## EXPLANATORY NOTE

This Current Report on Form 8-K/A amends and supplements the Current Report on Form 8-K filed by Pebblebrook Hotel Trust on August 4, 2011 reporting the investment in a joint venture with Denihan Ownership Company, LLC, an affiliate of Denihan Hospitality Group, (i) to file the historical financial statements and pro forma financial information required by Items 9.01(a) and (b) of Form 8-K, (ii) to correctly reflect the value shown for Preferred Capital (as defined below) under Item 1.01 of this Current Report on Form 8-K and (iii) to file the definitive Owner JV Operating Agreement (as defined below).

### Item 1.01. Entry into a Material Definitive Agreement.

On July 29, 2011, Pebblebrook Hotel Trust (the “Company”) closed on the previously disclosed investment in a joint venture with Denihan Ownership Company, LLC (“DOC”), an affiliate of Denihan Hospitality Group (“Denihan”). The joint venture is composed of two entities: DP Fee Holding Co., LLC (“Owner JV”) and DP Lease Holding, LLC (“Lessee JV”). Owner JV owns six hotels located in Manhattan, New York, as further described below, and is governed by an operating agreement (the “Owner JV Operating Agreement”) between Cardinals Owner LLC (“Cardinal Sub”), a wholly owned subsidiary of the Company and DOC. Lessee JV owns six entities that serve as lessees for each hotel, and is governed by an operating agreement (the “Lessee JV Operating Agreement”) between a subsidiary of the Company’s taxable REIT subsidiary and DOC. The Company purchased a 49% interest in each entity for an aggregate price of approximately \$153.6 million.

Each of the Owner JV Operating Agreement and the Lessee JV Operating Agreement (each, an “Operating Agreement”) provides that all decisions on behalf of the applicable joint venture entity will be made jointly by both members thereto (with certain limited exceptions set forth therein). Either member may initiate a call for further capital contributions of the members to the extent necessary to preserve, protect or maintain the hotels or the interests of the joint venture entities therein.

Owner JV distributed a portion of the purchase price to DOC and its affiliates, but retained approximately \$84.4 million of the cash investment (the “Preferred Capital”). All or any portion of the Preferred Capital may be loaned to affiliates of Denihan at an interest rate equal to the applicable IRS federal rate for the term of such loan, and any such loan must be guaranteed by DOC and supported by DOC’s pledge of all of its equity in Owner JV and Lessee JV. The Owner JV Operating Agreement provides that upon the request of DOC from time to time at any time after the later of (a) October 30, 2013 or (b) the date on which the joint venture has refinanced, modified or extended the \$596.6 million in existing first mortgage and mezzanine debt on the six hotel properties, Owner JV must distribute to DOC all or any part of the accrued but unpaid Preferred Return (as defined below) and, to the extent not then loaned to a Denihan affiliate, the unreturned Preferred Capital.

The Owner JV Operating Agreement provides that Owner JV will distribute its Operating Cash Flow (as defined therein) as follows:

- first, to DOC to provide a cumulative, annually compounded return on the unreturned Preferred Capital equal to the applicable IRS federal rate less one-half of one percent (the “Preferred Return”);
  - thereafter, to the members in proportion to their then-current respective percentage interests.

The Owner JV Operating Agreement further provides that Owner JV will distribute its Extraordinary Cash Flow (as defined therein) as follows:

- first, to DOC to the extent of any accrued and unpaid Preferred Return;
-

second, to DOC to the extent of any unreturned amount of its Preferred Capital (to the extent not loaned to Denihan affiliates);

- thereafter, to the members in proportion to their then-current respective percentage interests in the Joint Venture.

The Lessee JV Operating Agreement provides that all cash flow will be distributed to its members in proportion to their then-current respective percentage interests in the Lessee JV.

Each Operating Agreement provides that after July 29, 2016, and subject to certain rights specified therein, each member shall have the right to: (a) sell all of its membership interests in the applicable joint venture; (b) cause the applicable joint venture to sell one or more, but fewer than all, of its hotel properties; and (c) cause the applicable joint venture to sell its entire portfolio of hotel properties (a "Portfolio Sale"). Prior to July 29, 2016, a member may make a Portfolio Sale if the other member has committed and not cured an Event of Default (as defined in each Operating Agreement) and DOC may make a Portfolio Sale if any hotel management agreement with respect to any of the hotels has been terminated other than for "cause" (as defined therein). In each of these sale cases, each member will have a right of first offer to purchase the other member's interests or the properties owned by the applicable joint venture, as applicable, to be sold to a third party.

The preceding summary of the Operating Agreements is qualified in its entirety by reference to the terms of each Operating Agreement, copies of which are filed as Exhibits 10.1 and 10.2 filed herewith.

Independent Auditor's Report

To The Member of  
DP Fee Holding Co., LLC

We have audited the consolidated balance sheets DP Fee Holding Co., LLC as of December 31, 2010 and 2009 and the related consolidated statements of member's equity (deficit), operations and cash flows for each of the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of DP Fee Holding Co., LLC at December 31, 2010 and 2009 and the results of its operations and its cash flows for each of the years then ended in conformity with accounting principles generally accepted in the United States of America.

Note 2 - Summary of significant accounting policies

Use of estimates

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain estimates used by management are particularly susceptible to changes, such as the useful lives and recoverability of costs of property and equipment. Management believes that the estimates used are adequate based on the information currently available.

Significant concentrations

Certain amounts of the Company's cash is on deposit in one bank which exceeds federally insured limits. The Company has not experienced any loss on its deposits.

Edgar Filing: Pebblebrook Hotel Trust - Form 8-K/A

Approximately 72%, 72% and 71% of the Company's workforce at June 30, 2011, December 31, 2010 and December 31, 2009, respectively, is covered by collective bargaining agreements which expire on June 30, 2012 and April 20, 2014.

## DP FEE HOLDING CO., LLC

## Notes to Consolidated Financial Statements (continued)

## Fair value of financial instruments

The estimated fair value of the Company's cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate carrying amounts due to the short-term maturities of these instruments. ## Cash and cash equivalents

The Company considers all instruments with an original maturity of three months or less to be cash equivalents.

## Impairment of long-lived assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to aggregate future net cash flows (undiscounted and without interest) expected to be generated by the asset. If such assets are considered impaired, the impairment to be recognized is measured by the amount by which the carrying amounts of the assets exceed the fair value.

## Inventory

Inventory is valued at the lower of cost (first-in, first-out) or market.

Deferred expenses

Expenditures incurred in connection with obtaining long-term debt are being amortized using the straight-line basis over the term of the related debt.

Accounting for derivative instruments and hedging activities

The Company applies the provisions of Accounting Standards Codification (ASC) 815-10.

ASC 815-10 requires that all derivative instruments be recorded on the balance sheet at fair value. Changes in fair value of derivatives are recorded each period in current earnings or other comprehensive income, depending on whether the derivative is designated as part of a hedge transaction and, if it is, depending on the type of hedge transaction.

For cash-flow hedge transactions in which the Company hedges the variability of cash flows related to a variable-rate asset, liability or a forecasted transaction, changes in fair value of the derivative instrument are reported in other comprehensive income (loss). The gains and losses on the derivative instrument that are reported in other comprehensive income (loss) are reclassified to earnings in the periods in which earnings are impacted by the variability of cash flows of the hedged item.

Income taxes

The Company is a limited liability company which is not recognized as a taxable entity for Federal or State tax purposes. As such, no provision has been made for income taxes, since such taxes, if any, are the responsibility of the ultimate members of the Company.

Subsequent events

The Company has evaluated significant events subsequent to the balance sheet date through the date the financial statements were issued and has determined that there were no subsequent events or transactions which would require recognition or disclosure in the consolidated financial statements, except that the Company admitted a new 49% member on July 29, 2011.

Note 3 - Long term debt

On July 9, 2007 the six hotels owned by the individual entities were financed with \$600 million in debt obligations (\$280 million in the form of mortgage debt and \$320 million in mezzanine loans.) The mezzanine portion of the financing is secured by the Company's ownership interest in the properties and is reflected in the total long-term debt of the six hotels.

All loans had an original maturity date of August 1, 2009 and were extended per agreement dated August 16, 2010 and effective as of August 1, 2009 until February 1, 2012 with a one-year extension option.

Under the terms of the agreement the Company is required to fund the following escrows:

- Taxes
- Insurance
- Mortgage debt service
- Administrative fees
- Operating expenses

Furniture, fixtures and equipment  
Mezzanine debt service

All cash receipts are to be deposited into a lockbox and such receipts shall be disbursed in accordance with the agreement.

The specified guarantors guarantee the completion of specified renovation projects.

The loans are non-recourse to the borrower with the exception of certain limited obligations of the borrower arising out of or in connection with certain events or acts among which is fraud or material misrepresentation. Further, the loans will become recourse to the guarantors if certain events occur, amongst which is the mezzanine borrower or any individual borrower filing a voluntary bankruptcy petition.

Note 4 - Derivative asset and other comprehensive income

The Company had entered into an interest rate cap agreement with the intent to manage interest rate exposure. The agreement had an aggregate notional amount of \$600,000,000 and expired on August 1, 2009. This agreement effectively fixed the LIBOR linked debt at a maximum rate of 6.50%. The interest rate differentials under such agreement were entered into to minimize the risks associated with financing activities. The Company was exposed to credit risk in the event of non-performance by these counterparties; however, the company considered non-performance to be remote.

## Notes to Consolidated Financial Statements (continued)

Applying the provisions of ASC 815-10, the Company recognized a derivative asset of \$1,707, \$94,566 and \$-0- as of June 30, 2011, December 31, 2010 and 2009, respectively, which represents the difference between the carrying value and fair market value of the interest rate cap. Such change has been recorded through member's equity, as comprehensive income (loss).

	Six Months Ended		December 31	
	2011 (Unaudited)	2010 (Unaudited)	2010	2009
Comprehensive income (loss) consists of:

Comprehensive income (loss)	\$ (5,403,852)	\$ (2,989,584)	\$ 6,272,742	\$ 3,207,506

The Company follows Financial Accounting Standards Board (FASB) guidance on Fair Value Measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable inputs and are used to the extent that observable inputs do not exist.

The following table summarizes the valuation of the Company's financial assets by the above fair value hierarchy levels:

	June 30, 2011			Total
	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
