LETTER FROM DEVRY EDUCATION GROUP PRESIDENT AND CHIEF EXECUTIVE OFFICER

OCTOBER 4, 2016

TO OUR SHAREHOLDERS:

I am honored to address DeVry Education Group's shareholders through this annual letter, my first as CEO. Having served on DeVry Group's board for close to eight years, I've witnessed significant change across our industry and across our organization.

Fiscal 2016 was no different. The global economy, the evolving manner in which our students prefer to access education, the emerging workforce skill-sets that are increasingly in demand and our ability to effectively respond to these and other factors, have all played parts in impacting our performance, our strategic planning process and our outlook.

We faced a number of challenges in the past year and we also made some tough decisions. Our operating results reflect very healthy performance at several of our institutions, offset in part by sub-par results at others. It's clear that we still have a lot of work to do.

There is a very strong sense of accountability and purpose across our organization. We have never been more committed to serving our students, the many employers who value our graduates and you, our shareholders, who have supported DeVry Group and made our growth possible over the years.

Our path to success is clear. We have to focus our resources on more effectively addressing the global work force skills gaps that are prevalent in our society. Far too many students lack access to the right kind of education that will give them the knowledge and skills they need to pursue rewarding careers. And far too many employers are suffering from a lack of qualified job candidates. This is unacceptable.

It's also personal for me. As the first in my family to graduate college, I understand the sacrifice that many non-traditional students make to gain access to the higher education system. There were times during college that I had to choose between paying for tuition and helping my family to pay the bills. This is the reality of students who come from challenged socioeconomic backgrounds, as well as many students who simply require a different path to maximizing their potential.

This is what motivates me. I believe we have an opportunity to democratize access to education by better pairing our programs with the students who can benefit most from them in a fashion that improves their ability to learn.

DeVry Group's focus, and my mission as CEO, is centered on achieving this goal while improving the underlying economics of how we operate.

In the year ahead, we will concentrate on expanding our program offerings and reach across a number of in-demand professions worldwide, particularly in technology, healthcare and professional education.

We aim to strengthen those programs that will best prepare our students to excel in the industries that are most in need of skilled professionals. I believe this organization-wide mandate will help us to achieve better persistence, completion and placement. And it will serve as the primary measure of our success.

Moreover, I believe we can achieve this mission while ensuring that we operate in the most efficient manner in every aspect of our operations.

We are now at an inflection point and entering fiscal 2017 we expect to show continued momentum in terms of improved performance overall. We are keenly focused on stabilizing our revenues and growing earnings and carefully managing our capital allocation to the benefit of our shareholders.

Table of Contents

EXECUTING OUR PLAN ASSESSING OUR PERFORMANCE

Our fiscal 2016 operating results, which were largely in line with our plan, reflect continued solid growth at several of our institutions, including Chamberlain, DeVry Medical International, Becker and DeVry Brasil, offset in part by the transition underway at DeVry University and the challenges at Carrington.

Underlining our results, in the past year we continued to carefully right-size our organization to reflect current market dynamics and improve our operating leverage. We made notable progress in reducing costs at DeVry University and Carrington, as well as Home Office.

We also took a range of actions to further diversify our revenue profile and expand our exposure to attractive, fast-growing sectors where there is strong and consistent demand for well-trained professionals.

For perspective, 30 percent of our revenues are now derived internationally compared to only 12 percent five years ago. Moreover, 51 percent of our revenues now come from the medical and healthcare sector, compared to 26 percent five years ago. In addition, 83 percent of our operating income, before special items, in fiscal 2016 came from medical and healthcare, compared to only 22 percent five years ago.

Our progress was especially noteworthy in the area of cost reductions, as reflected by our improved operating profitability, special items. Overall we reduced our total expenses by four percent in fiscal 2016.

In fiscal 2016, we generated operating cash flow of \$232 million compared to \$203 million in fiscal 2015. We also delivered \$162 million of free cash flow, resulting in a yield of 14 percent, on par with many companies in the S&P 500. And, we returned approximately \$56 million to shareholders through a combination of share repurchases and dividends.

These metrics serve as proof points in the execution of our plan and the overall health of our organization. But, we still have much to do, primarily at DeVry University.

We are listening to our students and the employers who pursue our graduates. We know we need to move much quicker to address the changing market realities that are impacting how education is delivered. This includes increased interest in shorter programs and certificate programs that allow students to gain career mobility while they are pursuing their degree, as well as stackable programs that provide students with the flexibility to pursue their education outside of the traditional four-year degree construct.

We also have to develop a better program set to address supply and demand imbalances while using our technology advantage, which has served as a cornerstone to the DeVry University value proposition. By focusing on these imperatives, the path to DeVry University's success is quite clear.

As we focus on accelerating the turnaround at DeVry University, we have continued to benefit from the diversity of our operations and the healthy momentum at several of our institutions.

We have brought together a respected and well-run group of educational institutions. In turn, we have prepared thousands of graduates—from doctors and veterinarians to accountants and nurses—to serve as ambassadors to the quality of the education DeVry Group delivers.

Chamberlain and DeVry Brasil have continued to generate particularly strong top-line growth, and we are seeing continued solid performance from Becker, as we further strengthen our test preparation programs and build on the

institution's exceptional reputation.

DeVry Group is clearly evolving and the underlying profitability of our operations is showing improvement. We believe we're making the right decisions and laying the groundwork to return to growth, with the benefit of significant operating leverage, which will bolster our cash flows and our ability to return value to our shareholders.

THE ROAD TO VALUE CREATION FOUR PRIORITY INITIATIVES

Looking ahead, DeVry Group's strategic focus will revolve around the following four priorities:

First and foremost, we'll continue to foster a heightened culture of student-centric focus and academic excellence to fully deliver on the promise and value proposition across all of DeVry Group's institutions. Persistence, completion and placement are the key factors to our success;

Table of Contents

Second, we will continue our efforts aimed at transforming the organization to stabilize revenue and grow operating income and earnings per share and grow the intrinsic value of DeVry Group;

Third, we are going to accelerate our efforts to leverage our organizational synergies and broaden cost reductions beyond DeVry University; and

Fourth, we are going to continue to work to find a resolution to the regulatory issues we are facing with speed and financial certainty.

Underscoring these priorities is my keen desire to be part of the solution to issues facing higher education and I intend to work collaboratively with the Administration and Congress on a mutually productive path forward.

AN IMPROVING OUTLOOK FISCAL 2017 AND BEYOND

Entering fiscal 2017, we are continuing to face some challenges, but we are operating with a strong sense of purpose in executing against our strategy. I believe we are well positioned to increasingly benefit from the steps we are taking to expand our exposure across many of the most sought after and fastest growing professions worldwide.

We recognize that time is of the essence at DeVry University in terms of stabilizing it and returning it to growth. This is a priority for our management team and we are dedicated to delivering further progress as the year unfolds.

We will also look to extend our expense discipline efforts across our organization, which should set the stage for considerable operating leverage as overall enrollments turn positive.

Our mandate is clear. We have a tremendous opportunity to focus our resources on more effectively addressing the global work force skills gaps that are prevalent in our society. This will benefit our students, the employers who are searching for qualified candidates and our society as a whole.

This is a very worthwhile and achievable goal and I look forward to reporting on our progress and success in the year ahead.

INDEPENDENT BOARD CHAIR

Since 2004, the offices of chair of the board of directors (Board Chair) and CEO have been held by different individuals, with the Board Chair currently being Mr. Begley, an independent director. The Board believes that the existing leadership structure currently serves DeVry Group and its shareholders well. The Board has no specific policy with respect to the separation of the positions of Board Chair and CEO. The Board believes that this issue should be part of the succession planning process and that it is in the best interests of DeVry Group and its shareholders for the Board to make a determination regarding this issue when it annually elects the Board Chair. During fiscal year 2016, the Board met in executive session without employee directors or other employees present at each regular Board meeting. DeVry Group's Board Chair presided over these sessions as the non-executive Board Chair.

DIRECTOR ATTENDANCE

Attendance at Board Meetings

During fiscal year 2016, our Board met seven times. All of the DeVry Group directors attended 75 percent or more of the meetings of the Board and Board committees on which they served that occurred during their respective time of service on the Board in fiscal year 2016.

Attendance at Annual Meetings

All of our directors who were directors at the time were present at the 2015 Annual Meeting of Shareholders, held in November 2015. Our Board encourages all of its members to attend the Annual Meetings but understands there may be situations that prevent such attendance.

Proposal No. 1 Election of Directors

PROXY STATEMENT

PROPOSAL NO. 1 ELECTION OF DIRECTORS

The current size of the Board of Directors is ten directors. Except for David S. Brown and Alan Merten, each of whom has chosen not to stand for re-election, the Board has nominated each of DeVry Group's sitting directors and recommends their re-election, each for a term to expire in 2017. The Board of Directors intends to decrease the size of the Board of Directors to eight members, immediately prior to the 2016 Annual Meeting. All of the nominees have consented to serve as directors if elected at the Annual Meeting.

It is intended that all shares represented by a proxy in the accompanying form will be voted for the election of each of Christopher B. Begley, Ann Weaver Hart, Lyle Logan, Michael W. Malafronte, Fernando Ruiz, Ronald L. Taylor, Lisa W. Wardell and James D. White as directors unless otherwise specified in such proxy. A proxy cannot be voted for more than eight persons. In the event that a nominee becomes unable to serve as a director, the proxy committee will vote for the substitute nominee that the Board designates. The Board has no reason to believe that the nominees will become unavailable for election.

Each nominee for election as a director is listed below, along with a brief statement of his or her current principal occupation, business experience and other information, including directorships in other public companies held as of the date of this Proxy Statement or within the previous five years. Under the heading Relevant Experience, we describe briefly the particular experience, qualifications, attributes or skills that led to the conclusion that these nominees should serve on the Board. As explained below under the caption Additional Information Director Nominating Process and Factors Considered, the Nominating & Governance Committee looks at the Board as a whole, attempting to ensure that it possesses the characteristics that the Board believes important to effective governance.

APPROVAL BY SHAREHOLDERS

The election of each of the eight nominees for director listed below requires the affirmative vote of a majority of the shares of Common Stock of DeVry Group outstanding on the record date. Unless otherwise indicated on the proxy, the shares will be voted **FOR** each of the nominees listed below.

DIRECTOR INDEPENDENCE

The Board of Directors has considered whether each director has any material relationship with DeVry Group (either directly or as a partner, shareholder or officer of an organization that has a relationship with DeVry Group) and has otherwise complied with the requirements for independence under the applicable listing standards of the New York Stock Exchange (NYSE).

As a result of this review, the Board of Directors affirmatively determined that, with the exception of Mr. Taylor and Ms. Wardell, all of DeVry Group's current directors, and Dr. Linda Katehi who served as a director from February 16, 2016 until March 1, 2016, are, or were at the time of their service, independent of DeVry Group and its management within the meaning of the applicable NYSE rules. Mr. Taylor is considered an inside director because of his status as a Senior Advisor to DeVry Group. Ms. Wardell is considered an inside director because of her employment as President and CEO of DeVry Group.

The Board considered the relationship between DeVry Group and Northern Trust Corporation, at a subsidiary of which DeVry Group maintains depository accounts and through which a significant portion of DeVry Group's disbursement activity is conducted, because Mr. Logan is Executive Vice President and Managing Director, Global Financial Institutions Group, with Northern Trust Global Investments, a business unit of Northern Trust Corporation. In fiscal year 2016, DeVry Group incurred approximately \$1.0 million in fees to Northern Trust Corporation, which were partially offset against compensating balance credits earned on an average monthly outstanding balance of approximately \$72.1 million. The Board of Directors concluded, after considering that the relationship predates Mr. Logan joining the Board, that Mr. Logan had no involvement in the transactions, the lack of materiality of the transactions to DeVry Group and to Northern Trust Corporation, and the fact that the terms of the transactions are not preferential either to DeVry Group or to Northern Trust Corporation, that the relationship is not a material one for purposes of the NYSE listing standards and would not influence Mr. Logan's actions or decisions as a director of DeVry Group.

DIRECTOR CONTINUING EDUCATION

Members of the Board of Directors are encouraged to participate in continuing education and enrichment classes and seminars.

DIRECTOR APPOINTMENT ARRANGEMENTS

On June 30, 2016, DeVry Group entered into a Support Agreement (the Support Agreement) with each of the members of International Value Advisers, LLC (collectively, IVA) and Michael W. Malafronte, in his individual capacity and as a member of IVA, pursuant to which DeVry Group increased the size of the Board by one director and appointed Mr. Malafronte to the newly-created vacancy. The Support Agreement also includes, among other provisions, certain standstill and voting commitments by IVA. The standstill period shall extend until such time as Mr. Malafronte, or any replacement of Mr. Malafronte designated by IVA pursuant to the Support Agreement, is no longer a member of the Board. Pursuant to the Standstill Agreement, Mr. Malafronte must resign from the Board if (i) he agrees to be included as a director nominee for election at any meeting of DeVry Group stockholders other than as a

director nominated by the Board for election at such meeting, (ii) IVA and its affiliated entities cease collectively to beneficially own or have other ownership interest in an aggregate net long position of at least 10% of the outstanding shares of DeVry Group's common stock or (iii) either of IVA or Mr. Malafronte materially breaches any obligation under the Support Agreement and fails to cure such breach.

CERTAIN RELATIONSHIPS AND RELATED-PARTY TRANSACTIONS

Various DeVry Group policies and procedures, including the Code of Conduct and Ethics, which applies to DeVry Group's directors, officers and all other colleagues, and annual questionnaires completed by all DeVry Group directors, director nominees and executive officers, require disclosure of transactions or relationships that may constitute conflicts of interest

No relationships or transactions existed or occurred between DeVry Group and any officer, director or nominee for director, or any affiliate of or person related to any of them, since the beginning of DeVry Group s last fiscal year, of the type and amount that are required to be disclosed under applicable SEC rules.

EXECUTIVE SUMMARY

DeVry Group's executive compensation program is designed to reward leaders for delivering strong financial results and building shareholder value. We firmly believe that academic quality and a strong student-centric focus leads to growth, and therefore we have incorporated measures into our executive compensation program to recognize leadership for their roles in improving student academic performance and outcomes.

This executive compensation program structure enables us to provide a competitive total compensation package while aligning our leaders' interests with those of our shareholders and other stakeholders. The following chart highlights key objectives behind the development, review and approval of our NEOs' compensation.

COMPENSATION OBJECTIVES

Our executive compensation program is designed to:

Align Incentives

Our purpose is to empower our students to achieve their educational and career goals. Success realizing our purpose drives growth, which leads to creation of sustainable, long-term value for our shareholders. Our compensation program is distinguished by its alignment not only with our shareholders, but also with our students, whose success is critical to our organization's success.

Compete for Talent

Our compensation program is designed to attract, retain and motivate high-performing colleagues, particularly our key executives who are critical to our operations. Our compensation decisions take into account the competitive landscape for talent.

Reward Performance

We reward outstanding performance through:

A short-term term incentive program focusing our executives on achieving strong financial results, and superior academic and student outcomes, including through individual performance objectives, and

A long-term incentive program providing a mix of equity vehicles designed to reward shareholder value creation, organizational performance, and successful academic and student outcomes.

Fiscal Year 2016 Year in Review

2016 FINANCIAL AND OPERATIONAL HIGHLIGHTS

DeVry Group's fiscal year 2016 financial results reflect continued solid growth at Chamberlain College of Nursing, DeVry Medical International, Becker and DeVry Brasil, offset in part by the transition underway at DeVry University and the challenges at Carrington College. Through substantial expense reduction initiatives, DeVry Group maintained stable operating income, before special items, despite declining revenue. DeVry Group reduced total expenses by four percent in fiscal year 2016.

These results were below our revenue and net income expectations, as reflected in our fiscal year 2016 operating plan, which served as the basis for our fiscal year 2016 MIP financial performance targets. As a result of these missed expectations, the portions of executive officer Management Incentive Plan (MIP) awards based on DeVry Group revenue and net income paid out at 84.2% and 84.5% of target, respectively

CEO AND CFO LEADERSHIP TRANSITIONS

DeVry Group's President and CEO since 2006, Daniel M. Hamburger, resigned in May 2016 and was replaced by Lisa W. Wardell. Prior to her appointment by the DeVry Group board of directors, Ms. Wardell served as a member of DeVry Group's board of directors, where she served as chair of its audit and finance committee, since 2008 and served as Executive Vice President and Chief Operating Officer for The RLJ Companies, a diversified holding company with portfolio companies in the financial services, asset management, real estate, hospitality, professional sports, film production and gaming industries. Ms. Wardell's deep knowledge of DeVry Group, combined with her strategic, operational and functional experience as a financial and operating executive at a diversified holding company, make her ideally suited to lead DeVry Group's global diversification efforts. Prior to her professional career, Ms. Wardell overcame significant financial challenges to become the first in her family to attend college. Her unique leadership perspective reflects, reinforces and enhances DeVry Group's student-centered focus and mission of empowering students to achieve their educational and career goals. Shortly after Ms. Wardell's appointment, DeVry Group's Senior Vice President and Chief Financial Officer, Timothy J. Wiggins, resigned, and was replaced by Patrick J. Unzicker, who had formerly served as Vice President, Chief Accounting Officer and Treasurer.

CONTINUING GLOBAL DIVERSIFICATION

Continuing its global diversification efforts, DeVry Group acquired Grupo Ibmecc, owner of Ibmecc, a provider of one of Brazil's leading business programs, and the Association of Certified Anti-Money Laundering Specialists (ACAMS), the largest international membership organization dedicated to enhancing the knowledge and skills of anti-money laundering (AML) and financial crime prevention professionals. Leveraging the distance learning capabilities of its Dámasio acquisition in 2015, the Ibmecc acquisition will enable DeVry Brasil to provide higher education through more than two hundred learning centers throughout Brazil. ACAMS further expands DeVry Group's professional education capabilities with a leading brand and product, and provides DeVry Group's Becker Professional Education business unit increased operating leverage through complementary capabilities and customer relationships.

As a result of these diversification efforts, in fiscal year 2016, 30% of DeVry Group's revenue was derived internationally, compared to 12% five years ago, 51% of DeVry Group's revenue came from the medical and healthcare sector, compared to 26% five years ago, and 83% of DeVry Group's operating income, before Special Items, came from medical and healthcare, compared to 22% percent five years ago.

Adjusted Committee Leadership Compensation

Implemented at

the Beginning of Fiscal Year 2016

Following a review of DeVry Group's director compensation practices with the Compensation Committee's independent compensation consultant, Willis Towers Watson, the Compensation Committee approved increases to retainers paid to committee chairs to match median compensation paid to committee chairs in DeVry Group's peer group. Beginning in fiscal year 2016, committee chairs are paid the following annual retainers for service as a committee chair: Audit and Finance Committee \$22,500; Academic Quality Committee \$10,000; Nominating & Governance Committee \$10,000; and Compensation Committee \$17,500.

New Relative Academic Focus for Performance Share Program

In its continuing effort to calibrate its compensation program to drive objective academic performance, DeVry Group changed several of its performance goals to relative goals to drive and reward relative academic performance and widened the performance curve for goals related to Carrington College and DeVry University to ensure minor performance changes did

not have outsized impacts. For more information, see the new Pay-for-Academic Performance Focus section of this Proxy Statement on pages 27 to 29.

Key Fiscal Year**2016****Compensation****Decisions***(see page 34 for details)***CEO Transition**

In May 2016, following nine years of service, Daniel M. Hamburger resigned from his service to DeVry Group as President and CEO and was replaced by Lisa W. Wardell. In connection with his separation, as more fully described on page 58, Mr. Hamburger received accelerated vesting for all unvested equity awards that would vest on or before August 31, 2017 and a pro-rated MIP payment for his service during fiscal year 2016. As a result of his separation, Mr. Hamburger forfeited unvested stock equity that had a realizable value of approximately \$1 million as of June 30, 2016 if such equity were to have vested.

Base Salary

Reflecting DeVry Group's commitment to offering market competitive compensation to our key executives, at the beginning of fiscal year 2016 Mr. Hamburger received a 2.00% base salary increase. Ms. Wardell, who was appointed as DeVry Group's President and CEO in May 2016, began her service at the same adjusted base salary as her predecessor. The annual base salary adjustments for the other NEOs ranged from 2.4% to 4.0%.

Annual Incentives

For the CEO, 85% of MIP award is based on DeVry Group measures of net income and revenue. The remaining 15% is based on individual performance. For the other NEOs, as in fiscal year 2015, 70% of the MIP award is based on financial performance at DeVry Group (net income and revenue) or at the institutions for which an NEO is responsible (operating income and revenue), and the remaining 30% is based on individual performance.

Following the end of fiscal year 2016, in accordance with her employment agreement, a MIP award for DeVry Group's President and CEO, Ms. Wardell, was paid for her partial year of

service since joining in May 2016 on a pro-rated basis at 100% of target. MIP awards for other NEOs were paid at between 85.2% and 92.5% of target, reflecting the financial performance of DeVry Group and its institutions and individual contributions for fiscal year 2016.

Long-term Incentives

In connection with her entry into an Executive Employment Agreement in May 2016, Ms. Wardell received a one-time equity award valued at \$3.7 million in fiscal year 2016 to compensate for forfeited long-term compensation from her prior employer, induce her acceptance of employment and incentivize her. Consistent with the LTI allocation paid to other executive officers, the award consisted of 50% options, 25% Full Value Shares and 25% Performance Shares. Values of equity awards granted to the other current NEOs ranged from approximately \$570,000 to \$595,000.

Changes for Fiscal Year 2017

Beginning in fiscal year 2017, the Compensation Committee increased the performance-based long term incentive (LTI) compensation awarded to executive officers and introduced several new changes to DeVry Group s LTI program design to more closely reward performance based on each executive s controllable outcomes.

A summary of the new weightings, including the use of financial-based performance shares (discussed below), follows:

	Options (weight)	RSUs (weight)	PSUs (weight)
CEO	40%	20%	20% financial /20% mission
CFO & Group Executives	40%	20%	20% financial /20% mission

PROXY STATEMENT**Expanded Performance-Based Compensation**

In fiscal year 2017, DeVry Group expanded the portion of performance-based LTI compensation for DeVry Group's CEO, CFO and Group Executives responsible for multiple institutions from 25% to 40%. DeVry Group's CEO, CFO and Group Executives will receive annual LTI awards consisting of 40% options, 20% full value shares (time vesting restricted stock units), 20% financial-based performance shares (performance vesting restricted stock units, based on ROIC attainment) and 20% mission-based performance shares (performance vesting restricted stock units, based on academic performance and student outcomes). DeVry Group also expanded the portion of performance-based LTI for its other executive officers from 25% to 30%. Functional leaders will receive 40% options, 30% full value shares, and 30% financial-based performance shares and institutional leaders will receive 40% options, 30% full value shares and 30% mission-based performance shares.

Reintroduced Financial-Based Performance Shares

DeVry Group reintroduced financial-based performance shares for certain leaders, and reduced the portion of LTI consisting of options. The financial-based performance shares pay out based on achievement of ROIC targets, and ROIC for the awards is calculated based on average invested capital (defined as the average of the sum of long-term indebtedness and shareholders equity at the end of the current and prior fiscal years).

Adjusted Mission-Based Performance Shares

In addition to annual adjustments to academic and student outcome performance targets based on past experience, DeVry Group:

changed the minimum financial performance threshold metric for fiscal year 2017 grants from ROIC to EBITDA margin for mission-based Performance Shares granted to the CEO and CFO and, to further align performance with academic outcomes, eliminated the financial threshold for mission-based Performance Shares granted to institutional leaders;

focused performance goals for institutional leaders and group executives to goals solely for institutions under each executive's leadership; and

added a banking feature for annual targets based on annual performance achievement.

Executive Compensation Compensation Discussion and Analysis

Shareholder Outreach

DeVry Group values our shareholders' opinions on the design and effectiveness of our executive compensation program. At our Annual Meeting of Shareholders in November 2015, 86% of the votes cast in our advisory say-on-pay shareholder vote approved our executive compensation package.

Following a nationwide search, in May, 2016, the DeVry Group Board appointed Lisa Wardell, formerly a DeVry Group independent director, the chair of DeVry Group's Audit and Finance Committee, and an experienced operating and financial executive, as President and CEO. The decision followed several years of declining financial performance. The decision reflects the Board's keen sense of urgency, shared with DeVry Group's shareholders and other stakeholders, to accelerate the transformation of DeVry Group and deliver positive, sustainable earnings and revenue growth,

As part of DeVry Group's continuing shareholder outreach, DeVry Group's new President and CEO, Lisa W. Wardell, and new Senior Vice President, CFO and Treasurer, Patrick J. Unzicker, visited DeVry Group's major shareholders shortly after their appointments as CEO and CFO, respectively, in June 2016. These shareholders owned, to the best of our knowledge, more than 53% of our shares outstanding as of the Annual Meeting record date.

DeVry Group's major shareholders expressed varying perspectives, a few common themes emerged from the discussions. Below is a summary of what we heard and the actions we took in response:

What we heard	How we responded
Capital allocation strategy should focus less on major acquisitions in the wake of ACAMS transaction	DeVry Group committed to halt pursuit of major acquisitions for at least a year or until DeVry Group demonstrates positive earnings growth
Demonstrate improved Board communication to investors	Appointed Michael W. Malafronte, a founder and managing director of DeVry Group's largest shareholder, as a director in June
	Established new, proactive Board and CEO investor outreach program
Empower deeper investor engagement	Amended corporate governance principles to establish a policy to call for a special meeting of shareholders under certain circumstances if requested

by shareholders owning for a period of one year or longer more than 25% of DeVry Group's shares outstanding

Further align long term incentive compensation to financial performance

Adjusted long term incentive (LTI) mix for executive officers to increase performance-based LTI and better align performance with each executive's controllable outcomes

Stock option grants reduced from 50% of overall LTI mix to 40%, with CEO, CFO and Group Presidents receiving 40% of overall LTI in form of financial- and mission-based performance shares

A portion of LTI for CEO, CFO and functional leaders now allocated to financial-based performance shares paying out based on ROIC performance

DeVry Group and the Compensation Committee will continue to engage its shareholder base in the future to understand shareholder concerns, particularly in connection with potential changes to its compensation or governance practices.

PAY-FOR-PERFORMANCE FOCUS

DeVry Group uses both short- and long- term incentives to reward NEOs for delivering strong business results, increasing shareholder value and improving student outcomes. With our pay-for-performance philosophy, executives can earn in excess of target levels when their performance exceeds established objectives. And, if performance falls below established objectives, our incentive plans pay below target levels, which in some cases could be nothing at all.

Program Design: 83% of the total target direct compensation for our former CEO, and between 51% and 72% of the total direct compensation for the other NEOs, is composed of variable pay.

The actual value realized from the annual Management Incentive Plan (MIP) award ranges from zero, if threshold performance targets are not met, up to 200% of targeted amounts for exceptional organizational performance.

Under the Performance Share component of our long-term incentive plan, payout is contingent on meeting both academic or student outcome performance goals and a minimum ROIC threshold. If the minimum level of ROIC performance is attained, the size of the payout is then based on meeting academic or student outcome targets established for each institution across the DeVry Group, as outlined in the table below in *Pay-for-Academic-Performance* .

Performance Assessment: Our Compensation Committee uses a comprehensive, well-defined and rigorous process to assess organizational and individual performance. We believe the performance measures for our incentive plans focus management on the appropriate objectives for the creation of short-and long-term shareholder value as well as organizational growth.

DeVry Group s incentive compensation program for executives is designed to link compensation performance with the full spectrum of our business goals, some of which are short-term, while others take several years or more to achieve:

<u>Short-Term</u>	<u>Long-Term</u>	<u>Long-Term</u>	<u>Long-Term</u>

Executive Compensation Compensation Discussion and Analysis

Other key features of our executive compensation program include:

Stock ownership requirements: Our stock ownership guidelines require all senior executives to meet specific ownership targets as a multiple of base salary. This requirement subjects these executives to the same long-term stock price volatility our shareholders experience. Currently, all NEOs and directors who are no longer subject to a phase-in period have met the minimum ownership requirements. See page 43 for more information.

Incentive Compensation Recoupment Policy: If the Compensation Committee determines that an executive received an incentive based on financial results that were restated due to knowing or intentional, fraudulent or illegal conduct on the part of the executive, DeVry Group may recover the incentive (in whole or in part). This policy serves to increase transparency and discourage executives from engaging in behavior that could potentially harm DeVry Group or its shareholders.

PROXY STATEMENT**PAY-FOR-ACADEMIC-PERFORMANCE FOCUS****DeVry Group's Performance Shares Put Focus on Student Outcomes**

DeVry Group's purpose is to empower students to achieve their academic and career goals. We believe our continuing focus on a student-centered culture of Care has distinguished DeVry Group, and is essential to preserving and enhancing shareholder value in a challenging regulatory and competitive environment. Our senior executives should be held accountable to, and rewarded for, the realization of our purpose – specifically, to sustaining and continuously improving the quality of our educational programs as reflected in the performance and achievement of students. And since the ongoing achievement of our students is essential to the creation of long-term shareholder value, beginning in August 2012 we decided to tie our Performance Shares to a combination of measures of student achievement for each of our core educational institutions. We call this our Mission Based award, which comprised 25% of our executive officers' LTI compensation in fiscal year 2016.

Our mission-based Performance Share program stands alone among publicly-held proprietary higher education organizations. Unlike most performance based equity awards, our Performance Shares first and foremost reward academic performance and student outcomes. The measures we use in our Performance Shares are important standards of the success of our institutions, but they are not widely used in the investor and executive compensation communities. In an effort to enhance investor understanding, we present in this section a review of DeVry Group's Performance Share program – reviewing its history, evolution and place in DeVry Group, including a review of the Performance Shares vesting this year.

History of Performance Share Grants

In 2010, we developed a set of Executive Compensation Principles, set forth on page 31, to guide us in the design, evaluation and administration of our executive compensation programs. In 2011, the Compensation Committee reviewed DeVry Group's compensation program through the lens of its Compensation Principles and concluded that, since the success of DeVry Group's students is fundamental to DeVry Group's success, the executive compensation program should evolve to reinforce DeVry Group's student-centered purpose. While DeVry Group's success, as reflected in its financial performance and stock value, is aligned with student success, the Compensation Committee desired an added compensation component that would further align student success with the compensation of DeVry Group's executive leadership.

With this objective, the Compensation Committee engaged its independent consultant, Willis Towers Watson, to work with DeVry Group leadership in the design of an LTI program focused on student success. The resulting Performance Shares, first awarded in August 2012, were designed to reward long-term academic and student outcome performance over a three year performance period.

We believe our program has served to distinguish us in our competition for leadership talent. Beginning in 2014, to further drive academic performance, DeVry Group expanded its Performance Share program to senior management at DeVry Group and each of its institutions. Institutional leaders, other than DeVry Group's executive officers, receive a portion of LTI as academic-based Performance Shares, with performance goals aligned to academic performance and

student outcomes at their institutions. As noted above in 2016 Compensation Decisions and Actions, we further refined the program, most notably by increasing the portion of mission-based Performance Shares awarded to our institution leaders from 25% to 30% of overall LTI and by focusing the metrics to reward performance solely at each executive's institution.

Review of Performance Share Payouts from 2013 Awards

Performance share awards granted in 2013 vested in 2016, with an overall payout of 69% of target, demonstrating that the high standards established for DeVry Group's institutions were challenging. The table below shows the performance measures and targets established for the 2013 Performance Shares, the performance of each institution against such goals, and the resulting payout attributable to such institution. Changes to Performance Shares for Fiscal Year 2016

After two years of experience and learning with the original performance measures used in the 2012 and 2013 grants, the Compensation Committee revised the academic and student outcome-based performance measures for the first time in the awards made to DeVry Group executive officers in 2014. As described in DeVry Group's 2015 proxy statement, the Compensation Committee's changes in 2014 were made with a focus on simplifying the Performance Share award to better motivate leadership, rebalancing the goals based on the contribution of each institution, and focusing the performance goals to allow for measures for acquired institutions in the future in keeping with DeVry Group's diversification strategy. In an effort to ensure that these changes had a balanced impact on the potential payout of the awards, based on the 2015 payouts, the Compensation Committee eliminated from the 2014 and 2015 awards

measures that performed above and below target, namely the Step 1 USMLE Pass Rates used at American University of the Caribbean School of Medicine (AUC) and Ross University School of Medicine (RUSM) as well as the NAVLE 1st Time Pass Rate used at Ross University School of Veterinary Medicine (RUSVM).

In 2015, the Compensation Committee further revised the Performance Shares with a view to establishing goals, where feasible, relative to performance across other institutions so that the rigor of such goals is objective and more easily understood. Performance measures and targets at DeVry University and Carrington College were maintained but the performance scales were broadened to mitigate risks that small changes in performance would result in outsized payouts. For Ross University School of Medicine and American University School of the Caribbean, a performance measure for the first time pass rate for the USMLE Step I exam was added back in recognition of its ultimate importance for residency placements.

Executive Compensation Compensation Discussion and Analysis

Role of the Compensation Committee

The Compensation Committee determines the appropriate level of compensation for the CEO and NEOs. The Compensation Committee reviews and approves all components of annual compensation (base salary, annual cash incentive and long-term incentive) to ensure they align with the principles of DeVry Group's compensation program. In addition, the Compensation Committee meets periodically to review the design of the overall compensation program, approve performance targets and review management performance, and it assists in establishing CEO goals and objectives.

Each year, the Compensation Committee recommends CEO compensation to the Board of Directors, taking into consideration the CEO's performance evaluation and advice from Willis Towers Watson, an independent executive consulting firm engaged by the Compensation Committee. In determining the CEO's long-term incentive compensation, the Compensation Committee considers DeVry Group's absolute and relative performance, incentive awards to CEOs at comparable companies, past awards and the CEO's expected future contributions, as well as other factors it deems appropriate.

The Compensation Committee approves base salary, annual incentive and equity compensation and perquisites for DeVry Group's NEOs.

In reviewing DeVry Group's compensation program, the Compensation Committee considers whether the programs encourage unnecessary or excessive risk taking that would have an adverse effect on DeVry Group and has determined that they do not.

Role of the Executive Officers and Management

The CEO, in consultation with the Senior Vice President, Human Resources and the Chief Financial Officer, provides the Compensation Committee with compensation recommendations for the other NEOs, including recommendations for annual base salary increases, annual cash incentive awards, and long-term incentive awards. These recommendations are based on market-competitive compensation data and the CEO's assessment of each NEO's performance for the prior year. While these recommendations are given significant weight, the Compensation Committee retains full discretion when determining compensation.

The Compensation Committee reviews and approves, with any modifications it deems appropriate, base salary, annual incentive awards and long-term incentive equity awards for DeVry Group's NEOs. The compensation package for the CEO is determined by the Compensation Committee and approved by the independent members of the Board of Directors during executive session.

Role of the Compensation Consultant

The Compensation Committee retains ultimate responsibility for compensation-related decisions. To add rigor to the review process and inform the Compensation Committee of market trends and practices, the Compensation Committee engaged the services of Willis Towers Watson in fiscal year 2016.

Willis Towers Watson analyzed DeVry Group's executive compensation structure and plan designs and assessed whether the executive compensation program is competitive and supports the Compensation Committee's goal to align the interests of executive officers with those of shareholders, students and other stakeholders.

In fiscal year 2016, Willis Towers Watson's primary areas of assistance were:

Gathering information related to current trends and practices in executive compensation, including peer group and broader market survey data;

Reviewing, analyzing and providing recommendations for DeVry Group's list of peer group companies;

Reviewing information developed by management for the Compensation Committee and providing input on such information to the Compensation Committee;

The Compensation Committee has the sole authority to approve the independent compensation consultant's fees and terms of the engagement. Thus, the Compensation Committee annually reviews its relationship with, and assesses the independence of, Willis Towers Watson to ensure executive compensation consulting independence. The process includes a review of the services Willis Towers Watson provides, the quality of those services, and fees associated with the services during the fiscal year.

Executive Compensation Peer Group

To ensure DeVry Group continues to provide total executive compensation that is fair and competitively positioned in the marketplace, the Compensation Committee reviews the pay level, mix and practices of peer group companies. The Compensation Committee does not target any specific percentile levels in establishing compensation levels and opportunities.

While including all larger publicly-held, private sector higher education schools, DeVry Group's peer group also includes a broader group of organizations in order to provide better compensation data. DeVry Group's expanded peer group includes publicly-held organizations that provide services over an extended period of time. In consideration of DeVry Group's significant focus on health care education, which requires attracting and retaining seasoned health care professionals and executives, the peer group also includes health care services companies. Revenue of most of the peer group organizations is generally between one-half and two times DeVry Group's revenue.

Willis Towers Watson reviewed the peer group during fiscal year 2016 and recommended removing Life Time Fitness, Inc. due to its exchange delisting, and adding Hillenbrand Inc. as a similarly-sized Midwest-based company. The peer group is composed of:

Apollo Education Group, Inc.
Bridgpoint Education, Inc.
Bright Horizons Family Solutions, Inc.
Brookdale Senior Living Inc.
Career Education Corp.
Graham Holdings Company

H&R Block, Inc.
HEALTHSOUTH Corp.
Hillenbrand Inc.
ITT Educational Services Inc.
Lifepoint Hospitals Inc.
MEDNAX, Inc.
Paychex, Inc.
Regis Corp.

Scholastic Corporation
Select Medical Holdings Corporation
Service Corp. International
Weight Watchers International, Inc.

The Compensation Committee also reviews compensation and plan prevalence data from smaller education-specific peer organizations but does not include the statistics when determining compensation levels because their revenue is outside of the established range for DeVry Group. These organizations are:

American Public Education, Inc.
Capella Education Co.

Grand Canyon Education, Inc.
Lincoln Educational Services
Corporation

Strayer Education Inc.
Universal Technical Institute, Inc.

ANALYSIS OF 2016 COMPENSATION

CEO and CFO Transition

In May 2016, during the fourth quarter of fiscal year 2016, DeVry Group's board of directors appointed Lisa W. Wardell DeVry Group's new President and CEO, and Daniel M. Hamburger, who served in those roles through almost the entirety of fiscal year 2016, resigned. The compensation decisions in this Compensation Discussion and Analysis relate primarily to decisions by the Compensation Committee with respect to DeVry Group's former CEO before his separation, and his compensation decisions with respect to other NEOs in consultation with the Compensation Committee. Where appropriate, this Compensation Discussion and Analysis section also reviews compensation decisions with respect to the hiring of DeVry Group's current President and CEO, Lisa W. Wardell, and year-end compensation decisions.

Shortly after Ms. Wardell's appointment as DeVry Group's President and CEO, DeVry Group's Senior Vice President and Chief Financial Officer, Timothy S. Wiggins, resigned and Patrick J. Unzicker, formerly DeVry Group's Vice President, Chief Accounting Officer and Treasurer, was appointed Senior Vice President, Chief Financial Officer and Treasurer.

Annual Base Salary

Annual base salaries for NEOs are intended to reflect the scope of their responsibilities, the experience they bring to their roles, and the current market compensation for similar roles outside DeVry Group. Once established, base salaries are reviewed annually to reflect the executive's prior performance and respond to changes in market conditions. The box below lists the criteria the Compensation Committee uses to determine changes to salary from one year to the next.

FISCAL YEAR 2016 BASE SALARY DECISIONS

At the beginning of fiscal year 2016, the Compensation Committee increased Mr. Hamburger's base salary, taking into account the organization's general approach to merit increases for other colleagues, actual results versus the performance targets and goals previously set for DeVry Group and for him for the prior year and market data. The Compensation Committee also considered its interaction with Mr. Hamburger, its observation of his performance throughout fiscal year 2015 and the perceived market for CEOs, thus adding a further discretionary element to its evaluation. The Compensation Committee increased Mr. Hamburger's annual base salary for fiscal year 2016 to ensure that his salary stayed at a level that compared appropriately to the salaries of chief executive officers at other organizations in the marketplace. The Compensation Committee felt these considerations and the conservative approach taken with respect to merit increases throughout the organization were sufficient to justify a modest increase in Mr. Hamburger's base salary. During May 2016, the Compensation Committee delegated authority to DeVry Group's Board Chair, Christopher B. Begley, to negotiate the terms of hire of Lisa W. Wardell as DeVry Group's new President and CEO. After consulting with the Compensation Committee's compensation consultant, Willis Towers Watson, Mr. Begley offered Ms. Wardell a starting compensation package with a base salary equal to the base salary in place DeVry Group's former President and CEO, Daniel M. Hamburger, in fiscal year 2016.

PROXY STATEMENT

Mr. Hamburger recommended to the Compensation Committee the annual base salary of each of the other NEOs at the outset of fiscal year 2016. His recommendations were made in consultation with the Senior Vice-President of Human Resources and the Chief Financial Officer. They were based upon their experience with and analysis of the market at that time, their monitoring of the compensation levels at other organizations in DeVry Group's market and Mr. Hamburger's assessment of each NEO's performance for the prior year.

Executive Compensation Compensation Discussion and Analysis

Annual Cash Incentive Compensation

The annual cash incentive, delivered through the MIP, provides NEOs with the opportunity to earn rewards based on the achievement of organizational and institutional performance and, to a lesser extent, individual performance.

FISCAL YEAR 2016 MIP DECISIONS

For fiscal year 2016, the target award opportunity for DeVry Group's former CFO increased to 70% (from 65%), the target award opportunity for DeVry Group's current CFO increased to 65% in connection with his promotion, and the target award opportunity for DeVry Group's General Counsel increased to 55% (from 50%). No other changes were made to the MIP target award opportunity as a percentage of base salary for the other NEOs.

Based on an evaluation of organizational performance relative to MIP measures set at the beginning of fiscal year 2016, the final MIP awards were partially based on the following financial results, as adjusted for special items described in Appendix A:

DeVry Group achieved 93.8% of the target fiscal year 2016 MIP Net Income goal of \$170.2 million.

DeVry Group achieved 96.8% of the target fiscal year 2016 MIP Revenue goal of \$1,903.5 million.

In addition, awards for Messrs. Paul and Riehs included results from the performance of the institutions they oversee.

Based on this information, coupled with the evaluation of individual performance for each NEO during the course of the year, the Compensation Committee made the following MIP awards:

	Annual Target as a Percentage of Base Salary	FY16 Target Award Opportunity	FY Actual Award	Percent of Target Paid Based on FY16 Performance
Lisa W. Wardell ⁽¹⁾	105%	\$95,262	\$95,262	100%
Daniel M. Hamburger ⁽²⁾	105%	\$845,037	\$719,971	85.2%
Patrick J. Unzicker ⁽³⁾	65%	\$266,650	\$112,936	89.1%
Timothy J. Wiggins	70%	\$315,081	\$280,611	89.1%
Gregory S. Davis	55%	\$233,400	\$207,866	89.1%
Robert A. Paul	65%	\$260,516	\$241,068	92.5%
Steven P. Riehs	65%	\$292,781	\$258,774	88.4%

- (1) Pursuant to her employment agreement, Ms. Wardell received a pro-rated MIP award based on achievement of 100% of her target performance for fiscal year 2016, which was prorated based on her period of service as President and CEO.
- (2) Under the terms of his separation agreement, Mr. Hamburger received 100% of his fiscal year 2016 MIP award, which was determined based on actual DeVry Group and individual performance and pro-rated based on his period of service as President and CEO during fiscal year 2016.
- (3) Target award opportunity adjusted on a pro-rated basis to reflect mid-year base salary increase and target MIP increase from 40% of base salary to 65% of base salary, arising from promotion from Vice President, Chief Accounting Officer and Treasurer to Senior Vice President, Chief Financial Officer and Treasurer.

MIP Performance Measures

The Compensation Committee determined that DeVry Group net income and revenue, along with institution operating income and revenue, provide a balanced set of measures to focus NEOs. These particular measures were selected to focus executives on top line revenue growth, bottom line profitability and results compared to other organizations within and outside our industry.

PROXY STATEMENT

HOW THE MANAGEMENT INCENTIVE PLAN WORKS

MIP target award opportunities for each NEO are set by the Compensation Committee based on factors including external surveys of practices for positions with similar levels of responsibility. These targets, which are expressed as a percentage of base salary, are then reviewed at the beginning of each fiscal year based on updated market compensation data.

The MIP provided both DeVry Group's current and former CEO with a target award opportunity of 105% of base salary and other NEOs target award opportunities between 55% and 65% of base salary. Actual awards can be higher or lower than the target opportunity based on the results for each performance measure. Performance below threshold for the goal will result in no payment for that performance goal. On the other hand, performance at or above threshold can earn an award ranging from 50% to 200% of the target amount. The maximum amount of 200% rewards exceptional performance compared to expectations, over-delivery of strategic initiatives, and/or achievement of initiatives not contemplated at the time goals were set.

The actual payout of an award is determined upon the completion of the fiscal year only after that fiscal year has ended and audited financial results have been substantially completed (i.e., in the beginning of the next fiscal year). Thus, MIP awards for fiscal year 2016 were determined and paid in the early part of fiscal year 2017, after the results for the fiscal year ended June 30, 2016, were confirmed. The payout is based on specific net income, revenue, institution operating income and institution revenue measures set by the Compensation Committee prior to the start of the year in which the performance is measured.

The Compensation Committee may exercise discretion in determining incentive payments. These adjustments are made to ensure the MIP rewards true operational performance as it is perceived by investors, encourages long-term decision making and is measured consistently. For example, as detailed in Appendix A, at the end of fiscal years 2015 and 2016, the Compensation Committee adjusted calculations of Net Income, Diluted EPS and ROIC to exclude the impact of special items primarily related to discontinued operations, restructurings, impairment charges and non-recurring gains on the sale of real estate. In instances where an institution has not demonstrated performance commensurate with the potential award, the Compensation Committee has exercised negative discretion and reduced MIP payouts to certain associated colleagues. In the case of acquisitions, the Compensation Committee does not include revenue, and corresponding net income, from acquisitions in their evaluation of achievement against targets unless such expected revenue, and corresponding net income, had been factored into the performance target.

In addition to the actual results achieved through these organizational results, the Compensation Committee also considers individual performance over the course of that fiscal year for each NEO. Individual performance goals reflect functional results and/or institution performance appropriate for the executive, as well as academic outcomes, organizational strength and the advancement of DeVry Group's core values. Individual performance goals are designed to drive initiatives that support DeVry Group's strategy and further align leadership with DeVry Group's student-focused purpose.

Executive Compensation Compensation Discussion and Analysis

The relative percentages assigned to the measures for each NEO for fiscal year 2016 are as follows:

	Organizational, Institution and Individual Performance Measure Allocation				
	DeVry Group	DeVry Group	Institution	Institution	Individual
	Net Income	Revenue	Operating Income	Revenue	Performance
Lisa W. Wardell	45%	40%			15%
Daniel M. Hamburger	45%	40%			15%
Patrick J. Unzicker	40%	30%			30%
Timothy J. Wiggins	40%	30%			30%
Gregory S. Davis	40%	30%			30%
Robert A. Paul	20%	10%	25%	15%	30%
Steven P. Riehs	20%	10%	25%	15%	30%

In accordance with her employment agreement, Ms. Wardell's fiscal year 2016 award was deemed 100% of target, and was pro-rated to reflect her appointment as President and CEO in late May, near the end of fiscal year 2016. Set forth below, as an example of MIP determinations made for other NEOs, is a summary of the calculation of the fiscal year 2016 award for Ms. Wardell's predecessor, Daniel M. Hamburger, who received a pro-rated MIP award based on his partial performance through fiscal year 2016 in accordance with the terms of his separation agreement:

	Target Award Opportunity		Performance Achieved	Performance Relative to Target	Payout as a % of Target Award Opportunity based on Performance Relative to Target*	Target Award Opportunity (\$ Amount)	Pro-ration for partial FY 16 Service	
	(Weighting)	Target						
Group Net	45%	\$ 170.2mm	÷ \$ 159.7mm	= 93.8%	84.5%*	× \$ 422,988	× 89.9%	=
Group	40%	\$ 1,903.5mm	÷ \$ 1,843.1mm	= 96.8%	84.2%*	× \$ 375,989	× 89.9%	=
Individual	15%				90.2%	× \$ 140,996	× 89.9%	=
	100%		=		85.2%	× \$ 939,973	× 89.9%	=

* The MIP Plan provides that if performance relative to target is below certain minimum thresholds, there will be no payout. Minimum thresholds for fiscal year 2016 were 80% of the net income goal and 90% of the revenue goal,

and in each case would result in a 50 % payout upon achievement. Every 1% achieved over (or under) the revenue goal would result in an additional (or a reduced) 5% award up to a maximum payout of 200% (or down to a 0% payout). Every 1% achieved over (or under) the net income goal would result in an additional (or a reduced) 2.5% award up to a maximum payout of 200% (or down to a 0% payout).

2016 PERFORMANCE GOALS

Financial goals set for our MIP participants are derived from DeVry Group's fiscal year operating plans, which are recommended by DeVry Group's executive management team and approved by the Board at the beginning of each fiscal year. DeVry Group management planned significant cost reduction initiatives to preserve net income in a declining revenue environment driven by DeVry University's competitive and regulatory challenges. For fiscal year 2016, these plans translated to financial performance goals of \$170.2 million of net income and revenue of \$1,903.5 million, representing an increase from fiscal year 2015 net income excluding special items and a decrease from fiscal year revenue. Due to the confidential nature of such information, and the competitive harm sharing it would cause, DeVry Group does not disclose the particular institutional or segment performance goals utilized in its MIP. The Compensation Committee considers the organization's performance goals to represent the best estimate of what the organization could deliver if management, individually and collectively, were to materially satisfy its goals and objectives for the year. All goals are designed to be aggressive yet achievable, with the expectation that it would take extraordinary performance on the part of management to exceed them to the extent necessary to yield maximum incentive payouts under the MIP.

PROXY STATEMENT

The Compensation Committee approves individual performance goals and objectives for the CEO at the beginning of each fiscal year. The CEO also works collaboratively with the other NEOs in developing their respective individual performance goals and in assigning weightings to them to place additional emphasis on tactical priorities. The individual performance goals are factors in determining base salary adjustments, annual cash incentive compensation (MIP) and long-term incentive compensation. Individual performance goals intentionally include elements that can be rated objectively as well as, to a lesser extent, elements that are of a subjective nature. Individual performance goals are used to drive stretch performance across a broad range of areas considered critical to our strategy and purpose. This allows the evaluator – the independent members of the Board in the case of the CEO, and the CEO with input and approval from the Compensation Committee in the case of the other NEOs – to assess the individual’s performance against objective criteria, while utilizing its discretion to make adjustments based on the individual’s perceived contributions and other subjective criteria.

Long-Term Incentive Compensation

Long-term incentive compensation at DeVry Group consists of Performance Shares, Full-Value Shares (which are time-based restricted stock units) and stock options. The Compensation Committee targets the value of long-term incentive compensation for NEOs to represent a substantial percentage of their total compensation. These incentives are intended to serve three complementary objectives of our compensation program:

Promote long-term retention of key executives who are critical to our operations,

Reward executives for the delivery of long-term business results, and

Align executives' long-term interests with those of our shareholders.

FISCAL YEAR 2016 LONG-TERM INCENTIVE DECISIONS

For fiscal year 2016, NEOs received the following stock-based awards to deliver their overall long-term incentive grant:

	Total Value of 2016 Long-Term Incentive Grant			
	Stock Options	Full-Value Shares	Performance Shares	
Lisa W. Wardell	\$ 1,815,770	\$ 1,024,937	\$ 917,149	\$ 3,757,856

Steven P. Rihs	\$ 294,422	\$ 150,036	\$ 148,720	\$ 593,178

- (4) Includes \$100,000, off-cycle grant in May 2016, prior to his promotion to Senior Vice President, Chief Financial Officer and Treasurer, to retain and reward Mr. Unzicker as a high-performing, key contributor.

HOW THE LONG-TERM INCENTIVE PLAN WORKS

The Compensation Committee granted equity awards to each of the NEOs in August 2015 based on both retrospective and prospective considerations and organizational and individual considerations. Additionally, the Compensation Committee made a one-time equity sign-on award with a value of \$3,700,000 to DeVry Group's new President and CEO, Lisa W. Wardell, in May 2016, consisting of 50% options, 25% Full-Value Shares and 25% Performance Shares. The award was designed to compensate Ms. Wardell for foregone compensation at her prior employer and to align her compensation with DeVry Group's performance. Ms. Wardell also received an equity grant in November 2015 as compensation for her service as a non-executive director prior to her appointment as President and CEO, which is included in the 2016 Director Compensation table. The Compensation Committee took into account the same seven criteria described in the Annual Base Salary section above in determining the size of these awards. Awards were delivered through a mix of stock-based vehicles:

	Percent of Long-Term Incentive Award
Stock Options	50%
Full-Value Shares	25%
Performance Shares	25%

STOCK OPTIONS: Stock option grants vest in equal installments over a four-year period beginning on the first anniversary of the grant date. The Compensation Committee granted incentive stock options (ISOs) with a value of up to the \$100,000 IRS limitation applicable to each one-year vesting period. To the extent this limitation was met for any NEO, the remaining portion of the stock option award was issued in the form of non-qualified stock options. The Compensation Committee recognizes that DeVry Group may not receive a tax deduction for ISOs, but weighed this consideration against the tax benefit ISOs provide to colleagues and the additional enhancement to DeVry Group's ability to attract and retain executives. The Compensation Committee determined it was in DeVry Group's best interest to continue utilizing ISOs in the manner described.

FULL-VALUE SHARES: Full-Value shares are time-based restricted stock units that vest in equal installments over four years beginning on the first anniversary of the grant date.

PERFORMANCE SHARES: Performance Shares granted for fiscal year 2016 are based on achieving certain academic goals over a three-year performance period. The shares vest at the end of the performance period only if a minimum level of Return on Invested Capital (ROIC) performance is attained. If the ROIC minimum level is not achieved, no award is vested. DeVry Group believes this threshold is appropriate because the financial health of DeVry Group is fundamental to our continued success and realizing our purpose. Similarly, if the academic and student outcome targets are not achieved, no award is vested regardless of the success measured by ROIC. If the minimum level of ROIC performance is attained, the size of the payout is then based on meeting or exceeding the academic goals established for each institution across DeVry Group.

At the end of the three-year performance period, if threshold level performance is attained for each of the academic goals established for each institution, participants can earn between 80% and 120% of the target number of Performance Shares. If performance is below threshold for any individual academic measures, 0% of the Performance Shares will vest for that component of the awards. Straight line interpolation will be used to determine achievement of Performance Shares to be vested between threshold and target and also between target and maximum payout of 120%.

Stock Ownership Guidelines

Stock ownership guidelines are in place for all directors and executive officers of DeVry Group and are intended to align the interests of executive management with our shareholders by requiring executives to be subject to the same long-term stock price volatility our shareholders experience. Michael W. Malafronte, who was appointed to the Board pursuant to a Support Agreement between DeVry Group and its largest shareholder, International Value Advisers, and who has declined all compensation for his service, will not be subject to the ownership guidelines.

Directors and executive officers are expected to maintain ownership of DeVry Group's Common Stock valued equal to or in excess of a multiple of their current base salary or annual retainer:

	Number of Shares Equivalent to:
CEO	5 times base salary
CFO	3 times base salary
Key operational leaders	2 times base salary
All other executive officers	1 times base salary
All non-employee directors	3 times annual retainer

The stock ownership requirements were implemented in February 2010 for all directors and executive officers.

Ownership guidelines were subsequently increased for the CEO and CFO in August 2014 from 3 times base salary to 5 times base salary for the CEO, and from 2 times base salary to 3 times base salary for the CFO. The 2x ownership requirement, which had previously applied only to NEOs, was refined at the beginning of fiscal year 2016 to apply to operational leaders responsible for contributing more than \$500 million of DeVry Group's revenue, regardless of their compensation. Directors or executive officers have five years following their election, date of hire or promotion to an executive officer role, as the case may be, to achieve their stock ownership level. The CEO and CFO have five years to comply with their stock ownership guidelines at the increased levels established in August 2014.

Shares that count toward satisfaction of the guidelines include DeVry Group stock directly and/or beneficially owned, DeVry Group stock held in DeVry Group's Profit Sharing 401(k) Retirement Plan, DeVry Group stock held in DeVry Group's Nonqualified Deferred Compensation Plan, vested Full-Value Shares, and the after-tax value of unvested Full-Value Shares and Performance Shares and/or vested in-the-money options, provided that these make up no more than 50% of the ownership expectation.

Ownership guidelines are deemed to be met for an executive who has met the ownership threshold and not sold his or her equity but fallen below the Board's stock ownership guidelines solely due to declines in DeVry Group Common Stock price. Absent exigent circumstances, executives who have not yet met the guidelines at the end of their five year phase-in period are required to retain, until the guidelines are satisfied, 100% of the after-tax shares received from option exercises or the vesting of Full-Value Shares or Performance Shares.

PROXY STATEMENT

Incentive Compensation Recoupment Policy

DeVry Group has adopted an incentive compensation recoupment policy that applies to all executive officers. The policy provides that, in addition to any other remedies available to DeVry Group (but subject to applicable law), if the Board of Directors or any committee of the Board of Directors determines that it is appropriate, DeVry Group may recover (in whole or in part) any incentive payment, commission, equity award or other incentive compensation received by an executive officer of DeVry Group to the extent that such incentive payment, commission, equity award or other incentive compensation is or was paid on the basis of any financial results that are subsequently restated due to executive officer conduct that is determined by the independent directors to have been knowing or intentional, fraudulent or illegal.

Deferred Compensation

DeVry Group maintains the DeVry Education Group Inc. Nonqualified Deferred Compensation Plan that allows certain colleagues, including the NEOs, to defer up to 50% of salary and 100% of annual cash incentive (MIP) compensation until termination of service or certain other specified dates. DeVry Group credits matching contributions to participants' accounts to the extent they have elected to defer the maximum contributions under DeVry Group's Success Sharing Retirement Plan and their matching contributions are limited by the Internal Revenue Code provisions.

The Nonqualified Deferred Compensation Plan enables the NEOs and other eligible colleagues with a certain level of annual compensation to save a portion of their income for retirement on a scale consistent with other colleagues not subject to IRS limits.

The Nonqualified Deferred Compensation Plan is not funded by DeVry Group and participants have an unsecured contractual commitment by DeVry Group to pay the amounts due under the plan.

The value of deferred compensation amounts is quantified each year and this program is periodically reviewed for its competitiveness.

Other Benefits

NEOs are eligible to participate in a number of broad-based benefit programs, which are the same ones offered to most colleagues at the DeVry Group, including health, disability and life insurance programs.

We do not offer a defined benefit pension plan, and, therefore, our Success Sharing Retirement Plan and the Nonqualified Deferred Compensation Plan are the only retirement savings vehicles for executives.

In general, we do not provide benefits or perquisites to our NEOs that are not available to other colleagues, with the exception of personal financial planning services (for the NEOs other than the CEO). In addition, the following benefits were eliminated in 2005 for all executives but were grandfathered for:

A leased automobile or cash automobile allowance for Gregory S. Davis, Daniel M. Hamburger and Steven P. Riehs; and

An enhanced executive medical benefit for Daniel M. Hamburger.

These benefits and perquisites make up the smallest portion of each NEO's total compensation package. The nature and quantity of perquisites provided by DeVry Group did not change materially in fiscal year 2016 versus 2015, consistent with our philosophy that benefits and perquisites should not represent a meaningful component of our compensation program. The Compensation Committee periodically reviews the benefit and perquisite program to determine if adjustments are appropriate.

The All Other Compensation column of the 2016 Summary Compensation Table shows the amounts of benefit and perquisite compensation we provided for fiscal years 2014, 2015 and 2016 to each of the NEOs.

Employment Agreements

DeVry Group and Mr. Hamburger entered into an employment agreement in 2006 that provided for the following:

Initial annual base salary of \$675,000, subject to annual increases (no decreases);

Annual cash incentive under the MIP, targeted at 100% of base salary;

Benefits and perquisites generally available to senior management;

Reimbursement of expenses consistent with DeVry Group's policy in effect at the time; and

Severance benefits that will be provided upon certain terminations of employment, as further described on page 57 under the caption "2016 Potential Payments Upon Termination or Change-in-Control."

DeVry Group has entered into employment agreements with each currently employed NEO that provide for:

Initial annual base salary, subject to annual increases (no decreases except in the case of an across-the-board reduction affecting all executives equally);

Annual cash incentive under the MIP, targeted at a percentage of base salary;

Benefits and perquisites generally available to senior management;

Reimbursement of expenses consistent with DeVry Group's policy in effect at the time; and

Severance benefits that will be provided upon certain terminations of employment, as further described on page 57 under the caption "2016 Potential Payments Upon Termination or Change-in-Control."

In addition, Ms. Wardell's employment agreement provides for a one-time sign-on equity award with a value of \$3,700,000, a fiscal year 2016 MIP award equal to a pro rata amount of the target award bonus based on her employment in fiscal year 2016 and reimbursement of relocation expenses (including a one-year temporary housing allowance).

Separation Agreements

DeVry Group entered into a separation agreement with Mr. Hamburger in connection with his resignation as President and CEO on May 24, 2016. The agreement provides for the following:

a lump sum payment equal to one year of base salary,

accelerated vesting of the portion of Mr. Hamburger's outstanding awards that would have vested between his resignation date and August 31, 2017 (with performance shares vesting based on actual achievement of performance goals during the applicable performance period),

a pro rata portion of the annual MIP award for fiscal year 2016 based on actual performance and paid at the time such bonus payments are made to other senior executives, and

if he elects COBRA, premiums at active employee rates until the earlier of August 31, 2017 or coverage under another employer's plan.

The severance benefits are conditioned on signing a release of claims, and Mr. Hamburger is subject to a non-compete and non-solicitation provisions until August 31, 2017.

DeVry Group also entered into a separation agreement with Mr. Wiggins on July 7, 2016 in connection with his resignation as CFO on May 31, 2016 and his subsequent resignation from employment on June 30, 2016. The agreement provides

for the benefits to which he is entitled under the terms of his employment agreement (i.e., payment over 18 months of base salary and one and one-half times his target MIP award, payment of his MIP award for 2016 based on actual performance, continued vesting of his equity awards, subsidized COBRA coverage and outplacement services).

CHANGE-IN-CONTROL

DeVry Group provides benefits to its NEOs upon termination of employment from DeVry Group in specific circumstances. These benefits are in addition to the benefits to which these NEOs would be entitled upon a termination of employment generally (e.g., vested retirement benefits accrued as of the date of termination, stock-based awards that are vested as of the date of termination and the right to elect continued health coverage pursuant to COBRA). In addition, DeVry Group's equity compensation plans, and the award agreements used to implement them, provide for accelerated vesting of outstanding equity awards in the event of a change in control of DeVry Group.

See 2016 Potential Payments Upon Termination or Change-in-Control on page 57 for a detailed description of potential payments and benefits to the NEOs under DeVry Group's compensation plans and arrangements upon termination of employment or a change of control of DeVry Group.

Deductibility of Compensation

DeVry Group analyzes the overall expense arising from aggregate executive compensation, as well as the accounting and tax treatment of such programs. Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to publicly traded companies for certain compensation paid in excess of \$1 million per year paid to covered employees, which are defined as the CEO and the three other most highly compensated officers, other than the CFO, employed at year-end. However, compensation that satisfies the Internal Revenue Code's requirements for performance-based compensation is not subject to that deduction limitation.

Neither base salaries nor income recognized upon vesting of Full-Value Shares qualify as performance-based compensation under Section 162(m). However the base salaries of DeVry Group's NEOs are below the \$1 million level. Amounts paid to an executive that are excludable from gross income, such as Success Sharing Retirement Plan and Nonqualified Deferred Compensation Plan contributions are not subject to Section 162(m). Incentive compensation paid by DeVry Group in fiscal year 2016 under the MIP that is based on organizational performance (whether DeVry Group or another institution) is expected to qualify as performance-based compensation. Gains on the exercise of stock options and SARs and income recognized upon the vesting of Performance Shares also qualify as performance-based compensation under Section 162(m).

MIP awards are provided under the DeVry Group Second Amended and Restated Incentive Plan of 2013, which sets a performance-based ceiling on the bonuses paid pursuant to the MIP so that they meet the deductibility requirements of Section 162(m). For fiscal year 2016, a bonus pool equal to 5% of consolidated operating earnings was established, and a bonus opportunity of up to 20% of the bonus pool was allocated to each of Ms. Wardell, Mr. Unzicker, Mr. Davis, Mr. Paul and Mr. Riehs (the covered employees under 162(m)). As discussed above under Annual Cash Incentive Compensation, the Compensation Committee also established performance goals for each NEO and exercised its discretion to adjust the bonus pool amounts on the basis of achievement of those performance goals.

PROXY STATEMENT

- (1) Payouts under the MIP were based on performance in fiscal year 2016. Therefore, the information in the Threshold, Target and Maximum columns reflect the range of potential payouts when the performance goals were set on August 25, 2015. The amounts actually paid under the MIP for fiscal year 2016 appear in the Non-Equity Incentive Plan Compensation column of the 2016 Summary Compensation Table.
- (2) Performance-based restricted stock units, referred to within DeVry Group as Performance Shares, were granted under the DeVry Education Group Second Amended and Restated Incentive Plan of 2013. Performance Shares are paid out at the end of the three-year performance period if certain performance goals are achieved.
- (3) Pursuant to the MIP, performance below a performance goal threshold will result in no payment with respect to that performance goal. If a performance goal threshold is met or exceeded, then the performance would result in a payment ranging from the threshold amount (50% of the target) to the maximum amount (200% of target) for such performance goal, depending upon the level at which the performance goal had been attained.
- (4) The amount shown in this column represents the target incentive payment under the MIP, which is calculated as a set percentage of base salary.
- (5) Pursuant to the MIP, the amount shown in this column represents the maximum incentive payment, 200% of the Target.
- (6) Represents prorated portion of MIP threshold, target and maximum payments based on late fiscal year 2016 appointment as President and CEO of DeVry Group.
- (7) At the end of the three-year performance period, participants can earn a threshold of 80% of the target number of Performance Shares if threshold level performance is attained during the three-year performance period for each of the academic-focused student outcome goals established for each institution. If performance is below threshold for any individual academic focused student outcome measures, 0% of the Performance Shares will vest for that component of the awards. Straight line interpolation will be used to determine achievement between threshold and target. A minimum of 5% three-year average Return on Invested Capital (ROIC) must be attained during fiscal years 2016-2018 or no Performance Shares will vest whatsoever, regardless of the academic-focused student outcome performance.
- (8) At the end of the three-year performance period, participants can earn 100% of the target number of Performance Shares if target level performance is attained during the three-year performance period for each of the academic-focused student outcome goals established for each institution. A minimum of 5% three-year

average ROIC must be attained during fiscal year 2016-2018 or no Performance Shares will vest whatsoever, regardless of the academic-focused student outcome performance.

- (9) At the end of the three-year performance period, participants can earn a maximum of 120% of the target number of Performance Shares if maximum level performance is attained during the three-year performance period for each of the academic-focused student outcome goals established for each institution. If performance is at or above maximum for any individual academic focused student outcome measures, 120% of the Performance Shares will vest for that component of the awards. Straight line interpolation will be used to determine achievement between target and maximum. A minimum of 5% three-year average ROIC must be attained during fiscal year 2016-2018 or no Performance Shares will vest whatsoever, regardless of the academic-focused student outcome performance.
- (10) Stock option awards on August 26, 2015 were issued as part of the annual incentive award under the DeVry Education Group Second Amended and Restated Incentive Plan of 2013, which become exercisable at 25% per year for four years beginning on the first anniversary of the date of grant and have a maximum term of ten years. Stock option awards to Ms. Wardell on May 26, 2016 were granted as part of an initial sign-on award to compensate Ms. Wardell for foregone compensation at her prior employer and to align her compensation with DeVry Group's performance.
- (11) All options granted to the NEOs on August 26, 2015 and May 26, 2016 have an exercise price equal to the closing sales price of the Common Stock on the date of grant.
- (12) This column shows the grant date fair value of Performance Shares (assuming payout at target value), Full Value Shares and stock options granted to each of the NEOs in fiscal year 2016, computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, which was (i) \$26.23 for stock options and \$26.00 for Performance Shares granted to the NEOs on August 26, 2015 (ii) \$24.20 for Performance Shares granted to NEOs and \$24.54 for Full Value Shares granted to directors on November 4, 2015, and (iii) \$17.54 for stock options and \$17.39 for Performance Shares granted to NEOs on May 26, 2016. Also see Note 4: Stock-Based Compensation to the Consolidated Financial Statements contained in DeVry Group's Annual Report on Form 10-K for the year ended June 30, 2016, filed with the SEC on August 25, 2016, for an explanation of the assumptions made by DeVry Group in the valuation of stock option awards.
- (13) Reflects Full Value Shares awarded to Ms. Wardell for her service as a non-employee director of DeVry Group prior to her appointment as President and CEO of DeVry Group.

DEFERRED COMPENSATION PLAN

The Nonqualified Deferred Compensation Plan covers directors and selected key colleagues approved for participation by the Compensation Committee. All of the NEOs are eligible to participate in the Plan. Under the Nonqualified Deferred Compensation Plan as it applies to colleagues, participants may make an advance election to defer up to 50% of salary and up to 100% of annual cash incentive (MIP) compensation until termination of service with DeVry Group or certain other specified dates. DeVry Group credits matching contributions to participants accounts under the Nonqualified Deferred Compensation Plan to the extent they have elected to defer the maximum amount under DeVry Group's Success Sharing Retirement Plan and their matching contributions to the Success Sharing Retirement Plan are limited by applicable Internal Revenue Code provisions. DeVry Group may also credit participants' accounts with discretionary success sharing contributions. Participants are fully vested in their own deferral and matching contributions, plus earnings, and will vest in discretionary contributions, if any, as determined by the Compensation Committee. Participants may elect to have their Nonqualified Deferred Compensation Plan accounts credited with earnings based on various investment choices made available by the Compensation Committee for this purpose. Participants may elect to have account balances paid in a lump sum or in installments. Distributions are generally made or commence in January of the year following termination of employment (but not earlier than six months after termination) or January of the year in which the specified payment date occurs. In the event of death before benefits commence, participants' accounts will be paid to their beneficiaries in a lump sum.

PROXY STATEMENT**2016 POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL**

DeVry Group provides benefits to certain of the NEOs upon termination of employment from DeVry Group in specific circumstances. These benefits are in addition to the benefits to which these NEOs would be entitled upon a termination of employment generally (i.e., vested retirement benefits accrued as of the date of termination, stock-based awards that are vested as of the date of termination and the right to elect continued health coverage pursuant to COBRA). In addition, DeVry Group's equity compensation plans and the stock award agreements used to implement them provide for accelerated vesting of outstanding stock awards in the event of a change in control of DeVry Group, regardless of whether a termination of employment occurs.

Employment Agreements**MS. WARDELL**

DeVry Group entered into an employment agreement with Ms. Wardell effective as of her May 24, 2016 appointment as President and CEO. The employment agreement provides, among other things, that if her employment is terminated by DeVry Group without cause or by Ms. Wardell with good reason, and if she executes a release of claims, she will be entitled to a lump sum payment equal to 12 months of base salary and a prorated MIP Award based on actual performance for the fiscal year and paid in a lump sum at the same time MIP awards are paid to other employees.

If such termination of employment occurs within 12 months of a change in control, and she executes a release of claims, she will be entitled to (i) a lump sum payment equal to two times base salary and the average of the MIP Award paid to her for the prior two fiscal years (or the average of the MIP target awards if the termination occurs during the first two fiscal years of employment); and (ii) accelerated vesting of all outstanding stock options.

OTHER CONTINUING NEOs

DeVry Group has entered into substantially similar employment arrangements with each of the other NEOs employed on June 30, 2016. With the exception of Lisa W. Wardell, no directors deferred any portion of their compensation in fiscal year 2016.

As long-term incentive compensation for directors, each non-employee director received restricted stock units commonly referred to at DeVry Group as Full-Value Shares with an approximate value of \$100,000 directly following the 2015 Annual Meeting of Shareholders. Each Full-Value Share represents the right to receive one share of Common Stock following the satisfaction of the vesting period. The Full-Value Shares granted in November 2015 will vest 100% upon the one-year anniversary of the grant date. This table discloses all director compensation provided in fiscal year 2016 to the directors of DeVry Group for their service as directors.

Following such review, each proposed service is approved, modified or denied as appropriate. A record of all such approvals is maintained in the files of the Audit and Finance Committee for future reference. All services provided by PwC during the past year were approved by the Audit and Finance Committee prior to their undertaking.

The Audit and Finance Committee has adopted a policy for approving all permitted audit, audit-related, tax and non-audit services to be provided by PwC in advance of the commencement of such services, except for those considered to be *de minimis* by law for non-audit services. Information regarding services performed by the independent registered public accounting firm under this *de minimis* exception is presented to the Audit and Finance Committee for information purposes at each of its meetings. For fiscal year 2016, none of the services provided by PwC were provided pursuant to the *de minimis* exception to the pre-approval requirements contained in the applicable rules of the SEC. Audit and Finance Committee consideration and approval generally occurs at a regularly scheduled Audit and Finance Committee meeting. For projects that require an expedited decision because they should begin prior to the next regularly scheduled meeting, requests for approval may be circulated to the Audit and Finance Committee by mail, telephonically or by other means for its consideration and approval. When deemed necessary, the Audit and Finance Committee has delegated pre-approval authority to its Chair. AUDIT AND FINANCE COMMITTEE REPORT

To Our Shareholders:

The Audit and Finance Committee of DeVry Group consists of four independent directors. The members of the Audit and Finance Committee meet the independence and financial literacy requirements of the NYSE and additional, heightened independence criteria applicable to members of the Audit and Finance Committee under SEC and NYSE rules. In fiscal year 2016, the Audit and Finance Committee held 10 meetings. The Audit and Finance Committee has adopted, and annually reviews, a charter outlining the practices it follows. The charter conforms to the SEC's implementing regulations and to the NYSE listing standards.

Management is responsible for DeVry Group's internal controls and the financial reporting process by which it prepares the financial statements. DeVry Group's independent registered public accounting firm is responsible for performing an independent audit of the annual financial statements of DeVry Group and expressing an opinion on those statements. The principal duties of the Audit and Finance Committee include:

Monitoring DeVry Group's financial reporting processes, including its internal control systems;

Selecting DeVry Group's independent registered public accounting firm, subject to ratification by the shareholders;

Evaluating the independent registered public accounting firm's independence;

Monitoring the scope, approach and results of the annual audits and quarterly reviews of financial statements and discussing the results of those audits and reviews with management and the independent registered public accounting firm;

Overseeing the effectiveness of DeVry Group's internal audit function and overall risk management processes;

Discussing with management and the independent registered public accounting firm the nature and effectiveness of DeVry Group's internal control systems; and

Reviewing and recommending to the Board DeVry Group's financing policies and actions related to investment, capital structure and financing strategies.

During fiscal year 2016, at each of its regularly scheduled meetings, the Audit and Finance Committee met with the senior members of the DeVry Group's financial management team. Additionally, the Audit and Finance Committee had separate private sessions, on a quarterly basis, with DeVry Group's General Counsel, DeVry Group's independent registered public accounting firm, the Vice President of Audit, Ethics and Compliance Services, DeVry Group's Chief Financial Officer, and DeVry Group's Vice President, Chief Accounting Officer and Treasurer.

The Audit and Finance Committee is updated periodically on management's process to assess the adequacy of DeVry Group's system of internal control over financial reporting, the framework used to make the assessment and management's conclusions on the effectiveness of DeVry Group's internal control over financial reporting. The Audit and Finance Committee also discusses with DeVry Group's independent registered public accounting firm DeVry Group's internal control assessment process, management's assessment with respect thereto and the evaluation by DeVry Group's independent registered public accounting firm of its system of internal control over financial reporting.

The Audit and Finance Committee evaluates the performance of DeVry Group's independent registered public accounting firm, including the senior audit engagement team, annually and determines whether to reengage the current independent registered public accounting firm. As a threshold matter, the Committee satisfies itself that the most recent Public Company Accounting Oversight Board (PCAOB) inspection report pertaining to the current firm does not contain any information that would render inappropriate its continued service as DeVry Group's independent public accountants, including consideration of the public portion of the report and discussion in general terms of the types of matters covered in the non-public portion of the report. The Audit and Finance Committee also considers the quality and efficiency of the previous services rendered by the current auditors and the auditors' technical expertise and knowledge of DeVry Group's global operations and industry. Based on this evaluation, the Audit and Finance Committee decided to reengage, and recommend ratification of, PricewaterhouseCoopers LLP as DeVry Group's independent registered public accounting firm for fiscal year 2016. It reviewed with members of DeVry Group's senior management team and PricewaterhouseCoopers

Met with PricewaterhouseCoopers LLP, DeVry Group's independent registered public accounting firm, and discussed the matters required to be discussed by the PCAOB; and

Received the written disclosures and the letter from PricewaterhouseCoopers LLP required by the applicable requirements of the PCAOB regarding the independent accountant's communications with the Audit and Finance Committee concerning independence, and has discussed with PricewaterhouseCoopers LLP their independence.

In reliance upon the Audit and Finance Committee's reviews and discussions with both management and PricewaterhouseCoopers LLP, management's representations and the report of PricewaterhouseCoopers LLP on DeVry Group's audited financial statements, the Audit and Finance Committee has recommended to the Board of Directors that the audited financial statements for the fiscal year ended June 30, 2016 be included in DeVry Group's Annual Report on Form 10-K to be filed with the SEC.

In addition, the Audit and Finance Committee has re-appointed, subject to shareholder ratification, PricewaterhouseCoopers LLP as DeVry Group's independent registered public accounting firm for fiscal year 2016.

This Audit and Finance Committee Report is not to be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 or under the Securities Exchange Act of 1934, except to the extent that DeVry Group specifically incorporates this Report by reference, and is not otherwise to be deemed filed under such Acts.

Proposal No. 3 Say-on-Pay

PROXY STATEMENT

PROPOSAL NO. 3 ADVISORY VOTE TO

APPROVE COMPENSATION OF NAMED

EXECUTIVE OFFICERS

Pursuant to Section 14A of the Securities Exchange Act of 1934, as amended, we are required to submit to shareholders a resolution subject to an advisory vote to approve the compensation of our NEOs. The current frequency of the advisory vote on executive compensation is annually, with the vote for the current year being taken pursuant to this Proposal No. 3. The next such vote will occur at DeVry Group's 2017 Annual Meeting of Shareholders.

The Board of Directors encourages shareholders to carefully review the Executive Compensation section of this Proxy Statement beginning on page 19 and the Compensation Discussion and Analysis beginning on page 19 for a thorough discussion of our compensation program for NEOs. The overall goals of our compensation program are to serve the essential purposes of the organization, which are to empower students to achieve their educational and career goals, and to maximize the long-term return to our stakeholders. We designed our program to:

Align NEO compensation with academic, student outcome and financial objectives;

Attract, motivate and retain high-quality executives; and

Reward organizational and individual performance.

The key elements of our executive compensation program are:

Annual base salary;

Annual cash incentive; and

Long-term incentive.

DeVry Group aims to provide total cash compensation to each NEO that is market-competitive, combining a stable base salary element with two at-risk elements (annual cash incentive awards and long-term incentive awards) available to be earned based upon individual and organizational performance. We believe this approach helps reinforce a culture of performance by recognizing individual potential and rewarding results. As part of our compensation philosophy, we believe we should pay our NEOs total compensation that is competitive with other

alternatives available to them in the marketplace and that a significant portion of each NEO's total compensation should be variable with both upside potential and downside risk depending upon the performance of DeVry Group and of the individual. In addition, we believe we should maintain a clear, straightforward and transparent approach to our executive compensation program.

Accordingly, the following resolution is submitted for an advisory shareholder vote at the Annual Meeting of Shareholders:

RESOLVED, that the compensation paid to DeVry Group's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby approved.

APPROVAL BY SHAREHOLDERS

The approval of the compensation of DeVry Group's NEOs will require the affirmative vote of a majority of the shares of Common Stock of DeVry Group outstanding on the record date. As this is an advisory vote, the result will not be binding on DeVry Group, the Board of Directors or the Compensation Committee, although the Board of Directors and the Compensation Committee will carefully consider the outcome of the vote when evaluating our compensation program. Unless otherwise indicated on the proxy, the shares will be voted **FOR** the approval of the compensation of DeVry Group's NEOs.

Director Nominating Process and Factors Considered

The Nominating & Governance Committee is responsible for making recommendations of nominees for directors to the Board. The Committee's goal is to put before the shareholders candidates who, with the incumbent directors, will constitute a board that has the characteristics necessary to provide effective oversight for the growing, complex, global educational operations of DeVry Group and reflects the broad spectrum of students that DeVry Group serves. The Committee seeks a diversity of thought, background, experience and other characteristics in its candidates. To this end, DeVry Group's Governance Principles provide that nominees are to be selected on the basis of, among other things, knowledge, experience, skills, expertise, diversity, personal and professional integrity, business judgment, time availability in light of other commitments, absence of conflicts of interest and such other relevant factors that the Committee considers appropriate in the context of the interests of DeVry Group, its Board and its shareholders. When considering nominees, the Committee seeks to ensure that the Board as a whole possesses, and individual members possess at least two of, the following characteristics or expertise:

Academic leadership;

Accounting and finance expertise;

Business judgment;

Management experience;

Industry knowledge;

Accreditation and other specialized knowledge of higher education;

Public policy experience, particularly in higher education;

Leadership;

Additional Information

Strategic vision; and

Regulatory experience.

The Committee has implemented this policy by evaluating each prospective director nominee as well as each incumbent director on the criteria described above, and in the context of the composition of the full Board, to determine whether she or he should be nominated to stand for election or re-election. In screening director nominees, the Committee also reviews potential conflicts of interest, including interlocking directorships and substantial business, civic, and social relationships with other members of the Board that could impair the prospective nominee's ability to act independently.

The Committee will not only consider nominees that it identifies, but will consider nominees submitted by shareholders in accordance with the process for shareholder nominations identified in the By-Laws. Under this process, all shareholder nominees must be submitted in writing to the Secretary of DeVry Education Group Inc., 3005 Highland Parkway, Downers Grove, IL 60515-5799, not less than 90 days prior to the anniversary of the immediately preceding Annual Meeting of Shareholders. Such shareholder's notice shall be signed by the shareholder of record who intends to make the nomination (or his duly authorized proxy) and shall also include, among other things, the following information:

the name and address, as they appear on DeVry Group's books, of such shareholder and the beneficial owner or owners, if any, on whose behalf the nomination is made;

the number of shares of DeVry Group's Common Stock which are beneficially owned by such shareholder or beneficial owner or owners;

a representation that such shareholder is a holder of record entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to make the nomination;

the name and residence address of the person or persons to be nominated;

a description of all arrangements or understandings between such shareholder or beneficial owner or owners and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination is to be made by such shareholder;

such other information regarding each nominee proposed by such shareholder as would be required to be disclosed in solicitations of proxies for elections of directors, or would otherwise be required to be disclosed, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, including any information that would be required to be included in a proxy statement filed pursuant to Regulation 14A had the nominee been nominated by the Board of Directors; and

the written consent of each nominee to be named in a proxy statement and to serve as a director if so elected.

In addition to candidates submitted through this By-Law process for shareholder nominations, shareholders may also recommend candidates by following the procedures set forth below under the caption Communications with Directors.

In identifying potential nominees and determining which nominees to recommend to the Board, the Nominating & Governance Committee has retained the advisory services of Russell Reynolds Associates. In connection with each vacancy, the Nominating & Governance Committee develops a specific set of ideal characteristics for the vacant director position. The Nominating & Governance Committee looks at nominees it identifies and any identified by shareholders on an equal basis using these characteristics and the general criteria identified above.

If you hold your shares in street name, and you wish to have your shares voted on all items in this proxy statement, please complete and return your voting instruction form. If you do not return your voting instruction form, your shares will not be voted on any items with the exception that your broker may vote in its discretion on Item 2. If you are a shareholder of record and you do not cast your vote, your shares will not be voted on any of the items of business at the Annual Meeting, which will have the effect of a vote against the proposal.

Voting Instructions and Information

If you are a registered shareholder, if you return your proxy to us by any of these means outlined above under the heading **Voting Instructions** without choices for each proposal, the proxy committee appointed by DeVry Group's Board will vote your shares on the unmarked proposals in the same proportion as shares for which instructions have been received. Abstentions, directions to withhold authority and broker non-votes (where a named entity holds shares for a beneficial owner who has not provided voting instructions) will be considered present at the Annual Meeting for purposes of a quorum but will otherwise have the effect of a no vote.

Quorum and Required Vote

We will have a quorum and will be able to conduct the business of the Annual Meeting if the holders of a majority of the votes that shareholders are entitled to cast are present at the meeting, either in person or by proxy. For the 2016 Annual Meeting, to elect directors and adopt the other proposals, the following votes are required under our governing documents and Delaware corporate law:

ITEM	VOTE REQUIRED	EFFECT OF ABSTENTION	EFFECT OF BROKER NON- VOTE*

Ratification of appointment of independent registered public accounting firm	Approval of the majority of shares outstanding	Treated as vote against	Treated as vote against
Advisory vote to approve compensation of named executive officers**	Approval of the majority of shares outstanding	Treated as vote against	Treated as vote against

* A broker non-vote occurs when a broker submits a proxy but does not vote for an item because it is not a routine item and the broker has not received voting instructions from the beneficial owner. As described under **Effect of Not Casting Your Vote**, your broker may vote in its discretion only on Item 2, **Ratification of appointment of PricewaterhouseCoopers LLP as DeVry Group's independent registered public accounting firm for fiscal year 2017**.

** **Advisory/Non-binding**. In accordance with DeVry Group's Restated Certificate of Incorporation, to be approved, a majority of the shares outstanding must be voted for. Notwithstanding the foregoing, DeVry Group will take into account the weight of investor support for the compensation for its NEOs based on the percentage of shares that are present in person or represented by proxy at the meeting and entitled to vote on

the stockholder proposal that have voted for the proposal. In evaluating the weight of investor support, abstentions will be counted as shares present at the meeting and will have the effect of a vote against the proposal. Broker non-votes will not be counted as shares entitled to vote on the matter and will have no impact on the vote's outcome.

The Compensation Committee has the discretion to adjust the financial inputs used in calculating the target award percentages for the Management Incentive Plan and Return on Invested Capital. The Compensation Committee evaluates potential adjustments using the following framework:

1. Align treatment with shareholders' view of results;
2. Encourage management to make the best long-term decisions for DeVry Group's stakeholders; and
3. Remain generally consistent with past practice.

ROIC, which is used as a performance threshold for Performance Shares granted in fiscal years 2014, 2015 and 2016 and is expressed as a percentage, is calculated, as Net Income divided by the summation of all Long-term Debt and Shareholders' Equity.

Table of Contents**APPENDIX B PERFORMANCE SHARE****PERFORMANCE STANDARDS****PERFORMANCE STANDARDS FOR 2013, 2014 AND 2015 AWARDS****BSN NCLEX-RN First Time Pass Rate (Chamberlain College of Nursing)**

The NCLEX-RN (National Council Licensure Examination) is an examination for the licensing of registered nurses in the United States. After graduation from a Bachelor of Science (BSN) degree program at a school of nursing, students must pass the NCLEX-RN exam in order to receive a license to practice as a registered nurse in the U.S. The NCLEX-RN first time pass rate for BSN graduates was selected as the academic measure for Chamberlain College of Nursing because it is a critical milestone in a BSN nursing student's education. It is a pre-requisite to employment and demonstrates a standard level of competency to practice. It is objectively verifiable, and performance can be compared against other institutions, as results are published quarterly and on an annual calendar year basis by state Boards of Nursing.

Historically, each Chamberlain College of Nursing campus had a goal to achieve a 90% first time NCLEX-RN pass rate for BSN graduates. Chamberlain College of Nursing set the target at 90% because such passage rate is significantly higher than the accreditation standards and is generally consistent with the national average pass rate for nursing colleges. In 2011 and 2012, Chamberlain College of Nursing's overall NCLEX-RN pass rate for BSN graduates was 89.04% and 92.32%, respectively. In 2013, the National Council of State Boards of Nursing increased the difficulty level of the test, resulting a decline in Chamberlain's pass rates to 83.48% in 2013, 84.6% in 2014, and 81.59% in 2015, and a similar decline in the among peer institutions, with national average pass rates pass of 85.18% in 2013, 84.93% in 2014, and 87.49% in 2015.

To ensure our high standards evolve with a changing examination, in 2016 we moved to a dynamic NCLEX-RN pass rate target based on the national average among U.S. nursing colleges, which includes more-selective nursing colleges and universities. Chamberlain's goal to achieve at least the national average is a high bar because its pass rate has been lower than the national average in four of the last five years. As Chamberlain College of Nursing adds campuses, it will be increasingly challenging to achieve an overall average of all campuses at or above the national average, especially because newer campuses typically have fewer students, where one student failure has a significant impact on the campus average.

USMLE First Time Pass Rate (Ross University School of Medicine and American University of the Caribbean School of Medicine)

The United States Medical Licensing Examination (USMLE) is the examination for medical licensure in the United States and is sponsored by the Federation of State Medical Boards (FSMB) and the National Board of Medical Examiners (NBME). The USMLE assesses a physician's ability to apply knowledge, concepts, and principles, and to demonstrate fundamental patient-centered skills, that are important in health and disease and that constitute the basis of safe and effective patient care. There are three Steps to the USMLE, and Step 2 is divided into a Clinical Knowledge (CK) and Clinical Skills (CS) component. Step 3 occurs after graduation from medical school. The step 1 and 2 USMLE first time pass rates were chosen as appropriate academic measures for Ross University School of Medicine and American University of the Caribbean School of Medicine for a number of reasons. They are based on an objective national test all medical students must pass in order to be licensed in the U.S. They are available for U.S. medical schools as well as international schools who have students wishing to obtain residency and licensure in the U.S. The examinations themselves are rigorously reviewed for content validity and reliability. The pass rate scores are

simple to understand and are viewed throughout medical education as the most vigorous objective comparison amongst medical schools. Moreover, USMLE first time pass rates directly relate to the purpose of the DeVry Group medical schools, which is to produce physicians for the U.S. Even though many students who initially fail do pass on a subsequent attempt, passing the test on the first attempt is important to the students of these schools, as it is viewed favorably by the residency training programs to which they are applying. First time pass rates also are viewed by the U.S. accreditors and those international medical schools whose accreditors are approved by the U.S. Department of Education as an indicator of the quality of the medical school. The Department has set a standard of 75% pass rate on Step 1 as part of the eligibility criteria for Title IV funding.

Historically DeVry Medical International's institutions set absolute goals based on historical performance. To ensure our high performance standards evolve with a changing examination, in 2016 we established goals based on performance relative to other medical schools. Threshold pass rates were set to be consistent with average performance at

B-1

Table of Contents

international medical schools, and the maximum goals were set to be consistent with average pass rates at U.S. medical schools. Target was set at the middle point between threshold and maximum. We believe these performance levels are rigorous because: (i) achievement at or above target would require pass rates that are significantly higher than the average pass rates for international medical schools, which over the last three years have averaged 78% for Step I, 81% for Step 2 CK, and 76% for Step 2 CS and (ii) pass rates over the last three years, across both schools, are on average approximately 750 bps below that of U.S. and Canadian allopathic medical schools, which generally achieve pass rates above 95%.

NAVLE First Time Pass Rate (Ross University School of Veterinary Medicine)

The North American Veterinary Licensing Examination (NAVLE) is a requirement for licensure to practice veterinary medicine in all licensing jurisdictions in North America. The NAVLE consists of 360 clinically relevant multiple choice questions administered by an independent examiner, the National Board of Veterinary Medical Examiners (NBVME).

The NAVLE first time pass rate was chosen as an appropriate academic measure for a number of reasons. It relates directly to the purpose of the Ross University School of Veterinary Medicine (RUSVM) to produce practice-ready veterinarians. It is based on an objective test all veterinary students must pass in order to be licensed in the North America. The examination is rigorously reviewed for content validity and reliability. The pass rate scores are simple to understand and are viewed throughout veterinary medical education as the most vigorous objective comparison amongst veterinary schools. The American Veterinary Medical Association, RUSVM's accreditor, maintains NAVLE graduate class pass rate as an accreditation standard indicative of the academic quality of a veterinary school.

The goals were set for fiscal year 2014 at levels appropriate to drive a continuation of RUSVM's outstanding past performance in first time NAVLE pass rates, which ranged from 85%-90% for fiscal years 2010-2014. They were set far higher than the 80% minimum graduating class NAVLE pass rates required for RUSVM to maintain its AVMA accreditation. And they were placed right in line with the range of first time pass rates for all AVMA-Accredited veterinary schools, which was 90% to 96% from 2010 to 2014.

Student Retention (Carrington College)

An institution's retention level provides an indication of how well its students are persisting toward the goal of completing their academic programs and graduating. Carrington College calculates it by dividing the sum of the total number of students who were actively attending Carrington College at the end of the year and those who graduated by the total number of students who were actively attending at some point during the year. Carrington College reports its retention rate annually to its institutional accreditor, the Accrediting Commission of Community and Junior Colleges of the Western Association of Schools and Colleges (ACCJC-WASC). Student retention was chosen as an appropriate academic measure for Carrington College because it is perceived to be one of the best measures of the success of Carrington College's students in its programs, and a strong indicator of students' ability to secure employment and be able to pay back their student loans. Further, Carrington College already is required to calculate and report retention rates to ACCJC-WASC, as well as to set and achieve retention goals for continuous improvement.

The retention goals for fiscal year 2016 were set at levels calculated to serve Carrington College's secondary objective of reducing its cohort default rate by 6%. Higher student retention rates correlate directly to lower cohort default rates. The targets were deemed to be appropriately rigorous in view of Carrington College's historical retention rates and strategic direction. Carrington College's historical retention rates have ranged between 81% and 84% over the last five years. A further consideration was the fact that Carrington College is moving toward offering more online alternatives for its students. Since retention rates for online students tend to be lower than for students studying in a campus

setting, this is likely to bring down the rate. The appropriateness of the goals was reinforced by normative considerations. While ACCJC-WASC does not prescribe minimum standards, other accreditors do. As a comparison, one of Carrington College's previous institutional accreditors, the Accrediting Council for Independent Colleges and Schools (ACICS) sets its minimum retention standard at 60%, and its benchmark standards at 65% for certificate programs and 70% for degree programs. Carrington College's retention goals are significantly higher than the ACICS standard.

Undergraduate Session-to-Session Persistence (DeVry University)

Persistence is a leading indicator of an institution's ability to retain and graduate its students. DeVry University calculates persistence by dividing the sum of the total number of students who were actively attending DeVry University in a later session, excluding newly enrolled students, by the total number of students attending DeVry University in the immediately prior session (excluding students who graduate in the subsequent session). Student retention was chosen as an appropriate academic measure for DeVry University because it is a strong proxy for the graduation rate, which is calculated six years after the start of a student cohort and would therefore measure performance outside the performance period.

Table of Contents

DeVry University's historical undergraduate persistence rates have ranged between 81.9% and 82.5% over the last three fiscal years. Targets were established to drive sustained academic quality in the short term, as campus closings are expected to impact persistence rates, and improved academic quality in the longer term as projects and investments focused on improved academic quality and student outcomes are implemented as part of DeVry University's turnaround.
