Indenture

On December 12, 2011, PHH Corporation (the Company or PHH) issued \$100 million aggregate principal amount of 9 1/4% Senior Notes due 2016 (the additional notes). The additional notes were issued under an existing indenture, dated as of August 11, 2010 (the Original Indenture), as supplemented by the First Supplemental Indenture, dated as of December 12, 2011 (the First Supplemental Indenture and, together with the Original Indenture, the Indenture) between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee. The additional notes were issued in a registered offering pursuant to the Company's registration statement on Form S-3 (No. 333-178364) filed with the Securities and Exchange Commission. The additional notes constitute a further issuance of, and are fungible with, the 9 1/4% Senior Notes due 2016 that PHH issued on August 11, 2010 (the initial notes and, together with the additional notes, the notes) and form a single series of debt securities with the initial notes. Following the issuance of the additional notes, the aggregate principal amount of the Company's 9 1/4% Senior Notes due 2016 outstanding was \$450,000,000.

PHH intends to use a portion of the net proceeds from this offering, along with cash on hand and borrowings under its Amended and Restated Competitive Advance and Revolving Credit Agreement, dated as of January 6, 2006, as amended (the Amended Credit Facility), to repay at or prior to maturity the outstanding \$250 million aggregate principal amount of its 4.00% Convertible Senior Notes due April 15, 2012 (the 2012 Convertible Notes). Pending application of the proceeds of the offering to repay the 2012 Convertible Notes, the proceeds may be used to temporarily repay outstanding borrowings under the Amended Credit Facility, originate mortgage loans or may be invested temporarily in short-term interest-bearing investment funds or similar assets. In the event net proceeds from this offering are used to temporarily repay the Amended Credit Facility, affiliates of the underwriters, who are lenders under the Amended Credit Facility, may receive their proportionate share of the amount temporarily being repaid.

The notes will mature on March 1, 2016 and bear interest at a rate of 9.25% per annum, payable semi-annually in arrears on March 1 and September 1 of each year, beginning on March 1, 2012.

The notes are the Company's senior unsecured and unsubordinated obligations and will rank equally in right of payment to all of the Company's existing and future unsecured and unsubordinated indebtedness. Initially, the notes will not be guaranteed by any of the Company's subsidiaries. The notes will be effectively subordinated to all of the Company's secured obligations and to any existing and future obligations of the Company's subsidiaries that do not guarantee the notes.

Each of the following constitutes an event of default under the Indenture: (1) default for a period of 30 days in payment of any interest on the notes when due; (2) default in payment of principal of (or premium, if any, on) the notes; (3) failure to make an offer to repurchase the notes upon a change of control, as defined in the Indenture, and thereafter accept and pay for notes tendered when and as required pursuant to the Indenture, or to comply with the consolidation, merger or sale of assets covenant described in the Indenture; (4) default in the performance of any other covenant in the Indenture with respect to the notes for 90 days after written notice to us by the Trustee or by the holders of at least 25% in principal amount of the notes; and (5) certain events of bankruptcy, insolvency or reorganization of us or any significant subsidiary. If an event of default with respect to the notes shall occur and be continuing, the applicable Trustee or the holders of 25% in principal amount of the outstanding notes may declare the principal and accrued interest of all of the notes to be due and payable immediately.

Edgar Filing: PHH CORP - Form 8-K

The notes may be redeemed at any time and from time to time, at the option of PHH in whole or in part, at a make-whole redemption price specified in the Indenture. The notes will not have the benefit of any sinking fund.

Not later than 30 days following the occurrence of a change of control, as defined in the Indenture, PHH is required to offer to purchase all outstanding notes at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest to, but not including, the date of purchase.

The Indenture contains covenants that, among other things: (1) require the Company to maintain a debt to tangible equity ratio not greater than 8.5 to 1; (2) limit the Company's ability to pay dividends and make distributions on account of or repurchase, its capital stock; (3) limit the Company's ability to create liens on assets; (4) limit the Company's ability to incur subsidiary debt; and (5) restrict the Company's ability to consolidate, merge or sell its assets. These covenants are subject to certain significant exceptions and qualifications, and if and for so long as the notes are rated, by at least two rating agencies, equal to or better than Baa3 from Moody's Investors Service, BBB- from Standard & Poor's, and BBB- from Fitch Ratings, the limitation on the Company's ability to incur subsidiary debt and make payments on its equity will be suspended.

The foregoing summary of the Indenture is qualified in its entirety by reference to the full text of the Original Indenture, and the Supplemental Indenture, copies of which are filed with this Current Report on Form 8-K (this Form 8-K) as Exhibits 4.1 and 4.2, respectively, and are incorporated herein by reference.
