ITEM 12. Results of Operations and Financial Condition

On March 31, 2003, Steelcase Inc. ("the Company") reported its fourth quarter and fiscal year results and is furnishing the earnings release required under Item 12. The following exhibit is included herein:

EXHIBIT 99.1 Earnings Release - Fourth Quarter and Fiscal Year Ended  
February 28, 2003

The earnings release contains various non-GAAP financial measures. A "non-GAAP financial measure" is defined as a numerical measure of a company's financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows of the

Company. Pursuant to the requirements of Regulation G, the Company has provided a reconciliation within the earnings release of all non-GAAP financial measures to the most directly comparable GAAP financial measure.

For each non-GAAP financial measure presented in the earnings release, the measure is presented because management uses this information in monitoring and evaluating the on-going financial results and trends excluding these items. The non-GAAP financial measures used within the Company's earnings release include:

- Fourth quarter and year-to-date net income and earnings per share excluding non-recurring items;
- Fourth quarter and year-to-date operating income by segment excluding non-recurring items; and
- Outlook on an earnings per share basis excluding non-recurring items.

Management believes this information is also useful for investors because the non-recurring items represent transactions that are unusual due to their nature, size or infrequency. As a result, management believes excluding non-recurring items in the Company's results provides users of the financial statements an important insight into operating results and trends.
