

LENNOX INTERNATIONAL INC
Form 10-Q
October 22, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D. C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
FOR THE QUARTERLY PERIOD ENDED September 30, 2018
Commission file number 001-15149

LENNOX INTERNATIONAL INC.
Incorporated pursuant to the laws of the State of Delaware

Internal Revenue Service Employer Identification No. 42-0991521
2140 LAKE PARK BLVD., RICHARDSON, TEXAS, 75080
(972-497-5000)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer

Non-Accelerated Filer Smaller Reporting Company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of October 18, 2018, the number of shares outstanding of the registrant's common stock, par value \$.01 per share, was 40,283,285.

LENNOX INTERNATIONAL INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. General:

References in this Quarterly Report on Form 10-Q to "we," "our," "us," "LII," or the "Company" refer to Lennox International Inc. and its subsidiaries, unless the context requires otherwise.

Basis of Presentation

The accompanying unaudited Consolidated Balance Sheet as of September 30, 2018, the accompanying unaudited Consolidated Statements of Operations for the three and nine months ended September 30, 2018 and 2017, the accompanying unaudited Consolidated Statements of Comprehensive Income for the three and nine months ended September 30, 2018 and 2017, and the accompanying unaudited Consolidated Statements of Cash Flows for the nine months ended September 30, 2018 and 2017 should be read in conjunction with our audited consolidated financial statements and footnotes included in our Annual Report on Form 10-K for the year ended December 31, 2017. The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. The accompanying consolidated financial statements contain all material adjustments, consisting principally of normal recurring adjustments, necessary for a fair presentation of our financial position, results of operations and cash flows. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to applicable rules and regulations, although we believe that the disclosures herein are adequate to make the information presented not misleading. The operating results for the interim periods are not necessarily indicative of the results that may be expected for a full year.

Our fiscal quarterly periods are comprised of approximately 13 weeks, but the number of days per quarter may vary year-over-year. Our quarterly reporting periods usually end on the Saturday closest to the last day of March, June and September. Our fourth quarter and fiscal year ends on December 31, regardless of the day of the week on which December 31 falls.

Use of Estimates

The preparation of financial statements requires us to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities, and reported amounts of revenues and expenses. Such estimates include the valuation of accounts receivable, inventories, goodwill, intangible assets and other long-lived assets, contingencies, guarantee obligations, indemnifications, and assumptions used in the calculation of income taxes, pension and post-retirement medical benefits, and stock-based compensation, among others. These estimates and assumptions are based on our best estimates and judgment.

We evaluate these estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment. We believe these estimates and assumptions to be reasonable under the circumstances and will adjust such estimates and assumptions when facts and circumstances dictate. Volatile equity, foreign currency and commodity markets combine to increase the uncertainty inherent in such estimates and assumptions. Future events and their effects cannot be determined with precision and actual results could differ significantly from these estimates. Changes in these estimates will be reflected in the financial statements in future periods.

Reclassifications

Certain amounts have been reclassified from the prior year presentation to conform to the current year presentation.

Recently Adopted Accounting Guidance

In August 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-15, Classification of Certain Cash Receipts and Cash Payments. The amendments in this ASU clarify the classification for eight different types of activities, including debt prepayment and extinguishment costs, proceeds from insurance claims and distributions from equity method investees. For public business entities, the standard is effective for financial statements issued for fiscal years beginning after December 15, 2017. This standard did not have a material impact on our consolidated financial statements.

We also adopted other new accounting standards during the first quarter of 2018. The impact of these additional standards are discussed in their respective Notes to the Consolidated Financial Statements.

Recent Accounting Pronouncements

On February 25, 2016, the FASB issued ASU No. 2016-02, Leases (ASC 842). Lessees will need to recognize almost all leases on their balance sheet as a right-of-use asset and a lease liability. It will be critical to identify leases embedded in a contract to avoid misstating the lessee's balance sheet. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit bright lines. ASU 2016-02 is effective for public companies for annual reporting periods beginning after December 15, 2018, and interim periods within those fiscal years. As a result of the new standard, all of our leases greater than one year in duration will be recognized in our Consolidated Balance Sheets as both operating lease liabilities and right-of-use assets upon adoption of the standard. We will adopt the standard using the prospective approach. We have completed a qualitative and quantitative assessment of our lease portfolio and are in the process of testing our new lease accounting system, collecting data for leases entered into during 2018 and implementing new processes and controls to account for our leases in accordance with the new standard. Upon adoption, we expect to record right-of-use assets and operating lease liabilities between \$150 million and \$200 million in our Consolidated Balance Sheet.

In August 2018, the SEC issued Release No. 33-10532 that amends and clarifies certain financial reporting requirements. The principal change to our financial reporting will be the inclusion of the annual disclosure requirement of changes in stockholders' equity in Rule 3-04 of Regulation S-X to interim periods. We will adopt this new rule beginning with our financial reporting for the quarter ended March 31, 2019. Upon adoption, we will include our Consolidated Statements of Stockholders' Equity with each quarterly filing on Form 10-Q.

2. Revenue Recognition:

On January 1, 2018, we adopted the new accounting standard ASC 606, Revenue from Contracts with Customers and all the related amendments ("the new revenue standard") and applied it to all contracts using the modified retrospective method. We recognized the cumulative effect of initially applying the new revenue standard as an adjustment to the opening balance of retained earnings. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. We expect the impact of the adoption of the new standard to be immaterial to our net income on an ongoing basis.

The cumulative effect of the changes made to our consolidated January 1, 2018 balance sheet for the adoption of the new revenue standard was as follows (in millions):

BALANCE SHEET	Balance at December 31, 2017	Adjustments Due to ASC 606	Balance at January 1, 2018
ASSETS			
Accounts and notes receivable, net	\$ 506.5	\$ 8.3	\$ 514.8
LIABILITIES AND STOCKHOLDERS' EQUITY			
Accounts payable	348.6	9.3	357.9
Retained earnings	1,575.9	(1.0)	1,574.9

In accordance with the new revenue standard requirements, the disclosure of the impact of adoption on our Consolidated Balance Sheet and Consolidated Statement of Operations was as follows (in millions):

	September 30, 2018		
	As Reported	Balances Without Adoption of ASC 606	Effect of Change Higher/(Lower)
BALANCE SHEET			
ASSETS			
Accounts and notes receivable, net	\$580.9	\$572.4	\$ 8.5

Asia Pacific	—	—	49.7	49.7
Total	\$1,764.4	773.5	502.5	3,040.4

Our revenue recognition practices for the sale of goods depend upon the shipping terms for each transaction. Shipping terms are primarily FOB Shipping Point and, therefore, revenue is recognized for these transactions when products are shipped to customers and title and control passes. Certain customers in our smaller operations, primarily outside of North America, have shipping terms where risks and rewards of ownership do not transfer until the product is delivered to the customer. For these transactions, revenue is recognized on the date that the product is received and accepted by such customers. We experience returns for miscellaneous reasons and record a reserve for these returns at the time we recognize revenue based on historical experience. Our historical rates of return are insignificant as a percentage of sales. We also recognize revenue net of sales taxes. We have elected to recognize the revenue and cost for freight and shipping when control over the sale of goods passes to our customers.

For our businesses that provide services, revenue is recognized at the time services are completed. Our Commercial Heating & Cooling segment also provides sales, installation, maintenance and repair services under fixed-price contracts. Revenue for services is recognized as the services are performed under the contract based on the relative fair value of the services provided. We allocate a portion of the revenue for extended labor warranty obligations and recognize the revenue over the term of the extended warranty. See Note 7 for more information on product warranties.

Residential Heating & Cooling - We manufacture and market a broad range of furnaces, air conditioners, heat pumps, packaged heating and cooling systems, equipment and accessories to improve indoor air quality, comfort control products, replacement parts and supplies and related products for both the residential replacement and new construction markets in North America. These products are sold under various brand names and are sold either through direct sales to a network of independent installing dealers, including through our network of Lennox PartsPlus stores or to independent distributors. For the segment, for the three and nine months ended September 30, 2018, direct sales represent approximately \$459.9 million and \$1,346.2 million of revenues and sales to independent distributors represent approximately \$134.8 million and \$418.2 million of revenues, respectively. Given the nature of our business, customer product orders are fulfilled at a point in time and not over a period of time.

Commercial Heating & Cooling - In North America, we manufacture and sell unitary heating and cooling equipment used in light commercial applications, such as low-rise office buildings, restaurants, retail centers, churches and schools. These products are distributed primarily through commercial contractors and directly to national account customers in the planned replacement, emergency replacement and new construction markets. Revenue for the products sold is recognized at a point in time when control transfers to the customer, which is generally at time of shipment. Lennox National Account Service provides installation, service and preventive maintenance for commercial HVAC national account customers in the United States and Canada. Revenue related to service contracts is recognized as the services are performed under the contract based on the relative fair value of the services provided. In Europe, we manufacture and sell unitary products and applied systems. For the segment, for the three and nine months ended September 30, 2018, equipment sales represent approximately \$242.6 million and \$679.2 million of revenues while \$33.2 million and \$94.3 million of our revenue is generated from our service business, respectively.

Refrigeration - We manufacture and market equipment for the global commercial refrigeration markets under the Heatcraft Worldwide Refrigeration name. Our products are used in the food retail, food service, cold storage as well as non-food refrigeration markets. We sell these products to distributors, installing contractors, engineering design firms, original equipment manufacturers and end-users. Revenue for the products sold is \$156.8 million and \$495.8 million for the three and nine months ended September 30, 2018 and is recognized at a point in time when control transfers to the customer, which is generally at time of shipment. The remaining segment revenue relates to service revenues related to start-up and commissioning activities.

Variable Consideration - We engage in cooperative advertising, customer rebate, and other miscellaneous programs that result in payments or credits being issued to our customers. We record these customer discounts and incentives as a reduction of sales when the sales are recorded. For certain cooperative advertising programs, we also receive an identifiable benefit (goods or services) in exchange for the consideration given, and, accordingly, record a ratable portion of the expenditure to Selling, general and administrative (“SG&A”) expenses. All other advertising, promotions and marketing costs are expensed as incurred.

Other Judgments and Assumptions - We apply the practical expedient in ASC 606-10-50-14 and do not disclose information about remaining performance obligations that have original expected durations of one year or less. Applying the practical expedient in ASC 340-40-25-4, we recognize the incremental costs of obtaining contracts as an expense when incurred if the amortization period of the assets that we otherwise would have recognized is one year or less. These costs are included in SG&A expenses. ASC 606-10-32-18 allows us to not adjust the amount of

consideration to be received in a contract for any significant financing component if we expect to receive payment within twelve months of transfer of control of goods or services. We have elected this expedient as we expect all consideration to be received in one year or less at contract inception. We have also elected not to provide the remaining performance obligations disclosures related to service contracts in accordance with the practical expedient in ASC 606-10-55-18. We recognize revenue in the amount to which the entity has a right to invoice and have adopted this election to not provide the remaining performance obligations related to service contracts.

Contract Assets - We do not have material amounts of contract assets since revenue is recognized as control of goods is transferred or as services are performed. There are a small number of installation services that may occur over a period of time, but that period of time is generally very short in duration and right of payment does not exist until the installation is completed. Any contract assets that may arise are recorded in Other assets in our Consolidated Balance Sheet.

Contract Liabilities - Our contract liabilities consist of advance payments and deferred revenue. Our contract liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period. We classify advance payments and deferred revenue as current or noncurrent based on the timing of when we expect to recognize revenue. Generally all contract

liabilities are expected to be recognized within one year and are included in Accounts payable in our Consolidated Balance Sheet. The noncurrent portion of deferred revenue is included in Other liabilities in our Consolidated Balance Sheet.

Net contract assets (liabilities) consisted of the following:

	September 30, 2018		December 31, 2017		Change	
	\$		\$		\$	%
Contract assets	\$ 3.5		\$ 2.1		\$ 1.4	66.7 %
Contract liabilities - current	(6.2)	(7.3)	1.1	(15.1)%
Contract liabilities - noncurrent	(6.0)	(5.5)	(0.5) 9.1 %
Total	\$ (8.7)	\$ (10.7)	\$ 2.0	

For the three and nine months ended September 30, 2018, we recognized revenue of \$1.3 million and \$4.2 million related to our contract liabilities at January 1, 2018, respectively. Impairment losses recognized in our receivables and contract assets were de minimis in the third quarter of 2018.

3. Inventories:

The components of inventories are as follows (in millions):

	As of September 30, 2018	As of December 31, 2017	
Finished goods	\$ 315.4	\$ 331.9	
Work in process	6.3	5.5	
Raw materials and parts	232.2	199.2	
Subtotal	553.9	536.6	
Excess of current cost over last-in, first-out cost	(52.4) (52.4)
Total inventories, net	\$ 501.5	\$ 484.2	

4. Goodwill:

The changes in the carrying amount of goodwill for the first nine months of 2018, in total and by segment, are summarized in the table below (in millions):

	Balance at December 31, 2017	Write-off due to divested businesses	Changes in foreign currency translation rates	Balance at September 30, 2018
Residential Heating & Cooling	\$ 26.1	\$ —	\$ —	\$ 26.1
Commercial Heating & Cooling	62.2	—	(0.5) 61.7
Refrigeration	112.2	(11.5) (1.6) 99.1
Total Goodwill	\$ 200.5	\$ (11.5) \$ (2.1) \$ 186.9

We perform our annual goodwill impairment test in the fourth quarter of each year. We continue to monitor our reporting units for indicators of impairment throughout the year to determine if a change in facts or circumstances warrants a re-evaluation of our goodwill. In the current year, we wrote off \$11.5 million of goodwill as a part of the completed sales of our Australia, New Zealand, Asia and Brazil businesses (discussed further in Note 14 of the Notes to the Consolidated Financial Statements).

5. Derivatives:

Objectives and Strategies for Using Derivative Instruments

Commodity Price Risk - We utilize a cash flow hedging program to mitigate our exposure to volatility in the prices of metal commodities used in our production processes. Our hedging program includes the use of futures contracts to lock in prices, and as a result, we are subject to derivative losses should the metal commodity prices decrease and gains should the prices increase. We utilize a dollar cost averaging strategy so that a higher percentage of commodity price exposures are hedged near-term and

10

lower percentages hedged at future dates. This strategy allows for protection against near-term price volatility while allowing us to adjust to market price movements over time.

Interest Rate Risk - A portion of our debt bears interest at variable rates, and as a result, we are subject to variability in the cash paid for interest. To mitigate a portion of that risk, we may choose to engage in an interest rate swap hedging strategy to eliminate the variability of interest payment cash flows. We are not currently hedged against interest rate risk.

Foreign Currency Risk - Foreign currency exchange rate movements create a degree of risk by affecting the U.S. dollar value of assets and liabilities arising in foreign currencies. We seek to mitigate the impact of currency exchange rate movements on certain short-term transactions by periodically entering into foreign currency forward contracts.

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815), Targeted Improvements to Accounting for Hedging Activities. ASU 2017-12 intends to simplify the application of hedge accounting guidance and better align an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. We early adopted ASU No. 2017-12 during the first quarter of 2018. The adoption of ASU No. 2017-12 did not have a material impact on our consolidated results of operations, cash flows, and statement of financial position. With the early adoption of ASU No. 2017-12 we began entering into commodity futures contracts designated as cash flow hedges related to aluminum purchases.

Cash Flow Hedges

We have foreign exchange forward contracts and commodity futures contracts designated as cash flow hedges that are scheduled to mature through December 2018 and February 2020, respectively. Unrealized gains or losses from our cash flow hedges are included in Accumulated other comprehensive loss ("AOCL") and are expected to be reclassified into earnings within the next 18 months based on the prices of the commodities and foreign currencies at the settlement dates. We recorded the following amounts in AOCL related to our cash flow hedges (in millions):

	As of September 30, 2018	As of December 31, 2017
Unrealized losses (gains) on unsettled contracts	\$ 4.9	\$ (11.3)
Income tax (benefit) expense	(1.1)	3.9
Losses (Gains) included in AOCL, net of tax ⁽¹⁾	\$ 3.8	\$ (7.4)

⁽¹⁾ Assuming commodity and foreign currency prices remain constant, we expect to reclassify \$2.9 million of derivative losses into earnings within the next 12 months.

We had the following outstanding commodity futures contracts designated as cash flow hedges (in millions of pounds):

	As of September 30, 2018	As of December 31, 2017
Copper	13.7	20.6
Aluminum	29.3	—

We had the following outstanding foreign exchange forward contracts designated as cash flow hedges (in millions):

Edgar Filing: LENNOX INTERNATIONAL INC - Form 10-Q

	As of September 30, 2018	As of December 31, 2017
Notional Amounts (in local currency):		
Mexican Peso	49.2	207.3
Canadian Dollar	12.6	68.6

Derivatives not Designated as Cash Flow Hedges

For commodity derivatives not designated as cash flow hedges, we follow the same hedging strategy as derivatives designated as cash flow hedges, except that we elect not to designate them as cash flow hedges at the inception of the arrangement. We had the following outstanding commodity futures contracts not designated as cash flow hedges (in millions of pounds):

	As of September 30, 2018	As of December 31, 2017
Copper	0.8	1.8
Aluminum	1.0	1.8

We also had the following outstanding foreign currency forward contracts not designated as cash flow hedges (in millions):

	As of September 30, 2018	As of December 31, 2017
Notional Amounts (in local currency):		
Chinese Yuan	—	73.8
Mexican Peso	68.0	136.6
Euro	28.8	64.4
Canadian Dollar	23.0	27.3
British Pound	8.3	4.5
Singapore Dollar	—	7.0
Australian Dollar	—	107.0
New Zealand Dollar	—	5.0
Indian Rupee	—	39.8

Information about the Locations and Amounts of Derivative Instruments

The following tables provide the locations and amounts of derivative fair values in the Consolidated Balance Sheets and derivative gains and losses in the Consolidated Statements of Operations (in millions):

	Fair Values of Derivative Instruments ⁽¹⁾			
	Derivatives Designated as Hedging Instruments		Derivatives Not Designated as Hedging Instruments	
	As of September 30, 2018	As of December 31, 2017	As of September 30, 2018	As of December 31, 2017
Current Assets:				
Other Assets				
Commodity futures contracts	\$ —	\$ 11.0	\$ —	\$ 1.2
Foreign currency forward contracts	0.5	0.1	—	0.9
Non-Current Assets:				
Other Assets, net				
Commodity futures contracts	—	0.6	—	0.1
Total Assets	\$ 0.5	\$ 11.7	\$ —	\$ 2.2

Current Liabilities:

Accrued Expenses

Commodity futures contracts	0.3	—	—	—
Total Liabilities	\$ 5.5	\$ 0.3	\$ 0.4	\$ 1.1

⁽¹⁾ All derivative instruments are classified as Level 2 within the fair value hierarchy. See Note 17 for more information.

Derivatives Designated as Cash Flow Hedges	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Amount of Gain reclassified from AOCL into Income (effective portion) ⁽¹⁾	\$ (0.3)	\$ (3.5)	\$ (7.3)	\$ (9.4)
Amount of (Gains)/Loss recognized in Net income (ineffective portion) ⁽²⁾⁽³⁾	—	(0.1)	\$—	1.1
Derivatives Not Designated as Hedging Instruments	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2018	September 30, 2017	September 30, 2018	September 30, 2017
Amount of Loss/(Gain) Recognized in Net Income:				
Commodity futures contracts ⁽²⁾	\$0.3	\$ (0.2)	\$0.9	\$ (1.3)
Foreign currency forward contracts ⁽²⁾	—	(0.4)	(0.3)	(4.3)
	\$0.3	\$ (0.6)	\$0.6	\$ (5.6)

⁽¹⁾ The gain was recorded in Cost of goods sold in the accompanying Consolidated Statements of Operations.

⁽²⁾ The (gain)/loss was recorded in Losses and other expenses, net in the accompanying Consolidated Statements of Operations.

⁽³⁾ ASU 2017-12 eliminates the requirement to disclose the amount of hedge ineffectiveness prospectively because this amount is no longer separately measured and reported.

6. Income Taxes:

As of September 30, 2018, we had approximately \$0.3 million in total gross unrecognized tax benefits and of this amount, all if recognized, would be recorded through the Consolidated Statement of Operations. As of September 30, 2018, we had an insignificant amount in interest recognized in income tax expense in accordance with FASB Accounting Standards Codification (“ASC”) Topic 740.

We are currently under examination for our U.S. federal income taxes under the Internal Revenue Service's Compliance Assurance Program for 2018, and 2017 and are subject to examination by numerous other taxing authorities in the U.S. and in jurisdictions such as France, India and Germany. We are generally no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by taxing authorities for years prior to 2011.

Since January 1, 2018, several states have enacted legislation effective for tax years beginning on or after January 1, 2018, including changes to tax rates and apportionment methods. The impact of these changes is immaterial.

On October 24, 2016, the FASB issued ASU No. 2016-16, Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory, which requires companies to recognize the income tax effects of intercompany sales and transfers of assets other than inventory in the period in which the transfer occurs. Prior to ASU 2016-16, companies were required to defer the income tax effects of intercompany transfers of assets until the asset had been sold to an outside party or otherwise recognized. The new guidance is effective for public business entities for annual periods beginning after December 15, 2017 and interim periods within those annual periods. The guidance requires companies to apply a modified retrospective approach with a cumulative catch-up adjustment to opening retained earnings in the period of adoption. Accordingly, we recorded a \$5.1 million decrease to opening retained earnings in the period ending March 31, 2018.

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act makes broad and complex changes to the U.S. tax code, including, but not limited to, the new global intangible low-taxed income ("GILTI") tax rules. Because of the complexity of the new GILTI tax rules, we are continuing to evaluate this provision of the Tax Act and the application of ASC 740. Under U.S. GAAP, we are allowed to make an accounting policy choice of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current-period expense when incurred (the "period cost method") or (2) factoring such amounts into a company's measurement of its deferred taxes (the "deferred method"). Our selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing our global income to determine whether we expect to have future U.S. inclusions in taxable income related to GILTI and, if so, what the impact is expected to be. We are not currently able to reasonably estimate the effect of the new GILTI tax rules on future U.S. inclusions in taxable income as the expected future impact of this provision of the Tax Act depends on our current structure and business. Therefore, although we have considered the current effects of GILTI when estimating

our annual effective tax rate, we have not made any adjustments related to potential GILTI tax in our deferred taxes and have not made a policy decision regarding whether to record deferred taxes on GILTI.

On February 14, 2018, the FASB issued ASU No. 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income, which permits companies to reclassify stranded tax effects caused by 2017 tax reform between accumulated other comprehensive income (“AOCI”) and retained earnings. We have elected to adopt ASU 2018-02 to reclassify the income tax effects of the 2017 Act from AOCI to retained earnings for the period ending March 31, 2018. Accordingly, we recorded a \$22.7 million increase to opening retained earnings in the period ending March 31, 2018 to reclassify the effect of the change in the U.S. federal corporate income tax rate, including the reduction in the federal benefit associated with state taxes, on the gross deferred tax amounts and related valuation allowances at the date of enactment of the Tax Cuts and Jobs Act related to items remaining in AOCI.

The SEC staff issued Staff Accounting Bulletin No. 118 (“SAB 118”), which provides guidance on accounting for the tax effects of the Tax Act. SAB 118 provides a measurement period that should not extend beyond one year from the Tax Act enactment date for companies to complete the accounting under ASC 740. In accordance with SAB 118, a company must reflect the income tax effects of those aspects of the Act for which the accounting under ASC 740 is complete. To the extent that a company’s accounting for certain income tax effects of the Tax Act is incomplete but it is able to determine a reasonable estimate, it must record a provisional estimate in the financial statements. If a company cannot determine a provisional estimate to be included in the financial statements, it should continue to apply ASC 740 on the basis of the provisions of the tax laws that were in effect immediately before the enactment of the Tax Act.

Due to the Tax Act, several applications for changes in accounting method have been filed with the IRS to accelerate deductions into the 2017 U.S. federal income tax return. As of September 30, 2018 we have recognized discrete tax benefits of \$4.3 million associated with the finalization of the calculations for accounting method changes for credit reserves, prepaid expenses, IBNR medical expenses and depreciable asset reclassifications and repairs. In addition, we have recognized a discrete tax benefit of \$3.0 million associated with the finalization of the Domestic Production Activities deduction due to Tax Act impacts. As of September 30, 2018, we have recognized a discrete tax expense of \$2.7 million for the transition tax on the mandatory deemed repatriation of undistributed foreign earnings required by the Tax Act and \$0.1 million of tax expense due to changes in estimate of the decrease of our net federal deferred tax assets (“DTA”) from our year-end provision.

7. Commitments and Contingencies:

Product Warranties and Product Related Contingencies

We provide warranties to customers for some of our products and record liabilities for the estimated future warranty-related costs based on failure rates, cost experience and other factors. We periodically review the assumptions used to determine the product warranty liabilities and will adjust the liabilities in future periods for changes in assumptions, as necessary.

Liabilities for estimated product warranty costs related to continuing operations are included in the following captions on the accompanying Consolidated Balance Sheets (in millions):

	As of September 30, 2018	As of December 31, 2017
Accrued expenses	\$ 36.6	\$ 34.8
Other liabilities	73.6	75.1
Total warranty liability	\$ 110.2	\$ 109.9

The changes in product warranty liabilities related to continuing operations for the nine months ended September 30, 2018 were as follows (in millions):

Total warranty liability as of December 31, 2017	\$109.9
Warranty claims paid	(23.9)
Changes resulting from issuance of new warranties	29.0
Changes in estimates associated with pre-existing liabilities	(3.1)
Changes in foreign currency translation rates and other	(0.4)
Warranty liability from Divestitures	(1.3)
Total warranty liability as of September 30, 2018	\$110.2

We have incurred, and will likely continue to incur, product costs not covered by insurance or our suppliers' warranties, which are not included in the tables immediately above. Also, to satisfy our customers and protect our brands, we have repaired or replaced installed products experiencing quality-related issues, and will likely continue such repairs and replacements. Liabilities, for such quality related issues, are not material.

Litigation

We are involved in a number of claims and lawsuits incident to the operation of our businesses. Insurance coverages are maintained and estimated costs are recorded for such claims and lawsuits, including costs to settle claims and lawsuits, based on experience involving similar matters and specific facts known.

Some of these claims and lawsuits allege personal injury or health problems resulting from exposure to asbestos that was integrated into certain of our products. We have never manufactured asbestos and have not incorporated asbestos-containing components into our products for several decades. A substantial majority of these asbestos-related claims have been covered by insurance or other forms of indemnity or have been dismissed without payment. The remainder of our closed cases have been resolved for amounts that are not material, individually or in the aggregate. Our defense costs for asbestos-related claims are generally covered by insurance; however, our insurance coverage for settlements and judgments for asbestos-related claims varies depending on several factors and are subject to policy limits, so we may have greater financial exposure for future settlements and judgments. For the nine months ended September 30, 2018 and 2017, expense for asbestos-related litigation was \$3.3 million and \$3.9 million, respectively, net of probable insurance recoveries, for known and future asbestos-related litigation and is recorded in Losses and other expenses, net in the Consolidated Statements of Operations. For the three months ended September 30, 2018 and 2017, expense for asbestos-related litigation was \$1.4 million and \$1.5 million, respectively, net of probable insurance recoveries.

It is management's opinion that none of these claims or lawsuits or any threatened litigation will have a material adverse effect on our financial condition, results of operations or cash flows. Claims and lawsuits, however, involve uncertainties and it is possible that their eventual outcome could adversely affect our results of operations for a particular period.

Marshalltown Tornado and Recovery

On July 19, 2018 our manufacturing facility in Marshalltown, Iowa was severely damaged by a tornado. Insurance covers the repair or replacement of our assets that suffered damage or loss, and we are working closely with our insurance carriers and claims adjusters to ascertain the full amount of insurance recoveries due to us as a result of the damage and loss we suffered. Our insurance policies also provide business interruption coverage, including lost profits, and reimbursement for other expenses and costs that have been incurred relating to the damages and losses suffered. These costs and insurance recoveries are shown in Loss from natural disaster, net of insurance recoveries in the Consolidated Statements of Operations.

The following table summarizes the loss from natural disaster, net of insurance recoveries:

(Amounts in millions)	For the Nine Months Ended September 30, 2018
Write-off of property, plant and equipment	\$ 4.2
Write-off of inventory	5.2
Site clean-up and remediation	28.4
Factory inefficiencies due to lower productivity	4.9
Other	6.7
Total expense	49.4
Insurance recoveries received	45.0
Insurance recoveries receivable ⁽¹⁾	4.1
Loss from natural disaster, net of insurance recoveries	\$ 0.3

⁽¹⁾ The insurance recoveries receivable is recorded in Other assets in the Consolidated Balance Sheets.

8. Lines of Credit and Financing Arrangements:

The following table summarizes our outstanding debt obligations and their classification in the accompanying Consolidated Balance Sheets (in millions):

	As of September 30, 2018	As of December 31, 2017
Short-Term Debt:		
Foreign obligations	\$ —	\$ 0.9
Total short-term debt	\$ —	\$ 0.9
Current maturities of long-term debt:		
Capital lease obligations	\$ 0.4	\$ 3.2
Domestic credit facility	22.5	30.0
Debt issuance costs	(0.6)	(0.6)
Total current maturities of long-term debt	\$ 22.3	\$ 32.6
Long-Term Debt:		
Asset Securitization Program	\$ 377.3	\$ 276.0
Capital lease obligations	11.9	11.9
Domestic credit facility	368.0	337.0
Senior unsecured notes	350.0	350.0
Debt issuance costs	(3.6)	(4.4)
Total long-term debt	\$ 1,103.6	\$ 970.5
Total debt	\$ 1,125.9	\$ 1,004.0

Short-Term Debt

Foreign Obligations

Through several of our foreign subsidiaries, we have facilities available to assist in financing seasonal borrowing needs for our foreign locations. We had \$0.0 million and \$0.9 million of foreign obligations outstanding as of

September 30, 2018 and December 31, 2017, respectively, that were primarily borrowings under non-committed facilities. Proceeds on these facilities were \$40.2 million and \$19.1 million during the nine months ended September 30, 2018 and 2017, respectively. Repayments on the facilities were \$38.5 million and \$20.5 million during the nine months ended September 30, 2018 and 2017, respectively.

Asset Securitization Program

Under the Asset Securitization Program (“ASP”), we are eligible to sell beneficial interests in a portion of our trade accounts receivable to a financial institution for cash. The ASP contains a provision whereby we retain the right to repurchase all of the outstanding beneficial interests transferred. As a result of the repurchase right, the transfer of the receivables under the ASP is not accounted for as a sale. Accordingly, the cash received from the transfer of the beneficial interests in our trade accounts receivable is reflected as secured borrowings in the accompanying Consolidated Balance Sheets and proceeds received are included in Cash flows from financing activities in the accompanying Consolidated Statements of Cash Flows. Our continued involvement with the transferred assets includes servicing, collection and administration of the transferred beneficial interests. The accounts receivable securitized under the ASP are high-quality domestic customer accounts that have not aged significantly. The receivables represented by the retained interest that we service are exposed to the risk of loss for any uncollectible amounts in the pool of receivables transferred under the ASP.

The ASP provides for a maximum securitization amount ranging from \$225.0 million to \$380.0 million, depending on the period. The maximum capacity under the ASP is the lesser of the maximum securitization amount or 100% of the net pool balance less allowances, as defined by the ASP. Eligibility for securitization is limited based on the amount and quality of the qualifying accounts receivable and is calculated monthly. The eligible amounts available and beneficial interests sold were as follows (in millions):

	September 30, 2018	As of December 31, 2017
Eligible amount available under the ASP on qualified accounts receivable	\$ 380.0	\$ 290.0
Less: Beneficial interest transferred	(377.3)	(276.0)
Remaining amount available	\$ 2.7	\$ 14.0

We pay certain discount fees to use the ASP and to have the facility available to us. These fees relate to both the used and unused portions of the securitization. The used fee is based on the beneficial interest sold and calculated on either the average LIBOR rate or floating commercial paper rate determined by the purchaser of the beneficial interest, plus a program fee of 0.70%. The average rates as of September 30, 2018 and December 31, 2017 were 2.98% and 2.60%, respectively. The unused fee is based on 101% of the maximum available amount less the beneficial interest transferred and is calculated at a 0.35% fixed rate throughout the term of the agreement. We recorded these fees in Interest expense, net in the accompanying Consolidated Statements of Operations.

The ASP contains certain restrictive covenants relating to the quality of our accounts receivable and cross-default provisions with our Sixth Amended and Restated Credit Facility Agreement ("Domestic Credit Facility"), senior unsecured notes and any other indebtedness we may have over \$75.0 million. The administrative agent under the ASP is also a participant in our Domestic Credit Facility. The participating financial institutions have investment grade credit ratings. As of September 30, 2018, we believe we were in compliance with all covenant requirements.

Long-Term Debt

Domestic Credit Facility

On August 30, 2016, we replaced an earlier credit facility with the Domestic Credit Facility, which consists of a \$650.0 million unsecured revolving credit facility and a \$250.0 million unsecured term loan and matures in August 2021 (the "Maturity Date"). Under our Domestic Credit Facility, we had outstanding borrowings of \$390.5 million, of which \$190.0 million was the term loan balance, as well as \$2.5 million committed to standby letters of credit as of September 30, 2018. Subject to covenant limitations, \$447.0 million was available for future borrowings. The unsecured term loan also matures on the Maturity Date and requires quarterly principal repayments of \$7.5 million.

The revolving credit facility includes a subfacility for swingline loans of up to \$65.0 million. Additionally, at our request and subject to certain conditions, the commitments under the Domestic Credit Facility may be increased by a maximum of \$350.0 million as long as existing or new lenders agree to provide such additional commitments.

Our weighted average borrowing rate on the facility was as follows:

	As of		As of
	September		December
	30, 2018		31, 2017
Weighted average borrowing rate	3.41	%	2.76
			%

Our Domestic Credit Facility is guaranteed by certain of our subsidiaries and contains financial covenants relating to leverage and interest coverage. Other covenants contained in the Domestic Credit Facility restrict, among other things, certain mergers, asset dispositions, guarantees, debt, liens, and affiliate transactions. The financial covenants require us to maintain a defined Consolidated Indebtedness to Adjusted EBITDA Ratio and a Cash Flow (defined as EBITDA minus capital expenditures) to Net Interest Expense Ratio. The required ratios under our Domestic Credit Facility are detailed below:

Consolidated Indebtedness to Adjusted EBITDA Ratio no greater than 3.5 : 1.0

Cash Flow to Net Interest Expense Ratio no less than 3.0 : 1.0

Our Domestic Credit Facility contains customary events of default. These events of default include nonpayment of principal or interest, breach of covenants or other restrictions or requirements, default on certain other indebtedness or receivables securitizations (cross default), and bankruptcy. A cross default under our Domestic Credit Facility could occur if:

- We fail to pay any principal or interest when due on any other indebtedness or receivables securitization of at least \$75.0 million; or

- We are in default in the performance of, or compliance with any term of any other indebtedness or receivables securitization in an aggregate principal amount of at least \$75.0 million or any other condition exists which would give the holders the right to declare such indebtedness due and payable prior to its stated maturity.

Each of our major debt agreements contains provisions by which a default under one agreement causes a default in the others (a "cross default"). If a cross default under the Domestic Credit Facility, our senior unsecured notes, our lease of our corporate headquarters in Richardson, Texas (recorded as an operating lease), or our ASP were to occur, it could have a wider impact on our liquidity than might otherwise occur from a default of a single debt instrument or lease commitment.

If any event of default occurs and is continuing, lenders with a majority of the aggregate commitments may require the administrative agent to terminate our right to borrow under our Domestic Credit Facility and accelerate amounts due under our Domestic Credit Facility (except for a bankruptcy event of default, in which case such amounts will automatically become due and payable and the lenders' commitments will automatically terminate). As of September 30, 2018, we believe we were in compliance with all covenant requirements.

Senior Unsecured Notes

We issued \$350.0 million of senior unsecured notes in November 2016 (the "Notes") which will mature on November 15, 2023 with interest being paid on May 15 and November 15 at 3.00% per annum semiannually. The Notes are guaranteed, on a senior unsecured basis, by each of our domestic subsidiaries that guarantee indebtedness under our Domestic Credit Facility. The indenture governing the Notes contains covenants that, among other things, limit our ability and the ability of the subsidiary guarantors to: create or incur certain liens; enter into certain sale and leaseback transactions; and enter into certain mergers, consolidations and transfers of substantially all of our assets. The indenture also contains a cross default provision which is triggered if we default on other debt of at least \$75.0 million in principal which is then accelerated, and such acceleration is not rescinded within 30 days of the notice date. As of September 30, 2018, we believe we were in compliance with all covenant requirements.

9. Pension and Post-Retirement Benefit Plans:

On March 10, 2017, the FASB issued ASU 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. ASU 2017-07 changes the income statement presentation of defined benefit plan expense by requiring separation between operating expense (service cost component) and non-operating expense (all other components, including interest cost, amortization of prior service cost, curtailments and settlements, etc.). The operating expense component is reported with similar compensation costs while the non-operating components are reported in Other expense (income), net in the Statement of Operations. In addition, only the service cost component is eligible for capitalization as part of an asset such as inventory or property, plant and equipment. We elected the practical expedient to use the prior year's disclosure as a basis for the retroactive adoption of the ASU. The ASU did not have a material impact on our financial results.

The components of net periodic benefit cost were as follows (in millions):

	For the Three Months Ended September 30,			
	2018	2017	2018	2017
	Pension Benefits	Other Benefits		
Service cost	\$1.3	\$1.3	\$—	\$—
Interest cost	3.1	3.2	—	—
Expected return on plan assets	(4.7)	(5.3)	—	—
Amortization of prior service cost	0.1	—	(0.3)	(0.6)
Recognized actuarial loss	2.3	2.0	0.3	0.4
Settlements and curtailments	0.3	—	—	—
Net periodic benefit cost	\$2.4	\$1.2	\$—	\$(0.2)
	For the Nine Months Ended September 30,			
	2018	2017	2018	2017
	Pension Benefits	Other Benefits		
Service cost	\$4.0	\$3.8	\$—	\$—
Interest cost	9.3	9.5	—	—
Expected return on plan assets	(14.1)	(16.0)	—	—
Amortization of prior service cost	0.1	0.1	(1.0)	(1.8)
Recognized actuarial loss	6.9	6.1	1.0	1.1
Settlements and curtailments	0.3	0.6	—	—
Net periodic benefit cost	\$6.5	\$4.1	\$—	\$(0.7)

In January 2018, we reduced our estimated long-term rate of return on plan assets for U.S. pension plans from 7.5% to 6.5%. A 25 basis point decrease in the long-term rate of return will result in a \$0.7 million increase in net periodic benefit cost for U.S. pension plans.

10. Stock-Based Compensation:

We issue various long-term incentive awards, including performance share units, restricted stock units and stock appreciation rights under the Lennox International Inc. 2010 Incentive Plan, as amended and restated. Stock-based compensation expense related to continuing operations is included in Selling, general and administrative expenses in the accompanying Consolidated Statements of Operations as follows (in millions):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2018	2017	2018	2017
Stock-based compensation expense ⁽¹⁾	\$7.4	\$6.3	\$21.0	\$18.8

⁽¹⁾ All expense was recorded in our Corporate and Other business segment.

11. Stock Repurchases:

Our Board of Directors has authorized a total of \$2.5 billion to repurchase shares of our common stock (collectively referred to as the "Share Repurchase Plans"), including a \$500 million share repurchase authorization in March 2018. Under this program, we may repurchase shares from time to time in open market transactions and in privately

negotiated transactions based on business, market, applicable legal requirements and other considerations. The repurchase program does not require the repurchase of a specific number of shares and may be terminated at any time. As of September 30, 2018, \$546 million of shares may be repurchased under the Share Repurchase Plans.

On February 8, 2018, the Company entered into a Fixed Dollar Accelerated Share Repurchase Transaction (the "ASR Agreement") with MUFG Securities EMEA plc ("MUFG"), to effect an accelerated stock buyback of our common stock. Under the ASR Agreement, on February 8, 2018, we paid MUFG an initial purchase price of \$150 million, and MUFG delivered to us

common stock, representing approximately 85% of the shares expected to be purchased under the ASR Agreement. The ASR was completed in April of 2018 and MUFG delivered additional shares for a total of 0.7 million shares of common stock repurchased as part of this ASR Agreement.

We repurchased 1.0 million shares for \$200.2 million from open market transactions during the second quarter of 2018.

We also repurchased 0.1 million shares for \$21.1 million during the nine months ended September 30, 2018 from employees who surrendered their shares to satisfy minimum tax withholding obligations upon the exercise of long-term incentive awards.

12. Comprehensive Income:

The following table provides information on items not reclassified in their entirety from AOCL to Net income in the accompanying Consolidated Statements of Operations (in millions):

	For the Three		For the Nine		Affected Line Item(s) in the Consolidated Statements of Operations
	Months Ended September 30, 2018	Months Ended September 30, 2017	Months Ended September 30, 2018	Months Ended September 30, 2017

Balance as of September 30, 2018	\$ (3.8)	\$ —	\$(151.2)	\$ (20.6)) \$(175.6)

20

13. Restructuring Charges:

We record restructuring charges associated with management-approved restructuring plans when we reorganize or remove duplicative headcount or infrastructure within our businesses. Restructuring charges include severance costs to eliminate a specified number of employees, infrastructure charges to vacate facilities and consolidate operations, contract cancellation costs and other related activities. The timing of associated cash payments is dependent upon the type of restructuring charge and can extend over a multi-year period. Restructuring charges are not included in our calculation of segment profit (loss), as more fully explained in Note 16.

Restructuring Activities in 2018

Information regarding the restructuring charges for all ongoing activities is presented in the following table (in millions):

	Charges Incurred in 2018	Charges Incurred to Date	Total Charges Expected to be Incurred
Severance and related expense	\$ 0.7	\$ 12.0	\$ 12.0
Asset write-offs and accelerated depreciation	—	3.2	3.2
Lease termination	0.7	0.9	0.9
Other	0.5	4.6	4.8
Total restructuring charges	\$ 1.9	\$ 20.7	\$ 20.9

While restructuring charges are excluded from our calculation of segment profit (loss), the table below presents the restructuring charges associated with each segment (in millions):

	Charges Incurred in 2018	Charges Incurred to Date	Total Charges Expected to be Incurred
Residential Heating & Cooling	\$ 0.5	\$ 1.9	\$ 2.1
Commercial Heating & Cooling	0.8	2.8	2.8
Refrigeration	0.7	13.8	13.8
Corporate & Other	(0.1)	2.2	2.2
Total restructuring charges	\$ 1.9	\$ 20.7	\$ 20.9

Restructuring accruals are included in Accrued expenses in the accompanying Consolidated Balance Sheets. The table below details the activity in 2018 within the restructuring accruals (in millions):

	Balance as of December 31, 2017	Included in Earnings	Cash Utilization	Non-Cash Utilization and Other	Balance as of September 30, 2018
Severance and related expense	\$ 0.2	\$ 0.7	\$ (0.8)	\$ —	\$ 0.1
Lease termination	—	0.7	(0.1)	(0.2)	0.4
Other	—	0.5	(0.5)	—	—
Total restructuring accruals	\$ 0.2	\$ 1.9	\$ (1.4)	\$ (0.2)	\$ 0.5

14. Divestitures:

Australia, New Zealand and Asia Divestiture:

During the first quarter of 2018, we obtained board approval and signed an agreement with Beijer Ref AB, a Stockholm Stock Exchange-listed company, for the sale of our Australia, New Zealand and Asia business except for the Milperra property that was sold during the second quarter of 2018. We completed the sale to Beijer Ref AB in the second quarter of 2018 with the final post-completion adjustment being recorded in the third quarter of 2018. The following table summarizes the net loss recognized in connection with this divestiture:

(Amounts in millions)	For the Nine Months Ended September 30, 2018
Cash received from the buyer	\$ 82.9
Net assets sold ⁽¹⁾	(87.2)
AOCI reclassification adjustments, primarily foreign currency translation	(3.2)
Direct costs to sell	(5.5)
Loss on sale of business	\$ (13.0)

⁽¹⁾ Includes \$10.3 million of net assets that were written down during the quarter ended March 31, 2018 based on the expected proceeds from the sale, net of selling costs for the sale for our Australia, New Zealand and Asia business.

The Milperra property was sold during the quarter ended June 30, 2018. We received net cash proceeds of \$37.2 million net of direct costs to sell of \$1.5 million. The net gain recognized in connection with this sale was \$23.8 million.

Brazil Divestiture:

During the second quarter of 2018, we obtained board approval and signed an agreement with Elgin SA, a private Brazilian company, for the sale of our South America business. The sale was subject to Brazilian antitrust approval. We obtained antitrust approval and completed the sale to Elgin SA in the third quarter of 2018. The following table summarizes the net loss recognized in connection with this divestiture:

(Amounts in millions)	For the Nine Months Ended September 30, 2018
Cash received from the buyer	\$ 4.2
Net assets sold ⁽²⁾	(13.2)
AOCI reclassification adjustments, primarily foreign currency translation	(24.7)
Direct costs to sell	(2.9)
Loss on sale of business	\$ (36.6)

⁽²⁾ Includes \$1.2 of net assets that were written down during the quarter ended June 30, 2018 based on the expected proceeds from the sale, net of selling costs for the sale for our Brazil business.

The total Loss (gain), net on sale of businesses and related property in our Consolidated Statements of Operations of \$25.8 million is comprised of the \$13.0 million loss on the sale of our Australia, New Zealand and Asia business, the \$23.8 million gain on the sale of our Milperra property, and the \$36.6 million loss on the sale of our Brazil business.

15. Earnings Per Share:

Basic earnings per share are computed by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted earnings per share are computed by dividing net income by the sum of the weighted-average number of shares and the number of equivalent shares assumed outstanding, if dilutive, under our stock-based compensation plans.

The computations of basic and diluted earnings per share for Income from continuing operations were as follows (in millions, except per share data):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2018	2017	2018	2017
Net income	\$108.0	\$103.5	\$283.4	\$262.5
Add: Loss from discontinued operations	—	0.5	1.7	1.4
Income from continuing operations	\$108.0	\$104.0	\$285.1	\$263.9
Weighted-average shares outstanding – basic	40.3	41.9	40.8	42.3
Add: Potential effect of dilutive securities attributable to stock-based payments	0.4	0.5	0.5	0.6
Weighted-average shares outstanding – diluted	40.7	42.4	41.3	42.9
Earnings per share – Basic:				
Income from continuing operations	\$2.68	\$2.48	\$6.98	\$6.23
Loss from discontinued operations	—	(0.01)	(0.04)	(0.03)
Net income	\$2.68	\$2.47	\$6.94	\$6.20
Earnings per share – Diluted:				
Income from continuing operations	\$2.65	\$2.45	\$6.90	\$6.15
Loss from discontinued operations	—	(0.01)	(0.04)	(0.03)
Net income	\$2.65	\$2.44	\$6.86	\$6.12

The following stock appreciation rights and restricted stock units were outstanding but not included in the diluted earnings per share calculation because the assumed exercise of such rights would have been anti-dilutive (in millions, except for per share data):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2018	2017	2018	2017
Weighted-average number of shares	0.2	0.2	0.2	0.2
Price per share	\$205.53	\$156.94	\$205.53	\$156.94

16. Reportable Business Segments:

We operate in three reportable business segments of the heating, ventilation, air conditioning and refrigeration (“HVACR”) industry. Our segments are organized primarily by the nature of the products and services we provide. The following table describes each segment:

Segment	Product or Services	Markets Served	Geographic Areas
Residential Heating & Cooling	Furnaces, air conditioners, heat pumps, packaged heating and cooling systems, indoor air quality equipment, comfort control products, replacement parts	Residential Replacement; Residential New Construction	United States Canada
Commercial Heating & Cooling	Unitary heating and air conditioning equipment, applied systems, controls, installation and service of commercial heating and cooling equipment	Light Commercial	United States Canada Europe Central America South America United States Canada Europe
Refrigeration	Condensing units, unit coolers, fluid coolers, air cooled condensers, air handlers, process chillers, controls, compressorized racks, supermarket display cases and systems	Light Commercial; Food Preservation; Non-Food/Industrial	Asia Pacific* South America* Central America

*Our businesses in the Asia Pacific and South America area were sold in the second and third quarter of 2018, respectively. Refer to Note 14 for details regarding the divestiture of the business.

We use segment profit or loss as the primary measure of profitability to evaluate operating performance and to allocate capital resources. We define segment profit or loss as a segment’s income or loss from continuing operations before income taxes included in the accompanying Consolidated Statements of Operations, excluding certain items. The reconciliation in the table below details the items excluded.

Our corporate costs include those costs related to corporate functions such as legal, internal audit, treasury, human resources, tax compliance and senior executive staff. Corporate costs also include the long-term share-based incentive awards provided to employees throughout LII. We record these share-based awards as corporate costs because they are determined at the discretion of the Board of Directors and based on the historical practice of doing so for internal reporting purposes.

Any intercompany sales and associated profit (and any other intercompany items) are eliminated from segment results. There were no significant intercompany eliminations for the periods presented.

Segment Data

Net sales and segment profit (loss) for each segment, along with a reconciliation of segment profit (loss) to Operating income, are shown below (in millions):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2018	2017	2018	2017
Net sales				
Residential Heating & Cooling	\$594.7	\$590.5	\$1,764.4	\$1,663.8
Commercial Heating & Cooling	275.8	269.4	773.5	723.5
Refrigeration	159.7	192.4	502.5	560.6
	\$1,030.2	\$1,052.3	\$3,040.4	\$2,947.9
Segment profit (loss) ⁽¹⁾				
Residential Heating & Cooling	\$113.0	\$114.7	\$317.9	\$297.6
Commercial Heating & Cooling	46.7	50.0	118.9	113.8
Refrigeration	23.0	20.0	55.8	55.7
Corporate and other	(28.1)	(23.7)	(61.8)	(58.5)
Total segment profit	154.6	161.0	430.8	408.6
Reconciliation to Operating income:				
Special inventory write down	—	—	0.2	—
Special product quality adjustment	—	0.5	—	5.7
Loss (gain), net on sale of businesses and related property	6.2	—	25.8	—
Loss from natural disaster, net of insurance recoveries	0.3	—	0.3	—
Items in losses (gains) and other expenses, net that are excluded from segment profit (loss) ⁽¹⁾	2.4	4.0	9.3	10.0
Restructuring charges	0.5	1.9	1.9	2.1
Operating income	\$145.2	\$154.6	\$393.3	\$390.8

⁽¹⁾ We define segment profit (loss) as a segment's operating income included in the accompanying Consolidated Statements of Operations, excluding:

• The following items in Losses (gains) and other expenses, net:

Net change in unrealized losses (gains) on unsettled futures contracts,

Special legal contingency charges,

Asbestos-related litigation,

Environmental liabilities,

Divestiture costs,

Other items, net,

Special inventory write down,

Loss (gain), net on sale of businesses and related property,

Loss from natural disaster, net of insurance recoveries; and,

Restructuring charges.

Total Assets by Segment

Except for the seasonal increase in total assets across all reportable segments, there have not been any material changes in the composition of total assets by segment since December 31, 2017; however, during the first nine months we sold our Australia, New Zealand, Asia and Brazil businesses. Refer to Note 14 for details regarding divestiture of businesses.

17. Fair Value Measurements:

Fair Value Hierarchy

The methodologies used to determine the fair value of our financial assets and liabilities at September 30, 2018 were the same as those used at December 31, 2017.

Assets and Liabilities Carried at Fair Value on a Recurring Basis

Derivatives

Derivatives were classified as Level 2 and primarily valued using estimated future cash flows based on observed prices from exchange-traded derivatives. We also considered the counterparty's creditworthiness, or our own creditworthiness, as appropriate. Adjustments were recorded to reflect the risk of credit default, however, they were insignificant to the overall value of the derivatives. Refer to Note 5 for more information related to our derivative instruments.

Marketable Equity Securities

The following table presents the fair value of an investment in marketable equity securities, classified as Level 1 and related to publicly traded stock of a non-U.S. company, recorded in Other assets, net in the accompanying Consolidated Balance Sheets (in millions). This investment was sold as part of our divestiture of our Australia, New Zealand and Asia business. Refer to Note 14 for details regarding divestiture of the business.

	As of September 30, 2018	As of December 31, 2017
Investment in marketable equity securities	\$	—\$ 4.1

Other Fair Value Disclosures

The carrying amounts of Cash and cash equivalents, Accounts and notes receivable, net, Accounts payable, and Short-term debt approximate fair value due to the short maturities of these instruments. The carrying amount of our Domestic Credit Facility in Long-term debt also approximates fair value due to its variable-rate characteristics.

The fair value of our senior unsecured notes in Long-term debt, classified as Level 2, was based on the amount of future cash flows using current market rates for debt instruments of similar maturities and credit risk. The following table presents their fair value (in millions):

	As of September 30, 2018	As of December 31, 2017
Senior unsecured notes	\$ 293.2	\$ 308.1

18. Condensed Consolidating Financial Statements:

Our senior unsecured notes are unconditionally guaranteed by certain of our subsidiaries (the "Guarantor Subsidiaries") and are not guaranteed by our other subsidiaries (the "Non-Guarantor Subsidiaries"). The Guarantor Subsidiaries are 100% owned, all guarantees are full and unconditional, and all guarantees are joint and several. As a result of the guarantee arrangements, we are required to present the following condensed consolidating financial statements.

The condensed consolidating financial statements reflect our investments in our subsidiaries using the equity method of accounting. The principal elimination entries eliminate investments in subsidiaries and intercompany balances and transactions. Our condensed consolidating financial statements and our Guarantor Subsidiaries and Non-Guarantor Subsidiaries as of September 30, 2018 and December 31, 2017, and for the three and nine months ended September 30, 2018 and 2017 are shown on the following pages.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are based on information currently available to management as well as management's assumptions and beliefs as of the date such statements were made. All statements, other than statements of historical fact, included in this Quarterly Report on Form 10-Q constitute forward-looking statements, including but not limited to statements identified by forward-looking terminology, such as the words "may," "will," "should," "plan," "anticipate," "believe," "intend," "estimate" and "expect" and similar expressions. Such statements reflect our current views with respect to future events, based on what we believe are reasonable assumptions; however, such statements are subject to certain risks and uncertainties. In addition to the specific uncertainties discussed elsewhere in this Quarterly Report on Form 10-Q, the risk factors set forth in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017, and those set forth in Part II, "Item 1A. Risk Factors" of this report, if any, may affect our performance and results of operations. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may differ materially from those in the forward-looking statements. We disclaim any intention or obligation to update or review any forward-looking statements or information, whether as a result of new information, future events or otherwise, except as required by law.

Business Overview

We operate in three reportable business segments of the heating, ventilation, air conditioning and refrigeration ("HVACR") industry. Our reportable segments are Residential Heating & Cooling, Commercial Heating & Cooling, and Refrigeration. For additional information regarding our reportable segments, see Note 16 in the Notes to the Consolidated Financial Statements.

Our fiscal quarterly periods are comprised of approximately 13 weeks, but the number of days per quarter may vary year-over-year. Our quarterly reporting periods usually end on the Saturday closest to the last day of March, June and September. Our fourth quarter and fiscal year ends on December 31, regardless of the day of the week on which December 31 falls. For convenience, throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations, the 13-week periods comprising each fiscal quarter are denoted by the last day of the respective calendar quarter.

We sell our products and services through a combination of direct sales, distributors and company-owned parts and supplies stores. The demand for our products and services is seasonal and significantly impacted by the weather. Warmer than normal summer temperatures generate demand for replacement air conditioning and refrigeration products and services, and colder than normal winter temperatures have a similar effect on heating products and services. Conversely, cooler than normal summers and warmer than normal winters depress the demand for HVACR products and services. In addition to weather, demand for our products and services is influenced by national and regional economic and demographic factors, such as interest rates, the availability of financing, regional population and employment trends, new construction, general economic conditions, and consumer spending habits and confidence. A substantial portion of the sales in each of our business segments is attributable to replacement business, with the balance comprised of new construction business.

The principal elements of cost of goods sold are components, raw materials, factory overhead, labor, estimated warranty costs, and freight and distribution costs. The principal raw materials used in our manufacturing processes are steel, copper and aluminum. In recent years, pricing volatility for these commodities and related components, including the impact of newly imposed tariffs on the import of certain of our raw materials and components, has impacted us and the HVACR industry in general. We seek to mitigate the impact of volatility in commodity prices

through a combination of price increases, commodity contracts, improved production efficiency and cost reduction initiatives. We also partially mitigate volatility in the prices of these commodities by entering into futures contracts and fixed forward contracts.

On July 19, 2018 our manufacturing facility in Marshalltown, Iowa was damaged by a tornado. Insurance covers the repair or replacement of our assets that suffered damage or loss, and we are working closely with our insurance carriers and claims adjusters to ascertain the full amount of insurance recoveries due to us as a result of the damage and loss we suffered. Our insurance policies also provide business interruption coverage, including lost profits, and reimbursement for other expenses and costs that have been incurred relating to the damages and losses suffered. For the three months ended September 30, 2018 we incurred expenses of \$49.4 million related to damages caused by the tornado, which included the write-off of damaged property, equipment and inventory, freight to move product to other warehouses and professional fees to secure and maintain the site. We are working closely with our insurance company and have received insurance recoveries of \$45.0 million for the three months ended September 30, 2018 and recorded an insurance receivable of \$4.1 million. These costs and insurance recoveries are shown in Loss from natural disaster, net of insurance recoveries in the Consolidated Statements of Operations.

We estimate the impact from the tornado will be a loss of approximately \$100 million of revenue and \$55 million of segment profit in 2018 and \$85 million of revenue and \$35 million of segment profit in 2019. The lost segment profits in 2018 and 2019 from business interruption due to the tornado are expected to be fully offset by insurance proceeds in 2019. We estimate that total pre-tax charges related to damage caused by the tornado will be approximately \$80 million in 2018, which we expect to be offset by insurance recoveries in the current year. In 2019, we estimate an additional \$15 million in pre-tax charges and we expect our insurance recoveries to more than offset the write-off of the net book value of the damaged assets and in line with our costs to repair or replace.

Financial Overview

In the third quarter of 2018, the Residential Heating & Cooling segment had a 1% increase in net sales and had \$2 million in decreased segment profit compared to the third quarter of 2017. The segment results were negatively impacted by the supply disruption caused by the tornado at our Marshalltown facility. Our Commercial Heating & Cooling segment had a 2% increase in net sales and had \$3 million in decreased segment profit compared to the third quarter of 2017. The increased revenue was driven by volume and price gains. The decrease in segment profit was driven by increase commodity and other product costs as well as increased freight and distribution. Sales in our Refrigeration segment decreased by 17% due to the sale of our Australia, New Zealand, Asia and Brazil businesses. The segment also had \$3 million in increased segment profit compared to the third quarter of 2017, largely due to price increases.

Financial Highlights

Net sales decreased \$22 million, or 2%, to \$1,030 million in the third quarter of 2018 compared to the third quarter of 2017.

Operating income in the third quarter of 2018 decreased \$9 million to \$145 million.

Net income for the third quarter of 2018 increased \$4.5 million to \$108 million, including \$6 million loss on sale of business and related property.

Diluted earnings per share from continuing operations were \$2.65 per share in the third quarter of 2018 compared to \$2.45 per share in the third quarter of 2017.

During the nine months ended September 30, 2018, we returned \$68 million to shareholders through dividend payments and have repurchased \$350 million of common stock. We also received \$116 million in proceeds from the sale of our businesses in Australia, New Zealand, Asia and Brazil along with the sale of the related property.

Third Quarter of 2018 Compared to Third Quarter of 2017 - Consolidated Results

The following table provides a summary of our financial results, including information presented as a percentage of net sales:

	For the Three Months Ended September 30,				
	Dollars (in millions)		Percent Change	Percent of Sales	
	2018	2017	Fav/(Unfav)	2018	2017
Net sales	\$1,030.2	\$1,052.3	(2.1)%	100.0 %	100.0 %
Cost of goods sold	728.3	738.6	1.4	70.7	70.2
Gross profit	301.9	313.7	(3.8)	29.3	29.8
Selling, general and administrative expenses	149.4	158.7	5.9	14.5	15.1
Losses and other expenses, net	2.7	3.0	10.0	0.3	0.3
Restructuring charges	0.5	1.9	73.7	—	0.2
Loss, net on sale of business and related property	6.2	—	N/A	0.6	—

Edgar Filing: LENNOX INTERNATIONAL INC - Form 10-Q

Loss from natural disaster, net of insurance recoveries	0.3	—	N/A	—	—
Income from equity method investments	(2.4)	(4.5)	(46.7)	(0.2)	(0.4)
Operating income	\$145.2	\$154.6	(6.1)%	14.1 %	14.7 %

Net Sales

Net sales decreased 2% in the third quarter of 2018 compared to the third quarter of 2017, primarily from 4% related to our divested businesses in Australia, New Zealand, Asia and Brazil, partially offset by 2% from favorable price.
The Commercial

Heating & Cooling segment delivered higher volume from our North American equipment business as well as higher volume from our North American Service business. The Refrigeration segment sales increased from our North American equipment business after removing the impact due to our divested businesses in Australia, New Zealand, Asia and Brazil. The Residential Heating & Cooling segment experienced volume declines given the supply disruption caused by the tornado at our Marshalltown facility.

Gross Profit

Gross profit margin in the third quarter of 2018 decreased to 29.3% compared to 29.8% in the third quarter of 2017. We saw decreases in profit margin of 160 basis points ("bps") from higher commodity prices, 100 bps from higher freight and distribution costs, and 30 bps from other costs. Partially offsetting these decreases were positive margin increases of 190 bps from favorable price and mix and 50 bps from lower material costs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses, or SG&A, was \$149 million in the third quarter of 2018 compared to \$159 million in the third quarter of 2017, and as a percentage of net sales decreased 60 bps to 14.5%. SG&A decreased primarily due to the sale of our divested businesses in Australia, New Zealand, Asia and Brazil.

Losses and Other Expenses, Net

Losses and other expenses, net for the third quarter of 2018 and 2017 included the following (in millions):

	For the Three Months Ended September 30, 2018 2017	
Realized losses (gains) on settled future contracts	\$0.2	\$(0.5)
Foreign currency exchange losses (gains)	0.1	(0.6)
Loss on disposal of fixed assets	—	0.1
Net change in unrealized losses on unsettled futures contracts	0.2	0.2
Special legal contingency charges	0.1	1.5
Asbestos-related litigation	1.4	1.5
Environmental liabilities	0.2	0.5
Other items, net	0.5	0.3
Losses and other expenses, net (pre-tax)	\$2.7	\$3.0

The net change in unrealized losses (gains) on unsettled futures contracts was due to changes in commodity prices relative to the unsettled futures contract prices. For more information on our futures contracts, see Note 5 in the Notes to the Consolidated Financial Statements. For more information on special legal contingency charges and asbestos-related litigation, see Note 7 in the Notes to the Consolidated Financial Statements. The environmental liabilities relate to estimated remediation costs for contamination at some of our facilities.

Restructuring Charges

Restructuring charges were less than \$1 million in the third quarter of 2018. The charges in 2018 were primarily for projects to realign resources and enhance distribution capabilities. For additional information on our restructuring

activities, refer to Note 13 in the Notes to the Consolidated Financial Statements.

Income from Equity Method Investments

We participate in two joint ventures that are engaged in the manufacture and sale of compressors, unit coolers and condensing units. We exert significant influence over these affiliates based upon our ownership, but do not control them due to venture partner participation. Accordingly, these joint ventures have been accounted for under the equity method and their financial position and results of operations are not consolidated. Income from equity method investments of \$2 million in the third quarter of 2018 was down from \$5 million when compared to the third quarter of 2017. The decrease is because the joint ventures have experienced increased costs related to commodities and components and have not passed along these increased costs to us via price increases.

Interest Expense, net

Interest expense, net of \$10 million in the third quarter of 2018 was up from \$8 million in the third quarter of 2017 due to an increase in our average net borrowings and rising interest rates.

Income Taxes

We expect our annual effective tax rate to be between 22% and 24%, excluding the impact of excess tax benefits recorded as a reduction of income taxes under ASU No. 2016-09.

Our effective tax rate was 19.3% for the three months ended September 30, 2018, after the impact of excess tax benefits, compared to 29.2% for the three months ended September 30, 2017, after the impact of excess tax benefits. The rate for the three months ended September 30, 2018 is lower as compared to the three months ended September 30, 2017 primarily due to the reduced U.S. federal corporate tax rate from enactment of the Tax Cuts and Jobs Act on December 22, 2017.

Third Quarter of 2018 Compared to Third Quarter of 2017 - Results by Segment

Residential Heating & Cooling

The following table presents our Residential Heating & Cooling segment's net sales and profit for the third quarter of 2018 and 2017 (dollars in millions):

	For the Three Months Ended September 30,		Difference	% Change
	2018	2017		
Net sales	\$594.7	\$590.5	\$ 4.2	0.7 %
Profit	\$113.0	\$114.7	\$ (1.7)	(1.5)%
% of net sales	19.0 %	19.4 %		

Net sales increased 1% in the third quarter of 2018 compared to the third quarter of 2017. Price and mix combined increased by 3% and sales volume declined by 2% primarily as a result of the supply disruption caused by the tornado that severely damaged our Marshalltown manufacturing facility.

Segment profit in the third quarter of 2018 decreased \$2 million compared to the third quarter of 2017 due to \$14 million of higher commodity costs, \$9 million from freight and costs associated with distribution investments, \$3 million from lower sales volume which was primarily caused by the supply disruption resulting from the tornado that damaged our Marshalltown manufacturing facility, \$2 million from unfavorable foreign currency exchange rates, and \$1 million from higher other product costs. Partially offsetting these decreases is \$21 million from favorable price and mix combined, \$3 million from lower SG&A expenses, \$2 million from engineering-led cost reductions, and \$1 million from higher factory productivity.

Commercial Heating & Cooling

The following table presents our Commercial Heating & Cooling segment's net sales and profit for the third quarter of 2018 and 2017 (dollars in millions):

For the Three
Months Ended

Edgar Filing: LENNOX INTERNATIONAL INC - Form 10-Q

	September 30,			
	2018	2017	Difference	% Change
Net sales	\$275.8	\$269.4	\$ 6.4	2.4 %
Profit	\$46.7	\$50.0	\$ (3.3)	(6.6)%
% of net sales	16.9 %	18.6 %		

Net sales increased by 2% in the third quarter of 2018 compared to the third quarter of 2017. Sales volume increased 1% and price increased by 1%.

Segment profit in the third quarter of 2018 decreased by \$3 million compared to the third quarter of 2017 due to \$3 million of higher commodity costs, \$2 million of higher other product costs, \$2 million of higher freight and distribution expense, \$2 million

of higher SG&A, and \$1 million of lower factory productivity. Partially offsetting these decreases is \$5 million of favorable price and mix combined, \$1 million of higher sales volume, and \$1 million from sourcing and engineering-led cost reductions.

Refrigeration

The following table presents our Refrigeration segment's net sales and profit for the third quarter of 2018 and 2017 (dollars in millions):

	For the Three Months Ended September 30,			
	2018	2017	Difference	% Change
Net sales	\$159.7	\$192.4	\$ (32.7)	(17.0)%
Profit	\$23.0	\$20.0	\$ 3.0	15.0 %
% of net sales	14.4 %	10.4 %		

Net sales decreased 17% in the third quarter of 2018 compared to the third quarter of 2017. The loss of sales from the divested Australia, New Zealand, Asia and Brazil businesses contributed 20% and unfavorable mix decreased sales by 1% which was partially offset by 3% higher sales volume and 1% higher price.

Segment profit increased \$3 million in the third quarter of 2018 compared to the third quarter of 2017 primarily due to \$3 million of favorable price, \$1 million from higher sales volume, \$1 million of sourcing and engineering-led cost reductions, and \$1 million of lower SG&A. Partially offsetting these increases was \$2 million of higher commodity costs, and \$1 million of lost profit from the divested businesses.

Corporate and Other

Corporate and other expenses were \$4 million higher in the third quarter of 2018 compared to the third quarter of 2017 primarily due to the timing of planned technology investments.

Year-to-Date through September 30, 2018 Compared to Year-to-Date through September 30, 2017 - Consolidated Results

The following table provides a summary of our financial results, including information presented as a percentage of net sales:

	For the Nine Months Ended September 30,				
	Dollars (in millions)		Percent Change Fav/(Unfav)	Percent of Sales	
	2018	2017		2018	2017
Net sales	\$3,040.4	\$2,947.9	3.1	100.0 %	100.0 %
Cost of goods sold	2,153.8	2,082.4	(3.4)	70.8	70.6
Gross profit	886.6	865.5	2.4	29.2	29.4
Selling, general and administrative expenses	466.1	479.6	2.8	15.3	16.3
Losses and other expenses, net	10.0	8.5	(17.6)	0.3	0.3
Restructuring charges	1.9	2.1	9.5	0.1	0.1
(Gain) loss, net on sale of business and related property	25.8	—	N/A	0.8	—
Loss on assets held for sale	—	—	N/A	—	—

Edgar Filing: LENNOX INTERNATIONAL INC - Form 10-Q

Loss from natural disaster, net of insurance recoveries	0.3	—	N/A	—	—
Income from equity method investments	(10.8)	(15.5)	(30.3)	(0.4)	(0.5)
Operating income	\$393.3	\$390.8	0.6	12.9 %	13.3 %

Net Sales

Net sales increased 3% in the first nine months of 2018 compared to the first nine months of 2017 due to a 3% increase in sales volumes and 2% from favorable price. These increases were partially offset by 2% related to our divested Australia, New Zealand, Asia and Brazil businesses. The Residential Heating & Cooling segment delivered higher volume from increased replacement

equipment, new construction business and increased parts and supplies sales. The Commercial Heating & Cooling segment delivered higher volume from our North American equipment business as well as from our North American Service business. The Refrigeration sales declined due to our divested businesses in Australia, New Zealand, Asia and Brazil.

Gross Profit

Gross profit margins in the first nine months of 2018 decreased 20 bps to 29.2% when compared to the first nine months of 2017. Our profit margin decreased 130 bps from higher commodity costs and 100 bps from freight and distribution. Offsetting these decreases were increases of 140 bps from favorable price and mix combined and 70 bps from material cost savings.

Selling, General and Administrative Expenses

SG&A was \$466 million for the first nine months of 2018 compared to \$480 million for the first nine months of 2017, and as a percentage of net sales, decreased 100 bps to 15.3% from 16.3%. SG&A decreased due the sale of our divested businesses in Australia, New Zealand, Asia and Brazil.

Losses and Other Expenses, Net

Losses and other expenses, net for the first nine months of 2018 and 2017 included the following (in millions):

	For the Nine Months Ended September 30,	
	2018	2017
Realized gains on settled future contracts	\$(0.6)	\$(1.3)
Foreign currency exchange losses	1.2	(0.3)
Loss on disposal of fixed assets	0.1	0.1
Net change in unrealized losses on unsettled futures contracts	1.4	1.0
Special legal contingency charges	1.8	3.6
Asbestos-related litigation	3.3	3.9
Environmental liabilities	1.4	1.2
Other items, net	1.4	0.3
Losses and other expenses, net (pre-tax)	\$10.0	\$8.5

The net change in unrealized losses on unsettled futures contracts was due to changes in commodity prices relative to the unsettled futures contract prices. For more information on our futures contracts, see Note 5 in the Notes to the Consolidated Financial Statements. For more information on special legal contingency charges and asbestos-related litigation, see Note 7 in the Notes to the Consolidated Financial Statements. The environmental liabilities relate to estimated remediation costs for contamination at some of our facilities.

Restructuring Charges

Restructuring charges were \$2 million in the first nine months of 2018. The charges in 2018 were primarily for projects to realign resources and enhance distribution capabilities. For additional information on our restructuring activities, refer to Note 13 in the Notes to the Consolidated Financial Statements.

Income from Equity Method Investments

We participate in two joint ventures that are engaged in the manufacture and sale of compressors, unit coolers and condensing units. We exert significant influence over these affiliates based upon our ownership, but do not control them due to venture partner participation. Accordingly, these joint ventures have been accounted for under the equity method and their financial position and results of operations are not consolidated. Income from equity method investments of \$11 million in the first nine months of 2018 was down from \$16 million when compared to the first nine months of 2017. The decrease is because the joint ventures have experienced increased costs related to commodities and components and have not passed along these increased costs to us via price increases.

Interest Expense, net

Interest expense, net of \$29 million in the first nine months of 2018 increased from \$23 million in the first nine months of 2017 due to an increase in our average net borrowings and rising interest rates.

Income Taxes

We expect our annual effective tax rate to be between 22% and 24%, excluding the impact of excess tax benefits recorded as a reduction of income taxes under ASU No. 2016-09.

Our effective tax rate was 21.3% for the nine months ended September 30, 2018, after the impact of excess tax benefits, compared to 28.2% for the nine months ended September 30, 2017, after the impact of excess tax benefits. The rate for the nine months ended September 30, 2018 is lower as compared to the nine months ended September 30, 2017 primarily due to the reduced U.S. federal corporate tax rate from enactment of the Tax Cuts and Jobs Act on December 22, 2017.

Year-to-Date through September 30, 2018 Compared to Year-to-Date through September 30, 2017 - Results by Segment

Residential Heating & Cooling

The following table presents our Residential Heating & Cooling segment's net sales and profit for the first nine months of 2018 and 2017 (dollars in millions):

	For the Nine Months Ended September 30,			
	2018	2017	Difference	% Change
Net sales	\$ 1,764.4	\$ 1,663.8	\$ 100.6	6.0 %
Profit	\$ 317.9	\$ 297.6	\$ 20.3	6.8 %
% of net sales	18.0	% 17.9	%	

Net sales increased by 6% in the first nine months of 2018 compared to the first nine months of 2017. Sales volume increased 4% and price and mix combined increased 2%.

Segment profit for the first nine months of 2018 increased \$20 million compared to the first nine months of 2017 due to \$44 million from favorable price and mix, \$20 million from higher sales volume, \$11 million from sourcing and engineering-led cost reductions, \$2 million from SG&A savings, \$1 million from improved factory productivity, and \$1 million from lower other product costs. Partially offsetting these increases was \$28 million higher commodity costs, \$26 million of freight and costs associated with distribution investments, \$4 million from lower equity method investments, and \$1 million from unfavorable foreign currency exchange rates.

Commercial Heating & Cooling

The following table presents our Commercial Heating & Cooling segment's net sales and profit for the first nine months of 2018 and 2017 (dollars in millions):

	For the Nine Months Ended September 30,		
	2018	2017	Difference

				%
				Change
Net sales	\$773.5	\$723.5	\$ 50.0	6.9 %
Profit	\$118.9	\$113.8	\$ 5.1	4.5 %
% of net sales	15.4 %	15.7 %		

Commercial Heating & Cooling net sales increased by 7% in the first nine months of 2018 compared to the first nine months of 2017. Sales volume increased 5%, price and mix combined increased 1%, and favorable foreign currency exchange rates increased by 1%.

Segment profit in the first nine months of 2018 increased \$5 million compared to the first nine months of 2017 due to the benefits of \$11 million in higher sales volume, \$9 million from favorable price, and \$4 million from sourcing and engineering-

led cost reductions. Partially offsetting these increases was \$7 million from higher commodity costs, \$5 million from unfavorable mix, \$4 million from higher freight and distribution expense, \$1 million from unfavorable factory productivity, \$1 million from higher other product costs, and \$1 million from lower income from equity method investments.

Refrigeration

The following table presents our Refrigeration segment's net sales and profit for the first nine months of 2018 and 2017 (dollars in millions):

	For the Nine Months Ended September 30,			
	2018	2017	Difference	% Change
Net sales	\$502.5	\$560.6	\$ (58.1)	(10.4)%
Profit	\$55.8	\$55.7	\$ 0.1	0.2 %
% of net sales	11.1 %	9.9 %		

Refrigeration net sales decreased 10% in the first nine months of 2018 compared to the first nine months of 2017. The loss of sales from the divested Asia Pacific and Brazilian businesses contributed 11%, and mix was unfavorable by 1%, partially offset by 1% higher price and 1% favorable foreign currency exchange rates.

Segment profit for the first nine months of 2018 was flat compared to the first nine months of 2017 due to \$5 million of favorable price, \$4 million from sourcing and engineering-led cost reductions, \$2 million from selling refrigerant allocations in Europe, \$2 million lower SG&A, \$1 million lower other product costs, and \$1 million favorable foreign exchange rates. Partially offsetting these increases was \$4 million of higher commodity costs, \$4 million of unfavorable mix, \$3 million from lower factory productivity, \$2 million of lost profit from the divested Australia, New Zealand, Asia and Brazil businesses, \$1 million of higher freight and distribution expense, and \$1 million of lower income from equity method investments.

Corporate and Other

Corporate and other expenses increased \$3 million to \$62 million in the first nine months of 2018 from \$59 million in the first nine months of 2017 due primarily to the timing of planned technology investments.

Liquidity and Capital Resources

Our working capital and capital expenditure requirements are generally met through internally generated funds, bank lines of credit and an asset securitization arrangement. Working capital needs are generally greater in the first and second quarters due to the seasonal nature of our business cycle.

Statement of Cash Flows

The following table summarizes our cash flow activity for the nine months ended September 30, 2018 and 2017 (in millions):

	For the Nine Months Ended September 30,	
	2018	2017

Edgar Filing: LENNOX INTERNATIONAL INC - Form 10-Q

Net cash provided by operating activities	\$231.3	\$129.0
Net cash provided by (used in) investing activities	59.3	(60.3)
Net cash used in financing activities	(316.6)	(67.3)

Net Cash Provided by Operating Activities - The net cash provided by operating activities in the first nine months of 2018 and 2017 reflects the seasonal increase in working capital requirements. The increase in cash provided by operating activities in the first nine months of 2018 as compared to 2017 was mainly due to the timing of working capital payments and due in part by the supply disruption caused by the tornado at our Marshalltown facility.

Net Cash Provided by (Used in) Investing Activities - Capital expenditures were \$61 million in the first nine months of both 2018 and 2017. Capital expenditures in 2018 were primarily related to expansion of our manufacturing capacity and equipment and investments in systems and software to support the overall enterprise. Net proceeds of \$116 million were provided by the

sale of our business in the Asia Pacific area along with the related property as well as the sale of our business in Brazil.

Net Cash Used in Financing Activities - Net cash used in financing activities in the first nine months of 2018 was \$317 million as compared to \$67 million in the first nine months of 2017. The increase in cash used in financing activities is largely due to a decrease in net borrowings against our credit facility and an increase in share repurchases. During the first nine months of 2018, we repurchased \$350 million of shares as compared to \$250 million of shares in the first nine months of 2017. We also we returned \$68 million to shareholders through dividend payments. For additional information on share repurchases, refer to Note 11 in the Notes to the Consolidated Financial Statements.

Debt Position

The following table details our lines of credit and financing arrangements as of September 30, 2018 (in millions):

	Outstanding Borrowings
Current maturities of long-term debt:	
Capital lease obligations	\$ 0.4
Domestic credit facility ⁽¹⁾	22.5
Debt issuance costs	(0.6)
Total current maturities of long-term debt	\$ 22.3
Long-term debt:	
Asset Securitization Program ⁽²⁾	377.3
Capital lease obligations	11.9
Domestic credit facility ⁽¹⁾	368.0
Senior unsecured notes	350.0
Debt issuance costs	(3.6)
Total long-term debt	1,103.6
Total debt	\$ 1,125.9

⁽¹⁾ The available future borrowings on our domestic credit facility are \$447.0 million after being reduced by the outstanding borrowings and \$2.5 million in outstanding standby letters of credit. We also had \$30.7 million in outstanding standby letters of credit outside of the domestic credit facility as of September 30, 2018.

⁽²⁾ The maximum securitization amount ranges from \$225.0 million to \$380.0 million, depending on the period. The maximum capacity of the ASP is the lesser of the maximum securitization amount or 100% of the net pool balance less reserves, as defined under the ASP.

Financial Leverage

We periodically review our capital structure to ensure the appropriate levels of leverage and liquidity. We may access the capital markets, as necessary, based on business needs and to take advantage of favorable interest rate environments or other market conditions. We also evaluate our debt-to-capital and debt-to-EBITDA ratios to determine, among other considerations, the appropriate targets for capital expenditures and share repurchases under our share repurchase programs. Our debt-to-total-capital ratio increased to 108.4% at September 30, 2018 from 95.2% at December 31, 2017.

As of September 30, 2018, our senior credit ratings were Baa3 with a stable outlook, and BBB with a stable outlook, by Moody's Investors Service, Inc. ("Moody's") and Standard & Poor's Rating Group ("S&P"), respectively. The security ratings are not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating. Our goal is to maintain investment grade ratings from Moody's and S&P to help ensure the capital markets remain available to us.

Liquidity

We believe our cash and cash equivalents of \$46 million, future cash generated from operations and available future borrowings are sufficient to fund operations, planned capital expenditures, future contractual obligations, share repurchases, potential dividends and other needs in the foreseeable future. Included in our cash and cash equivalents of \$46 million as of September 30, 2018 was \$20.7 million of cash held in foreign locations. Our cash held in foreign locations is used for investing and operating activities

in those locations, and we generally do not have the need or intent to repatriate those funds to the United States. An actual repatriation in the future from our non-U.S. subsidiaries could be subject to foreign withholding taxes and U.S. state taxes.

Our expected capital expenditures for 2018 are \$100 million, excluding capital expenditures made in conjunction with repair of our Marshalltown facility as those repairs will be covered by insurance. We also continue to increase shareholder value through our share repurchase programs and dividend payments, with the completion of \$350 million of share repurchases in the first nine months of 2018 and the declaration of \$68 million of cash dividends in the first nine months of 2018.

Off Balance Sheet Arrangements

In addition to the credit facilities, promissory notes and leasing commitments described above, we also lease real estate and machinery and equipment pursuant to operating leases that are not capitalized on the balance sheet, including high-turnover equipment such as autos and service vehicles and short-lived equipment such as personal computers. Our operating lease commitments have not materially changed since December 31, 2017.

Commitments, Contingencies and Guarantees

For information regarding our commitments, contingencies and guarantees, see Note 7 in the Notes to the Consolidated Financial Statements.

Recent Accounting Pronouncements

See Note 1 in the Notes to the Consolidated Financial Statements for disclosure of recent accounting pronouncements and the potential impact on our financial statements and disclosures.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For quantitative and qualitative disclosures about market risk affecting LII, see "Quantitative and Qualitative Disclosures About Market Risk" in Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Our exposure to market risk has not changed materially since December 31, 2017.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our current management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2018, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

During the quarter ended September 30, 2018, we implemented new controls as part of our efforts to adopt ASU 2016-02. We are implementing new controls related to monitoring the adoption process, implementing a new IT system to capture, calculate, and account for leases, and gather the necessary data to properly account for leases under ASC 842. There were no other changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

We are involved in a number of claims and lawsuits incident to the operation of our businesses. Insurance coverages are maintained and estimated costs are recorded for such claims and lawsuits. It is management's opinion that none of these claims or lawsuits will have a material adverse effect, individually or in the aggregate, on our financial position, results of operations or cash flows.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risk factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017, which could materially affect our business, financial condition or results of operations. There have been no material changes to our risk factors from those disclosed in our 2017 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In the third quarter of 2018, we purchased shares of our common stock as follows:

	Total Number of Shares Purchased (¹)	Average Price Paid per Share (including fees)	Total Number of Shares Purchased As Part of Publicly Announced Plans	Approximate Dollar Value of Shares that may yet be Purchased under our Share Repurchase Plans (in millions) (²)
July 1 through July 28	1,129	\$ 211.97	—	545.8
July 29 through August 25	8,887	214.51	—	545.8
August 26 through September 29	1,244	222.93	—	545.8
	11,260		—	

(¹) We repurchased 11,260 shares of common stock in July, August and September 2018 surrendered to LII to satisfy employee tax-withholding obligations in connection with the exercise of long-term incentive awards.

(²) After \$150 million payment for Accelerated Share Repurchase Plan (ASR) executed in February 2018 and \$200.2 million share repurchase from open market transactions during the second quarter. Final settlement of the ASR occurred in April 2018. The ASR and the stock repurchase was executed pursuant to a previously announced repurchase plan. See Note 11 in the Notes to the Consolidated Financial Statements for further details.

Item 6. Exhibits

- Restated Certificate of Incorporation of Lennox International Inc. (“LII”) (filed as Exhibit 3.1 to LII’s Registration Statement on Form S-1 (Registration Statement No. 333-75725) filed on April 6, 1999 and incorporated herein by reference).
- 3.1 Amended and Restated Bylaws of LII (filed as Exhibit 3.1 to LII’s Current Report on Form 8-K filed on December 16, 2013 and incorporated herein by reference).
- 3.2 Specimen Stock Certificate for the Common Stock, par value \$.01 per share, of LII (filed as Exhibit 4.1 to LII’s
- 4.1 Amendment to Registration Statement on Form S-1/A (Registration No. 333-75725) filed on June 16, 1999 and incorporated herein by reference).
- 4.2 Indenture, dated as of May 3, 2010, between LII and U.S. Bank National Association, as trustee (filed as Exhibit 4.3 to LII’s Post-Effective Amendment No. 1 to Registration Statement on S-3 (Registration No. 333-155796) filed on May 3, 2010, and incorporated herein by reference).
- 4.3 Form of First Supplemental Indenture among LII, the guarantors party thereto and U.S. Bank National Association, as trustee (filed as Exhibit 4.11 to LII’s Post-Effective Amendment No. 1 to Registration Statement on S-3 (Registration No. 333-155796) filed on May 3, 2010, and incorporated herein by reference).
- 4.4 Second Supplemental Indenture dated as of March 28, 2011, among Heatcraft Inc., a Mississippi corporation, Heatcraft Refrigeration Products LLC, a Delaware limited liability company and Advanced Distributor Products LLC, a Delaware limited liability company (the “Guarantors”), LII, and each other existing Guarantor under the Indenture dated as of May 3, 2010, and U.S. Bank National Association as Trustee (filed as Exhibit 4.4 to LII’s Quarterly Report on Form 10-Q filed on April 26, 2011, and incorporated herein by reference).
- 4.5 Fourth Supplemental Indenture, dated as of December 10, 2013 among Lennox National Account Services LLC, LGL Australia (US) Inc., Lennox International Inc., each other existing Guarantor under the Indenture, dated as of May 3, 2010, as subsequently supplemented, and U.S. Bank National Association (filed as Exhibit 4.5 to LII’s Annual Report on Form 10-K filed on February 13, 2014 and incorporated herein by reference).
- 4.6 Fifth Supplemental Indenture, dated as of August 30, 2016 among LGL Europe Holding Co., each other existing Guarantor under the Indenture, dated as of May 3, 2010, as subsequently supplemented, and U.S. Bank National Association (filed as Exhibit 4.6 to LII’s Quarterly Report on Form 10-Q filed on October 17, 2016, and incorporated by reference).
- 4.7 Sixth Supplemental Indenture, dated as of November 3, 2016, among LII, each other existing Guarantor under the Indenture, dated as of May 3, 2010, as subsequently supplemented, and US Bank National Association, as trustee (filed as Exhibit 4.2 to LII’s Current Report on Form 8-K filed on November 3, 2016, and incorporated by reference).
- 4.8 Form of 3.000% Notes due 2023 (filed as Exhibit A in Exhibit 4.2 to LII’s Current Report on Form 8-K filed on November 3, 2016, and incorporated by reference).
- 10.1 Amendment No. 8 to Amended and Restated Receivables Purchase Agreement among LPAC Corp., as the Seller, Lennox Industries Inc., as the Master Servicer, Victory Receivables Corporation, as Purchaser and MUFG Bank, Ltd., as Administrative Agent, BTMU Liquidity Bank, Wells Fargo Bank, National Association, a Liquidity Bank and PNC Bank, N National Association, a Purchaser Agent (filed herewith).
- 31.1 Certification of the principal executive officer (filed herewith).
- 31.2 Certification of the principal financial officer (filed herewith).
- 32.1 Certification of the principal executive officer and the principal financial officer pursuant to 18 U.S.C. Section 1350 (furnished herewith).
