NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2006 AND 2005

1.

DESCRIPTION OF BUSINESS AND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Trinity Home Entertainment, LLC (the Company) is a California limited liability company (LLC) that was converted to an LLC on January 4, 2004. The Company's operations are conducted through its administrative offices located in Westlake Village, California. In addition, the Company maintains its inventory at various outside warehouses in the United States of America and Canada. The Company distributes movie titles on predominantly digital video disc (DVD) to retail companies for ultimate sale to end-users. The rights to distribute the titles are acquired through license and distribution agreements with terms ranging from several years to perpetuity.

Operating Segment Information

The Company operates as one segment in accordance with Statement of Financial Accounting Standards (SFAS) No. 131, Disclosures about Segments of an Enterprise and Related Information. The Company's management personnel view the Company's performance and make resource allocation decisions by looking at the Company as a whole. Although there may be different media lines within the Company, they are economically similar and are also similar in terms of the five criteria set forth in SFAS No. 131 that must be met to combine segments. The types and class of customers are similar across all product lines, and products are distributed through common channels and networks.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the accounting period in which they are earned, while expenses are

recognized in the accounting period in which they are incurred regardless of when cash is received and disbursed. The financial statements are presented in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

DESCRIPTION OF BUSINESS AND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value of Financial Instruments

The carrying value of all financial instruments potentially subject to valuation risk (principally consisting of accounts receivable, accounts payable, notes receivable and notes payable) approximates fair value based upon prevailing interest rates available to the Company.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist of cash and accounts receivable.

Cash is maintained at a national financial institution. At times, such balances may exceed the Federal Deposit Insurance Corporation (FDIC) limit. At December 31, 2006 the bank balance exceeded the FDIC limit by \$325,112.

The Company normally sells to a few large customers. Such customers are normally large reputable companies or the entities of the United States government. At December 31, 2006, two customers represented 55% and 11% of total annual sales. At December 31, 2005, four customers represented 26%, 21%, 12% and 11% of total annual sales.

At December 31, 2006, three customers represented 48%, 18% and 13% of total trade receivables. The majority of the trade receivables at December 31, 2006 are contracts with entities of the United States government. At December 31, 2005, four customers represented 31%, 16%, 15% and 12% of total trade receivables.

Accounts Receivable

Accounts receivable are reported at the customers' outstanding balances less any allowance for doubtful accounts. Interest is not accrued on overdue accounts receivable. The Company normally does not require collateral on sales.

Allowance for Doubtful Accounts and Estimated Returns

At December 31, 2006 and 2005, the Company has reserved for uncollectible accounts totaling \$252,657 and \$0, respectively and, has reserved for estimated returns totaling \$549,895 and \$521,935, respectively. Trade accounts receivable at December 31, 2006 and 2005 are net of such allowances. The Company routinely evaluates the credit worthiness of its customers and the collectibility of accounts receivable based on how recently payments have been received. The Company provides an allowance for doubtful accounts and estimated returns based upon management's evaluation of

outstanding accounts receivable and historical trends of sales returns.

DVD Inventories

Inventories consist primarily of DVD's with related packaging and are valued at lower of cost or market, determined using the average cost method.

Long-Lived Assets

The Company recognizes impairment losses on long-lived assets used in operations when the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. In such circumstances, those assets are written down to estimate fair value.

Film Costs

Film costs include the costs of licensing distribution rights and developing masters. Film costs are stated at the lower of unamortized cost or market. In accordance with Statement of Position (SOP) 00-2 Accounting by Producers or Distributors of Films , film costs are amortized using the film-forecast-computation method. Utilizing this method, costs are amortized by film groups or individually, based on the ratio of actual current period gross revenues to estimated remaining total lifetime revenues. These estimates are reviewed by management periodically. Amortization is included in cost of goods sold in the Statements of Income. The average life of film titles acquired

prior to December 31, 2006 is estimated to be six years.

Equipment

Property and equipment are recorded at cost. Expenditures for maintenance and repairs are charged to expense as incurred, while renewals and betterments are capitalized. Depreciation is provided using the straight-line method over the following estimated useful lives:

Computers

3 years

Furniture and Fixtures

5 years

Significant Vendors

Three vendors accounted for 56%, 15% and 12% of the Company's inventory purchases for the year ended December 31, 2006. Four vendors accounted for 30%, 16%, 13% and 12% of the Company's inventory purchases for the year ended

December 31, 2005. The Company concentrates its reproduction of DVD s and other media primarily with three vendors. Since the Company has the rights to distribution

and maintains the media masters the Company is not significantly impacted by the loss of any single vendor in the near term. Sales delivery times may be momentarily affected due to production setup at new vendors.

Revenue Recognition

Revenues from film distribution are recognized when all recognition requirements of SOP 00-2 and Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition are satisfied. Home video product revenues, including revenues generated from sales of DVDs, net of actual returns, are recognized upon availability and shipment of the product for retail sale to customers.

Revenues also include license fee income derived from agreements wherein the Company has transferred the distribution rights to another entity, royalty income relates to historical, undocumented agreements on five specific titles and distribution fees that are determined by written agreement between the Company and either related parties or unrelated entities.

Shipping and Handling

Shipping and handling costs associated with inbound freight are included in cost of revenues.

Advertising

The Company expenses advertising costs as incurred. At December 31, 2006 and 2005, the Company expensed \$23,913 and \$16,874, respectively, for printed material.

Recent Pronouncements and Accounting Changes

In February 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 159, which permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 also includes an amendment to SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities which applies to all entities with available-for-sale and trading securities. This Statement is effective as of an entity's first fiscal year that begins after November 15, 2007. The Company is assessing the impact of SFAS No. 159 and has not determined whether it

will have a material impact on the Company's results of operations or financial position.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. The Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value

measurements, and does not require any new fair value measurements. This Statement applies to other accounting pronouncements that require or permit fair value measurements. The Statement is effective for the fiscal years beginning after

November 15, 2007. The Company is assessing SFAS No. 157 and has not determined the impact the adoption of SFAS No. 157 will have on its results of operations or financial position.

4.**NOTES PAYABLE RELATED PARTIES**

As stated in Note 1, the Company was converted from a California corporation ("the Corporation") to a California limited liability company ("LLC") on January 4, 2004. In December of 2002, the Corporation was purchased by a Hong Kong trading company, which owned the Corporation until December 2003 when it rescinded its Ownership.

During the period of the trading company's ownership, it advanced funds in the amount of \$487,500 to the Corporation. Upon rescission of ownership, a note was drawn for the \$487,500 and the liability passed through to the LLC upon conversion. Interest accrued at 7% per annum and the note matured in December 2005. The maturity date was extended without a stated fixed date under the same terms and conditions as the original note. The note was paid in June 2007. The note was personally guaranteed by a shareholder and officer of the Corporation. At December 31, 2006 and 2005, accrued interest totaled \$102,375 and \$68,250, respectively. Interest expense related to this note payable totaled \$34,125 for each of the years ended December 31, 2006 and 2005, respectively.

In August 2002, the Company received a non-interest bearing advance of \$129,980 from a related party that is payable on demand.

5.**RELATED PARTY TRANSACTIONS**

In October 2006, the Company made a non-interest bearing advance of \$40,000 to a related party. The amount was repaid in May 2007.

For the year ended December 31, 2006, sales to related parties totaled \$18,075, and purchases from related parties totaled \$1,379,757. For the year ended December 31, 2005, sales to related parties totaled \$535,437, and purchases totaled \$1,721,369.

All transactions between related parties are conducted in cash.

In December 2006, the Company issued distribution checks to the Members totaling \$800,000. Since the checks would have created an overdraft when issued, the Members did not deposit them until 2007 when cash was available. At December 31, 2006, the \$800,000 was reported as "distributions payable related parties".

Upon distribution of cash from operations or distribution of capital, all Members are in a first position as defined in the Company Agreement. Upon liquidation of the limited liability company, liquidation distributions shall place all Members equally in first position in proportion to their interest, as defined in the Company Agreement.

Each Member's liability is limited to his or her initial capital contribution. Members do not have any personal liability to contribute funds to satisfy liabilities or obligations of the Company, except where a Member or Members guarantee an obligation of the Company and a call is made on that obligation.

The term of the Company is through November 30, 2055.

10.

SUBSEQUENT EVENTS - (UNAUDITED)

In November 2006, the Members entered into an agreement with a corporation to sell the Members' ownership interests in the Company. In connection with the agreement, certain individuals have guaranteed the Members' performance and their assumption of liabilities contained in the agreement.

In February 2007, the Company entered into a five-year lease agreement for administrative office space. The base rent for the first year of the lease is \$4,200 per month with a rent escalation clause based on an annual cost of living adjustment. The lease provides for three five-year options to extend beyond the base term.

In addition, distributions totaling approximately \$1,000,000 were paid to the Members subsequent to year end.
