Item 2.05 Costs Associated with Exit or Disposal Activities.

Seagate Technology (the Company) announced on August 4, 2009 that it will close its Ang Mo Kio (AMK) facility in Singapore by the end of calendar year 2010. The hard drive manufacturing operations will be relocated to other existing Seagate facilities and the Company's Asia International Headquarters (IHQ) will remain in Singapore. This closure and relocation is part of the Company's ongoing focus on cost efficiencies in all areas of its business and is intended to facilitate leveraging manufacturing investments across fewer sites. The Company does not expect the closure to meaningfully change production capacity.

The Company currently estimates total restructuring charges of approximately \$80 million, all in cash, including approximately \$60 million for severance, approximately \$10 million for the relocation of manufacturing equipment, and \$10 million for other plant closure and relocation costs. The Company expects to record severance charges of up to \$60 million as restructuring costs in its Statement of Operations for its first quarter of fiscal year 2010, while the remainder of the restructuring charges are expected to be incurred through the end of calendar year 2010. The Company believes annual savings of approximately \$40 million per year will be realized when activities are fully transitioned.
