ROCK-TENN COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Three and Six Month Periods Ended March 31, 2011

(Unaudited)

Unless the context otherwise requires, we, us, our, RockTenn and the Company refer to the business of Rock-Tenn Company, its wholly-owned subsidiaries and its partially-owned consolidated subsidiaries. Our references to the business of Rock-Tenn Company do not include entities that we do not consolidate. In April 2011, our 23.96% ownership of QPSI, a business providing merchandising displays, contract packaging, logistics and distribution solutions increased to approximately 31.5% as a result of a liquidation of one of the member's interest in QPSI.

We are primarily a manufacturer of packaging products, recycled paperboard, containerboard, bleached paperboard and merchandising displays.

Note 1. Interim Financial Statements

Our independent public accounting firm has not audited our accompanying interim financial statements. We derived the Condensed Consolidated Balance Sheet at September 30, 2010 from the audited Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2010 (the **Fiscal 2010 Form 10-K**). In the opinion of our management, the Condensed Consolidated Financial Statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of our results of operations for the three and six months ended March 31, 2011 and March 31, 2010, our financial position at March 31, 2011 and September 30, 2010, and our cash flows for the six months ended March 31, 2011 and March 31, 2010.

We have condensed or omitted certain notes and other information from the interim financial statements presented in this Quarterly Report on Form 10-Q. Therefore, these interim statements should be read in conjunction with our Fiscal 2010 Form 10-K.

The results for the three and six months ended March 31, 2011 are not necessarily indicative of results that may be expected for the full year.

Note 2. New Accounting Standards

Recently Adopted Standards

In June 2009, the Financial Accounting Standards Board (**FASB**) issued Accounting Standards Update 2009-16 *Accounting for Transfers of Financial Assets* which amended certain provisions of ASC 860 *Transfers and Servicing*. These provisions require additional disclosures about the transfer and derecognition of financial assets and eliminate the concept of qualifying special-purpose entities. These provisions were effective for fiscal years beginning after November 15, 2009 (October 1, 2010 for us). The adoption of these provisions did not have a material effect on our consolidated financial statements.

In June 2009, the FASB issued certain provisions of ASC 810 *Consolidation* which revise the approach to determining the primary beneficiary of a variable interest entity to be more qualitative in nature and require companies to more frequently reassess whether they must consolidate a variable interest entity. These provisions were effective for fiscal years beginning after November 15, 2009 (October 1, 2010 for us), for interim periods within the first annual reporting period and for interim and annual reporting periods thereafter. The adoption of these provisions did not have a material effect on our consolidated financial statements.

In October 2009, the FASB issued Accounting Standards Update 2009-13 *Multiple Deliverable Revenue Arrangements* which amended certain provisions of ASC 605-25 *Revenue Recognition*. These provisions clarify the separation criteria for deliverables in a multiple element revenue arrangement and require the use of the relative selling price of standalone elements to allocate transaction costs to individual elements at inception. These provisions also require additional disclosures regarding the nature and type of performance obligations of significant multiple deliverable revenue arrangements. These provisions were effective for fiscal periods beginning on or after June 15, 2010 (October 1, 2010 for us). The adoption of these provisions did not have a material effect on our consolidated financial statements.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)****Note 3. Comprehensive Income and Equity****Comprehensive Income**

The following are the components of comprehensive income, net of tax (in millions):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2011	2010	2011	2010
Consolidated net income	\$ 38.3	\$ 33.7	\$ 89.6	\$ 91.3

Comprehensive income	48.0	43.6	109.4	107.6
Less: Comprehensive (income) loss attributable to noncontrolling interests	(1.6)	(1.2)	(3.0)	1.6
Comprehensive income attributable to Rock-Tenn Company shareholders	\$ 46.4	\$ 42.4	\$ 106.4	\$ 109.2

The net of tax components of comprehensive income were determined using effective tax rates of approximately 39% for the three and six months ended March 31, 2011 and March 31, 2010. The change in other comprehensive income due to foreign currency translation was primarily due to the change in the Canadian/U.S. dollar exchange rates.

Equity

The following is a summary of the changes in total equity for the six months ended March 31, 2011 (in millions):

- ⁽¹⁾ Excludes amounts related to contingently redeemable noncontrolling interests which are separately classified outside of permanent equity in the mezzanine section of the Condensed Consolidated Balance Sheets.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)****Note 4. Earnings per Share**

Certain of our restricted stock awards are considered participating securities as they receive non-forfeitable rights to dividends at the same rate as common stock. As participating securities, we include these instruments in the earnings allocation in computing earnings per share (**EPS**) under the two-class method described in ASC 260 *Earnings per Share*. The following table sets forth the computation of basic and diluted earnings per share under the two-class method (in millions, except per share data):

Diluted earnings per share attributable to Rock-Tenn Company shareholders	\$ 0.92	\$ 0.83	\$ 2.19	\$ 2.26

Options to purchase less than 0.1 million common shares were not included in computing diluted earnings per share in the three and six months ended March 31, 2011. Options to purchase 0.1 million common shares were not included in computing diluted earnings per share in the three and six months ended March 31, 2010 because the effect would have been antidilutive.

Note 5. Alternative Fuel Mixture Credit

We recognized \$8.1 million and \$29.0 million of alternative fuel mixture credit, which was not taxable for federal or state income tax purposes, and reduced cost of goods sold in our Consumer Packaging segment by \$8.1 million and \$28.8 million, net of expenses, in the three and six

months ended March 31, 2010, respectively. For more information regarding our alternative fuel mixture credit and cellulosic biofuel producer credit, see **Note 5. Alternative Fuel Mixture Credit and Cellulosic Biofuel Producer Credit** of the Notes to Consolidated Financial Statements section of the Fiscal 2010 Form 10-K.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)****Note 6. Restructuring and Other Costs, Net****Summary of Restructuring and Other Initiatives**

We recorded pre-tax restructuring and other costs, net, of \$6.3 million and \$1.3 million for the three months ended March 31, 2011 and March 31, 2010, respectively, and recorded pre-tax restructuring and other costs, net, of \$6.9 million and \$4.3 million for the six months ended March 31, 2011 and March 31, 2010, respectively. These amounts are not comparable since the timing and scope of the individual actions associated with a restructuring, an acquisition or integration can vary. We discuss these charges in more detail below.

The following table presents a summary of restructuring and other charges, net, related to active restructuring and other initiatives that we incurred during the three months and six months ended March 31, 2011 and March 31, 2010, the cumulative recorded amount since we announced the initiative, and the total we expect to incur (in millions):

⁽¹⁾ We have defined **Net property, plant and equipment** as used in this Note 6 as: property, plant and equipment impairment losses, subsequent adjustments to fair value for assets classified as held for sale, and subsequent (gains) or losses on sales of property, plant and equipment and related parts and supplies.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)**

When we close a facility, if necessary, we recognize an impairment charge primarily to reduce the carrying value of equipment or other property to their estimated fair value less cost to sell, and record charges for severance and other employee related costs. Any subsequent change in fair value, less cost to sell, prior to disposition is recognized as identified; however, no gain is recognized in excess of the cumulative loss previously recorded. At the time of each announced closure, we generally expect to record future charges for equipment relocation, facility carrying costs, costs to terminate a lease or contract before the end of its term and other employee related costs. Expected future charges are reflected in the table above in the Expected Total lines until incurred.

- (a) The Consumer Packaging segment cumulative charges primarily reflect the closure of our Baltimore, Maryland facility (announced in fiscal 2008 and closed in fiscal 2009). Although specific circumstances vary, our strategy has generally been to consolidate our business into large well-equipped plants that operate at high utilization rates and take advantage of available capacity created by operational excellence initiatives. Therefore, we transfer a substantial portion of each plant's assets and production to our other folding carton plants. We believe these actions have allowed us to more effectively manage our business.
- (b) The Corrugated Packaging segment current year charges primarily reflect the closure of our Hauppauge, New York sheet plant (recorded in fiscal 2010 and closed in fiscal 2011). The cumulative charges are primarily for Hauppauge, the impairment of certain assets and a customer relationship intangible at one of our corrugated graphics subsidiaries and our Greenville, South Carolina sheet plant (announced in fiscal 2008 and closed in fiscal 2009). We have transferred a substantial portion of the Hauppauge and Greenville plants' production to our other corrugated plants.
- (c) The Specialty Paperboard Products segment charges primarily reflect the closure of our El Paso, Texas, Cicero, Illinois and Santa Fe, California (each announced and closed in fiscal 2011) and Keene, New Hampshire (announced and closed in fiscal 2010) interior packaging plants, and our Columbus, Indiana laminated paperboard converting operation (announced and closed in fiscal 2010), and our Macon, Georgia drum manufacturing operation (announced and closed in fiscal 2010). The cumulative charges primarily include our Macon and Columbus facilities as well as our Drums, Pennsylvania and Litchfield, Illinois interior packaging plants (announced and closed in fiscal 2010 and 2009, respectively) and impairment of certain assets, severance and lease liabilities associated with our fiscal 2010 acquisition of Innerpac Holding Company. We have transferred a substantial portion of the production from the closed interior packaging plants to our other interior packaging plants.
- (d) The expenses in the Other Costs column primarily reflect costs incurred with the announced Smurfit-Stone Container Corporation (**Smurfit-Stone**) acquisition and integration expenses. The pre-tax charges are summarized below (in millions):

	Acquisition Expenses	Integration Expenses	Other Expenses	Total
Current Qtr.	\$ 4.0	\$ 2.2	\$ 0.0	\$ 6.2
YTD Fiscal 2011	4.0	2.2	0.0	6.2

Acquisition expenses also include expenses associated with other acquisitions not consummated. Acquisition expenses primarily consist of advisory, legal, accounting, valuation and other professional or consulting fees. Integration expenses reflect preliminary work being performed to facilitate the Smurfit-Stone acquisition. We are currently evaluating the amount of expenses we expect to incur as a result of the Smurfit-Stone acquisition and integration.

Note 7. Tax Provision

We recorded income tax expense of \$17.5 million and \$44.8 million in the three and six months ended March 31, 2011 compared to \$16.4 million and \$33.7 million in the three and six months ended March 31, 2010. The effective tax rates for the three and six months ended March 31, 2011 were approximately 31.4% and 33.3%, respectively. The effective tax rates for the three and six months ended March 31, 2010 were approximately 32.7% and 27.0%, respectively. The effective tax rates for the three and six months ended March 31, 2011 were different than the statutory rate primarily due to the impact of the second quarter release of a valuation allowance related to state credits and reinstatement of the federal research and development credit in the first quarter. The effective tax rates for the three and six months ended March 31, 2010 were different from the statutory rate primarily due to the impact of the alternative fuel mixture credit which was excluded from taxable income.

As of March 31, 2011, the gross amount of unrecognized tax benefits was approximately \$12.6 million, exclusive of interest and penalties. Of this balance, if we were to prevail on all unrecognized tax benefits recorded, approximately \$5.1 million would benefit the effective tax rate. We regularly evaluate, assess and adjust the related liabilities in light of changing facts and circumstances, which could cause the effective tax rate to fluctuate from period to period.

We recognize interest and penalties related to unrecognized tax benefits in income tax expense in the Condensed Consolidated Statements of Income, which is consistent with the recognition of these items in prior reporting periods. As of March 31, 2011, we had a recorded liability of \$3.9 million for the payment of interest and penalties related to the liability for unrecognized tax benefits.

We file federal, state and local income tax returns in the U.S. and various foreign jurisdictions. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years prior to fiscal 2007.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)****Note 8. Inventories**

We value substantially all of our U.S. inventories at the lower of cost or market, with cost determined on the last-in first-out (**LIFO**) inventory valuation method, which we believe generally results in a better matching of current costs and revenues than under the first-in first-out (**FIFO**) inventory valuation method. In periods of increasing costs, the LIFO method generally results in higher cost of goods sold than under the FIFO method. In periods of decreasing costs, the results are generally the opposite. Because LIFO is designed for annual determinations, it is possible to make an actual valuation of inventory under the LIFO method only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, we base interim LIFO estimates on management's projection of expected year-end inventory levels and costs. We value all other inventories at the lower of cost or market, with cost determined using methods which approximate cost computed on a FIFO basis. These other inventories represent primarily foreign inventories and spare parts inventories. Inventories were as follows (in millions):

	March 31, 2011	September 30, 2010
Finished goods and work in process	\$ 154.6	\$ 149.6
Raw materials	130.2	118.8
Supplies and spare parts	51.7	50.1
Inventories at FIFO cost	336.5	318.5

Net inventories	\$ 280.4	\$ 269.5

Edgar Filing: Rock-Tenn CO - Form 10-Q

(b) On March 5, 2008 we entered into an Amended and Restated Credit Agreement (the **Credit Facility**) with an original maximum principal amount of \$1.2 billion. The Credit Facility originally included a \$450 million revolving credit facility, a \$550 million term loan A facility and a \$200 million term loan B facility. The Credit Facility is pre-payable at any time. Scheduled term loan payments or other term loan payments reduce the facility size. The term loan B facility was repaid in fiscal 2010. Since entering into the Credit Facility we have amended the facility to allow us additional flexibility to conduct our business, as discussed in our Fiscal 2010 Form 10-K. The revolving credit facility and term loan A facility are scheduled to mature on the earlier to occur of (a) March 5, 2013 or (b) if our March 2013 Notes have not been paid in full or refinanced by September 15,

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)**

2012, then September 15, 2012. The Credit Facility provides for up to \$100.0 million in Canadian or U.S. Dollar loans to a Canadian subsidiary. At March 31, 2011 and September 30, 2010, the amount committed under the Credit Facility for loans to a Canadian subsidiary was \$45.0 million. At March 31, 2011, there were \$2.0 million in borrowings by the Canadian subsidiary. At March 31, 2011, available borrowings under the revolving credit portion of the Credit Facility, reduced by outstanding letters of credit not drawn upon of approximately \$30.7 million, were approximately \$414.2 million.

The applicable margin on LIBOR based term loan A and revolving credit loans is dependent upon our Leverage Ratio (which is the ratio of our total funded debt to EBITDA, as defined in the Credit Facility). For the quarter ended March 31, 2011 the applicable margin was 1.25%, and for the year ended September 30, 2010 the applicable margin was 1.25%. The variable rate, including the applicable margin, on our term loan A facility, before the effect of interest rate swaps, was 1.52% and 1.51% at March, 2011 and September 30, 2010, respectively. Interest rates on our revolving credit facility for borrowings both in the U.S. and Canada ranged from 1.51% to 3.50% at March 31, 2011 and from 1.51% to 3.50% at September 30, 2010. Our obligations under the Credit Facility and under certain related hedging agreements are guaranteed by substantially all of our U.S. subsidiaries, and partially by our Canadian subsidiaries. Obligations under the Credit Facility are secured by a substantial portion of our assets. Certain restrictive covenants govern our maximum availability under this facility, including Minimum Consolidated Interest Ratio Coverage; Maximum Leverage Ratio; and Minimum Consolidated Net Worth, as discussed in our Debt Footnote in our Fiscal 2010 Form 10-K. We test and report our compliance with these covenants each quarter. We are in compliance with all of our covenants.

- (c) At March 31, 2011, we had no borrowings outstanding and at September 30, 2010, we had \$75.0 million outstanding under our \$135.0 million receivables-backed financing facility (the **Receivables Facility**), which will expire on July 13, 2012. Accordingly, such borrowings are classified as long-term at March 31, 2011 and September 30, 2010. The borrowing rate, which consists of the market rate for asset-backed commercial paper plus a utilization fee, was 2.04% and 2.08% as of March 31, 2011 and September 30, 2010, respectively. Borrowing availability under this facility is based on the eligible underlying accounts receivable and certain covenants. At March 31, 2011 and September 30, 2010, maximum available borrowings, excluding amounts outstanding, under this facility were approximately \$135.0 million and \$135.0 million, respectively. The carrying amount of accounts receivable collateralizing the maximum available borrowings at March 31, 2011 was approximately \$268 million. We test and report our compliance with these covenants monthly. We are in compliance with all of our covenants. We have continuing involvement with the underlying receivables as we provide credit and collections services pursuant to the securitization agreement. There are no restrictions on the underlying receivables.
- (d) The industrial development revenue bonds (**IDBs**) are issued by various municipalities in which we maintain facilities. Each series of bonds is secured by a direct pay letter of credit, or collateralized by a mortgage interest and collateral interest in specific property or a combination thereof. As of March 31, 2011, the outstanding amount of direct pay letters of credit supporting all IDBs was \$17.7 million. The letters of credit are renewable at our request so long as no default or event of default has occurred under the Credit Facility.

Note 10. Derivatives

We are exposed to interest rate risk, commodity price risk and foreign currency exchange risk. To manage these risks, from time-to-time and to varying degrees, we enter into a variety of financial derivative transactions and certain physical commodity transactions that are determined to be derivatives. Interest rate swaps may be entered into to manage the interest rate risk associated with a portion of our outstanding debt. Interest rate swaps are either designated as cash flow hedges of forecasted floating rate interest payments on variable rate debt or fair value hedges of fixed rate debt, or we may elect not to treat them as accounting hedges. Forward contracts on certain commodities may be entered into to manage the price risk associated with forecasted purchases or sales of those commodities. In addition, certain commodity derivative contracts and physical commodity contracts that are determined to be derivatives are not designated as accounting hedges because either they do not meet the criteria for treatment as accounting hedges under ASC 815, *Derivatives and Hedging*, or we elect not to treat them as accounting hedges under ASC 815. We may also enter into forward contracts to manage our exposure to fluctuations in Canadian foreign currency rates with respect to transactions denominated in Canadian dollars.

Outstanding financial derivative instruments expose us to credit loss in the event of nonperformance by the counterparties to the agreements. Our credit exposure related to these financial instruments is represented by the fair

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)**

value of contracts reported as assets. We manage our exposure to counterparty credit risk through minimum credit standards, diversification of counterparties and procedures to monitor concentrations of credit risk.

Cash Flow Hedges

For derivative instruments that are designated as a cash flow hedge, the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive income and reclassified into earnings in the same line item associated with the forecasted transaction, and in the same period or periods during which the forecasted transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings.

We have entered into interest rate swap agreements that effectively modify our exposure to interest rate risk by converting a portion of our interest payments on floating rate debt to a fixed rate basis, thus reducing the impact of interest rate changes on future interest expense. These agreements involve the receipt of floating rate amounts in exchange for fixed interest rate payments over the life of the agreements without an exchange of the underlying principal amount. We have designated these swaps as cash flow hedges of the interest rate exposure on an equivalent amount of certain variable rate debt. As of March 31, 2011, our interest rate swap agreements, which terminate in April 2012, require that we pay fixed rates of approximately 4.00% and receive the one-month LIBOR rate on the notional amounts. As of March 31, 2011, the aggregate notional amount of outstanding debt related to these interest rate swaps was \$236 million, declining at periodic intervals to an aggregate notional amount of \$132 million prior to expiration. On April 1, 2011, the aggregate notional amount of these swaps declined to \$216 million.

Fair Value Hedges

For derivative instruments that are designated and qualify as a fair value hedge, the gain or loss on the derivative instrument as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in the same line item associated with the hedged item in current earnings. Prior to June 2005, we had a series of interest rate swaps that effectively converted our fixed rate debt to floating rates, thus hedging the fair value of the related fixed rate debt from changes in market interest rates. These interest rate swaps were terminated prior to maturity. The value at termination of these swaps is being amortized to interest expense over the remaining life of the related debt using the effective interest method. During the three months ended March 31, 2011 and March 31, 2010, \$0.4 million and \$0.4 million, respectively, were amortized to earnings as a reduction of interest expense. During the six months ended March 31, 2011 and March 31, 2010, \$0.8 million and \$0.8 million, respectively, were amortized to earnings as a reduction of interest expense.

Derivatives not Designated as Accounting Hedges

We have entered into certain pay-fixed, receive-floating interest rate swap agreements with an aggregate notional amount of \$16.6 million. The weighted average fixed rate of interest paid on these interest rate swaps is 3.89% and the floating interest rate received is the three-month LIBOR rate. These interest rate swap agreements have a forward-starting date of December 15, 2011 and a ten-year term. However, both agreements have a mandatory early termination date of December 15, 2011, at which time we will either receive a lump-sum from or pay a lump-sum to our counterparty to terminate the swaps. These interest rate swaps have not been designated as accounting cash flow hedges, and accordingly, the gain or loss is recognized in current earnings.

As of March 31, 2011 and September 30, 2010, we had the following outstanding commodity derivatives related to forecasted transactions that were not designated as accounting hedges:

	Commodity	March 31, 2011		September 30, 2010	
		Notional		Notional	
		Amount	Unit	Amount	Unit

terminated interest rate swaps, we expect to reclassify net pre-tax deferred losses of approximately \$5.2 million from accumulated other comprehensive income into earnings as an increase to interest expense within the next twelve months as the probable hedged interest payments occur. We believe amounts in accumulated other comprehensive income related to interest rate derivatives and commodity derivatives are appropriately included as a component of accumulated other comprehensive income because the forecasted transactions related to those amounts are probable of occurring.

We enter into derivative contracts that may contain credit-risk-related contingent features which could result in a counterparty requesting immediate payment or demand immediate and ongoing full overnight collateralization on derivative instruments in net liability positions. Certain of our interest rate swap derivative contracts contain a provision whereby if we default on the Credit Facility, we may also be deemed in default of the interest rate swap obligation. The aggregate fair value of interest rate swaps under these agreements that are in a liability position on March 31, 2011, is approximately \$7.4 million. These interest rate swaps share the same collateral as that of our Credit Facility and no other collateral has been posted by us against these interest rate swap obligations. If we were to default on these agreements, we may be required to settle our obligations at their termination value of approximately \$7.4 million. Certain of our commodity derivative contracts contain contingent provisions that require us to provide the counterparty with collateral if the credit rating on our debt, as provided by major credit rating agencies, falls below certain specified minimums, or if the fair value of our obligation exceeds specified threshold amounts. The aggregate fair value of all commodity derivative instruments with these contingent features that are in a liability position on March 31, 2011 is approximately \$1.0 million.

Note 11. Fair Value**Assets and Liabilities Measured at Fair Value**

We estimate fair values in accordance with ASC 820 *Fair Value Measurements and Disclosures*. ASC 820 provides a framework for measuring fair value and expands disclosures required about fair value measurements. Specifically, ASC 820 sets forth a definition of fair value and a hierarchy prioritizing the inputs to valuation techniques. ASC 820 defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Additionally, ASC 820 defines levels within the hierarchy as follows:

Level 1 Unadjusted quoted prices for identical assets and liabilities in active markets;

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable. Such inputs typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

We have rabbi trusts which hold assets of our supplemental retirement savings plans (the **Supplemental Plans**) that are nonqualified deferred compensation plans. The assets of our Supplemental Plans are invested primarily in mutual funds and are reported at fair value based on quoted prices in active markets. The fair value of our Supplemental Plans is designated as Level 1.

We value our interest rate derivatives using a widely accepted valuation technique based on discounted cash flow analysis, which reflects the terms of the derivatives and, for all significant assumptions, uses observable market-based inputs, including LIBOR forward interest rate curves. The fair value of our interest rate derivatives is designated as Level 2.

We value our commodity derivatives based on discounted cash flow analysis using forward price curves derived from market price quotations with internal and external fundamental data inputs. Market price quotations are obtained from independent derivatives brokers and from direct communication with market participants. As our commodity derivatives trade in less liquid markets or may have limited observable forward

prices, we have designated the fair value of our commodity derivatives as Level 3.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)**

We incorporate credit valuation adjustments to reflect both our own nonperformance risk and the respective counterparty's nonperformance risk in our fair value measurements.

As of March 31, 2011, the fair value of our financial assets and liabilities that are measured at fair value on a recurring basis, for each hierarchy level, is summarized in the following table (in millions):

	Level 1	Level 2	Level 3	Total
Assets:				
Supplemental Plans	\$ 5.4	\$ 0.0	\$ 0.0	\$ 5.4
Interest rate derivatives	\$ 0.0	\$ 0.2	\$ 0.0	\$ 0.2

Financial Instruments not Recognized at Fair Value

Financial instruments not recognized at fair value on a recurring or nonrecurring basis include cash and cash equivalents, accounts receivable, certain other current assets, short-term debt, accounts payable, certain other current liabilities, and long-term debt. With the exception of long-term debt, the carrying amounts of these financial instruments approximate their fair values due to their short maturities.

⁽¹⁾ Fair value is based on the quoted market prices for the same or similar issues.

⁽²⁾ Fair value is estimated based on the discounted value of future cash flows using current market interest rates offered for debt of similar credit risk and maturity.

⁽³⁾ Fair value approximates the carrying amount as the variable interest rates reprice frequently at current market rates.

In the absence of quoted prices in active markets, considerable judgment is required in developing estimates of fair value. Estimates are not necessarily indicative of the amounts we could realize in a current market transaction.

Note 12. Retirement Plans

We have two qualified defined benefit pension plans (**U.S Qualified Plans**). In addition, under several labor contracts, we make payments based on hours worked into multi-employer pension plan trusts established for the benefit of certain collective bargaining employees in facilities both inside and outside the United States. We also have a Supplemental Executive Retirement Plan (**SERP**) that provides unfunded supplemental retirement benefits to certain of our executives. The SERP provides for incremental pension benefits in excess of those offered in our principal pension plan.

The following table represents a summary of the components of net pension cost (in millions):

During the three and six months ended March 31, 2011, we contributed an aggregate of \$3.9 million and \$6.5 million, respectively, to our pension and supplemental retirement plans. Based on our current assumptions, we anticipate contributing approximately \$21 million in fiscal 2011 to our pension and supplemental retirement plans. However, it is possible that our assumptions may change, actual market performance may vary or we may decide to contribute additional amounts. We contributed an aggregate of \$3.2 million to our pension and supplemental retirement plans in both the three and six months ended March 31, 2010.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)****Note 13. Stock Based Compensation****Stock Options**

During the second quarter of fiscal 2011, we granted options to purchase 110,475 shares of our Class A common stock **Common Stock** to certain employees. These options vest three years from the grant date. These grants were valued at \$26.54 per share using the Black-Scholes option pricing model. The approximate significant assumptions used were: an expected term of 5.1 years; an expected volatility of 47.0%; expected dividends of 1.4%; and a risk free rate of 2.1%. We amortize these costs using the accelerated attribution method.

The aggregate intrinsic value of options exercised during the three months ended March 31, 2011 and March 31, 2010 was \$1.2 million and \$0.6 million, respectively, and during the six months ended March 31, 2011 and March 31, 2010 it was \$1.4 million and \$3.6 million, respectively.

The table below summarizes the changes in all stock options during the six months ended March 31, 2011:

Restricted Stock

During the second quarter of fiscal 2011, we granted 18,000 shares of restricted stock, which vest over one year to our non-employee directors and target awards of 195,050 shares of restricted stock with a service and a performance condition that vest over three years, to certain employees pursuant to our 2004 Incentive Stock Plan, as amended.

The aggregate fair value of restricted stock that vested during the three months ended March 31, 2011 and March 31, 2010 was \$18.5 million and \$8.1 million, respectively, and during the six months ended March 31, 2011 and March 31, 2010 it was \$18.5 million and \$9.6 million, respectively.

Certain of our restricted stock that have met all restrictions other than service conditions are treated as issued and carry dividend and voting rights; if the service conditions are not met, the restricted Common Stock is forfeited. At March 31, 2011 and September 30, 2010, restricted shares of Common Stock of 0.6 million and 0.3 million, respectively, are reflected in our accompanying balance sheets as issued that have not yet met the service condition to vest.

The table below summarizes the changes in invested restricted stock awards during the six months ended March 31, 2011:

achieved the respective performance condition based on our Cash Flow to Equity Ratio (as defined in the applicable grant letter), certain restricted shares granted in the second quarter of fiscal 2008 achieved the respective performance condition based on the Annual Average Return over Capital Costs (as defined in the applicable grant letter), and certain restricted shares granted in the second quarter of 2008 achieved the respective market condition based on Total Shareholder Return (as defined in the applicable grant letter) each at 150% of target. These achievements resulted in the issuance of an additional 137,563 and the issuance and vesting of an additional 35,465 shares in the first six months of fiscal 2011.

- ⁽²⁾ Target awards, net of subsequent forfeitures and performance condition achievement, granted in fiscal 2010 in the amount of 249,300 may be increased by up to 150% or decreased to zero, subject to the level of performance attained. The awards are reflected in the table at the target award amount of 100%.

For additional information about our share-based payment awards, refer to *Note 17. Stock Based Compensation* of the Notes to Consolidated Financial Statements section of the Fiscal 2010 Form 10-K.

Note 14. Related Party Transactions

We sell products to an affiliated company. Net sales to the affiliate for the three months ended March 31, 2011 and March 31, 2010 were approximately \$31.1 million and \$23.2 million, respectively. Net sales to the affiliate for the six months ended March 31, 2011 and March 31, 2010 were approximately \$65.7 million and \$41.2 million, respectively. Accounts receivable due from the affiliated company at March 31, 2011 and September 30, 2010 were \$20.6 million and \$21.8 million, respectively, and were included in accounts receivable on our condensed consolidated balance sheets.

Note 15. Commitments and Contingencies***Environmental and Other Matters***

We are subject to various federal, state, local and foreign environmental laws and regulations, including, among others, the Comprehensive Environmental Response, Compensation, and Liability Act, the Clean Air Act (as amended in 1990), the Clean Water Act, the Resource Conservation and Recovery Act and the Toxic Substances Control Act. These environmental regulatory programs are primarily administered by the U.S. Environmental Protection Agency. In addition, some states in which we operate have adopted equivalent or more stringent environmental laws and regulations or have enacted their own parallel environmental programs, which are enforced through various state administrative agencies.

We believe that future compliance with these environmental laws and regulations will not have a material adverse effect on our results of operations, financial condition or cash flows. However, our compliance and remediation costs could increase materially. In addition, we cannot currently assess with certainty the impact that the future emissions standards and enforcement practices associated with changes to regulations promulgated under the Clean Air Act or potential climate change legislation will have on our operations or capital expenditure requirements. However, we believe that any impact or capital expenditures will not have a material adverse effect on our results of operations, financial condition or cash flows.

We have been identified as a potentially responsible party (**PRP**) at six active superfund sites pursuant to Superfund legislation. Based upon currently available information and the opinions of our environmental compliance managers and general counsel, although there can be no assurance, we have preliminarily determined that, while we may be associated with the site and while it is probable that we have incurred a liability with respect to the site, one of the following conclusions was applicable:

with respect to each of two sites, we determined, while it was not estimable, the potential liability was reasonably likely to be immaterial; and

Edgar Filing: Rock-Tenn CO - Form 10-Q

with respect to four sites, we have preliminarily determined the potential liability was best reflected by a range of reasonably possible liabilities, all of which we expect to be immaterial.

In addition to the above mentioned sites, three of our current or former locations are being investigated under various state regulations. These investigations may lead to remediation costs; however, we believe such costs, if any, would be immaterial.

Table of Contents

Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)

Additional information on these three sites follows:

Contamination was discovered at the time of the acquisition of certain assets and operations of the former Gulf States Paper Corporation in June 2005 at two sites we acquired. We did not assume any environmental liabilities as part of the acquisition, but have limited indemnification rights with respect to this contamination. We would expect to assert various defenses under applicable laws with respect to this contamination.

Another site is one of our former locations that is involved in an investigation under a state program. It is expected that any potential issues will be handled through administrative controls, such as a deed restriction, rather than remediation.

In addition to the above mentioned sites, during the second quarter of fiscal 2011, investigation activities were brought to a close and the State environmental agency determined that no further corrective action was necessary at a site where it was believed that the contamination discovered was due to an oil release by a previous owner for which remediation costs, if any, would be immaterial. The previous owner is obligated to indemnify us for any contamination caused by the oil release.

Except as stated above, we can make no assessment of our potential liability, if any, with respect to any site. Further, there can be no assurance that we will not be required to conduct some remediation in the future at any of these sites and that the remediation will not have a material adverse effect on our results of operations, financial condition or cash flows. We believe that we can assert claims for indemnification pursuant to existing rights we have under settlement and purchase agreements in connection with certain of these sites. There can be no assurance that we will be successful with respect to any claim regarding these indemnification rights or that, if we are successful, any amounts paid pursuant to the indemnification rights will be sufficient to cover all our costs and expenses.

Guarantees

We have made the following guarantees as of March 31, 2011:

we have a 49% ownership interest in Seven Hills Paperboard, LLC (*Seven Hills*). The joint venture partners guarantee funding of net losses in proportion to their share of ownership;

as part of the Southern Container acquisition we acquired two unconsolidated entities for which we guarantee less than \$4 million in debt. We also have certain guarantees, primarily for bank loans, in proportion to our share of ownership in another unconsolidated entity of approximately \$2 million; and

we lease certain manufacturing and warehousing facilities and equipment under various operating leases. A substantial number of these leases require us to indemnify the lessor in the event that additional taxes are assessed due to a change in the tax law. We are unable to estimate our maximum exposure under these leases because it is dependent on changes in the tax law.

We have disposed of assets and/or subsidiaries and have assumed liabilities pursuant to asset and stock purchase and sale agreements. These agreements contain various representations and warranties relating to matters such as title to assets; accuracy of financial statements; legal proceedings; contracts; employee benefit plans; compliance with environmental laws; patent and trademark infringement; taxes; and products, as well as various covenants. These agreements may also provide specific indemnities for breaches of representations, warranties or covenants and may contain specific indemnification provisions. These indemnification provisions address a variety of potential losses, including, among others, losses related to liabilities other than those assumed by the buyer and liabilities under environmental laws. These indemnification provisions may be affected by various conditions and external factors. Many of the indemnification provisions have expired either by operation of law or as a result of the terms of the agreement. Our specified maximum aggregate potential liability (on an undiscounted basis) is approximately \$8 million, other than with respect to certain specified liabilities, including liabilities relating to title, taxes and certain environmental matters,

Edgar Filing: Rock-Tenn CO - Form 10-Q

with respect to which there may be no limitation. We estimate the fair value of our aggregate liability for outstanding indemnities, including the indemnities described above with respect to which there are no limitations, to be immaterial.

Table of Contents**Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)****Seven Hills Option**

Seven Hills commenced operations on March 29, 2001. Our partner in the Seven Hills joint venture has the option to require us to purchase its interest in Seven Hills, at a formula price, effective on the sixth or any subsequent anniversary of the commencement date by providing us notice two years prior to any such anniversary. The earliest date on which we could be required to purchase our partner's interest is March 29, 2014. We have not recorded any liability for this unexercised option. We currently project this contingent obligation to purchase our partner's interest (based on the formula) to be approximately \$11 million at March 31, 2011, which would result in a purchase price of approximately 52% of our partner's net equity reflected on Seven Hills' March 31, 2011 balance sheet.

The following table shows certain operating data for our segments (in millions). We do not allocate certain of our income and expenses to our segments and, thus, the information that management uses to make operating decisions and assess performance does not reflect such amounts. Note 17. Subsequent Event

On January 23, 2011, we announced that the Boards of Directors of RockTenn and Smurfit-Stone had approved a definitive agreement, which was executed by the parties on the same date as the announcement, under which Smurfit-Stone will become a wholly owned subsidiary of RockTenn. For each share of Smurfit-Stone common stock, Smurfit-Stone stockholders will be entitled to receive 0.30605 shares of RockTenn common stock and \$17.50 in cash. We expect to issue approximately 31 million shares. RockTenn has received \$3.7 billion in committed bank financing to fund the acquisition, refinance Smurfit-Stone's debt, refinance a portion of RockTenn's existing debt, allow for additional liquidity and for the payment of fees in connection with the transaction.

On April 27, 2011, we announced that the Rock-Tenn Company Registration Statement on Form S-4 had been declared effective and that the RockTenn and Smurfit-Stone Joint Proxy Statement/Prospectus contained in the registration statement would be mailed on or about April 29, 2011 to RockTenn shareholders and Smurfit-Stone stockholders of record as of April 8, 2011. The issuance of RockTenn shares of common stock in connection with the merger is subject to the approval of RockTenn shareholders. RockTenn shareholders will vote at a special meeting of RockTenn shareholders on May 27, 2011 at 9:00 a.m., Eastern time, at the Grand Hyatt Atlanta at 3300 Peachtree Road, N.E., Atlanta, Georgia 30305. In addition, the approval and adoption of the merger agreement is subject to the approval of Smurfit-Stone stockholders. Smurfit-Stone stockholders will vote at a special meeting of stockholders of Smurfit-Stone on May 27, 2011 at 9:00 a.m., Central time, at 6 City Place Drive, Creve Coeur, Missouri 63141. The transaction is expected to close immediately following the successful votes. Upon completion of the transaction, RockTenn will have annual revenues on a pro forma basis of approximately \$9.2 billion and total assets on a pro forma basis of approximately \$10.6 billion, subject to the final purchase price and completion of the purchase price allocation.

Table of Contents**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements and Notes thereto included herein and our audited Consolidated Financial Statements and Notes thereto for the fiscal year ended September 30, 2010, as well as the information under the heading *Management's Discussion and Analysis of Financial Condition and Results of Operations*, that are part of our Fiscal 2010 Form 10-K, which we filed with the Securities and Exchange Commission (SEC) on November 22, 2010. The table in *Note 16. Segment Information* of the Notes to Condensed Consolidated Financial Statements included herein shows certain operating data for our segments.

Overview

Excluding the \$8.1 million included in the second quarter of fiscal 2010 in the Consumer Packaging segment related to the alternative fuel mixture credit, segment income in the second quarter of fiscal 2011 increased \$13.0 million to \$87.9 million compared to the second quarter of fiscal 2010. The increase was primarily due to higher earnings in our Corrugated Packaging and Consumer Packaging segments due primarily to higher containerboard and paperboard selling prices and volumes.

Net income attributable to Rock-Tenn Company shareholders, excluding the net income impact of the alternative fuel mixture credit of \$8.1 million, increased \$12.3 million to \$37.0 million in the second quarter of fiscal 2011 as compared to the second quarter of fiscal 2010 primarily due to generally higher selling prices and volumes and continued strong execution by our businesses, which were partially offset by increased recycled fiber, freight and chemical costs.

Cost of goods sold as a percentage of net sales increased in the second quarter of fiscal 2011 compared to the prior year second quarter primarily as a result of the \$8.1 million alternative fuel mixture credit recorded in the second quarter of fiscal 2010 and increased recycled fiber and chemical costs which were partially offset by reduced virgin fiber and energy costs. Recycled fiber and chemical costs in our mills increased \$33 per ton and \$6 per ton, respectively, freight expense increased \$6.4 million due in part to higher volumes and group insurance costs increased \$1.1 million. Virgin fiber and energy costs in our mills decreased \$41 per ton and \$3 per ton, respectively.

Cost of goods sold as a percentage of net sales increased in the six months ended March 31, 2011 compared to the six months ended March 31, 2010 primarily as a result of the \$28.8 million alternative fuel mixture credit, net of related expenses recorded in the first six months of fiscal

Selling, general and administrative (**SG&A**) expenses increased \$1.1 million and declined as a percentage of net sales in the second quarter of fiscal 2011 compared to the second quarter of fiscal 2010. We recorded increased compensation costs of \$2.0 million partially offset by decreased bad debt expense of \$1.2 million.

SG&A expenses increased \$4.3 million and declined as a percentage of net sales in the six months ended March 31, 2011 compared to the six months ended March 31, 2010. We recorded increased compensation costs of \$4.3 million and increased professional fees and consulting expense for various initiatives of \$1.4 million. Partially offsetting these increases were reduced bad debt expense of \$1.4 million and reduced commissions expense of \$1.3 million.

Restructuring and Other Costs, Net

We recorded aggregate pre-tax restructuring and other costs of \$6.3 million and \$1.3 million in the second quarter of fiscal 2011 and 2010, respectively. We recorded aggregate pre-tax restructuring and other costs of \$6.9 million and \$4.3 million in the six months ended March 31, 2011 and March 31, 2010, respectively. We discuss these charges in more detail in **Note 6. Restructuring and Other Costs, Net** of the Notes to Condensed Consolidated Financial Statements included herein.

Equity in Income (Loss) of Unconsolidated Entities

Equity in income (loss) of unconsolidated entities in the second quarter of fiscal 2011 was income of \$0.3 million compared to a loss of \$0.3 million in the second quarter of fiscal 2010. Equity in income (loss) of unconsolidated entities in the six months ended March 31, 2011 was income of \$0.6 million compared to a loss of \$0.1 million in the six months ended March 31, 2010.

Interest Expense

Interest expense for the second quarter of fiscal 2011 decreased to \$16.2 million from \$19.2 million for the same quarter last year and included non-cash deferred financing cost amortization of \$1.5 million and \$1.5 million, respectively. The decrease in our average outstanding borrowings decreased interest expense by approximately \$2.4 million, and lower interest rates, net of swaps, decreased interest expense by approximately \$0.6 million.

Interest expense for the six months ended March 31, 2011 decreased to \$32.9 million from \$40.7 million for the six months ended March 31, 2010 and included non-cash deferred financing cost amortization of \$3.1 million and \$3.2 million, respectively. The decrease in our average outstanding borrowings decreased interest expense by approximately \$5.4 million, and lower interest rates, net of swaps, decreased interest expense by approximately \$2.3 million, and deferred financing cost amortization decreased \$0.1 million.

Loss on Extinguishment of Debt

Loss on extinguishment of debt for the three months ended March 31, 2010 of \$3.3 million primarily represents the write off of unamortized deferred financing costs and original issuance discount in connection with the repayment of \$120.0 million of the outstanding term loan B balance using proceeds from our revolving credit facility.

Edgar Filing: Rock-Tenn CO - Form 10-Q

Loss on extinguishment of debt for the six months ended March 31, 2010 was \$2.8 million and included \$0.5 million of gain recognized in the first quarter of fiscal 2010 in connection with the repurchase of \$19.5 million of our

Interest income and other income, net, for the three and six months ended March 31, 2010 was income of \$0.1 million and \$0.3 million, respectively.

Provision for Income Taxes

We recorded income tax expense of \$17.5 million and \$44.8 million in the three and six months ended March 31, 2011, respectively, compared to \$16.4 million and \$33.7 million in the three and six months ended March 31, 2010, respectively. The effective tax rates for the three and six months ended March 31, 2011 were approximately 31.4% and 33.3%, respectively. The effective tax rate for the three and six months ended March 31, 2010 were approximately 32.7% and 27.0%, respectively. In fiscal 2011, we expect our marginal tax rate to be approximately 35%. We discuss our provision for income taxes in more detail in *Note 7. Tax Provision* of the Notes to Condensed Consolidated Financial Statements included herein.

Net Income Attributable to Noncontrolling Interests

The reduction for net income attributable to noncontrolling interests for the second quarter of fiscal 2011 increased to \$1.3 million from \$0.9 million in the second quarter of fiscal 2010. The reduction for net income attributable to noncontrolling interests for the six months ended March 31, 2011 increased to \$2.3 million from \$2.2 million in the six months ended March 31, 2010.

Net Sales (Consumer Packaging Segment)

The 6.2% increase in net sales for the Consumer Packaging segment for the second quarter of fiscal 2011 compared to the prior year second quarter was primarily due to higher folding carton and recycled paperboard volumes and increased paperboard selling prices. Coated recycled paperboard tons shipped increased 5.5%.

The 4.9% increase in net sales for the Consumer Packaging segment for the six months ended March 31, 2011 compared to the six months ended March 31, 2010 was primarily due to higher folding carton and recycled paperboard volumes and increased paperboard selling prices. Coated recycled paperboard tons shipped increased 3.6%.

Segment Income (Consumer Packaging Segment)

Excluding the \$8.1 million included in the second quarter of fiscal 2010 related to the alternative fuel mixture credit, segment income of the Consumer Packaging segment for the quarter ended March 31, 2011 increased \$6.6 million primarily due to higher folding carton and recycled paperboard volumes, increased paperboard selling prices and decreased virgin fiber and energy costs, partially offset by increased recycled fiber and chemical costs. At our mills, recycled fiber costs increased approximately \$5.5 million, or \$36 per ton, virgin fiber costs decreased approximately \$4.6 million, or \$41 per ton, chemical costs increased approximately \$2.7 million, or \$10 per ton, and energy costs decreased approximately \$1.6 million, or \$6 per ton over the prior year quarter. Freight expense in the segment increased \$1.7 million due in part to higher volumes and compensation expense decreased \$1.0 million.

Excluding the \$28.8 million included in the six months ended March 31, 2010 related to the alternative fuel mixture credit, net of related expenses, segment income of the Consumer Packaging segment for the six months ended March 31, 2011 increased \$16.8 million primarily due to higher folding carton and recycled paperboard volumes, increased paperboard selling prices and decreased virgin fiber and energy costs, partially offset by increased recycled fiber and chemical costs. At our mills, recycled fiber costs increased approximately \$13.5 million, or \$45 per ton, virgin fiber costs decreased approximately \$7.2 million, or \$32 per ton, chemical costs increased \$3.0 million, or \$6 per ton, and energy costs decreased approximately \$2.8 million, or \$5 per ton, over the prior year period. Freight expense in the segment increased \$2.9 million due in part to higher volumes.

Net Sales (Corrugated Packaging Segment)

Net sales of the Corrugated Packaging segment increased \$18.4 million in the second quarter of fiscal 2011 compared to the prior year second quarter due to higher containerboard and corrugated packaging volumes and higher selling prices across the segment. Containerboard tons shipped increased 3.9%.

Net sales of the Corrugated Packaging segment increased \$36.6 million in the six months ended March 31, 2011 compared to the six months ended March 31, 2010 due to higher containerboard and corrugated packaging volumes and higher selling prices across the segment. Containerboard tons shipped increased 5.5%.

Segment Income (Corrugated Packaging Segment)

Segment income attributable to the Corrugated Packaging segment for the second quarter of fiscal 2011 increased \$8.2 million compared to the prior year second quarter due primarily to higher containerboard and corrugated packaging volumes and higher selling prices across the segment, which were partially offset by higher recycled fiber costs. At our containerboard mills, recycled fiber costs increased approximately \$7.8 million, or \$32 per ton over the prior year quarter, and freight expense in the segment increased \$3.0 million due in part to higher volumes.

Segment income attributable to the Corrugated Packaging segment for the six months ended March 31, 2011 increased \$9.9 million compared to the six months ended March 31, 2010 due primarily to higher containerboard and corrugated packaging volumes and higher selling prices across the segment, which were partially offset by higher recycled fiber and energy costs. At our containerboard mills, recycled fiber costs increased approximately \$27.6 million, or \$56 per ton over the prior year period, energy costs increased approximately \$1.0 million, or \$2 per ton over the prior year period, and freight expense in the segment increased \$4.6 million due in part to higher volumes. Partially offsetting these increases was reduced bad debt expense of \$1.5 million.

Net Sales (Specialty Paperboard Products Segment)

Our Specialty Paperboard Products segment net sales in the second quarter of fiscal 2011 increased 7.4% compared to the second quarter of fiscal 2010 primarily due to increased solid fiber interior packaging sales due to an acquisition in the fourth quarter of fiscal 2010, higher selling prices across the segment and higher paperboard volumes. Partially offsetting these increases were reduced recycled fiber volumes. Specialty paperboard tons shipped increased 3.9%.

Our Specialty Paperboard Products segment net sales in the six months ended March 31, 2011 increased 14.6% compared to the six months ended March 31, 2010 primarily due to increased solid fiber interior packaging sales due to an acquisition in the fourth quarter of fiscal 2010, higher selling prices across the segment and higher paperboard volumes. Partially offsetting these increases were lower recycled fiber volumes. Specialty paperboard tons shipped increased 1.2%.

Segment Income (Specialty Paperboard Products Segment)

Edgar Filing: Rock-Tenn CO - Form 10-Q

Segment income attributable to the Specialty Paperboard Products segment for the second quarter of fiscal 2011 decreased \$0.8 million compared to the prior year second quarter. This decrease was due primarily to \$1.6 million of lower commodity swap gains, lower recycled fiber volumes and increased recycled fiber prices. Recycled fiber increased approximately \$1.8 million, or \$28 per ton, and freight expense increased \$1.0 million. These items were partially offset by higher selling prices across the segment, higher paperboard volumes and increased solid fiber interior packaging sales due primarily to an acquisition in the fourth quarter of fiscal 2010.

Table of Contents

Segment income attributable to the Specialty Paperboard Products segment for the six months ended March 31, 2011 decreased \$1.0 million compared to the prior year period. This decrease was due primarily to \$1.3 million of lower commodity swap gains and increased recycled fiber costs. Recycled fiber prices increased approximately \$5.0 million, or \$41 per ton, freight expense increased \$1.2 million and compensation expense increased \$1.2 million. These items were partially offset by higher selling prices across the segment, higher paperboard volumes and increased solid fiber interior packaging sales due primarily to an acquisition in the fourth quarter of fiscal 2010.

Liquidity and Capital Resources

We fund our working capital requirements, capital expenditures and acquisitions from net cash provided by operating activities, borrowings under term notes, our receivables-backed financing facility and bank credit facilities, proceeds from the sale of discontinued assets, and proceeds received in connection with the issuance of IDBs as well as other debt and equity securities. Cash and cash equivalents was \$11.9 million at March 31, 2011, and \$15.9 million at September 30, 2010. During the six months ended March 31, 2011, Net Debt (as hereinafter defined) decreased \$111.5 million.

On January 23, 2011, we announced an agreement to acquire Smurfit-Stone for approximately \$1.8 billion in cash and the issuance of approximately 30.9 million shares of RockTenn Common Stock, as estimated at the time of announcement. We expect to close the acquisition in the second calendar quarter of 2011. In connection with the proposed merger, RockTenn has entered into a commitment letter with Wells Fargo Bank, National Association, WF Investment Holdings, LLC, Wells Fargo Securities, SunTrust Bank, SunTrust Robinson Humphrey, Inc., Cooperatieve Centrale Raiffeisen-Boerenleenbank B.A., Rabobank Nederland, New York Branch, Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated, JPMorgan Chase Bank, N.A., and J.P. Morgan Securities LLC.

Pursuant to the commitment letter, the lenders have committed to provide new senior secured credit facilities in an aggregate principal amount of \$3.7 billion, consisting of a \$1.2 billion, 5-year term revolving credit facility; a Term A \$1.25 billion, 5-year term loan facility; and a Term B \$1.25 billion, 6-year term loan facility. The borrowings under the new credit facilities will be used to finance the merger in part, to repay outstanding indebtedness of Smurfit-Stone, to refinance RockTenn's existing credit facilities, and to pay for fees and expenses incurred in connection with the merger and related transactions. The revolving credit facility will be used to finance a portion of the merger and the related transactions and ongoing working capital and for other general corporate purposes.

Pursuant to the terms of the commitment letter, Wells Fargo Securities, SunTrust Robinson Humphrey, Inc., Cooperatieve Centrale Raiffeisen-Boerenleenbank B.A., Rabobank Nederland, New York Branch, Merrill Lynch, Pierce, Fenner & Smith Incorporated, and J.P. Morgan Securities LLC are acting as the joint lead bookrunners and joint lead arrangers with respect to the financing and Wells Fargo Bank, National Association, is acting as the exclusive administrative agent under the credit facilities. The joint lead arrangers and joint lead bookrunners received commitments subject to customary closing conditions, including final documentation, from a number of other financial institutions and other prospective lenders to fund the \$3.7 billion senior secured credit facilities. At the request of RockTenn, these credit facilities are expected to be allocated in amounts different from those set forth in the commitment letter described above, with the revolving credit facility and the Term A term loan facility each being increased to \$1.475 billion, and the most expensive Term B term loan facility being reduced to \$750 million. In addition, the maturity of the Term B term loan facility is expected to be extended to the seventh anniversary of the completion of the merger, while the maturities of the revolving credit facility and Term A term loan facility would continue to be on the fifth anniversary of the completion of the merger.

Also, RockTenn is currently seeking to increase its Receivables Facility, as described below, to a total amount of up to \$650 million and to amend this facility to include certain trade receivables of additional subsidiaries of RockTenn, including Smurfit-Stone and its subsidiaries. In addition, RockTenn is proposing to extend the maturity date of the Receivables Facility until the third anniversary of the merger closing. Because the financing costs under the increased Receivables Facility are expected to be less than the financing costs under the revolving credit facility, RockTenn may elect to use the increased Receivables Facility, if obtained, to fund a portion of amounts needed at the time of the merger closing that would otherwise have been borrowed under the revolving credit facility.

On March 5, 2008, we entered into a Credit Facility with an original maximum principal amount of \$1.2 billion and issued \$200 million aggregate principal amount of 9.25% senior notes due March 2016; in fiscal 2009 we issued an additional \$100 million of senior notes due March 2016. The Credit Facility originally included a \$450 million revolving credit facility, a \$550 million term loan A facility and a \$200 million term loan B facility. The Credit

Facility is pre-payable at any time. Scheduled term loan payments or other term loan payments reduce the facility size. The term loan B facility was repaid in fiscal 2010. Since entering into the Credit Facility, we have amended the facility to allow us additional flexibility to conduct our business including on November 1, 2010, when we amended our Credit Facility to allow us additional flexibility for capital expenditures, investments, dividend payments, securitization, note repurchases and future collateral, as discussed in **Note 10. Debt** of the Notes to Consolidated Financial Statements section of the Fiscal 2010 Form 10-K. The revolving credit facility and term loan A facility are scheduled to mature on the earlier to occur of (a) March 5, 2013 or (b) if our March 2013 Notes have not been paid in full or refinanced by September 15, 2012, then September 15, 2012. Certain restrictive covenants govern our maximum availability under this facility, including Minimum Consolidated Interest Ratio Coverage; Maximum Leverage Ratio; and Minimum Consolidated Net Worth (as those terms are defined in the Credit Facility). We test and report our compliance with these covenants each quarter. We are in compliance with all of our covenants. Our available borrowings under the revolving credit portion of the Credit Facility, reduced by outstanding letters of credit not drawn upon of approximately \$30.7 million, were \$414.2 million at March 31, 2011. The March 2016 Notes are guaranteed by the guarantors listed therein (comprising most of our subsidiaries which are guarantors under the Credit Facility). The senior note indenture contains financial and restrictive covenants, including limitations on restricted payments, dividend and other payments affecting restricted subsidiaries, incurrence of debt, asset sales, transactions with affiliates, liens, sale and leaseback transactions and the creation of unrestricted subsidiaries. We expect to use available borrowings under our revolving credit facility to repay our August 2011 Notes upon maturity.

We use interest rate swap instruments from time to time to manage our exposure to changes in interest rates on portions of our outstanding debt. At the inception of the swaps we usually designate such swaps as either cash flow hedges or fair value hedges of the interest rate exposure on an equivalent amount of our floating rate or fixed rate debt, respectively. At March 31, 2011, we had certain pay-fixed, receive-floating interest rate swaps that terminate in April 2012 and cover debt with an aggregate notional amount of \$236 million, declining at periodic intervals to an aggregate notional amount of \$132 million prior to expiration. These swaps are based on the one-month LIBOR rate, and the fixed rates average 4.00%. On April 1, 2011, the aggregate notional amount of these swaps declined to \$216 million.

At March 31, 2011, we had no borrowings outstanding under our \$135.0 million receivables-backed financing facility (the **Receivables Facility**), which is set to expire on July 13, 2012. Borrowing availability under this facility is based on the eligible underlying receivables and certain covenants. We test and report our compliance with these covenants monthly. We are in compliance with all of our covenants. At March 31, 2011, maximum available borrowings, excluding amounts outstanding, under this facility were approximately \$135.0 million. For additional information regarding our outstanding debt, our credit facilities and their securitization, see **Note 9. Debt** of the Notes to Condensed Consolidated Financial Statements.

Net cash provided by operating activities during the six months ended March 31, 2011 and March 31, 2010 was \$194.0 million and \$212.7 million, respectively. Excluding the prior year \$26.4 million tax refund we received in the second quarter of fiscal 2010 related primarily to the collection of fiscal 2009 alternative fuel mixture credits net cash provided by operating activities increased \$7.7 million.

Net cash used for investing activities was \$58.7 million during the six months ended March 31, 2011 compared to \$27.4 million for the comparable period of the prior year. Net cash used for investing activities in the six months ended March 31, 2011 consisted primarily of \$58.8 million of capital expenditures. Net cash used for investing activities for the six months ended March 31, 2010 consisted primarily of \$30.6 million of capital expenditures. We used these capital expenditures primarily for the purchase and upgrading of machinery and equipment and on our project to build a second chip mill at our Demopolis, Alabama bleached paperboard mill. The second chip mill will be fully operational in the third quarter of fiscal 2011. In fiscal 2011 we expect to spend approximately \$2 million for capital expenditures in connection with matters relating to environmental compliance.

Net cash used for financing activities was \$138.5 million during the six months ended March 31, 2011 compared to \$184.9 million in the same period last year. In the six months ended March 31, 2011, net cash used for financing activities consisted primarily of net repayments of debt aggregating \$115.7 million and cash dividends paid to shareholders of \$15.7 million. In the six months ended March 31, 2010, net cash used for financing activities consisted primarily of net repayments of debt aggregating \$170.4 million and cash dividends paid to shareholders of \$11.6 million.

Based on current facts and assumptions, we expect our cash tax payments to be less than income tax expense in each of fiscal 2011 and 2012 due to the creation of certain deferred tax liabilities primarily associated with accelerated depreciation deductions due to the Tax Relief, Unemployment Insurance Reauthorization, and Jobs

Table of Contents

Creation Act of 2010 and the fiscal 2011 and 2012 reduction in cash tax payments associated with the utilization of the Cellulosic Biofuel Producers Credit. Presently, we think we will utilize approximately \$32 million of the cellulosic biofuel producers credit in fiscal 2011 and \$45 million in fiscal 2012. Based on current facts and assumptions, we expect our cash tax payments to be approximately equal to income tax expense in fiscal 2013. However, it is possible that our expected cash tax payment may change due to changes in income, capital spending or other factors.

In connection with prior dispositions of assets and/or subsidiaries, we have made certain guarantees to third parties as of March 31, 2011. Our specified maximum aggregate potential liability (on an undiscounted basis) is approximately \$8 million, other than with respect to certain specified liabilities, including liabilities relating to title, taxes and certain environmental matters, with respect to which there may be no limitation. We estimate the fair value of our aggregate liability for outstanding indemnities, including the indemnities described above with respect to which there are no limitations, to be immaterial. For additional information regarding our guarantees, see **Note 15. Commitments and Contingencies** of the Notes to Condensed Consolidated Financial Statements included herein.

We made contributions of \$6.5 million to our pension and supplemental retirement plans during the six months ended March 31, 2011. Based on current facts and assumptions, we anticipate contributing approximately \$21 million to our pension and supplemental retirement plans in fiscal 2011 without taking into account contributions that may be required with respect to the pension plans of Smurfit-Stone after consummation of the acquisition. We have made contributions to our pension plans and expect to continue to make contributions in the coming years in order to ensure that our funding levels remain adequate in light of projected liabilities and to meet the requirements of the Pension Protection Act of 2006 and other regulations. Future contributions are subject to changes in our under funded status based on factors such as investment performance, discount rates and return on plan assets. It is possible that our assumptions may change, actual market performance may vary or we may decide to contribute a different amount. There can be no assurance that such changes, including potential turmoil in financial and capital markets, will not be material to our results of operations, financial condition or cash flows.

In April 2011, our board of directors approved our May 2011 quarterly dividend of \$0.20 per share and in November 2010 and February 2011 we paid a quarterly dividend of \$0.20 per share, indicating an annualized dividend of \$0.80 per share in fiscal 2011 on our common stock.

We anticipate that we will be able to fund our capital expenditures, interest payments, stock repurchases, dividends, pension payments, working capital needs, bond repurchases, and repayments of current portion of long-term debt for the foreseeable future from cash generated from operations, borrowings under our Credit Facility and Receivables Facility, proceeds from the issuance of debt or equity securities or other additional long-term debt financing, including new or amended facilities to finance acquisitions such as the \$3.7 billion committed bank financing discussed above.

New Accounting Standards

See **Note 2. New Accounting Standards** of the Notes to Condensed Consolidated Financial Statements included herein for a full description of recent accounting pronouncements including the respective expected dates of adoption and expected effects on results of operations and financial condition.

Non-GAAP Measures

We have included in the discussion under the caption **Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources** above a financial measure that was not prepared in accordance with GAAP. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP. Below, we define the non-GAAP financial measure, provide a reconciliation of the non-GAAP financial measure to the most directly comparable financial measure calculated in accordance with GAAP, and discuss the reasons that we believe this information is useful to management and may be useful to investors.

Net Debt

We have defined the non-GAAP measure Net Debt to include the aggregate debt obligations reflected in our balance sheet, less the hedge adjustments resulting from terminated and existing fair value interest rate derivatives or swaps, the balance of our cash and cash equivalents, restricted cash (which includes the balance sheet line items

Table of Contents

restricted cash and restricted cash and marketable debt securities) and certain other investments that we consider to be readily available to satisfy such debt obligations.

Our management uses Net Debt, along with other factors, to evaluate our financial condition. We believe that Net Debt is an appropriate supplemental measure of financial condition and may be useful to investors because it provides a more complete understanding of our financial condition before the impact of our decisions regarding the appropriate use of cash and liquid investments. Net Debt is not intended to be a substitute for GAAP financial measures and should not be used as such.

Set forth below is a reconciliation of Net Debt to the most directly comparable GAAP measures, *Current Portion of Debt* and *Long-Term Debt Due After One Year* (in millions):

Forward-Looking Statements

We make statements in this report that constitute forward-looking statements within the meaning of the federal securities laws, including statements regarding, among other things, the anticipated closing date of the Smurfit-Stone transaction, the timing and impact of alternative fuel mixture credits and cellulosic biofuel producer credits, the impact of operational restructuring activities, including the cost and timing of such activities, the size and cost of employment terminations, operational consolidation, capacity utilization, cost reductions and production efficiencies, estimated fair values of assets, and returns from planned asset transactions, and the impact of such factors on earnings; potential liability for outstanding guarantees and indemnities and the potential impact of such liabilities; the impact of economic conditions, including the nature of the current market environment, raw material and energy costs and market trends or factors that affect such trends, such as expected price increases, competitive pricing pressures and cost increases, as well as the impact and continuation of such factors; our results of operations, including operational inefficiencies, costs, sales growth or declines, the timing and impact of customer transitioning, the impact of announced price increases and the impact of the gain and loss of customers; pension plan contributions and expense, funding requirements and earnings; environmental law liability as well as the impact of related compliance efforts, including the cost of required improvements and the availability of certain indemnification claims; capital expenditures; the cost and other effects of complying with governmental laws and regulations and the timing of such costs; income tax rates, future deferred tax expense and future cash tax payments; future debt repayment; our ability to fund capital expenditures, interest payments, stock repurchases, dividends, pension payments, working capital needs, bond repurchases and debt for the foreseeable future from available cash and the proceeds from borrowings and security issuances; our estimates and assumptions regarding our contractual obligations and the impact of our contractual obligations on our liquidity and cash flow; the impact of changes in assumptions and estimates underlying accounting policies; the expected impact of implementing new accounting standards; and the impact of changes in assumptions and estimates on which we based the design of our system of disclosure controls and procedures. Such statements are based on our current expectations and beliefs and are subject to certain risks and uncertainties that could cause actual results to differ materially from those expressed or implied in any forward-looking statement. With respect to these statements, we have made assumptions regarding, among other things, economic, competitive and market conditions; whether and when the Smurfit-Stone transaction will be approved and will close; volumes and price levels of purchases by customers; competitive conditions in our businesses; possible adverse actions of our customers, our competitors and suppliers; labor costs; the amount and timing of capital expenditures, including installation costs, project development and implementation costs, severance and other shutdown costs; restructuring costs; utilization of real property that is subject to the restructurings due to realizable values from the sale of such property; credit availability; volumes and price levels of purchases by customers; raw material and energy costs; and competitive conditions in our businesses. Management believes its assumptions are reasonable; however, undue reliance should not be placed on

such estimates, which are based on

current expectations. These forward-looking statements are subject to certain risks including, among others, that our assumptions will prove to be inaccurate. There are many factors that impact these forward-looking statements that we cannot predict accurately. Actual results may vary materially from current expectations, in part because we manufacture most of our products against customer orders with short lead times and small backlogs. Our earnings are dependent on volume due to price levels and fixed operating costs. Further, our business is subject to a number of general risks that would affect any such forward-looking statements including, among others, decreases in demand for our products; increases in energy, raw material, shipping and capital equipment costs; reduced supplies of raw materials; fluctuations in selling prices and volumes; intense competition; our ability to identify, complete, integrate or finance acquisitions; the potential loss of certain customers; adverse changes in and the cost of complying with extensive governmental regulations; and adverse changes in general market and industry conditions. Such risks are more particularly described in our filings with the SEC, including under the caption *Business Forward-Looking Information and Risk Factors* in our Fiscal 2010 Form 10-K. Further, forward-looking statements speak only as of the date they are made, and we do not have or undertake any obligation to update any such information as future events unfold.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of certain of the market risks to which we are exposed, see the *Quantitative and Qualitative Disclosures About Market Risk* section in our Fiscal 2010 Form 10-K.

Item 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and our Chief Financial Officer evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e)) under the Securities Exchange Act of 1934 (the **Exchange Act**) as of the end of the period covered by this quarterly report. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

There has been no change in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II: OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

We are a party to litigation incidental to our business from time to time. We are not currently a party to any litigation that management believes, if determined adversely to us, would have a material adverse effect on our results of operations, financial condition or cash flows.
