ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.

On January 27, 2009, Navistar International Corporation (the Company) filed a Current Report on Form 8-K disclosing that it committed to close its Indianapolis Engine Plant (IEP) and its foundry, Indianapolis Casting Corporation (ICC) by July 31, 2009. In that report, the Company stated that the major type of charges expected to be incurred relate to employee related costs and other contractual obligations but it was unable to provide an estimate of the amount or range of charges expected to be incurred as the assessment of those costs was ongoing.

As a result of the foregoing, the Company estimates that it will record expenses in fiscal 2009 of approximately \$55 million to \$75 million, the majority of which are expected to be recognized in the 1st quarter of fiscal 2009 while the remainder is expected to occur throughout fiscal 2009. These expenses are expected to include approximately \$22 million in personnel costs for employee termination and related benefits, approximately \$16 million of charges for pension and other postretirement benefit curtailments, and approximately \$17 million to \$37 million of other charges related to inventory valuation adjustments and other contractual costs. Approximately \$28 million to \$50 million of these charges are expected to require cash expenditures, which the Company expects to make in the 3rd quarter of fiscal 2009 through fiscal 2010.

Navistar International Corporation (NYSE: NAV) is a holding company whose wholly owned subsidiaries produce International® brand commercial and military trucks, MaxxForce brand diesel engines, IC brand school and commercial buses, and Workhors® brand chassis for motor homes and step vans. It also is a private-label designer and manufacturer of diesel engines for the pickup truck, van and SUV markets. The Company also provides truck and diesel engine parts and service. Another affiliate offers financing services. Additional information is available at www.navistar.com.
