**Report of Independent Registered Public Accounting Firm**

To the Participants of the Chesapeake Energy Corporation Savings and Incentive Stock Bonus Plan and the Members of the Employee Compensation and Benefits Committee of Chesapeake Energy Corporation:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Chesapeake Energy Corporation Savings and Incentive Stock Bonus Plan (the Plan ) at December 31, 2008 and 2007, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of Delinquent Participant Contributions, Assets (Held at End of Year) and Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### **Chesapeake Energy Corporation**

### **Savings and Incentive Stock Bonus Plan**

### **Notes to Financial Statements**

### **December 31, 2008 and 2007**

#### **1. Description of the Plan**

The following is a brief summary of the various provisions of the Chesapeake Energy Corporation Savings and Incentive Stock Bonus Plan (the Plan ). Participants should refer to the Plan agreement for a complete description of the Plan 's provisions.

#### **General and Eligibility**

The Plan is a defined contribution plan that covers all employees of Chesapeake Energy Corporation (the Company ) and its subsidiaries, except for hourly employees of Chesapeake Appalachia, L.L.C., a wholly-owned subsidiary, that are members of the United Steel Workers of America Union. Any covered employee who is at least 18 years old and has completed three months of employment with the Company is eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Principal Trust Company, an affiliate of Principal Financial Group (collectively Principal ), serves as trustee for the Plan.

#### **Transfers from Other Plans**

Effective January 1, 2007, non-union hourly employees of Chesapeake Appalachia, L.L.C. became covered by the Plan. As a result, net assets of \$1,651,425 and \$158,927 were transferred into the Plan from the Columbia Natural Resources, LLC 401(k) Plan in 2007 and 2008, respectively.

Effective January 1, 2007, the Nomac Drilling 401(k) Plan merged into the Plan. All assets of the Nomac Drilling 401(k) Plan, totaling \$8,937,704, were transferred to the Plan on January 5, 2007.

#### **Contributions**

Each year, participants may contribute up to 75% of pre-tax annual salary compensation and up to 100% of performance related bonus compensation, as defined by the Plan, subject to certain limitations (\$15,500 in 2008 and 2007). In addition, participants who are age 50 and above may elect to make catch-up contributions, limited to \$5,000 for 2008 and 2007. Participants may also contribute amounts representing rollover distributions from other qualified plans.

The Company matches 100% of participant contributions up to 15% of eligible participant compensation. Profit-sharing contributions may be made at the discretion of the Company 's board of directors. No discretionary profit-sharing contributions were made in 2008 or 2007. Contributions are subject to certain annual Internal Revenue Service limitations.

### **Chesapeake Energy Corporation**

### **Savings and Incentive Stock Bonus Plan**

### **Notes to Financial Statements**

### **December 31, 2008 and 2007**

The Company's matching contribution is invested in Company common stock. These contributions are made in cash, which is used to purchase shares of Company common stock on the open market, and previously forfeited shares of Company common stock. Participants may also elect to direct all or a portion of their contributions into Company common stock. Employees are allowed to direct the investment of 100% of employer stock from Company matching contributions after:

(a) reaching age 55, or

(b) completing at least three years of vesting service.

Notwithstanding the above, to the extent employer stock from Company matching contributions was held in participant accounts on December 31, 2006, employees entitled to direct the transfer of employer stock as described in (b) above, may direct the transfer of a portion of such employer stock in the following percentages: 33% during the plan year beginning in 2007, 66% during the plan year beginning in 2008, and 100% during the plan year beginning in 2009.

### **Participant Accounts**

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan investment income (loss). Allocations are based on participant investment income (loss) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

### **Vesting**

Participants are immediately vested in their personal contributions plus actual earnings thereon. Vesting in the Company's matching and profit-sharing contributions plus actual earnings thereon is based on years of credited service or participant age. A participant becomes 100% vested after five years of credited service under a graded vesting schedule.

### **Participant Loans**

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate in effect at the time of loan origination. The prime rate at December 31, 2008 was 3.25%. Principal and interest are paid ratably through payroll deductions. Interest rates on loans outstanding at December 31, 2008 ranged from 3.25% to 10.5% with loans maturing at various dates through 2018.

### **Payment of Benefits**

Upon termination of service due to death, retirement or separation from service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or have the value rolled over to another qualified plan or IRA. Participants may elect to have the value of investments in vested Company common stock paid in cash or shares of common stock.

### **Amounts Forfeited**

Forfeited non-vested amounts are generally used to pay administrative expenses of the Plan or to reduce Company contributions into the Plan. Unallocated forfeited non-vested accounts totaled \$972,979 and \$388,240 at December 31, 2008 and 2007, respectively. During 2008 and 2007, administrative expenses were reduced by \$135,526 and \$149,082, respectively, and employer matching contributions were reduced by \$212,262 and by \$2,095,321, respectively, from forfeited non-vested accounts.

## **2. Summary of Significant Accounting Policies**

### **Basis of Accounting**

The financial statements of the Plan are prepared under the accrual method of accounting.

### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

### **Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value. Shares of mutual funds are valued at net asset value on the last business day of the year. Common stock is valued at the closing market price on the last business day of the year, as reported by the New York Stock Exchange. Participant loans are valued at outstanding principal balances plus accrued interest, which approximates fair value. Units of pooled separate accounts are recorded at estimated unit value based on the estimated market value of the underlying assets net of annual expense charges divided by the beginning units.

Effective January 1, 2007, the Plan entered into a benefit-responsive investment contract, referred to as the Principal Fixed Income Option 401(a)(k), with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at the contract value. However, the Company will be assessed a penalty of 5% of the contract value if it were to discontinue the investment contract without a 12-month notification to Principal. Under the FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, this investment is presented at fair value in the table of investments held by the Plan representing 5% or more of the Plan's net assets (Note 3) and at fair value with an adjustment to contract value in the Statement of Net Assets Available for Benefits. Contract value is equal to the principal balance plus accrued interest. Fair value is the amount the Plan sponsor would receive currently if the Plan sponsor were to withdraw or transfer funds within the Plan prior to their maturity. This fair value represents contract value times 95% (one minus a 5% withdrawal charge). There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rates are reset every January 1 and July 1 as determined by Principal, and were 3.15% and 3.50% for interest rate periods January 1, 2008 through June 30, 2008 and July 1, 2008 through December 31, 2008 compared to interest rates of

3.25% and 3.10% for interest rate periods January 1, 2007 through June 30, 2007 and July 1, 2007 through December 31, 2007, respectively. The average yield for 2008 was 3% compared to 2.56% in 2007.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Statements of Changes in Net Assets Available for Benefits present the net appreciation (depreciation) in the fair value of investments, reflecting the realized gains and losses and the unrealized appreciation (depreciation) on those investments during the years presented.

### **Payment of Benefits**

Benefits are recorded when paid.

### **Risks and Uncertainties**

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will continue to occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

### **Plan Expenses**

Trustee and recordkeeper fees are paid by the Plan. Certain Plan expenses, such as annual audit fees, are paid by the Plan sponsor and are not included in these financial statements.

### **New Accounting Pronouncements**

Effective January 1, 2008, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157 (SFAS 157), *Fair Value Measurements*. This statement establishes a framework for measuring fair value of assets and liabilities and expands disclosures about fair value measurements. The Plan adopted this standard as of January 1, 2008 and the impact of the adoption was not significant.

SFAS 157 defines fair value as the amount that would be received from the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants, i.e., an exit price. To estimate an exit price, a three-level hierarchy is used. The fair value hierarchy prioritizes the inputs, which refer broadly to assumptions market participants would use in pricing an asset or a liability, into three levels:

**Level 1:** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as the measurement date.

**Level 2:** Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

**Level 3:** Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or a liability.

**Table of Contents****Chesapeake Energy Corporation****Savings and Incentive Stock Bonus Plan****Notes to Financial Statements****December 31, 2008 and 2007**

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following table provides fair value measurement information for Plan assets measured at fair value on a recurring basis as of December 31, 2008:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value

**Table of Contents****Chesapeake Energy Corporation****Savings and Incentive Stock Bonus Plan****Notes to Financial Statements****December 31, 2008 and 2007****4. Nonparticipant-directed Investments**

The Company's discretionary contribution is automatically invested in Company common stock. Employees also have the option of investing their contributions, or a portion thereof, in Company common stock. Since the activity of the non-participant directed and participant-directed investments in the Company's common stock is combined, the entire investment is considered non-participant directed for purposes of this disclosure. Information regarding the net assets available for benefits and the changes in net assets available for benefits for Company common stock is shown below:

**5. Party-in-interest Transactions**

The Plan invests in Company common stock. These transactions represent investments in the Company and, therefore, constitute party-in-interest transactions. Further, certain Plan investments are units of pooled separate accounts or an investment contract managed by Principal, which served as the trustee of the Plan in 2008 and 2007. During 2008 and 2007, there were 746 and 556 purchases of Company common stock for a total purchase price of \$79,773,040 and \$46,451,357, respectively, and 1,195 and 1,046 sales of Company common stock for a total selling price of \$42,285,473 and \$35,728,501, respectively.

The market price for Chesapeake common stock at December 31, 2008 and 2007 was \$16.17 and \$39.20, respectively. The closing market price at June 26, 2009 was \$19.64.

**6. Tax Status**

The Plan has received an Internal Revenue Service opinion letter dated November 12, 2004, with respect to the prototype adopted by the Plan, which indicates that the prototype as designed at the date of the letter is in compliance with the applicable requirements of the Internal Revenue

Edgar Filing: CHESAPEAKE ENERGY CORP - Form 11-K

Code. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**Table of Contents****Chesapeake Energy Corporation****Savings and Incentive Stock Bonus Plan****Notes to Financial Statements****December 31, 2008 and 2007****7. Plan Termination**

Although the Company has not expressed any intent to do so, the Company reserves the right to change, amend or discontinue the Plan at any time, subject to the provisions of ERISA. In the event of discontinuance of the Plan, participants will become 100% vested in their accounts and participant account balances will be distributed to participants in accordance with the terms of the Plan.

**8. Concentration of Investments**

As of December 31, 2008, the Plan held \$89,455,821 of Company common stock, which was approximately 46% of total investments. Changes in the value of the Company will affect the price of shares held by the Plan. These changes could be significant.

**9. Reconciliation of Financial Statements to Form 5500**
