-

Item 8.01. Other Events

On November 5, 2015, First Data Corporation (the Company) issued a press release to announce that it intended to offer \$750 million aggregate principal amount of senior secured first lien notes due 2024 (the first lien notes) and \$750 million aggregate principal amount of senior secured second lien notes due 2024 (the second lien notes) and, together with the first lien notes, the notes). A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated by reference herein.

Subsequently, on November 5, 2015, the Company issued a press release to announce that it had increased the offering size of the first lien notes to an aggregate principal amount of \$1.0 billion and the second lien notes to an aggregate principal amount of \$2.2 billion. The notes will be issued at par. A copy of the press release is attached hereto as Exhibit 99.2 and is incorporated by reference herein.

The Company intends to use the proceeds from the offering of the notes to redeem all outstanding amount of its 8.75% senior secured second lien notes due 2022 (the 8.75% Notes) and all outstanding amount of its 8.25% senior secured second lien notes due 2021 (the 8.25% Notes), and to pay any applicable premiums and related fees and expenses. This Current Report does not constitute a notice of redemption of the 8.75% Notes or the 8.25% Notes.

The offering of the notes is part of a refinancing transaction that includes replacing the Company's \$1.5 billion senior secured term loan facility due March 2017 (the March 2017 Term Loans) with incremental term loans of \$1.25 billion and 200 million (estimated at \$223 million equivalent) issued under its existing senior secured term loan facility due July 2022 (the July 2022 Term Loans). The interest rate applicable to the July 2022 Term Loans is a rate equal to, at the Company's option, either (a) LIBOR plus 375 basis points or (b) solely with respect to July 2022 Term Loans denominated in dollars, a base rate plus 275 basis points. The July 2022 Term Loans have a maturity date of July 10, 2022.

The refinancing is expected to result in an additional reduction of annualized interest expense of \$72 million over and above interest savings resulting from the debt principal paydowns executed with the proceeds of the initial public offering and the debt refinancing related to the issuance of \$3.4 billion aggregate principal amount of 7.000% senior notes due 2023 that was announced last week. Upon consummation of these transactions, the Company will not have any significant debt maturities until March 2018.

Item 9.01 Financial Statements and Exhibits

99.1 Press release dated November 5, 2015.

99.2 Press release dated November 5, 2015.
