NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MAY 29, 2010 AND May 30, 2009

(unaudited)

Throughout this report, references to the Company include Pier 1 Imports, Inc. and its consolidated subsidiaries. The accompanying unaudited financial statements should be read in conjunction with the Company's Form 10-K for the year ended February 27, 2010. All adjustments that are, in the opinion of management, necessary for a fair presentation of the financial position as of May 29, 2010, and the results of operations and cash flows for the three months ended May 29, 2010 and May 30, 2009 have been made and consist only of normal recurring adjustments, except as otherwise described herein. During fiscal 2010, the par value of the Company's common stock was reduced to \$0.001 per share. The change was reflected on the Company's balance sheet by a reduction in the common stock account and a corresponding increase in the paid-in capital account. All periods presented have been adjusted to reflect the par value change. As of May 29, 2010, the Company had no financial instruments with fair market values that were materially different from their carrying values.

The results of operations for the three months ended May 29, 2010 and May 30, 2009 are not indicative of results to be expected for the fiscal year because of, among other things, seasonality factors in the retail business. Historically, the strongest sales of the Company's products have occurred during the holiday season beginning in November and continuing through December. The Company conducts business as one operating segment.

Note 1 Earnings per share

Basic earnings per share amounts were determined by dividing net income by the weighted average number of common shares outstanding for the period. Diluted earnings per share amounts were similarly computed, but included the dilutive effect of the Company's weighted average number of stock options outstanding and shares of unvested restricted stock. Stock options for which the exercise price was greater than the average market price of common shares were not included in the computation of diluted earnings per share as the effect would be antidilutive. There were 5,194,000 and 11,494,000, stock options outstanding with exercise prices greater than the average market price of the Company's common shares as of May 29, 2010 and May 30, 2009, respectively. Earnings per share for the three months ended May 29, 2010 and May 30, 2009 was calculated as follows (in thousands except per share amounts):

Pension adjustments	137	501
Comprehensive income	\$ 7,766	\$ 31,375

Note 3 Stock-based compensation

For the three months ended May 29, 2010, the Company recorded stock-based compensation expense related to stock options and restricted stock of \$1,392,000, or \$0.01 per share. For the three months ended May 30, 2009, the Company recorded stock-based compensation expense related to stock options and restricted stock of \$1,236,000, or \$0.01 per share. The Company recognized no net tax benefit related to stock-based compensation during the first three months of fiscal 2011 or fiscal 2010 as a result of the Company's valuation allowance on all deferred tax assets in both years.

During the first quarter of fiscal 2011, the Company granted 648,500 shares of restricted stock, of which 342,750 shares are service-based and will be expensed over a three-year service period. The remaining 305,750 shares are performance-based and will be expensed over a three-year period if the Company achieves certain performance targets as determined by the Compensation Committee for fiscal years 2011, 2012, and 2013. The 342,750 service-based awards and 100,875 of the performance-based awards have a weighted average grant date fair value of \$8.64, which was determined based on the closing stock price on the date of the grant. A grant date fair value for the remaining 204,875 performance-based awards will be established at a future date when performance targets are set for fiscal years 2012 and 2013. The Company also granted 62,500 performance-based shares to the chief executive officer in accordance with the renewal and extension of his employment agreement dated December 15, 2009. The shares have a grant date fair value of \$6.50 and will vest if certain performance targets are met by the Company for fiscal

2011. As of May 29, 2010, there was approximately \$1,152,000 of total unrecognized compensation expense related to unvested stock option awards that is expected to be recognized over a weighted average period of 1.5 years and \$8,317,000 of total unrecognized compensation expense related to restricted stock that is expected to be recognized over a weighted average period of 2.8 years.

Note 4 Costs associated with exit activities

As part of the ordinary course of business, the Company terminates leases prior to their expiration when certain stores or distribution center facilities are closed or relocated as deemed necessary by the evaluation of its real estate portfolio. These decisions are based on store profitability, lease renewal obligations, relocation space availability, local market conditions and prospects for future profitability. In connection with these lease terminations, the Company has recorded estimated liabilities to cover the termination costs. At the time of closure, neither the write-off of fixed assets nor the write-down of inventory related to such stores was material. Additionally, employee severance costs associated with these closures were not significant. The estimated liabilities were recorded based upon the Company's remaining lease obligations less estimated subtenant rental income. Revisions during the periods presented related to changes in estimated buyout terms or subtenant receipts expected on closed facilities. Expenses related to lease termination obligations are included in selling, general and administrative expenses in the Company's consolidated statements of operations.

The following table represents a rollforward of the liability balances for the three months ended May 29, 2010 and May 30, 2009 related to these closures (in thousands):

	Three Months Ended	
	May 29, 2010	May 30, 2009

Original charges	148	3,830
Revisions	302	755
Cash payments	(834)	(3,276)
End of period	\$ 4,517	\$ 6,307

Note 5 Condensed financial statements

The Company's 6.375% convertible senior notes due 2036 are fully and unconditionally guaranteed, on a joint and several basis, by all of the Company's material domestic consolidated subsidiaries (the "Guarantor Subsidiaries"). The subsidiaries that do not guarantee such Notes are comprised of the Company's foreign subsidiaries and certain other insignificant domestic consolidated subsidiaries (the "Non-Guarantor Subsidiaries"). Each of the Guarantor Subsidiaries is wholly owned. In lieu of providing separate financial statements for the Guarantor Subsidiaries, condensed consolidating financial information is presented below.

Note 6 Defined benefit plans

The Company maintains supplemental retirement plans (the Plans) for certain of its executive officers. The Plans provide that upon death, disability, reaching retirement age, or certain termination events, a participant will receive benefits based on highest compensation, years of service and years of plan participation. Benefit costs are determined using actuarial cost methods to estimate the total benefits ultimately payable to executive officers and this cost is allocated to the respective service periods.

The Plans are not funded and thus have no plan assets. The actuarial assumptions used to calculate benefit costs are reviewed annually, or in the event of a material change in the Plans or participation in the Plans. The components of net periodic benefit costs for the three months ended May 29, 2010 and May 30, 2009 were as follows (in thousands):

Note 7 Nonoperating income and expense

During the first quarter of fiscal 2010, a foreign subsidiary of the Company purchased \$78,941,000 of the Company's outstanding 6.375% convertible senior notes due 2036 in privately negotiated transactions at a purchase price of \$27,399,000, including accrued interest. The Company recognized a gain of approximately \$48,000,000 in connection with this transaction.

Other income during the first quarter of fiscal 2010 was primarily related to the recovery of \$10,000,000 as a result of a foreign litigation settlement.

Note 8 Income taxes

The Company continues to provide a valuation allowance against all deferred tax assets. As a result, the Company did not record any current or deferred federal tax benefit or expense on its operations for the first quarter of fiscal 2011. Minimal provisions for state and foreign income tax were made during the period.

Note 9 Subsequent event

During the first quarter of fiscal 2011, the Company sold its distribution center near Chicago, Illinois for a purchase price of \$11,800,000 and recorded a gain of approximately \$1,600,000 related to this transaction, which was included in selling, general and administrative expenses. On July 1, 2010, the Company repaid \$9,500,000 of industrial revenue bonds related to the distribution center with proceeds received from the sale. The \$9,500,000 in bonds was classified as a current liability as of May 29, 2010.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of financial condition, results of operations, and liquidity and capital resources should be read in conjunction with the Company's consolidated financial statements as of February 27, 2010, and for the year then ended, and related Notes and Management's Discussion and Analysis of Financial Condition and Results of Operations, all contained in the Company's Annual Report on Form 10-K for the year ended February 27, 2010.

Management Overview

Pier 1 Imports, Inc. (together with its consolidated subsidiaries, the Company) is a global importer and is one of North America's largest specialty retailers of imported decorative home furnishings and gifts. The Company directly imports merchandise from many countries and sells a wide variety of decorative accessories, furniture collections, bed and bath products, candles, housewares and other seasonal assortments in its stores. The results of operations for the three months ended May 29, 2010 and May 30, 2009 are not indicative of results to be expected for the fiscal year because of, among other things, seasonality factors in the retail business. Historically, the strongest sales of the Company's products have occurred during the holiday season beginning in November and continuing through December. The Company conducts business as one operating segment and operates stores in the United States and Canada under the name Pier 1 Imports. As of May 29, 2010, the Company operated 1,050 stores in the United States and Canada.

During the first quarter of fiscal 2011, the Company experienced first quarter operating income for the first time in six years, primarily as a result of an increase in comparable store sales, improved merchandise margins, well-managed inventory and controlled expenses.

Comparable store sales for the first three months of fiscal 2011 increased 14.3% compared to a decline of 7.5% in fiscal 2010, primarily as a result of increases in store traffic, conversion rate and average ticket. Helping to drive the improvement in sales was an increase in total sales on the Company's privately branded loyalty card. During the first quarter of fiscal 2011, sales on the Pier 1 rewards card increased to 25.9% of U.S. store sales from 25.2% in fiscal 2010. Management believes that the Company's results will continue to improve as a result of its merchandise assortments, the improved in-store experience and the strong focus placed on the customer.

The Company's merchandise margins improved to 58.6% during the first quarter of fiscal 2011 compared to 54.2% for the same period last year. The increase in margins was a result of decreased clearance activity, reduced vendor and supply chain costs and well-managed inventory levels. For fiscal 2011, the Company expects merchandise margin to be at least 56%.

Inventory was in line with the Company's expectations and was \$303.2 million at the end of the first quarter compared to \$294.2 million at the end of the first quarter last year. Management continues to strategically manage inventory purchases and monitor inventory levels to keep in line with consumer demand.

Store occupancy costs for the quarter were \$65.2 million, a decline of \$2.3 million compared to the same period last year. This decrease was the result of reduced store count and negotiated rental rate reductions on existing stores. The Company expects to open three to five and close 10 to 15 stores during fiscal 2011.

Marketing expenses for the quarter remained relatively flat when compared to the same period last year, but are expected to be slightly higher than originally planned during the third and fourth quarters of fiscal 2011.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.** (continued)

The Company has seen improved response to its recent marketing campaigns and plans to increase its spending during the fall and holiday selling season. The current forecasted marketing spend is now approximately \$65.0 million for fiscal 2011.

The Company ended the first quarter of fiscal 2011 with \$204.8 million in cash and cash equivalents, an increase of \$16.9 million when compared to the end of fiscal 2010. During the first quarter of fiscal 2011, the Company finalized the sale of its distribution center near Chicago, Illinois, for a purchase price of \$11.8 million, recording a gain of \$1.6 million. On July 1, 2010, the Company repaid \$9.5 million of industrial revenue bonds related to the distribution center by utilizing proceeds it received from the sale, which reduced the Company's total debt, including the current portion, to approximately \$26 million.

Including cash and available credit, the Company had total liquidity of \$318.0 million as of the end of the first quarter. Although the Company's improved performance during the first quarter of fiscal 2011 is encouraging, management realizes it must continue to be prudent in managing inventory purchases, as well as control expenses throughout the balance of fiscal 2011.

Results of Operations

Management reviews a number of key indicators to evaluate the Company's financial performance. The following table summarizes those key performance indicators for the three months ended May 29, 2010 and May 30, 2009:

	Three Months Ended	
	May 29, 2010	May 30, 2009

Total retail square footage decline from the same period last year	(2.1%)	(3.8%)

⁽¹⁾ Net income for the three months ended May 30, 2009 included a \$10.0 million gain related to the recovery of a litigation settlement and a \$47.8 million gain from the repurchase of a portion of the Company's convertible debt during the period.

Net Sales Net sales consisted almost entirely of sales to retail customers, net of discounts and returns, but also included delivery service revenues and wholesale sales and royalties. Sales by retail concept during the period were as follows (in thousands):

Net sales	\$ 306,259	\$ 281,130

⁽¹⁾ Other sales consisted primarily of wholesale sales and royalties received from Grupo Sanborns, S.A. de C.V. and gift card breakage. Net sales for the first quarter of fiscal 2011 were \$306.3 million, an increase of 8.9% over last year's first quarter net sales of \$281.1 million. Comparable store sales for the quarter increased 14.3%, compared to a decline of 7.5% for the same period in the prior year. The increase in sales was primarily the result of an increase in store traffic, conversion rate and average ticket. Without the effects of Canadian currency conversion rates, the increase in comparable store sales would have been 12.9% for the quarter. Total store count as of May 29, 2010 was 1,050 compared to 1,073 stores a year ago. During the first quarter of fiscal 2011, sales on the Pier 1 rewards card increased to 25.9% of U.S. store sales from 25.2% in the first quarter of fiscal 2010.

The increase in sales for the three-month period was comprised of the following components (in thousands):

	Net Sales
Net sales for the three months ended May 30, 2009	\$ 281,130
Incremental sales increase (decline) from:

⁽¹⁾ The Company supplies merchandise and licenses the Pier 1 Imports name to Grupo Sanborns, S.A. de C.V., which sells Pier 1 Imports merchandise primarily in a store within a store format. At May 29, 2010, there were 35 locations in Mexico. These locations were excluded from the table above.

Table of ContentsItem 2. Management's Discussion and Analysis of Financial Condition and Results of Operations. (continued)

Gross Profit Gross profit for the first quarter of fiscal 2011, which is calculated by deducting store occupancy costs from merchandise margin dollars, was 37.4% as a percentage of sales compared to 30.2% for the same period last year. Merchandise margins for the first quarter increased 440 basis points to 58.6% of sales over last year's 54.2% of sales. Reduced vendor and supply chain costs coupled with decreased clearance activity and well managed inventory levels positively impacted merchandise margins compared to the same period last year. Store occupancy costs were \$65.2 million for the first quarter of fiscal 2011 compared to \$67.5 million for the same period last year. The decline was primarily the result of negotiated rental reductions with the Company's landlords in addition to a lower overall store count. Additionally, property taxes and insurance costs decreased when compared to the prior year, slightly offset by an increase in maintenance costs.

Operating Expenses and Depreciation Selling, general and administrative expenses for the first quarter of fiscal 2011 were \$101.1 million, a decrease of \$4.5 million when compared to the same period last year. As a percentage of sales, these expenses decreased 450 basis points as a result of the leveraging of relatively fixed costs over a higher sales base.

Selling, general and administrative expenses for the quarter included the charges summarized in the table below (in thousands):

Quarter	May 29, 2010		May 30, 2009		Increase / (Decrease)
	Expense	% of Sales	Expense	% of Sales	
Store payroll	\$ 50,847	16.6%	\$ 50,779	18.1%	\$ 68
Marketing	13,568	4.4%	13,099	4.7%	469

	\$ 101,052	33.0%	\$ 105,557	37.5%	\$ (4,505)

Expenses that tend to fluctuate with sales and number of stores, such as store payroll, marketing, store supplies and equipment rental increased \$0.8 million. Store payroll, including bonus, remained relatively flat when compared to the same period last year. Marketing expenditures were \$13.6 million, an increase of \$0.5 million from the first quarter of fiscal 2010, and a decrease of 30 basis points as a percentage of sales. The increase in dollars was primarily as a result of an increase in newspaper inserts, direct mail and radio, partly offset by a decrease in television advertising and catalogs. Marketing expenses for the first quarter were \$13.6 million or 4.4% as a percentage of sales. Other variable expenses, primarily supplies and equipment rental, increased \$0.2 million when compared to the same period last year.

Relatively fixed selling, general and administrative expenses during the first quarter of fiscal 2011 increased \$2.4 million from the same period last year, but remained flat as a percentage of sales. Administrative payroll increased \$0.6 million during the first quarter of fiscal 2011 when compared to last year, primarily as a result of a slight increase in salaries and an increase in accrued management bonuses. All other relatively fixed costs increased \$1.8 million or 40 basis points as a percentage of sales. This increase relates primarily to the foreign currency revaluation which was an expense of \$0.1 million in the current year compared to a \$1.1 million gain in the prior year.

Table of Contents

Item 2. **Management's Discussion and Analysis of Financial Condition and Results of Operations.** (continued)

Lease termination costs and other expenses were \$1.1 million, a decrease of \$5.8 million from the first quarter of the prior year. This decrease was primarily the result of decreased activity in lease terminations and buyout agreements. In addition, only six stores were closed during the first quarter of fiscal 2011 compared to 19 store closures during the first quarter of fiscal 2010. During the first quarter of fiscal 2011, the Company sold its distribution center near Chicago, Illinois, and recorded a gain of \$1.6 million.

Depreciation and amortization expense for the first quarter of fiscal 2011 was \$5.1 million compared to \$6.0 million for the same period last year. This decrease was primarily the result of certain assets becoming fully depreciated during fiscal 2010, coupled with store closures and minimal capital expenditures last year.

The operating income for the first quarter of fiscal 2011 was \$8.3 million compared to a loss of \$26.7 million for last year's first quarter. This improvement was primarily the result of an increase in comparable store sales, improved merchandise margins, well-managed inventory and controlled expenses.

Nonoperating income and expense During the first quarter of fiscal 2011 nonoperating expense was \$0.4 million, compared to nonoperating income of \$55.8 million for the same period in fiscal 2010. This decrease was primarily the result of the Company recording a gain of \$47.8 million related to the repurchase of a portion of its debt during the first quarter of fiscal 2010, with no comparable gain in the current year. In addition, the Company settled a lawsuit during the first quarter of fiscal 2010 and recorded a \$10.0 million gain as a result of the recovery.

Income taxes The Company continues to provide a valuation allowance against all deferred tax assets. As a result, no current or deferred federal tax benefit or expense was recorded on the results of the first quarter of fiscal 2011 and only minimal state and foreign tax provisions were made during the period.

Net Income Net income for the first quarter of fiscal 2011 was \$7.7 million, or \$0.07 per share, compared to \$29.3 million, or \$0.32 per share, for the first quarter of fiscal 2010.

Liquidity and Capital Resources

The Company ended the first quarter of fiscal 2011 with \$204.8 million in cash and temporary investments compared to \$187.9 million at the end of fiscal 2010. Operating activities in the first quarter of fiscal 2011 provided \$10.3 million of cash, primarily as a result of the Company's net income, a decrease in inventory and an increase in accounts payable. These cash inflows were partially offset by an increase in accounts receivable and prepaid assets and a decrease in income taxes payable.

Inventory levels at the end of the first quarter of fiscal 2011 were \$303.2 million, down \$10.3 million or 3.3%, from inventory levels at the end of fiscal 2010. At the end of the first quarter of fiscal 2011, inventory per retail square foot was \$37 compared to \$38 at fiscal 2010 year end. The Company continues to focus on managing inventory levels and closely monitoring merchandise purchases to keep inventory in line with consumer demand. Total inventory at the end of fiscal 2011 is expected to be approximately \$300 million to \$320 million.

During the first three months of fiscal 2011, investing activities provided \$4.2 million compared to \$0.5 million during the same period last year. Proceeds from the sale of the Company's distribution center near Chicago, Illinois provided \$10.6 million. Capital expenditures were \$6.3 million in fiscal 2011 compared to \$0.4 million in fiscal 2010. Capital expenditures for fiscal 2011 are now expected to be approximately \$35.0 million.

Financing activities provided \$2.4 million, primarily related to the exercises of employee stock options during the quarter, compared to using \$26.5 million for the same period last year. The change in financing activities was primarily the result of \$26.8 million used in the prior year to repurchase a portion of the Company's convertible notes.

Table of Contents

Item 2. **Management's Discussion and Analysis of Financial Condition and Results of Operations.** (continued)

At the end of the first quarter, the Company's minimum operating lease commitments remaining for fiscal 2011 were \$157.0 million. The present value of total existing minimum operating lease commitments discounted at 10% was \$617.1 million at the fiscal 2011 first quarter end compared to \$714.0 million at the fiscal 2010 first quarter end.

During the first quarter of fiscal 2011, the Company sold its distribution center near Chicago, Illinois for a purchase price of \$11.8 million and recorded a gain of approximately \$1.6 million related to this transaction. Subsequent to quarter end, the Company repaid approximately \$9.5 million of industrial revenue bonds related to the distribution center with proceeds received from the sale. The \$9.5 million in bonds was classified as current portion of long-term debt as of May 29, 2010. The remaining \$16.5 million classified as current portion of long-term debt relates to the Company's 6.375% convertible senior notes due 2036. The Company anticipates that these notes will be repaid on or before February 15, 2011.

The Company's bank facilities at the end of the first quarter of fiscal 2011 included a \$300 million credit facility, expiring in May 2012, which was secured by the Company's eligible merchandise inventory and third-party credit card receivables. As of May 29, 2010, the Company had no outstanding cash borrowings and had utilized \$74.8 million in letters of credit and bankers' acceptances. If advances under the facility result in availability of less than \$30.0 million, the Company will be required to comply with a fixed charge coverage ratio as stated in the agreement. The Company does not anticipate falling below this minimum availability in the foreseeable future. As of May 29, 2010, the Company's calculated borrowing base was \$218.0 million. After excluding the required minimum of \$30.0 million and the \$74.8 million in utilized letters of credit and bankers' acceptances from the borrowing base, \$113.2 million remained available for cash borrowings. As of the end of the first quarter of fiscal 2011, the Company was in compliance with required covenants stated in the agreement.

Working capital requirements are expected to be funded from cash from operations, available cash balances, and if required, borrowings against lines of credit. Given the Company's cash position and the various liquidity options available, the Company believes it has sufficient liquidity to fund operational obligations, capital expenditure requirements and the repayment of its debt.

Forward-looking Statements

Certain matters discussed in this quarterly report, except for historical information contained herein, may constitute forward-looking statements that are subject to certain risks and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The Company may also make forward-looking statements in other reports filed with the SEC and in material delivered to the Company's shareholders. Forward-looking statements provide current expectations of future events based on certain assumptions. These statements encompass information that does not directly relate to any historical or current fact and often may be identified with words such as anticipates, believes, expects, estimates, intends, plans, projects and other similar expressions. Management's expectations and assumptions regarding planned store openings and closings, financing of Company obligations from operations, success of its marketing, merchandising and store operations strategies, and other future results are subject to risks, uncertainties and other factors that could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements. Risks and uncertainties that may affect Company operations and performance include, among others, the effects of terrorist attacks or other acts of war, conflicts or war involving the United States or its allies or trading partners, labor strikes, weather conditions or natural disasters, volatility of fuel and utility costs, the on-going recession and the actions taken by the United States and other countries to stimulate the economy or to prevent the worsening of the recession, the general strength of the economy and levels of consumer spending, consumer confidence, suitable store sites and distribution center locations, the availability of a qualified labor force and management, the availability and proper functioning of technology and communications systems supporting the Company's key business processes, the ability of the

Company to import merchandise from foreign countries without significantly restrictive tariffs, duties or quotas, and the ability of the Company to source, ship and deliver items of acceptable quality to its U.S. distribution centers at reasonable prices and rates and in a timely fashion. The foregoing risks and uncertainties are in addition to others discussed elsewhere in this report which may also affect Company operations and performance. The Company assumes no obligation to update or otherwise revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied will not be realized. Additional information concerning these risks and uncertainties is contained in the Company's Annual Report on Form 10-K for the year ended February 27, 2010, as filed with the Securities and Exchange Commission.

Impact of Inflation

Inflation has not had a significant impact on the operations of the Company.

PART I

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

There are no material changes to the Company's market risk as disclosed in its Form 10-K filed for the fiscal year ended February 27, 2010.

Item 4. Controls and Procedures.

The Company maintains disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, (the Exchange Act), that are designed to ensure that information required to be disclosed by the Company in its reports filed or furnished under the Exchange Act is (a) recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is (b) accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding the required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, an evaluation was conducted under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of May 29, 2010. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded, with reasonable assurance, that the Company's disclosure controls and procedures were effective as of such date.

There has not been any change in the Company's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

Item 1. Legal Proceedings.

The Company is a party to various legal proceedings and claims in the ordinary course of its business. The Company believes that the outcome of these matters will not have a material adverse effect on its consolidated financial position, results of operations or liquidity.

Item 1A. Risk Factors.

There are no material changes from risk factors previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended February 27, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no purchases of common stock of the Company made during the three months ended May 29, 2010 by Pier 1 Imports, Inc. or any affiliated purchaser of Pier 1 Imports, Inc. as defined in Rule 10-b-18(a)(3) under the Securities Exchange Act of 1934. During the first quarter of fiscal 2011, 54,443 shares of the Company's common stock were acquired from employees to satisfy tax withholding obligations that arose upon vesting of restricted stock granted pursuant to approved plans.

Item 5. Other information Submission of Matters to a Vote of Security Holders.

The Annual Meeting of Shareholders of the Company was held June 29, 2010 for the purpose of electing as directors the five nominees named in the proxy statement to hold office until the next annual meeting of shareholders and until their successors are elected and qualified; to approve an amendment of the Pier 1 Imports, Inc. Stock Purchase Plan to authorize an additional 3,500,000 shares of Pier 1 Imports common stock to the plan and to extend the term of the plan for five years; to ratify the Audit Committee's approval to engage Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal 2011; and to vote on a shareholder proposal, if properly submitted at the meeting. The results of the election and the votes follow:

Election as directors of the five nominees named in the proxy statement to hold office until the next annual meeting of shareholders and until their successors are elected and qualified. In order to be elected, a nominee for director must receive the affirmative vote of a majority of the votes cast with respect to such nominee by the shares of common stock present in person or represented by proxy at the annual meeting and entitled to vote on the election of directors.
