Edgar Filing: Stellus Capital Investment Corp - Form 10-Q

See Note 1 of the Notes to the Consolidated Financial Statements for a discussion of the methodologies used to value securities in the portfolio.

(2) Investments held by the SBIC subsidiary, which include \$9,085,503 of cash and \$198,558,584 of investments (at cost) are excluded from the obligations to the lenders of the Credit Facility. The Company's obligations to the lenders of the Credit Facility, as defined in Note 9, are secured by a first priority security interest in all investments and cash and cash equivalents, except for investments held by the SBIC Subsidiary.

(3) These loans have LIBOR or Euro Floors that are higher than the current applicable LIBOR or Euro rates; therefore, the floors are in effect.

(4) Security is non-income producing.

(5) The investment is not a qualifying asset under the Investment Company Act of 1940, as amended. The Company may not acquire any non-qualifying assets unless, at the time of the acquisition, qualifying assets represent at least 70% of the Company's total assets. Qualifying assets represent approximately 88% of the Company's total assets as of June 30, 2018.

(6) Represents a PIK security. At the option of the issuer, interest can be paid in cash or cash and PIK. The percentage of PIK shown is the maximum PIK that can be elected by the issuer.

(7) Excluded from the investment is an undrawn revolver commitment in an amount not to exceed \$666,666, with an interest rate of LIBOR plus 6.25% and a maturity of June 29, 2022. This investment is accruing an unused commitment fee of 0.50% per annum.

(8) Excluded from the investment is an undrawn delayed draw term loan commitment in an amount not to exceed \$1,143,451, with an interest rate of LIBOR plus 6.35% and a maturity of April 23, 2023. This investment is accruing an unused commitment fee of 1.00% per annum.

(2) Investments held by the SBIC Subsidiary, which include \$5,258,500 of cash and \$154,149,450 of investments (at cost) are excluded from the obligations to the lenders of the Credit Facility. The Company's obligations to the lenders of the Credit Facility, as defined in Note 9, are secured by a first priority security interest in all investments and cash and cash equivalents, except for investments held by the SBIC Subsidiary.

(3) These loans have LIBOR or Euro Floors that are higher than the current applicable LIBOR or Euro rates; therefore, the floors are in effect.

(4) Security is non-income producing.

(5) The investment is not a qualifying asset under the Investment Company Act of 1940, as amended. The Company may not acquire any non-qualifying assets unless, at the time of the acquisition, qualifying assets represent at least 70% of the Company's total assets. Qualifying assets represent approximately 86% of the Company's total assets as of December 31, 2017.

(7) Excluded from the investment is an undrawn revolver commitment in an amount not to exceed \$666,666, with an interest rate of LIBOR plus 6.25% and a maturity of June 29, 2022. This investment is accruing an unused commitment fee of 0.50% per annum.

(8) In the fourth quarter of 2016, Binder & Binder National Social Security Disability, emerged from Chapter 11 Bankruptcy in the U.S. Bankruptcy Court, Southern District of New York. The investment's fair value has been adjusted to reflect the court-approved unsecured claim distribution proceeds that have been awarded to the Company. As of this time, the Company does not expect to receive any additional repayment other than the court awarded amount.

(9) Excluded from the investment is an undrawn revolver commitment in an amount not to exceed \$1,750,000, with an interest rate of LIBOR plus 6.50% and a maturity of December 22, 2022. This investment is accruing an unused commitment fee of 0.50% per annum.

Excluded from the investment is an undrawn commitment in an amount not to exceed \$520,000, with an interest (10) rate of LIBOR plus 8.00% and a maturity of September 30, 2018. This investment is accruing an unused commitment fee of 0.50% per annum.

(11) Interest compounds annually on this loan at a rate of 11%. The interest does not increase the principal balance.

(12) These loans have LIBOR floors that are lower than the applicable LIBOR rates; therefore, the floors are not in effect.

(13) These loans are last-out term loans with contractual rates higher than the applicable LIBOR rates; therefore, the floors are not in effect.

Excluded from the investment is an undrawn commitment in an amount not to exceed \$5,750,000, with an interest (14) rate of LIBOR plus 7.62% and a maturity of July 26, 2022. This investment is accruing an unused commitment fee of 0.50% per annum.

(15) Investment has been on non-accrual since November 1, 2017.

(16) This loan is a last-out term loan with a set contractual rate that equals the current applicable LIBOR rate.

(17) This loan is a unitranche investment.

NOTE 1 — NATURE OF OPERATIONS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Stellus Capital Investment Corporation (“we”, “us”, “our” and the “Company”) was formed as a Maryland corporation on May 18, 2012 (“Inception”) and is an externally managed, closed-end, non-diversified investment management company. The Company is applying the guidance of Accounting Standards Codification (“ASC”) Topic 946, *Financial Services Investment Companies*. The Company has elected to be regulated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”) and treated as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), for U.S. federal income tax purposes. The Company’s investment activities are managed by our investment adviser, Stellus Capital Management, LLC (“Stellus Capital” or the “Advisor”).

As of June 30, 2018, the Company had issued a total of 15,953,810 shares and raised \$235,743,464 in gross proceeds since Inception, incurring \$7,566,535 in offering expenses and sales load fees for net proceeds from offerings of \$228,176,928. The Company’s shares are currently listed on the New York Stock Exchange under the symbol “SCM”. See Note 4 for further details.

The Company has established the following wholly owned subsidiaries: SCIC — Consolidated Blocker 1, Inc., SCIC — ICD Blocker 1, Inc., SCIC — SKP Blocker 1, Inc., SCIC — APE Blocker 1, Inc., SCIC — CC Blocker 1, Inc., SCIC — ERC Blocker 1, Inc., and SCIC — Hollander Blocker 1, Inc., which are structured as Delaware entities, to hold equity or equity-like investments in portfolio companies organized as limited liability companies, or LLCs (or other forms of pass-through entities) (collectively, the “Taxable Subsidiaries”). The Taxable Subsidiaries are consolidated for U.S. generally accepted accounting principles (“U.S. GAAP”) reporting purposes, and the portfolio investments held by them are included in the consolidated financial statements.

On June 14, 2013, we formed Stellus Capital SBIC, LP (the “SBIC subsidiary”), a Delaware limited partnership, and its general partner, Stellus Capital SBIC GP, LLC, a Delaware limited liability company, as wholly owned subsidiaries of the Company. On June 20, 2014, the SBIC subsidiary received a license from the U.S. Small Business Administration

("SBA") to operate as a Small Business Investment Company ("SBIC") under Section 301(c) of the Small Business Investment Company Act of 1958, as amended. The SBIC subsidiary and its general partner are consolidated for U.S. GAAP reporting purposes, and the portfolio investments held by it are included in the consolidated financial statements.

The SBIC license allows the SBIC subsidiary to obtain leverage by issuing SBA-guaranteed debentures, subject to the issuance of a capital commitment by the SBA and other customary procedures. SBA-guaranteed debentures are non-recourse, interest only debentures with interest payable semi-annually and have a ten year maturity. The principal amount of SBA-guaranteed debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA-guaranteed debentures is fixed on a semi-annual basis at a market-driven spread over U.S. Treasury Notes with 10-year maturities. The SBA, as a creditor, will have a superior claim to the SBIC's assets over the Company's stockholders in the event the Company liquidates the SBIC subsidiary or the SBA exercises its remedies under the SBA-guaranteed debentures issued by the SBIC subsidiary upon an event of default. SBA regulations currently limit the amount that a single licensee may borrow to a maximum of \$150,000,000 when it has at least \$75,000,000 in regulatory capital, as such term is defined by the SBA, receives a capital commitment from the SBA and has been through an examination by the SBA subsequent to licensing. As of June 30, 2018 and December 31, 2017, the SBIC subsidiary had \$75,000,000 and \$67,500,000 of regulatory capital, respectively, as such term is defined by the SBA, and had received commitments from the SBA of \$150,000,000 and \$90,000,000, respectively. As of June 30, 2018 and December 31, 2017, the SBIC subsidiary had \$130,000,000 and \$90,000,000 of SBA-guaranteed debentures outstanding, respectively. See footnote (2) of the Consolidated Schedule of Investments for additional information regarding the treatment of SBIC investments with respect to the Credit Facility.

As a BDC, we are required to comply with certain regulatory requirements. We were formerly only allowed to employ leverage to the extent that our asset coverage, as defined in the 1940 Act, was equal to at least 200% (or 150% if certain requirements were met) after giving effect to such leverage. On March 23, 2018, the Small Business Credit Availability Act (the "SBCAA") was signed into law, which included various changes to regulations under the federal securities laws that impact BDCs. The SBCAA included changes to the 1940 Act to allow BDCs to decrease their asset coverage requirement to 150% from 200% under certain circumstances.

On April 4, 2018, the Company's board of directors (the "Board"), including a "required majority" (as such term is defined in Section 57(o) of the Investment Company Act of 1940, as amended (the "1940 Act")) of the Board, approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act. The Board also approved the submission of a proposal to approve the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, which was approved by shareholders at the Company's 2018 annual meeting of stockholders. As a result, the asset coverage ratio test applicable to the Company was decreased from 200% to 150%, effective June 28, 2018. The amount of leverage that we employ at any time depends on our assessment of the market and other factors at the time of any proposed borrowing.

The Company's investment objective is to maximize the total return to its stockholders in the form of current income and capital appreciation through debt and related equity investments in middle-market companies. The Company seeks to achieve its investment objective by originating and investing primarily in private U.S. middle-market companies (typically those with \$5,000,000 to \$50,000,000 of EBITDA (earnings before interest, taxes, depreciation and amortization)) through first lien, second lien, unitranche and unsecured debt financing, with corresponding equity

co-investments. It sources investments primarily through the extensive network of relationships that the principals of Stellus Capital have developed with financial sponsor firms, financial institutions, middle-market companies, management teams and other professional intermediaries.

Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared on the accrual basis of accounting in conformity with U.S. GAAP for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Accordingly, certain disclosures accompanying the annual financial statements prepared in accordance with U.S. GAAP are omitted. The unaudited consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries.

In the opinion of management, the unaudited consolidated financial results included herein contain all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of the financial statements for the interim periods included herein. The results of operations for the three and six months ended June 30, 2018 and June 30, 2017 are not necessarily indicative of the operating results to be expected for the full year. Also, the unaudited consolidated financial statements and notes should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2017. In accordance with Regulation S-X under the Securities Act of 1933, as amended (the “Exchange Act”), the Company does not consolidate portfolio company investments. The accounting records of the Company are maintained in U.S. dollars.

Portfolio Investment Classification

The Company classifies its portfolio investments in accordance with the requirements of the 1940 Act as follows: (a) “Control Investments” are defined as investments in which the Company owns more than 25% of the voting securities or has rights to maintain greater than 50% of the board representation, (b) “Affiliate Investments” are defined as investments in which the Company owns between 5% and 25% of the voting securities and does not have rights to maintain greater than 50% of the board representation, and (c) “Non-controlled, non-affiliate investments” are defined as investments that are neither Control Investments or Affiliate Investments.

Cash and Cash Equivalents

At June 30, 2018, cash balances totaling \$426,928 exceeded FDIC insurance protection levels of \$250,000 by \$176,928, subjecting the Company to risk related to the uninsured balance. In addition, at June 30, 2018, the Company held \$20,513,537 in cash equivalents, which are carried at cost, which approximates fair value. All of the Company's cash deposits are held at large established high credit quality financial institutions and management believes that risk of loss associated with any uninsured balances is remote.

Cash consists of bank demand deposits. We deem certain U.S. Treasury Bills and other high-quality, short-term debt securities as cash equivalents. At the end of each fiscal quarter, we may take proactive steps to ensure we are in compliance with the RIC diversification requirements under Subchapter M of the Code, which are dependent upon the composition of our total assets at quarter end. We may accomplish this in several ways, including purchasing U.S. Treasury Bills and closing out positions after quarter-end or temporarily drawing down on the Credit Facility (see Note 9). On June 30, 2018, and December 31, 2017, we held no U.S. Treasury Bills.

Fair Value Measurements

We account for substantially all of our financial instruments at fair value in accordance with ASC Topic 820 — Fair Value Measurements and Disclosures (“ASC Topic 820”). ASC Topic 820 defines fair value, establishes a framework used to measure fair value, and requires disclosures for fair value measurements, including the categorization of financial instruments into a three-level hierarchy based on the transparency of valuation inputs. ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. We believe that the carrying amounts of our financial instruments such as cash, receivables and payables approximate the fair value of these items due to the short maturity of these instruments. This is considered a Level 1 valuation technique. The carrying values of our Credit Facility and SBA-guaranteed debentures approximate fair value because the interest rates adjusts to the market interest rates (Level 3 input). The carrying value of our Notes is based on the closing price of the security (level 2 input). See Note 6 to the consolidated financial statements for further discussion regarding the fair value measurements and hierarchy.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Consolidation

As permitted under Regulation S-X under the Exchange Act and ASC Topic 946, we generally do not consolidate our investment in a portfolio company other than an investment company subsidiary. Accordingly, we consolidated the results of the SBIC subsidiary and the Taxable Subsidiaries. All intercompany balances have been eliminated upon consolidation.

Use of Estimates

The preparation of the consolidated statements of assets and liabilities in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially.

Deferred Financing Costs, Prepaid Loan Fees on SBA Debentures and Prepaid Loan Structure Fees

Deferred financing costs, prepaid loan fees on SBA-guaranteed debentures and prepaid loan structure fees consist of fees and expenses paid in connection with the closing of our Notes, Credit Facility, and SBA-guaranteed debentures and are capitalized at the time of payment. These costs are presented as a direct deduction to the carrying amount of the respective liability and amortized using the straight line method over the term of the respective instrument.

Offering Costs

Deferred offering costs consist of fees and expenses incurred in connection with the offer and sale of the Company's common stock, including legal, accounting, printing fees and other related expenses, as well as costs incurred in connection with the filing of a shelf registration statement. These costs are capitalized when incurred and recognized as a reduction of offering proceeds when the offering is consummated and shown on the Consolidated Statement of Changes in Net Assets and Liabilities as a reduction to Paid-in-Capital. No such costs were capitalized during the quarter ended June 30, 2018.

Investments

As a BDC, the Company will generally invest in illiquid loans and securities including debt and equity securities of private middle-market companies. Under procedures established by our board of directors, the Company intends to value investments for which market quotations are readily available at such market quotations. The Company will obtain these market values from an independent pricing service or at the median between the bid and ask prices obtained from at least two brokers or dealers (if available, otherwise by a principal market maker or a primary market dealer). Debt and equity securities that are not publicly traded or whose market prices are not readily available will be valued at fair value as determined in good faith by our board of directors. Such determination of fair values may involve subjective judgments and estimates. The Company also engages independent valuation providers to review the valuation of each portfolio investment that does not have a readily available market quotation at least twice annually.

Investments purchased within approximately 90 days of the valuation date will be valued at cost plus accreted discount, or minus amortized premium, which approximates fair value. With respect to unquoted securities, our board of directors, will value each investment considering, among other measures, discounted cash flow models, comparisons of financial ratios of peer companies that are public and other factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, the board of directors will use the pricing indicated by the external event to corroborate and/or assist us in our valuation. Because the Company expects that there will not be a readily available market for many of the investments in its portfolio, the Company expects to value most of its portfolio investments at fair value as determined in good faith by the board of directors using a documented valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material.

STELLUS CAPITAL INVESTMENT CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

In following these approaches, the types of factors that will be taken into account in fair value pricing investments will include, as relevant, but not be limited to:

• available current market data, including relevant and applicable market trading and transaction comparables;

• applicable market yields and multiples;

• security covenants;

• call protection provisions;

• information rights;

• the nature and realizable value of any collateral;

• the portfolio company's ability to make payments, its earnings and discounted cash flows and the

• markets in which it does business;

• comparisons of financial ratios of peer companies that are public;

• comparable merger and acquisition transactions; and

• the principal market and enterprise values.

Revenue Recognition

We record interest income on an accrual basis to the extent such interest is deemed collectible. For loan and debt securities with contractual payment-in-kind (“PIK”) interest, which represents contractual interest accrued and added to the loan balance that generally becomes due at maturity, we do not accrue PIK interest if the portfolio company valuation indicates that such PIK interest is not collectible. We will not accrue interest on loans and debt securities if we have reason to doubt our ability to collect such interest. Loan origination fees, original issue discount and market discount or premium are capitalized, and we then accrete or amortize such amounts using the effective interest method as interest income. Upon the prepayment of a loan or debt security, any unamortized loan origination fee is recorded as interest income. We record prepayment premiums on loans and debt securities as other income. Dividend income, if any, will be recognized on the ex-dividend date.

To maintain our treatment as a RIC, substantially all of this income must be paid to stockholders in the form of distributions, even if we have not collected any cash.

Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation

We measure realized gains or losses by the difference between the net proceeds from the repayment, sale or disposition and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

Investment Transaction Costs

Costs that are material associated with an investment transaction, including legal expenses, are included in the cost basis of purchases and deducted from the proceeds of sales unless such costs are reimbursed by the borrower.

Receivables and Payables for Unsettled Securities Transaction

The Company records all investments on a trade date basis.

STELLUS CAPITAL INVESTMENT CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

U.S. Federal Income Taxes

The Company has elected to be treated as a RIC under Subchapter M of the Code, and to operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify for tax treatment as a RIC, among other things, the Company is required to timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year. So long as the Company maintains its status as a RIC, it generally will not pay corporate-level U.S. federal income taxes on any ordinary income or capital gains that it distributes at least annually to its stockholders as dividends. Rather, any tax liability related to income earned by the Company represents obligations of the Company's investors and will not be reflected in the consolidated financial statements of the Company.

To avoid a 4% U.S. federal excise tax on undistributed earnings, the Company is required to distribute each calendar year the sum of (i) 98% of its ordinary income for such calendar year (ii) 98.2% of its net capital gains for the one-year period ending December 31 (iii) any income recognized, but not distributed, in preceding years and on which the Company paid no federal income tax or the Excise Tax Avoidance Requirement. For this purpose, however, any net ordinary income or capital gain net income retained by us that is subject to corporate income tax for the tax year ending in that calendar year will be considered to have been distributed by year end (or earlier if estimated taxes are paid). The Company, at its discretion, may choose not to distribute all of its taxable income for the calendar year and pay a non-deductible 4% excise tax on this income. If the Company chooses to do so, all other things being equal, this would increase expenses and reduce the amount available to be distributed to stockholders. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, the Company accrues excise taxes on estimated excess taxable income as taxable income is earned. Deducted from other general and administrative expense for the six months ended June 30, 2018 is a refund of the estimated excise tax paid relating to the year ended December 31, 2016 of \$37,648. Included in other general and administrative expenses for the six months ended June 30, 2017 is an additional estimate of \$14,985 related to the estimated excise tax for the year ended December 31, 2016. The Company accrued \$22,663 as of December 31, 2016 and paid \$37,648 during the six months ending June 30, 2017.

The Company evaluates tax positions taken or expected to be taken in the course of preparing its tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions deemed to meet a "more-likely-than-not" threshold would be recorded as a tax benefit or expense in the applicable period.

As of June 30, 2018 and December 31, 2017, the Company had not recorded a liability for any unrecognized tax positions. Management's evaluation of uncertain tax positions may be subject to review and adjustment at a later date based upon factors including, but not limited to, an on-going analysis of tax laws, regulations and interpretations thereof. The Company's policy is to include interest and penalties related to income taxes, if applicable, in general and administrative expenses. Any expenses for the three and six months ended June 30, 2018 and 2017, were de minimis.

On December 22, 2017, the "Tax Cuts and Jobs Act" legislation was signed into law. The Tax Cuts and Jobs Act includes significant changes to the U.S. corporate tax system, including a reduction in the U.S. corporate income tax rate from 35% to 21%. ASC 740, Income Taxes, requires the effect of changes in tax rates and laws on deferred tax balances to be recognized in the period in which the legislation is enacted. As such, we have accounted for the tax effects as a result of the Tax Cuts and Jobs Act beginning with the period ending December 31, 2017.

The Taxable Subsidiaries are direct wholly owned subsidiaries of the Company that have elected to be taxable entities. The Taxable Subsidiaries permit the Company to hold equity investments in portfolio companies which are "pass through" entities for tax purposes and continue to comply with the "source-of-income" requirements contained in RIC tax provisions of the Code. The Taxable Subsidiaries are not consolidated with the Company for income tax purposes and may generate income tax expense, benefit, and the related tax assets and liabilities, as a result of their ownership of certain portfolio investments. The income tax expense, or benefit, if any, and related tax assets and liabilities are reflected in the Company's consolidated financial statements.

The Taxable Subsidiaries use the liability method in accounting for income taxes. Deferred tax assets and liabilities are recorded for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements, using statutory tax rates in effect for the year in which the temporary differences are expected to reverse. A valuation allowance is provided against deferred tax assets when it is more likely than not that some portion or all of the deferred tax asset will not be realized.

STELLUS CAPITAL INVESTMENT CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

Taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses. Taxable income generally excludes net unrealized appreciation or depreciation, as investment gains or losses are not included in taxable income until they are realized.

For the three and six months ended June 30, 2018, the Company recorded deferred income tax provision of \$9,194 and \$9,194, respectively, related to the Taxable Subsidiaries. For the three and six months ended June 30, 2017, the Company recorded deferred income tax benefit of \$0 and \$8,593, respectively, related to the Taxable Subsidiaries. In addition, as of June 30, 2018 and December 31, 2017, the Company had a deferred tax liability of \$9,194 and \$0, respectively.

Earnings per Share

Basic per share calculations are computed utilizing the weighted average number of shares of common stock outstanding for the period. The Company has no common stock equivalents. As a result, there is no difference between diluted earnings per share and basic per share amounts.

Paid In Capital

The Company records the proceeds from the sale of its common stock on a net basis to (i) capital stock and (ii) paid in capital in excess of par value, excluding all commissions and marketing support fees.

Recently Issued Accounting Standards

In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The guidance in this ASU supersedes the revenue recognition requirements in Revenue

Recognition (Topic 605). Under the new guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The update is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this guidance effective January 1, 2018. Note, the guidance exempts interest income from the above guidance, indicating recognition will remain the same. We have completed our analysis on the above guidance and have concluded on the recognition treatment of other income streams such as repayment penalty fees, origination fees, miscellaneous fees etc. Stellus will continue to recognize origination fees over the life of the loan. Repayment penalty fees will be recognized immediately if a repayment is made and miscellaneous fees such as administration fees will be recognized on the contract renewal date or other discrete point in time per the credit agreement. Per the Topic 606 update, Stellus' timing of its revenue recognition will remain the same for the identified revenue streams as previously reported.

In November 2015, the FASB issued ASU 2015-17 — Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes. ASU 2015-17 requires entities to present deferred tax assets and deferred tax liabilities as noncurrent in a classified balance sheet. It simplifies the current guidance, which requires entities to separately present deferred tax assets and liabilities as current or noncurrent in a classified balance sheet. The guidance was effective for the Company as of January 1, 2017 and there has been no material impact on its consolidated financial statement.

In January 2016, the FASB issued ASU No. 2016-01 — Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 revises an entity's accounting related to (1) the classification and measurement of investments in equity securities and (2) the presentation of certain fair value changes for financial liabilities measured at fair value. It also amends certain disclosure requirements associated with the fair value of financial instruments. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods therein. The Company adopted this standard effective January 1, 2018, which has not had a material impact on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15 — Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. The new guidance addresses the classification of various transactions including debt prepayment or debt extinguishment costs, settlement of zero-coupon debt instruments, contingent consideration payments made after a business combination, distributions received from equity method investments, beneficial interests in securitization transactions, and others. The update is effective for annual periods beginning after December 31, 2018, and interim periods within those annual periods. The Company is currently assessing the impact of the guidance, however, it does not expect any impact of this new guidance on its consolidated financial statements to be material.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

From time to time, new accounting pronouncements are issued by the FASB or other standards setting bodies that are adopted by the Company as of the specified effective date. We believe the impact of the recently issued standards and any that are not yet effective will not have a material impact on our consolidated financial statements upon adoption.

NOTE 2 — RELATED PARTY ARRANGEMENTS

Investment Advisory Agreement

The Company has entered into an investment advisory agreement with Stellus Capital pursuant to which Stellus Capital swerves as its investment advisor. Pursuant to this agreement, the Company has agreed to pay to Stellus Capital an annual base management fee of 1.75% of gross assets, including assets purchased with borrowed funds or other forms of leverage and excluding cash and cash equivalents, and an annual incentive fee.

For the three and six months ended June 30, 2018, the Company recorded an expense for base management fees of \$2,049,023 and \$3,797,919, respectively. For the three and six months ended June 30, 2017, the Company recorded an expense for base management fees of \$1,523,010 and \$3,087,538, respectively. As of June 30, 2018 and December 31, 2017, \$1,549,023 and \$1,621,592, respectively, were payable to Stellus Capital.

The incentive fee has two components, investment income and capital gains, as follows:

Investment Income Incentive Fee

The investment income component (“Income Incentive Fee”) is calculated, and payable to the Advisor, quarterly in arrears based on the Company’s pre-incentive fee net investment income for the immediately preceding calendar quarter, subject to a cumulative total return requirement and to deferral of non-cash amounts. The pre-incentive fee net

investment income, which is expressed as a rate of return on the value of the Company's net assets attributable to the Company's common stock, for the immediately preceding calendar quarter, will have a 2.0% hurdle rate (also referred to as the "Hurdle"). Pre-incentive fee net investment income means interest income, dividend income and any other income accrued during the calendar quarter, minus the Company's operating expenses for the quarter excluding the incentive fee. Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with PIK interest and zero coupon securities), accrued income that the Company has not yet received in cash. The Advisor receives no incentive fee for any calendar quarter in which the Company's pre-incentive fee net investment income does not exceed the Hurdle. Subject to the cumulative total return requirement described below, the Advisor receives 100% of the Company's pre-incentive fee net investment income for any calendar quarter with respect to that portion of the pre-incentive net investment income for such quarter, if any, that exceeds the Hurdle but is less than 2.5% of net assets (also referred to as the "Catch-up") and 20.0% of the Company's pre-incentive fee net investment income for such calendar quarter, if any, greater than 2.5% of net assets.

The foregoing incentive fee is subject to a total return requirement, which provides that no incentive fee in respect of the Company's pre-incentive fee net investment income is payable except to the extent 20.0% of the cumulative net increase in net assets resulting from operations over the then current and 11 preceding calendar quarters exceeds the cumulative incentive fees accrued and/or paid for the 11 preceding quarters. In other words, any Incentive Fee that is payable in a calendar quarter is limited to the lesser of (i) 20% of the amount by which the Company's pre-incentive fee net investment income for such calendar quarter exceeds the 2.0% hurdle, subject to the Catch-up, and (ii) (x) 20% of the cumulative net increase in net assets resulting from operations for the then current and 11 preceding quarters minus (y) the cumulative incentive fees accrued and/or paid for the 11 preceding calendar quarters. For the foregoing purpose, the "cumulative net increase in net assets resulting from operations" is the amount, if positive, of the sum of pre-incentive fee net investment income, realized gains and losses and unrealized appreciation and depreciation of the Company for the then current and 11 preceding calendar quarters. In addition, the Advisor is not paid the portion of such incentive fee that is attributable to deferred interest until the Company actually receives such interest in cash.

STELLUS CAPITAL INVESTMENT CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

For the three and six months ended June 30, 2018, the Company incurred \$1,312,314 and \$2,281,140 respectively, of Income Incentive Fees. For the three and six months ended June 30, 2017, the Company incurred \$1,234,616 and \$2,255,843, respectively, of Income Incentive Fees. As of June 30, 2018 and December 31, 2017, \$1,525,320 and \$371,647, respectively, of such Income Incentive Fees were payable to the Advisor, of which \$1,294,688 and \$175,738, respectively, were currently payable (as explained below). As of June 30, 2018 and December 31, 2017, \$230,632 and \$195,909 respectively, of Income Incentive Fees incurred but not paid by the Company were generated from deferred interest (i.e. PIK interest, certain discount accretion and deferred interest) and are not payable until such deferred amounts are received by the Company in cash.

Capital Gains Incentive Fee

The Company also pays the Advisor an incentive fee based on capital gains (the “Capital Gains Incentive Fee”). The Capital Gains Incentive Fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment management agreement, as of the termination date). The Capital Gains Incentive Fee is equal to 20.0% of the Company’s cumulative aggregate realized capital gains from Inception through the end of that calendar year, computed net of the cumulative aggregate realized capital losses and cumulative aggregate unrealized capital depreciation through the end of such year. The aggregate amount of any previously paid Capital Gains Incentive Fees is subtracted from such Capital Gains Incentive Fee calculated.

U.S. GAAP requires that the incentive fee accrual considers the cumulative aggregate realized gains and losses and unrealized capital appreciation or depreciation of investments or other financial instruments in the calculation, as an incentive fee would be payable if such realized gains and losses and unrealized capital appreciation or depreciation were realized, even though such realized gains and losses and unrealized capital appreciation or depreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory agreement. There can be no assurance that unrealized appreciation or depreciation will be realized in the future. Accordingly, such fees, as calculated and accrued, may not necessarily be payable under the investment advisory agreement. For both the three and six months ended June 30, 2018, the Company accrued \$522,019 related to the Capital Gains incentive fee. The Company incurred no Capital Gains incentive fee for the three and six months ended June 30, 2017. As of June 30, 2018 and December 31, 2017, \$522,019 and \$0 in Capital Gains incentive fees were payable to the Advisor, respectively, none of which are currently payable.

Director Fees

For the three and six months ended June 30, 2018, the Company recorded an expense relating to director fees of \$79,000 and \$171,000, respectively. For the three and six months ended June 30, 2017, the Company recorded an expense relating to director fees of \$79,000 and \$171,000, respectively. As of both June 30, 2018 and December 31, 2017, no fees were payable to the Company's independent directors..

Co-Investments

The Company has received exemptive relief from the SEC to co-invest with investment funds managed by Stellus Capital where doing so is consistent with its investment strategy as well as applicable law (including the terms and conditions of the exemptive order issued by the SEC). Under the terms of the relief permitting us to co-invest with other funds managed by Stellus Capital, a "required majority" (as defined in Section 57(o) of the 1940 Act) of the Company's independent directors must make certain conclusions in connection with a co-investment transaction, including (1) the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair to the Company and its stockholders and do not involve overreaching of the Company or its stockholders on the part of any person concerned and (2) the transaction is consistent with the interests of the Company's stockholders and is consistent with its investment objectives and strategies. The Company intends to co-invest, subject to the conditions included in the exemptive order the Company received from the SEC, with a private credit fund managed by Stellus Capital that has an investment strategy that is identical to the Company's investment strategy. The Company believes that such co-investments may afford it additional investment opportunities and an ability to achieve greater diversification.

Administrative Agent

The Company serves as the administrative agent on certain investment transactions including co-investments with its affiliates under the Order. As of June 30, 2018 and December 31, 2017, Cash and Cash Equivalents included \$14,111 and \$0, respectively, of cash due to other investment funds, some of which are managed by Stellus Capital, related to interest paid by a borrower to the Company as administrative agent. Any such amount are included in “Other Accrued Expenses and Liabilities” on the Consolidated Statement of Assets and Liabilities.

License Agreement

The Company has entered into a license agreement with Stellus Capital under which Stellus Capital has agreed to grant the Company a non-exclusive, royalty-free license to use the name “Stellus Capital.” Under this agreement, the Company has a right to use the “Stellus Capital” name for so long as Stellus Capital or one of its affiliates remains its investment advisor. Other than with respect to this limited license, the Company has no legal right to the “Stellus Capital” name. This license agreement will remain in effect for so long as the investment advisory agreement with Stellus Capital is in effect.

Administration Agreement

The Company has entered into an administration agreement with Stellus Capital pursuant to which Stellus Capital will furnish the Company with office facilities and equipment and will provide the Company with the clerical, bookkeeping, recordkeeping and other administrative services necessary to conduct day-to-day operations. Under this administration agreement, Stellus Capital will perform, or oversee the performance of, the Company’s required administrative services, which includes, among other things, being responsible for the financial records which the Company is required to maintain and preparing reports to its stockholders and reports filed with the SEC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

Included in administrative services expense for the three and six months ended June 30, 2018, the Company recorded expenses of \$263,671 and \$577,504, respectively, relating to the administration agreement. Included in administrative services expense for the three and six months ended June 30, 2017, the Company recorded expenses of \$280,274 and \$560,196, respectively, relating to the administration agreement. As of June 30, 2018 and December 31, 2017, \$263,671 and \$279,141, respectively, remained payable to Stellus Capital relating to the administration agreement.

Indemnifications

The investment advisory agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations under the investment advisory agreement, Stellus Capital and its officers, managers, partners, agents, employees, controlling persons and members, and any other person or entity affiliated with it, are entitled to indemnification from the Company for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of Stellus Capital's services under the investment advisory agreement or otherwise as our investment adviser.

NOTE 3 — DISTRIBUTIONS

Distributions are generally declared by the Company's board of directors each calendar quarter, paid monthly and recognized as distribution liabilities on the ex-dividend date. The Company intends to distribute net realized gains (*i.e.*, net capital gains in excess of net capital losses), if any, at least annually. The stockholder distributions, if any, will be determined by the board of directors. Any distribution to stockholders will be declared out of assets legally available for distribution.

Unless the stockholder elects to receive its distributions in cash, the Company intends to make such distributions in additional shares of the Company's common stock under the Company's dividend reinvestment plan. Although distributions paid in the form of additional shares of the Company's common stock will generally be subject to U.S. federal, state and local taxes in the same manner as cash distributions, investors participating in the Company's dividend reinvestment plan will not receive any corresponding cash distributions with which to pay any such applicable taxes. Any distributions reinvested through the issuance of shares through the Company's dividend reinvestment plan will increase the Company's gross assets on which the base management fee and the incentive fee are determined and paid to Stellus Capital. The Company issued 7,931 and 0 shares, respectively, in connection with the distributions made during the three and six months ended June 30, 2018. No new shares were issued in connection with the distributions made during the three and six months ended June 30, 2017.

NOTE 6 — PORTFOLIO INVESTMENTS AND FAIR VALUE

In accordance with the authoritative guidance on fair value measurements and disclosures under U.S. GAAP, the Company discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 — Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 — Quoted prices in markets that are not considered to be active or financial instruments for which significant inputs are observable, either directly or indirectly;

Level 3 — Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The level of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes “observable” requires significant judgment by management.

The Company considers whether the volume and level of activity for the asset or liability have significantly decreased and identifies transactions that are not orderly in determining fair value. Accordingly, if the Company determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. Valuation techniques such as an income approach might be appropriate to supplement or replace a market approach in those circumstances.

STELLUS CAPITAL INVESTMENT CORPORATION**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2018****(Unaudited)**

At June 30, 2018, the Company had investments in 52 portfolio companies. The total fair value and cost of the investments were \$499,736,626 and \$493,007,537, respectively. The composition of our investments as of June 30, 2018 is as follows:

| | Cost | Fair Value |
|--|---------------|---------------|
| Senior Secured – First Lien ⁽¹⁾ | \$247,689,976 | \$248,863,776 |

| Equity | 22,413,384 | 31,990,000 |
| Total Investments | \$493,007,537 | \$499,736,626 |

(1) Includes unitranche investments, which account for 23.9% of our portfolio at fair value. Unitranche structures may combine characteristics of traditional first lien senior secured as well as second lien and/or subordinated loans and our unitranche loan will expose us to the risks associated with second lien and subordinated loans to the extent we invest in the “last-out” tranche.

At December 31, 2017, the Company had investments in 48 portfolio companies. The composition of our investments as of December 31, 2017 was as follows:

| | Cost | Fair Value |
|--|---------------|---------------|
| Senior Secured – First Lien ⁽¹⁾ | \$140,915,106 | \$141,006,923 |

| Equity | 18,470,229 | 24,969,999 |
| Total Investments | \$368,453,206 | \$371,839,772 |

(1) Includes unitranche investments, which account for 13.2% of our portfolio at fair value. Unitranche structures may combine characteristics of traditional first lien senior secured as well as second lien and/or subordinated loans and our unitranche loan will expose us to the risks associated with second lien and subordinated loans to the extent we invest in the “last-out” tranche.

The Company's investment portfolio may contain loans that are in the form of lines of credit or revolving credit facilities, which require the Company to provide funding when requested by portfolio companies in accordance with the terms and conditions of the underlying loan agreements. As of June 30, 2018 and December 31, 2017, the Company had nine and four such investments, respectively, with aggregate unfunded commitments of \$13,996,988 and \$8,686,667, respectively. The Company maintains sufficient liquidity to fund such unfunded commitments should the need arise.

The fair values of our investments disaggregated into the three levels of the fair value hierarchy based upon the lowest level of significant input used in the valuation as of June 30, 2018 are as follows:

| | Quoted Prices in Active Markets for Identical Securities (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) | Total |

STELLUS CAPITAL INVESTMENT CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

(1) Weighted average based on fair value as of June 30, 2018.

(2) Including, but not limited to (a) the market approach which is used to determine sufficient enterprise value, and (b) the income approach which is based on discounting future cash flows using an appropriate market yield.

The Company calculates the price of the loan by discounting future cash flows, which include forecasted future LIBOR rates based on the published forward LIBOR curve at the valuation date, using an appropriate yield calculated as of the valuation date. This yield is calculated based on the loan's yield at the original investment and is adjusted as of the valuation date based on: changes in comparable credit spreads, changes in risk free interest rates (per swap rates), and changes in credit quality (via an estimated shadow rating). Significant movements in any of these factors could result in a significantly lower or higher fair value measurement. As an example, the "Range (Average)" for second lien debt instruments in the table above indicates that the change in the HY spreads between the date a loan closed and the valuation date ranged from -1.78% (-178 basis points) to 4.76% (476 basis points). The average of all changes was 0.05% (5 basis points).

(4) Median of LTM (last twelve months) EBITDA multiples of comparable companies.

The primary significant unobservable input used in the fair value measurement of the Company's equity investments is the EBITDA multiple (the "Multiple"). Significant increases (decreases) in the Multiple in isolation could result in a significantly higher (lower) fair value measurement. To determine the Multiple for the market (5) approach, the Company considers current market trading and/or transaction multiple, portfolio company performance (financial ratios) relative to public and private peer companies and leverage levels, among other factors. Changes in one or more of these factors can have a similar directional change on other factors in determining the appropriate Multiple to use in the market approach.

The following provides quantitative information about Level 3 fair value measurements as of December 31, 2017:

| Description: | Fair Value | Valuation Technique | Unobservable Inputs | Range (Average) ^{(1) (3)} |

(Unaudited)

The Company calculates the price of the loan by discounting future cash flows, which include forecasted future LIBOR rates based on the published forward LIBOR curve at the valuation date, using an appropriate yield calculated as of the valuation date. This yield is calculated based on the loan's yield at the original investment and is adjusted as of the valuation date based on: changes in comparable credit, changes in risk free interest rates (per (3) swap rates), and changes in credit quality (via an estimated shadow rating). Significant movements in any of these factors could result in a significantly lower or higher fair value measurement. As an example, the "Range (Average)" for first lien debt instruments in the table above indicates that the change in the HY spreads between the date a loan closed and the valuation date ranged from -3.73% (-373 basis points) to 5.53% (553 basis points). The average of all changes was -0.81%.

(4) Median of LTM (last twelve months) EBITDA multiples of comparable companies. The primary significant unobservable input used in the fair value measurement of the Company's equity investments is the EBITDA multiple (the "Multiple"). Significant increases (decreases) in the Multiple in isolation could result in a significantly higher (lower) fair value measurement. To determine the Multiple for the market (5) approach, the Company considers current market trading and/or transaction multiple, portfolio company performance (financial ratios) relative to public and private peer companies and leverage levels, among other factors. NOTE 7 — COMMITMENTS AND CONTINGENCIES

The Company is currently not subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us. From time to time, we may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our business, financial condition or results of operations.

As of June 30, 2018 and December 31, 2017, the Company had unfunded commitments of \$13,996,988 and \$8,686,667, respectively, to provide debt financing for nine and four portfolio companies, respectively. As of June 30, 2018, the Company had sufficient liquidity to fund such unfunded commitments should the need arise.

(2) Total return on market value is based on the change in market price per share since the end of the prior year and assumes enrollment in the Company's DRIP. The total returns are not annualized.

(3) Financial highlights for periods of less than one year are annualized, with exception of the provision for taxes on the unrealized gain on investments.

(4) Calculated as the lesser of purchases or sales divided by average portfolio balance and is not annualized.

Asset coverage ratio is equal to total assets less all liabilities and indebtedness not represented by senior securities (5) over the aggregate amount of senior securities. SBA-guaranteed debentures are excluded from the numerator and denominator.

These ratios include the impact of the benefit (provision) for income taxes related to unrealized loss on investments of (\$9,194) and \$8,593, respectively, for the six months ended June 30, 2018 and June 30, 2017, which are not (6) reflected in net investment income, gross operating expenses or net operating expenses. The provision for income taxes related to unrealized gain or loss on investments to net assets for both the six months ended June 30, 2018 and 2017 is <0.01%.

Includes the impact of different share amounts as a result of calculating certain per share data based on weighted (7) average shares outstanding during the period and certain per share data based on shares outstanding as of the period end.

NOTE 9 — CREDIT FACILITY

On November 7, 2012, the Company entered into a revolving credit facility (the "Original Facility") with various lenders. SunTrust Bank, one of the lenders, served as administrative agent under the Original Facility. The Original Facility, as amended on November 21, 2014 and August 31, 2016, provided for borrowings in an aggregate amount of \$120,000,000 on a committed basis with an accordion feature that allowed the Company to increase the aggregate commitments up to \$195,000,000, subject to new or existing lenders agreeing to participate in the increase and other customary conditions. The Company terminated the Original Facility on October 11, 2017, in conjunction with securing and entering into a new senior secured revolving credit agreement, dated as of October 10, 2017 and

amended on March 28, 2018, with ZB, N.A., dba Amegy Bank and various other lenders (the "Credit Facility").

The Credit Facility provides for borrowings up to a maximum of \$140,000,000 on a committed basis with an accordion feature that allows the Company to increase the aggregate commitments up to \$195,000,000, subject to new or existing lenders agreeing to participate in the increase and other customary conditions.

Borrowings under the Credit Facility bear interest, subject to the Company's election, on a per annum basis equal to (i) LIBOR plus 2.50% with no LIBOR floor or (ii) 1.50% plus an alternate base rate based on the highest of the Prime Rate, Federal Funds Rate plus 0.5% or one month LIBOR plus 1.0%. The Company pays unused commitment fees of 0.50% per annum on the unused lender commitments under the Credit Facility. Interest is payable quarterly in arrears. Any amounts borrowed under the Credit Facility will mature, and all accrued and unpaid interest thereunder will be due and payable, on October 10, 2021.

The Company's obligations to the lenders are secured by a first priority security interest in its portfolio of securities and cash not held at the SBIC subsidiary, but excluding short term investments. The Credit Facility contains certain covenants, including but not limited to: (i) maintaining a minimum liquidity test of at least \$10,000,000, including cash, liquid investments and undrawn availability, (ii) maintaining an asset coverage ratio of at least 2.0 to 1.0, and (iii) maintaining a minimum shareholder's equity. As of June 30, 2018, the Company was in compliance with these covenants. See Note 12 for discussion about additional amendments to the Credit Facility that occurred subsequent to June 30, 2018.

STELLUS CAPITAL INVESTMENT CORPORATION**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2018****(Unaudited)**

As of June 30, 2018 and December 31, 2017, the outstanding balance under the Credit Facility was \$119,300,000 and \$40,750,000, respectively. The carrying amount of the amount outstanding under the Credit Facility approximates its fair value. The fair values of the Credit Facility is determined in accordance with ASC 820, which defines fair value in terms of the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value of the Credit Facility is estimated based upon market interest rates for our own borrowings or entities with similar credit risk, adjusted for nonperformance risk, if any. The Company has incurred total costs of \$3,067,715 in connection with obtaining, amending, and maintaining the Original Facility. The Company incurred costs of \$1,198,616 in connection with the Credit Facility, which are being amortized over the life of the facility. Additionally, \$341,979 of costs from the Original Facility will continue to be amortized over the remaining life of the Credit Facility. As of June 30, 2018 and December 31, 2017, \$1,247,186 and \$1,417,521 of such prepaid loan structure fees and administration fees had yet to be amortized, respectively. These prepaid loan fees are presented on our consolidated statement of assets and liabilities as a deduction from the debt liability attributable to the Credit Facility as required by ASU No. 2015-3.

The following is a summary of the Credit Facility, net of prepaid loan structure fees:

| | June 30, 2018 | December 31, 2017 |

NOTE 10 — SBA DEBENTURES

Due to the SBIC subsidiary's status as a licensed SBIC, we have the ability to issue debentures guaranteed by the SBA at favorable interest rates. Under the regulations applicable to SBIC funds, a single licensee can have outstanding debentures guaranteed by the SBA subject to a regulatory leverage limit, up to two times the amount of regulatory capital. As of June 30, 2018 and December 31, 2017, the SBIC subsidiary had \$75,000,000 and \$67,500,000 in regulatory capital, as such term is defined by the SBA.

STELLUS CAPITAL INVESTMENT CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

On August 12, 2014, we obtained exemptive relief from the SEC to permit us to exclude the debt of the SBIC subsidiary guaranteed by the SBA from our asset coverage test under the 1940 Act. The exemptive relief provides us with increased flexibility under the asset coverage test by permitting us to borrow up to \$150,000,000 more than we would otherwise be able to absent the receipt of this exemptive relief.

On a stand-alone basis, the SBIC subsidiary held \$210,710,381 and \$161,992,327 in assets at June 30, 2018 and December 31, 2017, respectively, which accounted for approximately 40.2%% and 40.4% of our total consolidated assets at June 30, 2018 and December 31, 2017, respectively.

Debentures guaranteed by the SBA have fixed interest rates that equal prevailing 10-year Treasury Note rates plus a market spread and have a maturity of ten years with interest payable semi-annually. The principal amount of the debentures is not required to be paid before maturity, but may be pre-paid at any time with no prepayment penalty. As of June 30, 2018 and December 31, 2017, the SBIC subsidiary had \$130,000,000 and \$90,000,000 of the SBA Debentures outstanding, respectively. SBA-guaranteed debentures incur upfront fees of 3.425%, which consists of a 1.00% commitment fee and a 2.425% issuance discount, which are amortized over the life of the SBA-guaranteed debentures. Once pooled, which occurs in March and September each year, the SBA-guaranteed debentures bear interest at a fixed rate that is set to the current 10-year treasury rate plus a spread at each pooling date.

(1) Debenture interest rate will be set as determined by the SBA when pooled on September 19, 2018

As of June 30, 2018 and December 31, 2017, the carrying amount of the SBA-guaranteed debentures approximated their fair value. The fair values of the SBA-guaranteed debentures are determined in accordance with ASC 820, which defines fair value in terms of the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value of the SBA-guaranteed debentures are estimated based upon market interest rates for our own borrowings or entities with similar credit risk, adjusted for nonperformance risk, if any. At June 30, 2018 and December 31, 2017, the SBA-guaranteed debentures would be deemed to be Level 3, as defined in Note 6.

As of June 30, 2018, the Company has incurred \$4,652,500 in financing costs related to the SBA-guaranteed debentures since receiving our license, which were recorded as prepaid loan fees. As of June 30, 2018 and December 31, 2017, \$3,470,582 and \$2,181,187 of prepaid financing costs had yet to be amortized, respectively. These prepaid loan fees are presented on the consolidated statement of assets and liabilities as a deduction from the debt liability as required by ASU No. 2015-3. See Note 1 for further discussion.

On August 21, 2017, the Company issued \$42,500,000 in aggregate principal amount of 5.75% fixed-rate notes due September 15, 2022 (the “2022 Notes”). On September 8, 2017, the Company issued an additional \$6,375,000 in aggregate principal amount of the 2022 Notes pursuant to a full exercise of the underwriters’ over-allotment option. The 2022 Notes will mature on September 15, 2022, and may be redeemed in whole or in part at any time or from time to time at the Company’s option on or after September 15, 2019 at a redemption price equal to 100% of the outstanding principal, plus accrued and unpaid interest. Interest is payable quarterly.

STELLUS CAPITAL INVESTMENT CORPORATION**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2018****(Unaudited)**

The Company used all of the net proceeds from this offering to fully redeem the 2019 Notes and a portion of the amount outstanding under the Original Facility. As of both June 30, 2018 and December 31, 2017, the aggregate carrying amount of the 2022 Notes was approximately \$48,875,000 and the fair value of the Notes was approximately \$49,070,500 and \$49,520,150, respectively. The 2022 Notes are listed on New York Stock Exchange under the trading symbol “SCA”. The fair value of the Notes is based on the closing price of the security, which is a Level 2 input under ASC 820 due to sufficient trading volume.

In connection with the issuance and maintenance of the 2022 Notes, we have incurred \$1,688,961 of fees which are being amortized over the term of the 2022 Notes, of which \$1,401,196 and \$1,568,512 remains to be amortized as of June 30, 2018 and December 31, 2017, respectively. These financing costs are presented on the consolidated statement of assets and liabilities as a deduction from the debt liability as required by ASU No. 2015-3.

The following table summarizes the interest expense and deferred financing costs on the 2022 Notes for the three and six months ended June 30, 2018 and 2017:

| | For the three months ended | | For the six months ended | |
|---------------------------------------|----------------------------|------------------|--------------------------|------------------|
| | June 30, 2018 | June 30, 2017 | June 30, 2018 | June 30, 2017 |
| Interest expense | \$ 702,578 | \$ — | \$ 1,405,156 | \$ — |
| Deferred financing costs | 82,874 | — | 164,837 | — |
| Administration fees | 1,246 | — | 2,479 | — |
| Total interest and financing expenses | \$ 786,698 | \$ — | \$ 1,572,472 | \$ — |
| Cash paid for interest | \$ 702,578 | \$ — | \$ 1,405,156 | \$ — |

The following is a summary of the 2022 Notes Payable, net of deferred financing costs:

| | June 30, 2018 | December 31, 2017 |
|---------------|------------------|----------------------|
| Notes payable | \$48,875,000 | \$48,875,000 |

| | | |

This schedule should be read in conjunction with Stellus's consolidated financial statements, including the consolidated schedule of investments and notes to the consolidated financial statements.

- (1) The principal amount, the ownership detail for equity investments accrual status is included in the consolidated schedule of investments.

Represents the total amount of interest, fees and dividends credited to income for the portion of the period for which an investment was included in Control or Affiliate categories, respectively. For investments transferred (2) between Control and Affiliate categories during the period, any income or investment balances related to the time period it was in the category other than the one shown at period end is included in "Amounts from investments transferred from other 1940 Act classifications during the period."

Gross additions include increases in the cost basis of investments resulting from new portfolio investments, follow-on investments and accrued PIK interest, and the exchange of one or more existing securities for one or (3) more new securities. Gross additions also include net increases in unrealized appreciation or net decreases in net unrealized depreciation as well as the movement of an existing portfolio company into this category and out of a different category.

Gross reductions include decreases in the cost basis of investments resulting from principal repayments or sales and the exchange of one or more existing securities for one or more new securities. Gross reductions also include (4) net increases in net unrealized depreciation or net decreases in unrealized appreciation as well as the movement of an existing portfolio company out of this category and into a different category.

(5) Net of deferred tax liability of \$9,194 at June 30, 2018.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Some of the statements in this quarterly report on Form 10-Q constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties, including statements as to:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the effect of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- actual and potential conflicts of interest with Stellus Capital Management;
- the dependence of our future success on the general economy and its effect on the industries in which we invest;
- the ability of our portfolio companies to achieve their objectives;
- the use of borrowed money to finance a portion of our investments;
- the adequacy of our financing sources and working capital;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the ability of Stellus Capital to locate suitable investments for us and to monitor and administer our investments;
- the ability of Stellus Capital to attract and retain highly talented professionals;

our ability to maintain our qualification as a regulated investment company, or RIC, under Subchapter M of the Internal Revenue Code of 1986, or the Code, and as a BDC under the Investment Company Act of 1940, as amended, or the 1940 Act, and

the effect of future changes in laws or regulations (including the interpretation of these laws and regulations by regulatory authorities) and conditions in our operating areas, particularly with respect to BDCs or RICs.

Such forward-looking statements may include statements preceded by, followed by or that otherwise include the words “may,” “might,” “will,” “intend,” “should,” “could,” “can,” “would,” “expect,” “believe,” “estimate,” “anticipate,” “predict” or similar words.

We have based the forward-looking statements included in this quarterly report on Form 10-Q on information available to us on the date of this quarterly report on Form 10-Q. Actual results could differ materially from those anticipated in our forward-looking statements, and future results could differ materially from historical performance. We undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by law or rules or regulations of the Securities and Exchange Commission. You are advised to consult any additional disclosures that we may make directly to you or through reports that we in the future may file with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

Overview

We were organized as a Maryland corporation on May 18, 2012, and formally commenced operations on November 7, 2012. Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation through debt and related equity investments in middle-market companies.

We are an externally managed, non-diversified, closed-end investment company that has elected to be regulated as a BDC under the 1940 Act. Our investment activities are managed by our investment advisor, Stellus Capital.

As a BDC, we are required to comply with certain regulatory requirements. For instance, as a BDC, we may not acquire any assets other than “qualifying assets” specified in the 1940 Act unless, at the time the acquisition is made, at least 70% of our total assets are qualifying assets. Qualifying assets include investments in “eligible portfolio companies.” Under the relevant SEC rules, the term “eligible portfolio company” includes private operating companies, operating companies whose securities are not listed on a national securities exchange, and certain public operating companies that have listed their securities on a national securities exchange and have a market capitalization of less than \$250 million, in each case organized and with their principal of business in the United States.

We have elected to be treated for U.S. federal tax purposes as a RIC under Subchapter M of the Code. To maintain our qualification as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements. As of June 30, 2018, we were in compliance with the RIC requirements. As a RIC, we generally will not have to pay corporate-level U.S. federal income taxes on any income we distribute to our stockholders.

As a BDC, we are required to comply with certain regulatory requirements. We were formerly only allowed to employ leverage to the extent that our asset coverage, as defined in the 1940 Act, was equal to at least 200% (or 150% if certain requirements were met) after giving effect to such leverage. On March 23, 2018, the Small Business Credit Availability Act (the “SBCAA”) was signed into law, which included various changes to regulations under the federal securities laws that impact BDCs. The SBCAA included changes to the 1940 Act to allow BDCs to decrease their asset coverage requirement to 150% from 200% under certain circumstances.

On April 4, 2018, the Board, including a “required majority” (as such term is defined in Section 57(o) of the Investment Company Act of 1940, as amended (the “1940 Act”)) of the Board, approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act. The Board also approved the submission of a proposal to approve the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, which was approved by shareholders at the Company’s 2018 annual meeting of stockholders. As a result, the asset coverage ratio test applicable to the Company was decreased from 200% to 150%, effective June 28, 2018. The amount of leverage that we employ at any time depends on our assessment of the market and other factors at the time of any proposed borrowing.

Portfolio Composition and Investment Activity

Portfolio Composition

We originate and invest primarily in privately-held middle-market companies (typically those with \$5.0 million to \$50.0 million of EBITDA (earnings before interest, taxes, depreciation and amortization)) through first lien, second lien, unitranche and unsecured debt financing, often times with a corresponding equity investment.

As of June 30, 2018, we had \$499.7 million (at fair value) invested in 52 portfolio companies. As of June 30, 2018, our portfolio included approximately 50% of first lien debt, 39% of second lien debt, 5% of unsecured debt and 6% of equity investments at fair value. The composition of our investments at cost and fair value as of June 30, 2018 was as follows:

Edgar Filing: Stellus Capital Investment Corp - Form 10-Q

| | Cost | Fair Value |
|--|---------------|---------------|
| Senior Secured – First Lien ⁽¹⁾ | \$247,689,976 | \$248,863,776 |
| Senior Secured – Second Lien | 197,566,143 | 194,262,850 |
| Unsecured Debt | 25,338,034 | 24,620,000 |
| Equity | 22,413,384 | 31,990,000 |
| Total Investments | \$493,007,537 | \$499,736,626 |

(1) Includes unitranche investments, which account for 23.9% of our portfolio at fair value. Unitranche structures may combine characteristics of traditional first lien senior secured as well as second lien and/or subordinated loans and our unitranche loans will expose us to the risks associated with second lien and subordinated loans to the extent we invest in the “last-out” tranche.

As of December 31, 2017, we had \$371.8 million (at fair value) invested in 48 portfolio companies. As of December 31, 2017, our portfolio included approximately 38% of first lien debt, 48% of second lien debt, 7% of unsecured debt and 7% of equity investments at fair value. The composition of our investments at cost and fair value as of December 31, 2017 was as follows:

| | Cost | Fair Value |
|--|---------------|---------------|
| Senior Secured – First Lien ⁽¹⁾ | \$140,915,106 | \$141,006,923 |
| Senior Secured – Second Lien | 181,164,730 | 178,432,850 |
| Unsecured Debt | 27,903,141 | 27,430,000 |
| Equity | 18,470,229 | 24,969,999 |
| Total Investments | \$368,453,206 | \$371,839,772 |

(1) Includes unitranche investments, which account for 13.2% of our portfolio at fair value.

Our investment portfolio may contain loans that are in the form of lines of credit or revolving credit facilities, which require us to provide funding when requested by portfolio companies in accordance with the terms and conditions of the underlying loan agreements. As of June 30, 2018 and December 31, 2017, we had nine and four such investments, respectively, with aggregate unfunded commitments of \$14.0 million and \$8.7 million, respectively. As of June 30, 2018, the Company had sufficient liquidity to fund such unfunded commitments should the need arise.

At June 30, 2018, our average portfolio company investment at amortized cost and fair value was approximately \$9.5 million and \$9.6 million, respectively, and our largest portfolio company investment was \$28.9 million at both amortized cost and fair value. At December 31, 2017, our average portfolio company investment at amortized cost and fair value was approximately \$7.7 million and \$7.4 million, respectively, and our largest portfolio company investment at amortized cost and fair value was approximately \$22.5 million and \$22.2 million, respectively.

At June 30, 2018, 91% of our debt investments bore interest based on floating rates (subject to interest rate floors), such as LIBOR, and 9% bore interest at fixed rates. At December 31, 2017, 87% of our debt investments bore interest based on floating rates (subject to interest rate floors), such as LIBOR, and 13% bore interest at fixed rates.

The weighted average yield on all of our debt investments as of June 30, 2018 and December 31, 2017 was 11.2% and 10.8%, respectively. The weighted average yield was computed using the effective interest rates for all of our debt

investments, including accretion of original issue discount. The weighted average yield of our debt investments is not the same as a return on investment for our stockholder, but, rather relates to a portion of our investment portfolio and is calculated before the payment of all of our and our subsidiaries' fees and expenses.

As of June 30, 2018 and December 31, 2017, we had cash and cash equivalents of \$20.9 million and \$25.1 million, respectively.

Investment Activity

During the six months ended June 30, 2018, we made an aggregate of \$166.9 million (net of fees) of investments in nine new portfolio companies and eight existing portfolio companies. During the six months ended June 30, 2018, we received an aggregate of \$45.8 million in proceeds from repayments of our investments.

Our level of investment activity can vary substantially from period to period depending on many factors, including the amount of debt and equity capital required by middle-market companies, the level of merger and acquisition activity, the general economic environment and the competitive environment for the types of investments we make.

Asset Quality

In addition to various risk management and monitoring tools, Stellus Capital uses an investment rating system to characterize and monitor the credit profile and expected level of returns on each investment in our investment portfolio. This investment rating system uses a five-level numeric scale. The following is a description of the conditions associated with each investment category:

Investment Category 1 is used for investments that are performing above expectations, and whose risks remain favorable compared to the expected risk at the time of the original investment.

Investment Category 2 is used for investments that are performing within expectations and whose risks remain neutral compared to the expected risk at the time of the original investment. All new loans are initially rated 2.

Investment Category 3 is used for investments that are performing below expectations and that require closer monitoring, but where no loss of return or principal is expected. Portfolio companies with a rating of 3 may be out of compliance with financial covenants.

Investment Category 4 is used for investments that are performing substantially below expectations and whose risks have increased substantially since the original investment. These investments are often in work out. Investments with a rating of 4 are those for which some loss of return but no loss of principal is expected.

Investment Category 5 is used for investments that are performing substantially below expectations and whose risks have increased substantially since the original investment. These investments are almost always in work out.

Investments with a rating of 5 are those for which some loss of return and principal is expected.

Loans and Debt Securities on Non-Accrual Status

We will not accrue interest on loans and debt securities if we have reason to doubt our ability to collect such interest. As of June 30, 2018, we had three loans on non-accrual status which represented approximately 2.2% of our loan portfolio at cost and 1.2% at fair value. As of December 31, 2017, we had two loans on non-accrual status, which represented approximately 1.2% of our loan portfolio at cost and 0.3% at fair value.

Results of Operations

An important measure of our financial performance is net increase (decrease) in net assets resulting from operations, which includes net investment income (loss), net realized gain (loss) and net unrealized appreciation (depreciation). Net investment income (loss) is the difference between our income from interest, dividends, fees and other investment income and our operating expenses including interest on borrowed funds. Net realized gain (loss) on investments is the difference between the proceeds received from dispositions of portfolio investments and their amortized cost. Net unrealized appreciation (depreciation) on investments is the net change in the fair value of our investment portfolio.

Comparison of the Three Months and Six Months Ended June 30, 2018 and 2017

Revenues

We generate revenue in the form of interest income on debt investments and capital gains and distributions, if any, on investment securities that we may acquire in portfolio companies. Our debt investments typically have a term of five to seven years and bear interest at a fixed or floating rate. Interest on our debt securities is generally payable quarterly. Payments of principal on our debt investments may be amortized over the stated term of the investment, deferred for several years or due entirely at maturity. In some cases, our debt investments may pay interest in-kind, or PIK. Any outstanding principal amount of our debt securities and any accrued but unpaid interest will generally become due at the maturity date. The level of interest income we receive is directly related to the balance of interest-bearing investments multiplied by the weighted average yield of our investments. We expect that the total dollar amount of interest and any dividend income that we earn will increase as the size of our investment portfolio increases. In addition, we may generate revenue in the form of prepayment fees, commitment, loan origination, structuring or due diligence fees, fees for providing significant managerial assistance and consulting fees. We will disclose below what amounts, if any, are material non-recurring fees that have been recorded as income during each respective period. We consider the prepayment fees and accelerated accretion of loan origination fees upon early repayments to be non-recurring.

The following shows the breakdown of investment income for the three and six months ended June 30, 2018 and 2017 (in millions).

| | Three months ended June 30, (dollars in millions) | | Six months ended June 30, (dollars in millions) | |
|-----------------------------------|---|---------|---|---------|
| | 2018 | 2017 | 2018 | 2017 |
| Interest income ⁽¹⁾ | \$ 12.0 | \$ 9.5 | \$ 22.7 | \$ 19.0 |
| PIK interest | 0.2 | 0.1 | 0.3 | 0.2 |
| Miscellaneous fees ⁽¹⁾ | 0.4 | 0.8 | 0.6 | 1.1 |
| Total | \$ 12.7 | \$ 10.4 | \$ 23.6 | \$ 20.3 |

For the three and six months ended June 30, 2018, we recognized \$0.5 million and \$0.6 million of non-recurring (1) income, respectively. For the three and six months ended June 30, 2017, we recognized \$1.3 million and \$1.9 million of non-recurring income, respectively.

The increases in total income from the respective periods were due to the growth in the overall investment portfolio.

Expenses

Our primary operating expenses include the payment of fees to Stellus Capital under the investment advisory agreement, our allocable portion of overhead expenses under the administration agreement and other operating costs described below. We bear all other out-of-pocket costs and expenses of our operations and transactions, which may include:

- organization and offering;
- calculating our net asset value (including the cost and expenses of any independent valuation firm);
- fees and expenses payable to third parties, including agents, consultants or other advisors, in monitoring financial and legal affairs for us and in monitoring our investments and performing due diligence on our prospective portfolio companies or otherwise relating to, or associated with, evaluating and making investments;
- interest payable on debt, if any, incurred to finance our investments and expenses related to unsuccessful portfolio acquisition efforts;
- offerings of our common stock and other securities;
- base management and incentive fees;
- administration fees and expenses, if any, payable under the administration agreement (including our allocable portion of Stellus Capital's overhead in performing its obligations under the administration agreement, including rent and the allocable portion of the cost of our chief compliance officer, chief financial officer and their respective staffs);

Edgar Filing: Stellus Capital Investment Corp - Form 10-Q

- transfer agent, dividend agent and custodial fees and expenses;
- U.S. federal and state registration fees;
- all costs of registration and listing our shares on any securities exchange;
- U.S. federal, state and local taxes;
- independent directors' fees and expenses;
- costs of preparing and filing reports or other documents required by the SEC or other regulators;
- costs of any reports, proxy statements or other notices to stockholders, including printing costs;
- costs and fees associated with any fidelity bond, directors and officers/errors and omissions liability insurance, and any other insurance premiums;

direct costs and expenses of administration, including printing, mailing, long distance telephone, copying, secretarial and other staff, independent auditors and outside legal costs;

- proxy voting expenses; and
- all other expenses incurred by us or Stellus Capital in connection with administering our business.

The following shows the breakdown of operating expenses for the three and six months ended June 30, 2018 and 2017 (in millions).

| | Three months ended | | Six months ended | |
|----------------------------------|-----------------------------------|--------|-----------------------------------|---------|
| | June 30, (dollars in millions) | 2017 | June 30, (dollars in millions) | 2017 |
| Operating Expenses | | | | |
| Management fees | \$ 2.1 | \$ 1.5 | \$ 3.7 | \$ 3.1 |
| Valuation Fees | — | — | 0.1 | 0.2 |
| Administrative services expenses | 0.3 | 0.3 | 0.7 | 0.6 |
| Income incentive fees | 1.3 | 1.2 | 2.3 | 2.3 |
| Capital gain incentive fees | 0.5 | — | 0.5 | — |
| Professional fees | 0.2 | 0.2 | 0.7 | 0.5 |
| Directors' fees | 0.1 | 0.1 | 0.2 | 0.2 |
| Insurance expense | 0.1 | 0.1 | 0.2 | 0.2 |
| Interest expense and other fees | 3.0 | 1.9 | 5.5 | 3.8 |
| Other general and administrative | 0.3 | 0.2 | 0.4 | 0.3 |
| Total Operating Expenses | \$ 7.9 | \$ 5.5 | \$ 14.3 | \$ 11.2 |

The increase in operating expenses for the respective periods was primarily due to 1) an increase in management fees, directly related to the growth of our portfolio, 2) increased interest expense due to the greater principal amount of the additional 2022 Notes, despite their lower annual interest rate compared to the 2019 Notes, and SBA-guaranteed debentures outstanding during the period, and 3) the accrual of a capital gains incentive fee during the quarter ended June 30, 2018, due to realized gains and the net unrealized appreciation on our portfolio. There can be no assurance that unrealized appreciation or depreciation will be realized in the future. Accordingly, such capital gain incentive fees, as calculated and accrued, would not necessarily be payable under the investment advisory agreement. See Note 2 for further discussion on capital gains incentive fees.

Net Investment Income

For the three months ended June 30, 2018, net investment income was \$4.7 million, or \$0.30 per common share (based on 15,953,810 weighted-average common shares outstanding at June 30, 2018).

For the three months ended June 30, 2017, net investment income was \$4.9 million, or \$0.32 per common share (based on 15,347,814 weighted-average common shares outstanding at June 30, 2017).

For the six months ended June 30, 2018, net investment income was \$9.2 million, or \$0.58 per common share (based on 15,953,328 weighted-average common shares outstanding at June 30, 2018).

For the six months ended June 30, 2017, net investment income was \$9.1 million, or \$0.65 per common share (based on 13,921,808 weighted-average common shares outstanding at June 30, 2017).

Net Realized Gains and Losses

We measure realized gains or losses by the difference between the net proceeds from the repayment, sale or disposition and the amortized cost basis of the investment, using the specific identification method, without regard to unrealized appreciation or depreciation previously recognized.

Repayments and sales of investments and amortization of other certain investments for the three months ended June 30, 2018 totaled \$30.2 million, and net realized gains totaled \$1.1 million.

Repayments and sales of investments and amortization of other certain investments for the three months ended June 30, 2017 totaled \$40.7 million, there were no realized losses and gains were de minimis.

Repayments and sales of investments and amortization of other certain investments for the six months ended June 30, 2018 totaled \$45.8 million, and net realized gains totaled \$2.4 million.

Repayments and sales of investments and amortization of other certain investments and a noncash conversion of debt to equity for the six months ended June 30, 2017 totaled \$80.0 million, and net realized losses totaled \$0.7 million.

Net Change in Unrealized Appreciation (depreciation) of Investments

Net change in unrealized appreciation (depreciation) primarily reflects the change in portfolio investment values during the reporting period, including the reversal of previously recorded appreciation or depreciation when gains or losses are realized.

Net change in unrealized appreciation on investments and cash equivalents for the three months ended June 30, 2018 and 2017 totaled \$1.8 million and \$1.1 million, respectively.

Net change in unrealized appreciation on investments and cash equivalents for the six months ended June 30, 2018 and 2017 totaled \$3.3 million and \$3.7 million, respectively.

The change in unrealized appreciation for the three and six months ended June 30, 2018 was due primarily to company specific performance, as well as overall market performance.

Provision for Taxes on Unrealized Appreciation on Investments

We have direct wholly owned subsidiaries that have elected to be taxable entities (the “Taxable Subsidiaries”). The Taxable Subsidiaries permit us to hold equity investments in portfolio companies which are “pass through” entities for tax purposes and continue to comply with the “source income” requirements contained in RIC tax provisions of the Code. The Taxable Subsidiaries are not consolidated with us for income tax purposes and may generate income tax expense, benefit, and the related tax assets and liabilities, as a result of their ownership of certain portfolio investments. The income tax expense, or benefit, if any, and related tax assets and liabilities are reflected in our consolidated financial statements. For the three months ended June 30, 2018 and 2017, we recognized a provision for income tax on unrealized investments of \$9.2 thousand and \$0 for the Taxable Subsidiaries, respectively. As of June 30, 2018 and December 31, 2017, there was a deferred tax liability of \$9.2 thousand and \$0 on the Consolidated Statement of Assets and Liabilities, respectively.

Net Increase in Net Assets Resulting from Operations

For the three months ended June 30, 2018, net increase in net assets resulting from operations totaled \$7.6 million, or \$0.48 per common share (based on 15,953,810 weighted-average common shares outstanding at June 30, 2018).

For the three months ended June 30, 2017, net increase in net assets resulting from operations totaled \$6.0 million, or \$0.39 per common share (based on 15,347,814 weighted-average common shares outstanding at June 30, 2017).

For the six months ended June 30, 2018, net increase in net assets resulting from operations totaled \$15.0 million, or \$0.94 per common share (based on 15,953,328 weighted-average common shares outstanding at June 30, 2018).

For the six months ended June 30, 2017, net increase in net assets resulting from operations totaled \$12.1 million, or \$0.87 per common share (based on 13,921,808 weighted-average common shares outstanding at June 30, 2017).

The increase in net assets resulting from operations for the six months ended June 30, 2018 was primarily the result of realized and unrealized gains on certain equity positions.

Financial condition, liquidity and capital resources

Cash Flows from Operating and Financing Activities

Our operating activities used net cash of \$110.4 million for the six months ended June 30, 2018, primarily in connection with the purchase and origination of new portfolio investments, some of which was offset by the sales and repayments on our investments. Our financing activities for the six months ended June 30, 2018 provided cash of \$106.2 million due to net borrowings under the Credit Facility during the period, as well as SBA-guaranteed debentures drawn during the period.

Our operating activities provided cash of \$40.9 million for the six months ended June 30, 2017, primarily in connection with the purchase and origination of new portfolio investments, some of which was offset by the sales and repayments on our investments. Our financing activities for the six months ended June 30, 2017 used cash of \$43.1 million due to distributions to stockholders and net repayments of the Original Credit Facility during the period, some of which was offset by net proceeds from the issuance of common stock.

Liquidity and Capital Resources

Our liquidity and capital resources are derived from the Credit Facility, the 2022 Notes, SBA-guaranteed debentures and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and other operating expenses we incur, as well as the payment of dividends to the holders of our common stock. We used, and expect to continue to use, these capital resources as well as proceeds from turnover within our portfolio and from public and private offerings of securities to finance our investment activities.

Although we expect to fund the growth of our investment portfolio through the net proceeds from future public and private equity offerings and issuances of senior securities or future borrowings to the extent permitted by the 1940 Act, our plans to raise capital may not be successful. In this regard, if our common stock trades at a price below our then-current net asset value per share, we may be limited in our ability to raise equity capital given that we cannot sell our common stock at a price below net asset value per share unless our stockholders approve such a sale and our board of directors makes certain determinations in connection therewith. A proposal, approved by our stockholders at our 2018 annual stockholders meeting, authorizes us to sell shares equal to up to 25% of our outstanding common stock of our common stock below the then current net asset value per share of our common stock in one or more offerings. This authorization will expire on the earlier of June 28, 2019, the one year anniversary of our 2018 annual stockholders meeting. We would need similar future approval from our stockholders to issue shares below the then current net asset value per share any time after the expiration of the current approval. In addition, we intend to distribute between 90% and 100% of our taxable income to our stockholders in order to satisfy the requirements applicable to RICs under Subchapter M of the Code. Consequently, we may not have the funds or the ability to fund new investments, to make additional investments in our portfolio companies, to fund our unfunded commitments to portfolio companies or to repay borrowings. In addition, the illiquidity of our portfolio investments may make it difficult for us to sell these investments when desired and, if we are required to sell these investments, we may realize significantly less than their recorded value.

Also, as a BDC, we generally are required to meet a coverage ratio of total assets, less liabilities and indebtedness not represented by senior securities, to total senior securities, which include all of our borrowings and any outstanding preferred stock, of at least 150% effective June 29, 2018 (at least 200% prior to June 29, 2018). This requirement limits the amount that we may borrow. We have received exemptive relief from the SEC to permit us to exclude the debt of our SBIC subsidiary guaranteed by the SBA from the definition of senior securities in the asset coverage test under the 1940 Act. We were in compliance with the asset coverage ratios at all relevant times during the six months ended June 30, 2018. As of June 30, 2018 and December 31, 2017, our asset coverage ratio was 233% and 346%, respectively. The amount of leverage that we employ will depend on our assessment of market conditions and other factors at the time of any proposed borrowing, such as the maturity, covenant package and rate structure of the proposed borrowings, our ability to raise funds through the issuance of shares of our common stock and the risks of such borrowings within the context of our investment outlook. Ultimately, we only intend to use leverage if the expected returns from borrowing to make investments will exceed the cost of such borrowing. As of June 30, 2018 and December 31, 2017, we had cash and cash equivalents of \$20.9 million and \$25.1 million, respectively.

Credit Facility

On November 7, 2012, the Company entered into a revolving credit facility (the “Original Facility”) with various lenders. SunTrust Bank, one of the lenders, served as administrative agent under the Original Facility. The Original Facility, as amended on November 21, 2014 and August 31, 2016, provided for borrowings in an aggregate amount of \$120.0 million on a committed basis with an accordion feature that allowed the Company to increase the aggregate commitments up to \$195.0 million, subject to new or existing lenders agreeing to participate in the increase and other customary conditions. The Company terminated the Original Facility on October 11, 2017, in conjunction with securing and entering into a new senior secured revolving credit agreement, dated as of October 10, 2017 and as amended on March 28, 2018, with ZB, N.A., dba Amegy Bank and various other lenders (the “Credit Facility”).

The Credit Facility provides for borrowings up to a maximum of \$140.0 million on a committed basis with an accordion feature that allows the Company to increase the aggregate commitments up to \$195.0 million, subject to new or existing lenders agreeing to participate in the increase and other customary conditions.

Borrowings under the Credit Facility bear interest, subject to the Company’s election, on a per annum basis equal to (i) LIBOR plus 2.50% with no LIBOR floor or (ii) 1.50% plus an alternate base rate based on the highest of the Prime Rate, Federal Funds Rate plus 0.5% or one month LIBOR plus 1.0%. The Company pays unused commitment fees of 0.50% per annum on the unused lender commitments under the Credit Facility. Interest is payable quarterly in arrears. Any amounts borrowed under the Credit Facility will mature, and all accrued and unpaid interest thereunder will be due and payable, on October 10, 2021. This represents an interest rate reduction of 12.5 basis points and a three year extension of maturity over the Original Facility.

The Company's obligations to the lenders are secured by a first priority security interest in its portfolio of securities and cash not held at the SBIC subsidiary, but excluding short term investments. The Credit Facility contains certain covenants, including but not limited to: (i) maintaining a minimum liquidity test of at least \$10.0 million, including cash, liquid investments and undrawn availability, (ii) maintaining an asset coverage ratio of at least 2.0 to 1.0, and (iii) maintaining a minimum shareholder's equity. As of June 30, 2018, the Company was in compliance with these covenants.

As of June 30, 2018 and December 31, 2017, the outstanding balance under the Credit Facility was \$119.3 million and \$40.8 million, respectively. The carrying amount of the amount outstanding under the Credit Facility approximates its fair value. The Company incurred total costs of \$3.1 million in connection with obtaining, amending, and maintaining the Original Facility. The Company incurred costs of \$1.2 million in connection with the Credit Facility, which are being amortized over the life of the facility. Additionally, \$0.3 million of costs from the Original Facility will continue to be amortized over the remaining life of the Credit Facility. As of June 30, 2018 and December 31, 2017, \$1.2 million and \$1.4 million of such prepaid loan structure fees and administration fees had yet to be amortized, respectively. These prepaid loan fees are presented on our consolidated statement of assets and liabilities as a deduction from the debt liability attributable to the Credit Facility as required by ASU No. 2015-3.

Interest is paid quarterly in arrears. The following table summarizes the interest expense and amortized loan fees on the Credit Facility for the three and six months ended June 30, 2018 and 2017 (in millions):

| | For the three months ended | | For the six months ended | |

SBA-Guaranteed Debentures

Due to the SBIC subsidiary's status as a licensed SBIC, we have the ability to issue debentures guaranteed by the SBA at favorable interest rates. Under the regulations applicable to SBIC funds, an SBIC can have outstanding debentures

guaranteed by the SBA subject to a regulatory leverage limit, up to two times the amount of regulatory capital. The 2016 omnibus spending bill approved by the U.S. Congress and signed into law by the President increased the amount of SBA-guaranteed debentures that affiliated SBIC funds can have outstanding from \$225.0 million to \$350.0 million, subject to SBA approval. In June 2018, the U.S. Senate passed the Small Business Investment Opportunity Act, which the President signed into law, that amended the Small Business Investment Act of 1958, as amended, by increasing the individual leverage limit from \$150 million to \$175 million, subject to SBA approval. As of June 30, 2018 and December 31, 2017, the SBIC subsidiary had \$75.0 million and \$67.5 million in regulatory capital, as such term is defined by the SBA.

On August 12, 2014, we obtained exemptive relief from the SEC to permit us to exclude the debt of the SBIC subsidiary guaranteed by the SBA from our 200% asset coverage test under the 1940 Act. The exemptive relief provides us with increased flexibility under the 200% asset coverage test by permitting us to borrow up to \$150.0 million more than we would otherwise be able to absent the receipt of this exemptive relief.

On a stand-alone basis, the SBIC subsidiary held \$210.7 and \$162.0 million in assets at June 30, 2018 and December 31, 2017, respectively, which accounted for approximately 40.2% and 40.4% of our total consolidated assets, respectively.

Debentures guaranteed by the SBA have fixed interest rates that equal prevailing 10-year Treasury Note rates plus a market spread and have a maturity of ten years with interest payable semi-annually. The principal amount of the debentures is not required to be paid before maturity, but may be pre-paid at any time with no prepayment penalty. As of June 30, 2018 and December 31, 2017, the SBIC subsidiary had \$130.0 million and \$90.0 million of SBA-guaranteed debentures outstanding, respectively. See Note 10 for further detail on the SBA-guaranteed debentures outstanding.

As of June 30, 2018 and December 31, 2017, the carrying amount of the SBA-guaranteed debentures approximated their fair value. The fair values of the SBA-guaranteed debentures are determined in accordance with ASC 820, which defines fair value in terms of the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value of the SBA-guaranteed debentures are estimated based upon market interest rates for our own borrowings or entities with similar credit risk, adjusted for nonperformance risk, if any. At June 30, 2018 and December 31, 2017 the SBA-guaranteed debentures would be deemed to be Level 3, as defined in Note 6.

As of June 30, 2018, the Company has incurred \$4.7 million in financing costs related to the SBA-guaranteed debentures since receiving our license, which were recorded as prepaid loan fees. As of June 30, 2018 and December 31, 2017, \$3.5 and \$2.2 million of prepaid financing costs had yet to be amortized, respectively. These prepaid loan fees are presented on the consolidated statement of assets and liabilities as a deduction from the debt liability as required by ASU No. 2015-3. See Note 1 for further discussion.

Interest is paid semi-annually, in March and September. The following table summarizes the interest expense and amortized fees on the SBA-guaranteed debentures for the three and six months ended June 30, 2018 and 2017 (in millions):

Notes Offering

On May 5, 2014, the Company closed a public offering of \$25.0 million in aggregate principal amount of 6.50% notes (the “2019 Notes”), due on April 30, 2019. On August 21, 2017, the Company caused notices to be issued to the holders of its 2019 Notes regarding the Company’s exercise of its option to redeem all of the issued and outstanding 2019 Notes, pursuant to Section 1101 of the Base Indenture dated as of May 5, 2014, between the Company and U.S. Bank National Association, as trustee, and Section 1.01(h)(i) of the First Supplemental Indenture dated as of May 5, 2014. The Company redeemed all \$25.0 million in aggregate principal amount of the 2019 Notes on September 20, 2017. The 2019 Notes were redeemed at 100% of their principal amount, plus the accrued and unpaid interest thereon through the redemption date.

The following table summarizes the interest expense and deferred financing costs on the 2019 Notes for the three and six months ended June 30, 2018 and 2017:

| | Three months ended | | Six months ended | |

| Total interest and financing expenses | \$- | \$ 0.5 | \$- | \$ 0.9 |
| Cash paid for interest | \$- | \$ 0.4 | \$- | \$ 0.8 |

On August 21, 2017, the Company issued \$42.5 million in aggregate principal amount of 5.75% fixed-rate notes due September 15, 2022 (the “2022 Notes”). On September 8, 2017, the Company issued an additional \$6.4 million in aggregate principal amount of the 2022 Notes pursuant to a full exercise of the underwriters’ overallotment option. The 2022 Notes will mature on September 15, 2022, and may be redeemed in whole or in part at any time or from time to time at the Company’s option on or after September 15, 2019 at a redemption price equal to 100% of the outstanding principal, plus accrued and unpaid interest. Interest is payable quarterly beginning December 15, 2017.

The Company used all of the net proceeds from this offering to fully redeem the 2019 Notes and a portion of the amount outstanding under the Original Facility. As of June 30, 2018 and December 31, 2017, the aggregate carrying amount of the 2022 Notes was approximately \$48.9 million for both periods and the fair value of the Notes was approximately \$49.1 million and \$49.5 million, respectively. The 2022 Notes are listed on New York Stock Exchange under the trading symbol “SCA”. The fair value of the Notes is based on the closing price of the security, which is a Level 2 input under ASC 820 due to sufficient trading volume.

In connection with the issuance and maintenance of the 2022 Notes, we have incurred \$1.7 million of fees which are being amortized over the term of the 2022 Notes, of which \$1.4 million and \$1.6 million remains to be amortized as of June 30, 2018 and December 31, 2017, respectively. These financing costs are presented on the consolidated statement of assets and liabilities as a deduction from the debt liability as required by ASU No. 2015-3.

The following table summarizes the interest expense and deferred financing costs on the 2022 Notes for the three and six months ended June 30, 2018 and 2017:

Off-Balance Sheet Arrangements

We may be a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of our portfolio companies. As of June 30, 2018 and December 31, 2017, our off-balance sheet arrangements consisted of unfunded commitments to provide debt financing to nine and four of our portfolio companies respectively totaling \$14.0 million and \$8.7 million, respectively. As of June 30, 2018, the Company had sufficient liquidity to fund such unfunded commitments (through cash on hand and available borrowings under the Credit Facility) should the need arise.

Regulated Investment Company Status and Dividends

We have elected to be treated as a RIC under Subchapter M of the Code. So long as we maintain our status as a RIC, we will not be taxed on our investment company taxable income or realized net capital gains, to the extent that such taxable income or gains are distributed, or deemed to be distributed, to stockholders on a timely basis.

Taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses, and generally excludes net unrealized appreciation or depreciation until realized. Dividends declared and paid by us in a year may differ from taxable income for that year as such dividends may include the distribution of current year taxable income or the distribution of prior year taxable income carried forward into and distributed in the current year. Distributions also may include returns of capital.

To qualify for RIC tax treatment, we must, among other things, distribute, with respect to each taxable year, at least 90% of our investment company net taxable income (i.e., our net ordinary income and our realized net short-term capital gains in excess of realized net long-term capital losses, if any). If we maintain our qualification as a RIC, we must also satisfy certain distribution requirements each calendar year in order to avoid a federal excise tax on our undistributed earnings of a RIC.

We intend to distribute to our stockholders between 90% and 100% of our annual taxable income (which includes our taxable interest and fee income). However, the covenants contained in the Credit Facility may prohibit us from making distributions to our stockholders under certain circumstances, and, as a result, could hinder our ability to satisfy the distribution requirement. In addition, we may retain for investment some or all of our net taxable capital gains (i.e., realized net long-term capital gains in excess of realized net short-term capital losses) and treat such amounts as deemed distributions to our stockholders. If we do this, our stockholders will be treated as if they received actual distributions of the capital gains we retained and then reinvested the net after-tax proceeds in our common stock. Our stockholders also may be eligible to claim tax credits (or, in certain circumstances, tax refunds) equal to their allocable share of the tax we paid on the capital gains deemed distributed to them. To the extent our taxable earnings for a fiscal taxable year fall below the total amount of our dividends for that fiscal year, a portion of those dividend distributions may be deemed a return of capital to our stockholders.

We may not be able to achieve operating results that will allow us to make distributions at a specific level or to increase the amount of these distributions from time to time. In addition, we may be limited in our ability to make distributions due to the asset coverage test for borrowings applicable to us as a business development company under the 1940 Act and due to provisions in the Credit Facility. We cannot assure stockholders that they will receive any distributions or distributions at a particular level.

In accordance with certain applicable Treasury regulations and private letter rulings issued by the Internal Revenue Service, a RIC may treat a distribution of its own stock as fulfilling its RIC distribution requirements if each stockholder may elect to receive his or her entire distribution in either cash or stock of the RIC, subject to a limitation that the aggregate amount of cash to be distributed to all stockholders must be at least 20% of the aggregate declared distribution. If too many stockholders elect to receive cash, each stockholder electing to receive cash must receive a pro rata amount of cash (with the balance of the distribution paid in stock). In no event will any stockholder, electing to receive cash, receive less than 20% of his or her entire distribution in cash. If these and certain other requirements are met, for U.S. federal income tax purposes, the amount of the dividend paid in stock will be equal to the amount of cash that could have been received instead of stock. We have no current intention of paying dividends in shares of our stock in accordance with these Treasury regulations or private letter rulings.

Recent Accounting Pronouncements

See Note 1 to the consolidated financial statements contained herein for a description of recent accounting pronouncements, if any, including the expected dates of adoption and the anticipated impact on the financial statements.

Critical Accounting Policies

See Note 1 to the consolidated financial statements contained herein for a description of critical accounting policies.

Subsequent Events

Investment Portfolio

On July 5, 2018 we received \$4.0 million in full realization on the equity of MBS Holdings, Inc., resulting in a realized gain of \$2.8 million.

On August 3, 2018, we invested \$7.5 million in the first lien term loan and \$0.9 million in the unfunded delayed draw term loan of Adams Publishing Group, LLC, a platform of multiple newspaper and publishing businesses across the United States.

On July 31, 2018, we received full repayment on the second lien term loan of Sitel Worldwide Corporation for total proceeds of \$10.1 million, including a \$0.1 million prepayment fee.

Credit Facilities

The outstanding balance under the Credit Facility as of August 6, 2018 was \$91.3 million.

On August 2, 2018, the Credit Facility was amended to (1) increase the committed amount of the Credit Facility from \$140.0 million to \$180.0 million and (2) reduce the asset coverage minimum from 200% to 175%. The amendment also provides for the facility to be priced at LIBOR plus 2.75% to the extent that asset coverage is below 190% at the end of any calendar quarter.

SBA-guaranteed Debentures

The total balance of SBA-guaranteed debentures outstanding as of August 6, 2018 was \$147.5 million.

Dividend Declared

On July 12, 2018, the Company's board of directors declared a regular monthly dividend for each of July, August and September 2018 as follows:

| Declared | Ex-Dividend Date | Record Date | Payment Date | Amount per Share |
|-----------|------------------|-------------|--------------|------------------|
| 7/12/2018 | 7/30/2018 | 7/31/2018 | 8/15/2018 | \$ 0.1133 |
| 7/12/2018 | 8/30/2018 | 8/31/2018 | 9/14/2018 | \$ 0.1133 |
| 7/12/2018 | 9/27/2018 | 9/28/2018 | 10/15/2018 | \$ 0.1133 |

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to financial market risks, including changes in interest rates. For the three months ended June 30, 2018 and 2017, 91% and 69% of the loans in our portfolio bore interest at floating rates, respectively. These floating rate loans typically bear interest in reference to LIBOR, which are indexed to 30-day or 90-day LIBOR rates, subject to an interest rate floor. As of June 30, 2018 and 2017, the weighted average interest rate floor on our floating rate loans was 0.96% and 0.86%, respectively.

Assuming that the Statement of Assets and Liabilities as of June 30, 2018 were to remain constant and no actions were taken to alter the existing interest rate sensitivity, the following table shows the annual impact on net income of changes in interest rates:

(\$ in millions)

| Change in Basis Points | Interest Income | Interest Expense | Net Interest Income ⁽¹⁾ |
|------------------------|-----------------|------------------|------------------------------------|
| Up 300 basis points | \$ 13.0 | \$ (2.7) | \$ 10.3 |
| Up 200 basis points | 8.8 | (1.8) | 7.0 |
| Up 100 basis points | 4.6 | (0.9) | 3.7 |
| Down 300 basis points | (5.5) | 2.7 | (2.8) |
| Down 200 basis points | (5.5) | 1.8 | (3.7) |
| Down 100 basis points | (3.9) | 0.9 | (3.0) |

⁽¹⁾ Excludes the impact of incentive fees based on pre-incentive fee net investment income. See Note 2 for more information on the incentive fee.

Although we believe that this measure is indicative of our sensitivity to interest rate changes, it does not adjust for potential changes in credit quality, size and composition of the assets on the balance sheet and other business developments that could affect net increase in net assets resulting from operations. Accordingly, no assurances can be given that actual results would not differ materially from the potential outcome simulated by this estimate. We may hedge against interest rate fluctuations by using standard hedging instruments such as futures, options and forward

contracts subject to the requirements of the 1940 Act. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio of investments. For the three months ended June 30, 2018 and 2017, we did not engage in hedging activities.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company's management, under the supervision and with the participation of various members of management, including its Chief Executive Officer and its Chief Financial Officer, has evaluated the effectiveness of its disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company's CEO and CFO have concluded that the Company's disclosure controls and procedures are effective as of the end of the period covered by this report.

(b) Changes in Internal Control Over Financial Reporting

The Company's management did not identify any change in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2018 that has materially affected, or is reasonable likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us. From time to time, we may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations.

Item 1A. Risk Factors

Other than as listed below and those described under Item 1A - Risk Factors in our quarterly report on Form 10-Q for the quarter ended June 30, 2018, there have been no other material changes in the information provided under the heading “Risk Factors” in our Annual Report on Form 10-K as of December 31, 2017. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may materially affect our business, financial condition and/or operating results.

Incurring additional indebtedness could increase the risk in investing in our company.

The use of leverage magnifies the potential for gain or loss on amounts invested. The use of leverage is generally considered a speculative investment technique and increases the risks associated with investing in our securities. Because we received stockholder approval at our 2018 annual stockholders meeting, will are permitted to increase our use of leverage beyond levels that were previously permitted by the 1940 Act. Lenders of these funds have fixed dollar claims on our assets that are superior to the claims of our common stockholders, and we would expect such lenders to seek recovery against our assets in the event of a default.

We have entered into a senior secured revolving credit agreement, dated as of October 10, 2017, with ZB, N.A., dba Amegy Bank and various other lenders (the “Credit Facility”). The Credit Facility provides for borrowings up to a maximum of \$140.0 million on a committed basis with an accordion feature that allows the Company to increase the aggregate commitments up to \$195.0 million, subject to new or existing lenders agreeing to participate in the increase and other customary conditions. The Company’s obligations to the lenders are secured by a first priority security interest in its portfolio of securities and cash not held at the SBIC subsidiary, but excluding short term investments. As of June 30, 2018, we had approximately \$119.3 million outstanding under the Credit Facility.

In August 2017, we issued \$48.9 million in aggregate principal amount of 5.75% fixed-rate notes due 2022 (the “2022 Notes”). The 2022 Notes will mature on September 15, 2022, and may be redeemed in whole or in part at any time or from time to time at the Company’s option on or after September 15, 2019 at a redemption price equal to 100% of the outstanding principal, plus accrued and unpaid interest. The 2022 Notes represent unsecured obligations. As of June 30, 2018, we had \$48.9 million of 2022 Notes outstanding.

Through our SBIC subsidiary, we issue debt securities guaranteed by the SBA and sold in the capital markets. As a result of its guarantee of the SBA-guaranteed debentures, the SBA has a fixed dollar claim on the assets of our SBIC subsidiary that is superior to the claims of our common stockholders. As of June 30, 2018, our SBIC subsidiary had \$130.0 million of SBA-guaranteed debentures outstanding.

If we are unable to meet the financial obligations under the 2022 Notes or the Credit Facility, the SBA, as a creditor, would have a superior claim to the assets of our SBIC subsidiary over our stockholders in the event we liquidate or the SBA exercises its remedies under such debentures as the result of a default by us. In addition, under the terms of the Credit Facility and any borrowing facility or other debt instrument we may enter into, we are likely to be required to use the net proceeds of any investments that we sell to repay a portion of the amount borrowed under such facility or instrument before applying such net proceeds to any other uses.

If the value of our assets decreases, leveraging would cause net asset value to decline more sharply than it otherwise would have had we not leveraged, thereby magnifying losses or eliminating our stake in a leveraged investment. Similarly, any decrease in our revenue or income will cause our net income to decline more sharply than it would have had we not borrowed. Such a decline would also negatively affect our ability to make distributions with respect to our common stock. Our ability to service any debt depends largely on our financial performance and is subject to prevailing economic conditions and competitive pressures. Moreover, as the base management fee payable to Stellus Capital is payable based on the value of our gross assets, including those assets acquired through the use of leverage, Stellus Capital will have a financial incentive to incur leverage, which may not be consistent with our stockholders' interests. In addition, our common stockholders bear the burden of any increase in our expenses as a result of our use of leverage, including interest expenses and any increase in the base management fee payable to Stellus Capital.

If our asset coverage ratio falls below the required limit, we will not be able to incur additional debt until we are able to comply with the asset coverage ratio applicable to us. This could have a material adverse effect on our operations, and we may not be able to make distributions. The actual amount of leverage that we employ will depend on Stellus Capital's and our board of directors' assessment of market and other factors at the time of any proposed borrowing. We cannot assure you that we will be able to obtain credit at all or on terms acceptable to us.

We have received exemptive relief from the SEC to permit us to exclude the debt of our SBIC subsidiary guaranteed by the SBA from the definition of senior securities in the determining our compliance with the asset coverage ratio applicable to us. This relief allows us increased flexibility in complying with the required asset coverage ratio by allowing us to borrow up to \$150.0 million more than we would otherwise be able to borrow absent the receipt of this exemptive relief, based on regulatory capital of \$75.0 million at our SBIC Subsidiary at June 30, 2018.

Our management and incentive fees may induce Stellus Capital to incur additional leverage.

Generally, the management and incentive fees payable by us to Stellus Capital may create an incentive for Stellus Capital to use the additional available leverage if this proposal is approved. For example, the fact that the base management fee that we pay to Stellus Capital is payable based upon our gross assets (which includes any borrowings for investment purposes) may encourage Stellus Capital to use leverage to make additional investments. Such a practice could result in our investing in more speculative securities than would otherwise be the case, which could result in higher investment losses, particularly during cyclical economic downturns. Under certain circumstances, the use of additional leverage may increase the likelihood of our default on our borrowings, which would disfavor holders of our common stock.

In addition, because the incentive fee on net investment income is calculated as a percentage of our net assets subject to a hurdle, having additional leverage available may encourage Stellus Capital to use leverage to increase the leveraged return on our investment portfolio. To the extent additional leverage is available at favorable rates, Stellus

Capital could use leverage to increase the size of our investment portfolio to generate additional income, which may make it easier to meet the incentive fee hurdle. Our adoption of the reduced minimum asset coverage allows us to incur additional leverage above the previous 1940 Act limitations. As a result, the incentives for Stellus Capital to cause us to use additional leverage may be greater.

Incurring additional leverage may magnify our exposure to risks associated with changes in interest rates, including fluctuations in interest rates which could adversely affect our profitability.

If we incur additional leverage, general interest rate fluctuations may have a more significant negative impact on our investments and investment opportunities than they would have absent such approval, and, accordingly, may have a material adverse effect on our investment objective and rate of return on investment capital. A portion of our income will depend upon the difference between the rate at which we borrow funds and the interest rate on the debt securities in which we invest. Because we will borrow money to make investments and may issue debt securities, preferred stock or other securities, our net investment income is dependent upon the difference between the rate at which we borrow funds or pay interest or dividends on such debt securities, preferred stock or other securities and the rate at which we invest these funds. Typically, we anticipate that our interest earning investments will accrue and pay interest at both variable and fixed rates, and that our interest-bearing liabilities will accrue interest at variable and fixed rates. The benchmarks generally used to determine the floating rates earned on our interest earning investments are London Interbank Offered Rate, or LIBOR, with maturities that range between one and twelve months and alternate base rate, or ABR, (commonly based on the Prime Rate or the Federal Funds Rate), with no fixed maturity date. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income. We use a combination of equity and long-term and short-term borrowings to finance our investment activities.

A significant increase in market interest rates could harm our ability to attract new portfolio companies and originate new loans and investments. We expect that a majority of our investments in debt will continue to be at floating rates with a floor. However, in the event that we make investments in debt at variable rates, a significant increase in market interest rates could also result in an increase in our non-performing assets and a decrease in the value of our portfolio because our floating-rate loan portfolio companies may be unable to meet higher payment obligations. In periods of rising interest rates, our cost of funds would increase, resulting in a decrease in our net investment income. Incurring additional leverage will magnify the impact of an increase to our cost of funds. In addition, a decrease in interest rates may reduce net income, because new investments may be made at lower rates despite the increased demand for our capital that the decrease in interest rates may produce. To the extent our additional borrowings are in fixed-rate instruments, we may be required to invest in higher-yield securities in order to cover our interest expense and maintain our current level of return to stockholders, which may increase the risk of an investment in our securities.

The terms of our Credit Facility or future borrowings may contractually limit our ability to incur additional indebtedness.

We will need additional capital to fund new investments and grow our portfolio of investments. We intend to access the capital markets periodically to issue debt or equity securities or borrow from financial institutions in order to obtain such additional capital. Even though our stockholders have approved a resolution permitting the Company to be subject to a minimum Asset Coverage Ratio of 150% as permitted under the Small Business Credit Availability Act of 2018, contractual leverage limitations under the Credit Facility or future borrowings may limit our ability to incur additional indebtedness. An inability on our part to amend the contractual asset coverage limitation and access additional leverage could limit our ability to take advantage of the benefits described above related to our ability to incur additional leverage and could decrease our earnings, if any, which would have an adverse effect on our results of operations and the value of our shares of common stock.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the six months ended June 30, 2018, we issued a total of 7,931 shares of common stock under the DRIP. This issuance was not subject to the registration requirements of the Securities Act of 1933. The aggregate value of the shares of our common stock issued under the DRIP was approximately \$94,788.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

On August 2, 2018, the Company entered into an amendment and commitment increase (the “Credit Facility Amendment”) to its Credit Facility.

The Credit Facility Amendment provides, among other things, for an increase in total commitments under the Credit Facility from \$140.0 million to \$180.0 million. In addition, the Credit Facility Amendment modifies the minimum asset coverage ratio that the Company is required to maintain under the Credit Facility from 2:00 : 1:00 to 1.75 : 1.00. The Credit Facility Amendment also provides for a 25 basis point increase in the applicable interest rate on borrowings during periods in which the Company’s asset coverage ratio (as determined as of the last day of each March, June, September, and December) is equal to or below 1.90 to 1.00. As a result, borrowings under the Credit Facility, after giving effect to the Credit Facility Amendment, will bear interest, subject to the Company’s election, on a per annum basis equal to (i) LIBOR plus 2.50% (or 2.75% during certain periods in which the Company’s asset coverage ratio is equal to or below 1.90 to 1.00) with no LIBOR floor or (ii) 1.50% (or 1.75% during certain periods in which the Company’s asset coverage ratio is equal to or below 1.90 to 1.00) plus an alternate base rate based on the highest of the Prime Rate, Federal Funds Rate plus 0.5% or one month LIBOR plus 1.0%.

The above summary is not complete and is qualified in its entirety by the full text of the Credit Facility Amendment, filed as an exhibit hereto.
