RELIANT ENERGY INC Form 424B5 June 08, 2007

> Filed Pursuant to Rule 424(b)(5) Registration No. 333-107296

Prospectus Supplement to Prospectus dated December 11, 2003.

\$1,300,000,000

## Reliant Energy, Inc.

\$575,000,000 7.625% Senior Notes due 2014 \$725,000,000 7.875% Senior Notes due 2017

We will pay interest on the 2014 notes and the 2017 notes (which we refer to collectively as the notes) on June 15 and December 15 of each year. The first such payment will be made on December 15, 2007. The notes will be issued only in denominations of \$2,000 and integral multiples of \$1,000.

See Risk Factors beginning on page S-16 to read about important factors you should consider before buying the notes.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	Per 2014 Note	Per 2017 Note	Total	
Initial public offering price	100%	100%	\$	1,300,000,000
Underwriting discount	1.75%	1.75%	\$	22,750,000
Proceeds, before expenses, to				
Reliant Energy, Inc.	98.25%	98.25%	\$	1,277,250,000

The initial public offering price set forth above does not include accrued interest, if any. Interest on the notes will accrue from June 13, 2007 and must be paid by the purchasers if the notes are delivered after June 13, 2007.

The underwriters expect to deliver the notes through the facilities of The Depository Trust Company against payment in New York, New York on June 13, 2007.

#### SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended, or Exchange Act. Forward-looking statements are statements that contain projections, assumptions or estimates about our revenues, income and other financial items, our plans and objectives for future operations or about our future economic performance, transactions and dispositions and financings related thereto. In many cases, you can identify forward-looking statements by terminology such as anticipate, plan, potential, predict, should, will, continue, could, intend, may, expect, objective, projection, forecast, target and other similar words. However, the absence of these words does not mean that the statements are not forward-looking.

Actual results may differ materially from those expressed or implied by the forward-looking statements as a result of many factors or events, including, but not limited to, the following:

- Demand and market prices for electricity, purchased power and fuel and emission charges;
- Limitations on our ability to set rates at market prices;
- Our ability to obtain adequate fuel supply;
- Interruption or breakdown of our generating equipment and processes;
- Failure of third parties to perform contractual obligations;
- Changes in environmental regulations that constrain our operations or increase our compliance costs;
- Failure by transmission system operators to properly communicate operating and system information;
- Failure to meet our debt service, collateral postings and obligations related to our credit-enhanced retail structure;
- Ineffective hedging and other risk management activities;
- Changes in the wholesale energy market;
- The outcome of pending or threatened lawsuits, regulatory proceedings and investigations;
- Weather-related events;
- The timing and extent of changes in commodity prices and interest rates;
- Our ability to attract and retain customers and to adequately forecast their energy needs and usage; and
- Our access to capital.

Other factors that could cause our actual results to differ from our projected results are discussed or referred to in Item 1A of our annual report on Form 10-K for the year ended December 31, 2006, filed with the SEC on February 28, 2007, which is incorporated by reference herein. Each forward-looking statement speaks only as of the date of the particular statement and we undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

#### **SUMMARY**

This summary highlights information contained elsewhere in this prospectus supplement or the accompanying prospectus. To understand all the terms of this offering, and for a more complete understanding of our business, you should read carefully this entire prospectus supplement, the accompanying prospectus, the documents incorporated by reference herein and the other documents to which we refer. Unless the context requires otherwise, Reliant Energy, we, us, our and similar terms in this prospectus supplement refer to Reliant Energy, Inc. and its on a consolidated basis. The term you refers to a prospective investor. We have included terms that are important to an understanding of our business in the section entitled Glossary of Terms.

#### General

We provide electricity and energy services to retail and wholesale customers through two business segments.

- Retail energy provides electricity and energy services to approximately 1.9 million retail electricity customers in Texas, including residential and small business customers and commercial, industrial and governmental/institutional customers. We also serve commercial, industrial and governmental/institutional customers in the PJM Market, and we regularly evaluate entering other markets.
- Wholesale energy provides electricity and energy services in the competitive wholesale energy markets in the United States through our ownership and operation or contracting for power generation capacity. As of March 31, 2007, we had approximately 15,500 MW of owned, leased or contracted for generation capacity in operation.

For information about our corporate history, business segments and disposition activities, see notes 1, 18, 20 and 21 to our consolidated financial statements and Selected Financial Data in Item 6 of our annual report on Form 10-K for the year ended December 31, 2006.

#### **Retail Energy**

As a retail electricity provider, we arrange for the transmission and delivery of electricity to our customers, bill customers and collect payment for electricity sold, and maintain call centers to provide customer service. We purchase the electricity we sell to customers from generation companies, utilities, power marketers and other retail energy companies in the wholesale market. We obtain our transmission and distribution services in Texas from entities regulated by the PUCT.

Our retail business for residential and small business customers is primarily concentrated in Texas. Based on metered locations, as of March 31, 2007, we had approximately 1.64 million residential and 152,000 small business customers, making us the second largest mass market electricity provider in Texas. Approximately 67% of our customers are in the Houston area. We also have customers in other Texas cities, including Dallas, Ft. Worth and Corpus Christi.

In Texas and the PJM Market, we market electricity and energy services to commercial, industrial and governmental/institutional customers. These customers include refineries, chemical plants, manufacturing facilities, hospitals, universities, governmental agencies, restaurants and other facilities. Based on metered locations, as of March 31, 2007, we had approximately 87,000 commercial, industrial and governmental/institutional customers.

Under our supply strategy for our retail business, we structure our supply portfolio to match our load demands by procuring sufficient power prior to or concurrent with entering into retail sales commitments. Following the initiation of our credit-enhanced retail structure, we are no longer required to post collateral for our Texas retail supply purchases.

#### **Operations Data**

<sup>(1)</sup> Includes customers of the Texas General Land Office for whom we provide services.

<sup>(2)</sup> ERCOT is the Electric Reliability Council of Texas.

#### Wholesale Energy

As of March 31, 2007, we owned, had an interest in or leased 36 operating electric power generation facilities with an aggregate net generating capacity of 15,469 MW in five regions of the United States. The net generating capacity of these facilities consists of approximately 39% base-load, 36% intermediate and 25% peaking capacity.

We sell electricity and energy services from our generation portfolio in hour-ahead, day-ahead, forward, bilateral and ISO markets. We sell these products to investor-owned utilities, municipalities, cooperatives and other companies that serve end users or purchase power at wholesale for resale. Because our facilities are not subject to traditional cost-based regulation, we can generally sell electricity at market-determined prices. The following table identifies the principal markets where we own, lease or have under contract wholesale generation assets:

Region		Principal Markets
PJM		Illinois, New Jersey and Pennsylvania
MISO		Illinois, western Pennsylvania and Ohio
Southeast		Florida, Mississippi and Texas (non-ERCOT)
West		California and Nevada
ERCOT		Texas (ERCOT)

As of June 1, 2007, we expect that a substantial portion of our capacity that clears a PJM auction will be committed to the PJM Market up to three years in advance. Revenue from these capacity sales will be determined by new market rules, which are designed to ensure regional reliability, encourage competition and reduce price volatility. Cal ISO is considering similar reforms to its wholesale market rules in California, which are currently expected to be implemented in early 2008.

To ensure adequate fuel supplies, we contract for natural gas, coal and fuel oil for our generation facilities. For our natural gas-fired plants, we also arrange for, schedule and balance natural gas from our suppliers and through transporting pipelines. To perform these functions, we lease natural gas transportation and storage capacity.

In February 2006, we completed an evaluation of our wholesale energy segment s hedging strategy and use of capital. As a result of our evaluation, we substantially reduced hedging activity of our coal generation.

The following table describes our electric power generation facilities and net generating capacity by region as of March 31, 2007:

Region	Number of Generation Facilities	Net Generating Capacity (MW)	Fuel Type	Dispatch Type
РЈМ				
Operating(1)	21	7,230	Coal/Gas/Oil/Dual	Base-load/Intermediate/Peaking
Mothballed	1	68	Dual	Peaking
Combined	22	7,298		
MISO				
Operating	4	1,678	Coal/Gas/Oil	Base-load/Intermediate/Peaking
Southeast				
Operating(2)(3)	4	1,741	Gas/Dual	Base-load/Intermediate/Peaking
Mothballed	1	800	Gas	Intermediate
Combined	5	2,541		
West				
Operating	6	3,990	Gas/Dual	Base-load/Intermediate/Peaking
ERCOT				
Operating	1	830	Gas	Base-load
Total				
Operating	36	15,469		
Mothballed	2	868		
Combined	38	16,337		

We lease a 100%, 16.67% and 16.45% interest in three Pennsylvania facilities having 572 MW, 1,711 MW and 1,712 MW of net generating capacity, respectively, through facility lease agreements expiring in 2026, 2034 and 2034, respectively. The table includes our net share of the capacity of these facilities.

We own a 50% interest in one of these facilities having a net generating capacity of 108 MW. An unaffiliated party owns the other 50%. The table includes our net share of the capacity of this facility.

We are party to a tolling agreement entitling us to 100% of the capacity of a Florida facility having 630 MW of net generating capacity. This tolling agreement expires in 2012 and is treated as an operating lease for accounting purposes.

- (3) Generation volume divided by economic generation volume.
- (4) Excludes generation volume related to power purchase agreements, including tolling agreements.

#### Strategies and Objectives

Our objective is to be a leader in delivering the benefits of competitive electricity markets to customers. Our business focuses on the competitive segments of both the retail and wholesale electricity markets.

In 2006, we have substantially completed the process begun in 2003 to reposition our business for future success. As part of this process, we reduced debt and improved our liquidity position by utilizing cash flows from the business, proceeds from a series of asset sales and the implementation of a credit-enhanced retail structure. This new structure reduced our collateral requirements and the liquidity risk associated with commodity price volatility. We streamlined processes and reduced operating costs while shifting our focus away from energy trading to an asset performance culture. Additionally, we improved the percentage of time that our generating assets were available to run economically to 85.1% compared to 79.3% in 2004. We resolved a significant amount of legacy litigation, improved corporate governance and provided transparency into the earnings drivers of our business by introducing the open wholesale reporting model. In our retail business, we established a leadership position and transitioned to a fully competitive retail market in Texas with a significant portion of our former price-to-beat customers selecting one of our longer-term and innovative new products. We believe these accomplishments position us to emerge as a leader in competitive electricity markets.

<sup>(2)</sup> Estimated generation at 100% plant availability based on an hourly analysis of when it is economical to generate based on the price of power, fuel, emission allowances and variable operating costs.

Going forward our strategy is based on core beliefs about the power industry and the retail and wholesale electricity markets. These core beliefs reflect the issues we believe are the primary determinants of value-creation and risk. Our core beliefs about the power industry are:

- Volatile and uncertain markets drive variable earnings profiles;
- There will be a mix of competitive and regulated markets with a slow evolution to competition; and
- Environmental issues will command an increasing focus from regulators and politicians.

We are committed to delivering superior returns from competitive markets through insights into the fundamentals of our core markets and a commitment to risk-weighted investments whose return on invested capital exceeds our weighted-average cost of capital.

Retail Energy. The retail energy segment is a low capital investment electricity resale business with relatively stable earnings (excluding unrealized gains/losses on energy derivatives). The key earnings drivers in the retail energy segment are the volume of electricity we sell to customers, the unit margins received on those sales and the cost of acquiring and serving those customers. We earn a margin by selling electricity to end-use customers and simultaneously acquiring supply. Short-term earnings in this business are impacted by local weather patterns and the competitive tactics of other retailers in the market. The longer-term earnings drivers of the business are the level of competitive intensity and our ability to retain and grow market share by having a strong brand and excellent customer service.

Our core beliefs about the retail market are:

- We have a leadership position in the competitive electricity retail business, which has a high return on invested capital and relatively stable earnings;
- Retail competition provides opportunities to add value through customer segmentation, product and service innovation and brand;
- The confluence of market forces will provide an opportunity to dramatically alter industry load; and
- Continued success in the Texas retail market will drive new competitive market openings.

These core beliefs set the stage for our strategic direction. Looking forward, we will focus on the following value-creation levers:

- Strengthening our leadership position in ERCOT by continuing to build and exercise our operating capabilities, using customer segmentation to identify and provide value-added products and services, providing superior customer service, building our brand and developing product and service innovations;
- Entering and developing new competitive markets; and
- Leading the development of smart energy to reshape customer load.

Wholesale Energy. The wholesale energy segment is a capital-intensive, cyclical business. Earnings are significantly impacted by the level of natural gas prices and spark spreads. The key earnings drivers are the amount of electricity we generate and the margin we earn for each unit of electricity sold. We do not control those factors that have the most significant impact on our earnings levels. The factor that we have the most control over is the percentage of time that our generating assets are available to run when it is economical for them to do so. Short-term earnings in our wholesale business are impacted by weather and commodity price volatility. Longer-term earnings are driven by the level of commodity prices and regional supply and demand fundamentals.

Our core beliefs about the wholesale market are:

- Capital intensive, cyclical industries generally earn returns below their cost of capital over a full cycle;
- New build investment typically under earns its cost of capital unless there is a significant cost advantage; and
- Over the next several years, we anticipate a significant supply/demand recovery.

These core beliefs set the stage for our strategic direction. Looking forward, we will focus on the following value-creation levers:

- Realizing the value uplift from anticipated improving supply and demand fundamentals in the wholesale markets from our existing portfolio of assets;
- Achieving operating and commercial excellence; and
- Utilizing a highly-disciplined capital investment process with a return on invested capital focus to monetize the value of our brownfield sites, acquire assets at discounts to replacements and divest non-strategic assets.

*Company-wide.* Building on our success in repositioning the company and our rapidly improving credit profile, we will focus on establishing a flexible capital structure that ensures a competitive cost of capital with an ability to invest in value creating opportunities including returning capital to shareholders. In addition, we will continue to develop innovative structures and transactions that improve returns and reduce risk.

We also believe that stockholder value is enhanced through the development of a highly motivated and customer-focused work force. We continue to focus on a series of actions designed to build a great company to work for, including (a) communicating openly with our employees, (b) fostering company pride among our employees, (c) providing a satisfying and safe work environment, (d) recognizing and rewarding employee contributions and capabilities and (e) motivating our employees to be collaborative leaders committed to our future.

Our ability to achieve these strategic objectives and execute these actions is subject to a number of factors, some of which we may not be able to control. See Special Note Regarding Forward-Looking Statements in this prospectus supplement and Risk Factors in Item 1A of our annual report on Form 10-K for the year ended December 31, 2006.

### **Concurrent Transactions**

In connection with the offering of the notes hereby, we expect to repay our existing term loan and refinance our other existing credit facilities. We currently expect the refinanced credit facilities will include a secured revolving credit facility in an aggregate principal amount of \$500 million and a pre-funded letter of credit facility of \$250 million. The revolving credit facility will mature in June 2012 and the pre-funded letter of credit facility will mature in June 2014. Our subsidiaries, except subsidiaries prohibited by the terms of their financing or other documents from doing so, will guarantee the revolving credit facility and the pre-funded letter of credit facility. The revolving credit facility and the pre-funded letter of credit facility will be secured by the same collateral package that secures the existing credit facilities. The revolving credit facility will bear interest at LIBOR plus 1.75% or a base rate plus 0.75%.

After completion of the offering of the notes, we also intend to address the restrictive covenants in our \$750 million outstanding aggregate principal amount of 6.75% senior secured notes due 2014, or

the 6.75% notes, and in the PEDFA guarantees. We are evaluating various alternatives, including the retirement or defeasance of some or all of this debt with proceeds from potential asset sales.

In connection with the offering of the notes hereby, we have also commenced a tender offer to purchase for cash any and all of our outstanding 9.25% senior secured notes due 2010, which we refer to as the 2010 notes and 9.50% senior secured notes due 2013, which we refer to as the 2013 notes. Collectively, we refer to such notes as the tender notes. In addition, we have solicited consents to amend the applicable indentures governing the tender notes, in each case, to eliminate substantially all of the restrictive covenants and certain events of default and modify other provisions contained in such indentures. We have also solicited consents to the release of the security interests in the collateral securing the tender notes. As of 5:00 p.m., New York City time on June 5, 2007, the consent deadline, we received tenders and consents for \$516,125,000 in aggregate principal amount of the 2010 notes, representing 93.84% of the outstanding 2010 notes, and \$531,894,000 in aggregate principal amount of the 2013 notes, representing 96.71% of the outstanding 2013 notes. As a result of this release, any of the tender notes that remain outstanding after the consummation of the offers to purchase will no longer be entitled to the benefit of the collateral that secures such notes.

The net proceeds from this offering and cash from operations will be used to:

- repurchase the tender notes tendered in the offers to purchase;
- retire our \$400 million senior secured term loan:
- repay our outstanding principal and accrued interest under our existing credit facilities; and
- pay related fees and expenses.

The amount of indebtedness expected to be outstanding as a result of the transactions described above and this offering is \$1.30 billion (excluding cash amounts drawn under the revolving credit facility, if any). The term the transactions refers to these transactions and the application of the proceeds therefrom.

#### **Corporate Structure and Components of Debt**

The following simplified diagram presents our general corporate structure and the components of our banking and refinanced credit facilities and
other long-term debt to third parties as of March 31, 2007 (in millions), after giving effect to the transactions as if they had occurred on
March 31, 2007 (all dollar amounts are in millions):

The following diagram represents our off-balance sheet obligations as of March 31, 2007:

As of March 31, 2007, after giving effect to the transactions, we would have had \$0 outstanding under our \$500 million revolving credit facility, with \$156 million of letters of credit outstanding relating to our commercial activities and no revolving loans outstanding.

<sup>(2)</sup> Assumes all of the tender notes are tendered and accepted in the concurrent offers to purchase.

<sup>(3)</sup> Represents debt related to our Seward facility, which is guaranteed by Reliant Energy, Inc. and certain of its subsidiaries.

In December 2006, we entered into a credit sleeve and reimbursement agreement and a \$300 million working capital facility agreement providing for revolving credit loans with Merrill Lynch Commodities, Inc. and its affiliates. There is \$0 outstanding under our working capital facility. This agreement substantially eliminated collateral postings for our Texas retail energy business. See Description Of Certain Other Financial Obligations Description of Credit-Enhanced Retail Structure.

<sup>(5)</sup> Includes a purchase accounting write-up of \$36 million.

One of our subsidiaries, REMA, entered into sale-leaseback transactions, under operating leases that are non-recourse to us. See note 12(a) of our annual report on Form 10-K for the year ended December 31, 2006 for additional information.

**Change of Control Offer** 

Covenants

S-10

Reliant Energy, Inc.

\$575 million in aggregate principal amount of 7.625% Senior Notes due 2014 and \$725 million in aggregate principal amount of 7.875% Senior Notes due 2017.

2014 notes: June 15, 2014. 2017 notes: June 15, 2017. 2014 notes: 7.625% per year. 2017 notes: 7.875% per year.

June 15 and December 15 of each year, commencing on December 15, 2007.

The notes will be our senior obligations and will rank pari passu in right of payment with all of our existing and future senior indebtedness. The notes will rank senior in right of payment to all of our existing and future subordinated indebtedness.

The notes will be effectively subordinated in right of payment to REI s credit agreement, the PEDFA bonds and the 6.75% notes, and to the extent of the value of the assets securing such indebtedness.

The notes will not be guaranteed by any of our subsidiaries and will therefore be effectively subordinated to all indebtedness and other liabilities (including trade payables) of our subsidiaries.

If a change of control of our company occurs, we must give holders of the notes the opportunity to sell to us at a purchase price of 101% of their face amount, plus accrued and unpaid interest. The term Change of Control is defined in the Description of Notes Certain Definitions section of this prospectus supplement.

The indenture governing the notes will contain covenants that limit our ability and that of our subsidiaries to:

- · incur liens
- consolidate, merge or transfer all or substantially all of our assets and the assets of our subsidiaries.

These covenants are subject to important exceptions and qualifications, which are described in the Description of the Notes section of this prospectus supplement.

## **Use of Proceeds**

The net proceeds from the sale of the notes offered hereby are estimated to be approximately \$1.28 billion, after deducting the discount payable to the underwriters and estimated offering expenses payable by us. We intend to use the net proceeds from this offering together with cash from operations to repurchase the tender notes tendered in the tender offers, to retire our \$400 million senior secured term loan, to refinance our outstanding principal and accrued interest under our existing credit facilities and to pay related fees and expenses.

#### **Conditions to Issuance of the Notes**

The closing of this offering is conditioned upon the closing of the refinancing of our existing credit facilities and entering into the refinanced credit facilities.

#### **Risk Factors**

See the Risk Factors section of this prospectus supplement for a discussion of certain factors that should be considered in evaluating an investment in the notes.

#### **Summary Selected Consolidated Financial Data**

You should read the summary consolidated financial data set forth below in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and the related notes included in our annual report on Form 10-K for the year ended December 31, 2006 and our quarterly report on Form 10-Q for the quarter ended March 31, 2007, which are incorporated by reference in this prospectus supplement. We derived the following summary financial information as of December 31, 2004, 2005 and 2006 and for each of the three years in the period ended December 31, 2006 from our audited consolidated financial statements. We derived the following summary financial information as of March 31, 2006 and 2007 and for the three months ended March 31, 2006 and 2007 from our unaudited interim consolidated financial statements. These unaudited financial statements were prepared on the same basis as our audited financial statements and, in the opinion of management, include all adjustments, consisting only of normal recurring adjustments, that are necessary for a fair presentation of our financial position at such date and our results of operations for such periods. The results for periods of less than a full year are not necessarily indicative of the results to be expected for any interim period or for a full year.

We sold or transferred the following operations from 2004 through 2006, which have been classified as discontinued operations: Orion Power s hydropower plants, Liberty, Ceredo and Orion Power s New York plants. We sold the following operations, which are included in continuing operations: REMA hydropower plants in April 2005, landfill-gas fueled power plants in July 2005 and our El Dorado Energy, LLC investment in July 2005.

During 2004, we recorded a charge of \$2 million relating to a payment of \$177 million made to CenterPoint in 2004.

- During 2005, we recorded charges of \$359 million relating to various settlements associated with the Western states energy crisis, which were paid during 2006. See notes 13 and 14 of our annual report on Form 10-K for the year ended December 31, 2006.
- During 2006, we recorded a \$35 million charge related to a settlement of certain class action natural gas cases relating to the Western states energy crisis. See notes 13 and 14 of our annual report on Form 10-K for the year ended December 31, 2006.
- For 2004, 2005 and 2006 and the three months ended March 31, 2006, our earnings were insufficient to cover our fixed charges by \$416 million, \$706 million, \$436 million and \$77 million, respectively.
- The proforma ratio of earnings from continuing operations to fixed charges for the three months ended March 31, 2007 is 3.41, after giving effect to the transactions as if they had occurred on January 1, 2007. The proforma interest expense includes (a) \$78 million of interest and (b) write-off of approximately \$60 million for deferred financing costs. This amount is only an estimate and is subject to change.

#### RISK FACTORS

You should consider the risks described below carefully and all of the information contained in this prospectus supplement and the accompanying prospectus before deciding whether to purchase our notes. In addition, you should carefully consider, among other things, the matters discussed under Risk Factors in our annual report on Form 10-K for the fiscal year ended December 31, 2006, filed with the SEC on February 28, 2007, which is incorporated by reference herein, and in other documents that we subsequently file with the SEC. The risks described in this section are not the only ones we face. Additional risks and uncertainties not currently known to us or that we currently consider immaterial could also have a material adverse effect on our business operations.

#### Risks Related to the Offering

We Are Primarily a Holding Company. Our Only Material Source of Cash is and Will Be Distributions from Our Subsidiaries, and the Notes are Effectively Subordinated to the Claims of Our Subsidiaries.

We are primarily a holding company with no material business operations of our own. Our most significant assets are the capital stock of our subsidiaries. We conduct virtually all of our business operations through those subsidiaries. Accordingly, our only material source of cash, including cash to make payments on or redeem the notes or our other indebtedness, is and will be dividends with respect to our ownership interests in our subsidiaries and other distributions that are derived from the earnings and cash flow generated by our subsidiaries. Furthermore, such subsidiaries will be permitted under the terms of the indenture to incur additional indebtedness that may restrict or prohibit the making of distributions, the payment of dividends or the making of loans by such subsidiaries to us. Additionally, we cannot assure you that our subsidiaries will generate sufficient earnings and cash flow to pay dividends or distributions to us or that applicable state law and contractual restrictions will permit such dividends or distributions in the future.

The Notes Are Effectively Junior to the Indebtedness and Other Liabilities of Our Subsidiaries, which are Not Providing Guarantees for the Notes.

Our subsidiaries will not guarantee the notes and will have no legal obligation to make payments on the notes or make funds available for those payments, whether by dividends, loans or other payments. Accordingly, we may not be able to pay interest on the notes or principal when due at maturity or otherwise. The notes are accordingly effectively subordinated to the outstanding and future indebtedness and other liabilities, including trade payables, of our subsidiaries. Assuming we had completed this offering on March 31, 2007, these notes would have been effectively junior to \$2.9 billion of indebtedness and other liabilities, including trade payables (excluding intercompany liabilities) of our subsidiaries and approximately \$300 million would have been available to these subsidiaries for future borrowing under their credit facilities. In the event of our bankruptcy, liquidation, dissolution, reorganization or similar proceeding, the claims of the holders of the notes will remain effectively subordinated to the claims of creditors of all of our subsidiaries, including trade creditors and holders of indebtedness of those subsidiaries. Accordingly, there might only be a limited amount of assets available to satisfy your claims as a holder of the notes upon an acceleration of the maturity of the notes.

The Notes are Effectively Subordinated to the Secured Credit Agreement, Our Other Secured Debt and Any Secured Debt We May Incur in the Future.

The notes are not secured by any of our assets or those of our subsidiaries that secure indebtedness under our credit facilities and other secured debt. See Description of Certain Other Financial Obligations Notes Description of Refinanced Credit Facilities for additional information. As a result, the notes will be effectively subordinated to REI s secured credit agreement, the PEDFA bonds and the 6.75% notes. Likewise, the notes will be effectively subordinated to any secured debt that we may incur in the future. In any liquidation, dissolution, bankruptcy or other similar proceeding, the holders of our secured debt may assert rights against the pledged assets in order to receive full payment of their debt before the assets may be used to pay the holders of the notes.

The Indenture under Which the Notes are Being Issued Contains Only Limited Protection for Holders of the Notes in the Event We Are Involved in a Highly Leveraged Transaction, Reorganization, Restructuring or Similar Transaction in the Future.

The indenture and supplemental indenture under which the notes will be issued will not protect holders of the notes in the event we are involved in a highly leveraged transaction, reorganization, restructuring or similar transaction except that if a Change of Control occurs, as defined in the supplemental indenture, each holder of notes will have the right to require a repurchase of all or any part of that holder s notes at the purchase price set forth in the supplemental indenture. The indenture does not limit the amount of debt securities, debentures, notes or other types of indebtedness that we or any of our subsidiaries may issue nor does the indenture contain any covenants or other provisions that either restrict transactions between us and our affiliates or limit our and our subsidiaries—ability to sell assets. In addition, the indenture does not contain a restricted payment covenant and therefore there are no limits under the indenture or supplemental indenture on our ability to pay dividends or make other distributions to our shareholders.

#### Our Outstanding Debt Could Negatively Impact Our Business.

As of March 31, 2007, we had total consolidated debt of \$3.5 billion, which consisted of the existing notes and other debt, including secured facilities. Our level of debt could:

- make it difficult to satisfy our financial obligations, including debt service requirements;
- limit our ability to obtain additional financing to operate our business;
- limit our financial flexibility in planning for and reacting to business and industry changes;
- impact the evaluation of our creditworthiness by counterparties to commercial agreements and affect the level of collateral we are required to post under such agreements;
- place us at a competitive disadvantage compared to less leveraged companies;
- increase our vulnerability to general adverse economic and industry conditions, including changes in interest rates and volatility in commodity prices; and
- require us to dedicate a substantial portion of our cash flows to payments on our debt, thereby reducing the availability of our cash flow for other purposes including our operations, capital expenditures and future business opportunities.

Furthermore, we may incur additional indebtedness in the future. If new debt is added to our current debt levels and those of our subsidiaries, the related risks that we and they face could increase.

#### The Terms of Our Debt May Limit Our Ability to Plan for or Respond to Changes in Our Businesses.

The Credit Agreement, our guaranty of the fixed-rate tax-exempt facilities revenue bonds and the 6.75% notes have, and any additional long-term debt we may enter into in the future may have, terms that restrict our ability to take specific actions in planning for and responding to changes in our business without the consent of the lenders and noteholders, even if such actions may be in our best interest.

In the Event of a Bankruptcy or Insolvency, Holders of Our Secured Indebtedness and Other Secured Obligations Will Have a Prior Secured Claim to Any Collateral Securing Such Indebtedness or Other Obligations.

Holders of our secured indebtedness will have claims that are prior to your claims as holders of the notes to the extent of the value of the assets securing that other indebtedness. Our Credit Agreement, the 6.75% notes and the PEDFA guaranties are secured by first priority liens on substantially all of our assets and the assets of our subsidiaries that guarantee that debt. In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding-up, liquidation, reorganization or other bankruptcy proceeding, holders of secured indebtedness will have prior claim to those of our assets that constitute their collateral. Holders of the notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes, and potentially with all our other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets. In any of the foregoing situations, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. As a result, holders of notes may receive less, ratably, than holders of secured indebtedness.

# Financing Change of Control Offer We May Not Have the Ability to Raise the Funds Necessary to Finance the Change of Control Offer Required by the Indentures.

Upon the occurrence of certain specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes of both series, the 6.75% notes and the PEDFA bonds at 101% of the principal amount thereof plus accrued and unpaid interest, to the date of repurchase. However, it is possible that we will not have sufficient funds at the time of the change of control to make the required repurchase of notes, the 6.75% notes and the PEDFA bonds or that restrictions in the credit agreement will not allow such repurchases. In addition, certain important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a Change of Control under the indentures. See Description of Notes Repurchase Upon Change of Control.

#### There Is No Existing Market for the Notes, and We Cannot Assure You That an Active Trading Market Will Develop.

There is no existing market for the notes and we do not intend to apply for listing of the notes on any securities exchange or any automated quotation system. There can be no assurance as to the liquidity of any market that may develop for the notes, the ability of the holders of the notes to sell their notes or the price at which holders of the notes will be able to sell their notes. Future trading prices of the notes will depend on many factors, including prevailing interest rates, our financial condition and results of operations, the then-current ratings assigned to the notes and the market for similar securities.

If a particular offering of notes is sold to or through underwriters, the underwriters may attempt to make a market in the notes. However, the underwriters would not be obligated to do so and they could terminate any market-making activity at any time without notice. If a market for any of the notes does not develop, holders of those notes may be unable to resell them for an extended period of time and those notes may not be readily accepted as collateral for loans.

#### **USE OF PROCEEDS**

The net proceeds from the sale of the notes offered hereby are estimated to be approximately \$1.28 billion, after deducting the discount payable to the underwriters and estimated offering expenses payable by us.

We intend to use the net proceeds from this offering together with cash from operations to:

- repurchase the tender notes tendered in the tender offers;
- retire our \$400 million senior secured term loan;
- repay our outstanding principal and accrued interest under our existing credit facilities; and
- pay related fees and expenses.

#### **CAPITALIZATION**

The following table sets forth our cash and cash equivalents, restricted cash and certain other net assets and our consolidated historical capitalization (a) as of March 31, 2007 and (b) as adjusted as of March 31, 2007, as adjusted to give effect to the transactions as if they had occurred on March 31, 2007. The information appearing in this table should be read in conjunction with our historical and unaudited financial information, together with the notes thereto, where applicable, incorporated by reference herein.

	As of March 31, 2007

- (a) Assumes that the aggregate principal amount of the revolving credit facility will be \$500 million.
- (b) Assumes all of the tender notes are tendered and accepted in the concurrent offers to purchase.
- Does not include the effects of (i) write-off of certain existing deferred financing costs, (ii) the estimated premium of approximately \$75 million to be paid to noteholders (which estimated premium amount assumes that all of the existing noteholders will tender their tender notes) or (iii) other fees that will be expensed.

#### SELECTED CONSOLIDATED FINANCIAL INFORMATION AND OTHER DATA

The following tables present our selected consolidated financial data for 2002 through 2006 and for the three months ended March 31, 2006 and 2007. We derived the following selected consolidated financial information as of December 31, 2002 and for the period ended December 31, 2002 from our unaudited consolidated financial statements. We derived the following selected consolidated financial information as of December 31, 2003, 2004, 2005 and 2006 and for each of the four years in the period ended December 31, 2006 from our audited consolidated financial statements. We derived the following selected consolidated financial information as of March 31, 2006 and 2007 and for the three months ended March 31, 2006 and 2007 from our unaudited interim consolidated financial statements. These unaudited financial statements were prepared on the same basis as our audited financial statements and, in the opinion of management, include all adjustments, consisting only of normal recurring adjustments, that are necessary for a fair presentation of our financial position at such date and our results of operations for such periods. The results for periods of less than a full year are not necessarily indicative of the results to be expected for any interim period or for a full year. You should read the selected consolidated financial information and other data set forth below in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and the related notes included in our annual report on Form 10-K for the fiscal year ended December 31, 2006 and our quarterly report on Form 10-Q for the quarter ended March 31, 2007, which are incorporated by reference herein.

<sup>(1)</sup> Our results of operations include Orion Power since its acquisition in February 2002. We sold or transferred the following operations, which have been classified as discontinued operations: Desert Basin, European energy, Orion Power s hydropower plants, Liberty, Ceredo and Orion Power s New York plants. We sold the following operations, which are included in continuing operations: REMA hydropower plants in April 2005, landfill-gas fueled power plants in July 2005 and our El Dorado Energy, LLC investment in July 2005.

<sup>(2)</sup> During 2002, we recorded an impairment of our European energy segment s goodwill of \$234 million, net of tax, as a cumulative effect of accounting change.

<sup>(3)</sup> We adopted EITF No. 02-03 effective January 1, 2003, which affected our accounting for electricity sales to large commercial, industrial and governmental/institutional customers under executed contracts and our accounting for trading and hedging activities. It also impacted these contracts executed after October 25, 2002 in 2002.

- (4) Effective September 30, 2002, we separated from CenterPoint and prior to that date our financial position and results of operations may not reflect as if we had operated as a separate, stand-alone entity.
- (5) Effective October 1, 2003, we adopted EITF No. 03-11 and began prospectively reporting the settlement of sales and purchases of fuel and purchased power related to our non-trading commodity derivative activities that were not physically delivered on a net basis in our results of operations in the same line as the item hedged. This resulted in decreased

revenues and decreased purchased power, fuel and cost of gas sold of \$834 million, \$2.4 billion, \$4.2 billion and \$3.3 billion, for the fourth quarter of 2003, and fiscal 2004, 2005 and 2006, respectively. We did not reclassify amounts for periods prior to October 1, 2003.

- (6) During 2002, 2003 and 2004, we recorded charges of \$128 million, \$47 million and \$2 million, respectively, relating to a payment of \$177 million made to CenterPoint in 2004.
- (7) During 2005, we recorded charges of \$359 million relating to various settlements associated with the Western states energy crisis, which were paid during 2006. See notes 13 and 14 of our annual report on Form 10-K for the year ended December 31, 2006.
- (8) During 2006, we recorded a \$35 million charge related to a settlement of certain class action natural gas cases relating to the Western states energy crisis. See notes 13 and 14 of our annual report on Form 10-K for the year ended December 31, 2006.
  - (9) During 2003, we recorded a goodwill impairment charge of \$985 million.
  - (10) This information is not available on the same basis as currently disclosed.
- (11) For 2003, 2004, 2005 and 2006 and the three months ended March 31, 2006, our earnings were insufficient to cover our fixed charges by \$913 million, \$416 million, \$706 million, \$436 million and \$77 million, respectively.
- (12) The pro forma ratio of earnings from continuing operations to fixed charges for the three months ended March 31, 2007 is 3.41, after giving effect to the transactions as if they had occurred on January 1, 2007. The pro forma interest expense includes (a) \$78 million of interest and (b) a write-off of approximately \$60 million for deferred financing costs. This amount is only an estimate and is subject to change.
- (13) We adopted FASB Interpretation No. 46 on January 1, 2003, as it related to our variable interests in three power generation projects that were being constructed by off-balance sheet entities, which pursuant to this guidance required consolidation upon adoption. As a result, we increased our property, plant and equipment and our secured debt obligations by \$1.3 billion.

#### DESCRIPTION OF NOTES

The following description of the particular terms of the notes replaces and supersedes the description of the general terms and provisions of the debt securities set forth under Description of Debt Securities and Guarantees beginning on page 2 in the accompanying prospectus. You can find the definitions of certain terms used in this description under the subheading Certain Definitions. In this description, REI refers only to Reliant Energy, Inc. and not to any of its subsidiaries. References to the notes refer collectively to the 7.625% Senior Notes due 2014 (the 2014 notes ) and the 7.875% Senior Notes due 2017 (the 2017 notes ).

REI will issue the notes under a base indenture between itself and The Wilmington Trust Company, as trustee, as supplemented with respect to the 2014 notes and the 2017 notes by a supplemental indenture (the *supplemental indenture*) between REI and the trustee, which supplemental indenture will restate in their entirety the terms of the base indenture as supplemented by such supplemental indenture. In this description, indenture refers to the base indenture as supplemented by the supplemental indenture. The terms of the notes include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended.

The following description is a summary of the material provisions of the notes and the indenture. It does not restate those documents in their entirety. We urge you to read those documents because they, and not this description, define your rights as holders of the notes. Copies of the indenture are available as set forth below under Available Information. Certain defined terms used in this description but not defined below under Certain Definitions have the meanings assigned to them in the indenture.

The registered holder of a note is treated as the owner of it for all purposes. Only registered holders have rights under the indenture.

#### **Brief Description of Notes**

The notes:

- will be general unsecured obligations of REI;
- will be pari passu in right of payment with all existing and future unsecured senior Indebtedness of REI;
- will be effectively subordinated in right of payment to all secured Indebtedness of REI to the extent of the value of the assets securing such Indebtedness;
- will not be guaranteed by any of REI s Subsidiaries and will, therefore, be effectively subordinated to all Indebtedness and other liabilities (including trade payables) of REI s Subsidiaries; and
- will be senior in right of payment to all current and future subordinated Indebtedness of REI.

See Risk Factors Risks Related to the Offering In the event of a bankruptcy or insolvency, holders of our secured indebtedness and other secured obligations will have a prior secured claim to any collateral securing such indebtedness or other obligations, Risk Factors Risks Related to the Offering The notes are effectively junior to the indebtedness and other liabilities of our subsidiaries, which are not providing guarantees for the notes and Risk Factors Risks Related to the Offerings We are primarily a holding company. Our only material source of cash is and will be distributions from our subsidiaries, and the notes are effectively subordinated to the claims of our subsidiaries.

#### Principal, Maturity and Interest

REI will issue \$575 million in aggregate principal amount of the 2014 notes and \$725 million in aggregate principal amount of the 2017 notes in this offering. REI may issue additional notes from time to time after this offering, and such additional notes may be issued either under the supplemental indenture or under one or more additional supplemental indentures. In the case of each series of notes offered hereby, the notes of that series issued in this offering and any additional notes of the same series subsequently issued under the same supplemental indenture will be treated as a single class for all purposes under the supplemental indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. REI will issue notes in denominations of \$2,000 and integral multiples of \$1,000. The 2014 notes will mature on June 15, 2014, and the 2017 notes will mature on June 15, 2017.

Interest on the 2014 notes will accrue at the rate of 7.625% per annum, and will be payable semi-annually in arrears on June 15 and December 15 of each year, commencing on December 15, 2007. Interest on the 2017 notes will accrue at the rate of 7.875% per annum, and will be payable semi-annually in arrears on June 15 and December 15 of each year, commencing on December 15, 2007. REI will make each interest payment to the holders of record of the 2014 notes on the immediately preceding June 1 and December 1. REI will make each interest payment to the holders of record on the 2017 notes on the immediately preceding June 1 and December 1.

Interest on the notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest on the notes will be computed on the basis of a 360-day year comprised of twelve 30-day months. If any interest payment date with respect to the notes falls on a day that is not a business day, the related payment of interest will be made on the next succeeding business day as if made on the day the payment was due.

#### Methods of Receiving Payments on the Notes

If a holder of notes has given wire transfer instructions to REI, REI will pay or cause to be paid all principal, interest and premium on that holder s notes in accordance with those instructions. All other payments on notes will be made at the office or agency of the paying agent and registrar within the City and State of New York unless REI elects to make interest payments by check mailed to the noteholders at their address set forth in the register of holders.

### Paying Agent and Registrar for the Notes

The trustee will initially act as paying agent and registrar. REI may change the paying agent or registrar without prior notice to the holders of the notes, and REI or any of its Subsidiaries may act as paying agent or registrar.

## **Transfer and Exchange**

A holder may transfer or exchange notes in accordance with the provisions of the indenture. The registrar and the trustee may require a holder, among other things, to furnish appropriate endorsements and transfer documents in connection with a transfer of notes. Holders will be required to pay all taxes due on transfer. REI is not required to transfer or exchange any note selected for redemption. Also, REI is not required to transfer or exchange any note for a period of 15 days before a selection of notes to be redeemed.

### **Optional Redemption**

REI may on any one or more occasions redeem all or a part of either or both series of notes, upon not less than 30 nor more than 60 days prior notice, at a redemption price equal to 100% of the

principal amount of the notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest if any, to the redemption date, subject to the rights of holders of applicable notes on the relevant record date to receive interest due on the relevant interest payment date.

Except pursuant to the preceding paragraph, neither the 2014 nor the 2017 notes will be redeemable at REI s option prior to their maturity. REI is not prohibited, however, from acquiring either 2014 notes or 2017 notes in market transactions by means other than a redemption, whether pursuant to a tender offer or otherwise.

#### **Mandatory Redemption**

REI is not required to make mandatory redemption or sinking fund payments with respect to the notes.

#### Offer to Repurchase Upon Change of Control

If a Change of Control occurs, each holder of notes will have the right to require REI to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000) of that holder s notes pursuant to a Change of Control Offer on the terms set forth in the indenture. In the Change of Control Offer, REI will offer a Change of Control Payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest on the notes repurchased, to the date of purchase, subject to the rights of noteholders on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, REI will mail a notice to each holder describing the transaction or transactions that constitute the Change of Control and offering to repurchase notes on the Change of Control Payment Date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed, pursuant to the procedures required by the indenture and described in such notice. REI will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the indenture, REI will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the indenture by virtue of such compliance.

On the Change of Control Payment Date, REI will, to the extent lawful:

- (1) accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and
- (3) deliver or cause to be delivered to the trustee the notes properly accepted together with an officers certificate stating the aggregate principal amount of notes or portions of notes being purchased by REI.

The paying agent will promptly mail to each holder of notes properly tendered the Change of Control Payment for such notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each holder a new note equal in principal amount to any unpurchased portion of the notes surrendered, if any; *provided* that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000. REI will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

The provisions described above that require REI to make a Change of Control Offer following a Change of Control will be applicable whether or not any other provisions of the indenture are applicable.

Except as described above with respect to a Change of Control, the indenture does not contain provisions that permit the holders of the notes to require that REI repurchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

REI will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by REI and purchases all notes properly tendered and not withdrawn under the Change of Control Offer, or (2) notice of redemption has been given pursuant to the indenture as described above under the caption 
Optional Redemption, unless and until there is a default in payment of the applicable redemption price. A Change in Control Offer may be made in advance of a Change of Control, with the obligation to pay and the timing of payment conditioned upon the consummation of the Change of Control, if a definitive agreement to effect a Change of Control is in place at the time of the Change of Control Offer.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the properties or assets of REI and its Subsidiaries taken as a whole. There is a limited body of case law interpreting the phrase substantially all, and there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require REI to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of REI and its Subsidiaries taken as a whole to another Person or group may be uncertain.

#### **Selection and Notice**

If less than all of the notes of any series are to be redeemed at any time, the trustee will select notes of that series for redemption on a pro rata basis unless otherwise required by law or applicable stock exchange requirements.

No notes of \$2,000 or less can be redeemed in part. Notices of redemption will be mailed by first class mail at least 30 but not more than 60 days before the redemption date to each holder of notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the indenture. Notices of redemption may not be conditional.

If any note is to be redeemed in part only, the notice of redemption that relates to that note will state the portion of the principal amount of that note that is to be redeemed. A new note in principal amount equal to the unredeemed portion of the original note will be issued in the name of the holder of notes upon cancellation of the original note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on notes or portions of them called for redemption.

## **Certain Covenants**

#### Liens

REI will not, and will not permit any of its Subsidiaries to, create or permit to exist any Lien upon any property or assets at any time owned by REI or any of its Subsidiaries to secure any indebtedness for money borrowed (which in no event shall include any capital leases or operating leases) that is incurred, issued, assumed or guaranteed by REI or any of its Subsidiaries ( Indebtedness ), without providing for the notes to be equally and ratably secured with (or prior to) any and all such

Indebtedness and any other Indebtedness similarly entitled to be equally and ratably secured, for so long as such Indebtedness is so secured; *provided, however*, that this restriction will not apply to, or prevent the creation or existence of:

- (1) Existing Liens;
- (2) purchase money Liens securing Indebtedness having a principal amount that does not exceed the cost or value of the purchased property;
- (3) Liens in favor of REI or its Subsidiaries;
- (4) other Liens securing Indebtedness having an aggregate principal amount, measured as of the date of creation of any such Lien and the date of incurrence of any such Indebtedness, not to exceed 15% of REI s Consolidated Net Tangible Assets; and
- (5) Refinancing Liens.

If REI or any of its Subsidiaries proposes to create or permit to exist a Lien on any property or assets at any time owned by REI or any of its Subsidiaries to secure any Indebtedness, other than as permitted by clauses (1) through (5) of the previous paragraph, REI will give prior written notice thereof to the trustee, who will give notice to the holders of notes, and REI will further agree, prior to or simultaneously with the creation of such Lien, effectively to secure all the notes equally and ratably with (or prior to) such other Indebtedness for so long as such other Indebtedness is so secured.

## Merger, Consolidation or Sale of Assets

REI may not, directly or indirectly: (1) consolidate or merge with or into another Person (whether or not REI is the surviving corporation); or (2) sell, assign, transfer, convey or otherwise dispose of all or substantially all of the properties or assets of REI and its Subsidiaries taken as a whole, in one or more related transactions, to another Person; unless:

- (1) either: (a) REI is the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if other than REI) or to which such sale, assignment, transfer, conveyance or other disposition has been made is a corporation, partnership or limited liability company organized or existing under the laws of the United States, any state of the United States or the District of Columbia; *provided* that if the Person is a partnership or limited liability company, then a corporation wholly-owned by such Person organized or existing under the laws of the United States, any state of the United States or the District of Columbia that does not and will not have any material assets or operations shall become a co-issuer of the notes pursuant to supplemental indentures duly executed by the trustee; and
- (2) the Person formed by or surviving any such consolidation or merger (if other than REI) or the Person to which such sale, assignment, transfer, conveyance or other disposition has been made assumes all the obligations of REI under the notes and the indenture pursuant to supplemental indentures or other documents and agreements reasonably satisfactory to the trustee.

In addition, REI may not, directly or indirectly, lease all or substantially all of its properties or assets, in one or more related transactions, to any other Person.

This Merger, Consolidation or Sale of Assets covenant will not apply to:

- (1) a merger of REI with an Affiliate solely for the purpose of reincorporating REI in another jurisdiction or forming a direct holding company of REI; or
- (2) any consolidation or merger, or any sale, assignment, transfer, conveyance, lease or other disposition of assets between or among REI and its Subsidiaries.

## Reports

Whether or not required by the Commission s rules and regulations, so long as any notes are outstanding, REI will furnish to the holders of notes or cause the trustee to furnish to the holders of notes:

- (1) within 90 days of the end of each fiscal year and within 45 days of the end of each fiscal quarter, all annual and quarterly reports that would be required to be filed with the Commission on Forms 10-K and 10-Q if REI were required to file such reports; and
- (2) within the time periods specified in the commission s rules and regulations that would be applicable if REI were subject to such rules and regulations, all current reports that would be required to be filed with the Commission on Form 8-K if REI were required to file such reports.

All such reports will be prepared, within the time periods specified above, in all material respects in accordance with all of the rules and regulations applicable to such reports. Each annual report on Form 10-K will include a report on REI s consolidated financial statements by REI s independent registered public accounting firm. In addition, REI will file a copy of each of the reports referred to in clauses (1) and (2) above with the Commission for public availability within the time periods specified in clauses (1) and (2) above (unless the Commission will not accept such a filing). To the extent such filings are made, the reports will be deemed to be furnished to the trustee and holders of notes on the date filed.

If REI is no longer subject to the periodic reporting requirements of the Exchange Act for any reason, REI will nevertheless continue filing the reports specified in the preceding paragraph with the Commission within the time periods specified above unless the Commission will not accept such a filing. REI agrees that it will not take any action for the purpose of causing the Commission not to accept any such filings. If, notwithstanding the foregoing, the Commission will not accept REI s filings for any reason, REI will post the reports referred to in the preceding paragraph on its website within the time periods specified above.

#### **Events of Default and Remedies**

With respect to each series of notes, each of the following is an Event of Default:

- (1) default for 30 days in the payment when due of interest on the applicable notes;
- (2) default in payment when due of the principal of, or premium, if any, on the applicable notes;
- (3) failure by REI or any of its Subsidiaries for 90 days after notice from the trustee or the holders of at least 25% in aggregate principal amount of the outstanding notes of the applicable series to comply with any of the other agreements in the indenture or any security documents required by the Indenture;
- (4) the acceleration of the maturity of any Indebtedness for money borrowed (other than the notes) of REI or any of its Significant Subsidiaries (other than an Excluded Project Subsidiary or Channelview and its Subsidiaries) having an aggregate principal amount outstanding in excess of 5% of REI s Consolidated Net Tangible Assets, if such acceleration is not rescinded or annulled, or such indebtedness shall not have been discharged, within 15 days after the date of such acceleration; or
- (5) failure by REI or any of its Significant Subsidiaries to pay final and non-appealable judgments aggregating in excess of 5% of REI s Consolidated Net Tangible Assets, which judgments are not covered by indemnities or third-party insurance, which judgments are not paid, discharged, vacated or stayed for a period of 90 days; and

(6) certain events of bankruptcy or insolvency described in the indenture with respect to REI.

In the case of an Event of Default arising from certain events of bankruptcy or insolvency with respect to REI, all notes that are outstanding will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing with respect to either series of notes, the trustee or the holders of at least 25% in principal amount of the outstanding notes of that series may declare all of the notes of that series to be due and payable immediately.

Subject to certain limitations, holders of a majority in principal amount of the outstanding notes of either series may direct the trustee in its exercise of any trust or power. The trustee may withhold from holders of notes notice of any continuing Default or Event of Default if it determines that withholding notice is in their interest, except a Default or Event of Default relating to the payment of principal or interest.

Subject to the provisions of the indenture relating to the duties of the trustee, in case an Event of Default occurs and is continuing under the indenture, the trustee will be under no obligation to exercise any of the rights or powers under the indenture at the request or direction of any holders of the notes unless such holders have offered to the trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no holder of a note may pursue any remedy with respect to the indenture or the notes unless:

- (1) such holder has previously given the trustee notice that an Event of Default is continuing;
- (2) holders of at least 25% in aggregate principal amount of the outstanding notes of the applicable series have requested the trustee to pursue the remedy;
- (3) such holders have offered the trustee reasonable security or indemnity against any loss, liability or expense;
- (4) the trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) holders of a majority in aggregate principal amount of the outstanding notes of that series have not given the trustee a direction inconsistent with such request within such 60-day period.

The holders of a majority in aggregate principal amount of the outstanding notes of either series may, by notice to the trustee, rescind an acceleration or waive any existing Default or Event of Default (with respect to that series of notes) and its consequences under the indenture except a continuing Default or Event of Default in the payment of interest on, or the principal of, any notes.

REI is required to deliver to the trustee annually a statement regarding compliance with the indenture. Upon becoming aware of any Default or Event of Default, REI is required to deliver to the trustee a statement specifying such Default or Event of Default.

## No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of REI will have any liability for any obligations of REI under the notes or the indenture, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of notes by accepting a note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes. The waiver may not be effective to waive liabilities under the federal securities laws.

## **Legal Defeasance and Covenant Defeasance**

REI may, at its option and at any time, elect to have all of its obligations discharged with respect to either or both series of outstanding notes ( *Legal Defeasance* ) except for:

- (1) the rights of holders of notes that are then outstanding to receive payments in respect of the principal of, or interest or premium on the notes when such payments are due from the trust referred to below;
- (2) REI s obligations with respect to the notes concerning issuing temporary notes, registration of notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the trustee for the notes, and REI s obligations in connection therewith; and
- (4) the Legal Defeasance and Covenant Defeasance provisions of the indenture for the notes.

In addition, REI may, at its option and at any time, elect to have the obligations of REI with respect to either or both series of outstanding notes released with respect to certain covenants (including its obligation to make Change of Control Offers) that are described in the indenture ( *Covenant Defeasance* ) and thereafter any omission to comply with those covenants will not constitute a Default or Event of Default with respect to that series of notes. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, rehabilitation and insolvency events) described under 

Events of Default and Remedies will no longer constitute an Event of Default with respect to that series of notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

- (1) REI must irrevocably deposit with the trustee, in trust, for the benefit of the holders of all notes of the applicable series subject to Legal Defeasance or Covenant Defeasance, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in amounts as will be sufficient, in the opinion of a nationally recognized investment bank, appraisal firm or firm of independent public accountants to pay the principal of, or interest and premium on such notes that are then outstanding on the Stated Maturity or on the applicable redemption date, as the case may be, and REI must specify whether such notes are being defeased to maturity or to a particular redemption date;
- (2) in the case of Legal Defeasance, REI must deliver to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that (a) REI has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since the date of the supplemental indenture, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel will confirm that, the holders of the then outstanding notes of the applicable series will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;
- (3) in the case of Covenant Defeasance, REI must deliver to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that the holders of the then outstanding notes of the applicable series will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

- (4) no Default or Event of Default with respect to the applicable series of notes must have occurred and be continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit);
- (5) such Legal Defeasance or Covenant Defeasance may not result in a breach or violation of, or constitute a default under any material agreement or instrument (other than the indenture) to which REI or any of its Subsidiaries is a party or by which REI or any of its Subsidiaries is bound:
- (6) REI must deliver to the trustee an officers certificate stating that the deposit was not made by REI with the intent of preferring the holders of notes over the other creditors of REI with the intent of defeating, hindering, delaying or defrauding creditors of REI or others; and
- (7) REI must deliver to the trustee an officers certificate and an opinion of counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

## Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the 2014 notes or the 2017 notes and the provisions of the indenture relating to each series of notes may be amended or supplemented with the consent of the holders of at least a majority in principal amount of the then outstanding notes of that series (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, the notes), and any existing default or compliance with any provision of the notes or the indenture may be waived as to either series of notes with the consent of the holders of a majority in principal amount of the then outstanding notes of that series (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, the notes).

With respect to each series of notes, without the consent of each holder of notes affected, an amendment, supplement or waiver may not (with respect to any such notes held by a non-consenting holder):

- (1) reduce the principal amount of such notes whose holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed maturity of any such note;
- (3) reduce the rate of or change the time for payment of interest on any such note;
- (4) waive a Default or Event of Default in the payment of principal of, or interest or premium on such notes (except a rescission of acceleration of such notes by the holders of at least a majority in aggregate principal amount of such notes and a waiver of the payment default that resulted from such acceleration);
- (5) make any such note payable in currency other than that stated in such notes;
- (6) make any change in the provisions of the indenture relating to waivers of past Defaults or the rights of holders of such notes to receive payments of principal of, or interest or premium on such notes; or
- (7) make any change in the preceding amendment and waiver provisions.

Notwithstanding the preceding, without the consent of any holder of notes, REI and the trustee may amend or supplement the indenture or the notes:

- (1) to cure any ambiguity, defect or inconsistency;
- (2) to provide for uncertificated notes in addition to or in place of certificated notes;
- (3) to provide for the assumption of REI s obligations to holders of notes in the case of a merger or consolidation or sale of all or substantially all of REI s assets;
- (4) to make any change that would provide any additional rights or benefits to the holders of notes or that does not adversely affect the legal rights under the indenture of any such holder;
- (5) to comply with requirements of the Commission in order to effect or maintain the qualification of the indenture under the Trust Indenture Act;
- (6) to conform the text of the indenture or the notes to any provision of this Description of Notes to the extent that such provision in this Description of Notes was intended to be a verbatim recitation of a provision of the indenture or the notes outstanding thereunder;
- (7) to evidence and provide for the acceptance and appointment under the indenture of successor trustees pursuant to the requirements thereof; or
- (8) to provide for the issuance of additional notes of the same or an additional series in accordance with the limitations set forth in the indenture as of the date hereof.

#### Satisfaction and Discharge

The indenture will be discharged and will cease to be of further effect as to all notes of any particular series issued thereunder, when:

- (1) either:
- (a) all notes of that series that have been authenticated, except lost, stolen or destroyed notes that have been replaced or paid and notes for whose payment money has been deposited in trust and thereafter repaid to REI, have been delivered to the trustee for cancellation; or
- (b) all notes of that series that have not been delivered to the trustee for cancellation have become due and payable by reason of the mailing of a notice of redemption or otherwise or will become due and payable within one year and REI has irrevocably deposited or caused to be deposited with the trustee as trust funds in trust solely for the benefit of the holders of notes, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in amounts as will be sufficient, without consideration of any reinvestment of interest, to pay and discharge the entire Indebtedness on the notes of that series not delivered to the trustee for cancellation for principal, premium and accrued interest to the date of maturity or redemption;
- (2) no Default or Event of Default under the indenture has occurred and is continuing with respect to that series of notes on the date of the deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit) and the deposit will not result in a breach or violation of, or constitute a default under, any other instrument to which REI is a party or by which REI is bound;
- (3) REI has paid or caused to be paid all sums payable by it under the indenture with respect to all notes of that series; and

(4) REI has delivered irrevocable instructions to the trustee under the indenture to apply the deposited money toward the payment of the notes of that series at maturity or the redemption date, as the case may be.

In addition, REI must deliver an officers certificate and an opinion of counsel to the trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

#### **Concerning the Trustee**

If the trustee becomes a creditor of REI, the indenture limits its right to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The trustee will be permitted to engage in other transactions; *however*, if the trustee acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the Commission for permission to continue (if such indenture has been qualified under the Trust Indenture Act) or resign.

The holders of a majority in principal amount of the outstanding notes of either series will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy with respect to that series of notes available to the trustee, subject to certain exceptions. The indenture provides that in case an Event of Default occurs and is continuing, the trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of its own affairs. Subject to such provisions, the trustee will not be under any obligation to exercise any of its rights or powers under the indenture at the request of any holder of notes, unless such holder has offered to the trustee security and indemnity satisfactory to it against any loss, liability or expense.

#### **Available Information**

Anyone who receives this prospectus supplement and the accompanying prospectus may obtain a copy of the base indenture and the supplemental indenture without charge by writing to Reliant Energy, Inc., 1000 Main Street, Houston, Texas 77002, Attention: Chief Financial Officer.

#### **Book-Entry, Delivery and Form**

The notes will be represented by global notes in registered, global form (collectively, the Global Notes ). Except as set forth below, notes will be issued in registered, global form in minimum denominations of \$2,000 and integral multiples of \$1,000. Notes will be issued at the closing of this offering only against payment in immediately available funds. The Global Notes will be deposited upon issuance with the trustee as custodian for The Depository Trust Company ( DTC ), in New York, New York, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for notes in certificated form except in the limited circumstances described below. See Exchange of Global Notes for Certificated Notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of notes in certificated form.

Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change from time to time.

## **Depository Procedures**

The following description of the operations and procedures of DTC are provided solely as a matter of convenience. These operations and procedures are solely within the control of the

respective settlement systems and are subject to change by them. REI takes no responsibility for these operations and procedures and urges investors to contact the system or their participants directly to discuss these matters.

DTC has advised REI that DTC is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the Participants ) and to facilitate the clearance and settlement of transactions in those securities between Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the Underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the Indirect Participants ). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised REI that, pursuant to procedures established by it:

- (1) upon deposit of the Global Notes, DTC will credit the accounts of Participants designated by the Underwriters with portions of the principal amount of the Global Notes; and
- (2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interest in the Global Notes).

Investors in the Global Notes who are Participants in DTC s system may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations which are Participants in such system. All interests in a Global Note may be subject to the procedures and requirements of DTC. The laws of some states require that certain Persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such Persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants, the ability of a Person having beneficial interests in a Global Note to pledge such interests to Persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interest in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or Holders thereof under the indenture for any purpose.

Payments in respect of the principal of, and interest and premium on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the indenture. Under the terms of the indenture, REI and the trustee will treat the Persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither REI, the trustee nor any agent of REI or the trustee has or will have any responsibility or liability for:

(1) ar	ny aspect of DTC	s records or any Participant	s or Indirect Participant	s records relating	to or payments made on	account of beneficial
owner	ship interest in the	e Global Notes or for maintain	ning, supervising or revie	ewing any of DTC	s records or any Particip	ant s or Indirect
Partici	pant s records rel	lating to the beneficial owner	ship interests in the Glob	al Notes; or		

(2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised REI that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the trustee or REI. Neither REI nor the trustee will be liable for any delay by DTC or any of its Participants in identifying the beneficial owners of the notes, and REI and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between Participants in DTC will be effected in accordance with DTC s procedures, and will be settled in same-day funds.

DTC has advised REI that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the notes, DTC reserves the right to exchange the Global Notes for legended notes in certificated form, and to distribute such notes to its Participants.

Although DTC has agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes among Participants in DTC, DTC is under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither REI nor the trustee nor any of their respective agents will have any responsibility for the performance by DTC or its Participants or Indirect Participants of their respective obligations under the rules and procedures governing their operations.

## **Exchange of Global Notes for Certificated Notes**

All Global Notes are exchangeable for definitive notes in registered certificated form ( Certificated Notes ) if:

- (1) DTC (A) notifies REI that it is unwilling or unable to continue as depositary for the Global Notes or (B) has ceased to be a clearing agency registered under the Exchange Act and, in either case, REI fails to appoint a successor depositary;
- (2) REI, at its option, notifies the trustee in writing that it elects to cause the issuance of the Certificated Notes; or
- (3) there has occurred and is continuing a Default or Event of Default with respect to the notes.

In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depositary (in accordance with its customary procedures).

## Same Day Settlement and Payment

REI will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, interest) by wire transfer of immediately available funds to the accounts specified by the Global Note holder. REI will make all payments of principal, interest and premium

with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder s registered address. The notes represented by the Global Notes are expected to be eligible to trade in DTC s Same Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. REI expects that secondary trading in any Certificated Notes will also be settled in immediately available funds.

#### **Certain Definitions**

Set forth below are certain defined terms used in the indenture. Reference is made to the indenture for a full disclosure of all such terms, as well as any other capitalized terms used herein for which no definition is provided.

Affiliate of any specified Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For purposes of this definition, control, as used with respect to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise; provided that a Person will be deemed to be an Affiliate if REI has knowledge that such Person beneficially owns 10% or more of the Voting Stock of REI; provided, further, that REI will only be deemed to have knowledge of any Person beneficially owning 10% or more of REI s Voting Stock if such Person has filed a statement of beneficial ownership pursuant to Sections 13(d) or 13(g) of the Exchange Act or has provided written notice thereof to REI. For purposes of this definition, the terms controlling, controlled by and under common control with have correlative meanings.

Applicable Premium means:

- (1) with respect to any 2014 note on any redemption date, the greater of:
- (a) 1.0% of the principal amount of such 2014 note; or
- (b) the excess of:
- 1. the present value at such redemption date of (i) the payment of principal on the maturity date of the 2014 notes *plus* (ii) all required interest payments due on the 2014 note through the maturity thereof (excluding accrued but unpaid interest to the redemption date), computed using a discount rate equal to the Applicable Treasury Rate as of such redemption date plus 50 basis points; over
- 2. the principal amount of the 2014 note; and
- (2) with respect to any 2017 note on any redemption date, the greater of:
- (a) 1.0% of the principal amount of such 2017 note; or
- (b) the excess of:
- 1. the present value at such redemption date of (i) the payment of principal on the maturity date of the 2017 notes *plus* (ii) all required interest payments due on the 2017 note through the maturity thereof (excluding accrued but unpaid interest to the redemption date), computed using a discount rate equal to the Applicable Treasury Rate as of such redemption date plus 50 basis points; over
- 2. the principal amount of the 2017 note.

Applicable Treasury Rate means, as of any redemption date for any series of notes, the yield to maturity as of such redemption date of United States Treasury securities with a constant maturity (as

compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) that has become publicly available at least two business days prior to the redemption date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from the redemption date to the maturity date of the applicable series of notes; *provided*, *however*, that if the period from the redemption date to the maturity date of the applicable series of notes is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used.

Beneficial Owner has the meaning assigned to such term in Rule 13d-3 and Rule 13d-5 under the Exchange Act. The terms Beneficially Owns and Beneficially Owned have a corresponding meaning.

Board of Directors means:

- (1) with respect to a corporation, the board of directors of the corporation or any committee thereof duly authorized to act on behalf of such board:
- (2) with respect to a partnership, the Board of Directors of the general partner of the partnership;
- (3) with respect to a limited liability company, the managing member or members or any controlling committee of managing members thereof; and
- (4) with respect to any other Person, the board or committee of such Person serving a similar function.

Capital Stock means:

- (1) in the case of a corporation, corporate stock;
- (2) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock;
- (3) in the case of a partnership or limited liability company, partnership interests (whether general or limited) or membership interests; and

any other interest or participation that confers on a Person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing Person, but excluding from all of the foregoing any debt securities convertible into Capital Stock, whether or not such debt securities include any right of participation with Capital Stock.

Change of Control means the occurrence of any of the following:

- (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of REI and its Subsidiaries taken as a whole to any person (as that term is used in Section 13(d) of the Exchange Act, but excluding any employee benefit plan of REI, and any person or entity acting in its capacity as trustee, agent or other fiduciary or administrator of such plan);
- (2) the adoption of a plan relating to the liquidation or dissolution of REI;
- (3) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person (as defined above) becomes the Beneficial Owner, directly or indirectly, of more than 50% of the Voting Stock of REI, measured by voting power rather than number of shares;
- (4) the first day on which a majority of the members of the Board of Directors of REI are not Continuing Directors; or

(5) REI consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, REI, in any such event pursuant to a transaction in which any of the outstanding Voting Stock of REI is converted into or exchanged for cash, securities or other property, other than any such transaction where the Voting Stock of REI outstanding immediately prior to such transaction is converted into or exchanged for Voting Stock (other than Disqualified Stock) of the surviving or transferee Person constituting a majority of the outstanding shares of such Voting Stock of such surviving or transferee Person (immediately after giving effect to such issuance).

Change of Control Offer has the meaning assigned to it in the indenture governing the notes.

Change of Control Payment has the meaning assigned to it in the indenture governing the notes.

Change of Control Payment Date has the meaning assigned to it in the indenture governing the notes.

Channelview means Reliant Energy Channelview, L.P.

Commission means the U.S. Securities and Exchange Commission.

Consolidated Net Tangible Assets means, as of any date of determination, the total amount of all assets of REI and its Subsidiaries, determined on a consolidated basis in accordance with GAAP, as of the end of the most recent fiscal quarter for which REI s financial statements are available, less the sum of:

- (1) REI s consolidated current liabilities as of such quarter end, determined on a consolidated basis in accordance with GAAP; and
- (2) REI s consolidated assets that are properly classified as intangible assets as of such quarter end, determined on a consolidated basis in accordance with GAAP.

Continuing Director means, as of any date of determination, any member of the Board of Directors of REI who:

- (1) was a member of such Board of Directors on the date of the supplemental indenture; or
- (2) was nominated for election or elected to such Board of Directors with the approval of a majority of the Continuing Directors who were members of such Board at the time of such nomination or election.

Credit Agreement means the credit agreement, dated as of the date of the supplemental indenture, among REI, as Borrower, the subsidiary guarantors party thereto. Deutsche Bank AG, New York Branch, as administrative agent, and the lenders party thereto.

Default means any event that is, or with the passage of time or the giving of notice or both would be, an Event of Default.

Disqualified Stock means any Capital Stock that, by its terms (or by the terms of any security into which it is convertible, or for which it is exchangeable, in each case at the option of the holder of the Capital Stock), or upon the happening of any event, matures or is mandatorily redeemable, pursuant to a sinking fund obligation or otherwise, or redeemable at the option of the holder of the Capital Stock, in whole or in part, on or prior to the date that is 91 days after the date on which the notes mature (other than pursuant to a change of control provision substantially similar to that described under the caption Offer to Repurchase Upon Change of Control ).

Excluded Project Subsidiary means any Subsidiary of REI whose principal purpose is the construction, acquisition or operation of a project and whose debt is without recourse or liability to REI

or any of its other Subsidiaries (except (i) recourse against another Excluded Project Subsidiary, including any direct or indirect parent entity of any Excluded Project Subsidiary substantially all the assets of which consist of the equity of one or more Excluded Project Subsidiaries and (ii) recourse against the equity of an Excluded Project Subsidiary pledged by REI or any of its Subsidiaries to secure the debt of such Excluded Project Subsidiary or any Subsidiary of such Excluded Project Subsidiary).

Exchange Act means the Securities Exchange Act of 1934, as amended, or any successor statute or statutes thereto.

Existing Liens means Liens on the property or assets of REI or any of its Subsidiaries existing on the date of the supplemental indenture securing Indebtedness outstanding or committed to be funded on that date (including, but not limited to, (i) Indebtedness outstanding or committed to be funded under the Credit Agreement, (ii) PEDFA Bond Indebtedness and (iii) Indebtedness under the Retail Working Capital Facility).

*GAAP* means generally accepted accounting principles set forth in the opinions and pronouncements of the Accounting Principles Board of the American Institute of Certified Public Accountants and statements and pronouncements of the Financial Accounting Standards Board or in such other statements by such other entity as have been approved by a significant segment of the accounting profession, which are in effect from time to time.

Government Securities means direct obligations of, or obligations guaranteed by, the United States of America (including any agency or instrumentality thereof) for the payment of which obligations or guarantees the full faith and credit of the United States of America is pledged and which are not callable or redeemable at the issuer s option.

Indebtedness has the meaning described above under the caption Liens.

*Lien* means, with respect to any property or asset, any mortgage, deed of trust, deed to secure debt, lien, pledge, hypothecation, encumbrance, restriction, collateral assignment, charge or security interest in, on or of such property or asset.

*PEDFA Bond Indebtedness* means Indebtedness outstanding on the date of the supplemental indenture incurred by REI or guaranteed by REI in tax-exempt industrial development bond financings, the proceeds of which were used to finance the development, construction or acquisition of the 520 MW coal facility and related assets owned by Reliant Energy Seward LLC and located in New Florence, Indiana County, Pennsylvania.

*Person* means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, limited liability company or government or other entity.

Refinancing Liens means Liens granted in connection with extending, renewing, replacing or refinancing in whole or in part any Indebtedness secured by Liens described in clauses (1) through (4) of the covenant described above under the caption Liens; provided that Refinancing Liens do not (i) extend to property or assets other than property or assets of the type that were subject to the original Lien or (ii) secure Indebtedness having a principal amount in excess of the amount of Indebtedness being extended, renewed, replaced or refinanced.

Retail Working Capital Agreement means the Working Capital Facility, dated as of September 24, 2006, among RERH Holdings, LLC and its subsidiaries and Merrill Lynch & Co. Inc., as amended and restated as of the date hereof.

Securities Act means the Securities Act of 1933, as amended, or any successor statute or statutes thereto.

Significant Subsidiary means any Subsidiary that would be a significant subsidiary as defined in Article 1, Rule 1-02 of Regulation S-X, promulgated pursuant to the Securities Act as such Regulation is in effect on the date of the supplemental indenture; *provided* that clause (3) of such definition will be disregarded.

Stated Maturity means, with respect to any installment of interest or principal on any series of Indebtedness, the date on which the payment of interest or principal was scheduled to be paid in the documentation governing such Indebtedness as of the date of the supplemental indenture, and will not include any contingent obligations to repay, redeem or repurchase any such interest or principal prior to the date originally scheduled for the payment thereof.

Subsidiary means, with respect to any specified Person:

- (1) any corporation, association or other business entity of which more than 50% of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency and after giving effect to any voting agreement or stockholders—agreement that effectively transfers voting power) to vote in the election of directors, managers or trustees of the corporation, association or other business entity is at the time owned or controlled, directly or indirectly, by that Person or one or more of the other Subsidiaries of that Person (or a combination thereof); and
- (2) any partnership (a) the sole general partner or the managing general partner of which is such Person or a Subsidiary of such Person or (b) the only general partners of which are that Person or one or more Subsidiaries of that Person (or any combination thereof).

Trust Indenture Act means the Trust Indenture Act of 1939, as amended (15 U.S.C.§§ 77aaa-777bbbb).

*Voting Stock* of any Person as of any date means the Capital Stock of such Person that is at the time entitled to vote in the election of the Board of Directors of such Person.

# DESCRIPTION OF CERTAIN OTHER FINANCIAL OBLIGATIONS

## **Description of Refinanced Credit Facilities**

Senior Secured Revolver and Pre-funded Letter of Credit Facility. In connection with the offering of the notes hereby, we expect to repay our term loan and refinance our other existing credit facilities. Our revolving credit facility will bear interest at LIBOR plus 1.75% or a base rate plus 0.75%. Our revolving credit facility will provide for up to \$500 million of loans or letters of credit and our pre-funded letter of credit facility will provide for the issuance of up to \$250 million of letters of credit.

While the refinanced credit facilities will increase our flexibility to operate our business they will restrict, subject to exceptions, our ability to, among other actions, (a) encumber our assets, (b) enter into business combinations or divest our assets, (c) incur additional debt or engage in sale and leaseback transactions, (d) pay dividends or pay subordinated debt, (e) make investments or acquisitions, (f) enter into transactions with affiliates, (g) materially change our business, (h) repurchase our capital stock, or (i) utilize proceeds from asset sales. In addition, under the refinanced credit facilities we are required to achieve specified levels for the ratio of adjusted net secured debt to adjusted net earnings (loss) before interest expense, interest income, income taxes, depreciation and amortization (consolidated secured leverage ratio) when loans or letters of credit are outstanding under the revolving credit facility.

The revolving credit facility and pre-funded letter of credit facility will be (a) guaranteed by certain of our subsidiaries and (b) secured by the assets and stock of those subsidiaries, as well as the stock of RERH Holdings, LLC, REMA LLC and Orion Power Holdings.

## **Description of Credit-Enhanced Retail Structure**

In connection with the implementation of our credit-enhanced retail structure, on December 1, 2006, we entered into an amended and restated credit sleeve and reimbursement agreement, or the retail agreement, and a \$300 million working capital facility providing for revolving credit loans with Merrill Lynch Commodities, Inc. and affiliates, Merrill Lynch. The retail agreement substantially eliminated collateral postings for our Texas retail energy business.

Under the retail agreement, Merrill Lynch provides guarantees and the posting of collateral to our counterparties in supply transactions for our Texas retail energy business. Cash flow activity in connection with these contracts and related collateral is classified as operating cash flow.

We paid Merrill Lynch a one-time structuring fee of \$13 million, which was expensed as general and administrative costs. We also pay a fee to Merrill Lynch of \$0.40 for each MWh of power that we deliver to our Texas retail customers. This fee is classified as interest expense. We are obligated to reimburse Merrill Lynch to the extent that any guarantees are called upon or any collateral posted by Merrill Lynch is foreclosed upon.

The initial term of the retail agreement is five years. We are permitted to terminate at any time, subject to a make-whole payment during the first two years of the retail agreement. Merrill Lynch does not have an early termination option. The retail agreement (a) restricts the ability of RERH Holdings to, among other actions, (i) encumber its assets, (ii) sell certain assets, (iii) incur additional debt, (iv) pay dividends or pay subordinated debt, (v) make investments or acquisitions or (vi) enter into transactions with affiliates and (b) requires us to manage our risks related to commodity prices.

As of March 31, 2007, no amount was outstanding under the working capital facility. Loans under the working capital facility bear interest at LIBOR plus 0.45% or a base rate. Borrowings under this facility mature on the 90th day after the termination of the retail agreement. The working capital facility includes a \$150 million minimum adjusted EBITDA requirement for RERH Holdings for each trailing

four-quarter period. The covenants under the retail agreement also apply to the working capital facility.

In connection with the retail agreement, we implemented a structure so that the entities comprising our Texas retail energy business became subsidiaries of RERH Holdings, LLC. Our obligations under the retail agreement and the working capital facility are secured by first liens on the assets of RERH Holdings. RERH Holdings, as well as our subsidiaries Reliant Energy Trademark Trust and Reliant Energy IT Trust that provide trademark assets and information technology services to our retail energy business, are designed to maintain the separate nature of their assets, avoid consolidation of such assets with the bankruptcy estate of Reliant Energy in the event Reliant Energy ever becomes subject to such a proceeding, and ensure that such assets are available first and foremost to satisfy their creditors—claims. The obligations of RERH Holdings under the retail agreement and the retail working capital facility are nonrecourse to Reliant Energy.

#### Tender Notes and 6.75% Notes

We have three series of senior secured notes outstanding: (a) \$550 million aggregate principal amount of the 2010 notes (issued in July 2003), (b) \$550 million aggregate principal amount of the 2013 notes (issued in July 2003) and (c) \$750 million aggregate principal amount of the 2014 notes (issued in December 2004). With certain limited exceptions, the collateral that secures our existing credit facilities secures the senior secured notes. The indentures governing the tender notes also contain covenants similar to those in our existing credit facilities.

On May 23, 2007, we commenced a tender offer to purchase for cash any and all outstanding 2010 notes and 2013 notes, or the tender notes, and solicited consents to amend the related indentures to eliminate substantially all the restrictive covenants and certain events of default and modify other provisions contained in such indentures. We have also solicited consents to the release of the security interests in the collateral securing the tender notes. As of 5:00 p.m., New York City time on June 5, 2007, the consent deadline, we received tenders and consents for \$516,125,000 in aggregate principal amount of the 2010 notes, representing 93.84% of the outstanding 2010 notes, and \$531,894,000 in aggregate principal amount of the 2013 notes, representing 96.71% of the outstanding 2013 notes. As a result of this release, any of the tender notes that remain outstanding after the consummation of the offers to purchase if the consent solicitations are not effected, will no longer be entitled to the benefit of the collateral that secures such notes. We intend to use the net proceeds from this offering to repurchase the tender notes tendered in the offers to purchase.

After completion of the offering of the notes, we also intend to address the restrictive covenants in the 6.75% notes. We are evaluating various alternatives, including the retirement of some or all of this debt with proceeds from potential asset sales.

# **Orion Power Holdings Senior Notes**

Orion Power Holdings has outstanding \$400 million aggregate principal amount of 12% senior notes due 2010. In connection with the Orion Power acquisition in 2002, we recorded the senior notes at an estimated fair value of \$479 million. The \$79 million premium is being amortized to interest expense using the effective interest rate method over the life of the senior notes. The fair value of the senior notes was based on our incremental borrowing rates for similar types of borrowing arrangements as of the acquisition date. The senior notes are senior unsecured obligations of Orion Power Holdings. Orion Power Holdings is not required to make any mandatory redemption or sinking fund payments with respect to the senior notes. The senior notes are not guaranteed by any of Orion Power Holdings subsidiaries and are non-recourse to us. The senior notes indenture contains covenants, which bind Orion Power Holdings and certain of its subsidiaries, that include, among others, restrictions on: the payment of dividends or payment of subordinated debt, the incurrence of

indebtedness and the issuance of preferred stock, investments, asset sales, liens, transactions with affiliates, engaging in unrelated businesses, and sale and leaseback transactions. As of March 31, 2007, conditions under these covenants were not met that allow the payment of dividends.

#### Reliant Energy Seward, LLC PEDFA Bonds

Reliant Energy Seward, LLC partially financed the construction of its power plant with proceeds from the issuance of tax-exempt revenue bonds by PEDFA. These bonds are guaranteed by Reliant Energy and the guarantee is secured by the same collateral as and has covenants similar to the tender notes.

After completion of the offering of the notes, we also intend to address the restrictive covenants in the PEDFA guarantees. We are evaluating various alternatives, including the retirement or defeasance of some or all of this debt with proceeds from potential asset sales.

## Reliant Energy Channelview, L.P.

Reliant Energy Channelview, L.P., or Channelview, entered into a credit agreement that financed the construction of a power plant. The credit agreement consisted of (a) \$369 million in term loans and (b) a \$14 million revolving working capital facility that matures in August 2007.

With the exception of a fixed-rate tranche (\$75 million), the loans bear a floating interest rate based either on LIBOR or base rates plus a margin that increases over time. The facility is secured by substantially all of the assets of Channelview and is non-recourse to Reliant Energy. The facility prohibits Channelview from taking certain actions, including paying dividends or paying subordinated debt unless, among other things, it maintains specified debt service coverage ratios and debt service account balances. As of March 31, 2007, the conditions under these covenants were not met, and we do not expect Channelview to satisfy these conditions in 2007.

We are considering various strategic alternatives with respect to our interest in Channelview, including a transfer of ownership to the lenders, selling our equity interests to a third party or placing Channelview in bankruptcy. There can be no assurances regarding the outcome of this process. As of March 31, 2007, Channelview s net property, plant and equipment is \$365 million and its debt is \$345 million. As of March 31, 2007, our net investment in the Channelview companies, before considering any income tax impacts, is approximately \$65 million. Under Channelview s credit agreement, the partnership is required to maintain a working capital requirement of \$14 million. This covenant is currently met by the commitments of the \$14 million revolving working capital facility that matures by August 15, 2007. The lenders have not agreed to extend the commitments and we do not know whether the working capital requirement will be met. Failure to maintain the working capital requirement would constitute an event of default allowing Channelview s lenders to demand immediate payment. Due to this, we have classified the Channelview debt as a current liability as of March 31, 2007.

#### UNDERWRITING

The company and the underwriters for the offering named below have entered into an underwriting agreement and a pricing agreement with respect to the notes. Subject to certain conditions, each underwriter has severally agreed to purchase the principal amount of notes indicated in the following table.

Underwriters	Principal Amount of 2014 Notes		Principal Amount of 2017 Notes	
Goldman, Sachs & Co.	\$	121,037,500	152,612,500	
Deutsche Bank Securities Inc.	\$	121,037,500	152,612,500	
J.P. Morgan Securities Inc.	\$	121,037,500	152,612,500	
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$	121,037,500	152,612,500	
ABN AMRO Incorporated	\$	45,425,000	57,275,000	
Bear, Stearns & Co. Inc.	\$	45,425,000	57,275,000	
Total	\$	575,000,000	725,000,000	

The underwriters are committed to take and pay for all of the notes being offered, if any are taken.

Notes sold by the underwriters to the public will initially be offered at the applicable initial public offering prices set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to 0.70% of the principal amount of notes. Any such securities dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price of up to 0.25% of the principal amount of notes. If all the notes are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms.

The notes are each a new issue of securities with no established trading market. The company has been advised by the underwriters that the underwriters intend to make a market in the notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters, as well as other purchases by the underwriters for their own accounts, may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that

Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of notes to the public in that Relevant Member State at any time:

- (a) to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts:
- (c) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of notes to the public in relation to any notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe the notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each underwriter has represented and agreed that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the notes in circumstances in which Section 21(1) of the FSMA would not, if the Issuer was not an authorised person, apply to the Issuer; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

The notes may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), or (ii) to professional investors within the meaning of the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a prospectus within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong), and no advertisement, invitation or document relating to the notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to notes which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

The securities have not been and will not be registered under the Securities and Exchange Law of Japan (the Securities and Exchange Law) and each underwriter has agreed that it will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which

term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the notes are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries rights and interest in th
