PRELIMINARY PROSPECTUS Subject to Completion, dated October 18, 2016

6,492,306 Shares of Common Stock

This prospectus relates to the resale by the selling shareholders identified in this prospectus, or the Selling Shareholders, of up to an aggregate of 6,492,306 shares of our common stock, no par value, which consists of:

- up to 3,246,153 shares of our common stock that are issued and outstanding, or the Shares; and
- up to 3,246,153 shares, or the Warrant Shares, of our common stock that may be purchased upon exercise of issued and outstanding warrants, or the Warrants.

We refer to the Shares and the Warrant Shares collectively as the “Resale Shares.” We sold the Shares and the Warrants to the Selling Shareholders in a private placement in August 2016, which we refer to as the Private Offering, pursuant to two substantially similar forms of a Securities Purchase Agreement, which we refer to collectively as the Purchase Agreement. The Warrants provide that the Warrant Shares may not be issued upon the exercise of the Warrants until the issuance of the Warrant Shares has been approved by our shareholders. Our majority shareholder, BioTime, Inc., or BioTime, has approved a written consent of shareholders approving the issuance of Warrant Shares upon exercise of the Warrants, which shareholder approval has become effective.

We will not receive any proceeds from the sale of the Resale Shares by the selling shareholders. We are paying the cost of registering the Resale Shares covered by this prospectus as well as various related expenses. The selling shareholders are responsible for all discounts, selling commission and other costs related to the offer and sale of their Resale Shares. If required, the number of Resale Shares to be sold, the public offering price of those Resale Shares, the names of any broker-dealers and any applicable commission or discount will be included in a supplement to this prospectus.

The selling shareholders and any participating broker-dealers may be deemed to be “underwriters” within the meaning of the Securities Act of 1933, as amended, or the Securities Act, in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the Resale Share purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

Our common stock has been traded on the NYSE MKT under the symbol “OCX” since January 4, 2016. On October 17, 2016, the last reported sales price of our shares on NYSE MKT was \$4.32 per share.

You should consider carefully the risks that we have described in the section entitled “Risk Factors” beginning on page 3 before deciding whether to invest in our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful and complete. Any representation to the contrary is a criminal offense.

This prospectus is dated _____, 2016.

SUMMARY

This summary highlights information contained elsewhere in this prospectus. This summary does not contain all of the information we urge you to consider before investing in our securities. Before making an investment decision, please carefully read this entire prospectus, any applicable free writing prospectus, and the documents incorporated by reference into this prospectus, especially the “Risk Factors” section of this prospectus and our financial statements and the related notes incorporated by reference into this prospectus. In this prospectus, unless the context otherwise requires, the terms “OncoCyte,” “we,” “us” or “our” refer to OncoCyte Corporation.

Overview

Our mission is to develop highly accurate, easy to administer, non-invasive molecular diagnostic tests to reduce unnecessary and risky medical procedures and, thereby reduce cost to the healthcare system, while improving patient outcomes. Our initial focus will be confirmatory diagnostics, utilizing novel liquid biopsy technology, for use in conjunction with imaging to confirm initial diagnoses within certain oncology indications. In addition, we will be developing screening diagnostics as potential replacements for screening imaging procedures that do not meet the needs of patients, health care providers or payers. For some indications, we will also be pursuing the probability of recurrence of a specific cancer through the development of prognostics; or companion diagnostics that help a physician determine which therapy is the optimal treatment for the patient.

Our initial liquid biopsy diagnostic tests will be confirmatory diagnostics and are being developed to reduce false positive results associated with current diagnostic techniques. These new diagnostic tests are intended to:

- Improve health outcomes through early diagnoses and better prognostic capabilities;
- Reduce the cost of care through the avoidance of more costlier diagnostic procedures, including invasive biopsy and cystoscopic procedures; and
- Improve the quality of life for cancer patients by reducing the anxiety associated with non-definitive diagnoses.

We are currently developing diagnostic tests for three types of cancer: lung cancer, breast cancer, and bladder cancer.

RISK FACTORS

Investing in our common stock involves a high degree of risk. Before making an investment decision with respect to our common stock, we urge you to carefully consider the risks described in the “Risk Factors” section of our Annual Report on Form 10-K for the year ended December 31, 2015, which is incorporated by reference into this prospectus. These risk factors relate to our business operations, our industry (including regulatory matters), intellectual property, our relationship with BioTime, our dependence on third parties, and our common stock. The risks and uncertainties incorporated by reference into this prospectus or described below are not the only ones we face. Additional risks and uncertainties not presently known or which we consider immaterial as of the date hereof may also have an adverse effect on our business. If any of the matters discussed in these risk factors were to occur, our business, financial condition, results of operations, cash flows or prospects could be materially adversely affected, the market price of our common stock could decline and you could lose all or part of your investment in our common stock. You should also refer to the other information set forth in or incorporated by reference into this prospectus, including our financial statements and the related notes.

Additional Risks Related to our Common Stock

There is currently a limited market for our common stock, and any trading market that exists in our securities may be highly illiquid and may not reflect the underlying value of our net assets or business prospects.

Our common stock has been listed for trading on the NYSE MKT only since January 4, 2016. There is currently a limited market for our common stock and an active market may never develop. Investors are cautioned not to rely on the possibility that an active trading market may develop. In addition, the trading price of our common stock has been volatile and subject to wide fluctuations. For example, the high and low intraday sales prices per share of our common stock since January 4, 2016, as reported on the NYSE MKT, has ranged from \$2.45 to \$10.24. Such volatility, coupled with the illiquidity of our common stock, may require you to sell shares of our common stock at prices that may not reflect the underlying value of our net assets or business prospects, or that cause you to lose a significant amount, or all, of your investment.

The Warrants and the Warrant Shares may have adverse effects on the price of our Common Stock.

While the Warrants remain outstanding and unexercised, the potential of the future exercise of the Warrants and resale of the Warrant Shares may have an “overhang” effect on the market for our common stock, which could depress or have a limiting impact on the price at which our common stock will trade in the public market and the price at which we may be able to sell additional shares of common stock, or other securities exchangeable or convertible into common stock, in the future to meet our capital needs. The influx of a substantial number of shares of our common stock into the public market, including the shares being offered hereby, could have a significant depressing effect on the market price of our common stock and our value as a whole. In addition, the issuance of a significant number of Warrant Shares upon the exercise of the Warrants may result in our shareholders facing significant dilution and having a smaller percentage interest in our voting power, equity value, liquidation value, and book value.

You may experience dilution of your ownership interests if we issue additional shares of common stock or preferred stock.

We are currently authorized to issue an aggregate of 55,000,000 shares of capital stock consisting of 50,000,000 shares of common stock and 5,000,000 “blank check” shares of preferred stock. Following the closing of the Private Offering on August 29, 2016, we had 28,677,327 shares of common stock issued and outstanding. No shares of preferred stock are presently outstanding. If we issue additional common stock or other securities that are convertible into or exercisable for common stock in order to raise additional capital, in connection with hiring or retaining employees or consultants, for future acquisitions, or for other business purposes, the issuance may create downward

pressure on the trading price of our common stock.

3

Table of Contents

We may issue additional equity securities, resulting in dilution to our shareholders. For example, as of June 30, 2016, our net tangible book value was \$3.4 million, or \$0.13 per share. Giving effect to the Private Offering, including our sale of 3,246,153 Shares and our receipt of estimated net proceeds of \$9.7 million (after deducting the placement agent commission and estimated offering expenses payable by us), our as adjusted net tangible book value per share would have been \$0.46 per share, assuming no exercise of any of the Warrants. This represented an immediate dilution with respect to the Shares purchased by investors in the Private Offering of approximately \$2.79 per share, and an immediate increase of approximately \$0.32 per share with respect to the shares held by then existing investors. Any future issuance of equity securities may result in dilution in net tangible book value to our shareholders at that time. It may also result in our shareholders having a smaller percentage interest in our voting power, equity value, liquidation value, and aggregate book value.

We may also issue preferred stock having rights, preferences, and privileges senior to the rights of our common stock with respect to dividends, rights to share in distributions of our assets if we liquidate our company, or voting rights. Any preferred stock may also be convertible into common stock on terms that would be dilutive to holders of common stock.

Future sales of shares could depress our share price.

Following the closing of the Private Offering on August 29, 2016, we had 28,677,327 shares of common stock issued and outstanding. The registration statement, of which this prospectus is a part, registers the resale of up to 3,246,153 Shares and up to 3,246,153 Warrant Shares, for a total of 6,492,306 shares of our common stock. Sales by the Selling Shareholders hereunder, especially if in heavy volume and at the same time, could negatively affect our stock price. Moreover, the perception in the public market that these shareholders might sell our common stock could depress the market price of our common stock.

No prediction can be made as to the precise effect, if any, that sales of shares of our common stock or the availability of such shares for sale will have on the market prices prevailing from time to time. Nevertheless, the possibility that substantial amounts of common stock may be sold in the public market may adversely affect prevailing market prices for our common stock and could impair our ability to raise capital through the sale of our equity securities.

We cannot estimate the number of Resale Shares that will be held by the Selling Shareholders after completion of the offering. However, for purposes of this table, we have assumed that after completion of the offering all of the Resale Shares will be sold by the Selling Shareholders. The percentage of shares to be beneficially owned after completion of the offering is calculated on the basis of 28,677,327 shares of common stock outstanding as of August 29, 2016 following completion of the Private Offering,

assuming the sale of all Resale Shares by the Selling Shareholders.

DESCRIPTION OF SECURITIES

Common Stock

Our Articles of Incorporation currently authorize the issuance of up to 50,000,000 shares of common stock, no par value. As of September 16, 2016, we had 28,677,327 shares of our common stock issued and outstanding, which were held by approximately 293 shareholders of record. This number does not include shareholders whose shares of our common stock were held in “street name” in accounts with securities broker-dealers or other financial institutions or fiduciaries.

Each holder of record of common stock is entitled to one vote for each outstanding share owned, on every matter properly submitted to the shareholders for their vote.

Subject to any dividend rights of holders of any of the preferred stock that we may issue from time to time, holders of common stock are entitled to any dividend declared by our board of directors out of funds legally available for that purpose. We have never paid cash dividends on our capital stock and we do not anticipate paying cash dividends in the foreseeable future, but intend to retain our capital resources for reinvestment in our business.

Subject to the prior payment of any liquidation preference to holders of any preferred stock that we may issue from time to time, holders of common stock are entitled to receive on a pro rata basis all of our remaining assets available for distribution to the holders of common stock in the event of the liquidation, dissolution, or winding up of our operations. Holders of common stock do not have any preemptive rights to become subscribers or purchasers of additional shares of any class of our capital stock.

Transfer Agent

The transfer agent and registrar for our common stock is American Stock Transfer and Trust Company, LLC, 6201 15th Avenue, Brooklyn, New York 11219.

Preferred Stock

Our Articles of Incorporation currently authorize the issuance of up to 5,000,000 shares of preferred stock, no par value. We may issue preferred stock in one or more series, at any time, with such rights, preferences, privileges and restrictions as our board of directors may determine, all without further action of our shareholders. Any series of preferred stock which may be authorized by our board of directors in the future may be senior to and have greater rights and preferences than our common stock. There are no shares of preferred stock presently outstanding and we have no present plan, arrangement, or commitment to issue any preferred stock.

Warrants

The Warrants have an exercise price of \$3.25 per Warrant Share. The Warrants became exercisable on October 17, 2016, which is the date that shareholder approval of the issuance of Warrant Shares upon exercise of the Warrants became effective. The Warrants may be exercised for five years from the date they become exercisable. The Warrants may be exercised on a net basis in certain circumstances, including that the registration statement of which this prospectus forms a part is not effective.

PLAN OF DISTRIBUTION

Each Selling Shareholder and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their Resale Shares included in this prospectus on the NYSE MKT or any other stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. A Selling Shareholder may use any one or more of the following methods when selling Resale Shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;
- broker-dealers may agree with the Selling Shareholders to sell a specified number of such shares at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Shareholders may also sell Resale Shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Shareholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Shareholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission, and in the case of a principal transaction a markup or markdown, in each case compliance with Rule 2121 of the Financial Industry Regulatory Authority.

In connection with the sale of the Resale Shares, the Selling Shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of our common stock in the course of hedging the positions they assume. The Selling Shareholders may also sell shares of our common stock short and deliver Resale Shares to close out their short positions, or loan or pledge the Resale Shares to broker-dealers that in turn may sell the Resale Shares. The Selling Shareholders may also enter into option or other transactions with broker-dealers or other financial institutions for the creation of one or more derivative securities which require the delivery of Resale Shares to such broker-dealer or other financial institution, and the broker-dealer or other financial institution may resell the Resale Shares pursuant to this prospectus (as supplemented or amended to reflect such transaction).

Table of Contents

The Selling Shareholders and any broker dealers or agents that are involved in selling the Resale Shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Shareholder has informed us that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the Resale Shares.

We are required to pay certain fees and expenses incurred by us incident to the registration of the Resale Shares, including SEC filing fees. We have agreed to indemnify the Selling Shareholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because Selling Shareholders may be deemed to be “underwriters” within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Each Selling Shareholder has advised us that it has not entered into any written or oral agreements, understandings or arrangements with any underwriter or broker-dealer regarding the sale of the Resale Shares offered by this prospectus. There is no underwriter or coordinating broker acting in connection with the proposed sale of the Resale Shares by the Selling Shareholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the Resale Shares may be resold by the Selling Shareholders without registration and without regard to any volume limitations by reason of Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the Resale Shares have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The Resale Shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the Resale Shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Securities Exchange Act of 1934, as amended, or the Exchange Act, any person engaged in the distribution of the Resale Shares may not simultaneously engage in market making activities with respect to our common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Shareholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of our common stock by the Selling Shareholders or any other person. We will make copies of this prospectus available to the Selling Shareholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

Item 14 Indemnification of Directors and Officers

Section 317 of the California Corporations Code permits indemnification of directors, officers, employees and other agents of corporations under certain conditions and subject to certain limitations. In addition, Section 204(a)(10) of the California Corporations Code permits a corporation to provide, in its articles of incorporation, that directors shall not have liability to the corporation or its shareholders for monetary damages for breach of fiduciary duty, subject to certain prescribed exceptions. Article Five of the Registrant’s Articles of Incorporation contains provisions for the indemnification of directors, officers, employees and other agents within the limitations permitted by Section 317 and for the limitation on the personal liability of directors permitted by Section 204(b)(10), subject to the exceptions required thereby.

Under Article VI of the Registrant’s bylaws, any person who is or was one of the Registrant’s directors or officers, employees, or other agents, or is or was serving at the Registrant’s request as a director, officer, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust, or other enterprise, will be considered an “agent” entitled to indemnification against expenses arising under certain proceedings. To the maximum extent permitted by the California Corporations Code, the Registrant will indemnify any person who was or is a party, or is threatened to be made a party, to any proceeding (other than an action by or in the right of the Registrant) by reason of the fact that the person is or was an agent of the Registrant, against expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred in connection with the proceeding if that person acted in good faith and in a manner that person reasonably believed to be in the best interests of the Registrant and, in the case of a criminal proceeding, had no reasonable cause to believe his conduct of was unlawful. The termination of any proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the agent did not act in good faith and in a manner which agent reasonably believed to be in the best interests of the Registrant or that the agent had reasonable cause to believe that his conduct was unlawful.

The Registrant will also indemnify any agents any who was or is a party or is threatened to be made a party, to any threatened, pending or completed action by or in the right of the Registrant to procure a judgment in its favor by reason of the fact that person is or was an agent of the Registrant , against expenses actually and reasonably incurred by the agent in connection with the defense or settlement of that action if the agent acted in good faith, in a manner that the agent believed to be in the best interests of the Registrant and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances. No indemnification shall be

made:

In respect of any claim, issue or matter as to which that the agent is adjudged to be liable to the Registrant in the performance of that person's duty to the Registrant, unless and only to the extent that the court in which that action was brought shall determine upon application that, in view of all the circumstances of the case, that the agent is fairly and reasonably entitled to indemnity for the expenses which the court shall determine;

II-1

Table of Contents

· Of amounts paid in settling or otherwise disposing of a threatened or pending action, with or without court approval; or

· Of expenses incurred in defending a threatened or pending action which is settled or otherwise disposed of without court approval.

To the extent that an agent of the Registrant is successful on the merits in defense of any proceeding for which the agent is entitled to indemnification under the Registrant's bylaws, the agent will be indemnified against expenses of the defense actually and reasonably incurred.

Except as with respect to a successful defense on the merits in a proceeding, indemnification will be provided under the Registrant's bylaws only if authorized in the specific case on a determination that indemnification of the agent is proper in the circumstances because the agent has met the applicable standard of conduct set forth in the Registrant's bylaws, by:

· A majority vote of a quorum consisting of directors who are not parties to the proceeding;

Approval by the affirmative vote of a majority of the shares of the Registrant entitled to vote represented at a duly held meeting at which a quorum is present or by the written consent of holders of a majority of the outstanding shares entitled to vote. For this purpose, the shares owned by the person to be indemnified shall not be considered outstanding or entitled to vote thereon; or

· The court in which the proceeding is or was pending, on application made by the Registrant or the agent or the attorney or other person rendering services in connection with the defense, whether or not such application by the agent, attorney, or other person is opposed by the Registrant.

Expenses incurred in defending any proceeding may be advanced by the Registrant before the final disposition of the proceeding on receipt of an undertaking by or on behalf of the agent to repay the amount of the advance unless it shall be determined ultimately that the agent is entitled to be indemnified as authorized in the Registrant's bylaws.

The Registrant will not provide indemnification or advance expenses on behalf of an agent in any circumstance where it appears:

· That it would be inconsistent with a provision of the Registrant's articles of incorporation, a resolution of the shareholders, or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid, which prohibits or otherwise limits indemnification; or

· That it would be inconsistent with any condition expressly imposed by a court in approving a settlement.

The foregoing summaries are necessarily subject to the complete text of the California Corporations Code and the Registrant's articles of incorporation and bylaws.

Item 15 Recent Sales of Unregistered Securities

In May 2015, the Registrant sold 1,500,000 shares of its common stock for \$3.3 million in cash, including 500,000 shares sold to George Karfunkel, and 1,000,000 shares sold to Bernard Karfunkel. Concurrently, BioTime, Inc. ("BioTime") purchased 1,500,000 shares of the Registrant's common stock in exchange for the cancelation of \$3.3 million of the Registrant's indebtedness owed to BioTime, and the Registrant delivered to BioTime a convertible promissory note (the "Note") with regard to an additional \$3.3 million of the Registrant's outstanding indebtedness to

BioTime. The Note bore interest at the rate of 1% per annum and was payable in November 2016. Originally, BioTime had the right to convert the principal amount of the Note plus accrued interest into shares of the Registrant's common stock at a conversion price of \$2.20 per share commencing on a future date. In November 2015, the Note was amended to permit BioTime to convert the Note into shares of the Registrant's common stock at any time prior to payment in full of the principal balance and accrued interest, and in November 2015 BioTime converted the Note into 1,508,095 shares of the Registrant's common stock.

In September 2015, the Registrant entered into Subscription Agreement with BioTime pursuant to which BioTime purchased 2,710,857 shares of the Registrant's common stock for \$8.3 million in cash.

II-2

Table of Contents

In August 2016, the Registrant sold an aggregate of 3,246,153 immediately separable units, with each unit consisting of one share of the Registrant's common and one warrant (the "Warrants") to purchase one share of common stock (the "Warrant Shares"), at a price of \$3.25 per unit, for an aggregate offering price of \$10.5 million. The Warrants have an exercise price of \$3.25 per Warrant Share, became exercisable on October 17, 2016, which is the date that shareholder approval of the issuance of Warrant Shares upon exercise of the Warrants became effective and may be exercised for five years from the date they became exercisable. The Warrants may be exercised on a net basis in certain circumstances, including that a registration statement registering their resale is not effective with the Securities and Exchange Commission. In connection with certain of the sales to investors, OncoCyte agreed to pay a commission to its placement agent, Cowen and Company, LLC, of \$511,000 in cash.

The Registrant sold the foregoing shares of its common stock, the Note and the Warrants without registration under the Securities Act of 1933, as amended (the "Act"), or applicable state securities laws, in reliance on the exemptions provided by Section 4(a)(2) of the Act and Rule 506(b) of Regulation D promulgated thereunder, and in reliance on similar exemptions under applicable state securities laws, for transactions by an issuer not involving any public offering. All investors were accredited and no form of general solicitation or general advertising was used. In addition, with respect to the shares of Registrant's common stock issued on conversion of the Note, the Registrant relied on the exemptions provided by Section 3(a)(9) of the Act, and in reliance on similar exemptions under applicable state securities laws, for securities exchanged by the issuer with its existing security holders where no commission or other remuneration is paid or given.

Item 16 Exhibits and Financial Statements

- (a) See the Exhibit Index on the page immediately following the signature page for a list of exhibits filed as part of this registration statement on Form S-1, which Exhibit Index is incorporated herein by reference.
- (b) Financial Statement Schedules are omitted because they are either not required, are not applicable, or the information is otherwise included in the Registrant's financial statements or the related notes.

Item 17 Undertakings

The undersigned Registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
- i. To include any prospectus required by Section 10(a)(3) of the Securities Act;
 - ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;
 - iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

II-3

Table of Contents

(4) That, for the purpose of determining liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

Insofar as indemnification by the Registrant for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the provisions referenced in Item 14 of this registration statement or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act, and is therefore unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer, or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered hereunder, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
