When we refer to *we*, *us*, *our*, or *the Company*, we mean Consolidated-Tomoka Land Co. and its consolidated subsidiaries. References to *Notes to Financial Statements* refer to the Notes to the Consolidated Financial Statements of Consolidated-Tomoka Land Co. included in Item 8 of this Annual Report on Form 10-K. Also, when the Company uses any of the words *anticipate*, *assume*, *believe*, *estimate*, *expect*, *intend*, or similar expressions, the Company is making forward-looking statements. Although management believes that the expectations reflected in such forward-looking statements are based upon present expectations and reasonable assumptions, the Company's actual results could differ materially from those set forth in the forward-looking statements. Certain factors that could cause actual results or events to differ materially from those the Company anticipates or projects are described in *Item 1A. Risk Factors* of this Annual Report on Form 10-K. Given these uncertainties, readers are cautioned not to place undue reliance on such statements, which speak only as of the date of this Annual Report on Form 10-K or any document incorporated herein by reference. The Company undertakes no obligation to publicly release any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date of this Annual Report on Form 10-K.

ITEM 1. BUSINESS

We are a diversified real estate operating company. We own and manage forty-three commercial real estate properties in ten states in the U.S. As of December 31, 2014, we owned thirty-six single-tenant and seven multi-tenant income-producing properties with over 1,100,000 square feet of gross leasable space. We also own and manage a land portfolio of over 10,500 acres. As of December 31, 2014, we had five commercial loan investments including a fixed-rate mezzanine commercial mortgage loan, a fixed-rate first mortgage, a variable-rate B-Note, a variable-rate mezzanine commercial mortgage loan, and a variable-rate first mortgage loan. Our golf operations consist of the LPGA International golf club, which is managed by a third party. We also lease property for twenty-one billboards, have agricultural operations that are managed by a third party, which consists of leasing land for hay and sod production, timber harvesting, and hunting leases, and own and manage subsurface interests. The results of our agricultural and subsurface leasing operations are included in Agriculture and Other Income and Real Estate Operations, respectively, in our consolidated statements of operations.

The following is a summary of financial information regarding the Company's business segments (amounts in thousands) for the years ended December 31:

	2014	2013	2012
Revenues of each segment are as follows:			
Income Properties	\$ 14,970	\$ 12,828	\$ 8,463
Commercial Loan Investments	2,191	1,713	
Real Estate Operations	12,956	5,946	3,099
Golf Operations	5,125	5,075	4,506
Agriculture and Other Income	278	276	165
Total Revenues	\$ 35,520	\$ 25,838	\$ 16,233

**Operating income (loss) from Continuing Operations
before income tax for each segment is as follows:**

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form 10-K

Income Properties	\$ 13,015	\$ 11,494	\$ 7,787

Table of Contents

BUSINESS PLAN

Our business plan is primarily focused on investing in income-producing real estate and optimizing the value of our land holdings. Our investments in income-producing real estate are primarily through the acquisition of single-tenant and multi-tenant income properties, the self-development of multi-tenant income properties, or investing in commercial loans or similar financings secured by commercial real estate. Our investment in single-tenant, multi-tenant, and office income properties, when possible, utilizes proceeds from other real estate transactions which qualify for income tax deferral through the like-kind exchange provisions under Section 1031 of the Internal Revenue Code. We have held the significant majority of our portfolio of land holdings, which are used in our agricultural operations, for most of our over 100-year history, and, as a result, our book basis in the majority of these assets is very low. Because of the low basis in our land holdings, dispositions of our land typically generate large taxable gains. Utilizing the like-kind exchange structure allows us to defer the related income taxes on these gains and reinvest nearly all of the net sales proceeds of the qualifying transaction into income-producing properties. In limited circumstances we have reacquired land that we have previously sold either pursuant to the terms of the original sales agreement or through foreclosure. Land we have reacquired typically has a higher book basis. Our approach in investing in income-producing real estate is to use moderate leverage, when appropriate or necessary, to fund our acquisitions and to help accelerate our business plan objectives. Our use of leverage in acquiring income-producing real estate is intended to provide positive returns relative to our borrowing costs. We believe this enhances our Company's income-generating real estate asset base while keeping us cash flow positive with approximately half of our market capitalization held in lower-yielding agricultural land assets.

Our investment strategy seeks to acquire income properties which will continue to broaden the credit base of our lease tenants, diversify our income property portfolio geographically, with an emphasis on major markets in the U.S., and diversify the type of income-producing property, which in the future may include hospitality or other retail. We have self-developed five of our multi-tenant income-producing properties, all of which are located in Daytona Beach, Florida. Our investments in commercial loans or similar structured finance investments have been, and will continue to be, secured by commercial real estate, residential real estate developments, land or a borrower's pledge of its ownership interest in the entity that owns the real estate. We believe investment in each of these income-producing asset classes provide attractive opportunities for stable current cash flows and increased returns in the long run and the potential for capital appreciation.

We believe that we currently have a reasonably low level of leverage. Proceeds from closed land transactions provide us with investible capital. Our strategy is to utilize our low leverage and proceeds from land transactions to acquire income properties, acquire or originate commercial loan investments, and invest in securities of real estate companies, or other shorter term investments. Our primary targeted investment classes include the following:

Retail and office double-or-triple-net leased properties in major metropolitan areas;

Stabilized multi-tenant office and retail properties in major metropolitan areas;

Select office, flex, industrial, and retail self-developed properties on Company owned land;

Joint venture development using Company owned land;

Origination or purchase of 1-10 year term loans on strong risk-adjusted yields with property types to include hotel, office, retail, land and industrial;

Real estate related investment securities, including commercial mortgage backed securities, preferred or common stock, and corporate bonds;

Select regional area investments using Company market knowledge and expertise to earn good risk-adjusted yields; and

Purchase or origination of ground leases.

Our investments in income-producing properties have single or multiple tenants typically subject to long-term leases, primarily in the form of triple or double net leases and ground leases. Triple-net leases generally require the tenant to pay property operating expenses such as real estate taxes, insurance, assessments and other governmental fees, utilities, repairs and maintenance and capital expenditures. For multi-tenant properties, each tenant would pay their proportionate share of the aforementioned operating expenses of the property.

Table of Contents

INCOME PROPERTIES

We have pursued a strategy of investing in income-producing properties, when possible, by utilizing the proceeds from real estate transactions qualifying for income tax deferral through like-kind exchange treatment for tax purposes. During the year ended December 31, 2014, we acquired four income properties, two single-tenant and two multi-tenant, at a total purchase price of approximately \$42.2 million:

On April 22, 2014, the Company acquired a 131,644 square-foot free-standing building, situated on 15.48 acres in Katy, Texas, which is leased to Lowe's Home Improvement. The total purchase price was approximately \$14.7 million, and as of the acquisition date, the remaining term of the lease was approximately 13 years;

On July 17, 2014, the Company acquired a 52,665 square-foot building situated on approximately 7 acres in Daytona Beach, Florida which is leased to American Signature Furniture. The purchase price was approximately \$5.3 million, and as of the acquisition date, the remaining term of the lease was approximately 6 years. The property is located within an approximately 250,000 square-foot retail shopping center anchored by Best Buy, PetSmart and Barnes & Noble. The Company also owns the property leased to Barnes & Noble;

On October 7, 2014, the Company acquired a 59,341 square-foot retail center spanning two city blocks, in Sarasota Florida, which is anchored by a 36,000 square-foot Whole Foods Market retail grocery store. The center also has approximately 23,000 square-feet of additional retail space including a Starbucks retail store, and a three level parking garage. The total purchase price was \$19.1 million, and as of the acquisition date, the weighted average remaining term of the leases was approximately 7 years; and

On December 30, 2014, the Company acquired a 112,292 square-foot retail shopping center comprised of two parcels on over 14 acres of land located in Winter Park, Florida as a redevelopment opportunity. The total purchase price was \$3.1 million, and as of the acquisition date, the majority of the current tenants were under short term leases. As part of the redevelopment activities planned for this property, the Company will likely terminate the majority of the leases.

Our current portfolio of thirty-six single-tenant income properties generates approximately \$13.3 million of revenues from lease payments on an annualized basis and has a weighted average remaining lease term of 9.3 years as of December 31, 2014. Our current portfolio of seven multi-tenant properties generates approximately \$2.4 million of revenue from lease payments on an annualized basis and has a weighted average remaining lease term of 5.1 years as of December 31, 2014.

We expect to continue to focus on acquiring income-producing properties during fiscal year 2015, and in the near term thereafter, maintaining our use of the aforementioned tax deferral structure whenever possible.

As part of our overall strategy for investing in income-producing investments, we have self-developed five of our multi-tenant properties in Daytona Beach, Florida. The first self-developed property, located at the northeast corner of LPGA and Williamson Boulevards in Daytona Beach, Florida, is an approximately 22,000 square foot, two-story, building, known as the Concierge Office Building, which was 100% leased as of December 31, 2014. The second two

properties, known as the Mason Commerce Center, consists of two buildings totaling approximately 31,000 square-feet (15,360 each), which was approximately 94% leased as of December 31, 2014. During the year ended December 31, 2014, construction was completed on two additional properties, known as the Williamson Business Park, which are adjacent to the Mason Commerce Center. Williamson Business Park consists of two buildings totaling approximately 31,000 square-feet (15,360 each), which was approximately 25% leased as of December 31, 2014.

Our focus on acquiring income-producing investments includes a continual review of our existing income property portfolio to identify opportunities to recycle our capital through the sale of income properties based on, among other possible factors, the current or expected performance of the property and favorable market conditions. Pursuant to our on-going review, one property was sold in 2014. We intend to deploy all of the proceeds from the sale through the like-kind exchange structure, in our acquisition of the multi-tenant property in Sarasota, Florida. The Company anticipates that future investments in income-producing assets could use the proceeds from selling non-core properties, utilizing the tax-deferred like-kind exchange structure, as circumstances permit.

Table of Contents

As of December 31, 2014, the Company owned thirty-six single-tenant and seven multi-tenant income properties in ten states. Following is a summary of these properties:

Tenant	City	State	Area (Square Feet)	Year Built

- (1) This property was expanded in 2011 at a cost of \$1,600,000 in exchange for a new twenty-five year lease term.
- (2) These properties leases are with Holiday CVS, L.L.C. (a wholly-owned subsidiary of CVS Health)

Table of Contents

The weighted average economical and physical occupancy rates of our income properties for each of the last three years on a portfolio basis are as follows:

Year	Single-Tenant Economic / Physical Occupancy	Multi-Tenant Economic / Physical Occupancy
2012	100% / 93%	88% / 88%
2013	100% / 96%	88% / 88%
2014	100% / 97%	75% / 75%

The information on lease expirations of our total income property portfolio for each of the ten years starting with 2015 is as follows:

Year	# of Tenant Leases Expiring	Total Square Feet of Leases Expiring	Annual Rents Expiring	Percentage of Gross Annual Rents Expiring
2015 ⁽¹⁾	16	84,474	\$ 435,578	2.9%
2016	4	20,971	\$ 459,558	3.0%
2017	8	197,459	\$ 1,796,746	11.8%
2018	2	2,511	\$ 54,120	0.4%
2019	6	34,724	\$ 946,649	6.2%
2020	3	79,685	\$ 1,164,439	7.6%
2021	5	170,891	\$ 2,549,157	16.7%
2022	1	13,824	\$ 265,202	1.7%
2023	2	48,325	\$ 694,574	4.5%
2024	5	74,820	\$ 1,390,133	9.1%

- ⁽¹⁾ As part of the redevelopment activities planned for The Grove at Winter Park, a multi-tenant property, the Company is terminating the majority of the leases. As a result, the 2015 lease expirations include 11 tenants of The Grove at Winter Park which account for 73,575 of the expiring square feet and \$166,780 of the expiring annual rents.

The majority of leases have additional option periods beyond the original term of the lease, which are exercisable at the tenant's option.

We completed no transactions subsequent to December 31, 2014, and prior to the date of this report, which related to our income properties portfolio.

No tenant of a single income property or group of income properties with the same tenant had aggregate rent which accounted for more than 10% of our consolidated revenues in 2014 or 2013.

REAL ESTATE OPERATIONS

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form 10-K

As of December 31, 2014, the Company owned over 10,500 acres of land in Daytona Beach, Florida, along six miles of the west and east side of Interstate 95. Presently, the majority of this land is used for agricultural purposes. Approximately 1,400 acres of our land holdings are located on the east side of Interstate 95 and are generally well suited for commercial development. The remainder of our land holdings are located on the west side of Interstate 95 and the majority of this land is generally well suited for residential development or industrial purposes. Included in the western land is approximately 900 acres which are located further west of Interstate 95 and a few miles north of Interstate 4 and this land is generally well suited for industrial purposes.

Beginning in 2012, we have observed an increase in residential and commercial real estate activity in the area surrounding our land holdings.

During the year ended December 31, 2014, a total of approximately 99.66 acres were sold for approximately \$8.8 million as described below:

On February 18, 2014, the Company sold approximately 3.1 acres of land to Halifax Humane Society, Inc. for \$391,500, or approximately \$128,000 per acre, for a gain of approximately \$347,000. This parcel is located on LPGA Boulevard, just west of I-95 in Daytona Beach, Florida and is adjacent to an existing property owned by Halifax Humane Society, Inc.

Table of Contents

On August 15, 2014, the Company sold approximately 75.6 acres of land, located on the east side of Interstate 95, for development of a distribution center for approximately \$7.8 million, or approximately \$103,000 per acre, for a gain at closing of approximately \$3.9 million with an additional gain of approximately \$324,000 to be recognized on a percentage-of-completion basis as certain road improvements are completed through the estimated completion date of February 2015. As of December 31, 2014, approximately \$277,000 of the gain has been recognized, leaving an approximate gain of \$47,000 to be recognized in the first quarter of 2015. In addition, the Company expects to receive payments totaling approximately \$1.1 million in late 2015 from Volusia County, based upon certain milestones being achieved including when the distribution center receives its certificate of occupancy and the dates when specified numbers of jobs have been created at the buyer's operations. Although there can be no assurances that the Company will receive the \$1.1 million, such payments would bring the total gain on the sale to approximately \$5.3 million.

On October 30, 2014, the Company sold approximately 20.96 acres of land, which presented certain issues for development involving wetlands mitigation, to Victor Indigo Lakes, L.L.C. for \$625,000, or approximately \$30,000 per acre, for a gain of approximately \$552,000. The land is located along the east side of Williamson Boulevard across from Indigo Lakes, in Daytona Beach, Florida.

During the year ended December 31, 2013, a total of 11.655 acres were sold for approximately \$3.0 million as described below:

On December 4, 2013, the Company sold approximately 3.405 acres to RaceTrac Petroleum, Inc. ("RaceTrac") for \$1.3 million or approximately \$382,000 per acre. We recognized a loss on the sale of approximately \$244,000 which is attributable primarily to a higher basis in the property as a result of the Company having repurchased this land in 2010. The parcel sold to RaceTrac is part of Williamson Crossing, an approximately 23-acre, proposed commercial development located at the southeast corner of Williamson and LPGA Boulevards in Daytona Beach. RaceTrac is the first occupant for the Williamson Crossing site. In connection with the transaction, the Company agreed to reimburse RaceTrac up to \$976,500 over five years for road improvements and the other costs associated with bringing multiple ingress/egress points to the entire Williamson Crossing site. As of December 31, 2014 and 2013, \$283,500 of cash is held in escrow related to the improvements and is classified as restricted cash in the consolidated balance sheets. The Company anticipates that all or a portion of these reimbursable costs will be shared by other owners as parcels in the Williamson Crossing development are sold and additional businesses locate to the site. Based on the book basis of the remaining repurchased acres relative to the price per acre in the RaceTrac transaction, the Company determined that no adjustment for impairment was required as of December 31, 2013.

On December 19, 2013, the Company sold approximately 2.02 acres to Intracoastal Bank. The land was sold for \$640,000 or approximately \$317,000 per acre for a gain of approximately \$581,000. This parcel is located on LPGA Boulevard, east of I-95 in Daytona Beach, Florida, between the Vince Carter's and Wendy's restaurants.

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form 10-K

On December 20, 2013, the Company sold approximately 6.23 acres to CarMax Auto Super Stores, Inc. (CarMax) for \$1.05 million, or approximately \$168,500 per acre, for a total loss of approximately \$1.0 million. We recognized a loss of approximately \$416,000 on the sale. In the second quarter of 2013 the Company recognized an impairment loss of approximately \$616,000 which was based on the contract price in a transaction that had been executed for approximately 3.21 acres of the total 6.23 acres sold to CarMax. That transaction was terminated prior to closing. The basis in these acres was higher than is typical for the Company's land holdings as this land had been reacquired through foreclosure in 2009.

During the year ended December 31, 2012, a total of 16.6 acres were sold for approximately \$618,000 as described below:

During the second quarter of 2012, the Company sold approximately 16.6 acres of industrial land west of Interstate 95 at a price of approximately \$618,000 or \$37,000 per acre. The gain on the sale of this land totaled approximately \$573,000.

During 2009, a real estate sales transaction closed in which the Company had a commitment to fund up to \$1,125,000 for its share of road construction costs. During 2010, the Company paid approximately \$554,000 of this commitment. The remaining balance, totaling approximately \$571,000, was recorded as a liability and included in accrued liabilities on the consolidated balance sheets. The finalization of the construction costs occurred in the first quarter of 2012, and resulted in approximately \$730,000 of income during the second quarter of 2012, representing the reversal of the remaining commitment and a reimbursement of approximately \$160,000.

Table of Contents

As of February 27, 2015, the Company had six executed purchase and sale agreements with six different buyers whose intended use for the land under contract includes residential, retail, and office. These agreements, in aggregate, represent the potential sale of approximately 1,674 acres, or 16% of our land holdings, with anticipated sales proceeds totaling more than \$47.0 million. The agreements contemplate closing dates ranging from the second quarter of 2015 to year end 2016 with some of the transactions expected to close in 2015 not contractually obligated to close until after 2015. Certain of these agreements provide for extensions that, if exercised, would move the potential closing into 2017. Each of the transactions are in varying stages of due diligence by the various buyers, including, in some instances having made submissions to the planning and development departments of the applicable governmental authorities. Two of the buyers have received unanimous approval from the City of Daytona Beach planning commission one for a 380,000 square foot retail center on 38 acres and the other for a master planned aged restricted residential development of approximately 3,200 units on 1,585 acres. In addition to other customary closing conditions, the majority of these transactions are conditioned upon both the receipt of approvals from various governmental authorities, as well as other matters that are beyond our control. If such approvals are not obtained, the prospective buyers may have the ability to terminate the respective agreement prior to closing. As a result, there can be no assurances regarding the likelihood or timing of any one of these potential land transactions being completed or the final terms, including the sales price.

The Company owns impact fee and mitigation credits with a combined total of approximately \$5.2 million and \$6.1 million as of December 31, 2014 and 2013, respectively. During the years ended December 31, 2014 and 2013, the Company received cash payments of approximately \$537,000 and \$232,000, respectively, for impact fees with a basis generally of equal value. During the year ended December 31, 2014, the Company received cash of \$389,000 for the sale of mitigation credits in conjunction with the land sale to Victor Indigo Lakes, L.L.C. with a basis of approximately \$176,000. In addition, mitigation credits were utilized related to the 75.6 acre land sale with a basis of approximately \$127,000.

Historical revenues and income from our sale of land are not indicative of future results because of the unique nature of land transactions and variations in the cost basis of the owned land. A significant portion of the Company's revenue and income in any given year may be generated through relatively few land transactions. The timing for these land transactions, from the time of preliminary discussions through contract negotiations, due diligence periods, and the closing, can last from several months to several years. Although we believe there have been recent indications of improvement in the overall economy and credit markets, we expect the overall real estate market, particularly home building, to remain inconsistent in the near term, and as a result we believe our ability to enter into land transactions will remain challenging.

Real Estate Impairments. During the year ended December 31, 2014, the Company did not recognize any impairments of its land holdings. During the year ended December 31, 2013, the Company conducted an impairment analysis on 6.23 acres of land in Daytona Beach, Florida, which had been reacquired through a foreclosure in 2009. Approximately 3.21 of these acres were subject to a sales contract that was executed during the second quarter of 2013 which we deemed highly probably of closing. Although the transaction was subsequently terminated prior to closing, the analysis resulted in an impairment charge of approximately \$616,000, representing the portion of the cost basis of the property that management considered to be un-recoverable based on the land under contract and other current market prices. The 6.23 acres of land were sold under a new sales contract on December 20, 2013, resulting in an additional loss of approximately \$416,000, as more fully described in Note 5 Land and Subsurface Interests.

Subsurface Interests. The Company owns full or fractional subsurface oil, gas, and mineral interests in approximately 490,000 surface acres of land owned by others in 20 counties in Florida. The Company leases its interests to mineral exploration firms for exploration. Our subsurface operations consist of revenue from the leasing of exploration rights and in some instances revenues from royalties applicable to production from the leased acreage.

During 2011, an eight-year oil exploration lease covering approximately 136,000 net mineral acres primarily located in Lee County and Hendry County, Florida was executed and an approximate \$914,000 first year rental payment was received. An additional approximate \$922,000, representing the guaranteed payment for the second year's delay rent, was received in September 2012. The two payments totaling approximately \$1.8 million have been recognized ratably into income through September 2013. On September 22, 2013, the Company entered into an amendment of the exploration lease (the "Oil Lease Amendment"). Under the Oil Lease Amendment, the net mineral acres under exploration lease was reduced from approximately 136,000 net mineral acres to approximately 82,000 net mineral acres in Hendry County, Florida. The approximately 54,000 net mineral acres removed from the exploration lease were located in Lee County, Florida. In connection with the Oil Lease Amendment, the Company received an approximate \$3.3 million rent payment for the third year of the Company's eight-year oil exploration lease. The payment was recognized ratably over the 12 month lease period ending in September 2014. Also during September 2013, the Company received, and recognized as revenue, a non-refundable penalty payment of \$1.0 million relating to the drilling requirements in the lease. During September 2014, the Company received an approximate \$1.9 million rent payment for the adjusted acreage of 42,000 acres for the fourth year of the Company's eight-year exploration lease, which is being recognized ratably over the 12 month lease period ending in September 2015. Also during September 2014, the Company received, and recognized as revenue, a non-refundable penalty payment of \$600,000 relating to drilling requirements in the lease. The terms of the lease state the Company will receive royalty payments if production occurs and may receive additional annual rental payments if the lease is continued in years four through eight. The lease is effectively eight one-year terms as the lessee has the option to terminate the lease annually.

Table of Contents

Lease income generated by the Oil Lease Amendment is being recognized on a straight-line basis over the guaranteed lease term. For the years December 31, 2014, 2013, and 2012, lease income of approximately \$2.9 million, \$1.6 million, and \$919,000 was recognized, respectively. There can be no assurance that the Oil Lease Amendment will be extended beyond the expiration of the current term of September 2015 or, if renewed, on similar terms or conditions.

During the year ended December 31, 2014, the Company also received oil royalties from operating oil wells on 800 acres under a separate lease with a separate operator. Production volume from these oil wells was 64,835 barrels in 2014, 88,782 barrels in 2013 and 81,441 barrels in 2012, resulting in revenues received from oil royalties of approximately \$198,000, \$268,000 and \$287,000, respectively.

The Company's current policy is to not release any ownership rights with respect to its reserved mineral rights. The Company may release surface entry rights or other rights upon request of a surface owner who requires such a release for a negotiated release fee based on a percentage of the surface value. Cash payments for surface entry rights released totaled approximately \$4,000 and \$120,000 during the years ended December 31, 2014 and 2013, respectively, which is included in revenue from real estate operations.

During the first quarter of 2012, the Company signed an excavation agreement for fill dirt removal with up to four 9-month excavation periods and received an upfront non-refundable payment of \$250,000 for the first excavation period beginning March 2012, and ending November 30, 2012. Through December 31, 2012, the entire non-refundable payment was recognized into income. This excavation agreement was terminated after the first excavation period. In late 2013, a new excavation agreement for fill dirt removal was executed which generated revenue of approximately \$119,000 during the year ended December 31, 2014. Revenue generated from excavation of fill dirt is included in revenue from real estate operations.

GOLF OPERATIONS

Golf operations consist of the LPGA International golf club, a semi-private golf club consisting of two 18-hole championship golf courses, an 18-hole course designed by Rees Jones and an 18-hole course designed by Arthur Hills, with a three-hole practice facility also designed by Rees Jones, a clubhouse facility, food and beverage operations, and a fitness facility located within the LPGA International mixed-use residential community on the west side of Interstate 95 in Daytona Beach, Florida. In 2012 and 2013, we completed approximately \$534,000 of capital expenditures to renovate the clubhouse facilities, including a significant upgrade of the food and beverage operations, addition of fitness facilities, and renovations to public areas.

The Company entered into a management agreement with an affiliate of ClubCorp America (ClubCorp), effective January 25, 2012, to manage the LPGA International golf and clubhouse facilities. We believe ClubCorp, which owns and operates clubs and golf courses worldwide, brings substantial golf and club management expertise and knowledge to the LPGA International golf operations, including the utilization of national marketing capabilities, aggregated purchasing programs, and implementation of an affiliate member program, and our affiliation with ClubCorp will also improve membership levels through the access to other member clubs in the affiliate program.

The Company leases the land and certain improvements attributable to the golf courses under a long-term lease with the City of Daytona Beach, Florida (the City), which expires in 2022. In July 2012, the Company entered into an agreement with the City to, among other things, amend the lease payments under its golf course lease (the Lease Amendment) whereby the base rent payment, which was scheduled to increase from \$250,000 to \$500,000 as of September 1, 2012, would remain at \$250,000 for the remainder of the lease term and any extensions would be subject to an annual rate increase of 1.75% beginning September 1, 2013. The Company also agreed to invest \$200,000 prior to September 1, 2015 for certain improvements to the facilities. In addition, pursuant to the Lease Amendment,

beginning September 1, 2012, and continuing throughout the initial lease term and any extension option, the Company will pay additional rent to the City equal to 5.0% of gross revenues exceeding \$5,500,000 and 7.0% of gross revenues exceeding \$6,500,000. Since the inception of the lease, the Company has recognized the rent expense on a straight-line basis resulting in an estimated accrual for deferred rent. Upon the effective date of the Lease Amendment, the Company's straight-line rent was revised to reflect the lower rent levels through expiration of the lease. As a result, approximately \$3.0 million of the rent previously deferred will not be due to the City, and will be recognized into income over the remaining lease term. As of December 31, 2014, approximately \$2.1 million of the rent, previously deferred that will not be due to the City, remained to be amortized through September 2022.

COMMERCIAL LOAN INVESTMENTS

Our investment in commercial loans or similar structured finance investments, such as mezzanine loans or other subordinated debt, have been and are expected to continue to be secured by commercial or residential real estate or land or a borrower's pledge of its ownership interest in the entity that owns the real estate. The first mortgage loans we typically invest in or originate are for commercial real estate, located in the United States and that are current or performing with either a fixed or floating rate. Some of these loans may be syndicated in either a pari passu or senior/subordinated structure. Commercial first mortgage loans generally provide for a higher recovery rate due to their senior security position in the underlying collateral. Commercial mezzanine loans are typically secured by a pledge of the borrower's equity ownership in the underlying commercial real estate. Unlike a mortgage, a mezzanine loan does not represent a lien on the property. Investor's rights in a mezzanine loan are usually governed by an intercreditor agreement that provides holders with the rights to cure defaults and exercise control on certain decisions of any senior debt secured by the same commercial property.

Table of Contents

On August 7, 2013, the Company acquired a \$19.6 million first mortgage loan secured by an upper upscale hotel in Atlanta, Georgia, for approximately \$17.5 million, a discount of approximately \$2.05 million. The discount was being accreted into income ratably through the contractual maturity date in March 2014, which was included in Interest Income from Commercial Loan Investments in the consolidated financial statements. On January 6, 2014, the commercial mortgage loan principal of \$19.5 million was paid in full. The total revenue recognized in January 2014 was approximately \$844,000 including the remaining accretion of the purchase discount of approximately \$650,000, interest income of approximately \$36,000, and an exit fee of approximately \$195,000, offset by the remaining amortization of fees of approximately \$37,000.

On January 31, 2014, the Company acquired a mezzanine loan secured by the borrower's equity interest in an upper upscale hotel in Atlanta, Georgia, that was previously subject to the Company's first commercial loan investment. The Company purchased the \$5.0 million performing loan at par. The loan matures in February 2019, bears a fixed interest rate of 12.00% per annum, and requires payments of interest only prior to maturity. Interest revenue recognized during the year ended December 31, 2014 was approximately \$558,000.

On May 16, 2014, the Company funded approximately \$3.1 million of a \$6.3 million first mortgage commitment for the redevelopment of an existing vacant retail property into a Container Store located in Glendale, Arizona, which opened on February 7, 2015. As of December 31, 2014, approximately \$5.3 million in draws were funded by the Company, leaving a remaining commitment of approximately \$1.0 million, which may be drawn by the borrower as construction costs are incurred. Construction was substantially complete as of December 31, 2014 and the Company expects to fund the remaining commitment in the first quarter of 2015. The loan matures in November 2015, includes one nine-month extension option, bears a fixed interest rate of 6.00% per annum prior to the commencement of rent on the Container Store lease, and requires payments of interest only prior to maturity, and requires payments of interest only prior to maturity. At closing, a loan origination fee of approximately \$79,000 was received by the Company and is being accreted ratably into income through the contractual maturity date in November 2015. Total interest revenue recognized during the year ended December 31, 2014 was approximately \$161,000. Subsequent to the commencement of rent, the interest rate on our loan will be the 30-day London Interbank Offer Rate (LIBOR) plus 800 basis points. Rent commenced on February 7, 2015.

On May 20, 2014, the Company acquired an approximate \$9.0 million B-Note secured by a retail shopping center located in Sarasota, Florida. The loan matures in June 2015, includes three one-year extension options, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. The loan is subordinate to an approximately \$48.0 million A-Note collateralized by the same property, for a total debt balance of \$57.0 million. Interest revenue recognized during the year ended December 31, 2014 was approximately \$416,000.

On September 30, 2014, the Company acquired a mezzanine loan secured by the borrower's equity interest in an upper upscale hotel in Dallas, Texas. The Company purchased the \$10.0 million performing loan at par. The loan matures in September 2016, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. The loan is subordinate to a \$64.0 million first mortgage on the hotel in Dallas, Texas. Interest revenue recognized during the year ended December 31, 2014 was approximately \$191,000.

On November 14, 2014, the Company acquired a \$1.0 million first mortgage loan secured by real estate in Ormond Beach, Florida. The loan matures in November 2015, includes a one-year extension option, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. At closing, a loan origination fee of approximately \$10,000 was received by the Company and recognized as income. Interest revenue recognized during the year ended December 31, 2014 was approximately \$10,000.

AGRICULTURE AND OTHER INCOME

Effectively all of our agriculture and other income consists of revenues generated by our agricultural operations. The Company's agricultural lands encompass approximately 9,700 acres on the west side of Daytona Beach, Florida. Our agricultural operations are managed by a third-party and consist of leasing land for hay production, timber harvesting, as well as hunting leases.

COMPETITION

The real estate business generally is highly competitive. Our business plan is focused on investing in commercial real estate that produces income primarily through the leasing of assets to tenants. To identify investment opportunities in income-producing real estate assets and to achieve our investment objectives, we compete with numerous companies and organizations, both public as well as private, of varying sizes, ranging from organizations with local operations to organizations with national scale and reach, and in some cases, we compete with individual real estate investors. In all the markets in which we compete to acquire income properties, price is the principal method of competition, with transaction structure and certainty of execution also being significant considerations for potential sellers. As of December 31, 2014, our total income property portfolio, including our single-tenant and multi-tenant properties, consists of forty-three income properties located in the following states: (i) Arizona (ii) California (iii) Colorado (iv) Florida (v) Georgia (vi) Illinois (vii) Maryland (viii) North Carolina (ix) Texas, and (x) Washington. Should we need to re-lease our single-tenant income properties or space in our multi-tenant properties, we would compete with many other property owners in the local market based on price, location of our property, potential tenant improvements, and possibly lease terms.

Table of Contents

Our real estate operation is comprised of our land holdings, which are largely used for agricultural purposes today and are substantially located in the City of Daytona Beach, Florida, and our subsurface interests. The parties typically interested in our land holdings are both residential and commercial developers as well as commercial businesses. These interested parties typically base their decision to acquire land on, among other things, price, location, land use or optionality of land use, and may also consider other development activities in the surrounding area.

Our business plan is also focused on investing in commercial real estate through the performance of mortgage financings secured by commercial real estate. Competition for investing in commercial mortgage loans and similar financial instruments can include financial institutions such as banks, life insurance companies, institutional investors such as pension funds and other lenders including mortgage REITs, REITs, and high wealth investors. The organizations that we compete with are varying sizes, ranging from organizations with local operations to organizations with national scale and reach. Competition from these interested parties is based on, amongst other things, pricing or rate, financing structure, and other elements of the typical terms and conditions of a real estate financing.

Our golf operations consist of a single semi-private operating property, located in Daytona Beach, Florida, with two 18-hole championship golf courses, a practice facility with three holes of golf, and clubhouse facilities including a restaurant and bar operation, a fitness facility, and a swimming pool. The operation of the golf facility also includes private event sales for golf events and clubhouse events. The primary competition for our golf operations comes from other private and public golf operations in the local market. Competition for our golf operation is largely based on price, service level, and product quality. We attempt to differentiate our golf operations product on the basis of the condition and quality of the courses and practice facilities, our private event capabilities, service level, the quality and experience of the food and beverage amenities and other amenities.

EMPLOYEES

At December 31, 2014, the Company had fourteen full-time employees and considers its employee relations to be satisfactory.

AVAILABLE INFORMATION

The Company's website is www.ctlc.com. The Company makes available on this website, free of charge, its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as reasonably practicable after the Company electronically files or furnishes such materials to the SEC. The Company will also provide paper copies of these filings free of charge upon a specific request in writing for such filing to the Company's Corporate Secretary, P.O. Box 10809, Daytona Beach, Florida 32120-0809. All reports the Company files with or furnishes to the SEC are also available free of charge via the SEC's electronic data gathering and retrieval (EDGAR) system available through the SEC's website at <http://www.sec.gov>. The public may read and copy any materials filed by us with the SEC at the SEC's Public Reference Room, 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

ITEM 1A. RISK FACTORS

Our business is subject to a number of significant risks. The risks described below may not be the only risks which potentially could impact our business. These additional risks include those which are unknown at this time or that are currently considered immaterial. If any of the circumstances, events, or developments described below actually occur

to a significant degree, our business, financial condition, results of operations, and/or cash flows could be adversely affected, and the trading price of our common stock could decline. You should carefully consider the following risks and all of the other information set forth in this Annual Report on Form 10-K, including the consolidated financial statements and the notes thereto.

A prolonged downturn in economic conditions, especially in Daytona Beach, Florida, could adversely impact our business. In recent years, the collapse of the housing market, together with the crisis in the credit markets, resulted in a recession in the local and national economy with significant levels of unemployment, shrinking gross domestic product, and drastically reduced consumer spending. During this period, potential consumers of residential real estate often deferred or avoided real estate purchases due to, among other factors, a lack of liquidity, the substantial costs involved, and overall uncertainty with the economy. The real estate industry is particularly vulnerable to shifts in local, regional, and national economic conditions which are outside of our control, such as short and long-term interest rates, housing demand, population growth, and unemployment levels and job growth. Our real estate operations segment is especially sensitive to economic conditions in Florida, particularly in Daytona Beach, where substantially all of our land portfolio is located. While Florida has experienced improving economic conditions the recovery for Florida started later and has taken longer than the rest of the nation. A prolonged period of economic weakness or another downturn could have a material adverse effect on our business, financial condition, results of operations, and/or cash flows.

Table of Contents

We may experience a decline in the fair value of our real estate assets or investments which could result in impairments and would impact our financial condition and results of operations. A decline in the fair market value of our long-lived assets may require us to recognize an other-than-temporary impairment against such assets (as defined by FASB authoritative accounting guidance) if certain conditions or circumstances related to an asset were to change and we were to determine that, with respect to any such asset, there was an unrealized loss to the fair value of the asset. The fair value of our long-lived assets depends on market conditions, including estimates of future demand for these assets, and the revenues that can be generated from such applicable assets including land or an income property. If such a determination were to be made, we would recognize the estimated unrealized losses through earnings and write down the depreciated or amortized cost of such assets to a new cost basis, based on the fair value of such assets on the date they are considered to be other-than-temporarily impaired. Such impairment charges reflect non-cash losses at the time of recognition; subsequent disposition or sale of such assets could further affect our future losses or gains, as they are based on the difference between the sales price received and the adjusted depreciated or amortized cost of such assets at the time of sale.

The most recent downturn in the U.S. economy and real estate markets caused the fair value of certain of our properties to decrease. In 2011, we wrote down the carrying value of our golf operations assets and certain of our land assets with corresponding non-cash charges against our earnings to reflect the impaired value. In 2013, we wrote down the carrying value of a small parcel of land reacquired through foreclosure in 2009 when a portion of this reacquired land was under contract to be sold for a price that was less than the carrying value of the land. If the real estate market were to experience another decline, we may be required to take other impairment charges against our earnings for other than temporary impairments in the value of our real estate assets including our land, income properties, commercial loan investments and similar financings or other capitalized costs. Any such non-cash charges could have an adverse effect on our financial condition and results of operations.

Our quarterly results are subject to variability. We have historically derived a substantial portion of our income from transactions in our land holdings. The timing of such real estate transactions is not predictable and is generally subject to the purchaser's ability to, among other things, obtain on a timely basis acceptable financing and approvals from local municipalities and regulatory agencies for the intended use of the land. As these approvals are subject to third party responses, it is not uncommon for delays to occur, which affect the timing of transaction closings and may also impact the terms and conditions of the transaction. These timing issues have caused, and may continue to cause, our operating results to vary significantly from quarter to quarter and year to year.

Our future success will depend upon, among other things, our ability to successfully execute our strategy to invest in income-producing assets. There is no assurance that we will be able to continue to execute our strategy of investing in income-producing assets, including income properties and commercial loans or similar financings secured by real estate. There is no assurance that the income property portfolio will expand at all, or if it expands, at any specified rate or to any specified size. If we continue to invest in diverse geographic markets other than the markets in which we currently own properties, we will be subject to risks associated with investing in new markets as those markets will be relatively unfamiliar to us. In addition, investments in new markets may introduce increased costs to us relating to factors including the regulatory environment and the local and state tax structure. Additionally there is no assurance we will or can expand our investments in commercial loans or similar financings secured by real estate.

Consequently if we are unable to acquire additional income-producing assets or our investments in new markets introduce increased costs our financial condition, results of operations, and cash flows may be adversely affected.

We operate in a highly competitive market for the acquisition of income properties and more established competitors may be able to compete more effectively for acquisition opportunities than we can. A number of entities compete with us to purchase income properties. We compete with REITs, public and private real estate focused

companies, high wealth individual investors, and others. Many of our competitors are substantially larger and have considerably greater financial, technical and marketing resources than we do. Several of our public company competitors have greater access to raising equity or debt financing, have significant amounts of capital available and objectives that overlap with ours, which may create competition for acquisition opportunities. Some competitors may have a lower cost of funds and access to funding sources that are not available to us. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of income property acquisitions and establish more relationships than us. We cannot be assured that the competitive pressures we face will not have a material adverse effect on our business, financial condition, results of operations and therefore our cash flows. Also, as a result of this competition, we may not be able to take advantage of attractive acquisition opportunities from time to time, and we can offer no assurance that we will be able to identify and purchase assets that are consistent with our objectives.

If we are not successful in utilizing the like-kind exchange structure in deploying the proceeds from our land transactions or dispositions of non-core income properties, or our like-kind exchange transactions are disqualified, our results of operations and cash flows could be adversely impacted. Our strategy of investing in income-producing properties includes the utilization, when possible, of proceeds obtained from the disposition of non-core income properties or from land transactions, which qualify for deferral of the applicable income tax through the like-kind exchange provisions of the Internal Revenue Code. If we fail to complete a qualifying acquisition utilizing the aforementioned proceeds, or a transaction we deemed qualifying for like-kind exchange treatment is subsequently disqualified by the Internal Revenue Service, we may be subject to increased income taxes, which may adversely impact our results of operations and our cash flows.

Table of Contents

We are subject to a number of risks inherent with the real estate industry and in the ownership of real estate assets or investment in financings secured by real estate which may adversely affect our returns from our investments, our financial condition, results of operations and cash flows. Factors beyond our control can affect the performance and value of our real estate assets including our land, income properties, investments in commercial loans or similar financings secured by real estate or other investments. Real estate assets are subject to various risks, including but not limited to the following:

Adverse changes in national, regional, and local economic and market conditions where our properties are located;

Competition from other real estate companies similar to ours and competition for tenants, including competition based on rental rates, age and location of the property and the quality of maintenance, insurance, and management services;

Changes in tenant preferences that reduce the attractiveness of our properties to tenants or decreases in market rental rates;

Zoning or other local regulatory restrictions, or other factors pertaining to the local government institutions which inhibit interest in the markets in which our land holdings or income producing assets are located;

Costs associated with the need to periodically repair, renovate or re-lease our properties;

Increases in the cost of our operations, particularly maintenance, insurance, or real estate taxes which may occur even when circumstances such as market factors and competition cause a reduction in our revenues;

Changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies, and ordinances;

Illiquidity of real estate investments which may limit our ability to modify our income producing asset portfolio promptly in response to changes in economic or other conditions;

Acts of God, including natural disasters, which may result in uninsured losses; and

Acts of war or terrorism, including consequences of terrorist attacks.

If any of these or similar events occurs, it may reduce our return from an affected real estate asset or investment which could adversely impact our financial condition, results of operations and cash flows.

The loss of revenues from our income property portfolio or certain tenants would adversely impact our results of operations and cash flows. While no single tenant represents more than 10% of our consolidated revenues as of December 31, 2014, we have tenants who lease a number of our income properties or a large amount of the square footage of our income property portfolio, such as CVS, Lowe's Corporation, Bank of America, Big Lots and Hilton Resorts Corporation. The default, financial distress, or bankruptcy of one or all of these tenants could cause substantial vacancies in our income property portfolio and reduce our revenues from our income property operations significantly thereby adversely impacting our results of operations and cash flows. Vacancies reduce our revenue until the affected properties can be re-leased and could decrease the value of each such vacant property. Upon the expiration of the leases that are currently in place, we may not be able to re-lease a vacant property at a comparable lease rate or without incurring additional expenditures in connection with such re-leasing. If, following the loss of an income property tenant, we are unable to re-lease the income property at comparable rental rates and in a timely manner, our financial condition, results of operations and cash flows could be adversely affected.

Certain provisions of the Company's leases may be unenforceable. The Company's rights and obligations with respect to its leases are governed by written agreements with its tenants. A court could determine that one or more provisions of such an agreement are unenforceable, such as a particular remedy, a termination provision, or a provision governing the Company's remedies for default of the tenant lessee. If we were unable to enforce provisions of a lease agreement or agreements, our results of operations, financial condition, and cash flows could be adversely impacted.

We may not be able to dispose of properties we target for sale to recycle our capital. While the Company's strategy may include selectively selling non-core income-producing properties to recycle our capital, we may be unable to sell properties targeted for disposition due to adverse market conditions or not achieve the pricing or timing that is consistent with our expectations. This may adversely affect, among other things, the Company's ability to deploy capital into the acquisition of other income-producing properties, the execution of our overall operating strategy and consequently our financial condition, results of operations, and cash flows.

Most of our land holdings are located in a Daytona Beach, Florida and the competition in the local and regional market, the possible impact of government regulation or development limitations, and the criteria used by interested parties interested in acquiring land could adversely impact interest in our land and thereby our results of operations and cash flows. The parties typically interested in our land holdings base their decision to acquire land on, among other things, price, location, and land use or optionality of land use. In some instances the aforementioned acquisition criteria or other factors may make an interested party consider other land holdings instead of ours. In addition, parties interested in acquiring our land holdings would likely consider the impact of governmental regulations or ordinances on their ability to develop the land for their intended use and may seek incentives or similar economic considerations from the governmental authorities that they may not be able to obtain. These conditions may make it difficult for us to complete land transactions on acceptable terms or at all which could adversely impact our financial condition, results of operations, and cash flows.

Table of Contents

The Company's real estate investments, including our land holdings and income-producing assets, are generally illiquid. Real estate investments are relatively illiquid, therefore, it may be difficult for us to sell such assets if the need or desire arises and otherwise the Company's ability to make rapid adjustments in the size and content of our income property portfolio or other real estate assets in response to economic or other conditions is limited. Illiquid assets typically experience greater price volatility, as a ready market does not exist, and can be more difficult to value. In addition, validating third party pricing for illiquid assets may be more subjective than more liquid assets. As a result, if we are required to liquidate all or a portion of certain of our real estate assets or income producing asset portfolio quickly, we may realize significantly less than the value at which we have previously recorded our assets. Further, certain expenditures necessary to operate our income property operations, real estate operations and golf operations generally do not get reduced and may in fact increase in response to weakening economic conditions or other market disruptions including maintenance costs, insurance costs, and in some instances, interest expense. This relationship of revenue and expenditures may result, under certain market conditions, in reduced operating results and cash flows and thereby could have an adverse effect on the Company's financial condition.

Continued or increased operating losses from the golf operations may adversely impact the Company's results of operations and cash flows. The Company has golf operations consisting of two 18-hole golf courses in Daytona Beach, Florida, with a food and beverage operation, and club membership operations. A third party manages and staffs these operations on behalf of the Company. Since its inception the golf operation has generated negative cash flows. In 2011, the Company recognized an impairment of approximately \$4.0 million on the long-lived assets of the golf operations. The results of operations from the golf operations are subject to the typical execution risks inherent with many golf, retail and club operations including, but not limited to: maintenance, merchandising, pricing, customer service, competition, consumer preferences and behavior, safety, compliance with various federal, state and local laws, ordinances and regulations, environmental contamination, weather conditions, or other trends in the local market. Although the negative cash flows generated by the golf operations decreased substantially in 2014, any one of these execution risk factors could negatively impact the golf operations and thereby adversely impact the Company's results of operations and cash flows.

Competition, seasonality and market conditions relating to golf operations could adversely affect our operating results. Our golf operations face competition from similar golf operations in the surrounding areas. Any new competition from golf operations that are developed close to our existing golf operations also may adversely impact the results of our golf operations. Our golf operations are also subject to changes in market conditions, such as population trends and changing demographics, any of which could adversely affect results of operations. In addition, our golf operations may suffer if the economy weakens, if the popularity of golf decreases, or if unusual weather conditions or other factors cause a reduction in rounds played. Our golf operations are seasonal, primarily due to the impact of the winter tourist season and Florida's summer heat and rain. Should any of these factors impact our golf operations unfavorably our financial condition, results of operations and cash flows would be impacted adversely.

The revenues from our golf operations depend on a third-party operator that we do not control. We currently utilize a third-party to manage and operate our golf operations. As a result, we do not directly implement operating business decisions with respect to the operation and marketing of our golf operations, and personnel decisions. For our golf operations these decisions may concern course maintenance, membership programs, marketing programs, and employee matters. The amount of revenue that we generate from the golf operations is dependent on the ability of the third-party manager to maintain and increase the gross receipts from LPGA International. If the revenues from our golf operations decline or the operating expenses increase at a rate that is inconsistent with revenues our results of operations and our cash flows would be adversely affected.

Our investment strategy may involve credit risk. As part of our business strategy, we have invested in commercial loans secured by commercial real estate and will likely invest in other mortgage loans or similar financings secured by

real estate in the future. Investments in commercial loans or similar financings of real estate involve credit risk with regard to the borrower, the borrower's operations and the real estate that secures the financing. The credit risks include, but are not limited to, the ability of the borrower to execute their business plan and strategy, the ability of the borrower to sustain and/or improve the operating results generated by the collateral property, the ability of the borrower to continue as a going concern, and the risk associated with the market or industry in which the collateral property operates. Our evaluation of the investment opportunity in a mortgage loan or similar financing includes these elements of credit risk as well as other underwriting criteria and factors. Further, we may rely on third party resources to assist us in our investment process and otherwise conducting customary due diligence. Our underwriting of the investment or our estimates of credit risk may not prove to be accurate, as actual results may vary from our estimates. In the event we underestimate the performance of the borrower and/or the underlying real estate which secures our commercial loan or financing, we may experience losses or unanticipated costs regarding our investment and our financial condition, results of operations, and cash flows may be adversely impacted.

Because of competition, we may not be able to acquire commercial loans or similar financings at all or at favorable yields. We may not be able to execute our strategy of acquiring commercial loans or similar financings at favorable spreads over our borrowing costs. We compete with many other investment groups including REITs, public and private investment funds, life insurance companies, commercial and investment banks, commercial finance companies, including some of the third parties with which we expect to have relationships. In most instances the competition has greater financial capacity, larger organizations and operating presence in the market. As a result, we may not be able to acquire commercial loans or similar financings in the future at all or at favorable spreads over our borrowing costs which could adversely impact our results of operations and cash flows and would likely result in the need for any growth in our portfolio of income-producing assets to be achieved through the acquisition of income properties.

Table of Contents

Debt and preferred equity investments could cause us to incur expenses, which could adversely affect our results of operations. We currently own, or may own in the future, investments in first mortgages, mezzanine loans, junior participations and preferred equity interests. Such investments may or may not be recourse obligations of the borrower and are not insured or guaranteed by governmental agencies or otherwise. In the event of a default under these obligations, we may have to take possession of the collateral securing these interests including through foreclosure proceedings. Borrowers may contest enforcement of foreclosure or our other remedies, and may seek bankruptcy protection to potentially block our actions to enforce their obligations to us. Relatively high loan-to-value ratios and declines in the value of the underlying collateral property may prevent us from realizing an amount equal to our investment upon foreclosure or realization even if we make substantial improvements or repairs to the underlying real estate in order to maximize such property's investment potential.

As appropriate, we will maintain and regularly evaluate financial reserves to properly accrue for potential future losses. Our reserves would reflect management's judgment of the probability and severity of losses and the value of the underlying collateral. We cannot be certain that our judgment will prove to be correct and that our reserves, if any, will be adequate over time to protect against future losses due to unanticipated adverse changes in the economy or events adversely affecting specific properties, assets, tenants, borrowers, industries in which our tenants and borrowers operate or markets in which our tenants and borrowers, or their properties are located. If we are unable to enforce our contractual rights, including but not limited to, taking possession of the collateral property in a foreclosure circumstance, or our reserves for credit losses prove inadequate, we could suffer losses which would have a material adverse effect on our financial condition, results of operations, and cash flows.

The mezzanine loan assets that we expect to acquire will involve greater risks of loss than senior loans secured by income-producing properties. We may acquire mezzanine loans, which generally take the form of subordinated loans secured by the underlying property or loans secured by a pledge of the ownership interests of either the entity owning the property or a pledge of the ownership interests of the entity that owns the interest in the entity owning the property. These types of assets involve a higher degree of risk than senior mortgage lending secured by income-producing real property, because the loan may become unsecured as a result of foreclosure by the senior lender. In the event of a bankruptcy of the entity providing the pledge of its ownership interests as security, we may not have full recourse to the assets of such entity, or the assets of the entity may not be sufficient to satisfy our mezzanine loan. If a borrower defaults on our mezzanine loan or the debt that is senior to our loan, or in the event of a borrower bankruptcy, our mezzanine loan will only be satisfied after the senior debt has been satisfied. As a result, we may not recover some or all of our initial investment. In addition, mezzanine loans may have higher loan-to-value ratios than conventional mortgage loans, resulting in less equity in the property and increasing the risk of loss of principal. Significant losses related to our mezzanine loans would result in operating losses for us and could adversely impact our financial condition and cash flows.

We may invest in fixed-rate loan investments, and an increase in interest rates may adversely affect the value of these investments, which could adversely impact our financial condition, results of operations and cash flows. Increases in interest rates may negatively affect the market value of our investments, particularly any fixed-rate commercial loans or other financings we have invested in. Generally any fixed-rate commercial loans or other financings will be more negatively affected by rising interest rates than adjustable-rate assets. We are required to reduce the book value of our investments by the amount of any decrease in their fair value. Reductions in the fair value of our investments could decrease the amounts we may borrow to purchase additional commercial loan or similar financing investments, which could impact our ability to increase our operating results and cash flows. Furthermore, if our borrowing costs are rising while our interest income is fixed for the fixed-rate investments, the spread between our borrowing costs and the fixed-rate we earn on the commercial loans or similar financing investments will contract or could become negative which would adversely impact our financial condition, results of operations, and cash flows.

The commercial loans or similar financings we expect to acquire that are secured by commercial real estate typically depend on the ability of the property owner to generate income from operating the property. Failure to do so may result in delinquency and/or foreclosure. Commercial loans are secured by commercial property and are subject to risks of delinquency and foreclosure and therefore the risk of loss. The ability of a borrower to repay a loan secured by an income-producing property typically is dependent primarily upon the successful operation of such property rather than upon the existence of independent income or assets of the borrower. If the net operating income of the property is reduced, the borrower's ability to repay the loan may be impaired. In the event of any default under a commercial loan held directly by us, we will bear a risk of loss of principal to the extent of any deficiency between the value of the collateral and the principal and accrued interest of the commercial loan, which could have a material adverse effect on our financial condition, operating results and cash flows. In the event of the bankruptcy of a commercial loan borrower, the mortgage loan to such borrower will be deemed to be secured only to the extent of the value of the underlying collateral at the time of bankruptcy (as determined by the bankruptcy court), and the lien securing the loan will be subject to the avoidance powers of the bankruptcy trustee or debtor-in-possession to the extent the lien is unenforceable under state law. Foreclosure of a loan can be an expensive and lengthy process, which could have a substantial negative effect on our anticipated return on the foreclosed commercial loan. If the borrower is unable to repay a mortgage loan or similar financing our inability to foreclose on the asset in a timely manner, and/or our inability to obtain value from reselling or otherwise disposing of the asset for an amount equal to our investment basis would adversely impact our financial condition, results of operations, and cash flows.

Table of Contents

The activities or actions of a third party servicer engaged to service our investment in a commercial loan or similar debt financing could adversely impact the value of our investment or our results of operations and cash flows. Our investments in first mortgages, mezzanine loans or other debt financings secured by real estate may require a third party servicer to service the loan on our behalf and/or on behalf of third parties who have invested in some portion of the debt financing. An intended or unintended breach by the servicer with regard to their servicing of the debt financing or in their contractual obligations and fiduciary duties to us or the other holders of the debt financing could adversely impact the value of our investment or our results of operations and cash flows.

We may suffer losses when a borrower defaults on a loan and the underlying collateral value is less than the amount due. If a borrower defaults on a non-recourse loan, we will only have recourse to the real estate-related assets collateralizing the loan. If the underlying collateral value is less than the loan amount, we will suffer a loss. Conversely, some of our commercial loans may be unsecured or are secured only by equity interests in the borrowing entities. These loans are subject to the risk that other lenders in the capital stack may be directly secured by the real estate assets of the borrower or may otherwise have a superior right to repayment. Upon a default, those collateralized lenders would have priority over us with respect to the proceeds of a sale of the underlying real estate. In cases described above, we may lack control over the underlying asset collateralizing our loan or the underlying assets of the borrower before a default, and, as a result, the value of the collateral may be reduced by acts or omissions by owners or managers of the assets. In addition, the value of the underlying real estate may be adversely affected by some or all of the risks referenced above with respect to our owned real estate.

Some of our commercial loans may be backed by individual or corporate guarantees from borrowers or their affiliates which are not secured. If the guarantees are not fully or partially secured, we typically rely on financial covenants from borrowers and guarantors which are designed to require the borrower or guarantor to maintain certain levels of creditworthiness. Where we do not have recourse to specific collateral pledged to satisfy such guarantees or recourse loans, we will only have recourse as an unsecured creditor to the general assets of the borrower or guarantor, some or all of which may be pledged as collateral for other lenders. There can be no assurance that a borrower or guarantor will comply with its financial covenants, or that sufficient assets will be available to pay amounts owed to us under our loans and guarantees. As a result of these factors, we may suffer additional losses which could have a material adverse effect on our financial performance.

Upon a borrower bankruptcy, we may not have full recourse to the assets of the borrower to satisfy our loan. Additionally, in some instances, our loans may be subordinate to other debt of certain borrowers. If a borrower defaults on our loan or on debt senior to our loan, or a borrower files for bankruptcy, our loan will be satisfied only after the senior debt receives payment. Where debt senior to our loan exists, the presence of inter-creditor arrangements may limit our ability to amend our loan documents, assign our loans, accept prepayments, exercise our remedies (through standstill periods), and control decisions made in bankruptcy proceedings. Bankruptcy and borrower litigation can significantly increase collection costs and the time needed for us to acquire title to the underlying collateral (if applicable), during which time the collateral and/or a borrower's financial condition may decline in value, causing us to suffer additional losses.

If the value of collateral underlying a loan declines, or interest rates increase during the term of a loan, a borrower may not be able to obtain the necessary funds to repay our loan at maturity through refinancing because the underlying property revenue cannot satisfy the debt service coverage requirements necessary to obtain new financing. If a borrower is unable to repay our loan at maturity, we could suffer additional loss which may adversely impact our financial performance.

As a result of any of the above factors or events, the losses we may suffer could adversely impact our financial condition, results of operations and cash flows.

The Company may be unable to obtain debt or equity capital on favorable terms, if at all, or additional borrowings may impact our liquidity. We may seek to obtain additional debt financing or raise equity capital and may be unable to do so on favorable terms, if at all, to further our business objectives. We may obtain unsecured debt financing in addition to our credit facility which could decrease our borrowing capacity on the credit facility. Capital that may be available may be materially more expensive or available under terms that are materially more restrictive than the Company's existing debt capital, which would have an adverse impact on the Company's business, financial condition, results of operations, and cash flows.

An increase in our borrowing costs would adversely affect our financial condition and results of operations. While we have no short-term maturities in our long-term debt, should we seek to utilize additional debt to help finance our acquisitions, increased interest rates would reduce the difference, or spread, that we may earn between the yield on the investments we make and the cost of the leverage we employ to finance such investments. It is possible that the spread on investments could be reduced to a point at which the profitability from investments would be significantly reduced or eliminated entirely. This would adversely affect our returns on our assets, our financial condition, our results of operations, and cash flows and could require us to liquidate certain or all of these assets.

Table of Contents

The Company's revolving credit facility and secured financings include certain financial and/or other covenants that could restrict its operating activities, and the failure to comply with such covenants could result in a default that accelerates the required payment of such debt. As of December 31, 2014, the Company had approximately \$43.5 million of outstanding indebtedness under the revolving credit facility and \$60.4 million of secured debt. The revolving credit facility contains various restrictive covenants which include, among others, a maximum total indebtedness and limits on the repurchase of the Company's stock and similar restrictions. In addition, the revolving credit facility contains certain financial covenants pertaining to debt service coverage ratios, maximum levels of investment in certain types of assets, the number and make-up of the properties in the borrowing base and similar covenants typical for this type of indebtedness. The Company's secured indebtedness generally contains covenants regarding debt service coverage ratios. The Company's ability to meet or maintain compliance with these and other debt covenants may be dependent on the performance by the Company's tenants under their leases. The Company's failure to comply with certain of its debt covenants could result in a default that may, if not cured, accelerate the payment under such debt and limit the Company's available cash flow for acquisitions, dividends, or operating costs, which would likely have a material adverse impact on the Company's financial condition, results of operations, and cash flows. In addition, these defaults could impair the Company's access to the debt and equity markets.

Declines in value of the assets in which we invest will adversely affect our financial condition and results of operations, and make it more costly to finance these assets. Generally, we use our income property investments as collateral for our financings or as the borrowing base for our credit facility. Any decline in their value, or perceived market uncertainty about their value, could make it difficult for us to obtain or renew financing on favorable terms or at all, or maintain our compliance with terms of any financing arrangements already in place.

Our operations could be negatively impacted by the loss of key management personnel. We believe our future success depends, to a significant extent, on the efforts of each member of the Company's senior management and our ability to attract and retain key personnel. The loss of, or our inability to replace, any member of senior management could adversely affect our operations and our ability to execute our business strategies and thereby our financial condition, results of operations and cash flows. We maintain key man insurance on our chief Executive Officer, but we do not have key man life insurance policies on the other members of our senior management.

Our operations and properties could be adversely affected in the event of a hurricane, earthquake, natural disaster, or other significant disruption. Our corporate headquarters and many of our properties are located in Florida, where major hurricanes have occurred. We have income properties in southern California where earthquakes have occurred. Depending on where any particular hurricane makes landfall, our properties in Florida could experience significant damage. Similarly, should an earthquake occur in southern California, our properties there could incur significant damage. In addition, the occurrence and frequency of hurricanes in Florida could also negatively impact demand for our real estate assets because of consumer perceptions of hurricane risks. In addition to hurricanes, the occurrence of other natural disasters and climate conditions in Florida, such as tornadoes, floods, fires, unusually heavy or prolonged rain, droughts and heat waves, could have an adverse effect on our ability to develop properties or realize income from our properties. If a hurricane, earthquake, natural disaster or other similar significant disruption occurs, we may experience disruptions to our operations and damage to our properties, which could have an adverse effect on our business, our financing condition, our results of operations, and our cash flows.

Uninsured losses may adversely affect the Company's ability to pay outstanding indebtedness. The Company's income-producing properties are generally covered by comprehensive liability, fire, and extended insurance coverage, typically paid by the tenant under the triple-net and double-net lease structure. The Company believes that the insurance carried on its properties is adequate and in accordance with industry standards. There are, however, types of losses (such as from hurricanes, earthquakes, or other types of natural disasters or wars or other acts of violence) which may be uninsurable or the cost of insuring against these losses may not be economically justifiable. If an

uninsured loss occurs or a loss exceeds policy limits, the Company could lose both its invested capital and anticipated revenues from the property, thereby reducing the Company's cash flow, impairing the value of the income property and adversely impacting the Company's financial condition and results of operations.

Acts of violence, terrorist attacks or war may affect the markets in which the Company operates and adversely affect the Company's results of operations and cash flows. Terrorist attacks or other acts of violence may negatively affect the Company's operations. There can be no assurance that there will not be terrorist attacks against businesses within the United States. These attacks may directly impact the Company's physical assets or business operations or the financial condition of its tenants, lenders or other institutions with which the Company has a relationship. The United States may be engaged in armed conflict, which could have an impact on these parties. The consequences of armed conflict are unpredictable, and the Company may not be able to foresee events that could have an adverse effect on its business. More generally, the occurrence of any of these events or the threat of these events, could cause consumer confidence and spending to decrease or result in increased volatility in the United States and worldwide financial markets and economies. They also could result in, or cause a deepening of, the economic recession in the United States or abroad. Any of these occurrences could have an adverse impact on the Company's financial condition, results of operations or cash flows.

Table of Contents

We are highly dependent on information systems and certain third-party technology service providers, and systems failures not related to cyber-attacks or similar external attacks could significantly disrupt our business, which may, in turn, negatively affect the market price of our common stock and adversely impact our results of operations and cash flows. Our business is highly dependent on communications and information systems. Any failure or interruption of our systems or our networks could cause delays or other problems in our operations and communications. We rely heavily on our financial, accounting and other data processing systems. In addition, much of our information technology infrastructure is or may be managed or run by third parties and as such we also face the risk of operational failure, termination or capacity constraints by any of these third parties with which we do business or that facilitate our business activities. It is difficult to determine what, if any, negative impact may directly result from any specific interruption or disruption of our networks or systems or any failure to maintain performance, reliability and security of our technical infrastructure but significant events impacting our systems or networks could have a material adverse effect on our operating results and cash flows and negatively affect the market price of our common stock.

Cybersecurity risks and cyber incidents could adversely affect the Company's business and disrupt operations.

Cyber incidents can result from deliberate attacks or unintentional events. These incidents can include, but are not limited to, gaining unauthorized access to digital systems for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. The result of these incidents could include, but are not limited to, disrupted operations, misstated financial data, liability for stolen assets or information, increased cybersecurity protection costs, litigation and reputational damage adversely affecting customer or investor confidence. Should any such cyber incidents or similar events occur, the Company's assets, particularly cash could be lost and the Company's ability to execute its business and strategy, thereby, its financial condition, results of operations, and cash flows may be adversely affected.

Land use and environmental regulations could restrict, make more costly, or otherwise adversely impact our business.

We are subject to a wide variety of federal, state, and local laws and regulations relating to land use, and development and permitting and environmental compliance obligations. Any failure to comply with these laws or regulations could result in capital or operating expenditures or the imposition of significant financial penalties or restrictions on our operations that could adversely affect present and future operations or our ability to sell land, and thereby, our financial condition, results of operations, and cash flows. Municipalities may restrict or place moratoriums on the availability of utilities, such as water and sewer. Additionally, development moratoriums may be imposed due to among other possibilities an over capacity of traffic on roads. In some areas, municipalities may enact growth control initiatives, which will restrict the number of building permits available in a given year. If municipalities in which we own land take actions such as those outlined, acquirers of our land assets may experience delays, increasing costs, or limitations in the ability to operate in those municipalities, which may have an adverse impact on our financial condition, results of operations, and cash flows.

We may encounter environmental problems which require remediation or the incurrence of significant costs to resolve which could adversely impact our financial condition, results of operations, and cash flows.

Under various federal, state and local laws, ordinances and regulations, we may be required to investigate and clean up certain hazardous or toxic substances released on or in properties we own or operate or that we owned or operated in our history, and also may be required to pay other costs relating to hazardous or toxic substances or incur costs or obligations associated with wetland areas on our land holdings. Any such liability may be imposed without regard to whether we knew about the origination of the environmental or wetland issues or were responsible for their occurrence. The presence of environmental issues or the failure to remediate properly any such losses at any of our properties or on our land holdings may adversely affect our ability to sell or lease those properties or, to borrow using those properties as collateral. The costs or liabilities could exceed the value of the affected real estate. The costs or liabilities associated with resolving environmental or wetland issues could be significant.

The uses of any of our properties prior to our acquisition of the property and the building materials used at the property are among the property-specific factors that will affect how the environmental laws are applied to our properties. In general, before we acquire our income properties, independent environmental consultants are engaged to conduct Phase I environmental assessments, which generally do not involve invasive techniques such as soil or ground water sampling. Based on the Phase I results, we may conduct Phase II environmental assessments which do involve this type of sampling. There can be no assurance that environmental liabilities have not developed since these environmental assessments were prepared or that future uses or conditions (including changes in applicable environmental laws and regulations) or new information about previously unidentified historical conditions will not result in the imposition of environmental liabilities.

If we are subject to any material costs or liabilities associated with environmental or wetland issues our financial condition, results of operations and our cash flows could be adversely affected.

Under the Americans with Disabilities Act of 1990, all public accommodations and commercial facilities must meet certain federal requirements related to access and use by disabled persons, compliance with which may be costly. Compliance with the ADA requirements could involve modifications to our income properties or golf operations. Other federal, state and local laws may require modifications to or restrict further renovations of our income properties or golf operations. Although we believe that our income properties and golf operation facilities are sufficiently in compliance with present requirements, noncompliance with the ADA or related laws or regulations could result in the imposition of fines by the United States Government or in the award to private litigants of damages against us. Costs such as these, as well as the general costs of compliance with these laws or regulations, may adversely affect our financial condition, results of operations, and cash flows.

Table of Contents

Compliance with proposed and recently enacted changes in securities laws and regulations increases our costs. The Dodd-Frank Act contains many regulatory changes and calls for future rulemaking that may affect our business. The final and complete set of regulations promulgating the Dodd-Frank Act has not yet been published. We are evaluating, and will continue to evaluate the potential impact of regulatory change under the Dodd-Frank Act and other changes in securities laws and regulations.

The market value of the Company's common stock is subject to various factors that may cause significant fluctuations or volatility. As with other publicly traded securities, the market price of the Company's common stock depends on various factors, which may change from time-to-time and/or may be unrelated to the Company's financial condition, results of operations, or cash flows and such factors may cause significant fluctuations or volatility in the market price of the Company's common stock. These factors include, but are likely not limited to, the following:

General economic and financial market conditions including a weak economic environment;

Level and trend of interest rates;

The Company's ability to access the capital markets to raise additional debt or equity capital;

Changes in the Company's cash flows or results of operations;

The Company's financial condition and performance;

Market perception of the Company compared to other real estate companies;

Market perception of the real estate sector compared to other investment sectors; and

Volume of average daily trading and the amount of the Company's shares available to be traded.

The Company's failure to maintain effective internal control over financial reporting could have a material adverse effect on its business, operating results, and share price. Section 404 of the Sarbanes-Oxley Act of 2002 (SOX) as amended or modified from time to time, requires annual management assessments of the effectiveness of the Company's internal control over financial reporting. If the Company fails to maintain the adequacy of its internal control over financial reporting, the Company may not be able to ensure that it can conclude on an ongoing basis that it has effective internal control over financial reporting and therefore would likely not be in compliance with SOX. An effective system of internal controls over financial reporting, particularly those related to revenue recognition, are necessary for the Company to prepare and produce reliable financial reports and to maintain its qualification as a public company and are important in helping to prevent financial fraud. If the Company cannot provide reliable financial reports or prevent fraud, its business and operating results could be harmed, qualification as a public company listed on the New York Stock Exchange MKT, or the NYSE MKT, could be jeopardized, investors could lose confidence in the Company's reported financial information, and the market price of the Company's shares could

drop significantly.

The termination of the Company's defined benefit pension plan requires final regulatory compliance which may have an adverse effect on our financial condition and cash flows. As of December 31, 2014 the Company had terminated its defined benefit pension plan with an effective date of the termination of March 31, 2014. The process for finalizing the termination of the pension plan includes compliance with regulatory review by the IRS. The resolution of the compliance process with the IRS may require the Company to make additional contributions to the plan which could adversely impact our financial condition and cash flows.

The Company's ability to pay dividends in the future is subject to many factors. The Company has consistently paid a dividend since 1976. The Company's ability to continue to pay dividends may be adversely impacted if any of the risks described in this section were to occur. Payment of the Company's dividend depends upon the Company's financial condition, results of operations, and cash flows.

ITEM 1B. UNRESOLVED STAFF COMMENTS

NONE

ITEM 2. PROPERTIES

As of December 31, 2014, the Company owns the following properties: i) land holdings of over 10,500 acres in the Daytona Beach area of Volusia County; ii) thirty-six single-tenant retail buildings located in Arizona, California, Colorado, Florida, Georgia, Illinois, Maryland, North Carolina, Texas, and Washington; iii) seven multi-tenant properties located in Florida, five of which were self-developed and are located in Daytona Beach, Florida; and iv) full or fractional subsurface oil, gas, and mineral interests of approximately 490,000 surface acres in 20 counties in Florida.

Table of Contents

ITEM 3.LEGAL PROCEEDINGS

From time to time, the Company may be a party to certain legal proceedings, incidental to the normal course of our business. While the outcome of the legal proceedings cannot be predicted with certainty, the Company does not expect that these proceedings will have a material effect upon our financial condition or results of operations.

In September 2010, St. Johns River Water Management District (the District) served the Company with an administrative complaint filed with the Florida Division of Administrative Hearings in connection with certain Company agricultural operations. In August 2012, the Company submitted a proposed settlement offer to the District, offering certain undeveloped acreage owned by the Company. The Company accrued a reserve equal to \$611,691 in the quarter ended September 30, 2012, reflecting the Company's carrying value of the acreage offered to settle the matter. In December 2012, the Company and the District executed a settlement agreement (SJRWMD Agreement) in which the Company agreed to submit an after-the-fact permit application and increased the undeveloped acreage offered for mitigation in connection with the permit. The Company adjusted the reserve to a total of \$723,058 to reflect the increased acreage offered in the SJRWMD Agreement. The SJRWMD Agreement was contingent upon the Company and the District reaching agreement on a management fee and issuance of the permit. The Company submitted its permit application on January 28, 2013. In March 2013 the Company conveyed the acreage contemplated by the SJRWMD Agreement, the District issued the after-the-fact permit and the litigation was settled.

On November 21, 2011, the Company, Indigo Mallard Creek LLC and Indigo Development LLC, as owners of the property leased to Harris Teeter, Inc. (Harris Teeter) in Charlotte, North Carolina, were served with pleadings filed in the General Court of Justice, Superior Court Division for Mecklenburg County, North Carolina, for a highway condemnation action involving the property. The proposed road modifications would impact access to the Company's property that is leased to Harris Teeter. The Company does not believe the road modifications provided a basis for Harris Teeter to terminate the Lease. Regardless, in January 2013, NCDOT proposed to redesign the road modifications to keep the all access intersection open for ingress with no change to the planned limitation on egress to the right-in/right-out only. Additionally, NCDOT and the City of Charlotte proposed to build and maintain a new access road/point into the property. Both government entities have confirmed that funding is available and the redesigned project is proceeding. Harris Teeter has expressed satisfaction with the redesigned project and indicated that it will not attempt to terminate its lease if this project is built as currently redesigned. Because the redesigned project will not be completed until 2016, the condemnation case has been placed in administrative closure. As a result, the trial and mediation will not likely be scheduled until requested by the parties, most likely in 2016.

In May 2010, the Company filed a lawsuit in the Circuit Court, Seventh Judicial Circuit, in and for Volusia County, Florida (Circuit Court), in order to enforce its approximate \$3.8 million claim of lien on real property owned by FM Bayberry Cove Holding, LLC (FM Bayberry) for its share of the costs for construction of a road. BB&T was included as a defendant as the current mortgage holder of the property subject to the Company's lien. BB&T filed a counterclaim asserting that its mortgage is superior to the Company's claim of lien which the Company denied. BB&T and the Company each filed motions for summary judgment as to the priority of their respective interests in the property which were heard by the court on January 12, 2012. The Circuit Court determined that the Company's interests were superior to the lien imposed by BB&T and a final judgment was subsequently entered. However, all further proceedings in the Circuit Court (including the foreclosure sale) were stayed pending BB&T's appeal to the Florida District Court of Appeal (Appellate Court), Fifth District regarding the Circuit Court's determination in the matter of priority. On October 29, 2013, the Appellate Court affirmed the Circuit Court's determination that the Company's lien against the approximately 600-acre parcel of residential land (lying west of I-95 near the LPGA International development and adjacent to Bayberry Colony) is superior to the lien imposed by BB&T. On December 3, 2013, the Circuit Court entered a Second Amended Final Judgment of Foreclosure in Accordance with the Appellate Court's Mandate, which, among other things, set the date of the Company's foreclosure sale to occur on January 29, 2014. On January 29, 2014, the Company's approximately \$4.7 million claim for unreimbursed costs and

accrued interest was satisfied through the successful foreclosure of approximately 600 acres of land.

COMMON STOCK PRICES AND DIVIDENDS**

The Company's common stock trades on the NYSE MKT under the symbol CTO. The Company has paid dividends on a continuous basis since 1976, the year in which its initial dividends were paid. The following table summarizes aggregate annual dividends, which are paid semi-annually, per share over the two years ended December 31, 2014:

2014	\$ 0.07
2013	\$ 0.06

The level of future dividends will be subject to an ongoing review of the Company's operating results and financial position, and among other factors, the overall economy with an emphasis on our local real estate market and our capital needs.

Indicated below are high and low sales prices of our stock for each full quarter within the last two fiscal years. All quotations represent actual transactions.

	2014		2013	
	High	Low	High	Low
	\$	\$	\$	\$
First Quarter	41.17	33.11	39.99	31.16
Second Quarter	48.63	36.92	40.28	35.35
Third Quarter	60.82	43.62	42.46	35.77
Fourth Quarter	57.29	44.03	38.59	35.59

The number of shareholders of record as of February 20, 2015 (without regard to shares held in nominee or street name) was 409.

Table of Contents**STOCK PERFORMANCE GRAPH****COMPARISON OF 5-YEAR CUMULATIVE TOTAL RETURN*****Among Consolidated-Tomoka Land Co., the NYSE MKT Composite Index, and a Peer Group**

The following performance graph shows a comparison of cumulative total shareholder return from a \$100 investment in stock of the Company over the five-year period ending December 31, 2014, with the cumulative shareholder return of the NYSE MKT Composite Index, a Real Estate Industry Index provided by Research Data Group that consists of Agree Realty Corp., Forestar Group Inc., Tejon Ranch Company, The St. Joe Company, and Gramercy Property Trust Inc. (collectively the Peer Group). The Company adjusted its Peer Group in 2013, and therefore the performance graph disclosures, because the Company believes the Peer Group reflects a mix of public companies that is reasonably comparable to the businesses of the Company, including the investment in and operation of income-producing properties, real estate operations including land management, and subsurface interests.

ISSUER REPURCHASES OF EQUITY SECURITIES

On April 26, 2012, the Company announced a voluntary Odd-Lot Buy-Back Program (the Program), whereby the Company offered to purchase shares from shareholders who owned less than 100 shares of the Company's common stock as of April 26, 2012 for \$31.00 per share. The Program reflected the Company's interest in reducing the ongoing costs associated with shareholder record keeping and communications and to assist shareholders who may be deterred from selling their small lots of stock due to the costs that would be incurred. The Company paid all costs associated with the Program and purchased 14,634 shares under the Program at a total cost of approximately \$454,000. The Program expired June 30, 2012. The Company did not provide any recommendation regarding shareholder participation and the decision was entirely that of each shareholder as to whether to sell shares in this Program.

Table of Contents

In November 2008, the Company's Board of Directors authorized the Company to repurchase from time to time up to \$8 million of its common stock. There is no expiration date for the repurchase authorization. The Company repurchased 4,660 shares of its common stock at a cost of approximately \$105,000 through December 31, 2013. During 2014, the Company repurchased an additional 25,836 shares of its common stock on the open market for a total cost of approximately \$928,000 and placed those shares in treasury. None of the 2014 repurchases occurred during the quarter ended December 31, 2014. Pursuant to a covenant in our credit facility, which includes the Odd-Lot Buy-Back Program as part of our stock repurchase capacity, the maximum approximate dollar value of shares that may yet be purchased under the plan or program was approximately \$6.5 million as of December 31, 2014.

ITEM 6. SELECTED FINANCIAL DATA

The following table summarizes our selected historical financial information for each of the last five fiscal years. The selected financial information has been derived from our audited Consolidated Financial Statements. Additional data for fiscal years 2014, 2013, and 2012 is included elsewhere in this report.

The following selected financial data should be read in conjunction with the Company's Consolidated Financial Statements and Notes along with Management's Discussion and Analysis of Financial Condition and Results of Operations included elsewhere in this report.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW

Forward-Looking Statements

When the Company uses any words such as anticipate, assume, believe, estimate, expect, intend, or similar expressions, the Company is making forward-looking statements. Although management believes that the expectations reflected in such forward-looking statements are based upon present expectations and reasonable assumptions, the Company's actual results could differ materially from those set forth in the forward-looking statements. Certain factors or risks that could cause actual results or events to differ materially from those the Company anticipates or projects are described in Item 1A. Risk Factors of this Annual Report on Form 10-K. Given these uncertainties, readers are cautioned not to place undue reliance on such statements, which speak only as of the date of this Annual Report on Form 10-K or any document incorporated herein by reference. The Company undertakes no obligation to publicly release any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date of this Annual Report on Form 10-K.

OVERVIEW

We are a diversified real estate operating company. We own and manage forty-three commercial real estate properties in ten states in the U.S. As of December 31, 2014, we owned thirty-six single-tenant and seven multi-tenant income-producing properties with over 1,100,000 square feet of gross leasable space. We also own and manage a land portfolio of over 10,500 acres. As of December 31, 2014, we had five commercial loan investments including a fixed-rate mezzanine commercial mortgage loan, a fixed-rate first mortgage, a variable-rate B-Note, a variable-rate mezzanine commercial mortgage loan, and a variable-rate first mortgage loan. Our golf operations consist of the LPGA International golf club, which is managed by a third party. We also lease property for twenty-one billboards, have agricultural operations that are managed by a third party, which consists of leasing land for hay and sod production, timber harvesting, and hunting leases, and own and manage subsurface interests. The results of our agricultural and subsurface leasing operations are included in Agriculture and Other Income and Real Estate Operations, respectively, in our consolidated statements of operations.

Income Property Operations. We have pursued a strategy of investing in income-producing properties, when possible, by utilizing the proceeds from real estate transactions qualifying for income tax deferral through like-kind exchange treatment for tax purposes. During the year ended December 31, 2014, we acquired the following four income properties, two single-tenant and two multi-tenant, at a total acquisition cost of approximately \$42.2 million:

On April 22, 2014, the Company acquired a 131,644 square-foot free-standing building, situated on 15.48 acres in Katy, Texas, which is leased to Lowe's Home Improvement. The total purchase price was approximately \$14.7 million, and as of the acquisition date, the remaining term of the lease was approximately 13 years;

On July 17, 2014, the Company acquired a 52,665 square-foot building situated on approximately 7 acres in Daytona Beach, Florida, which is leased to American Signature Furniture. The purchase price was approximately \$5.3 million, and as of the acquisition date, the remaining term of the lease was approximately 6 years. The property is located within an approximately 250,000 square-foot retail shopping center anchored by Best Buy, PetSmart and Barnes & Noble. The Company also owns the property leased to Barnes & Noble;

On October 7, 2014, the Company acquired a 59,341 square-foot retail center spanning two city blocks, in Sarasota Florida, which is anchored by a 36,000 square-foot Whole Foods Market retail grocery store. The center also has approximately 23,000 square-feet of additional retail space including a Starbucks retail store, and a three level parking garage. The total purchase price was \$19.1 million, and as of the acquisition date, the weighted average remaining term of the leases was approximately 7 years; and

On December 30, 2014, the Company acquired a 112,292 square-foot retail shopping center comprised of two parcels on over 14 acres of land located in Winter Park, Florida as a redevelopment opportunity. The total purchase price was \$3.1 million, and as of the acquisition date, the majority of the current tenants were under short term leases. As part of the redevelopment activities planned for this property, the Company will likely terminate the majority of the leases.

Our current portfolio of thirty-six single-tenant income properties generates approximately \$13.3 million of revenues from lease payments on an annualized basis and has a weighted average remaining lease term of 9.3 years as of December 31, 2014. Our current portfolio of seven multi-tenant properties generates approximately \$2.4 million of revenue from lease payments on an annualized basis and has a weighted average remaining lease term of 5.1 years as of December 31, 2014.

We expect to continue to focus on acquiring income-producing properties during fiscal year 2015, and in the near term thereafter, maintaining our use of the aforementioned tax deferral structure whenever possible.

Table of Contents

As part of our overall strategy for investing in income-producing investments, we have self-developed five of our multi-tenant properties in Daytona Beach, Florida. The first self-developed property, located at the northeast corner of LPGA and Williamson Boulevards in Daytona Beach, Florida, is an approximately 22,000 square foot, two-story, building, known as the Concierge Office Building, which was 100% leased as of December 31, 2014. The second two properties, known as the Mason Commerce Center, consists of two buildings totaling approximately 31,000 square-feet (15,360 each), which was approximately 94% leased as of December 31, 2014. During the year ended December 31, 2014, construction was completed on two additional properties, known as the Williamson Business Park, which are adjacent to the Mason Commerce Center. Williamson Business Park consists of two buildings totaling approximately 31,000 square-feet (15,360 each), which was approximately 25% leased as of December 31, 2014.

Our focus on acquiring income-producing investments includes a continual review of our existing income property portfolio to identify opportunities to recycle our capital through the sale of income properties based on, among other possible factors, the current or expected performance of the property and favorable market conditions. Pursuant to our on-going review, one property was sold in 2014. We intend to deploy all of the proceeds from the sale through the like-kind exchange structure, in our acquisition of the multi-tenant property in Sarasota, Florida. The Company anticipates that future investments in income-producing assets could use the proceeds from selling non-core properties, utilizing the tax-deferred like-kind exchange structure, as circumstances permit.

Real Estate Operations. As of December 31, 2014, the Company owned over 10,500 acres of land in Daytona Beach, Florida, along six miles of the west and east side of Interstate 95. Presently, the majority of this land is used for agricultural purposes. Approximately 1,400 acres of our land holdings are located on the east side of Interstate 95 and are generally well suited for commercial development. The remainder of our land holdings are located on the west side of Interstate 95 and the majority of this land is generally well suited for residential development or industrial purposes. Included in the western land is approximately 900 acres which are located further west of Interstate 95 and a few miles north of Interstate 4 and this land is generally well suited for industrial purposes.

Until the significant downturn in the U.S. economy in 2008, the Company's land transaction activity had been reasonably strong in the preceding several years. During 2009, however, land transactions decreased significantly, and in fiscal years 2010 and 2011, there were effectively no land transactions. We believe the trend in Company revenues and income from real estate operations during this period were consistent with the overall trend of the national and local economies and the real estate markets in general. Over the last several years, roads and interstate overpasses have been constructed, extended, or improved in the Daytona Beach area, which we believe will benefit Company owned land and may have a positive impact on future activity of our land assets. In the second quarter of 2012, we completed the sale of 16.6 acres of industrial land west of Interstate 95 at a price of approximately \$618,000 or \$37,000 per acre. The gain on the sale of this land totaled approximately \$573,000. In 2013, we completed three land transactions of approximately 11.66 acres for total proceeds of approximately \$3.0 million or approximately \$257,000 per acre, of which two parcels totaling approximately 5.43 acres were east and 6.23 acres were west of Interstate 95. The total loss on these sales equaled approximately \$679,000, with two transactions totaling approximately 9.6 acres resulting in an aggregate loss of approximately \$1.3 million and the third transaction for approximately 2.02 acres resulting in a gain of approximately \$581,000. In 2014, we completed three land transactions of approximately 99.66 acres for total proceeds of approximately \$8.8 million. The total gain on these transactions was approximately \$4.8 million.

The Company owns impact fee and mitigation credits with a combined total of approximately \$5.2 million and \$6.1 million as of December 31, 2014 and 2013, respectively. During the years ended December 31, 2014 and 2013, the Company received cash payments of approximately \$537,000 and \$232,000, respectively, for impact fees with a basis generally of equal value. During the year ended December 31, 2014, the Company received cash of \$389,000 for the sale of mitigation credits in conjunction with the land sale to Victor Indigo Lakes, L.L.C. with a basis of

approximately \$176,000. In addition, mitigation credits were utilized related to the 75.6 acre land sale with a basis of approximately \$127,000.

Historical revenues and income from our sale of land are not indicative of future results because of the unique nature of land transactions and variations in the cost basis of the owned land. A significant portion of the Company's revenue and income in any given year may be generated through relatively few land transactions. The timing for these land transactions, from the time of preliminary discussions through contract negotiations, due diligence periods, and the closing, can last from several months to several years. Although we believe there have been recent indications of improvement in the overall economy and credit markets, we expect the overall real estate market, particularly home building, to remain inconsistent in the near term, and as a result we believe our ability to enter into land transactions will remain challenging.

Real Estate Impairments. During the year ended December 31, 2014, the Company did not recognize any impairment of its land holdings. During the year ended December 31, 2013, the Company conducted an impairment analysis on 6.23 acres of land in Daytona Beach, Florida, which had been reacquired through a foreclosure in 2009.

Approximately 3.21 of these acres were subject to a sales contract that was executed during the second quarter of 2013 which we deemed highly probable of closing. Although the transaction was subsequently terminated prior to closing, the analysis resulted in an impairment charge of approximately \$616,000, representing the portion of the cost basis of the property that management considered to be un-recoverable based on the land under contract and other current market prices. The 6.23 acres of land were sold under a new sales contract on December 20, 2013, resulting in an additional loss of approximately \$416,000, as more fully described in Note 5 Land and Subsurface Interests.

Table of Contents

Subsurface Interests. The Company owns full or fractional subsurface oil, gas, and mineral interests in approximately 490,000 surface acres of land owned by others in 20 counties in Florida. The Company leases its interests to mineral exploration firms for exploration. Our subsurface operations consist of revenue from the leasing of exploration rights and in some instances revenues from royalties applicable to production from the leased acreage.

During 2011, an eight-year oil exploration lease covering approximately 136,000 net mineral acres primarily located in Lee County and Hendry County, Florida was executed and an approximate \$914,000 first year rental payment was received. An additional approximate \$922,000, representing the guaranteed payment for the second year's delay rent, was received in September 2012. The two payments totaling approximately \$1.8 million have been recognized ratably into income through September 2013. On September 22, 2013, the Company entered into an amendment of the exploration lease (the Oil Lease Amendment). Under the Oil Lease Amendment, the net mineral acres under exploration lease was reduced from approximately 136,000 net mineral acres to approximately 82,000 net mineral acres in Hendry County, Florida. The approximately 54,000 net mineral acres removed from the exploration lease were located in Lee County, Florida. In connection with the Oil Lease Amendment, the Company received an approximate \$3.3 million rent payment for the third year of the Company's eight-year oil exploration lease. The payment was recognized ratably over the 12 month lease period ending in September 2014. Also during September 2013, the Company received, and recognized as revenue, a non-refundable penalty payment of \$1.0 million relating to the drilling requirements in the lease. During September 2014, the Company received an approximate \$1.9 million rent payment for the adjusted acreage of 42,000 acres for the fourth year of the Company's eight-year exploration lease, which is being recognized ratably over the 12 month lease period ending in September 2015. Also during September 2014, the Company received, and recognized as revenue, a non-refundable penalty payment of \$600,000 relating to drilling requirements in the lease. The terms of the lease state the Company will receive royalty payments if production occurs and may receive additional annual rental payments if the lease is continued in years four through eight. The lease is effectively eight one-year terms as the lessee has the option to terminate the lease annually.

Lease income generated by the Oil Lease Amendment is being recognized on a straight-line basis over the guaranteed lease term. For the years December 31, 2014, 2013, and 2012, lease income of approximately \$2.9 million, \$1.6 million, and \$919,000 was recognized, respectively. There can be no assurance that the Oil Lease Amendment will be extended beyond the expiration of the current term of September 2015 or, if renewed, on similar terms or conditions.

During the year ended December 31, 2014, the Company also received oil royalties from operating oil wells on 800 acres under a separate lease with a separate operator. Production volume from these oil wells was 64,835 barrels in 2014, 88,782 barrels in 2013 and 81,441 barrels in 2012, resulting in revenues received from oil royalties of approximately \$198,000, \$268,000 and \$287,000, respectively.

The Company's current policy is to not release any ownership rights with respect to its reserved mineral rights. The Company may release surface entry rights or other rights upon request of a surface owner who requires such a release for a negotiated release fee based on a percentage of the surface value. Cash payments for surface entry rights released totaled approximately \$4,000 and \$120,000 during the years ended December 31, 2014 and 2013, respectively, which is included in revenue from real estate operations.

During the first quarter of 2012, the Company signed an excavation agreement for fill dirt removal with up to four 9-month excavation periods and received an upfront non-refundable payment of \$250,000 for the first excavation period beginning March 2012, and ending November 30, 2012. Through December 31, 2012, the entire non-refundable payment was recognized into income. This excavation agreement was terminated after the first excavation period. In late 2013, a new excavation agreement for fill dirt removal was executed which generated revenue of approximately \$119,000 during the year ended December 31, 2014. Revenue generated from excavation of fill dirt is included in revenue from real estate operations.

Golf Operations. Golf operations consist of the LPGA International golf club, a semi-private golf club consisting of two 18-hole championship golf courses, one course designed by Rees Jones and the other course designed by Arthur Hills with a three-hole practice facility, also designed by Rees Jones, a clubhouse facility, food and beverage operations, and a fitness facility located within the LPGA International mixed-use residential community on the west side of Interstate 95 in Daytona Beach, Florida. In 2012 and 2013, we completed approximately \$534,000 of capital expenditures to renovate the clubhouse facilities, including a significant upgrade of the food and beverage operations, addition of fitness facilities, and renovations to public areas.

The Company entered into a management agreement with an affiliate of ClubCorp America (ClubCorp), effective January 25, 2012, to manage the LPGA International golf and clubhouse facilities. We believe ClubCorp, which owns and operates clubs and golf courses worldwide, brings substantial golf and club management expertise and knowledge to the LPGA International golf operations, including the utilization of national marketing capabilities, aggregated purchasing programs, and implementation of an affiliate member program, which should improve membership levels through the access to other member clubs in the affiliate program.

Table of Contents

The Company leases the land and certain improvements attributable to the golf courses under a long-term lease with the City of Daytona Beach, Florida (the "City"), which expires in 2022. In July 2012, the Company entered into an agreement with the City to, among other things, amend the lease payments under its golf course lease (the "Lease Amendment"). Under the Amendment, the base rent payment, which was scheduled to increase from \$250,000 to \$500,000 as of September 1, 2012, would remain at \$250,000 for the remainder of the lease term and any extensions would be subject to an annual rate increase of 1.75% beginning September 1, 2013. The Company also agreed to invest \$200,000 prior to September 1, 2015 for certain improvements to the facilities. In addition, pursuant to the Lease Amendment, beginning September 1, 2012, and continuing throughout the initial lease term and any extension option, the Company will pay additional rent to the City equal to 5.0% of gross revenues exceeding \$5,500,000 and 7.0% of gross revenues exceeding \$6,500,000. Since the inception of the lease, the Company has recognized the rent expense on a straight-line basis resulting in an estimated accrual for deferred rent. Upon the effective date of the Lease Amendment, the Company's straight-line rent was revised to reflect the lower rent levels through expiration of the lease. As a result, approximately \$3.0 million of the rent previously deferred will not be due to the City, and will be recognized into income over the remaining lease term. As of December 31, 2014, approximately \$2.1 million of the rent, previously deferred that will not be due to the City, remained to be amortized through September 2022.

Commercial Loan Investments. Our investment in commercial loans or similar structured finance investments, such as mezzanine loans or other subordinated debt, have been and expect to continue to be secured by commercial or residential real estate or land or a borrower's pledge of its ownership interest in the entity that owns the real estate. The first mortgage loans we typically invest in or originate are for commercial real estate, located in the United States and that are current or performing with either a fixed or floating rate. Some of these loans may be syndicated in either a pari passu or senior/subordinated structure. Commercial first mortgage loans generally provide for a higher recovery rate due to their senior position in the underlying collateral. Commercial mezzanine loans are typically secured by a pledge of the borrower's equity ownership in the underlying commercial real estate. Unlike a mortgage a mezzanine loan does not represent a lien on the property. Investor's rights in a mezzanine loan are usually governed by an intercreditor agreement that provides holders with the rights to cure defaults and exercise control on certain decisions of any senior debt secured by the same commercial property.

On August 7, 2013, the Company acquired a \$19.6 million first mortgage loan secured by an upper upscale hotel in Atlanta, Georgia, for approximately \$17.5 million, a discount of approximately \$2.05 million. The discount was being accreted into income ratably through the contractual maturity date in March 2014, which was included in Interest Income from Commercial Loan Investments in the consolidated financial statements. On January 6, 2014, the commercial mortgage loan principal of \$19.5 million was paid in full. The total revenue recognized in January 2014 is approximately \$844,000 including the remaining accretion of the purchase discount of approximately \$650,000, interest income of approximately \$36,000, and an exit fee of approximately \$195,000, offset by the remaining amortization of fees of approximately \$37,000.

On January 31, 2014, the Company acquired a mezzanine loan secured by the borrower's equity interest in an upper upscale hotel in Atlanta, Georgia, that was previously subject to the Company's first commercial loan investment. The Company purchased the \$5.0 million performing loan at par. The loan matures in February 2019, bears a fixed interest rate of 12.00% per annum, and requires payments of interest only prior to maturity. Interest revenue recognized during the year end December 31, 2014 was approximately \$558,000.

On May 16, 2014, the Company funded approximately \$3.1 million of a \$6.3 million first mortgage commitment for the redevelopment of an existing vacant retail property into a Container Store located in Glendale, Arizona, which opened on February 7, 2015. As of December 31, 2014, approximately \$5.3 million in draws were funded by the Company, leaving a remaining commitment of approximately \$1.0 million, which may be drawn by the borrower as construction costs are incurred. Construction was substantially complete as of December 31, 2014 and the Company

expects to fund the remaining commitment in the first quarter of 2015. The loan matures in November 2015, includes one nine-month extension option, bears a fixed interest rate of 6.00% per annum prior to the commencement of rent on the Container Store lease, and requires payments of interest only prior to maturity. At closing, a loan origination fee of approximately \$79,000 was received by the Company and is being accreted ratably into income through the contractual maturity date in November 2015. Total interest revenue recognized during the year ended December 31, 2014 was approximately \$161,000. Subsequent to the commencement of rent, the interest rate on our loan will be 30-day London Interbank Offer Rate (LIBOR) plus 800 basis points. Rent commenced on February 7, 2015.

On May 20, 2014, the Company acquired an approximate \$9.0 million B-Note secured by a retail shopping center located in Sarasota, Florida. The loan matures in June 2015, includes three one-year extension options, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. The loan is subordinate to an approximately \$48.0 million A-Note collateralized by the same property, for a total debt balance of \$57.0 million. Interest revenue recognized during the year ended December 31, 2014 was approximately \$416,000.

On September 30, 2014, the Company acquired a mezzanine loan secured by the borrower's equity interest in an upper upscale hotel in Dallas, Texas. The Company purchased the \$10.0 million performing loan at par. The loan matures in September 2016, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. The loan is subordinate to a \$64.0 million first mortgage on the hotel in Dallas, Texas. Interest revenue recognized during the year ended December 31, 2014 was approximately \$191,000.

Table of Contents

On November 14, 2014, the Company acquired a \$1.0 million first mortgage loan secured by real estate in Ormond Beach, Florida. The loan matures in November 2015, includes a one-year extension option, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. At closing, a loan origination fee of approximately \$10,000 was received by the Company and recognized as income. Interest revenue recognized during the year ended December 31, 2014 was approximately \$10,000.

Agriculture and Other Income. Effectively all of our agriculture and other income consists of revenues generated by our agricultural operations. The Company's agricultural lands encompass approximately 9,700 acres on the west side of Daytona Beach, Florida. Our agricultural operations are managed by a third-party and consist of leasing land for hay production, timber harvesting, as well as hunting leases.

SUMMARY OF OPERATING RESULTS FOR YEAR ENDED DECEMBER 31, 2014 COMPARED TO DECEMBER 31, 2013

Total revenue for the year ended December 31, 2014, increased 37.5% to approximately \$35.5 million, compared to approximately \$25.8 million for the year ended December 31, 2013. This increase included approximately \$2.1 million in additional revenue generated by our income properties portfolio, in addition to an approximate \$7.0 million increase in revenue from our real estate operations, which was comprised of an increase in revenue from land transactions of approximately \$6.1 million reflecting the three land transactions we closed in 2014 for approximately \$8.8 million. Our operating income for the year ended December 31, 2014, was approximately \$12.6 million versus approximately \$6.3 million in the same period in 2013. Net income for the year ended December 31, 2014, was approximately \$6.4 million, or \$1.11 per share, versus net income of approximately \$3.7 million, or \$0.64 per share, in the same period in 2013.

INCOME PROPERTIES

Revenues and operating income from our income property operations totaled approximately \$15.0 million and \$13.0 million, respectively, during the year ended December 31, 2014, compared to total revenue and income of approximately \$12.8 million and \$11.5 million, for the year ended December 31, 2013. The direct costs of revenues for our income property operations totaled approximately \$2.0 million and \$1.3 million for the year ended December 31, 2014 and 2013, respectively. The 16.7% increase in revenues reflects the addition of six properties in 2014 and a full year of results for nine properties acquired in 2013. Our operating income from our income property operations increased 13.2%, which reflects the aforementioned increased rent revenues offset by an increase of approximately \$621,000 in our direct costs of revenues which was primarily due to an increase in costs associated with acquisitions of income properties with in-place leases of approximately \$90,000, additional expenses of approximately \$132,000 associated with the multi-tenant income property acquired in October 2014, and the costs associated with potential acquisitions that were terminated during the year.

REAL ESTATE OPERATIONS

During the year ended December 31, 2014, operating income from real estate operations was approximately \$8.6 million on revenues totaling approximately \$13.0 million, as compared operating income of approximately \$2.3 million on revenues totaling approximately \$5.9 million, for the year ended December 31, 2013. Revenues in 2014 include approximately \$8.8 million from three land transactions of approximately 99.66 acres, and approximately \$3.5 million in revenue from our subsurface operations, including approximately \$2.9 million from the lease of subsurface interests and \$0.6 million received as a non-refundable drilling penalty. The operating income for our real estate operations in 2014 reflects the aforementioned revenues offset by an increase of approximately \$0.7 million in the cost basis recognized with the land transactions. The revenue and income for 2013 were substantially generated from

three land transaction of approximately \$3.0 million on approximately 11.66 acres.

GOLF OPERATIONS

The Company's golf operations incurred a loss of approximately \$405,000 during the year ended December 31, 2014, representing a 1.7% improvement over the loss of approximately \$412,000 in the same period in 2013. Revenues from golf operations totaled approximately \$5.1 million for the years ended December 31, 2014 and 2013, an increase of 1.0%. The total direct cost of golf operations revenues totaled approximately \$5.5 million for the years ended December 31, 2014 and 2013. The slight improvement in the loss from the golf operations was due to a 15.6% increase in membership, offset by a decrease in golf revenues of 5.4%, which was primarily attributable to an extensive number of adverse weather days which caused a decrease of 10.0% in rounds played, as compared to the prior year.

INTEREST INCOME FROM COMMERCIAL LOAN INVESTMENTS

In 2014 the Company acquired or originated approximately \$30.3 million in commercial loans. Interest income from commercial loan investments totaled approximately \$2.2 million for the year ended December 31, 2014 and \$1.7 million for the year ended December 31, 2013, an increase of approximately \$0.5 million or 27.9%. The increase in interest income in 2014 reflects our

Table of Contents

investment in approximately \$30.3 million of commercial loan investments versus approximately \$17.6 million of investments made in 2013 and the recognition of the remaining accretion of the discount on our first mortgage loan investment made in 2013 which was paid off in early 2014.

AGRICULTURE AND OTHER INCOME

For the year ended December 31, 2014, revenues from our agriculture operations and other income, totaled approximately \$278,000, compared to approximately \$276,000 in 2013. For the year ended December 31, 2014, the direct cost of revenues totaled approximately \$189,000, compared to approximately \$148,000 in 2013 reflecting an increase of approximately \$41,000, which is primarily attributable to commissions on timber contracts. The results from these operations declined in the year ended December 31, 2014, by nearly \$40,000 compared to the year ended December 31, 2013.

GENERAL AND ADMINISTRATIVE AND OTHER CORPORATE EXPENSES

General and administrative expenses totaled approximately \$7.0 million and approximately \$5.4 million for the year ended December 31, 2014 and 2013, respectively. The increase in 2014 reflects approximately \$856,000 in costs related to the termination of the Company's pension plan, which are primarily non-cash charges pertaining to the actuarial accounting required for the termination, an increase of approximately \$842,000 over 2013 and approximately \$1.3 million in stock compensation charges, an increase of approximately \$370,000 over 2013 which is the result of our increased stock price year-over-year. In addition, our increased general and administrative expense in 2014 includes an adjustment to an environmental monitoring reserve of \$110,000.

Interest expense totaled approximately \$2.4 million and \$1.8 million for the years ended December 31, 2014 and 2013, respectively. The higher interest expense for 2014, when compared to the prior year, was due to our increased borrowings on our credit facility and a fixed-rate secured financing executed in September 2014.

DISCONTINUED OPERATIONS

During 2013, five properties were sold and the applicable results of operations were shown as discontinued operations on the consolidated statement of operations. During 2014, one property was sold but was not reported as a discontinued operation in accordance with ASU 2014-08. Under ASU 2014-08, the Company has determined that the disposal of an income property from its income property portfolio no longer qualifies as a discontinued operation.

SUMMARY OF OPERATING RESULTS FOR YEAR ENDED DECEMBER 31, 2013 COMPARED TO DECEMBER 31, 2012

Total revenue for the year ended December 31, 2013, increased 59.2% to approximately \$25.8 million, compared to approximately \$16.2 million for the year ended December 31, 2012. This increase included approximately \$4.4 million in additional revenue generated by increasing rent revenue from our income properties portfolio, in addition to a \$2.8 million increase in revenue from our real estate operations, which was comprised of an increase in revenue from land transactions of approximately \$1.4 million reflecting the three land transactions we closed in December 2013 for approximately \$3.0 million and approximately \$1.6 million from our amended subsurface lease offset by lower revenues from the release of subsurface interests and \$250,000 of revenues recognized in 2012 for the sale of fill dirt that was not renewed in 2013. Our operating income for the year ended December 31, 2013, was approximately \$6.3 million versus approximately \$864,000 in the same period in 2012. Net income for the year ended December 31, 2013, was approximately \$3.7 million, or \$0.64 per share, versus net income of approximately \$599,000, or \$0.10 per share in same period in 2012.

INCOME PROPERTIES

Revenues and operating income from our income property operations totaled approximately \$12.8 million and \$11.5 million, respectively, during the year ended December 31, 2013, compared to total revenue and income of approximately \$8.5 million and \$7.8 million, for the year ended December 31, 2012. The direct costs of revenues for our income property operations totaled approximately \$1.3 million and \$676,000 for the year ended December 31, 2013 and 2012, respectively. The 51.6% increase in revenues reflects the addition of nine properties in 2013 and a full year of results for six properties acquired in late 2012. Our operating income from our income property operations increased 47.6% which reflects the aforementioned increased rent revenues offset by an increase of approximately \$658,000 in our direct costs of revenues which was primarily due to the expenses relating to two properties acquired in January of 2013 that have base stop leases whereby we are responsible for certain operating expenses of the properties and to the expensing of approximately \$90,000 in costs associated with acquisitions of income properties with in-place leases and the costs associated with potential acquisitions that were terminated during the year.

REAL ESTATE OPERATIONS

During the year ended December 31, 2013, operating income from real estate operations was approximately \$2.3 million on revenues totaling approximately \$5.9 million, compared to revenues of approximately \$3.1 million and income of approximately \$2.4 million, for the year ended December 31, 2012. Revenues in 2013 include approximately \$3.0 million from three land transactions of approximately 11.66 acres, and approximately \$2.9 million in revenue from our subsurface operations including approximately \$2.6 million from the lease of subsurface interests, which included \$1.0 million received as a non-refundable drilling penalty. The

Table of Contents

operating income for our real estate operations in 2013 reflects the aforementioned revenues offset by approximately \$2.8 million in the cost basis recognized with the land transactions along with closing costs and commissions on the transactions of approximately \$246,000. The revenue and income for 2012 were substantially generated from a land transaction of approximately \$618,000 on 16.6 acres, and approximately \$730,000 recognized in connection with the final resolution of the Dunn Avenue Extension agreement, and from subsurface leasing income of approximately \$919,000.

GOLF OPERATIONS

The Company's golf operations incurred a loss of approximately \$412,000 during the year ended December 31, 2013, representing a 53.6% improvement over the loss of approximately \$887,500 in the same period in 2012. Revenues from golf operations totaled approximately \$5.1 million for the year ended December 31, 2013, compared to total revenues of approximately \$4.5 million for the year ended December 31, 2012, an increase of 12.6%. The total direct cost of golf operations revenues totaled approximately \$5.5 million and \$5.4 million for the years ended December 31, 2013 and 2012, respectively, an increase of only 1.7%. The approximate \$475,000 improvement in the loss from the golf operations was due to a 21.3% increase in membership, offset by a slight decrease in golf revenues of 2.4%, which was primarily attributable to an extensive number of adverse weather days and a decrease in the average rate per round paid during the period offset by a 9.0% increase in rounds played, as compared to the prior year.

INTEREST INCOME FROM COMMERCIAL LOAN INVESTMENTS

In August 2013, the Company acquired a \$19.6 million first mortgage loan secured by a hotel in Atlanta, Georgia, for approximately \$17.5 million, a discount of approximately \$2.05 million. The discount was being accreted into income ratably through the contractual maturity date in March 2014. The interest income recognized in 2013 includes interest of approximately \$370,000 and approximately \$1.4 million of accretion of the discount, offset by the amortization of fees of approximately \$61,000.

AGRICULTURE AND OTHER INCOME

For the year ended December 31, 2013, revenues from our agriculture operations and other income, totaled approximately \$276,000, compared to approximately \$165,000 in 2012. The increase in revenue of 67.5% primarily reflects additional timber harvesting. For the year ended December 31, 2013, the direct cost of revenues totaled approximately \$148,000, compared to approximately \$199,000 in 2012 reflecting a decrease of approximately \$50,000, which is attributable to the reduction of operations costs, particularly personnel costs. The results from these operations improved in the year ended December 31, 2013, by nearly \$162,000 or 477.9% compared to the year ended December 31, 2012, delivering net operating income for the first time in the Company's history.

GENERAL AND ADMINISTRATIVE AND OTHER CORPORATE EXPENSES

General and administrative expenses totaled approximately \$5.4 million and approximately \$6.6 million for the year ended December 31, 2013 and 2012, respectively. The decrease in 2013 was primarily comprised of lower stock compensation costs and the elimination of certain expenses including a non-cash charge of approximately \$723,000 for the estimated settlement of the St. Johns River Water Management District matter and costs related to separation payments for personnel. For the year ended December 31, 2013, stock compensation costs were approximately \$901,000 as compared to approximately \$1,047,000 in the year ended December 31, 2012.

Interest expense totaled approximately \$1.8 million and \$649,000 for the years ended December 31, 2013 and 2012, respectively. The higher interest expense for 2013, when compared to the prior year, was due to our increased

borrowings on our credit facility and two fixed-rate secured financings, which were incurred in connection with our acquisition of nine income properties and the investment in the commercial mortgage loan. In the first quarter of 2012, we recognized a loss of \$245,726, related to the extinguishment of the debt outstanding that was paid off with proceeds from the new credit agreement entered into with Bank of Montreal (BMO).

DISCONTINUED OPERATIONS

During the fourth quarter of 2012, one property was classified as held for sale, which was sold in February 2013. This property and the applicable results of operations were shown as discontinued operations on the consolidated statement of operations. As of December 31, 2013, no properties were classified as held for sale.

LIQUIDITY AND CAPITAL RESOURCES

Cash totaled approximately \$1.9 million at December 31, 2014, with restricted cash of approximately \$4.4 million of which approximately \$3.1 million is being held for investments utilizing the tax-deferred like-kind exchange structure, as well as certain escrows related to tenant improvements, reserves for property taxes and insurance required by our secured debt, interest reserves on our commercial loan investments, and for escrow related to a land transaction.

Our total cash balance at December 31, 2014, reflects cash flow provided by operating activities totaling approximately \$11.3 million in 2014. This cash flow compares favorably to the prior year's cash from operating activities which totaled to approximately \$10.9 million. This improvement was primarily attributable to the improved operating results in 2014.

Table of Contents

Our cash flows used in investing activities totaled approximately \$55.7 million for the year ended December 31, 2014, reflecting the use of approximately \$74.3 million primarily related to approximately \$42.2 million acquisitions of four income properties and approximately \$30.2 million of investments in five commercial loans, offset by proceeds of approximately \$19.5 million relating to the pay-off of the first mortgage loan we held on a hotel property in Atlanta, Georgia and the proceeds from the sale of one income property of approximately \$3.2 million.

Our cash flows provided by financing activities totaled approximately \$41.3 million for the year ended December 31, 2014. As described below, the cash flows provided by our financing activities primarily related to a net increase in long-term debt of approximately \$40.7 million, offset by approximately \$1.2 million in proceeds from the exercise of stock option awards.

Long-term debt totaled approximately \$103.9 million at December 31, 2014, representing an increase of approximately \$40.7 million from December 31, 2013. The increase in the long-term debt was due to our investment activities, including the acquisition of income properties and the investment in a commercial loans net of payments we made to reduce the balance outstanding on the line of credit utilizing cash from our operations, cash from disposition activities, and the proceeds from the origination of a \$30.0 million, five year interest only non-recourse secured financing.

Credit Facility. On August 1, 2014 the Company executed the third amendment (Third Amendment) of the Company s unsecured credit facility (Credit Facility). As amended the Credit Facility has a total borrowing commitment of \$75.0 million with the ability to increase that commitment up to \$125.0 million during the term and a maturity date of August 1, 2018. The indebtedness outstanding under the Credit Facility accrues interest at a rate ranging from the 30-day LIBOR plus 135 basis points to the LIBOR plus 200 basis points based on the total balance of debt outstanding as a percentage of the total asset value of the Company. The Third Amendment also adjusted a number of the restrictive covenants and maintenance covenants in the Credit Facility, primarily to provide the Company with increased flexibility in its investment activities. The Company paid a fee for increasing the borrowing commitment level pursuant to the credit facility terms. The Credit Facility also accrues a fee of 20 to 25 basis points for any unused portion of the borrowing capacity based on whether the unused portion is greater or less than 50% of the total borrowing capacity. The Credit Facility is unsecured and is guaranteed by certain wholly-owned subsidiaries of the Company. The Credit Facility bank group is led by Bank of Montreal (BMO) and also includes Wells Fargo Bank, N.A. and Branch Banking & Trust Company. The Credit Facility reduces the borrowing capacity under the Credit Facility for other unsecured borrowings of the Company. The Credit Facility is subject to customary restrictive covenants, including, but not limited to, limitations on the Company s ability to: (a) incur indebtedness; (b) make certain investments; (c) incur certain liens; (d) engage in certain affiliate transactions; and (e) engage in certain major transactions such as mergers. In addition, the Company is subject to various financial maintenance covenants, including, but not limited to, a maximum indebtedness ratio, a maximum secured indebtedness ratio, and a minimum fixed charge coverage ratio. The Agreement also contains affirmative covenants and events of default, including, but not limited to, a cross default to the Company s other indebtedness and upon the occurrence of a change of control. The Company s failure to comply with these covenants or the occurrence of an event of default could result in acceleration of the Company s debt and other financial obligations under the Agreement.

On January 12, 2015, the Credit Facility was further amended to adjust a restrictive covenant to provide the Company with increased flexibility in its investment activities.

Mortgage Notes Payable. On February 22, 2013, the Company closed on a \$7.3 million mortgage loan with UBS Real Estate Securities Inc., secured by its interest in the two-building office complex leased to Hilton Resorts Corporation, which was acquired on January 31, 2013. The mortgage loan matures in February 2018, carries a fixed rate of interest of 3.655% per annum, and requires payments of interest only prior to maturity.

On March 8, 2013, the Company closed on a \$23.1 million mortgage loan with Bank of America, N.A., secured by its interest in fourteen income properties. The mortgage loan matures in April 2023, carries a fixed rate of 3.67% per annum, and requires payments of interest only prior to maturity.

On September 30, 2014, the Company closed on a \$30.0 million mortgage loan originated with Wells Fargo Bank, N.A., secured by its interest in six income properties. The mortgage loan matures in October 2034, and carries a fixed rate of 4.33% per annum during the first ten years of the term, and requires payments of interest only during the first ten years of the loan. After the tenth anniversary of the effective date of the loan the cash flows generated by the underlying six income properties must be used to pay down the principal balance of the loan until paid off or until the loan matures. The loan is fully pre-payable after the tenth anniversary date of the effective date of the loan.

Acquisitions and Investments. As noted previously, the Company used approximately \$42.2 million of cash to acquire four income properties during the year ended December 31, 2014. These acquisitions included: one single-tenant property located in Katy, Texas for approximately \$14.7 million; one single-tenant property located in Daytona Beach, Florida for approximately \$5.3 million; one multi-tenant property located in Sarasota, Florida for approximately \$19.1 million, and one multi-tenant property located in Winter Park, Florida for approximately \$3.1 million. In addition, our acquisitions included the following investments in commercial loan investments during 2014: a \$5.0 million mezzanine loan on a hotel property in Atlanta, Georgia; a \$9.0 million B-Note secured by a retail shopping center located in Sarasota, Florida; a \$6.3 million first mortgage loan for the development of a single-tenant

Table of Contents

property in Glendale, Arizona; a \$10.0 million mezzanine loan on a hotel property in Dallas, Texas, and a \$1.0 million loan secured by approximately 1,000 acres of land in Ormond Beach, Florida. We are targeting investments between approximately \$70.0 million to \$90.0 million in income-producing properties or investments in commercial loans secured by commercial real estate during 2015. We expect to fund these acquisitions utilizing available capacity under our credit facility, cash from operations, proceeds from the dispositions of non-core income properties or transactions in our land assets, which we expect will qualify under the like-kind exchange deferred-tax structure, and additional financing sources. We may obtain unsecured debt financing in addition to our credit facility which could decrease our borrowing capacity on the credit facility.

Dispositions. During the year ended December 31, 2014, the Company received approximately \$3.2 million in cash through the sale of an income property for a total sales price of approximately \$3.3 million. Cash received is net of total closing costs of approximately \$192,000. The disposition was for one property located in Apopka, Florida, which was leased to Walgreens.

Capital Expenditures. In conjunction with the Company's sale of approximately 3.4 acres of land to RaceTrac in December 2013, the Company agreed to reimburse RaceTrac for a portion of the costs for road improvements and the other costs associated with bringing multiple ingress/egress points to the entire 23 acre Williamson Crossing site, including the Company's remaining 19.6 acres. The estimated cost for the improvements equals approximately \$1.26 million and the Company's commitment is to reimburse RaceTrac in an amount equal to the lesser of 77.5% of the actual costs or \$976,500. The Company's commitment to fund the improvement costs benefiting the remaining acres of Company land can be paid over five years from sales of the remaining land or at the end of the fifth year. As of December 31, 2013, the Company had deposited \$283,500 of cash in escrow related to the improvements which was classified as restricted cash in the consolidated balance sheets, as of December 31, 2014 and 2013. Accordingly, as of December 31, 2014, the remaining maximum commitment is \$693,000.

In connection with the acquisition of the Lowes on April 22, 2014, the Company was credited approximately \$651,000 at closing for certain required tenant improvements, some of which are not required to be completed until December 2016. As of December 31, 2014, \$100,000 of these tenant improvements had been completed and funded, leaving a remaining commitment of approximately \$551,000 at December 31, 2014.

During the third quarter of 2014, the Company sold approximately 75.6 acres of land, located on the east side of Interstate 95, for the development of a distribution center. In connection with the sale, the Company is obligated to fund approximately \$616,000 of certain road improvements, a portion of which will be reimbursed by the City. The amount of the reimbursement is estimated at approximately \$243,000. As the costs are incurred, the Company will recognize the deferred revenue as described in Note 14 "Deferred Revenue" on a percentage-of-completion basis. The road improvements are expected to be completed in February 2015.

As of December 31, 2014, the Company is committed to fund approximately \$994,000 of the total \$6.3 million first mortgage commitment for the redevelopment of an existing vacant retail property into a Container Store in Glendale, Arizona, which opened on February 7, 2015. As of December 31, 2014, approximately \$5.3 million was funded. The remaining \$994,000 may be drawn by the borrower as construction costs are incurred. Construction was substantially complete as of December 31, 2014 and the Company expects to fund the remaining commitment in the first quarter of 2015.

As of December 31, 2014, we have no other contractual requirements to make capital expenditures.

In connection with certain land sale contracts to which the Company is a party, the purchasers' pursuit of customary development entitlements has given rise to an informal inquiry by federal regulatory agencies regarding prior

agricultural activities on a portion of our land. We believe the issues raised by, and the land which is the subject of, this inquiry are similar to or the same as those which were addressed and resolved by the SJRWMD Agreement and the permit which the District subsequently issued to the Company. We have received no formal notification from any of these agencies regarding this matter. As a result, given the early stage of this process, we are unable to reasonably estimate the liability, if any, that the Company may incur arising from this inquiry. Accordingly, no amounts have been accrued as of December 31, 2014 related to this matter.

We believe we will have sufficient liquidity to fund our operations, capital requirements, and debt service requirements over the next twelve months and into the foreseeable future, with cash flow from our operations and approximately \$13.1 million of available capacity on the existing \$75.0 million Credit Facility, based on our current borrowing base of income properties, as of December 31, 2014.

During the fourth quarter of 2008, our Board of Directors authorized a program to repurchase shares of our common stock having an aggregate value of up to \$8,000,000. The authorization permits us to effect repurchases from time to time through a variety of methods including open market repurchases and privately negotiated transactions. Through December 31, 2014, 30,496 shares had been repurchased at a total cost of approximately \$1.0 million, with approximately \$928,000 of the repurchases occurring during 2014.

Our Board of Directors and management consistently review the allocation of capital with the goal of providing the best long-term return for our shareholders. These reviews consider various alternatives, including increasing or decreasing regular dividends, repurchasing stock, and retaining funds for reinvestment. Annually, the Board reviews our business plan and corporate strategies, and makes adjustments as circumstances warrant. Management's focus is to continue our strategy to diversify our portfolio by redeploying proceeds from like-kind exchange transactions and utilizing our Credit Facility to increase our portfolio of income-producing properties, providing stabilized cash flows with good risk-adjusted returns primarily in larger metropolitan areas.

Table of Contents**CONTRACTUAL OBLIGATIONS AND COMMITMENTS**

We have various contractual obligations, which are recorded as liabilities in our consolidated financial statements. Other items, such as certain development obligations, are not recognized as liabilities in our consolidated financial statements, but are required to be disclosed.

The following table summarizes our significant contractual obligations and commercial commitments on an undiscounted basis at December 31, 2014, and the future periods in which such obligations are expected to be settled in cash. In addition, the table reflects the timing of principal and interest payments on outstanding borrowings.

PAYMENT DUE BY PERIOD

Contractual Obligations	Total	Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
	\$	\$	\$	\$	\$
Long-Term Debt Obligations	103,940,011		50,840,011		53,100,000
Operating Leases Obligations	3,028,767	736,606	1,177,427	891,545	223,189
Construction Commitments	2,332,845	1,088,595	551,250	693,000	
Total	109,301,623	1,825,201	52,568,688	1,584,545	53,323,189

CRITICAL ACCOUNTING POLICIES

The consolidated condensed financial statements included in this Annual Report are prepared in conformity with U.S. generally accepted accounting principles (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses. The development and selection of these critical accounting policies have been determined by management and the related disclosures have been reviewed with the Audit Committee of the Board of Directors of the Company. Actual results could differ from those estimates.

For a discussion of each of the Company's critical accounting policies, including information and analysis of estimates and assumptions involved in their application, and other significant accounting policies, see Note 1 Summary of Significant Accounting Policies to the consolidated financial statements included in Item 8, Financial Statements and Supplementary Data in this Annual Report on Form 10-K.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal market risk (i.e., the risk of loss arising from adverse changes in market rates and prices) to which we are exposed is interest rate risk. The objective of our asset management activities is to provide a level of liquidity sufficient to fund operations and capital expansion, while minimizing market risk. We utilize overnight sweep accounts and short-term investments to minimize the interest rate risk. We do not believe that this interest rate risk related to cash equivalents and short-term investments is material due to the nature of the investments.

We manage our debt, considering investment opportunities and risk, tax consequences, and overall financial strategies. We are primarily exposed to interest rate risk on our credit facility. The outstanding balance on our credit facility totaled approximately \$43.5 million at December 31, 2014. Our borrowings on our \$75.0 million revolving credit facility, bear a variable rate of interest based on the LIBOR and our level of borrowing as a percentage of our total asset value. Management's objective is to limit the impact of interest rate changes on earnings and cash flows and to lower the overall borrowing costs. A hypothetical change in the interest rate of 100 basis points (i.e. 1%) would affect our financial position, results of operations, and cash flows by approximately \$435,000.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The Company's Consolidated Financial Statements appear beginning on page F-1 of this report. See Item 15 of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There have been no disagreements with our accountants on accounting and financial disclosures.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES
DISCLOSURE CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation, as required by rules 13(a)-15 and 15(d)-15 of the Securities Exchange Act of 1934 (the Exchange Act) was carried out under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Exchange Act). Based on that evaluation, the CEO and CFO have concluded that the design and operation of the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and to provide reasonable assurance that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including its CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2014. In conducting this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in the Internal Control-Integrated Framework, issued in 1992. Based on management's assessment and those criteria, management believes that the Company has maintained effective internal control over financial reporting as of December 31, 2014. The report of the independent registered public accounting firm that audited the financial statements included in this Annual Report on Form 10-K is incorporated herein as Item 15.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) during the fourth fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION
None.

Table of Contents

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

The information required to be set forth herein, except for the information included under the heading "Executive Officers of the Registrant" below, is included in the Company's definitive proxy statement for its 2015 annual shareholders' meeting to be filed with the SEC within 120 days after the end of the registrant's fiscal year ended December 31, 2014 (the "Proxy Statement"), which sections are incorporated herein by reference.

EXECUTIVE OFFICERS OF THE REGISTRANT

The executive officers of the Company, their ages at December 31, 2014, their business experience during the past five years, and the year first elected as an executive officer of the Company are as follows:

John P. Albright, 49, president and chief executive officer of the Company since August 1, 2011. Prior to joining the Company, Mr. Albright was the Co-Head and Managing Director of Archon Capital, a Goldman Sachs Company located in Irving, Texas. Prior to that, he was the Executive Director, Merchant Banking-Investment Management for Morgan Stanley. Prior to Morgan Stanley, Mr. Albright was Managing Director and Officer of Crescent Real Estate Equities, a publically traded REIT, based in Fort Worth, Texas. His experience involves various aspects of investment, lending, and development of commercial properties, as well as real estate investment banking.

Mark E. Patten, 51, senior vice president and chief financial officer of the Company since April 16, 2012. Prior to joining the Company, Mr. Patten recently executive vice president and chief financial officer of SolarBlue LLC, a developer of alternative energy solutions located in Orlando, Florida. Prior to that, he was executive vice president and chief financial officer of Legacy Healthcare Properties Trust Inc. in 2010 and held the same positions with Simply Self Storage from August 2007 to May 2010. Prior to those positions, he served as senior vice president and chief accounting officer of CNL Hotels & Resorts, Inc., a public non-traded lodging REIT, from January 2004 until the sale of the company in April 2007. Mr. Patten began his career at KPMG where he spent twelve years and was named a partner in 1997.

Daniel E. Smith, 49, senior vice president, general counsel and corporate secretary of the Company since October 22, 2014. Mr. Smith most recently served as Vice President-Hospitality and Vice President and Associate General Counsel at Goldman Sachs & Co. Prior to that, he spent ten years at Crescent Real Estate Equities, Ltd. where he held several positions, most recently Senior Vice President and General Counsel.

Each of our executive officers are elected annually as provided in the Company's Bylaws.

ITEM 11. EXECUTIVE COMPENSATION

The information required to be set forth herein is included in the Proxy Statement, which sections are incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The other information required to be set forth herein is included in the Proxy Statement, which sections are incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required to be set forth herein is included in the Proxy Statement, which sections are incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required to be set forth herein is included in the Proxy Statement, which section is incorporated herein by reference.

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders

Consolidated-Tomoka Land Co.:

We have audited the accompanying consolidated balance sheets of Consolidated-Tomoka Land Co. (a Florida corporation) and subsidiaries (the Company) as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2014. Our audits of the basic consolidated financial statements included the financial statement schedules listed in the index appearing under Item 15(a)(2). These financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Consolidated-Tomoka Land Co. and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2014, based on criteria established in the 1992 *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2015 expressed unqualified opinion on the effectiveness of Consolidated-Tomoka Land Co. and subsidiaries' internal control over financial reporting.

Table of Contents

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders

Consolidated-Tomoka Land Co.:

We have audited the internal control over financial reporting of Consolidated Tomoka Land Co. (a Florida corporation) and subsidiaries (the Company) as of December 31, 2014, based on criteria established in the 1992 *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in the 1992 *Internal Control Integrated Framework* issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of the Company as of and for the year ended December 31, 2014, and our report dated February 27, 2015 expressed an unqualified opinion on those financial statements.

Table of Contents

Supplemental Disclosure of Cash Flows:

Total interest paid during the years ended December 31, 2014, 2013, and 2012 was approximately \$2.1 million, \$1.6 million, and \$491,000, respectively. Interest paid included capitalized interest of approximately \$11,000 and \$8,000 during the years ended December 31, 2014 and 2013, respectively, with no interest capitalized during the year ended December 31, 2012.

Income taxes totaling approximately \$3.0 million and \$1.6 million were paid during the years ended December 31, 2014 and 2013, respectively, with income taxes refunded totaling approximately \$177,500 during the year ended December 31, 2012.

During the year ended December 31, 2013, the Company settled a certain legal proceeding resulting in a non-cash conveyance of certain acreage in the amount of approximately \$703,000. This non-cash transaction was reflected on the balance sheet as a decrease in land and development costs and accrued liabilities.

The accompanying notes are an integral part of these consolidated statements.

Table of Contents

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2014, 2013, and 2012

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS

We are a diversified real estate operating company. We own and manage forty-three commercial real estate properties in ten states in the U.S. As of December 31, 2014, we owned thirty-six single-tenant and seven multi-tenant income-producing properties with over 1,100,000 square feet of gross leasable space. We also own and manage a land portfolio of over 10,500 acres. As of December 31, 2014, we had five commercial loan investments including a fixed-rate mezzanine commercial mortgage loan, a fixed-rate first mortgage, a variable-rate B-Note, a variable-rate mezzanine commercial mortgage loan, and a variable-rate first mortgage loan. Our golf operations consist of the LPGA International golf club, which is managed by a third party. We also lease property for twenty-one billboards, have agricultural operations that are managed by a third party, which consists of leasing land for hay and sod production, timber harvesting, and hunting leases, and own and manage subsurface interests. The results of our agricultural and subsurface leasing operations are included in Agriculture and Other Income and Real Estate Operations, respectively, in our consolidated statements of operations.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Consolidated-Tomoka Land Co. and its consolidated subsidiaries (we, our, us, or the Company). Any real estate entities or properties included in the consolidated financial statements have been consolidated only for the periods that such entities or properties were owned or under control by us. All significant inter-company balances and transactions have been eliminated in the consolidated financial statements.

USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents includes cash on hand, bank demand accounts, and money market accounts having maturities at acquisition date of 90 days or less.

RESTRICTED CASH

Restricted cash totaled approximately \$4.4 million at December 31, 2014 of which approximately \$3.1 million of cash is being held in escrow from the sale of the income property in Apopka, Florida to be reinvested through the like-kind exchange structure into another income property, approximately \$185,000 is being held in a reserve primarily for property taxes and insurance escrows in connection with our financing of two properties acquired in January 2013, approximately \$65,000 is being held in a reserve for future interest payment in connection to our Plantation Oaks

commercial loan investment, approximately \$284,000 is being held in escrow related to a land transaction which closed in December 2013, approximately \$170,000 is being held in reserve for future interest and property tax payments in connection with our construction loan on a Container Store in Glendale, Arizona, and approximately \$581,000 is being held in a reserve related to certain required tenant improvements for the Lowes in Katy, Texas.

INVESTMENT SECURITIES

The Company determines the appropriate classification of its investments in debt and equity securities at the time of purchase and reevaluates such determinations at each balance sheet date in accordance with *ASC Topic 320, Investments - Debt and Equity Securities*. Marketable equity securities not classified as held-to-maturity or as trading, are classified as available-for-sale, and are carried at fair market value, with the unrealized gains and losses, net of tax, included in the determination of comprehensive income and reported in shareholders' equity. The fair value of securities is determined by quoted market prices.

Table of Contents

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of the Company's financial assets and liabilities including cash and cash equivalents, restricted cash, investment securities, accounts receivable, and accounts payable at December 31, 2014 and 2013, approximate fair value because of the short maturity of these instruments. The carrying amount of the Company's investment in commercial loans approximates fair value at December 31, 2014 and 2013, since the floating and fixed rates of the loans reasonably approximates current rates for notes with similar risks and maturities. The carrying amount of the Company's long-term debt approximates fair value at December 31, 2014 and 2013, since the floating rate of our credit facility and the fixed rates of our secured financings reasonably approximate current market rates for notes with similar risks and maturities.

FAIR VALUE MEASUREMENTS

The Company's estimates of fair value of financial and non-financial assets and liabilities based on the framework established in the fair value accounting guidance. The framework specifies a hierarchy of valuation inputs which was established to increase consistency, clarity and comparability in fair value measurements and related disclosures. The guidance describes a fair value hierarchy based upon three levels of inputs that may be used to measure fair value, two of which are considered observable and one that is considered unobservable. The following describes the three levels:

Level 1 Valuation is based upon quoted prices in active markets for identical assets or liabilities.

Level 2 Valuation is based upon inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include option pricing models, discounted cash flow models and similar techniques.

CLASSIFICATION OF COMMERCIAL LOAN INVESTMENTS

Loans held for investment are stated at the principal amount outstanding and include the unamortized deferred loan fees offset by any applicable unaccreted purchase discounts and origination fees in accordance with U.S. generally accepted accounting principles (GAAP).

COMMERCIAL LOAN INVESTMENT IMPAIRMENT

The Company's commercial loans are held for investment. For each loan, the Company evaluates the performance of the collateral property and the financial and operating capabilities of the borrower/guarantor, in part, to assess whether any deterioration in the credit has occurred and for possible impairment of the loan. Impairment would reflect the Company's determination that it is probable that all amounts due according to the contractual terms of the loan would not be collected. Impairment is measured based on the present value of the expected future cash flows from the loan discounted at the effective rate of the loan or the fair value of the collateral. Upon measurement of impairment, the

Company would record an allowance to reduce the carrying value of the loan with a corresponding recognition of loss in the results of operations. Significant exercise of judgment is required in determining impairment, including assumptions regarding the estimate of expected future cash flows, collectability of the loan, the value of the underlying collateral and other provisions including guarantees. The Company has determined that, as of December 31, 2014 and 2013, no allowance for impairment was required.

INTEREST INCOME RECOGNITION

Interest income on commercial loan investments includes interest payments made by the borrower and the accretion of purchase discounts and loan origination fees, offset by the amortization of fees. Interest payments are accrued based on the actual coupon rate and the outstanding principal balance and purchase discounts and loan origination fees are accreted into income using the effective yield method, adjusted for prepayments.

ACCOUNTS RECEIVABLE

Accounts receivable primarily consist of receivables related to golf operations. The collectability of these receivables is determined based on a review of specifically identified accounts using judgments. Accounts receivable are classified in other assets on the consolidated balance sheets and totaled approximately \$261,000 and \$229,000 as of December 31, 2014 and 2013, respectively. As of December 31, 2014 and 2013, no allowance for doubtful accounts was required.

Table of Contents***PURCHASE ACCOUNTING FOR ACQUISITIONS OF REAL ESTATE SUBJECT TO A LEASE***

In accordance with the Financial Accounting Standards Board (FASB) guidance on business combinations, the fair value of the real estate acquired with in-place leases is allocated to the acquired tangible assets, consisting of land, building and tenant improvements, and identified intangible assets, consisting of the value of in-place leases, based in each case on their relative fair values. The Company has determined that income property purchases with a pre-existing lease at the time of acquisition qualify as a business combination, in which case acquisition costs are expensed in the period the transaction closes. For income property purchases in which a new lease is originated at the time of acquisition, the Company has determined that these asset purchases are outside the scope of the business combination standards and accordingly, the acquisition costs are capitalized with the purchase.

Estimated fair values of the income properties acquired in 2014, at the date of acquisition, are based on preliminary valuations by management. The Company has engaged independent third-party consultants to prepare final purchase price allocations which are, as yet incomplete, therefore, reported amounts may change based on finalization which is expected to occur during the first quarter of 2015. These changes may impact depreciable and amortizable assets which therefore, may impact depreciation and amortization expense including a catch up of depreciation and amortization for the year ended December 31, 2014.

LAND AND DEVELOPMENT COSTS

The carrying value of land and development includes the initial acquisition costs of land, improvements thereto, and other costs incidental to the acquisition or development of land. These costs are allocated to properties on a relative sales value basis and are charged to costs of sales as specific properties are sold. Due to the nature of the business, land and development costs have been classified as an operating activity on the consolidated statements of cash flows.

PROPERTY, PLANT, AND EQUIPMENT

Property, plant, and equipment are stated at cost, less accumulated depreciation and amortization. Such properties are depreciated on a straight-line basis over their estimated useful lives. Renewals and betterments are capitalized to property accounts. The cost of maintenance and repairs is expensed as incurred. The cost of property retired or otherwise disposed of, and the related accumulated depreciation or amortization, are removed from the accounts, and any resulting gain or loss is recorded in the statement of operations. Subsurface interests are included in property, plant, and equipment with no net cost basis at December 31, 2014, as the amounts have been fully depreciated. The amount of depreciation and amortization of property, plant, and equipment, exclusive of amortization related to intangible assets, recognized for the years ended December 31, 2014, 2013, and 2012, was approximately \$2.7 million, \$2.3 million, and \$1.8 million respectively. Interest of approximately \$11,000 and \$8,000 was capitalized to construction in process during 2014 and 2013, respectively with no interest capitalized in 2012.

The range of estimated useful lives for property, plant, and equipment is as follows:

Golf Buildings and Improvements	10-43 Years
Golf Equipment	5-10 Years
Income Properties Buildings and Improvements	40 Years
Other Furnishings and Equipment	5-25 Years
Agriculture Equipment	5-10 Years

The acquisition cost of land, timber, real estate taxes, site preparation, and other costs relating to the planting and growing of timber are capitalized to land, timber, and subsurface interests. Such costs attributed to the timber are charged to cost of sales at the time timber is harvested. Timber and timberlands are stated at the lower cost or fair market value.

LONG-LIVED ASSETS

The Company follows FASB ASC 360-10 Property, Plant, and Equipment in conducting its impairment analyses. The Company reviews the recoverability of long-lived assets, including land and development costs, real estate held for sale, and property, plant, and equipment, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Examples of situations considered to be triggering events include: a substantial decline in operating cash flows during the period, a current or projected loss from operations, an income property not fully leased or leased at rates that are less than current market rates, and any other quantitative or qualitative events deemed significant by our management. Long-lived assets are evaluated for impairment by using an undiscounted cash flow approach, which considers future estimated capital expenditures. Impairment of long-lived assets is measured at fair value less cost to sell.

F-12

Table of Contents

SALE OF REAL ESTATE

Gains and losses on sales of real estate are accounted for as required by the Accounting for Sales of Real Estate Topic of FASB Accounting Standards Codification (FASB ASC) FASB ASC 976-605-25. The Company recognizes revenue from the sale of real estate at the time the sale is consummated, unless the property is sold on a deferred payment plan and the initial payment does not meet established criteria, or the Company retains some form of continuing involvement in the property. For sales of real estate which we estimate would cause us to incur a loss on the transaction, we would record a provision for the loss at the time the sales contract is deemed highly probable of closing.

INCOME PROPERTIES

The rental of the Company's income properties are classified as operating leases. The Company recognizes lease income on these properties on a straight-line basis over the term of the lease.

OPERATING LEASE EXPENSE

The Company leases property and equipment, which are classified as operating leases. The Company recognizes lease expense on a straight-line basis over the term of the lease.

GOLF OPERATIONS

The Company operates two 18-hole golf courses and a clubhouse facility, including food and beverage operations. Revenues from this operation, including greens fees, cart rentals, merchandise, and food and beverage sales, are recognized at the time of sale. Initiation fees and membership dues are recognized over the life of the membership, which is generally twelve months.

OTHER REAL ESTATE INTERESTS

From time to time the Company will release surface or subsurface entry rights upon request of the surface owner. The Company recognizes revenue from the release at the time the transaction is consummated, unless the property is released under a deferred payment plan and the initial payment does not meet the criteria established under the

Accounting for Sales of Real Estate Topic FASB ASC 976-605-25, the Company retains some form of continuing involvement in the property, or the transaction does not meet other requirements.

STOCK-BASED COMPENSATION

Prior to 2010, the Company maintained a stock option plan (the 2001 Plan) pursuant to which 500,000 shares of the Company's common stock may be issued. The 2001 Plan in place was approved at the April 25, 2001 shareholders meeting and expired in April 2011, with no new option shares issued after that date. Under the 2001 Plan, the option exercise price equals the average of the high and low stock market price on the date of grant. The options generally vest over five years and expire after ten years. In connection with the grant of non-qualified options, a stock appreciation right for each share covered by the option may also be granted. The stock appreciation right will entitle the optionee to receive a supplemental payment, which may be paid in whole or in part in cash or in shares of common stock equal to a portion of the spread between the exercise price and the fair market value of the underlying share at the time of exercise. The expenses associated with stock options and stock appreciation rights are recognized over their requisite service period.

Both the Company's stock options and stock appreciation rights awarded under the 2001 Plan are liability classified awards and are required to be remeasured to fair value at each balance sheet date until the award is settled, as required by provisions of the Share-Based Payments Topic of FASB ASC. (See Note 17 Stock-Based Compensation).

At the Annual Meeting of Shareholders of the Company held on April 28, 2010, the Company's shareholders approved the Consolidated-Tomoka Land Co. 2010 Equity Incentive Plan (the 2010 Plan). The 2010 Plan replaced the Company's 2001 Plan. At the Annual Meeting of Shareholders of the Company held on April 24, 2013, the Company's shareholders approved an amendment to the 2010 Plan which among other things incorporated claw back provisions and clarified language regarding the shares available subsequent to forfeiture of any awards of restricted shares. At the Annual Meeting of Shareholders of the Company held on April 23, 2014, the Company's shareholders approved an amendment to the 2010 Plan increasing the numbers of shares authorized for issuance by 240,000 shares bringing the total number of shares authorized for issuance to 450,000. Awards under the 2010 Plan may be in the form of stock options, stock appreciation rights, restricted shares, restricted share units, performance shares, and performance units. Employees of the Company and its subsidiaries and non-employee directors may be selected by the Compensation Committee to receive awards under the 2010 Plan. The maximum number of shares of which stock awards may be granted under the 2010 Plan is

F-13

Table of Contents

450,000 shares. No participant may receive awards during any one calendar year representing more than 50,000 shares of common stock. In no event will the number of shares of common stock issued under the plan upon the exercise of incentive stock options exceed 450,000 shares. These limits are subject to adjustments by the Compensation Committee as provided in the 2010 Plan for stock splits, stock dividends, recapitalizations, and other similar transactions or events. The 2010 Plan will terminate on the tenth anniversary of the date that it was adopted by the Board, and no awards will be granted under the plan after that date.

All non-qualified stock option awards and the restricted share awards granted under the 2010 plan were determined to be equity-based awards under the Share-Based Payment Topic of FASB ASC.

The Company used the Black-Scholes valuation pricing model to determine the fair value of its non-qualified stock option awards. The determination of the fair value of the awards is affected by the stock price as well as assumptions regarding a number of other variables. These variables include expected stock price volatility over the term of the awards, annual dividends, and a risk-free interest rate assumption.

The Company used a Monte Carlo simulation pricing model to determine the fair value and vesting period of the restricted share awards. The determination of the fair value of market condition-based awards is affected by the stock price as well as assumptions regarding a number of other variables. These variables include expected stock price volatility over the requisite performance term of awards, the performance of the Company's stock price, annual dividends, and a risk-free interest rate assumption. Compensation cost is recognized regardless of the achievement of the market conditions, provided the requisite service period is met.

INCOME TAXES

The Company uses the asset and liability method to account for income taxes. Deferred income taxes result primarily from the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes (See Note 18 Income Taxes). In June 2006, the FASB issued additional guidance, which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements included in income taxes. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. In accordance with FASB guidance included in income taxes, the Company has analyzed its various federal and state filing positions and believes that its income tax filing positions and deductions are well documented and supported. Additionally, the Company believes that its accruals for tax liabilities are adequate. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to the FASB guidance.

EARNINGS PER COMMON SHARE

Basic earnings per common share is computed by dividing net income by the weighted average number of shares outstanding. Diluted earnings per common share are based on the assumption of the conversion of stock options using the treasury stock method at average cost for the year (see Note 10 Common Stock and Earnings Per Share).

CONCENTRATION OF CREDIT RISK

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents.

Nearly 51% of the Company's income property portfolio and all of the land holdings, golf operations, agriculture operations, and subsurface interests are in the State of Florida. Uncertainty of the duration of a prolonged real estate and economic downturn could have an adverse impact on the Company's real estate values.

On a revenue basis, the largest of the Company's income property tenants consist of Holiday CVS, L.L.C. and Walgreen Co., which the Company considers good credit-quality tenants. Holiday CVS, L.L.C. revenues accounted for 7%, 9%, and 16% of our consolidated revenue and Walgreen Co. accounted for 5%, 6%, and 13% of our consolidated revenue, for the years ended December 31, 2014, 2013, and 2012, respectively. During the years ended December 31, 2014 and 2013 revenue concentrations on the two tenants described above have dropped significantly due to the Company's continuing diversification of its income property tenant mix and the addition of new revenue sources including the interest income from commercial loan investments.

F-14

Table of Contents***RECENTLY ISSUED ACCOUNTING STANDARDS***

In April 2014, the FASB issued ASU 2014-08, which amends its guidance on the reporting of discontinued operations and disclosures of disposals of components of an entity. The amendments in this update are effective for annual reporting periods beginning after December 15, 2014. Under ASU 2014-08, the Company has determined that the disposal of an income property from its income property portfolio no longer qualifies as a discontinued operation. Due to the significant impact on the Company's financial reporting, the Company has elected to early adopt ASU 2014-08, as permitted, and accordingly, income properties disposed of will no longer be classified as discontinued operations on a prospective basis.

In May 2014, the FASB issued ASU 2014-09, which amends its guidance on the recognition and reporting of revenue from contracts with customers. The amendments in this update are effective for annual reporting periods beginning after December 15, 2016. The Company is currently evaluating the provisions to determine the potential impact, if any, the adoption will have on its consolidated financial statements.

NOTE 2. INCOME PROPERTIES

During the year ended December 31, 2014, the Company acquired four income properties, two single-tenant and two multi-tenant, at a total acquisition cost of approximately \$42.2 million. Of the total acquisition cost, approximately \$14.7 million was allocated to land, approximately \$25.6 million was allocated to buildings and improvements, and approximately \$1.9 million was allocated to intangible assets pertaining to the in-place lease value. The weighted average amortization period for the \$1.9 million allocated to intangible assets was approximately 9.1 years at the time of acquisition. Estimated fair values of the income properties acquired in 2014, at the date of acquisition, are based on preliminary valuations by management. The Company has engaged independent third-party consultants to prepare final purchase price allocations which are, as yet incomplete, therefore, reported amounts may change based on finalization which is expected to occur during the first quarter of 2015. These changes may impact depreciable and amortizable assets which therefore, may impact depreciation and amortization expense including a catch up of depreciation and amortization for the year ended December 31, 2014.

Additionally, during the year ended December 31, 2014, construction was completed on two self-developed multi-tenant properties, known as the Williamson Business Park, in Daytona Beach, Florida for a total cost of approximately \$2.4 million of which approximately \$2.2 million was incurred for building and improvements and approximately \$221,000 was related to the transfer of basis in the previously owned land.

The income properties acquired in 2014 include the following:

On April 22, 2014, the Company acquired a 131,644 square-foot free-standing building, situated on 15.48 acres in Katy, Texas, which is leased to Lowe's Home Improvement. The total purchase price was approximately \$14.7 million, and as of the acquisition date, the remaining term of the lease was approximately 13 years;

On July 17, 2014, the Company acquired a 52,665 square-foot building situated on approximately 7 acres in Daytona Beach, Florida, which is leased to American Signature Furniture. The purchase price was approximately \$5.3 million, and as of the acquisition date, the remaining term of the lease was

approximately 6 years. The property is located within an approximately 250,000 square-foot retail shopping center anchored by Best Buy, PetSmart and Barnes & Noble. The Company also owns the property leased to Barnes & Noble;

On October 7, 2014, the Company acquired a 59,341 square-foot retail center spanning two city blocks, in Sarasota Florida, which is anchored by a 36,000 square-foot Whole Foods Market retail grocery store. The center also has approximately 23,000 square-feet of additional retail space including a Starbucks retail store, and a three level parking garage. The total purchase price was \$19.1 million, and as of the acquisition date, the weighted average remaining term of the leases was approximately 7 years; and

On December 30, 2014, the Company acquired a 112,292 square-foot retail shopping center comprised of two parcels on over 14 acres of land located in Winter Park, Florida as a redevelopment opportunity. The total purchase price was \$3.1 million, and as of the acquisition date, the majority of the current tenants were under short term leases. As part of the redevelopment activities planned for this property, the Company will likely terminate the majority of the leases.

One income property was disposed of during the year ended December 31, 2014. On November 17, 2014, the Company sold its interest in a 14,560 square-foot building, located in Apopka, Florida for approximately \$3.3 million, which was leased to Walgreens. However, as the Company has adopted ASU 2014-09, the operating results of the property have not been included in discontinued operations as the disposition does not qualify as a discontinued operation under the revised guidance.

During the year ended December 31, 2013, the Company acquired nine single-tenant income properties at a total acquisition cost of approximately \$39.5 million. Of the total acquisition cost, approximately \$13.2 million was allocated to land, approximately \$23.4 million was allocated to buildings and improvements, and approximately \$2.9 million was allocated to intangible assets pertaining to the in-place lease value. The weighted average amortization period for the \$2.9 million allocated to intangible assets was approximately 10.5 years at the time of acquisition.

Table of Contents**NOTE 3. DISCONTINUED OPERATIONS**

During the year ended December 31, 2013, the Company sold its interest in five single-tenant income properties for a combined gain of approximately \$1,216,000. Upon consummation of the sales, the properties' operating results were included within the discontinued operations for each period presented.

The following is a summary of income from discontinued operations:

	Year ended December 31,		
	2014	2013	2012
Leasing Revenue and Other Income	\$	\$ 699,486	\$ 1,535,854
Costs and Other Expenses	()	(89,270)	(211,524)
Income from Operations		610,216	1,324,330
Impairment Charges			(426,794)
Gain on Sale of Property		1,215,928	78,455
Income before Income Tax		1,826,144	975,991
Income Tax	()	(704,435)	(376,488)
Income from Discontinued Operations	\$	\$ 1,121,709	\$ 599,503

NOTE 4. COMMERCIAL LOAN INVESTMENTS

On January 31, 2014, the Company acquired a mezzanine loan secured by the borrower's equity interest in an upper upscale hotel in Atlanta, Georgia, that was previously subject to the Company's first commercial loan investment. The Company purchased the \$5.0 million performing loan at par. The loan matures in February 2019, bears a fixed interest rate of 12.00% per annum, and requires payments of interest only prior to maturity. Interest revenue recognized during the year ended December 31, 2014 was approximately \$558,000.

On May 16, 2014, the Company funded approximately \$3.1 million of a \$6.3 million first mortgage commitment for the redevelopment of an existing vacant retail property into a Container Store located in Glendale, Arizona, which opened on February 7, 2015. During the year ended December 31, 2014, approximately \$5.3 million in draws were funded by the Company, leaving a remaining commitment of approximately \$1.0 million, which may be drawn by the borrower as construction costs are incurred. Construction was substantially complete as of December 31, 2014 and the Company expects to fund the remaining commitment in the first quarter of 2015. The loan matures in November 2015, includes one nine-month extension option, bears a fixed interest rate of 6.00% per annum prior to the commencement of rent on the Container Store lease, and requires payments of interest only prior to maturity. At closing, a loan origination fee of approximately \$79,000 was received by the Company and is being accreted ratably into income through the contractual maturity date in November 2015. Total interest revenue recognized during the year ended December 31, 2014 was approximately \$161,000. Subsequent to the commencement of rent, the interest rate on our loan will be the 30-day London Interbank Offer Rate (LIBOR) plus 800 basis points. Rent commenced on February 7, 2015.

On May 20, 2014, the Company acquired an approximate \$9.0 million B-Note secured by a retail shopping center located in Sarasota, Florida. The loan matures in June 2015, includes three one-year extension options, bears a floating

interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. The loan is subordinate to an approximately \$48.0 million A-Note collateralized by the same property, for a total debt balance of \$57.0 million. Interest revenue recognized during the year ended December 31, 2014 was approximately \$416,000.

On September 30, 2014, the Company acquired a mezzanine loan secured by the borrower's equity interest in an upper upscale hotel in Dallas, Texas. The Company purchased the \$10.0 million performing loan at par. The loan matures in September 2016, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. The loan is subordinate to a \$64.0 million first mortgage on the hotel in Dallas, Texas. Interest revenue recognized during the year ended December 31, 2014 was approximately \$191,000.

On November 14, 2014, the Company acquired a \$1.0 million first mortgage loan secured by real estate in Ormond Beach, Florida. The loan matures in November 2015, includes a one-year extension option, bears a floating interest rate of 30-day LIBOR plus 725 basis points, and requires payments of interest only prior to maturity. At closing, a loan origination fee of approximately \$10,000 was received by the Company and recognized as income. Interest revenue recognized during the year ended December 31, 2014 was approximately \$10,000.

Table of Contents

The Company's commercial loan investment portfolio was comprised of the following at December 31, 2014:

Description			Date of Investment	Maturity Date	Original Face Amount	Current Face Amount	Carrying Value	Coupon Rate
Mezz	Hotel	Atlanta, GA	January 2014	February 2019	\$ 5,000,000	\$ 5,000,000	\$ 5,000,000	12.00%
Construction	Container			November 2015	\$ 6,300,000	\$ 5,306,031	\$ 5,247,607	6.00%
Store	Glendale, AZ		May 2014					
B-Note	Retail Shopping							30-day LIBOR plus 7.25 %
Center	Sarasota, FL		May 2014	June 2015	\$ 8,960,467	\$ 8,960,467	\$ 8,960,467	
Mezz	Hotel	Dallas, TX	September 2014	September 2016	\$ 10,000,000	\$ 10,000,000	\$ 10,000,000	30-day LIBOR plus 7.25 %
Development - Real								
Estate	Ormond Beach, FL		November 2014	November 2015	\$ 1,000,000	\$ 1,000,000	\$ 1,000,000	30-day LIBOR plus 7.25 %
Total					\$ 31,260,467	\$ 30,266,498	\$ 30,208,074	

The carrying value of the commercial loan investment as of December 31, 2014 consisted of the following:

		Total
Current Face Amount		\$ 30,266,498
Unaccreted Origination Fees		(58,424)
Total Commercial Loan Investments		\$ 30,208,074

On August 7, 2013, the Company acquired a \$19.6 million first mortgage loan secured by an upper upscale hotel in Atlanta, Georgia, for approximately \$17.5 million, a discount of approximately \$2.05 million. The discount was being accreted into income ratably through the contractual maturity date in March 2014, which is included in Interest Income from Commercial Loan Investments in the consolidated financial statements. On January 6, 2014, the remaining commercial mortgage loan principal of \$19.5 million was paid in full. The total revenue recognized during the year ended December 31, 2014, which was recognized entirely during the quarter ended March 31, 2014, was approximately \$844,000 including the remaining accretion of the purchase discount of approximately \$650,000, interest income of approximately \$36,000, and an exit fee of approximately \$195,000, offset by the remaining amortization of fees of approximately \$37,000. The total revenue recognized during the year ended December 31, 2013, was approximately \$1,713,000 including accretion of the purchase discount of approximately \$1.4 million and interest income of approximately \$370,000, offset by approximately \$61,000 of amortization of loan origination fees.

The Company's commercial loan investment portfolio was comprised of the following at December 31, 2013:

Description **Coupon**

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form 10-K

		Date of Investment	Maturity Date	Original Face Amount	Current Face Amount	Carrying Value	
Hotel	Atlanta, GA	August 2013	March 2014	\$ 19,560,000	\$ 19,465,000	\$ 18,845,053	30-day LIBOR plus 4.50%
Total				\$ 19,560,000	\$ 19,465,000	\$ 18,845,053	

The carrying value of the commercial loan investment as of December 31, 2013 consisted of the following:

	Total
Current Face Amount	\$ 19,465,000
Unamortized Fees	29,711
Unaccreted Purchase Discount	(649,658)
Total Commercial Loan Investments	\$ 18,845,053

Table of Contents**NOTE 5. LAND AND SUBSURFACE INTERESTS**

Land and development costs at December 31, 2014 and 2013, are summarized as follows:

	December 31,	
	2014	2013
Undeveloped Land	\$ 301,780	\$ 301,780
Developed Land and Development Costs	22,903,969	23,467,134
Total Land and Development Costs	\$ 23,205,749	\$ 23,768,914

During the year ended December 31, 2014, a total of approximately 99.66 acres were sold for approximately \$8.8 million as described below:

On February 18, 2014, the Company sold approximately 3.1 acres to Halifax Humane Society, Inc. for \$391,500, or approximately \$128,000 per acre, for a gain of approximately \$347,000. This parcel is located on LPGA Boulevard, just west of I-95 in Daytona Beach, Florida and is adjacent to an existing property owned by Halifax Humane Society, Inc.

On August 15, 2014, the Company sold approximately 75.6 acres of land, located on the east side of Interstate 95, for development of a distribution center for approximately \$7.8 million, or approximately \$103,000 per acre, for a gain at closing of approximately \$3.9 million with an additional gain of approximately \$324,000 to be recognized on a percentage-of-completion basis as certain road improvements are completed through the estimated completion date of February 2015. As of December 31, 2014, approximately \$277,000 of the gain has been recognized, leaving an approximate gain of \$47,000 to be recognized in the first quarter of 2015. In addition, the Company expects to receive payments totaling approximately \$1.1 million in late 2015 from Volusia County, based upon certain milestones being achieved including when the distribution center receives its certificate of occupancy and the dates when specified numbers of jobs have been created at the buyer's operations. Although there can be no assurances that the Company will receive the \$1.1 million, such payments would bring the total gain on the sale to approximately \$5.3 million.

On October 30, 2014, the Company sold approximately 20.96 acres of land, which presented certain issues for development involving wetlands mitigation, to Victor Indigo Lakes, L.L.C. for \$625,000, or approximately \$30,000 per acre, for a gain of approximately \$552,000. The land is located along the east side of Williamson Boulevard across from Indigo Lakes, in Daytona Beach, Florida.

During the year ended December 31, 2013, a total of 11.655 acres were sold for approximately \$3.0 million as described below:

On December 4, 2013, the Company sold approximately 3.405 acres to RaceTrac Petroleum, Inc. (RaceTrac) for \$1.3 million or approximately \$382,000 per acre. We recognized a loss on the sale of approximately \$244,000 which is primarily attributable to a higher basis in the property as a result of the Company having repurchased this land in 2010. The parcel sold to RaceTrac is part of Williamson Crossing, an approximately 23-acre, proposed commercial development located at the southeast corner of Williamson and LPGA Boulevards in Daytona Beach. RaceTrac is the first occupant for the Williamson Crossing site. In connection with the transaction, the Company agreed to reimburse RaceTrac up to \$976,500 over five years for road improvements and the other costs associated with bringing multiple ingress/egress points to the entire Williamson Crossing site. As of December 31, 2014 and 2013, \$283,500 of cash is held in escrow related to the improvements and is classified as restricted cash on the consolidated balance sheets. The Company anticipates that all or a portion of these reimbursable costs will be shared by other owners as parcels in the Williamson Crossing development are sold and additional businesses locate to the site. Based on the book basis of the remaining repurchased acres relative to the price per acre in the RaceTrac transaction, the Company determined that no adjustment for impairment was required as of December 31, 2013.

On December 19, 2013, the Company sold approximately 2.02 acres to Intracoastal Bank. The land was sold for \$640,000 or approximately \$317,000 per acre for a gain of approximately \$581,000. This parcel is located on LPGA Boulevard, east of I-95 in Daytona Beach, Florida, between the Vince Carter's and Wendy's restaurants.

On December 20, 2013, the Company sold approximately 6.23 acres to CarMax Auto Super Stores, Inc. (CarMax) for \$1.05 million, or approximately \$168,500 per acre, for a total loss of approximately \$1.0 million. We recognized a loss of approximately \$416,000 on the sale. In the second quarter of 2013 the Company recognized an impairment loss of approximately \$616,000 which was based on the contract price in a transaction that had been executed for approximately 3.21 acres of the total 6.23 acres sold to CarMax. That transaction was terminated prior to closing. The basis in these acres was higher than is typical for the Company's land holdings as this land had been reacquired through foreclosure in 2009.

Table of Contents

During the year ended December 31, 2012, a total of 16.6 acres were sold for approximately \$618,000 as described below:

During the second quarter of 2012, the Company sold approximately 16.6 acres of industrial land west of Interstate 95 at a price of approximately \$618,000 or \$37,000 per acre. The gain on the sale of this land totaled approximately \$573,000.

During 2009, a real estate sales transaction closed in which the Company had a commitment to fund up to \$1,125,000 for its share of road construction costs. During 2010, the Company paid approximately \$554,000 of this commitment. The remaining balance, totaling approximately \$571,000, was recorded as a liability and included in accrued liabilities on the consolidated balance sheets. The finalization of the construction costs occurred in the first quarter of 2012, and resulted in approximately \$730,000 of income during the second quarter of 2012, representing the reversal of the remaining commitment and a reimbursement of approximately \$160,000.

The Company owns full or fractional subsurface oil, gas, and mineral interests in approximately 490,000 surface acres of land owned by others in 20 counties in Florida. The Company leases its interests to mineral exploration firms for exploration. Our subsurface operations consist of revenue from the leasing of exploration rights and in some instances additional revenues from royalties applicable to production from the leased acreage.

During 2011, an eight-year oil exploration lease covering approximately 136,000 net mineral acres primarily located in Lee County and Hendry County, Florida was executed and an approximate \$914,000 first year rental payment was received. An additional approximate \$922,000, representing the guaranteed payment for the second year's delay rent, was received in September 2012. The two payments totaling approximately \$1.8 million have been recognized ratably into income through September 2013. On September 22, 2013, the Company entered into an amendment of the exploration lease (the "Oil Lease Amendment"). Under the Oil Lease Amendment, the net mineral acres under exploration lease was reduced from approximately 136,000 net mineral acres to approximately 82,000 net mineral acres in Hendry County, Florida. The approximately 54,000 net mineral acres removed from the exploration lease were located in Lee County, Florida. In connection with the Oil Lease Amendment, the Company received an approximate \$3.3 million rent payment for the third year of the Company's eight-year oil exploration lease. The payment was recognized ratably over the 12 month lease period ending in September 2014. Also during September 2013, the Company received, and recognized as revenue, a non-refundable penalty payment of \$1.0 million relating to the drilling requirements in the lease. During September 2014, the Company received an approximate \$1.9 million rent payment for the adjusted acreage of 42,000 acres for the fourth year of the Company's eight-year exploration lease, which is being recognized ratably over the 12 month lease period ending in September 2015. Also during September 2014, the Company received, and recognized as revenue, a non-refundable penalty payment of \$600,000 relating to drilling requirements in the lease. The terms of the lease state the Company will receive royalty payments if production occurs and may receive additional annual rental payments if the lease is continued in years four through eight. The lease is effectively eight one-year terms as the lessee has the option to terminate the lease annually.

Lease income generated by the Oil Lease Amendment is being recognized on a straight-line basis over the guaranteed lease term. For the years December 31, 2014, 2013, and 2012, lease income of approximately \$2.9 million, \$1.6 million, and \$919,000 was recognized, respectively. There can be no assurance that the Oil Lease Amendment will be extended beyond the expiration of the current term of September 2015 or, if renewed, on similar terms or conditions.

During the year ended December 31, 2014, the Company also received oil royalties from operating oil wells on 800 acres under a separate lease with a separate operator. Production volume from these oil wells was 64,835 barrels in 2014, 88,782 barrels in 2013 and 81,441 barrels in 2012, resulting in revenues received from oil royalties of approximately \$198,000, \$268,000 and \$287,000, respectively.

NOTE 6. INVESTMENT SECURITIES

During December 2013, the Company purchased approximately \$730,000 of preferred stock of a publicly traded real estate investment trust with a market capitalization of more than \$1.5 billion. In accordance with *ASC Topic 320, Investments – Debt and Equity Securities*, the preferred stock investments have been determined to be equity securities classified as available-for-sale which are recorded at fair market value in the consolidated balance sheets. The fair value of the Company's investment securities is measured quarterly, on a recurring basis, using Level 1 inputs.

Table of Contents

Available-for-Sale securities consisted of the following as of December 31, 2014 and 2013:

		Year Ended December 31, 2014		
	Cost	Gains in Accumulated Other Comprehensive Income	Losses in Accumulated Other Comprehensive Income	Estimated Fair Value (Level 1 Inputs)
Preferred Stock	\$ 704,173	\$ 117,263	\$	\$ 821,436
Total Equity Securities	\$ 704,173	\$ 117,263	\$	\$ 821,436
Total Available-for-Sale Securities	\$ 704,173	\$ 117,263	\$	\$ 821,436

		Year Ended December 31, 2013		
	Cost	Gains in Accumulated Other Comprehensive Income	Losses in Accumulated Other Comprehensive Income	Estimated Fair Value (Level 1 Inputs)
Preferred Stock	\$ 729,814	\$	\$	\$ 729,814
Total Equity Securities	\$ 729,814	\$	\$	\$ 729,814
Total Available-for-Sale Securities	\$ 729,814	\$	\$	\$ 729,814

The unrealized gain of approximately \$117,000 during the year ended December 31, 2014, net of tax of approximately \$44,000, is included in other comprehensive income. As of December 31, 2013, the cost approximated fair value and no net gains were reported in other comprehensive income.

Following is a table reflecting the sale of investment securities and losses recognized during the three years ended December 31, 2014, 2013, and 2012:

	Year Ended December 31,		
	2014	2013	2012
Proceeds from the Disposition of Equity Securities	\$ 30,476	\$	\$
Cost Basis of Investment Securities Sold	(25,641)		
Gain recognized in Statement of Operations on the Disposition of Equity Securities	\$ 4,835	\$	\$

During January of 2015, all of the Company's preferred stock investments were sold at a gain.

NOTE 7. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table presents the carrying value and estimated fair value of the Company's financial instruments not carried at fair value on the consolidated balance sheets at December 31, 2014 and 2013:

	December 31, 2014		December 31, 2013	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Cash and Cash Equivalents	\$ 1,881,195	\$ 1,881,195	\$ 4,932,512	\$ 4,932,512
Restricted Cash	4,440,098	4,440,098	366,645	366,645
Investment Securities	821,436	821,436	729,814	729,814
Commercial Loan Investments	30,208,074	30,266,498	18,845,053	19,297,110
Long-Term Debt	103,940,011	103,940,011	63,227,032	63,227,032

F-20

Table of Contents

To determine estimated fair values of the financial instruments listed above, market rates of interest, which include credit assumptions, were used to discount contractual cash flows. The estimated fair values are not necessarily indicative of the amount the Company could realize on disposition of the financial instruments. The use of different market assumptions or estimation methodologies could have a material effect on the estimated fair value amounts.

NOTE 8. INTANGIBLE ASSETS

Intangible assets consist of the in-place lease value associated with single-tenant and multi-tenant income properties acquired by the Company. This in-place lease value(s), was determined by estimating the cost of replacing the lease should it not be in-place as of the date of the acquisition of the property. Factors, such as foregone rent and leasing commissions among others, are taken into account to determine the in-place lease value. This value is amortized over the remaining term of the lease at the time the properties are purchased. At December 31, 2014, the in-place lease value totaled approximately \$7.3 million net of amortization of \$3.6 million. At December 31, 2013, the in-place lease value totaled \$6.4 million, net of amortization of \$3.0 million.

During the year ended December 31, 2014, the intangible in-place lease value increased by approximately \$1.9 million due to the acquisition of three income properties offset by approximately \$320,000 due to the sale of one income property for a net increase during 2014 of approximately \$1.6 million.

Amortization expense was approximately \$768,000, \$673,000, and \$411,000 for the years ending December 31, 2014, 2013, and 2012, respectively. The estimated future amortization expense related to intangible assets is as follows:

Year Ending December 31,	Amount
2015	\$ 899,693
2016	861,605
2017	770,851
2018	763,163
2019	748,328
Thereafter	3,295,777
Total	\$ 7,339,417

As of December 31, 2014, the weighted average amortization period of the in-place lease value is 13 years.

NOTE 9. IMPAIRMENT OF LONG-LIVED ASSETS

The Company assesses the impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The fair value of long-lived assets required to be assessed for impairment is determined on a non-recurring basis using Level 3 inputs in the fair value hierarchy. These Level 3 inputs may include, but are not limited to, executed purchase and sale agreements on specific properties, third party valuations, discounted cash flow models, and other model-based techniques.

During the year ended December 31, 2014, an impairment charge of approximately \$421,000 was recognized on an income property sold during October 2014. The total impairment charge, which was recognized during the third

quarter of 2014, represents the loss on the sale of approximately \$228,000 plus estimated closing costs of approximately \$193,000.

During the year ended December 31, 2013 the Company recognized an impairment loss of approximately \$616,000 on approximately 6.23 acres which was based on the contract price in a transaction that had been executed during that period for approximately 3.21 acres of the total 6.23 acres assessed for impairment. That transaction was terminated prior to closing, however, on December 20, 2013, the Company sold the approximately 6.23 acres to CarMax Auto Super Stores, Inc. for \$1.05 million, or approximately \$168,500 per acre. The basis in these acres was higher than is typical for the Company's land holdings as this land had been reacquired through foreclosure in 2009.

During the year ended December 31, 2012, no impairment indicators were noted other than on the income property held for sale for which an approximate \$427,000 impairment charge was recorded and included in income from discontinued operations in the consolidated statement of operations.

Table of Contents**NOTE 10. COMMON STOCK AND EARNINGS PER SHARE**

Basic earnings per common share were computed by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share were determined based on the assumption of the conversion of stock options and restricted stock using the treasury stock method at average market prices for the periods.

	Year Ended December 31,		
	2014	2013	2012
Income Available to Common Shareholders:			
Income (Loss) from Continuing Operations	\$ 6,383,818	\$ 2,561,538	\$ (301)
Discontinued Operations		1,121,709	599,503
Net Income	\$ 6,383,818	\$ 3,683,247	\$ 599,202
Weighted Average Shares Outstanding	5,765,997	5,739,383	5,717,937
Common Shares Applicable to Stock Options Using the Treasury Stock Method	22,853	3,754	
Total Shares Applicable to Diluted Earnings Per Share	5,788,850	5,743,137	5,717,937
Per Share Information:			
Basic Net Income Per Share			
Income from Continuing Operations	\$ 1.11	\$ 0.44	\$
Discontinued Operations		0.20	0.10
Net Income	\$ 1.11	\$ 0.64	\$ 0.10
Diluted Net Income Per Share:			
Income from Continuing Operations	\$ 1.10	\$ 0.44	\$
Discontinued Operations		0.20	0.10
Net Income	\$ 1.10	\$ 0.64	\$ 0.10

In addition to the dilutive securities presented above, the effect of 40,400, 58,800, and 198,300 potentially dilutive securities were not included for 2014, 2013, and 2012, respectively, as the effect would be antidilutive.

NOTE 11. TREASURY STOCK

On April 26, 2012, the Company announced a voluntary Odd-Lot Buy-Back Program (the Program), whereby the Company offered to purchase shares from shareholders who owned less than 100 shares of the Company's common stock as of April 26, 2012, for \$31.00 per share. The Program reflected the Company's interest in reducing the ongoing costs associated with shareholder recordkeeping and communications and to assist shareholders who may be deterred from selling their small lots of stock due to the costs that would be incurred. The Company paid all costs associated with the Program and purchased 14,634 shares under the Program at a total cost of approximately \$454,000. The

Program expired June 30, 2012. The Company did not provide any recommendation regarding shareholder participation and the decision was entirely that of each shareholder as to whether to sell shares in this Program.

In November 2008, the Company's Board of Directors authorized the Company to repurchase from time to time up to \$8 million of its common stock. There is no expiration date for the repurchase authorization. The Company repurchased 4,660 shares of its common stock at a cost of approximately \$105,000 through December 31, 2013. During 2014, the Company repurchased an additional 25,836 shares of its common stock on the open market for a total cost of approximately \$928,000 and placed those shares in treasury. None of the 2014 repurchases occurred during the quarter ended December 31, 2014. Pursuant to a covenant in our Credit Facility, which includes the Odd-Lot Buy-Back Program as part of our stock repurchase capacity, the maximum approximate dollar value of shares that may yet be purchased under the plan or program was approximately \$6.5 million as of December 31, 2014.

F-22

Table of Contents**NOTE 12. LONG-TERM DEBT**

Credit Facility. The Company has a revolving credit facility, as amended on August 1, 2014 (the "Credit Facility") which matures on August 1, 2018 with the ability to extend the term for 1 year. The Credit Facility has borrowing capacity of \$75.0 million with the ability to increase that capacity up to \$125.0 million during the term. The indebtedness outstanding under the Credit Facility accrues interest at a rate ranging from the 30-day LIBOR plus 135 basis points to the 30-day LIBOR plus 200 basis points based on the total balance outstanding under the Credit Facility as a percentage of the total asset value of the Company, as defined in the Credit Facility. The Credit Facility also accrues a fee of 20 to 25 basis points for any unused portion of the borrowing capacity based on whether the unused portion is greater or less than 50% of the total borrowing capacity. The Credit Facility is unsecured and is guaranteed by certain wholly-owned subsidiaries of the Company. The Credit Facility bank group is led by Bank of Montreal ("BMO") and also includes Wells Fargo Bank, N.A. and Branch Banking & Trust Company.

The Credit Facility is subject to customary restrictive covenants, including, but not limited to, limitations on the Company's ability to: (a) incur indebtedness; (b) make certain investments; (c) incur certain liens; (d) engage in certain affiliate transactions; and (e) engage in certain major transactions such as mergers. In addition, the Company is subject to various financial maintenance covenants, including, but not limited to, a maximum indebtedness ratio, a maximum secured indebtedness ratio, and a minimum fixed charge coverage ratio. The Agreement also contains affirmative covenants and events of default, including, but not limited to, a cross default to the Company's other indebtedness and upon the occurrence of a change of control. The Company's failure to comply with these covenants or the occurrence of an event of default could result in acceleration of the Company's debt and other financial obligations under the Agreement.

Mortgage Notes Payable. On February 22, 2013, the Company closed on a \$7.3 million mortgage loan originated with UBS Real Estate Securities Inc., secured by its interest in the two-building office complex leased to Hilton Resorts Corporation, which was acquired on January 31, 2013. The mortgage loan matures in February 2018, carries a fixed rate of interest of 3.655% per annum, and requires payments of interest only prior to maturity.

On March 8, 2013, the Company closed on a \$23.1 million mortgage loan originated with Bank of America, N.A., secured by its interest in fourteen income properties. The mortgage loan matures in April 2023, carries a fixed rate of 3.67% per annum, and requires payments of interest only prior to maturity.

On September 30, 2014, the Company closed on a \$30.0 million mortgage loan originated with Wells Fargo Bank, N.A., secured by its interest in six income properties. The mortgage loan matures in October 2034, and carries a fixed rate of 4.33% per annum during the first ten years of the term, and requires payments of interest only during the first ten years of the loan. After the tenth anniversary of the effective date of the loan the cash flows generated by the underlying six income properties must be used to pay down the principal balance of the loan until paid off or until the loan matures. The loan is fully pre-payable after the tenth anniversary date of the effective date of the loan. Long-term debt consisted of the following:

	December 31, 2014	
	Total	Due Within One Year
Credit Facility	\$ 43,540,011	\$
Mortgage Note Payable (originated with UBS)	7,300,000	
Mortgage Note Payable (originated with BOA)	23,100,000	
	30,000,000	

Mortgage Note Payable (originated with Wells Fargo)

Total Long-Term Debt	\$ 103,940,011	\$
----------------------	----------------	----

Payments applicable to reduction of principal amounts will be required as follows:

Year Ending December 31,	Amount
2015	\$
2016	
2017	
2018	50,840,011
2019	
Thereafter	53,100,000
Total Long-Term Debt	\$ 103,940,011

Table of Contents

At December 31, 2014, there was approximately \$31.5 million of available borrowing capacity under the Credit Facility, which has a current total commitment level of \$75.0 million, with approximately \$13.1 million of available borrowing capacity based on the borrowing base of income properties.

In conjunction with required road improvements related to sale of land for development of a distribution center, the Company obtained a \$940,000 letter of credit with BMO. The letter of credit decreases the available borrowing capacity on the Credit Facility. As of December 31, 2014, the letter of credit was unused.

For the year ended December 31, 2014, interest expense was approximately \$2.2 million with approximately \$2.1 million paid during the period. For the year ended December 31, 2013, interest expense was approximately \$1.6 million with approximately \$1.6 million paid during the period. For year ended December 31, 2012, interest expense was approximately \$536,000 with approximately \$491,000 paid during the period. No interest was capitalized during the year ended December 31, 2012, while approximately \$11,000 and \$8,000 of interest was capitalized during the years ended December 31, 2014 and 2013, respectively.

The amortization of loan costs incurred in connection with the Company's long-term debt is included in interest expense in the consolidated financial statements. These loan costs are being amortized over the term of the respective loan agreements using the straight-line method, which approximates the effective interest method. For the years ended December 31, 2014, 2013 and 2012, the amortization of loan costs totaled approximately \$256,000, \$203,000 and \$113,000, respectively.

The Company was in compliance with all of its debt covenants as of December 31, 2014 and 2013.

NOTE 13. ACCRUED LIABILITIES

Accrued liabilities consist of the following:

	As of	
	December 31, 2014	December 31, 2013
Golf Course Lease	\$ 2,973,898	\$ 3,340,389
Deferred Compensation		382,599
Other Post-Retirement Benefits	142,797	156,881
Reserve for Tenant Improvements	551,250	58,977
Accrued Interest	197,929	95,771
Environmental Reserve	108,733	
Other	1,426,902	692,192
Total Accrued Liabilities	\$ 5,401,509	\$ 4,726,809

In July 2012, the Company entered into an agreement with the City of Daytona Beach, Florida (the "City") to, among other things, amend the lease payments under its golf course lease (the "Lease Amendment"). Under the Amendment, the base rent payment, which was scheduled to increase from \$250,000 to \$500,000 as of September 1, 2012, will remain at \$250,000 for the remainder of the lease term and any extensions would be subject to an annual rate increase of 1.75% beginning September 1, 2013. The Company also agreed to invest \$200,000 prior to September 1, 2015 for

certain improvements to the facilities. In addition, pursuant to the Lease Amendment, beginning September 1, 2012, and continuing throughout the initial lease term and any extension option, the Company will pay additional rent to the City equal to 5.0% of gross revenues exceeding \$5,500,000 and 7.0% of gross revenues exceeding \$6,500,000. Since the inception of the lease, the Company has recognized the rent expense on a straight-line basis resulting in an estimated accrual for deferred rent. Upon the effective date of the Lease Amendment, the Company's straight-line rent was revised to reflect the lower rent levels through expiration of the lease. As a result, approximately \$3.0 million of the rent previously deferred will not be due to the City, and will be recognized into income over the remaining lease term, which expires in 2022. As of December 31, 2014, approximately \$2.1 million of the rent, previously deferred that will not be due to the City, remained to be amortized through September 2022.

In connection with the acquisition of the two properties leased to Hilton Resorts Corporation on January 31, 2013, the Company was credited \$773,000 at closing for certain required tenant improvements. The improvements were complete as of December 31, 2013 and the final payment of approximately \$59,000 was made during the three months ended March 31, 2014. In connection with the acquisition of the Lowes on April 22, 2014, the Company was credited approximately \$651,000 at closing for certain required tenant improvements, some of which are not required to be completed until December 2016. As of December 31, 2014, \$100,000 of these tenant improvements had been completed and funded, leaving approximately \$551,000 remaining to be funded.

Table of Contents

On July 24, 2013, the Company's Board of Directors terminated the Deferred Compensation Plan effective August 1, 2013. Accordingly, the Company made the normal required distributions prior to March 1, 2014 with the balance of the accounts liquidated in August 2014.

During the year ended December 31, 2014, the Company accrued an environmental reserve of approximately \$110,000 in connection with an estimate of additional costs to monitor a parcel of less than one acre of land owned by the Company that previously had environmental remediation work performed. Approximately \$1,000 in costs have been incurred as of December 31, 2014.

NOTE 14. DEFERRED REVENUE

Deferred revenue consisted of the following:

	As of	
	December 31, 2014	December 31, 2013
Deferred Oil Exploration Lease Revenue	\$ 1,354,873	\$ 2,390,808
Deferred Land Sale Revenue	87,581	
Prepaid Rent	674,165	698,653
Escrow Reserve, Container Store Loan	144,124	
Escrow Reserve, Plantation Oaks Loan	65,216	
Other Deferred Revenue	392,584	254,890
Total Deferred Revenue	\$ 2,718,543	\$ 3,344,351

On September 22, 2013, the Company received an approximate \$3.3 million rent payment for the third year of the Company's eight-year oil exploration lease. This payment has been fully recognized as revenue as of September 30, 2014. On September 19, 2014, the Company received an approximate \$1.9 million rent payment for the fourth year of the Company's eight-year oil exploration lease, which is being recognized ratably over the 12 month lease period ending in September 2015.

In connection with the 75.6 acre land sale, approximately \$597,000 of the \$7.8 million sales price was deferred to be recognized as revenue on a percentage-of-completion basis as certain road improvements are completed through the estimated completion date of February 2015. Through December 31, 2014, approximately \$510,000 of the previously deferred revenue had been recognized.

NOTE 15. PENSION PLAN

The Company maintained a Defined Benefit Pension Plan (the "Pension Plan") which had been, prior to December 31, 2011, for all employees who had attained the age of 21 and completed one year of service. The pension benefits were based primarily on years of service and the average compensation for the five highest consecutive years during the final ten years of employment. The benefit formula generally provided for a life annuity benefit.

Effective December 31, 2011, the Company amended its Pension Plan to freeze participants' benefits with no future accruals after that date. Any current or future employee who was not a participant of the Pension Plan on December 31, 2011 was not eligible to enter the Pension Plan.

On October 23, 2013 the Company's Board of Directors approved the commencement of the steps necessary to terminate the Pension Plan, pursuant to the Pension Plan, and, if necessary, for the Company to make the required level of contribution whereby the Pension Plan would have sufficient funds to pay all benefits owed participants and beneficiaries. On January 22, 2014, the Company's Board of Directors approved the termination of the Pension Plan effective March 31, 2014. Termination of the Pension Plan was completed through the distribution of the Pension Plan assets to participants and beneficiaries through either the purchase of an annuity from an insurance company or, payment of the benefit owed in a one-time lump sum payment based on a final calculation of benefit as of March 31, 2014. The final termination settlement was completed during the three months ended December 31, 2014. The Company contributed approximately \$43,000 to fully fund the Pension Plan to enable the distribution to participants of a lump sum benefit or the purchase of a life annuity to effectuate the termination. In addition, the Company incurred approximately \$170,000 for the cost of legal and other advisors to complete the termination.

Table of Contents

The Company used a December 31 measurement date.

Following are the components of the Net Period Pension Cost (Benefit):

	December 31,		
	2014	2013	2012
Service Cost	\$ 87,219	\$ 87,496	\$ 94,374
Interest Cost	425,735	385,884	406,689
Actual Return on Plan Assets	342,637	(1,310,053)	(932,366)
Amortization of Unrecognized Transition Loss (Gain) from Earlier Periods		91,111	69,699
Amortization of Unrecognized Prior Service Cost			
Amortization of Net Gain (Loss) from Earlier Periods		736,025	390,400
Net Periodic Pension Cost (Benefit)	\$ 855,591	\$ (9,537)	\$ 28,796

The Company contributed approximately \$43,000 to fully fund the Pension Plan for the final termination settlement in 2014. The Company made contributions totaling \$84,600 in 2013 and \$473,540 in 2012.

The change in projected benefit obligation is as follows:

	December 31,	
	2014	2013
Benefit Obligation at Beginning of Year	\$ 8,852,262	\$ 9,827,454
Service Cost	87,219	87,496
Interest Cost	425,735	385,884
Actuarial Loss (Gain)	(27,160)	(804,080)
Plan Expenses Paid	(108,997)	(71,585)
Benefits Paid	(541,896)	(572,907)
Effect of Termination Settlement	(8,687,163)	
Benefit Obligation at End of Year	\$	\$ 8,852,262

The change in plan assets is as follows:

	December 31,	
	2014	2013
Fair Value of Plan Assets at Beginning of Year	\$ 9,259,932	\$ 8,509,771
Actual Return on Plan Assets	342,637	1,310,053
Employer Contribution	43,254	84,600
Plan Expenses Paid	(108,997)	(71,585)

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form 10-K

Benefits Paid	(541,896)	(572,907)
Termination Settlement	(8,994,930)	
Fair Value of Plan Assets at End of Year	\$	\$ 9,259,932

The funded status of the pension obligation consisted of the following:

	December 31,	
	2014	2013
Estimated Pension Benefit Obligation		
Projected Benefit Obligation	\$	\$ (8,852,262)
Fair Value of Plan Assets		9,259,932
Accrued Net Pension Asset	\$	\$ 407,670

F-26

Table of Contents

The increase in the Net Pension Asset during the year ended December 31, 2013, was due primarily to gains in the underlying pension assets, as well as a change in the discount rate from 4% to 5%.

The actuarial assumptions made to determine the projected benefit obligation and the fair value of plan assets are as follows:

	December 31,	
	2014	2013
Weighted Average Discount Rate	N/A	5.00%
Weighted Average Asset Rate of Return	N/A	7.00%
Compensation Scale	N/A	N/A

The Company used the Citigroup Pension Liability Index to determine the discount rate. The weighted average asset rate of return was primarily based on both historical and projected future returns of the portfolio as a whole.

Amortization Periods

The transition liability (asset), was considered fully amortized as a result of the 2011 curtailment. The excess of the unrecognized (gain) or loss (if any) over the larger of 10% of the projected benefit obligation or 10% of the market related value of assets was amortized, prior to the termination, in level amounts over 12.60 years. The prior service cost re-established on January 1, 2001, was considered fully amortized as a result of the 2011 curtailment. The prior service cost established on January 1, 2002, was considered fully amortized as a result of the 2011 curtailment.

Funding Policy

Periodic employer contributions were made in conformance with minimum funding requirements and maximum deductible limitations.

Benefit Payments and Other Disbursements

During the measurement period, disbursements from Pension Plan assets were as follows:

	December 31,	
	2014	2013
Benefit Payments	\$ 541,896	\$ 572,907
Administrative Expenses	108,997	71,585
Termination Settlement	8,994,930	
Total	\$ 9,645,823	\$ 644,492

Plan Assets

The Company's investment policy for pension funds, prior to the termination of the Pension Plan, was to achieve four major objectives as follows:

- 1) Growth in the invested assets to maintain future purchasing power;
- 2) Provide a stable, increasing stream of investment income to support needs;
- 3) Ensure the preservation of asset values equal to or greater than the nominal book value of assets over the intermediate term or a complete economic cycle, whichever is longer; and
- 4) Maintain liquidity.

The allocation of investments targeted 60% in common equities and 40% in fixed income securities, exclusive of cash and cash equivalents with a typical 10% range of fluctuation. Equity securities primarily included investments in large-cap, mid-cap, and small-cap companies located in the United States and internationally. Fixed income securities primarily included corporate bonds of diversified industries and government bonds primarily located in the United States. Prior to the termination of the Pension plan, no single security, except short-term obligations of the U.S. government, constituted more than 4% of consolidated assets.

Table of Contents

The Pension Plan's weighted average asset allocations at December 31, 2013 by asset category are as follows:

	December 31,	
	2014	2013
Cash and Cash Equivalents	0%	3%
Equity Securities	0%	66%
Fixed Income Securities	0%	30%
Alternative Investments	0%	1%
Total	0%	100%

The following is a table of the Fair Values of Pension Plan Assets and Fair Value Measurements at December 31, 2013 (measured with quoted prices in active markets - Level 1 inputs):

	December 31,	
	2014	2013
Cash and Cash Equivalents	\$	\$ 263,452
Equity Securities		6,134,969
Fixed Income Securities		2,730,912
Alternative Investments		130,599
Total	\$	\$ 9,259,932

The long-term rate of return on Pension Plan assets represented an estimate of long-term returns on an investment portfolio consisting of a mixture of equities, fixed income, and alternative investments. When determining the long-term rate of return on Pension Plan assets, the Company considered long-term rates of return on the asset classes (both historical and forecasted) in which the Company expected the pension funds to be invested.

Cash Flows

The Company made periodic contributions in accordance with minimum funding requirements and maximum allowable deductions. Due to the termination, no future contributions will be required.

Estimated Future Benefit Payments

Termination of the Pension Plan was completed during the three months ended December 31, 2014, therefore, the benefit payments have been satisfied and no future benefit payments are expected.

NOTE 16. POST-RETIREMENT BENEFIT PLANS OTHER THAN PENSIONS***Other Post-Retirement Benefits***

The Company has a policy regarding post-retirement benefit programs for certain health care and life insurance benefits for eligible retired employees. All full-time employees became eligible to receive life benefits if they retire after reaching age 55 with 20 or more years of service, and supplemental Medicare benefits if they reach age 65 and 20 years of service. The post-retirement health care plan is contributory with retiree contributions adjusted annually; the life insurance plan is non-contributory up to \$5,000 of coverage.

The Company recognizes post-retirement expenses in accordance with the Employers Accounting for Post-Retirement Benefits Other Than Pensions Topic of FASB ASC, which requires that expected costs of post-retirement benefits be charged to expense during the years the employees render service. The accrued post-retirement benefit cost reflected in the consolidated balance sheet in accrued liabilities at December 31, 2014 and 2013, was approximately \$143,000 and \$157,000, respectively. Subsequent to year end, the Company has effectively terminated the post-retirement benefit program and no further benefits will be provided to retirees.

Table of Contents***Unfunded Deferred Compensation Plans***

The Company previously established the Consolidated-Tomoka Land Co. Deferred Compensation Plan for Directors, and for Officers and Key Employees (the Plans). Both Plans provide that the Plans may be amended in whole or in part from time to time by the Board of Directors of the Company (the Board). At its Board meeting on October 26, 2011, the Board approved an amendment to the Plans to: 1) Freeze the Plans, effective January 1, 2012, to allow no new participants or deferrals into the Plans; and 2) to apply an interest rate of 6.0% to account balances for the year 2011 with the rate to be reviewed annually. An interest rate of 3.0% was applied to account balances for the years ended December 31, 2014 and 2013.

On July 24, 2013, the Company's Board of Directors terminated the Deferred Compensation Plan effective August 1, 2013. Accordingly, the Company made the normal required distributions prior to March 1, 2014 and the balance of the accounts were liquidated in August 2014.

As a result, there is no deferred compensation reflected in accrued liabilities at December 31, 2014. The amount of deferred compensation reflected in accrued liabilities on the consolidated balance sheets at December 31, 2013 was approximately \$383,000. Deferred compensation earnings allocated to the deferred compensation balance for the three years ended December 31, 2014, 2013, and 2012, were approximately \$5,000, \$14,000, and \$41,000, respectively.

**NOTE 17. STOCK-BASED COMPENSATION
EQUITY-CLASSIFIED STOCK COMPENSATION**
Market Condition Restricted Shares

Under the 2010 Plan, in 2010, the Company granted to certain employees non-vested restricted stock where vesting is based upon the achievement of certain market conditions, which are defined as the Company's total shareholder return as compared to the total shareholder return of a certain peer group during a five-year performance period.

The Company used a Monte Carlo simulation pricing model to determine the fair value of its market condition based awards. The determination of the fair value of market condition-based awards is affected by the stock price as well as assumptions regarding a number of other variables. These variables include expected stock price volatility over the requisite performance term of awards, the relative performance of the Company's stock price, and shareholder returns to those companies in its peer group, annual dividends, and a risk-free interest rate assumption. Compensation cost is recognized regardless of the achievement of the market conditions, provided the requisite service period is met.

A summary of activity during the years ended December 31, 2014, 2013, and 2012 is presented below:

		Wtd. Avg. Fair Value Per Share
Market Condition Non-Vested Restricted Shares	Shares	
Outstanding at December 31, 2011	9,317	\$ 23.13
Granted		
Vested		

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form 10-K

Forfeited/Expired	(1,417)	23.13
Outstanding at December 31, 2012	7,900	23.13
Granted		
Vested		
Forfeited/Expired	(2,833)	23.13
Outstanding at December 31, 2013	5,067	23.13
Granted		
Vested		
Forfeited/Expired		
Outstanding at December 31, 2014	5,067	\$ 23.13

As of December 31, 2014, there was approximately \$21,000 of unrecognized compensation cost, adjusted for estimated forfeitures, related to market condition non-vested restricted shares, which will be recognized over a weighted average period of 0.9 years.

F-29

Table of Contents***Market Condition Inducement Grant of Restricted Shares***

Inducement grants of 96,000 and 17,000 shares of restricted Company common stock were awarded to Mr. Albright and Mr. Patten, in 2011 and 2012, respectively. Mr. Albright's restricted shares were granted outside of the 2010 Plan while Mr. Patten's restricted shares were awarded under the 2010 Plan. The Company filed a registration statement with the Securities and Exchange Commission on Form S-8 to register the resale of Mr. Albright's restricted stock award. The restricted shares will vest in six increments based upon the price per share of Company common stock during the term of their employment (or within 60 days after termination of employment by the Company without cause), meeting or exceeding the target trailing 60-day average closing prices ranging from \$36 per share for the first increment to \$65 per share for the final increment. If any increment of the restricted shares fails to satisfy the applicable stock price condition prior to six years from the grant date, that increment of the restricted shares will be forfeited. As of December 31, 2014, four increments of Mr. Albright's and Mr. Patten's grants had vested.

An additional inducement grant of 2,500 shares of restricted Company stock was awarded to Mr. Smith in 2014 under the 2010 Plan. The restricted stock will vest in two increments based upon the price per share of Company common stock during the term of his employment (or within 60 days after termination of employment by the Company without cause), meeting or exceeding the target trailing 60-day average closing prices of \$60 per share and \$65 per share for the two increments. If any increment of the restricted shares fails to satisfy the applicable stock price condition prior to six years from the grant date, that increment of the restricted shares will be forfeited.

The Company used a Monte Carlo simulation pricing model to determine the fair value of its market condition based awards. The determination of the fair value of market condition-based awards is affected by the stock price as well as assumptions regarding a number of other variables. These variables include expected stock price volatility over the requisite performance term of awards, the relative performance of the Company's stock price, and shareholder returns to those companies in its peer group, annual dividends, and a risk-free interest rate assumption. Compensation cost is recognized regardless of the achievement of the market conditions, provided the requisite service period is met.

A summary of the activity for these awards during the years ended December 31, 2014, 2013, and 2012 is presented below:

Market Condition Non-Vested Restricted Shares	Shares	Wtd. Avg. Fair Value Per Share
Outstanding at December 31, 2011	96,000	\$ 18.47
Granted	17,000	18.02
Vested		
Forfeited/Expired		
Outstanding at December 31, 2012	113,000	18.40
Granted		
Vested	(18,500)	23.89
Forfeited/Expired		
Outstanding at December 31, 2013	94,500	17.33
Granted	2,500	38.97

Vested	(56,500)	19.56
Forfeited/Expired		
Outstanding at December 31, 2014	40,500	\$ 15.55

As of December 31, 2014, there was approximately \$94,000 of unrecognized compensation cost, adjusted for estimated forfeitures, related to market condition non-vested restricted shares, which will be recognized over a weighted average period of 0.6 years.

Three Year Vest Restricted Shares

On January 22, 2014, the Company granted to certain employees 14,500 shares of non-vested restricted stock under the 2010 Plan. One-third of the options will vest on each of the first, second, and third anniversaries of the grant date, provided they are an employee of the Company on those dates. In addition, any unvested portion of the options will vest upon a change in control.

The Company's determination of the fair value of the three year vest restricted stock awards was calculated by multiplying the number of shares issued by the Company's stock price at the grant date, less the present value of expected dividends during the vesting period. Compensation cost is recognized on a straight-line basis over the vesting period.

Table of Contents

A summary of activity for these awards during the year ended December 31, 2014, is presented below:

Three Year Vest Non-Vested Restricted Shares	Shares	Wtd. Avg. Fair Value Per Share
Outstanding at December 31, 2013		\$
Granted	14,500	36.08
Vested		
Forfeited/Expired	(300)	36.08
Outstanding at December 31, 2014	14,200	\$ 36.08

As of December 31, 2014, there was approximately \$351,000 of unrecognized compensation cost, adjusted for estimated forfeitures, related to the three year vest non-vested restricted shares, which will be recognized over a remaining weighted average period of 2.1 years.

Non-Qualified Stock Option Awards

Pursuant to the Non-Qualified Stock Option Award Agreements between the Company and Mr. Albright, Mr. Patten, and Mr. Smith, Mr. Albright, Mr. Patten, and Mr. Smith were granted options to purchase 50,000, 10,000, and 10,000 shares of Company common stock, in 2011, 2012, and 2014, respectively, under the 2010 Plan with an exercise price per share equal to the fair market value on their respective grant dates. One-third of the options will vest on each of the first, second, and third anniversaries of their respective grant dates, provided they are an employee of the Company on those dates. In addition, any unvested portion of the options will vest upon a change in control. The options expire on the earliest of: (a) the tenth anniversary of the grant date; (b) twelve months after the employee's death or termination for disability; or (c) thirty days after the termination of employment for any reason other than death or disability.

On January 23, 2013, the Company granted options to purchase 51,000 shares of the Company's common stock under the 2010 Plan to certain employees of the Company, including 10,000 shares to Mr. Patten, with an exercise price of \$34.95 per share, which was equal to the fair market value at the date of grant. One-third of these options will vest on each of the first, second, and third anniversaries of the grant date, provided the recipient is an employee of the Company on those dates. Any unvested portion of the options will vest upon a change in control. The options expire on the earliest of: (a) the fifth anniversary of the grant date; (b) twelve months after the employee's death or termination for disability; or (c) thirty days after the termination of employment for any reason other than death or disability.

The Company used the Black-Scholes valuation pricing model to determine the fair value of its non-qualified stock option awards. The determination of the fair value of the awards is affected by the stock price as well as assumptions regarding a number of other variables. These variables include expected stock price volatility over the term of the awards, annual dividends, and a risk-free interest rate assumption.

Table of Contents

A summary of the activity for these awards during the years ended December 31, 2014, 2013, and 2012, is presented below:

Non-Qualified Stock Option Awards	Shares	Wtd. Avg. Fair Value Per Share	Wtd. Avg. Remaining Contractual Term (Years)	Aggregate Intrinsic Value

Vested	(37,130)	\$ 1,176,331

Non-Vested at December 31, 2014	47,570
---------------------------------	--------

The weighted-average grant-date fair value of options granted during the year ended December 31, 2014 was \$14.25. The total intrinsic value of options exercised during the year ended December 31, 2014 was approximately \$387,000. As of December 31, 2014, there was approximately \$264,000 of unrecognized compensation related to non-qualified, non-vested stock option awards, which will be recognized over a weighted average period of 1.4 years.

LIABILITY-CLASSIFIED STOCK COMPENSATION

The Company previously had a stock option plan (the 2001 Plan) pursuant to which 500,000 shares of the Company's common stock could be issued. The 2001 Plan is expired, and no new stock options may be issued thereunder. Under the 2001 Plan, both stock options and stock appreciation rights were issued in prior years and such issuances were deemed to be liability-classified awards under the Share-Based Payment Topic of FASB ASC, which are required to be remeasured at fair value at each balance sheet date until the award is settled.

Table of Contents

A summary of share option activity under the 2001 Plan during the years ended December 31, 2014, 2013, and 2012 is presented below:

Stock Options

Liability-Classified Stock Options	Shares	Wtd. Avg. Fair Value Per Share	Wtd. Avg. Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at December 31, 2011	205,800	\$ 53.12		
Granted				
Exercised	(5,600)	20.12

Exercisable at December 31, 2014	35,300	\$ 62.47	2.46	\$ 102,022

In connection with the grant of non-qualified stock options, a stock appreciation right for each share covered by the option was also granted. The stock appreciation right entitles the optionee to receive a supplemental payment, which may be paid in whole or in part in cash or in shares of common stock, equal to a portion of the spread between the exercise price and the fair market value underlying the share at the time of exercise. The total intrinsic value of options exercised during the year ended December 31, 2014 was approximately \$232,000.

Stock Appreciation Rights

Liability-Classified Stock Appreciation Rights	Shares	Wtd. Avg. Fair Value Per Share	Wtd. Avg. Remaining Contractual	Aggregate Intrinsic Value

F-33

Table of Contents

The total intrinsic value of stock appreciation rights exercised during the year ended December 31, 2014 was approximately \$125,000.

A summary of the non-vested options for these awards during the years ended December 31, 2014, 2013, and 2012, is presented below:

Liability-Classified Stock Options and Stock Appreciation Rights	Shares	Fair Value of Shares Vested
Non-Vested at December 31, 2011	42,160	
Vested	(10,120)	\$ 23,962
Forfeited/Expired	(29,400)	
Non-Vested at December 31, 2012	2,640	
Vested	(2,640)	\$ 20,038
Forfeited/Expired		
Non-Vested at December 31, 2013		
Vested		\$
Forfeited/Expired		
Non-Vested at December 31, 2014		

The fair value of each share option and stock appreciation right is estimated on the measurement date using the Black-Scholes option pricing model based on assumptions noted in the following table. Expected volatility is based on the historical volatility and other factors of the Company. The Company has elected to use the simplified method of estimating the expected term of the options and stock appreciation rights.

Due to the small number of employees included in the Plan, the Company uses the specific identification method to estimate forfeitures and includes all participants in one group. The risk-free rate for periods within the contractual term of the share option is based on the U.S. Treasury rates in effect at the time of measurement.

The Company issues new, previously unissued, shares as options are exercised.

Following are assumptions used in determining the fair value of stock options and stock appreciation rights:

Assumptions at December 31,	2014	2013	2012
Expected Volatility	34.07%	23.07%	24.34%
Expected Dividends	0.07%	0.11%	0.13%
Expected Term	2 years	3 years	3 years
Risk-Free Rate	0.78%	1.21%	0.39%

There were no stock options or stock appreciation rights granted under the 2001 plan in 2014, 2013, or 2012.

The liability for stock options and stock appreciation rights, at fair value, reflected on the consolidated balance sheets at December 31, 2014 and 2013, was approximately \$560,000 and \$248,000, respectively. These fair value measurements are based on Level 2 inputs based on Black-Scholes and market implied volatility. The Black-Scholes determination of fair value is affected by variables including stock price, expected stock price volatility over the term of the awards, annual dividends, and a risk-free interest rate assumption.

Amounts recognized in the financial statements for stock options, stock appreciation rights, and restricted stock are as follows:

	Year Ended December 31,		
	2014	2013	2012
Total Cost of Share-Based Plans Charged Against			
Income Before Tax Effect	\$ 1,271,924	\$ 901,447	\$ 1,047,335
Income Tax Expense)			
Recognized in Income	\$ (490,645)	\$ (347,733)	\$ (404,010)

F-34

Table of Contents

The aggregate intrinsic value of options is calculated by taking the current stock price of the Company as of the balance sheet date less the option exercise price, times the respective number of shares outstanding or exercisable, on a weighted average basis. Options with an exercise price greater than the current stock price are excluded from the calculation.

NOTE 18. INCOME TAXES

In July 2013, the FASB issued ASU 2013-11, which amends its guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The amendments in this update are effective for annual reporting periods beginning after December 15, 2013. The adoption of these changes did not have a material impact on the Company's consolidated financial statements.

The provisions for income tax benefit (expense) are summarized as follows:

	2014		2013		2012	
	Current	Deferred	Current	Deferred	Current	Deferred
Federal	\$ (2,233,512)	\$ (1,223,260)	\$ (1,817,112)	\$ 264,121	\$ 58,443	\$ (269,712)
State	(302,896)	(71,195)	(354,061)	15,372	335,361	(95,370)
Total	\$ (2,536,408)	\$ (1,294,455)	\$ (2,171,173)	\$ 279,493	\$ 393,804	\$ (365,082)

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The sources of these differences and the related deferred income tax assets (liabilities) are summarized as follows:

	Deferred Tax	
	2014	2013
Deferred Income Tax Assets		
Depreciation	\$ 2,541,509	\$ 1,899,202
Deferred Compensation		147,588
Deferred Oil Lease Income	545,179	922,254
Deferred Lease Expense	1,147,181	1,288,555
Pension and Other Post Retirement Benefits	55,083	(48,342)
Stock Options	621,489	837,156
Impairment Reserves	1,688,979	1,688,979
Other - Net	80,501	40,259
Gross Deferred Income Tax Assets	6,679,921	6,775,651

Edgar Filing: CONSOLIDATED TOMOKA LAND CO - Form 10-K

Less - Valuation Allowance	(415,453)	(415,453)
Net Deferred Income Tax Assets	6,264,468	6,360,198
Deferred Income Tax Liabilities		
Sales of Real Estate	\$ (39,635,433)	\$ (37,810,005)
Commercial Mortgage Purchase Discount		(504,886)
Basis Difference in Joint Venture	(342,015)	(342,015)
Other - Net	(325,462)	(255,360)
Total Deferred Income Tax Liabilities	(40,302,910)	(38,912,266)
Net Deferred Income Tax Liabilities	\$ (34,038,442)	\$ (32,552,068)

In assessing the realizability of deferred income tax assets, Management considers whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the realization of future taxable income during the periods in which those temporary differences become deductible. We consider

F-35

Table of Contents

past history, the scheduled reversal of taxable temporary differences, projected future taxable income, and tax planning strategies in making this assessment. As of December 31, 2014 and 2013, we believe it is more likely than not that a portion of the Company's deferred income tax assets will not be realized, and accordingly, a valuation allowance has been provided. As of December 31, 2014 and 2013, the valuation allowance was approximately \$415,000.

As of December 31, 2014 and 2013, the valuation allowance relates solely to a basis difference in a joint venture with a wholly owned and fully consolidated subsidiary, and no valuation allowance is provided for charitable contribution carryforwards due to the expectation of full utilization during 2014 and 2013.

Following is a reconciliation of the income tax computed at the federal statutory rate of 35% for 2014, 2013, and 2012:

	Year ended December 31,		
	2014	2013	2012
Income Tax (Expense) Benefit Computed at Federal Statutory Rate	\$ (3,575,138)	\$ (1,558,626)	\$ 10,158
Increase (Decrease) Resulting from:			
State Income Tax, Net of Federal Income Tax Benefit	(349,334)	(149,791)	8,360
Other Reconciling Items	93,609	(183,263)	10,204
Benefit (Expense) for Income Taxes	\$ (3,830,863)	\$ (1,891,680)	\$ 28,722

The effective income tax rate for each of the three years ended December 31, 2014, 2013, and 2012, including income taxes attributable to the discontinued operations, was 37.5%, 41.3%, and 36.7%, respectively. There were no changes to unrecognized tax benefits during the years ended December 31, 2014, 2013, or 2012.

The Company files a consolidated income tax return in the United States Federal jurisdiction and the States of Arizona, Colorado, California, Florida, Illinois, Georgia, Maryland, North Carolina, Texas, and Washington. The Internal Revenue Service has audited the federal tax returns through the year 2012, with all proposed adjustments settled. The Company recognizes all potential accrued interest and penalties to unrecognized tax benefits in income tax expense. For the years ended December 31, 2014, 2013, and 2012 the Company recognized no uncertain tax positions or accrued interest and penalties for uncertain tax positions.

Net income taxes paid during the years ended December 31, 2014 and 2013 totaled approximately \$3.0 million and \$1.6 million, respectively. Net income taxes of approximately \$177,500 were refunded during the year ended December 31, 2012.

NOTE 19. COMMITMENTS AND CONTINGENCIES

MINIMUM FUTURE RENTAL PAYMENTS

The Company leases, as lessee, certain equipment, land, and improvements under operating leases.

Minimum future rental payments under non-cancelable operating leases having remaining terms in excess of one year as of December 31, 2014, are summarized as follows:

Year Ending December 31,	Amounts
2015	\$ 736,606
2016	553,347
2017	328,551
2018	295,529
2019	297,182
2020 and thereafter (cumulative)	817,552
Total	\$ 3,028,767

Rental expense under all operating leases amounted to approximately \$408,000, \$402,000, and \$666,000, for the years ended December 31, 2014, 2013, and 2012, respectively.

F-36

Table of Contents**MINIMUM FUTURE RENTAL RECEIPTS**

Additionally, the Company, as lessor, leases certain land, buildings, and improvements under operating leases.

Minimum future rental receipts under non-cancelable operating leases having remaining terms in excess of one year as of December 31, 2014, are summarized as follows:

Year Ending December 31,	Amounts
2015	\$ 15,166,617
2016	14,913,721
2017	13,080,929
2018	12,952,643
2019	12,368,304
2020 and thereafter (cumulative)	68,697,963
Total	\$ 137,180,177

LEGAL PROCEEDINGS

From time to time, the Company may be a party to certain legal proceedings, incidental to the normal course of business. While the outcome of the legal proceedings cannot be predicted with certainty, the Company does not expect that these proceedings will have a material effect upon our financial condition or results of operations.

In September 2010, St. Johns River Water Management District (the District) served the Company with an administrative complaint filed with the Florida Division of Administrative Hearings in connection with certain Company agricultural operations. In August 2012, the Company submitted a proposed settlement offer to the District, offering certain undeveloped acreage owned by the Company. The Company accrued a reserve equal to \$611,691 in the quarter ended September 30, 2012, reflecting the Company's carrying value of the acreage offered to settle the matter. In December 2012, the Company and the District executed a settlement agreement (SJRWMD Agreement) in which the Company agreed to submit an after-the-fact permit application and increased the undeveloped acreage offered for mitigation in connection with the permit. The Company adjusted the reserve to a total of \$723,058 to reflect the increased acreage offered in the SJRWMD Agreement. The SJRWMD Agreement was contingent upon the Company and the District reaching agreement on a management fee and issuance of the permit. The Company submitted its permit application on January 28, 2013. In March 2013 the Company conveyed the acreage contemplated by the SJRWMD Agreement, the District issued the after-the-fact permit and the litigation was settled.

On November 21, 2011, the Company, Indigo Mallard Creek LLC and Indigo Development LLC, as owners of the property leased to Harris Teeter, Inc. (Harris Teeter) in Charlotte, North Carolina, were served with pleadings filed in the General Court of Justice, Superior Court Division for Mecklenburg County, North Carolina, for a highway condemnation action involving the property. The proposed road modifications would impact access to the Company's property that is leased to Harris Teeter. The Company does not believe the road modifications provided a basis for Harris Teeter to terminate the Lease. Regardless, in January 2013, NCDOT proposed to redesign the road modifications to keep the all access intersection open for ingress with no change to the planned limitation on egress to the right-in/right-out only. Additionally, NCDOT and the City of Charlotte proposed to build and maintain a new access road/point into the property. Both government entities have confirmed that funding is available and the redesigned project is proceeding. Harris Teeter has expressed satisfaction with the redesigned project and indicated

that it will not attempt to terminate its lease if this project is built as currently redesigned. Because the redesigned project will not be completed until 2016, the condemnation case has been placed in administrative closure. As a result, the trial and mediation will not likely be scheduled until requested by the parties, most likely in 2016.

In May 2010, the Company filed a lawsuit in the Circuit Court, Seventh Judicial Circuit, in and for Volusia County, Florida (Circuit Court), in order to enforce its approximate \$3.8 million claim of lien on real property owned by FM Bayberry Cove Holding, LLC (FM Bayberry) for its share of the costs for construction of a road. BB&T was included as a defendant as the current mortgage holder of the property subject to the Company s lien. BB&T filed a counterclaim asserting that its mortgage is superior to the Company s claim of lien which the Company denied. BB&T and the Company each filed motions for summary judgment as to the priority of their respective interests in the property which were heard by the court on January 12, 2012. The Circuit Court determined that the Company s interests were superior to the lien imposed by BB&T and all other interests and a final judgment of foreclosure was subsequently entered. However, all further proceedings in the Circuit Court (including the foreclosure sale) were stayed pending BB&T s appeal to the Florida District Court of Appeal, Fifth District (the Appellate Court), regarding the Circuit Court s determination in the matter of priority. On October 29, 2013, the Appellate Court ruled in favor of the Company, affirming the Circuit Court s determination that the Company s lien against the approximately 600-acre parcel of residential land (lying west of I-95 near the LPGA International development and adjacent to Bayberry Colony) is superior to the lien imposed by BB&T. The judgment has accrued to over \$4.6 million, including interest. The Company has not included an accrual related to interest in the consolidated

Table of Contents

financial statements. At this time, the Appellate Court's decision is subject to possible motion for rehearing by BB&T. On December 3, 2013, the Circuit Court entered a Second Amended Final Judgment of Foreclosure in Accordance with the Appellate Court's Mandate, which, among other things, set the date of the Company's foreclosure sale to occur on January 29, 2014. On January 29, 2014, the Company's approximately \$4.7 million claim for unreimbursed costs and accrued interest was satisfied through the successful foreclosure of approximately 600 acres of land.

CONSTRUCTION AND OTHER COMMITMENTS

In conjunction with the Company's sale of approximately 3.4 acres of land to RaceTrac Petroleum, Inc. ("RaceTrac") in December 2013, the Company agreed to reimburse RaceTrac for a portion of the costs for road improvements and the other costs associated with bringing multiple ingress/egress points to the entire 23 acre Williamson Crossing site, including the Company's remaining 19.6 acres. The estimated cost for the improvements equals approximately \$1.26 million and the Company's commitment is to reimburse RaceTrac in an amount equal to the lesser of 77.5% of the actual costs or \$976,500, and can be paid over five years from sales of the remaining land or at the end of the fifth year. As of December 31, 2013, the Company deposited \$283,500 of cash in escrow related to the improvements which was classified as restricted cash in the consolidated balance sheets as of December 31, 2014 and 2013. Accordingly, as of December 31, 2014, the remaining maximum commitment is \$693,000.

During the year ended December 31, 2014, the Company sold approximately 75.6 acres of land, located on the east side of Interstate 95, for the development of a distribution center. In connection with the sale, the Company is obligated to fund approximately \$616,000 of certain road improvements, a portion of which will be reimbursed by the City. The amount of the reimbursement is estimated at approximately \$243,000. As the costs are incurred, the Company will recognize the deferred revenue as described in Note 14 "Deferred Revenue" on a percentage-of-completion basis. As of December 31, 2014 costs of approximately \$521,000 had been incurred and approximately \$95,000 remained. The road improvements are expected to be completed in February 2015.

As of December 31, 2014, the Company is committed to fund approximately \$994,000 of the total \$6.3 million first mortgage commitment for the redevelopment of an existing vacant retail property into a Container Store in Glendale, Arizona, which opened on February 7, 2015. As of December 31, 2014, approximately \$5.3 million was funded. The remaining \$994,000 may be drawn by the borrower as construction costs are incurred. Construction was substantially complete as of December 31, 2014 and the Company expects to fund the remaining commitment in the first quarter of 2015.

In connection with certain land sale contracts to which the Company is a party, the purchasers' pursuit of customary development entitlements has given rise to an informal inquiry by federal regulatory agencies regarding prior agricultural activities on a portion of our land. We believe the issues raised by, and the land which is the subject of, this inquiry are similar to or the same as those which were addressed and resolved by the SJRWMD Agreement and the permit which the District subsequently issued to the Company. We have received no formal notification from any of these agencies regarding this matter. As a result, given the early stage of this process, we are unable to reasonably estimate the liability, if any, that the Company may incur arising from this inquiry. Accordingly, no amounts have been accrued as of December 31, 2014 related to this matter.

NOTE 20. BUSINESS SEGMENT DATA

The Company primarily operates in four business segments: income properties, commercial loan investments, real estate operations, and golf operations. Our income property operations consist primarily of income-producing properties and our business plan is focused on investing in additional income-producing properties. Our income

property operations accounted for 68.6% and 67.1% of our identifiable assets as of December 31, 2014 and 2013, respectively, and 42.1%, 49.6%, and 52.1% of our consolidated revenues for the years ended December 31, 2014, 2013, and 2012, respectively. Our commercial loan investments consisted of one loan collateralized by a hotel property in Atlanta, Georgia as of December 31, 2013. As of December 31, 2014, we had five commercial loan investments including a fixed-rate mezzanine commercial mortgage loan, a fixed-rate first mortgage, a variable-rate B-Note, a variable-rate mezzanine commercial mortgage loan, and a variable-rate first mortgage loan. Our real estate operations primarily consist of revenues generated from land transactions and leasing and royalty income from our interests in subsurface oil, gas and mineral rights. Our golf operations consist of a single property located in the City of Daytona Beach, with two 18-hole championship golf courses, a practice facility, and clubhouse facilities, including a restaurant and bar operation and pro-shop with retail merchandise. The majority of the revenues generated by our golf operations are derived from members and public customers playing golf, club memberships, and food and beverage operations.

The Company evaluates performance based on profit or loss from operations before income taxes. The Company's reportable segments are strategic business units that offer different products. They are managed separately because each segment requires different management techniques, knowledge, and skills.

F-38

Table of Contents

Information about the Company's operations in different segments for the years ended December 31, 2014, 2013, and 2012 is as follows:

	Year Ended December 31,		
	2014	2013	2012

Operating income represents income from continuing operations before loss on early extinguishment of debt, interest expense, interest income, and income taxes. General and corporate expenses are an aggregate of general and administrative expenses, impairment charges, depreciation and amortization expense, and gains (losses) on the disposition of assets. Identifiable assets by segment are those assets that are used in the Company's operations in each segment. Other assets consist primarily of cash, property, plant, and equipment related to the other operations, as well as the general and corporate operations. There were no transactions between segments for any of the periods presented.

NOTE 21. SUBSEQUENT EVENTS

The Company reviewed all subsequent events and transactions that have occurred after December 31, 2014, the date of the consolidated balance sheet.

The Company executed an amendment to its Credit Facility on January 12, 2015 to adjust one of the covenants pertaining to permitted investments providing increased flexibility for the Company.

There were no other reportable subsequent events or transactions.
