Notes:

- Amounts less than one million yen are rounded down
- The results for the six months ended September 30, 2008 are the results of the former Shinko Securities Co., Ltd.

**2. Major Factors of Variance**

Mizuho Securities was formed on May 7, 2009 through the merger of the former Mizuho Securities and the former Shinko Securities. During the six months ended September 30, 2009, the Japanese stock market started to rebound from the early spring's decline in stock markets around the world. In line with the market's steady rise, commissions and fee income increased in areas such as underwriting commissions on equity and bonds, distribution commissions on investment trusts, and commissions related to investment banking businesses. Increase in gains from bond trading also contributed to the large increase in Operating and Ordinary Income on a year-on-year basis. In addition to the above, mainly due to a gain on negative goodwill associated with the merger, which is recognized fully as an extraordinary profit, Net Income significantly increased.
