The credit agreement is collateralized principally by all assets located in the United States of America. The Company is restricted from paying dividends to stockholders. Also, the Company is required to maintain unencumbered cash or marketable securities of \$4 million at the end of each fiscal quarter and to maintain a minimum fixed charge and interest coverage ratio, among other financial covenants.

The Company has received a waiver under the credit agreement through March 30, 2003, while the Company negotiates with the bank group to modify the financial covenant.

Note 4. Earnings (Loss) Per Common Share

Basic earnings per common share are calculated by dividing net income by the average common shares outstanding. On a diluted basis, shares outstanding are adjusted to assume the exercise of stock options. The effect of stock options have not been included in three months ended December 31, 2002 loss per common share, as their effect would have been anti-dilutive.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Management's Discussion and Analysis contains Forward-Looking Statements, as defined in section 27a of the Securities Act of 1933, as amended, and Section 21e of the Securities Exchange Act of 1934, as amended. Forward-Looking Statements are statements other than historical information or statements of current condition and relate to future events or the future financial performance of the Company. Some Forward-Looking Statements may be identified by use of such terms as believes, anticipates, intends or expects. Such Forward-Looking Statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such Forward-Looking Statements. The following is a list of factors, among others, that could cause actual results to differ materially from those contemplated by the Forward-Looking Statements: business conditions and fluctuations in certain market segments and industries and the general economy; competitive factors, including increased competition and price pressures; availability of third-party component products at reasonable prices; increased excise taxes; foreign currency exposure; changes in product mix between and among product lines; lower than expected customer orders and quarterly seasonal fluctuations of those orders; and product shipment interruptions. The Company undertakes no obligation to update or revise any Forward-Looking Statements, whether as a result of new information, future events or otherwise.

Introduction

The following discussion and analysis summarizes the significant factors affecting (i) consolidated results of operations of the Company for the three months ended December 31, 2002 compared to the three months ended December 31, 2001, and (ii) financial liquidity and capital resources. This discussion and analysis should be read in conjunction with the Company's consolidated financial statements and notes thereto included herein. Certain amounts presented in this Item 2 have been rounded to the nearest thousand or hundred thousand, as applicable, but the percentages calculated are based on actual amounts without rounding.

The Company operates primarily in the beverage alcohol industry in the United States. The Company is a leading producer and supplier of brandy, rum, wine and spirits to other beverage alcohol manufacturers; produces, imports and markets premium branded spirits; bottles beverage alcohol and other beverages on a contract basis and under its own labels; and produces vinegar and cooking wine. The Company reports its operating results in five segments: Bulk Alcohol Products (citrus brandy, citrus spirits, rum, cane spirits, fortified citrus wine, purchased distilled products and byproducts); Premium Branded Spirits (primarily Cruzan Estate Rums and Cruzan Flavored Rums); Bottling Operations (contract bottling services and proprietary and private label products); Vinegar and Cooking Wine (bulk vinegar, bulk cooking wine, vinegar stock and proprietary and private label case goods); and Corporate Operations and Other (primarily corporate related items).

Information regarding the net sales, operating income and total assets of each of the Company's business segments and information regarding geographic areas is set forth in Note 5 to the Consolidated Financial Statements.

The Company's net sales and gross margins (gross profit as a percentage of net sales) vary depending on the mix of business among the Company's products. Historically, gross margins have been highest in bulk alcohol products and premium branded spirits and lower in bottling operations and vinegar and cooking wine operations.

The Company has a limited number of customers, and these customers often purchase bulk alcohol products in significant quantities or place significant orders for contract bottling services, distilled spirits, vinegar and cooking wine. Accordingly, the size and timing of purchase orders and product shipments can cause operating results to fluctuate significantly from quarter to quarter. Additionally, some Company products generate higher profit margins than others, and changes in the Company's product mix can cause gross margins to fluctuate. Certain aspects of the Company's business are seasonal, with increased demand for the Company's contract bottling services from April to October and increased production of the Company's bulk alcohol products from November to June,

corresponding to the Florida citrus harvest. As a result of these factors, the Company's operating results may vary significantly from quarter to quarter.

Net sales represent the Company's gross sales less excise taxes. Excise taxes are generally payable on products bottled by the Company. In addition, excise taxes are payable on sales of industrial alcohol to certain customers. Accordingly, excise taxes vary from period to period depending upon the Company's product and customer mix.

Three months ended December 31, 2002 compared to three months ended December 31, 2001. Unless otherwise noted, references to 2002 represent the three-month period ended December 31, 2002 and references to 2001 represent the three-month period ended December 31, 2001. In 2001, net sales and cost of goods sold of premium branded spirits included excise taxes of approximately \$0.6 million, representing excise taxes included in cases sold from warehouses located outside of the Company's Florida bonded warehouse facilities. Beginning October 1, 2002, the Company no longer includes excise taxes in net sales and cost of goods sold of premium branded spirits case sales from locations outside of the Company's Florida bonded warehouse facilities. Net sales and cost of sales in 2001 have been reclassified to conform with the 2002 presentation.

Net Sales. Net sales were \$21.0 million in 2002, a decrease of 12.1% from net sales of \$23.9 million in 2001.

Net sales of bulk alcohol products were \$8.7 million in 2002, a decrease of 1.6% from net sales of \$8.8 million in 2001. The decrease resulted primarily from decreased shipments of citrus spirits, cane spirits and fortified citrus wine. Except for fortified citrus wine, management believes that the decrease in bulk alcohol shipments is due to the timing of customer orders and that bulk alcohol shipments will return to normal levels by the end of fiscal 2003. Due to the loss of certain customers, management believes that its fortified wine volume in fiscal 2003 may decline by approximately 2% from fiscal 2002.

Edgar Filing: TODHUNTER INTERNATIONAL INC - Form 10-Q

Net sales of premium branded spirits were \$4.2 million in 2002, a decrease of 11.9% from net sales of \$4.8 million in 2001. In 2001, net sales of premium branded spirits included \$1.6 million of bulk tequila sales, representing the liquidation of inventory that was held to produce Porfidio tequila. Excluding bulk tequila sales, net sales of premium branded spirits were \$4.2 million in 2002, an increase of 31.6% from net sales of \$3.2 million in 2001. Sales of the Company's Cruzan Estate Rums and Cruzan Flavored Rums, collectively, increased 33.9% and Cruzan Flavored Rums alone increased 47.3% in 2002 compared to 2001.

Net sales of the Company's bottling operations were \$2.8 million in 2002, a decrease of 40.8% from net sales of \$4.8 million in 2001. The unit volume of the Company's bottling operations decreased 62.1% in 2002 as a result of the decision of a large bottling customer to shift production from the Company to its own bottling facilities. During fiscal 2002, this customer represented approximately 48% of the Company's fiscal 2002 unit volume in bottling.

operations. Management believes that this loss in volume will be partially offset by increased business with new and existing customers and that total bottling operations may decline by approximately 8% in fiscal 2003.

Net sales of vinegar and cooking wine were \$5.2 million in 2002, a decrease of 4.2% from net sales of \$5.5 million in 2001. Management believes that the decrease in net sales is due to the timing of customer orders.

Gross Profit. Gross profit was \$5.6 million in 2002, a decrease of 26.1% from gross profit of \$7.6 million in 2001. Gross margin decreased to 26.6% in 2002 from 31.7% in 2001. The decrease in gross margin was primarily attributable to the decreased volume in bottling operations and a decrease in shipments of bulk alcohol.

Selling, General and Administrative Expenses. Selling, general and administrative expenses were \$5.5 million in 2002, an increase of 8.7% from \$5.1 million in 2001. The increase was primarily attributable to increased overhead, marketing and advertising expenses related to the Company's premium branded spirits business. The Company has increased its overhead, marketing and advertising budget in its premium branded spirits business as it continues to place emphasis on this growing business segment.

Operating Income. The following table sets forth the operating income (loss) by reportable segment of the Company for 2002 and 2001.

	Three months ended December 31,		2001	% Change
	2002	(In thousands)		
Bulk Alcohol Products	\$	2,097	\$ 2,889	(27.4)
Premium Branded Spirits		(413)	(171)	
Bottling Operations		(1,282)	182	
Vinegar and Cooking Wine		1,172	1,147	2.2
Corporate Operations and Other		(1,499)	(1,561)	
	\$	75	\$ 2,486	(97.0)

As a result of the above factors, operating income was \$0.1 million in 2002, a decrease of 97.0% from operating income of \$2.5 million in 2001. The 27.4% reduction in operating income for the bulk alcohol segment is primarily attributable to the timing of shipments of higher margin products being delayed into future quarters.

The Company's premium branded spirits segment experienced operating losses of \$0.4 million in 2002 and \$0.2 million in 2001. The operating loss reflected the Company's continuing efforts to increase market share by reinvesting segment gross profits in selling and marketing expenses. Included in operating loss of premium branded spirits in 2001 was profit of \$0.5 million related to bulk tequila sales. Excluding bulk tequila sales, operating loss of premium branded spirits would have been \$0.7 million in 2001.

The Company's bottling operations segment reported an operating loss of \$1.3 million in 2002 compared to operating income of \$0.2 million in 2001. The operating loss reflected the decision of a large bottling customer to shift production from the Company to its own bottling facilities. This customer represented approximately 48% of the Company's annual unit volume for fiscal year 2002. Management believes that this loss in volume will be partially offset by increased business with new and existing customers and that total bottling operations volume may decline by approximately 8% in fiscal 2003.

Interest Expense. Interest expense was \$0.7 million in 2002 and \$0.8 million in 2001. The decrease in interest expense was due to lower interest rates during 2002 as compared to 2001.

Other Expense. On November 26, 2002, the Company announced the retirement and resignation of A. Kenneth Pincourt, Jr., its Founder, Chairman and Chief Executive Officer. The Company has entered into a retirement agreement with Mr. Pincourt, setting forth the terms of his retirement and resignation. The retirement agreement replaces Mr. Pincourt's previous employment agreement. Under the retirement agreement, the Company elected to

accelerate retirement benefits under its deferred compensation program and to continue to pay compensation and provide related benefits through July 15, 2004, the remaining term of Mr. Pincourt's previous employment contract.

Accelerated benefits under the deferred program amounted to \$1,040,987, of which \$549,220 had been accrued as of September 30, 2002. Mr. Pincourt's deferred compensation was paid to him on December 13, 2002. Also under the retirement agreement, Mr. Pincourt will continue to receive monthly payments of \$41,004 through July 15, 2004, one bonus payment of \$150,491 payable on or before October 31, 2003, and a second bonus payment of \$119,138 payable on or before August 31, 2004. Among other benefits, Mr. Pincourt is also able to participate in any health insurance plan, employee benefit plan or other arrangement made available by the Company or its subsidiaries to its executives and key management employees, through July 15, 2004. The Company recorded a charge for the retirement of Mr. Pincourt during the first quarter of fiscal 2003. The effect of this charge was included in other expense in the Company's consolidated statement of income and amounted to \$1,503,925 before income taxes.

The following table summarizes the charge made during the first quarter for Mr. Pincourt's retirement:

Deferred compensation	\$	1,040,987
Compensation and related benefits		1,012,158
Total		2,053,145
Less deferred compensation accrued as of September 30, 2002		(549,220)
Charged to expense	\$	1,503,925

Income Tax Expense. The Company's effective income tax rate was 18.0% in 2002 and 26.6% in 2001. The low tax rate was attributable to a 90% exemption of the Company's Virgin Islands subsidiary from U.S. Virgin Islands income taxes. The exemption is effective through September 2020. In addition, the Company benefited from the extraterritorial income exclusion in 2002 and 2001. During 2002, the Company incurred operating losses from its U.S. operations and recorded an income tax benefit of \$0.3 million.

Financial Liquidity and Capital Resources

General

The Company's principal use of cash in its operating activities is for purchasing raw materials to be used in its manufacturing operations, purchasing imported products for its premium branded spirits business and carrying inventories and receivables. The Company's source of liquidity has historically been cash flow from operations and its line of credit. Some of the Company's manufacturing operations are seasonal and the Company's borrowings on its line of credit vary during the year. For example, the Company uses citrus molasses as its primary raw material in the production of citrus brandy and spirits at its two Florida distilleries. The Company buys citrus molasses, a byproduct of citrus juice production, from local manufacturers of citrus juice and concentrate during the citrus harvest, which generally runs from November to June. The Company generally begins purchasing citrus molasses in November and manufactures and builds inventory of citrus brandy and spirits. The Company manufactures and builds inventory while raw materials are available due to the short life of the citrus molasses it

purchases. Another seasonal business of the Company is its contract bottling services. Demand for contract bottling services is highest during the months from April through October. Management believes that cash provided by its operating and financing activities will provide adequate resources to satisfy its working capital, liquidity and anticipated capital expenditure requirements for both its short-term and long-term capital needs.

Operating Activities

Net cash provided by operating activities in 2002 was \$4.0 million, which resulted from \$0.3 million in net losses adjusted for noncash items, and \$4.3 million representing the net change in operating assets and liabilities.

Investing and Financing Activities

Net cash used in investing activities in 2002 was \$1.7 million, which resulted primarily from \$1.4 million of capital expenditures.

Net cash used in financing activities in 2002 was \$2.3 million, which resulted from payments of \$1.3 million under the revolving credit facility and \$1.0 million of long-term debt.

The Company's revolving credit facility provides for maximum borrowings of \$30 million. Borrowings under this facility were \$19.2 million at December 31, 2002 (see Note 3 to the consolidated financial statements).

The Company's bank debt was \$54.2 million as of December 31, 2002, and its ratio of total debt to equity was 1.04 to 1.

As of December 31, 2002, the Company was not in compliance with the funded debt to EBITDA (earnings before interest, taxes, depreciation and amortization) ratio financial covenant under its credit agreement. The Company has received a waiver under the credit agreement through March 30, 2003, while the Company negotiates with the bank group to modify the financial covenant.

The Company's share of the undistributed earnings of the Bahamian and Virgin Islands subsidiaries was approximately \$7.5 million and \$27.9 million, respectively, as of September 30, 2002. See Note 10 to the Company's consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended September 30, 2002 for additional information on income taxes related to these subsidiaries.

Based on current plans and business conditions, management expects that its cash, cash equivalents, and short-term investments, together with any amounts generated from operations and available borrowings, will be sufficient to meet the Company's cash requirements for at least the next 12 months.

Effects of Inflation and Changing Prices

The Company's results of operations and financial condition have not been significantly affected by inflation and changing prices. The Company has been able, subject to normal competitive conditions, to pass along rising costs through increased selling prices.

Critical Accounting Policies

Edgar Filing: TODHUNTER INTERNATIONAL INC - Form 10-Q

The Company's significant accounting policies are more fully described in Note 1 to the Company's consolidated financial statements located in Item 8 of its Annual Report on Form 10-K. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses, and the related disclosures of contingent assets and liabilities. Actual results could differ from those estimates under different assumptions or conditions. The Company believes that the following critical accounting policy is subject to estimates and judgments used in the preparation of its consolidated financial statements:

The Company has goodwill and intangible assets associated with business acquisitions. The Company reviews these assets for impairment annually and whenever an event occurs or circumstances change that would more likely than not reduce the fair value of these assets below their carrying value. If the fair value of these assets is less than their carrying value, then an impairment loss would be recognized equal to the excess of the carrying value over the fair value of the asset.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The information required under this Item 3 is incorporated herein by reference to the Company's Annual Report on Form 10-K for the year ended September 30, 2002.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Within 90 days prior to the date of this report, management, including the Company's Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective in timely alerting them to material information required to be included in the Company's periodic SEC reports. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Changes in Internal Controls

In addition, management, including the Company's Chief Executive Officer and Chief Financial Officer, reviewed the Company's internal controls, and there have been no significant changes in the internal controls or in other factors that could significantly affect those controls subsequent to the date of their last evaluation.
