BUSINESS OVERVIEW

One of the world's largest and most established cord blood stem cell banks

Services

U-Cord

®

: Collection and cryopreservation of stem cells from
umbilical cord blood

Céllé

Collection and preservation of stem cells from menstrual

Cryology

Cryopreservation and transportation coordination of
reproductive tissue

U-Cord

®

Plus

Cord tissue and cord blood stem cell
cryopreservation

Client Base

Over 235,000 worldwide

Markets Served

United States

Mexico, Central America, South America

India, Thailand, Malaysia, China, Pakistan

Revenue Sources

Service fees for cord blood and menstrual fluid collection and
preservation

Recurring annual storage fees

Licensing fees and royalties from global affiliates
fluid (MenSC)

An increase in share price of 194% year-over-year: \$3.67 at the end of
second quarter 2011 versus \$1.25 at the end of second quarter 2010

PROXY CONTEST

THE PORTNOY GROUP

David Portnoy is seeking 5 of 6 director seats

Portnoy is effectively seeking to take control of Cryo-Cell without paying a control premium to shareholders

Portnoy rejected the Company's offer of one seat (which is proportionate to his group's ownership of Cryo-Cell)

The Portnoy Group does not provide Cryo-Cell or its stockholders with any

plan to add shareholder value

STRONG CORPORATE GOVERNANCE PRINCIPLES

The Company has an annually elected board; all but CEO are independent

Cryo-Cell has an independent lead director

The Audit, Compensation, and Nominating & Governance Committees are comprised solely of independent directors

The Company does not have a poison pill

Shareholders may act by written consent

OUR NOMINEES

Scott
Christian
--
more
than
30

years
of
financial
management
experience
with
companies such
as Automatic Data Processing, Ceridian Corporation, Norstan,
Spanlink
Communications
and
XATA,
in
successively
expanded
roles
from
Senior

through
Chief
Financial
Officer
to
the
CEO
level.
Experience in global communications solutions and services and deep
knowledge of financial management.

Andrew J. Filipowski

--

entrepreneur who has founded several businesses over
the past 25 years. Brings to the Cryo-Cell boardroom the perspective of a large
stockholder (currently owns in excess of 5.5% of Cryo-Cell)

OUR NOMINEES

Anthony P. Finch

--

35 years of experience in cell separation and cryopreservation of cellular products. Currently serves as Chief Scientific Officer of the Irish National Blood Centre and National Tissue Typing Reference Laboratory. Has over 20 years experience in cord blood processing and pioneered the fractionation and isolation of

cord blood
stem
cells
for
small
volume
cryogenic
storage
and
has
developed
large

scale processing in line with current Good Manufacturing Practice (cGMP). Has established several cord blood stem cell banks in the United States, Europe and Asia. Brings his wealth of experience and expertise in cord blood stem research, management, organization and processing. He is a Fellow of both the Academy of Medical Laboratory Sciences and Institute of Biomedical Sciences, and is a member of the Cord Blood Stem Cell International Society.

James P. Pellow Ed.D

--

over 25 years of professional experience and has served as a director of public companies in various roles, including lead director, chairman of the governance committee and member of the audit committee. Has significant corporate governance experience. Serves as CEO and president of the Council on International Educational Exchange (CIEE). Served as the executive vice president and chief operating officer of St. John's University from 1999 until May 2011 and in various other capacities since 1991. Previously was a certified public accountant with Coopers & Lybrand and a municipal bond trader with Chapdelaine & Co.

OUR NOMINEES

Anthony Atala, M.D., --

25 years of professional experience and globally recognized stem cell researcher in the area of regenerative medicine. Current work focuses on growing new human cells, tissues and organs. Serves as Director of the Wake Forest Institute for Regenerative Medicine with a team of over 160 physicians and researchers and is the W.H. Boyce Professor and Chair of the Department of

Urology at Wake Forest University. Works with several journals and serves in various roles, including Editor-in-Chief of Stem Cells Translational Medicine and Current Stem Cell Research and Therapy. Has served as a director on several boards. Currently an NIH Quantum Grant awardee and has published more than 250 journal articles; has applied for or received over 200 national and international patents.

Mercedes Walton

--

35 years of corporate management experience with significant senior executive expertise in the creation and implementation of innovative commercialization strategies for a variety of enterprises including AT&T; Applied Digital Solutions, Inc. and Digital Angel. Principal inventor on the expansive intellectual property portfolio of global patent-pending Célle menstrual stem cell technology applications assigned to the Company. Has served on the board of directors of five publicly traded companies in the biotechnology and communication services sectors.

PORTNOY S NOMINEES

In sharp contrast to the Cryo-Cell Board nominated slate, the Portnoy Group s nominees have no relevant indicated experience in the stem cell preservation industry, business of regenerative science or relevant public company operating experience. The Portnoy Group consists of a hand-picked group of individuals who appear to have long-time personal and business relationships with David Portnoy:

Mark and David Portnoy -- brothers with no known relevant experience
Harold Berger -- an accountant who provides accounting services to Mark
Portnoy and certain entities controlled by Mark Portnoy
George Gaines -- a consultant to entities seeking to structure and raise
capital for private equity funds
Jonathan H. Wheeler, M.D., an OB/GYN

PORTNOY S SLATE IS NOT QUALIFIED TO SERVE
CRYO-CELL SHAREHOLDERS

Portnoy s Slate Brings:

No Insight

No Business Plan

No Strategy

No Track Record

No relevant indicated experience in the stem cell preservation industry

No relevant indicated experience in the business of regenerative science

No relevant public company operating experience
