## **ITEM 8.01. OTHER EVENTS**

### **Stockholder Presentation**

Commencing May 2, 2007, Argyle Security Acquisition Corporation ("Argyle") intends to hold presentations for its stockholders regarding its proposed acquisition of ISI Detention Contracting Group, Inc. ("ISI"), as described in Argyle's Form 8-K dated December 8, 2006. The presentation is attached as Exhibit 99.1 and is incorporated by reference herein.

Argyle and its directors and executive officers may be deemed to be participants in the solicitation of proxies for the special meeting of Argyle stockholders to be held to approve the acquisition of ISI. Argyle's stockholders are advised to review Argyle's registration statement on Form S-4, as amended, preliminary proxy statement and definitive proxy statement, when available, in connection with Argyle's solicitation of proxies for the special meeting to approve the acquisition because these documents will contain important information. The definitive proxy statement will be mailed to stockholders as of a record date to be established for voting on the acquisition. Stockholders will also be able to obtain a copy of the definitive proxy statement, without charge, by directing a request to: Bob Marbut, Argyle Security Acquisition Corporation, 200 Concord Plaza, Suite 700, San Antonio, TX 78216. The registration statement on Form S-4, as amended, preliminary proxy statement and definitive proxy statement, when available, can also be obtained, without charge, at the Securities and Exchange Commission's internet site (<http://www.sec.gov>).

### **Non-GAAP Financial Measures**

The presentation attached as Exhibit 99.1 contains disclosure of disclosure of EBITDA and backlog (including "Total Backlog") for certain periods, which may be deemed to be non-GAAP financial measures within the meaning of Regulation G promulgated by the Securities and Exchange Commission. As used in this presentation, adjusted EBITDA reflects the removal from the calculation of EBITDA of certain expenses that Argyle and ISI agreed should not reduce EBITDA. The companies do not expect these expenses to continue after the closing of the merger. Management believes that adjusted EBITDA, or earnings before interest, taxes, depreciation and amortization, is an appropriate measure of evaluating operating performance and liquidity, because it reflects the resources available for strategic opportunities including, among others, investments in the business and strategic acquisitions. Management believes that the backlog, or unearned revenues on projects that have been booked, is an appropriate measure of evaluating operating performance, because it reflects future potential revenues. Total Backlog is the aggregate backlog of ISI's three operating divisions, before intercompany eliminations. Adjusted EBITDA or backlog may not be comparable to similarly titled measures reported by other companies. Neither EBITDA nor backlog is a recognized term under U.S. GAAP, and EBITDA and backlog should be considered in addition to, and not as substitutes for, or superior to, operating income, cash flows, revenues, or other measures of financial performance prepared in accordance with generally accepted accounting principles. Neither adjusted EBITDA nor backlog is a completely representative measure of either the historical performance or, necessarily, the future potential of ISI.

## **ISI Financial Results**

ISI had revenues of \$18.9 million and \$13.4 million for the quarters ended March 31, 2007 and March 31, 2006, respectively, representing a \$5.5 million increase, or 41%. EBITDA was \$1.6 million and \$1.0 million for the quarters ended March 31, 2007 and March 31, 2006, respectively. This represents an increase from March 31, 2006 to March 31, 2007 of \$0.6 million, or 60%.

Management has historically utilized Earning Before Interest Taxes Depreciation and Amortization (“EBITDA”) as a tool for analyzing segment performance. The calculation is simply Operating Income (Loss) Before Taxes plus interest, taxes, depreciation and amortization expenses. EBITDA is the bench mark used by management for budgeting, performance evaluation and employee compensation. Below are the EBITDA results for years ended December 31, 2004 through December 31, 2006 along with the first quarter ended March 31, 2006 and 2007.

Also included in the table are the adjustments to EBITDA determined in accordance with the merger agreement between Argyle and ISI.
