed new services, increases in engagement scope, and increases in engagement fees will be provided for specific pre-approval by the Audit Committee. Requests for pre-approval will be submitted to the Audit Committee by both the independent auditor and management and must include a written statement by the independent auditor as to whether, in its view, the request is consistent with the SEC's rules on auditor independence.

The Audit Committee will consider whether such service requests are consistent with the SEC rules on auditor independence. The Audit Committee will also consider whether the independent auditor is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Corporation's business, people, culture, accounting systems, risk profile and other factors.

The term of any pre-approval is the period beginning on the date of pre-approval and ending on the last day of the first full calendar year after the date of pre-approval, unless the Corporation specifically provides for a different period.

The Audit Committee is also mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine the appropriate ratio between the total amount of fees for Audit, Audit-related, Tax, and All Other Services.

VIII. Prohibited Non-Audit Services

Provision of the following non-audit services by the independent auditor is prohibited in accordance with the SEC's rules. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions.

Bookkeeping or other services related to the accounting records or financial statements of the Corporation

Financial information systems design and implementation

Appraisal or valuation services, fairness opinions or contribution-in-kind reports

Actuarial services

Internal audit outsourcing services

Management functions or human resources

Edgar Filing: CHUBB CORP - Form DEF 14A

Broker-dealer, investment adviser, or investment banking services

Legal services and expert services unrelated to the audit
