(Zip code)

Ronald E. Robison
522 Fifth Avenue New York, New York 10036
(Name and address of agent for service)

Registrant's telephone number, including area code: 1-800-231-2608

Date of fiscal year 12/31
end:

Date of reporting period: 6/30/08

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget (OMB) control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. Section 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

The Fund's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

2008 Semi-Annual Report

June 30, 2008

The Malaysia Fund, Inc. (MAY)

Morgan Stanley

Investment Management Inc.

Investment Adviser

The Malaysia Fund, Inc.

Overview (unaudited)

Letter to Stockholders

Performance

For the six months ended June 30, 2008, the Malaysia Fund, Inc. (the Fund) had total returns, based on net asset value and market value per share (including reinvestment of distributions), of -15.73%, net of fees and -15.48%, respectively, compared to its benchmark, the Kuala Lumpur Stock Exchange Composite (KLSE) Index (the Index) expressed in U.S. dollars which returned -16.89%. On June 30, 2008, the closing price of the Fund s shares on the New York Stock Exchange was \$9.17, representing a 10.4% discount to the Fund s net asset value per share. Past performance is no guarantee of future results.

Factors Affecting Performance

- The Malaysia market performed poorly in the first six months of 2008. High costs of living weighed on both consumer and business sentiment. The poor showing of the ruling coalition government in the general elections held on March 8 also had a negative impact on the markets. In addition, the ruling party losing its comfortable two-thirds majority and threats of potential defections of several coalition members led to concerns over the country s political stability.
- On the economic front, the government decided to delay various mega projects that were to take place in states now controlled by the opposition. This dampened sentiment, as government spending was a key driver for the economy. A sudden decision to cut the country s fuel subsidy further took its toll on consumer sentiment.

Managment Strategies

- The Fund benefited from an overweight position in palm oil stocks, which did well due to a strong increase in agricultural prices. The Fund also benefited from an underweight position in various government-linked companies, which underperformed due to disappointing earnings.
- Detractors from the Fund s performance included construction stocks, which were affected by the government s cut in public spending following the elections.

- The Fund seeks long-term capital appreciation and integrates top-down sector allocation and bottom-up stocks selection with a growth bias. The team utilizes a rigorous fundamental research approach that considers dynamics, valuation, and sentiment and focuses on companies with strong management and solid earnings.

Sincerely,

Ronald E. Robison
President and Principal Executive Officer

Investment Advisory Agreement Approval

Nature, Extent and Quality of Services

The Board reviewed and considered the nature and extent of the investment advisory services provided by the Investment Adviser under the Advisory Agreement, including portfolio management, investment research and equity and fixed income securities trading. The Board reviewed similar information and factors regarding the Sub-Adviser, to the extent applicable. The Board also reviewed and considered the nature and extent of the non-advisory, administrative services provided by the Fund's Administrator under the Administration Agreement, including accounting, clerical, bookkeeping, compliance, business management and planning, and the provision of supplies, office space and utilities at the Investment Adviser's expense. (The Investment Adviser, Sub-Adviser and Administrator together are referred to as the Adviser and the Advisory, Sub-Advisory and Administration Agreements together are referred to as the Management Agreement.) The Board also compared the nature of the services provided by the Adviser with similar services provided by non-affiliated advisers as reported to the Board by Lipper Inc. (Lipper).

The Board reviewed and considered the qualifications of the portfolio managers, the senior administrative managers and other key personnel of the Adviser who provide the advisory and administrative services to the Fund. The Board determined that the Adviser's portfolio managers and key personnel are well qualified by education and/or training and experience to perform the services in an efficient and professional manner. The Board concluded that the nature and extent of the advisory and administrative services provided were necessary and appropriate for the conduct of the business and investment activities of the Fund. The Board also concluded that the overall quality of the advisory and administrative services was satisfactory.

Performance Relative to Comparable Funds Managed by Other Advisers

On a regular basis, the Board reviews the performance of all funds in the Morgan Stanley Fund Complex, including the Fund, compared to their peers, paying specific attention to the underperforming funds. In addition, the Board specifically reviewed the Fund's performance for the one-, three- and five-year periods ended December 31, 2007, as shown in a report provided by Lipper (the Lipper Report), compared to the performance of comparable funds selected by Lipper. The Board also discussed with the Adviser the performance goals and the actual results achieved in managing the Fund. The Board noted the improving performance trend and concluded that the Fund's performance was acceptable.

Fees Relative to Other Proprietary Funds Managed by the Adviser with Comparable Investment Strategies

The Board noted that the Adviser did not manage any other proprietary funds with investment strategies comparable to those of the Fund.

Fees and Expenses Relative to Comparable Funds Managed by Other Advisers

The Board reviewed the advisory and administrative fee (together, the management fee) rate and total expense ratio of the Fund as compared to the average management fee rate and average total expense ratio for funds, selected by Lipper (the expense peer group), managed by other advisers with investment strategies comparable to those of the Fund, as shown in the Lipper Report. The Board concluded that the Fund's management fee rate and total expense ratio were competitive with those of its expense peer group.

Breakpoints and Economies of Scale

The Board reviewed the structure of the Fund's management fee schedule under the Management Agreement and noted that it includes breakpoints. The Board also reviewed the level of the Fund's management fee and noted that the fee, as a percentage of the Fund's net assets, would decrease as net assets increase because the management fee includes breakpoints. The Board concluded that the Fund's management fee would reflect economies of scale as assets increase.

Profitability of the Adviser and Affiliates

The Board considered information concerning the costs incurred and profits realized by the Adviser and affiliates during the last year from their relationship with the Fund and during the last two years from their relationship with the Morgan Stanley Fund Complex and reviewed with the Adviser the cost allocation methodology used to determine the profitability of the Adviser and affiliates. Based on its review of the information it received, the Board concluded that the profits earned by the Adviser and affiliates were not excessive in light of the advisory, administrative and other services provided to the Fund.

The Malaysia Fund, Inc.

June 30, 2008 (unaudited)

Investment Advisory Agreement Approval (cont'd)

Fall-Out Benefits

The Board considered so-called "fall-out benefits" derived by the Adviser and affiliates from their relationship with the Fund and the Morgan Stanley Fund Complex, such as commissions on the purchase and sale of Fund shares and "float" benefits derived from handling of checks for purchases and sales of Fund shares, through a broker-dealer affiliate of the Adviser and "soft dollar" benefits (discussed in the next section). The Board also considered that, from time to time, the Adviser may, directly or indirectly, effect trades on behalf of certain Morgan Stanley Funds through various electronic communications networks or other alternative trading systems in which the Adviser's affiliates have ownership interests and/or board seats. The Board concluded that the sales commissions were competitive with those of other broker-dealers and the float benefits were relatively small.

Soft Dollar Benefits

The Board considered whether the Adviser realizes any benefits as a result of brokerage transactions executed through "soft dollar" arrangements. Under such arrangements, brokerage commissions paid by the Fund and/or other funds managed by the Adviser would be used to pay for research that a securities broker obtains from third parties, or to pay for both research and execution services from securities brokers who effect transactions for the Fund. The Board recognized that the receipt of such research from brokers may reduce the Adviser's costs but concluded that the receipt of such research strengthens the investment management resources of the Adviser, which may ultimately benefit the Fund and other funds in the Morgan Stanley Fund Complex.

Adviser Financially Sound and Financially Capable of Meeting the Fund's Needs

The Board considered whether the Adviser is financially sound and has the resources necessary to perform its obligations under the Management Agreement. The Board concluded that the Adviser has the financial resources necessary to fulfill its obligations under the Management Agreement.

Historical Relationship Between the Fund and the Adviser

The Board also reviewed and considered the historical relationship between the Fund and the Adviser, including the organizational structure of the Adviser, the policies and procedures formulated and adopted by the Adviser for managing the Fund's operations and the Board's confidence in the competence and integrity of the senior managers and key personnel of the Adviser. The Board concluded that it is beneficial for the Fund to continue its relationship with the Adviser.

Other Factors and Current Trends

The Board considered the controls and procedures adopted and implemented by the Adviser and monitored by the Fund's Chief Compliance Officer and concluded that the conduct of business by the Adviser indicates a good faith effort on its part to adhere to high ethical standards in the conduct of the Fund's business.

General Conclusion

After considering and weighing all of the above factors, the Board concluded that it would be in the best interest of the Fund and its shareholders to approve renewal of the Management Agreement for another year.

The accompanying notes are an integral part of the financial statements.

The Malaysia Fund, Inc.

June 30, 2008 (unaudited)

Notes to Financial Statements

The Malaysia Fund, Inc. (the Fund) was incorporated on March 12, 1987 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is long-term capital appreciation through investment in equity securities of Malaysian companies.

A. Accounting Policies: The following significant accounting policies are in conformity with U.S. generally accepted accounting principles. Such policies are consistently followed by the Fund in the preparation of its financial statements. U.S. generally accepted accounting principles may require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results may differ from those estimates.

1. Security Valuation: Securities listed on a foreign exchange are valued at their closing price except as noted below. Unlisted securities and listed securities not traded on the valuation date for which market quotations are readily available are valued at the mean between the current bid and asked prices obtained from reputable brokers. Equity securities listed on a U.S. exchange are valued at the latest quoted sales price on the valuation date. Equity securities listed or traded on NASDAQ, for which market quotations are available, are valued at the NASDAQ Official Closing Price. Debt securities purchased with remaining maturities of 60 days or less are valued at amortized cost, if it approximates market value.

All other securities and investments for which market values are not readily available, including restricted securities, and those securities for which it is inappropriate to determine prices in accordance with the aforementioned procedures, are valued at fair value as determined in good faith under procedures adopted by the Board of Directors (the Directors), although the actual calculations may be done by others. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

Most foreign markets close before the New York Stock Exchange (NYSE). Occasionally, developments that could affect the closing prices of securities and other assets may occur between the times at which valuations of such securities are determined (that is, close of the foreign market on which the securities trade) and the close of business on the NYSE. If these developments are expected to materially affect the value of the securities, the valuations may be adjusted to reflect the estimated fair value as of the close of the NYSE, as determined in good faith under procedures established by the Directors.

2. **Foreign Currency Translation:** The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the mean of the bid and asked prices of such currencies against U.S. dollars last quoted by a major bank as follows:

- investments, other assets and liabilities at the prevailing rates of exchange on the valuation date;
- investment transactions and investment income at the prevailing rate of exchange on the dates of such transactions.

Although the net assets of the Fund are presented at the foreign exchange rates and market values at the close of the period, the Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at period end. Similarly, the Fund does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of securities sold during the period. Accordingly, realized and unrealized foreign currency gains (losses) on investments in securities are included in the reported net realized and unrealized gains (losses) on investment transactions and balances.

Net realized gains (losses) on foreign currency transactions represent net foreign exchange gains (losses) from sales and maturities of foreign currency exchange contracts, disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amount of investment income and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains (losses) from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of unrealized appreciation (depreciation) on investments and foreign currency translations in the Statement of Assets and

The Malaysia Fund, Inc.

June 30, 2008 (unaudited)

Notes to Financial Statements (cont d)

Liabilities. The change in net unrealized currency gains (losses) on foreign currency translations for the period is reflected in the Statement of Operations.

A significant portion of the Fund's net assets consist of Malaysian equity securities and foreign currency. Future economic and political developments in Malaysia could adversely affect the liquidity or value, or both, of securities in which the Fund is invested. Changes in currency exchange rates will affect the value of and investment income from such investments. Foreign securities may be subject to greater price volatility, lower liquidity and less diversity than equity securities of companies based in the United States. In addition, foreign securities may be subject to substantial governmental involvement in the economy and greater social, economic and political uncertainty.

3. Derivatives: The Fund may use derivatives to achieve its investment objectives. The Fund may engage in transactions in futures contracts on foreign currencies, stock indices, as well as in options, swaps and structured products. Consistent with the Fund's investment objectives and policies, the Fund may use derivatives for non-hedging as well as hedging purposes.

Following is a description of derivative instruments that the Fund has utilized and their associated risks:

Foreign Currency Exchange Contracts: The Fund may enter into foreign currency exchange contracts generally to attempt to protect securities and related receivables and payables against changes in future foreign exchange rates and, in certain situations, to gain exposure to a foreign currency. A foreign currency exchange contract is an agreement between two parties to buy or sell currency at a set price on a future date. The market value of the contract will fluctuate with changes in currency exchange rates. The contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized gain or loss. The Fund records realized gains or losses when the contract is closed equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Risk may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and is generally limited to the amount of unrealized gain on the contracts, if any, at the date of default. Risks may also arise from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. At June 30, 2008, the Fund did not have any outstanding foreign currency exchange contracts.

4. New Accounting Pronouncement: On March 19, 2008, Financial Accounting Standards Board released Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities" (SFAS 161). SFAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of SFAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time,

management is evaluating the implications of SFAS 161 and its impact on the financial statements has not yet been determined.

5. **Fair Value Measurement:** The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), effective January 1, 2008. In accordance with SFAS 157, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. SFAS 157 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Fund's investments. The inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

The Malaysia Fund, Inc.

June 30, 2008 (unaudited)

Notes to Financial Statements (cont d)

Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of June 30, 2008 in valuing the Fund’s investments carried at value:

Valuation Inputs	Investments in Securities (000)	Other Financial Instruments* (000)
Level 1 - Quoted Prices	\$ 92,956	\$
Level 2 - Other Significant Observable Inputs	1,734	
Level 3 - Significant Unobservable Inputs		
Total	\$ 94,690	\$

* Other financial instruments include forwards.

At June 30, 2008 there were no Level 3 Portfolio investments for which significant unobservable inputs were used to determine fair value.

6. Other: Security transactions are accounted for on the date the securities are purchased or sold. Realized gains (losses) on the sale of investment securities are determined on the specific identified cost basis. Interest income is recognized on the accrual basis. Dividend income and distributions are recorded on the ex-dividend date (except certain dividends which may be recorded as soon as the Fund is informed of such dividends) net of applicable withholding taxes.

B. Investment Advisory Fees: Morgan Stanley Investment Management Inc. (the U.S. Adviser or MS Investment Management) provides investment advisory services to the Fund under the terms of an Investment Advisory Agreement (the Agreement). Under the Agreement, the U.S. Adviser is paid a fee computed weekly and payable monthly at an annual rate of 0.90% of the Fund’s first \$50 million of average weekly net assets, 0.70% of the Fund’s next \$50 million of average weekly net assets and 0.50% of the Fund’s average weekly net assets in excess of \$100

million.

Effective December 31, 2007, the U.S. Adviser terminated the agreement with AMMB Consultant Sdn Bhd, (the Malaysian Adviser). In March 2008, the U.S. Adviser made a voluntary contribution to the Fund for approximately \$341,000 for advisory fees paid to the Malaysian Adviser in 2006 and 2007.

C. Administration Fees: MS Investment Management also serves as Administrator to the Fund pursuant to an Administration Agreement. Under the Administration Agreement, the administration fee is 0.08% of the Fund's average weekly net assets. MS Investment Management has agreed to limit the administration fee so that it will be no greater than the previous administration fee (prior to November 1, 2004) of 0.02435% of the Fund's average weekly net assets plus \$24,000 per annum. This waiver is voluntary and may be terminated at any time. For the six months ended June 30, 2008, approximately \$18,000 of administration fees were waived pursuant to this arrangement. Under a sub-administration agreement between the Administrator and JPMorgan Investor Services Co. (JPMIS), a corporate affiliate of JPMorgan Chase Bank, N.A., JPMIS provides certain administrative services to the Fund. For such services, the Administrator pays JPMIS a portion of the fee the Administrator receives from the Fund. Administration costs (including out-of-pocket expenses) incurred in the ordinary course of providing services under the agreement, except pricing services and extraordinary expenses, will be covered under the administration fee.

D. Custodian Fees: JPMorgan Chase Bank, N.A. (the Custodian) serves as Custodian for the Fund. The Custodian holds cash, securities, and other assets of the Fund as required by the 1940 Act. Custody fees are payable monthly based on assets held in custody, investment purchases and sales activity and account maintenance fees, plus reimbursement for certain out-of-pocket expenses.

The Fund has entered into an arrangement with its Custodian whereby credits realized on uninvested cash balances were used to offset a portion of the Fund's expenses. These custodian credits are shown as Expense Offset on the Statement of Operations.

E. Federal Income Taxes: It is the Fund's intention to continue to qualify as a regulated investment company and distribute all of its taxable income. Accordingly, no provision for Federal income taxes is required in the financial statements. The Fund files tax returns with the U.S. Internal Revenue Service and various states. Generally, the tax authorities can examine all tax returns filed for the last three years.

The Malaysia Fund, Inc.

June 30, 2008 (unaudited)

Notes to Financial Statements (cont d)

The Fund may be subject to taxes imposed by countries in which it invests. The Fund is currently not subject to Malaysian withholding taxes on dividends and/or capital gains.

The Fund adopted the provisions of the Financial Accounting Standards Board's (FASB) Interpretation number 48

Accounting for Uncertainty in Income Taxes (the Interpretation), on June 30, 2007. The Interpretation is to be applied to all open tax years as of the date of effectiveness. As of June 30, 2008, this did not result in an impact to the Fund's financial statements.

The tax character of distributions paid may differ from the character of distributions shown on the Statements of Changes in Net Assets due to short-term capital gains being treated as ordinary income for tax purposes. The tax character of distributions paid during fiscal 2007 and 2006 were as follows:

	2007 Distributions		2006 Distributions	
	Paid From:		Paid From:	
	(000)		(000)	
	Long-term		Long-term	
Ordinary	Capital	Ordinary	Capital	Ordinary
Income	Gain	Income	Gain	Income
\$1,748	\$	\$796	\$	\$

The amount and character of income and capital gain distributions to be paid by the Fund are determined in accordance with Federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These book/tax differences are considered either temporary or permanent in nature.

Temporary differences are generally due to differing book and tax treatments for the timing of the recognition of gains (losses) on certain investment transactions and the timing of the deductibility of certain expenses.

Permanent differences, primarily due to differing treatments of gains (losses) related to foreign currency transactions, expired capital loss carryforward and excess distribution, resulted in the following reclassifications among the components of net assets at December 31, 2007:

	Increase (Decrease)	
Accumulated Undistributed (Distributions in Excess of) Net Investment Income (Loss) (000)	Accumulated Net Realized Gain (Loss) (000)	Paid-in Capital (000)
\$179	\$(43)	\$(136)

At December 31, 2007, the Fund had no distributable earnings on a tax basis.

At June 30, 2008, the U.S. Federal income tax cost basis of investments was approximately \$60,074,000 and, accordingly, net unrealized appreciation for U.S. Federal income tax purposes was \$34,616,000, of which \$40,023,000 related to appreciated securities and \$5,407,000 related to depreciated securities.

At December 31, 2007, the Fund had a capital loss carryforward for U.S. Federal income tax purposes of approximately \$3,119,000 available to offset future capital gains of which \$2,005,000 will expire on December 31, 2009, and \$1,114,000 will expire on December 31, 2013. At December 31, 2007, the Fund had expired capital loss carryforward for U.S. Federal income tax purposes of approximately \$94,000. During the year ended December 31, 2007, the Fund utilized capital loss carryforwards for U.S. Federal income tax purposes of approximately \$2,625,000.

To the extent that capital loss carryforwards are used to offset any future capital gains realized during the carryover period as provided by U.S. Federal income tax regulations, no capital gains tax liability will be incurred by the Fund for gains realized and not distributed. To the extent that capital gains are offset, such gains will not be distributed to the stockholders.

F. Contractual Obligations: The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

G. Security Transactions and Transactions with Affiliates: The Fund invests in the Institutional Class of the Morgan Stanley Institutional Liquidity Money Market Portfolio, an open-end management investment company managed by the Adviser. Investment Advisory fees paid by the Fund are reduced by an amount equal to its pro-rata share of advisory and administration fees paid by the Morgan Stanley Institutional Liquidity Money Market Portfolio. For the six months ended June 30, 2008, advisory fees paid were reduced by approximately \$1,000 relating to the Fund's investment in the Morgan Stanley Institutional Liquidity Money Market Portfolio.

The Malaysia Fund, Inc.

June 30, 2008 (unaudited)

Notes to Financial Statements (cont d)

A summary of the Fund's transactions in shares of the affiliated issuer during the six months ended June 30, 2008 is as follows:

Market Value December 31, 2007 (000)	Purchases at Cost (000)	Sales Proceeds (000)	Dividend Income (000)	Market Value June 30, 2008 (000)
\$2,269	\$6,882	\$7,417	\$20	\$1,734

During the six months ended June 30, 2008, the Fund made purchases and sales totaling approximately \$8,992,000 and \$8,397,000, respectively, of investment securities other than long-term U.S. Government securities and short-term investments. There were no purchases or sales of long-term U.S. Government securities.

H. Other: On July 15, 2002, the Fund commenced a share repurchase program for purposes of enhancing stockholder value and reducing the discount at which the Fund's shares traded from their net asset value. During the six months ended June 30, 2008, the Fund repurchased 12,580 of its shares at an average discount of 10.32% from net asset value per share. Since the inception of the program, the Fund has repurchased 93,381 of its shares at an average discount of 13.08% from net asset value per share. The Fund expects to continue to repurchase its outstanding shares at such time and in such amounts as it believes will further the accomplishment of the foregoing objectives, subject to review by the Directors.

I. Supplemental Proxy Information: On June 19, 2008, an annual meeting of the Fund's stockholders was held for the purpose of voting on the following matter, the results of which were as follows:

Election of Directors by all stockholders:

	For	Withhold
Kathleen A. Dennis	4,774,899	1,508,649
Joseph J. Kearns	4,777,883	1,505,665
Michael E. Nugent	4,775,738	1,507,810
Fergus Reid	4,775,329	1,508,219

For More Information About Portfolio Holdings

The Fund provides a complete schedule of portfolio holdings in its semi-annual and annual reports within 60 days of the end of the Fund's second and fourth fiscal quarters. The semi-annual reports and the annual reports are filed electronically with the Securities and Exchange Commission (SEC) on Form N-CSRS and Form N-CSR, respectively. Morgan Stanley also delivers the semi-annual and annual reports to Fund stockholders and makes these reports available on its public website, www.morganstanley.com/msim. Each Morgan Stanley fund also files a complete schedule of portfolio holdings with the SEC for the Fund's first and third fiscal quarters on Form N-Q. Morgan Stanley does not deliver the reports for the first and third fiscal quarters to stockholders, nor are the reports posted to the Morgan Stanley public website. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's website, www.sec.gov. You may also review and copy them at the SEC's public reference room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at 1(800) SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov) or by writing the public reference section of the SEC, Washington, DC 20549-0102.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, the Fund makes portfolio holdings information available by periodically providing the information on its public website, www.morganstanley.com/msim.

The Fund provides a complete schedule of portfolio holdings on the public website on a calendar-quarter basis approximately 31 calendar days after the close of the calendar quarter. The Fund also provides Top 10 holdings information on the public website approximately 15 business days following the end of each month. You may obtain copies of the Fund's monthly or calendar-quarter website postings, by calling 1(800) 231-2608.

Change in Portfolio Manager (unaudited)

As of August 15, 2008, the Fund is managed within the Global Emerging Markets Equity team. The team consists of portfolio managers and analysts. Current members of the team jointly and primarily responsible for the day-to-day management of the Fund's portfolio are Munib Madni, an Executive Director of Morgan Stanley Investment Management Inc. (MSIM), Ruchir Sharma, a Managing Director of MSIM, and James Cheng, a Managing Director of Morgan Stanley Investment Management Company.

Mr. Madni is a portfolio manager for the Australian Equity and Asian ex-Japan Equity strategies. He joined Morgan Stanley in 2005 and has 14 years of investment experience. Prior to joining the firm, he was associate director of Australian equities at Aberdeen Asset Management. Previously, he was a portfolio manager, Australian equities, at Equitilink Investment Management. He received a Bachelor of Business with Honors and Bachelor of Laws from the University of Technology in Sydney. He holds the Chartered Financial Analyst designation.

Mr. Cheng is the lead portfolio manager for Asian Equity strategies. He joined Morgan Stanley in 2006 and has 20 years of investment experience. Prior to joining the firm, he was the chief investment officer for Asia at Invesco Asia Fund Management in Hong Kong. Prior to that, he was co-founder and portfolio manager of Asia Strategic Investment Management, a boutique asset management firm investing in Asian markets. Before this, he was a portfolio manager for Morgan Stanley Investment Management's Asian Equity team where he covered both North and South Asian markets. He received a B.S.S. in economics, accounting and computer science from the University of Hong Kong and an M.B.A. in finance from the University of Michigan.

Mr. Sharma is head of the Global Emerging Markets Equity team and a member of the Global Tactical Asset Allocation Investment Committee. He has been with Morgan Stanley for over 5 years and has 14 years of investment experience.

The composition of the team may change from time to time.

The Malaysia Fund, Inc.

Dividend Reinvestment and Cash Purchase Plan

Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the Plan), each stockholder will be deemed to have elected, unless Computershare Trust Company, N.A. (the Plan Agent) is otherwise instructed by the stockholder in writing, to have all distributions automatically reinvested in Fund shares. Participants in the Plan have the option of making additional voluntary cash payments to the Plan Agent, annually, in any amount from \$100 to \$3,000, for investment in Fund shares.

Dividend and capital gain distributions will be reinvested on the reinvestment date in full and fractional shares. If the market price per share equals or exceeds net asset value per share on the reinvestment date, the Fund will issue shares to participants at net asset value or, if net asset value is less than 95% of the market price on the reinvestment date, shares will be issued at 95% of the market price. If net asset value exceeds the market price on the reinvestment date, participants will receive shares valued at market price. The Fund may issue shares of its Common Stock in connection with dividend reinvestment requirements at the discretion of the Board of Directors. **Should the Fund declare a dividend or capital gain distribution payable only in cash, the Plan Agent will purchase Fund shares for participants in the open market as agent for the participants.**

The Plan Agent's fees for the reinvestment of dividends and distributions will be paid by the Fund. However, each participant's account will be charged a pro rata share of brokerage commissions incurred on any open market purchases effected on such participant's behalf. A participant will also pay brokerage commissions incurred on purchases made by voluntary cash payments. Although stockholders in the Plan may receive no cash distributions, participation in the Plan will not relieve participants of any income tax which may be payable on such dividends or distributions.

In the case of stockholders, such as banks, brokers or nominees, that hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in the stockholder's name and held for the account of beneficial owners who are participating in the Plan.

Stockholders who do not wish to have distributions automatically reinvested should notify the Plan Agent in writing. There is no penalty for non-participation or withdrawal from the Plan, and stockholders who have previously withdrawn from the Plan may rejoin at any time. Requests for additional information or any correspondence concerning the Plan should be directed to the Plan Agent at:

Morgan Stanley Institutional Closed-End Funds

An Important Notice Concerning Our

U.S. Privacy Policy (unaudited)

We are required by federal law to provide you with a copy of our Privacy Policy annually.

The following Policy applies to current and former individual investors in Morgan Stanley Institutional closed-end funds. This Policy is not applicable to partnerships, corporations, trusts or other non-individual clients or account holders. Please note that we may amend this Policy at any time, and will inform you of any changes to this Policy as required by law.

We Respect Your Privacy

We appreciate that you have provided us with your personal financial information. We strive to maintain the privacy of such information while we help you achieve your financial objectives. This Policy describes what non-public personal information we collect about you, why we collect it, and when we may share it with others. We hope this Policy will help you understand how we collect and share non-public personal information that we gather about you. Throughout this Policy, we refer to the non-public information that personally identifies you or your accounts as personal information.

1. What Personal Information Do We Collect About You?

To serve you better and manage our business, it is important that we collect and maintain accurate information about you. We may obtain this information from applications and other forms you submit to us, from your dealings with us, from consumer reporting agencies, from our Web sites and from third parties and other sources.

For example:

- We may collect information such as your name, address, e-mail address, telephone/fax numbers, assets, income and investment objectives through applications and other forms you submit to us.
- We may obtain information about account balances, your use of account(s) and the types of products and services you prefer to receive from us through your dealings and transactions with us and other sources.

- We may obtain information about your creditworthiness and credit history from consumer reporting agencies.
- We may collect background information from and through third-party vendors to verify representations you have made and to comply with various regulatory requirements.
- If you interact with us through our public and private Web sites, we may collect information that you provide directly through online communications (such as an e-mail address). We may also collect information about your Internet service provider, your domain name, your computer's operating system and Web browser, your use of our Web sites and your product and service preferences, through the use of cookies. Cookies recognize your computer each time you return to one of our sites, and help to improve our sites' content and personalize your experience on our sites by, for example, suggesting offerings that may interest you. Please consult the Terms of Use of these sites for more details on our use of cookies.

2. When Do We Disclose Personal Information We Collect About You?

To provide you with the products and services you request, to serve you better and to manage our business, we may disclose personal information we collect about you to our affiliated companies and to non-affiliated third parties as required or permitted by law.

A. Information We Disclose to Our Affiliated Companies. We do not disclose personal information that we collect about you to our affiliated companies except to enable them to provide services on our behalf or as otherwise required or permitted by law.

The Malaysia Fund, Inc.

Morgan Stanley Institutional Closed-End Funds

An Important Notice Concerning Our

U.S. Privacy Policy (cont d)

B. Information We Disclose to Third Parties. We do not disclose personal information that we collect about you to non-affiliated third parties except to enable them to provide services on our behalf, to perform joint marketing agreements with other financial institutions, or as otherwise required or permitted by law. For example, some instances where we may disclose information about you to nonaffiliated third parties include: for servicing and processing transactions, to offer our own products and services, to protect against fraud, for institutional risk control, to respond to judicial process or to perform services on our behalf. When we share personal information with these companies, they are required to limit their use of personal information to the particular purpose for which it was shared and they are not allowed to share personal information with others except to fulfill that limited purpose.

3. How Do We Protect the Security and Confidentiality of Personal Information We Collect About You?

We maintain physical, electronic and procedural security measures to help safeguard the personal information we collect about you. We have internal policies governing the proper handling of client information. Third parties that provide support or marketing services on our behalf may also receive personal information, and we require them to adhere to confidentiality standards with respect to such information.
