EXPLANATORY NOTE

We originally filed our Annual Report on Form 10-K for the year ended December 31, 2008 (the "Original 10-K") with the Securities and Exchange Commission ("SEC") on March 27, 2009 (the "Original Filing Date") and we subsequently amended the Original 10-K by filing Amendment No. 1 on Form 10-K/A with the SEC on March 31, 2009 (the Original 10-K, as so amended, our "Form 10-K") to include Exhibit 21.1, a list of our subsidiary companies, which was inadvertently omitted from the Original Filing.

The purpose of this Amendment No. 2 on Form 10-K/A ("Form 10-K/A") is to restate our consolidated financial statements for the fiscal year ended December 31, 2008 ("fiscal 2008"), which are included in our Original 10-K. Management and the Audit Committee of our Board of Directors concluded that the Company's 2008 financial statements should be restated due to an error relating to the accounting for its disposition of Phoenix International Publishing LLC ("Phoenix") in March 2008, in connection with its response to a comment letter received from the U.S. Securities and Exchange Commission regarding the Company's Annual Report on Form 10-K for fiscal 2008. Our management and the Audit Committee of our Board of Directors decided to change the accounting treatment for the disposition of Phoenix in our consolidated financial statements for fiscal 2008 so that the methodology utilized in determining the fair value of the Company's common stock at disposition was consistent with the methodology utilized in determining the fair value of the Company's common stock at the time of Phoenix's acquisition by the Company. In addition, we are revising our presentation and accounting treatment of convertible notes issued in conjunction with previous acquisitions to eliminate the value ascribed to the conversion feature of the notes.

As a result of these adjustments, our loss from discontinued operations and our net loss for fiscal 2008 were understated by \$681,250. In addition, our accumulated deficit was understated by \$681,250, our additional paid in capital was understated by \$624,826 and our goodwill was overstated by \$56,424, as of December 31, 2008, respectively. Finally, our loss per share from discontinued operations; both basic and diluted were overstated by \$0.04 and our net income per share; both basic and diluted were overstated by \$0.04. The adjustments affected all previously issued consolidated financial statements and related disclosures in all quarterly reports filed in fiscal 2008 with the SEC. There was no impact on net cash used in operating activities, the net decrease in cash and equivalents for the year ended December 31, 2008 or the balance of cash and equivalents as of December 31, 2008.

Please see Note 3, Restatement and Revisions to our consolidated financial statements for fiscal 2008 contained in Item 8 – Financial Statements for further information relating to the Restatement.

This Form 10-K/A only amends and restates Items 7, 8, and 9A of Part II and Item 15 of Part IV of our Original 10-K, in each case, solely as a result of, and to reflect, the Restatement, and no other information in our Original 10-K is amended hereby. Except for the amended or restated information contained herein, this Form 10-K/A continues to speak as of the Original Filing Date (unless explicitly identified as of another date). Other events or circumstances occurring after the Original Filing Date or other disclosures necessary to reflect subsequent events have not been updated subsequent to the date of the Original 10-K. Accordingly, this Form 10-K/A should be read in conjunction with our periodic filings, including any amendments to those filings, as well as any Current Reports on Form 8-K filed with the SEC, subsequent to the Original Filing Date of our Original 10-K.

In addition to this Amendment No. 2 to our Form 10-K, we are simultaneously filing an amendment to our Form 10-Q for the first quarter of 2009 and will restate 2008 quarterly data on Form 10-Q for the second and third quarters of 2009.

Item 7 - Management's Discussion And Analysis Of Financial Condition And Results Of Operations Of Online Vacation Center Holdings Corp.

Management's Discussion and Analysis or Plan of Operation should be read together with our financial statements and related notes included elsewhere in this Form 10-K/A. This Form 10-K/A, including the following discussion, contains trend analysis and other forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Any statements in this Form 10-K/A that are not statements of historical facts are forward-looking statements. These forward-looking statements are based on a number of assumptions and involve risks and uncertainties. Actual results may differ materially from those set forth in such forward-looking statements as a result of factors set forth elsewhere in the Original 10-K, including under "Risk Factors."

Restatement

The purpose of this Amendment No. 2 on Form 10-K/A ("Form 10-K/A") is to restate our consolidated financial statements for the fiscal year ended December 31, 2008 ("fiscal 2008"), which are included in our Original 10-K. Management and the Audit Committee of our Board of Directors concluded that the Company's 2008 financial statements should be restated due to an error relating to the accounting for its disposition of Phoenix International Publishing LLC ("Phoenix") in March 2008, in connection with its response to a comment letter received from the U.S. Securities and Exchange Commission regarding the Company's Annual Report on Form 10-K for fiscal 2008. Our management and the Audit Committee of our Board of Directors decided to change the accounting treatment for the disposition of Phoenix in our consolidated financial statements for fiscal 2008 so that the methodology utilized in determining the fair value of the Company's common stock at disposition was consistent with the methodology utilized in determining the fair value of the Company's common stock at the time of Phoenix's acquisition by the Company. In addition, we are revising our presentation and accounting treatment of convertible notes issued in conjunction with previous acquisitions to eliminate the value ascribed to the conversion feature of the notes. See Note 3, Restatement and Revisions contained in Note 8 – Financial Statements for further information relating to the Restatement. These changes have been incorporated into Management's Discussion and Analysis of Financial Condition and Results of Operations below.

Overview

We are focused on internally growing and developing our group of diversified vacation marketing companies with a range of products that can be cross-sold to an extensive customer base and providing a high degree of personalized service to help consumers research, plan and purchase a vacation.

We provide vacation marketing services through eight wholly owned subsidiaries. Our portfolio of travel companies includes:

- Online Vacation Center, a full service vacation seller focused on serving the affluent retiree market. Historically, this subsidiary has been the core business, accounting for the majority of revenue and net income through the sale of high margin cruise packages. This business is now integrated with our other travel companies, Curves Travel, the licensed travel management company of Curves International, Inc., La Fern, Inc., operating as eLeisureLink.com and focusing on land-based vacations, and Cruises for Less, our home-based selling group,
- Dunhill Vacations, the publisher of three travel newsletters, "Top Travel Values", "Spotlight", and "TRAVELFLASH", and
- La Tours and Cruises, Inc. and Thoroughbred Travel, LLC, our Houston travel agencies operating as "West University Travel / Journeys Unlimited", focused on providing luxury personal travel products such as cruises, European tours and all-inclusive vacations.

We generate revenues from:

- commissions on cruises
- commissions on other travel related products
- commissions on travel insurance
- advertising and marketing services provided to travel suppliers

We currently market our services by:

- producing travel-related publications for consumers
- telemarketing to our existing customer base
- direct mailing to our existing customer base as well as targeted prospects
- email blasting to our opt in subscription base

Operating expenses include those items necessary to advertise our services, produce our marketing materials, maintain and staff our travel reservation and fulfillment center including technological enhancements, payroll, commissions and benefits, telephone, ticket delivery and general and administrative expenses including rent and computer maintenance fees.

In November 2007, our Board of Directors granted us the authority to sell Phoenix International Publishing, LLC ("Phoenix"), a publisher of consumer magazines and guides about travel to the U.S. and Canada. We acquired Phoenix from Simon Todd ("Mr. Todd"), its owner, sole member and President on August 31, 2006 in exchange for 1,450,000 shares of our common stock. On March 31, 2008, we completed the sale of Phoenix to Mr. Todd, pursuant to the terms of an acquisition agreement ("Acquisition Agreement"), dated March 31, 2008, by and among the Company, Phoenix, and Mr. Todd. Pursuant to the Acquisition Agreement, we received 1,250,000 shares of our common stock from Mr. Todd at closing. Upon execution of the Acquisition Agreement, Mr. Todd resigned as Vice President of the Company.

### Results of Operations

#### Year Ended December 31, 2008 Compared To Year Ended December 31, 2007

##### Continuing Operations

Revenues increased by \$467,952 or 5.0% to \$9,792,338 for the year ended December 31, 2008 ("2008") compared with \$9,324,386 for the year ended December 31, 2007 ("2007"). The increase is attributable to an increase in our publishing business.

Selling and marketing expenses decreased by \$664,801 or 18.1% to \$3,016,036 for 2008 compared with \$3,680,837 for 2007. The decrease is primarily attributable to the decreased sales staff and marketing material expenses. Selling and marketing expenses primarily consist of sales staff compensation and costs to produce marketing materials.

G&A expenses increased by \$46,488 or 0.9% to \$5,172,967 for 2008 compared with \$5,126,479 for 2007. The increase is attributable to the increased G&A expenses associated with the publishing business offset by an across the board decrease in all other G&A expenses. G&A expenses primarily include management and non sales staff compensation, professional services, and occupancy costs.

Depreciation and amortization expense increased by \$148,059 to \$411,025 for 2008 compared with \$262,966 for 2007. The increase is primarily attributable to an increase in the amortization expense of the Dunhill subscriber list.

Net interest expense increased by \$8,901 to \$24,355 in 2008 compared with \$15,454 in 2007. The increase was primarily due to a reduction in interest income earned in 2008 on invested cash balances resulting from a general decline in interest rates in 2008 due to market conditions.

Our income from continuing operations before provision for income taxes was \$1,167,955 in 2008 compared with \$238,650 in 2007. The increase is due to an increase in publishing revenues and a reduction in selling and marketing expenses during this time period.

Our provision for income taxes increased from \$133,411 in 2007 to \$553,777 in 2008. The increase is directly related to an increase in our results from operations in which income from continuing operations before income taxes was \$1,167,955 in 2008 compared with \$238,650 in 2007. Our tax rate in 2008 was 47.4% primarily because of the tax effect of the stock based compensation expense associated with incentive stock options which is deductible for book but not for tax purposes. Our tax rate in 2007 was 55.9%, primarily because of the tax effect of the stock based compensation expense associated with incentive stock options and imputed interest expense associated with

acquisition debt which are deductible for book but not for tax purposes.

As a result of the foregoing, our income from continuing operations was \$614,178 in 2008 compared with \$105,239 in 2007.

#### Discontinued operations

We acquired Phoenix, a United Kingdom publisher of consumer magazines and guides about travel to the U.S. and Canada, on August 31, 2006 for 1,450,000 shares of our common stock. In November 2007, the Company's Board of Directors granted the Company the authority to sell Phoenix. On March 31, 2008, we sold Phoenix to Mr. Todd, the former owner of Phoenix, in

exchange for 1,250,000 shares of our common stock which were owned by Mr. Todd. We recorded the sale of Phoenix at its fair value, as defined by Statement of Financial Accounting

Edgar Filing: ONLINE VACATION CENTER HOLDINGS CORP - Form 10-K/A

Standards No. 157, Fair Value Measurements, resulting in a loss of \$739,632. For tax purposes, the transaction was treated as a split-off with no resulting tax consequences. We retired the 1,250,000 shares of our common stock received from Mr. Todd in the sale transaction as of March 31, 2008.

The results of operations and cash flows of Phoenix has been removed from the results of continuing operations and the assets and liabilities of Phoenix have been classified as available for sale, as of December 31, 2007. The comparison of the results of operations of Phoenix between the first quarter of 2008 and the year ended December 31, 2007, respectively, is as follows:

	Three Months Ended	Year Ended	Increase/
	March 31,	December 31,	<u>(Decrease)</u>
	<u>2008</u>	<u>2007</u>	
	(Restated)		
Revenues	\$ 107,569	\$ 1,681,083	\$ 1,573,514
Operating (loss)	(98,805)	(228,673)	129,838
(Loss) on sale of Phoenix	(739,632)		(739,632)
Net (loss) from discontinued	\$ (800,524)	\$ (147,859)	\$ (652,665)

operations

As a result of the foregoing, our net loss was \$186,346 in 2008 compared with a net loss of \$42,620 in 2007.

#### Liquidity and Capital Resources

Cash at December 31, 2008 and 2007 was \$1,693,447 and \$1,189,842 respectively. The primary source of our liquidity and capital resources has historically come from our operations.

Cash flows provided by operating activities was \$1,235,297 in 2008 whereas cash flows used in operating activities was \$47,094 in 2007. The increase of \$1,282,391 in 2008 was attributable to a decrease in cash used for working capital of \$253,712, an increase of income from continuing operations of \$508,939, and an increase in cash provided by non-cash operating items of \$519,740.

Cash flows used in investing activities in 2008 and 2007 were \$282,788 and \$1,333,720, respectively. The decrease of \$1,050,932 was primarily attributable to a decrease of the excess of cash paid over cash received totaling \$1,116,713 in conjunction with the Company's four acquisitions completed during 2007, an increase in capital expenditures and intangible assets totaling \$287,067 and a decrease in restricted cash of \$303,352 during 2008.

Cash flows used in financing activities in 2008 and 2007 were \$458,406 and \$125,000, respectively. The 2008 activities were comprised of the repayment of debt issued in conjunction with the La Fern, Inc. and La Tours and Cruises Inc. acquisitions, the Company's stock repurchase program authorized by our Board of Directors in August 2008 and the payment under a capital lease obligation for new telephone equipment. The 2007 financing activity was the repayment of a note issued in conjunction with the acquisition of Thoroughbred Travel LLC.

Cash flows provided by discontinued operations increased by \$10,302 as a result of an increase in cash provided by operating activities in 2008.

At December 31, 2008, we had working capital of \$538,404, as compared with a working capital deficit of \$847,857 at December 31, 2007, an increase of \$1,386,261. We had an accumulated deficit of \$1,586,493 at December 31, 2008, an increase of \$186,346.

Management believes that the existing cash and cash expected to be provided by operating activities will be sufficient to fund the short term capital and liquidity needs of our operations. We may need to seek to sell equity or debt securities or obtain credit lines from financial institutions to meet our longer-term liquidity and capital requirements. There is no assurance that we will be able to obtain additional capital or financing in amounts or on terms acceptable to the Company, if at all or on a timely basis.

The Company has historically been heavily dependent on relationships with five major cruise lines: Celebrity Cruises, Norwegian Cruise Line, Princess Cruises, Azamara Cruises and Royal Caribbean Cruise Line and also depends on third party service providers for processing certain fulfillment services.

#### Seasonality and Inflation

The domestic and international leisure travel industry is seasonal. Our results have been subject to quarterly fluctuations caused primarily by the seasonal variations in the travel industry.

Leisure travel net revenues and net income are generally lower in the third quarter. We expect seasonality to continue in the future. We do not expect inflation to materially affect our revenues and net income.

### Recent Accounting Pronouncements

#### Accounting for Uncertainty in Income Taxes

We adopted the provisions of FASB Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement 109," effective January 1, 2007. FIN 48 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Benefits from tax positions should be recognized in the financial statements only when it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority that would have full knowledge of all relevant information. A tax position that meets the more-likely-than-not recognition threshold is measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent financial reporting period in which that threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent financial reporting period in which that threshold is no longer met. FIN 48 also provides guidance on the accounting for and disclosure of unrecognized tax benefits, interest and penalties. Adoption of FIN 48 as of January 1, 2007 did not have a significant impact on our financial statements. At the date of adoption and as of December 31, 2007, we do not have a liability for any unrecognized tax benefits. Our policy is to record interest and penalties on uncertain tax positions as income tax expense. As of December 31, 2007, we have not accrued nor recognized interest or penalties related to uncertain tax positions. We have not recorded any significant increase or decrease to unrecognized tax benefits during 2007 related to U.S. federal or state tax positions.

We file income tax returns in the U.S. federal jurisdiction and various states. We have not been subject to U.S. federal income tax examinations by tax authorities nor state authorities since our inception in 2000. We believe that we have not taken any uncertain tax positions that would impact our condensed consolidated financial statements as of December 31, 2008.

### Other Recent Accounting Pronouncements

See Note 2, "Summary of Significant Accounting Policies" in the Notes to the Consolidated Financial Statements for a discussion of recent accounting pronouncements and their effect, if any, on the Company.

#### Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingencies. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be materially different from those estimates. The following policies are those that we consider to be the most critical. See Note 2, "Summary of Significant Accounting Policies," for further description of these and all other accounting policies.

#### Revenue Recognition

We recognize revenue in accordance with Staff Accounting Bulletin (SAB) No. 104 "Revenue Recognition in Financial Statements", which states that revenue is realized or realizable and earned when all of the following criteria are met: persuasive evidence of an arrangement exists, services have been rendered, the seller's price to the buyer is fixed or determinable, and collectibility is reasonably assured. Vacation travel sales transactions are billed to

customers at the time of booking, however commission revenue is not recognized in the accompanying consolidated financial statements until the customers' travel occurs. Advertising revenue is recognized upon distribution of the marketing publication.

Emerging Issues Task Force (EITF) Issue No. 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent", discusses the weighing of the relevant qualitative factors regarding our status as a primary obligor and the extent of our pricing latitude. Based upon the our evaluation of vacation travel sales transactions and in accordance with the various indicators identified in EITF Issue No. 99-19, our vacation travel suppliers assume the majority of the business risks such as providing the service and the risk of unsold travel packages. As such, all vacation travel sales transactions are to be recorded at the net amount, which is the amount charged to the customer less the amount to be paid to the supplier. The method of net revenue presentation does not impact operating profit, net income, earnings per share or cash flows.

### Intangible Asset Testing

Absent any circumstances that warrant testing at another time, we test for goodwill and non-amortizing intangible asset impairment as part of our year-end closing process. Our goodwill testing consists of comparing the estimated fair values of each of our operating entities to their carrying amounts, including recorded goodwill. We estimate the fair values of our reporting unit by discounting its projected future cash flows. Developing these future cash flow projections requires us to make significant assumptions and estimates regarding the sales, gross margin and operating expenses of our reporting unit, as well as economic conditions and the impact of planned business or operational strategies. Should future results or economic events cause a change in our projected cash flows, or should our operating plans or business model change, future determinations of fair value may not support the carrying amount of our reporting units and the related goodwill would need to be written down to an amount considered recoverable. Any such write down would be included in the operating expenses. While we make reasoned estimates of future performance, actual results below these expectations, or changes in business direction can result in additional impairment charges in future periods.

### Item 8 – Financial Statements

The Company's restated financial statements as of and for the years ended December 31, 2008 and 2007 are contained on pages F-1 to F-26 of this Annual Report and are incorporated herein by reference.

### Item 9A - Controls and Procedures

As of the end of the period covered by this Annual Report, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and principal accounting officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. In designing and evaluating the disclosure controls and procedures, management recognizes that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, management is required to apply its reasonable judgment.

Based upon the required evaluation and in consideration of the Restatement described herein, our Chief Executive Officer and Principal Financial Officer concluded as of December 31, 2008, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission ("SEC") and is accumulated and communicated to management, including our Chief Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

### Management's Report on Internal Control Over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Management conducted an evaluation of the effectiveness of the internal control over financial reporting based on the

framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2008. Based on management's assessment and those criteria, management believes that the internal control over financial reporting as of December 31, 2008 was effective.

Management's internal control report was not subject to attestation by the Company's independent registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report.

#### Changes in Internal Controls

There has been no change in the Company's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the last fiscal quarter covered by this Report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. . There have been no significant changes in our internal controls over financial reporting or in other factors that could significantly affect internal controls over financial reporting subsequent to the date we carried out our evaluation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of  
Online Vacation Center Holdings Corp.

We have audited the accompanying consolidated balance sheets of Online Vacation Center Holdings Corp. as of December 31, 2008 and 2007 and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for the years ended December 31, 2008 and 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 3, the accompanying consolidated financial statements have been restated. The restatement related to corrections in the accounting for the disposition of Phoenix International Publishing LLC.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Online Vacation Center Holdings Corp. as of December 31, 2008 and 2007 and the results of its operations and its cash flows for the years ended December 31, 2008 and 2007 in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – BACKGROUND

Overview

Online Vacation Center Holdings Corp. (the “Company”) is a Florida holding company, focused on internally growing and developing its group of diversified vacation marketers with a range of products that can be cross-sold to an extensive customer base which entails providing a high degree of personalized service to help consumers research, plan and purchase a vacation.

The Company provides vacation travel and marketing services through its eight wholly owned subsidiaries. Its portfolio of travel companies include:

Online Vacation Center, Inc. (“Online Vacation Center”), a full service vacation seller focused on serving the affluent retiree market. Historically, this subsidiary has been the Company’s core business, accounting for the majority of revenue and net income through the sale of high margin cruise packages. This business is now integrated with three other subsidiaries, Curves Travel, the licensed travel management company of Curves International, Inc., La Fern, Inc., operating as eLeisureLink.com and focusing on land-based vacations, and Cruises for Less, a home-based selling group.

Dunhill Vacations, Inc. (“Dunhill”), the publisher of three travel newsletters, “Top Travel Values”, “Spotlight”, and “TRAVELFLASH”

La Tours and Cruises, Inc. (“La Tours”) and Thoroughbred Travel, LLC, its Houston travel agencies operating as ‘West University Travel / Journeys Unlimited’, focused on providing luxury personal travel products such as cruises, European tours and all-inclusive vacations.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Online Vacation Center Holdings Corp. and its wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated. The Company makes operating decisions, assesses performance and manages the business as one reportable segment.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. These estimates and assumptions also affect the reported amounts of revenues, costs and expenses during the reporting period. Management evaluates these estimates and assumptions on a regular basis. Actual results could differ from those estimates.

ONLINE VACATION CENTER HOLDINGS CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Revenue Recognition

The Company recognizes revenue in accordance with Staff Accounting Bulletin (SAB) No. 104 "Revenue Recognition in Financial Statements", which states that revenue is realized or realizable and earned when all of the following criteria are met: persuasive evidence of an arrangement exists, services have been rendered, the seller's price to the buyer is fixed or determinable, and collectibility is reasonably assured. Vacation travel sales transactions are billed to customers at the time of booking, however commission revenue is not recognized in the accompanying consolidated financial statements until the customers' travel occurs. Advertising revenue is recognized upon distribution of the marketing publication.

Emerging Issues Task Force (EITF) Issue No. 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent", discusses the weighing of the relevant qualitative factors regarding the Company's status as a primary obligor and the extent of their pricing latitude. Based upon the Company's evaluation of vacation travel sales transactions and in accordance with the various indicators identified in EITF Issue No. 99-19, the Company's vacation travel suppliers assume the majority of the business risks such as providing the service and the risk of unsold travel packages. As such, all vacation travel sales transactions are to be recorded at the net amount, which is the amount charged to the customer less the amount to be paid to the supplier. The method of net revenue presentation does not impact operating profit, net income, earnings per share or cash flows.

Concentration of Credit Risk

The Company's business is subject to certain risks and concentrations including dependence on relationships with travel suppliers (primarily cruise lines), and to a lesser extent, exposure to risks associated with online commerce security and credit card fraud. The Company is highly dependent on its relationships with five major cruise lines: Celebrity Cruises, Norwegian Cruise Line, Royal Caribbean Cruise Line, Azamara Cruises and Princess Cruises. The Company also depends on third party service providers for processing certain fulfillment services.

Concentrations of credit risk with respect to client accounts receivable are limited because of the Company's policy to require deposits from customers, the number of customers comprising the client base and their dispersion across geographical locations.

Financial instruments, which potentially subject the Company to concentration of credit risk, consist primarily of cash and bank certificates of deposit. These accounts are maintained with financial institutions insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 for interest bearing accounts and to the account balance for non-interest bearing accounts in accordance with the FDIC's Transaction Guarantee Program. At December 31, 2008, the balances at various financial institutions over the FDIC insured limit relating to cash and cash equivalents and restricted cash were approximately \$161,000. The Company believes these balances are not at risk as they are held by sound financial institutions.

Marketing Costs

Substantially all marketing costs are charged to expense as incurred and principally represent production, printing, direct mail costs, and online advertising. Marketing expense for the years ended December 31, 2008 and 2007 approximated \$1,240,671 and \$2,642,799 respectively.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. At December 31, 2008, highly liquid investments, as defined, totaled approximately \$67,000. Cash and cash equivalents included cash in the bank, cash on hand and highly liquid investments.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounts Receivable

Travel suppliers generally pay commissions between 60 days before to 90 days after travel has commenced, overrides in the first quarter following the period earned, and marketing and advertising invoices between 30 days to 90 days after invoice date. The Company determines its allowance by considering a number of factors, including the length of time trade accounts receivable are past due, the Company's previous loss history, the specific supplier's current ability to pay its obligation to the Company and the condition of the general economy and the industry as a whole. The Company writes off accounts receivable when they become uncollectible, and payments subsequently received on such receivables are recognized as revenue in the period received. At December 31, 2008 and 2007, the allowance for doubtful accounts was \$30,202 and \$38,077, respectively.

Restricted Cash

In accordance with Accounting Review Board (ARB) No. 43, Chapter 3A, "Current Assets and Current Liabilities", cash which is restricted as to withdrawal is considered a noncurrent asset. Restricted cash consists of collateral for four letters of credit and a reserve for credit card processing. The Company's former credit card processor, Global Payments, held a \$280,000 reserve for credit cards processed at December 31, 2007. Global Payments released all funds in 2008. Certificates of deposit of \$63,000 are collateral for outstanding letters of credit due to expire in 2009. The letters of credit are required by industry and state regulations and will be renewed.

Property and Equipment

Property and equipment, including significant improvements, are recorded at cost. Repairs and maintenance and any gains or losses on dispositions are recognized as incurred. Depreciation and amortization are provided for on a straight-line basis to allocate the cost of depreciable assets to operations over their estimated service lives.

Asset Category	Depreciation/ Amortization Period
Office equipment	2 to 3 Years
Furniture & fixtures	5 to 7 Years
Leasehold improvements	6.5 Years

Goodwill and Indefinite-Lived Intangible Assets

In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets," goodwill, represents the excess of the purchase price and related costs over the value assigned to net tangible and identifiable intangible assets of businesses acquired and accounted for under the purchase method, acquired in business combinations is assigned to reporting units that are expected to benefit from the synergies of the combination as of the acquisition date. Under this standard, goodwill and intangibles with indefinite useful lives are no longer amortized. The Company assesses goodwill and indefinite-lived intangible assets for impairment annually during the fourth quarter, or more frequently if events and circumstances indicate impairment may have occurred in accordance with SFAS No. 142. If the carrying value of a reporting unit's goodwill exceeds its implied fair value, the Company records an impairment loss equal to the difference. SFAS No. 142 also requires that the fair value of indefinite-lived purchased intangible assets be estimated

and compared to the carrying value. The Company recognizes an impairment loss when the estimated fair value of the indefinite-lived purchased intangible assets is less than the carrying value.

F-9

ONLINE VACATION CENTER HOLDINGS CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Long-Lived Assets

The Company's accounting policy regarding the assessment of the recoverability of the carrying value of long-lived assets, including property and equipment and purchased intangible assets with finite lives, is to review the carrying value of the assets, annually, during the fourth quarter, or whenever events or changes in circumstances indicate that they may be impaired. If this review indicates that the carrying value will not be recoverable, as determined based on the projected discounted future cash flows, the carrying value is reduced to its estimated fair value.

Income Taxes

The Company accounts for income taxes under the liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

Comprehensive Income

Comprehensive income is comprised of net income and other comprehensive income. Other comprehensive income includes certain changes in equity that are excluded from net income. At December 31, 2008 and 2007, respectively, there were no material items to be included in accumulated other comprehensive income.

Earnings Per Share

Basic earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution that could occur if stock options and other commitments to issue common stock were exercised or equity awards vest resulting in the issuance of common stock or conversion of notes into shares of common stock that could share in the earnings of the Company. This calculation is not done for periods in a loss position as this would be antidilutive.

Stock-Based Compensation

In December 2004, the FASB issued a revision of SFAS 123 ("SFAS 123(R)") that requires compensation costs related to share-based payment transactions to be recognized in the statement of operations. With limited exceptions, the amount of compensation cost will be measured based on the grant-date fair value of the equity or liability instruments issued. In addition, liability awards will be remeasured each reporting period. Compensation cost will be recognized over the period that an employee provides service in exchange for the award. SFAS 123(R) replaces SFAS 123 and is effective as of January 1, 2006.

In March 2005, the U.S. Securities and Exchange Commission, or SEC, released Staff Accounting Bulletin 107, "Share-Based Payments," ("SAB 107"). The interpretations in SAB 107 express views of the SEC staff, or staff, regarding the interaction between SFAS 123R and certain SEC rules and regulations, and provide the staff's views regarding the valuation of share-based payment arrangements for public companies. In particular, SAB 107 provides guidance related to share-based payment transactions with non-employees, the transition from nonpublic to public

entity status, valuation methods (including assumptions such as expected volatility and expected term), the accounting for certain redeemable financial instruments issued under share-based payment arrangements, the classification of compensation expense, non-GAAP financial measures, first-time adoption of SFAS 123R in an interim period, capitalization of compensation cost related to share-based payment arrangements, the accounting for income tax effects of share-based payment arrangements upon adoption of SFAS 123R, the modification of employee share options prior to adoption of SFAS 123R and disclosures in Management's Discussion and Analysis subsequent to adoption of SFAS 123R. SAB 107 requires stock-based compensation be classified in the same expense lines as cash compensation is reported for the same employees.

Off-Balance Sheet Arrangements

The Company has not entered into any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on the Company's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources and would be considered material to shareholders.

Recent Accounting Pronouncements

Accounting for Uncertainty in Income Taxes

The Company adopted the provisions of FASB Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement 109," effective January 1, 2007. FIN 48 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Benefits from tax positions should be recognized in the financial statements only when it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority that would have full knowledge of all relevant information. A tax position that meets the more-likely-than-not recognition threshold is measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent financial reporting period in which that threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent financial reporting period in which that threshold is no longer met. FIN 48 also provides guidance on the accounting for and disclosure of unrecognized tax benefits, interest and penalties. Adoption of FIN 48 as of January 1, 2007 did not have a significant impact on the Company's financial statements. At the date of adoption and as of December 31, 2008 and December 31, 2007, respectively, the Company did not have a liability for any unrecognized tax benefits. The Company's policy is to record interest and penalties on uncertain tax positions as income tax expense. As of December 31, 2008 and December 31, 2007, respectively, the Company had not accrued nor recognized interest or penalties related to uncertain tax positions. The Company has not recorded any significant increase or decrease to unrecognized tax benefits during 2008 or 2007 related to U.S. federal or state tax positions.

The Company files income tax returns in the U.S. federal jurisdiction and various states. The Company has not been subject to U.S. federal income tax examinations by tax authorities nor state authorities since its inception in 2000. The Company believes that it has not taken any uncertain tax positions that would impact its condensed consolidated financial statements as of December 31, 2008 and December 31, 2007, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Fair Value Measurements

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements, (“FAS 157”). This Standard defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. In February 2008, the FASB issued FASB Staff Position (“FSP”) FAS 157-2 that delayed, by one year, the effective date of FAS 157 for the majority of non-financial assets and non-financial liabilities. The Company’s adoption of FAS 157 for certain assets and liabilities, which were not included in FSP FAS 157-2, as of January 1, 2008, did not have a material impact on the Company’s financial position, results of operations or cash flows as of and for the year ended December 31, 2008 except as discussed in Note 2. Cash equivalents and restricted cash are carried at cost which approximates fair value.

In October 2008 the FASB issued FSP SFAS No. 157-3, Determining the Fair Value of a Financial Asset When The Market for That Asset Is Not Active, (“FSP FAS 157-3”) to clarify the application of the provisions of FAS157 in an inactive market and how an entity would determine fair value in an inactive market. FSP FAS 157-3 was effective immediately. The application of the provisions of FSP 157-3 did not materially affect our results of operations or financial condition as of and for the periods ended December 31, 2008.

Accounting for Defined Benefit Pension and Other Postretirement Plans

In September 2006 Statement of Financial Accounting Standards No. 158, Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans – an amendment of FASB Statement No. 87, 88, 106 and 132(R), (“FAS 158”). This Standard requires recognition of the funded status of a benefit plan in the statement of financial position. The Standard also requires recognition in other comprehensive income certain gains and losses that arise during the period but are deferred under pension accounting rules, as well as modifies the timing of reporting and adds certain disclosures. FAS 158 provides recognition and disclosure elements to be effective as of the end of the fiscal year after December 15, 2006 and measurement elements to be effective for fiscal years ending after December 15, 2008. The Company does not expect the remaining elements of this Statement to have a material impact on the Company’s financial condition, results of operations, cash flows when adopted.

Fair Value Option of Financial Assets and Financial Liabilities

In February 2007, the FASB issued SFAS No.159, The Fair Value Option of Financial Assets and Financial Liabilities (“FAS 159”). FAS 159 provides an option to report selected financial assets and financial liabilities using fair value. The standard establishes required presentation and disclosures to facilitate comparisons with companies that use different measurements for similar assets and liabilities. FAS 159 is effective for fiscal years beginning after November 15, 2007, with early adoption allowed if FAS 157 is also adopted. Upon adoption of this Statement, the Company did not elect the FAS 159 option for its existing financial assets and liabilities and therefore adoption of SFAS 159 did not have any impact on its consolidated financial statements.

Business Combinations

In December 2007, the FASB issued SFAS No. 141(R), “Business Combinations” (“FAS 141(R)”). FAS 141(R) establishes principles and requirements for how an acquirer in a business combination:

- Recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree
- Recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and
- Determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FAS 141(R) is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company has not yet assessed the impact of adoption, if any, on its consolidated financial statements.

Noncontrolling Interest in Consolidated Financial Statements

In December 2007, the FASB issued SFAS No. 160, “Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51” (“FAS 160”). FAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It also amends certain of ARB 51’s consolidation procedures for consistency with the requirements of FAS 141(R). FAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company has not yet assessed the impact of adoption, if any, on its consolidated financial statements.

Accounting for Collaborative Arrangements

In December 2007, the Emerging Issues Task Force (“EITF”) met and ratified EITF No.07-01, Accounting for Collaborative Arrangements, in order to define collaborative arrangements and to establish reporting requirements for transactions between participants in a collaborative arrangement and between participants in the arrangement and third parties. This EITF is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. This EITF is to be applied retrospectively to all prior periods presented for all collaborative arrangements existing as of the effective date. We are currently assessing the impact of this EITF to our consolidated financial statements.

Determination of the Useful Life of Intangible Assets

In April 2008, the FASB issued FSP FAS 142-3, “Determination of the Useful Life of Intangible Assets,” which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of intangible assets under FAS 142 “Goodwill and Other Intangible Assets”. The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under FAS 142 and the period of the expected cash flows used to measure the fair value of the asset under FAS 141 (revised 2007) “Business Combinations” and other U.S. generally accepted accounting principles. The Company is currently evaluating the potential impact of FSP FAS 142-3 upon its consolidated financial statements.

Disclosure about Derivative Instruments and Hedging Activities

In March 2008, the FASB issued SFAS No. 161, Disclosure about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133, (“FAS 161”). This Statement requires that objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation. The Company is required to adopt FAS 161 on January 1, 2009. The Company is currently evaluating the potential impact of FAS No. 161 upon its consolidated financial statements.

Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)

In May 2008, the FASB issued FSP No. APB 14-1, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)" The FSP, which clarifies the accounting for convertible debt instruments that may be settled in cash (including partial cash settlement) upon conversion. The FSP requires issuers to account separately for the liability and equity components of certain convertible debt instruments in a manner that reflects the issuer's nonconvertible debt (unsecured debt) borrowing rate when interest cost is recognized. The FSP requires bifurcation of a component of the debt, classification of that component in equity and the accretion of the resulting discount on the debt to be recognized as part of interest expense in our consolidated statement of operations. The FSP requires retrospective application to the terms of instruments as they existed for all periods presented. The FSP is effective for us as of January 1, 2009 and early adoption is not permitted. The Company is currently evaluating the potential impact of FSP APB 14-1 upon its consolidated financial statements.

The Hierarchy of Generally Accepted Accounting Principles

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" (FAS No. 162). FAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. FAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AICPA Audit Section No. 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles". The implementation of this standard will not have a material impact on the Company's consolidated financial position and results of operations.

Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities

In June 2008, the FASB issued FSP EITF 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" (FSP EITF 03-6-1). FSP EITF 03-6-1 clarified that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends participate in undistributed earnings with common shareholders. Awards of this nature are considered participating securities and the two-class method of computing basic and diluted earnings per share must be applied. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP EITF 03-6-1 on its consolidated financial position and results of operations.

Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock

In June 2008, the FASB ratified EITF Issue No. 07-5, "Determining Whether an Instrument (or an Embedded Feature) Is Indexed to an Entity's Own Stock" (EITF 07-5). EITF 07-5 provides that an entity should use a two step approach to evaluate whether an equity-linked financial instrument (or embedded feature) is indexed to its own stock, including evaluating the instrument's contingent exercise and settlement provisions. It also clarifies on the impact of foreign currency denominated strike prices and market-based employee stock option valuation instruments on the evaluation. EITF 07-5 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of EITF 07-5 on its consolidated financial position and results of operations.

A variety of proposed or otherwise potential accounting standards are currently under study by standard-setting organizations and various regulatory agencies. Because of the tentative and preliminary nature of these proposed standards, management has not determined whether implementation of such proposed standards would be material to the Company's consolidated financial statements.

NOTE 3 - RESTATEMENTS AND REVISIONS

Management and the Audit Committee of its Board of Directors concluded that the Company's 2008 financial statements should be restated due to an error relating to the accounting for its disposition of Phoenix International Publishing LLC ("Phoenix") in March 2008, in connection with its response to a comment letter received from the U.S. Securities and Exchange Commission ("SEC") regarding the Company's Annual Report on Form 10-K for fiscal 2008. Management and the Audit Committee its Board of Directors decided to change the accounting treatment for the disposition of Phoenix in its consolidated financial statements for fiscal 2008 so that the methodology utilized in determining the fair value of the Company's common stock at disposition was consistent with the methodology utilized in determining the fair value of the Company's common stock at the time of Phoenix's acquisition by the Company.

ONLINE VACATION CENTER HOLDINGS CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Phoenix error was the result of a lack of consistency of methodology in determining the fair value of the shares of common stock of the Company received in consideration for the disposition of Phoenix with the methodology utilized in determining the fair value of the shares of common stock of the Company issued when Phoenix was acquired. The Company had determined the fair value of the Phoenix net assets acquired in August 2006 based on the market (fair) value of a share of the Company's common stock, \$1.125, for each of the 1,450,000 shares of common stock issued in connection with the acquisition. This was calculated by using the then trading price of the Company's common shares of \$1.50, discounted by 25% due to restrictions on their transfer and limited marketability. Upon the disposition of Phoenix in March 2008, the Company computed its loss on disposition of \$58,382 based on the difference of the value of the 1,250,000 shares of the Company's common stock received based on the value per share at time of acquisition, \$1.125, and the fair value of the net assets of Phoenix at the time of disposition. As discussed in our original 10-K, at that time, the Company believed that it could not determine fair value of either the asset transferred (Phoenix) or the asset received (shares of the Company's common stock), and therefore recorded cost was used to record the sale. The Company's management and the Audit Committee of the Board of Directors with consideration to a comment letter received from the SEC has now determined that the use of the market value of the Company's shares of common stock at the time of acquisition to compute the loss upon disposition of Phoenix was inappropriate. The computation should have been based on the market (fair) value per share at the time of disposition in March 2008, \$0.58, a Level 1 input within the fair value hierarchy in accordance with Statement of Financial Accounting Standards No. 157- Fair Value Measurements, of the 1,250,000 shares of the Company's common stock received resulting in a loss of \$739,632. For tax purposes, the transaction was treated as split-off with no resulting tax consequences.

In addition, the Company is revising the accounting treatment for the conversion feature associated with the convertible debt issued in conjunction with the acquisitions of Thoroughbred Travel LLC and La Fern Inc. ("Notes") in 2006. Value was assigned to the conversion feature of the Notes which resulted in an increase in goodwill and additional paid-in capital whereas no conversion feature value should have been assigned to the Notes. In addition to this Amendment No. 2 on Form 10-K/A, the Company will file concurrently Form 10-Q/A for the first quarter of 2009 and will restate 2008 quarterly data on Form 10-Q for the second and third quarters of 2009.

The Company had initially ascribed \$67,611 to goodwill and additional paid-in capital representing the value of the conversion feature of the convertible notes ("Notes") issued in conjunction with the acquisitions of La Fern, Inc and Thoroughbred Travel LLC in 2006. The purchase price of La Fern, Inc. was subject to audit which was completed in the first calendar quarter of 2007. The audit resulted in a reduction of purchase price, the face value of the convertible note and a corresponding reduction of \$11,187, in goodwill and additional paid in capital, to the value ascribed to the conversion feature of the Notes in 2007. No value should have been ascribed to the conversion feature of the Notes. As a result, goodwill and additional paid-in capital were overstated by \$67,611 as of December 31, 2006 and \$56,424 as of December 31, 2007 and December 31, 2008, respectively. There was no impact on the Company's consolidated statement of operations and related basic and diluted earnings per share for the years ended December 31, 2008, December 31, 2007 and December 31, 2006, respectively. There was no impact to cash used in operating activities, the net increase in cash and equivalents for the years ended December 31, 2008, December 31, 2007 and December 31, 2006, respectively or the balance of cash and equivalents as of December 31, 2008, December 31, 2007 and December 31, 2006, respectively as result of these matters.

As a result of these adjustments, both the Company's 2008 loss from discontinued operations and net loss were understated by \$681,250. In addition, the Company's accumulated deficit was understated by \$681,250, additional paid in capital was understated by \$624,826 and goodwill was overstated by \$56,424 as of December 31, 2008. Finally, the Company's loss per share from discontinued operations; both basic and diluted were overstated by \$0.04 and net income per share; both basic and diluted were overstated by \$0.04 for 2008. There was no impact on net cash used in

operating activities, the net decrease in cash and equivalents for the year ended December 31, 2008 or the balance of cash and equivalents as of December 31, 2008.

NOTE 4 – DISPOSITION OF PHOENIX INTERNATIONAL PUBLISHING LLC

In November 2007, the Company's Board of Directors granted the Company the authority to sell Phoenix International Publishing LLC ("Phoenix"), a publisher of consumer magazines and guides about travel to the U.S. and Canada. On March 31, 2008, the Company completed the sale of Phoenix to Simon Todd ("Mr. Todd"), pursuant to the terms of an acquisition agreement ("Acquisition Agreement"), dated March 31, 2008, by and among the Company, Phoenix, and Mr. Todd. Pursuant to the Acquisition Agreement, the Company received 1,250,000 shares of the Company's common stock from Mr. Todd at closing. The Acquisition Agreement provides for, among other matters, contingent consideration from Mr. Todd in the event that certain thresholds of profitability, as defined, are attained within three years from the date of disposition or sale of Phoenix by Mr. Todd to a third party for an amount in excess of a defined amount for a period of three years from March 31, 2008. The amount of contingent consideration, if any, can not be determined as the likelihood of such future events giving rise to such contingent consideration can not be ascertained nor the effects estimated. Upon execution of the Acquisition Agreement, Mr. Todd resigned as Vice President of the Company. Prior to the acquisition of Phoenix by the Company, Mr. Todd was the owner, sole member, and President of Phoenix. The Company acquired Phoenix from Mr. Todd on August 31, 2006 for 1,450,000 shares of the Company's common stock.

The Company valued the 1,250,000 shares of the Company's common stock based on the market (fair) value, \$0.58, at the time of the transaction, a Level 1 input within the fair value hierarchy in accordance with Statement of Financial Accounting Standards No. 157- Fair Value Measurements and recorded a loss upon disposition of Phoenix, based upon the fair value of the net assets of Phoenix of \$1,461,932, of \$739,632.

For tax purposes, the transaction was treated as split-off with no resulting tax consequences. The Company retired the 1,250,000 shares of its common stock received as of March 31, 2008.

In conjunction with the Acquisition Agreement, Phoenix is obligated to pay its pre-disposition intercompany debt balance to the Company of \$100,000 in forty consecutive monthly payments of \$2,500 commencing on October 1, 2008. The series of forty monthly payments of \$2,500 has been discounted, using the Company's estimated incremental borrowing rate of 6.5% and the aggregate related unamortized net imputed interest of \$8,885 has been offset against the face value of the receivable and a corresponding interest expense recorded. The current portion of

this receivable from Phoenix, \$25,310, has been classified as deposits and prepaid items and the remaining balance of \$58,306 as other assets as of December 31, 2008.

During the first half of 2007, Online Vacation Center Holdings Corp. acquired La Tours, Dunhill, Curves Travel and purchased certain assets of SmartTraveler.com, Inc. (collectively the “2007 Acquisitions”). In conjunction with the 2007 Acquisitions, the cash paid in excess of the net of cash acquired, was \$1,116,713. Additionally the Company issued 225,000 shares of its common stock and issued notes aggregating \$300,000. The consideration had been allocated to assets and liabilities, including separate identifiable intangible assets based on independent third party valuations and internal assessments with approximately \$982,563 allocated to goodwill.

The operations of the 2007 Acquisitions have been included in the Company’s consolidated results since their respective dates of acquisition.

## NOTE 8 – INTANGIBLE ASSETS, NET

During 2002, Online Vacation Center, Inc. purchased the rights to the Renaissance Cruises name and customer database. Online Vacation Center, Inc. also registered two trade names and marks for Online Vacation Center, Inc. Costs of \$56,643 were capitalized and are being amortized over the expected 15-year useful lives of the trademarks.

A third-party company was hired to prepare a valuation to assist management of the Company in its allocation of the purchase price, primarily through the determination of the fair value and remaining useful lives of respective intangible assets in conjunction with its acquisitions during 2007 and 2006. The fair value related to the intangible assets acquired pertaining to these acquisitions was \$1,051,080 and was capitalized and amortized over their expected useful lives, ranging from 1 to 10 years.

NOTE 11 – DEFERRED REVENUES

Deferred revenue consists of sales commission received from vacation travel suppliers net of cancellations, administrative fees received from passengers in advance of passenger travel dates and amounts invoiced for publishing advertising to be contained in the future publications. The advance sales commission, administrative fees and publishing advertising revenue is considered unearned revenue and recorded as deferred revenue in the accompanying consolidated balance sheets. Deferred revenue is recognized on the accompanying consolidated financial statements when the passenger travel occurs or the publication is distributed. At December 31, 2008 and December 31, 2007, deferred revenues were \$1,989,929 and \$2,384,720, respectively.

## NOTE 12 – NOTES PAYABLE AND CAPITAL LEASE OBLIGATIONS

The Notes Payable and Capital Lease Obligations consist of the following:

	December 31, 2008	December 31, 2007
Convertible Note - La Fern, Inc.	\$ --	\$ 327,720
Note – La Tours and Cruises, Inc.	200,000	300,000
Capital Lease Obligations	57,885	--

	\$ 131,609	\$ 182,074

In conjunction with its acquisition of La Fern, the Company issued a Convertible Note to the former owner of La Fern, in the amount of \$375,000, subject to adjustment based upon the results of an audit of the financial statements of La Fern as of the acquisition, date due October 1, 2008 bearing interest at 6% per annum with interest payable semi-annually commencing on April 1, 2007 and could not be prepaid by the Company. As a result of the audit, concluded in 2007, the Note amount was adjusted to \$327,720. The Note was convertible, at the election of La Fern prior to maturity, into 163,860 shares of the Company's common stock at a conversion price equal to \$2.00 per share. The Company paid the Note in full on October 1, 2008.

In conjunction with its acquisition of La Tours, the Company agreed to pay \$300,000 to the former owners of La Tours in three \$100,000 annual installments, subject to adjustment as defined by the Acquisition Agreement, commencing on January 2, 2008. The series of three annual installments of \$100,000 has been discounted, using the Company's estimated incremental borrowing rate of 6.5%. The Company made its January 2, 2008 payment in full. The aggregate related unamortized imputed interest of \$6,006 and \$17,960 as of December 31, 2008 and 2007, respectively, has been offset against the face value of the debt.

In October 2008, the Company entered into a 36 month lease agreement for a new telephone system at a cost of \$62,944 requiring monthly payments of \$1,855 and is responsible for all executory costs as defined by the agreement. At the conclusion of the lease, the Company may purchase the system at a bargain purchase price. As of December 31, 2008, the cost of the system, net of accumulated depreciation of \$3,497 was \$59,447. The present value of future minimum lease payments under capital leases as of December 31, 2008 consists of the following:

Year Ending December 31,:	
2009	\$ 22,260
2010	22,260
2011	16,695
Total minimum lease payments	61,215
Less: amounts representing interest	3,330
Present value of minimum lease payments	\$ 57,885

Interest expense for the years ended December 31, 2008 and 2007 respectively was \$40,970 and \$43,757 respectively.

	518,342	138,758
Provision for income taxes, net	\$ 553,777	\$ 133,411

The difference between income tax expense computed by applying the federal statutory corporate tax rate and actual income tax expense is as follows:

	December 31,	
	2008	2007
Statutory federal income tax rate	35.0%	35.0%
State income taxes	3.6	3.6
Tax effect of non-deductible items	6.1	18.1
	2.7	
Other		(0.8)
Effective tax rate	47.4%	55.9%

The effective tax rate exceeded the statutory in 2008 primarily as a result of \$119,613 of incentive stock option expense which was non deductible item for tax purposes. The tax effect of non-deductible items in 2007 include \$71,811 of stock compensation expense related to incentive stock options and \$18,148 of imputed interest expense related to the La Tours acquisition debt. Other includes tax rate differentials and the true-up of permanent tax differences from prior periods.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Deferred income taxes result from temporary differences in the recognition of income and expenses for the financial reporting purposes and for tax purposes. The tax effect of these temporary differences representing deferred tax asset and liabilities result principally from the following:

	December 31, 2008	December 31, 2007
Net operating loss carry-forwards and AMT tax credit	\$ 36,905	\$ 430,328
Depreciation and amortization	(211,523)	(49,635)
Accruals and other	126,829	52,289
Deferred income tax asset (liability)	\$ (47,789)	\$ 432,982

The net deferred tax assets and liabilities are comprised of the following:

	December 31, 2008	December 31, 2007
Current	\$ 27,672	\$ 1,665
Non-current	(75,461)	431,317
Net deferred income tax asset (liability)	\$(47,789)	\$ 432,982

The Company has federal net operating loss carry forwards totaling \$75,548 which will expire in 2022.

## NOTE 14 – TREASURY STOCK

On August 1, 2008, the Company announced that its Board of Directors had approved a program to repurchase of up to \$200,000 of the Company's common stock to be funded from available working capital and subject to the applicable rules and regulations of the Securities and Exchange Commission and other applicable legal requirements. The program will not extend beyond June 30, 2009, does not require the Company to acquire a specific number of shares and may be suspended from time to time or discontinued. As of December 31, 2008 the Company had purchased 44,300 shares of its common stock in the open market at a cost of \$25,628.

## NOTE 15 – STOCK BASED COMPENSATION

The 2005 Management and Director Equity Incentive and Compensation Plan (the "Plan") provides for the grants of stock options, restricted stock, performance-based and other equity-based incentive awards to directors, officers and key employees. Under this Plan, stock options must be granted at an option price that is greater than or equal to the market price of the stock on the date of the grant. If an employee owns 10% or more of the Company's outstanding common stock, the option price must be at least 110% of the market price on the date of the grant. Options granted under this Plan become exercisable in accordance with the terms of the grant as determined by a committee of the Company's Board of Directors. All options granted expire no more than 10 years following the date of grant.

During 2007, 350,000 stock options were granted to an officer and key employees under the Plan. All options have a five year life and exercise prices ranging from \$1.76 to \$3.02. On March 26, 2008, 232,400 stock options were granted to key employees under the Plan. All options have a five year life and an exercise price \$1.27.
