Report of Independent Registered Public Accounting Firm

To the participants and Plan Committee of the Oracle Corporation 401(k) Savings and Investment Plan

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of Oracle Corporation 401(k) Savings and Investment Plan (the Plan) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017 and the related notes (collectively referred to as the *financial statements*). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of Oracle Corporation 401(k) Savings and Investment Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Supplemental Information

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of Oracle Corporation 401(k) Savings and Investment Plan's financial statements. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Oracle Corporation 401(k) Savings and Investment Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Oracle Corporation 401(k) Savings and Investment Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. Our audits included performing procedures to assess the risk of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risk. Such procedures included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

/s/ SENSIBA SAN FILIPPO LLP

We have served as Oracle Corporation 401(k) Savings and Investment Plan s auditor since 2004.

Oracle Corporation

401(k) Savings and Investment Plan

Notes to Financial Statements

December 31, 2017

1. Description of the Plan

The following description of the Oracle Corporation 401(k) Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally established in 1986 that has since been amended and for which Oracle Corporation (Oracle) is the current sponsor. The Plan was established for the purpose of providing retirement benefits for the U.S. employees of Oracle and its subsidiaries. The Plan is intended to qualify as a profit sharing plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), with a salary reduction feature qualified under Section 401(k) of the Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the 401(k) Committee, members of which are appointed by the Compensation Committee of Oracle's Board of Directors or the Executive Vice President, Human Resources. Fidelity Management Trust Company is the directed trustee of the Plan; Fidelity Investments Institutional Operations Company, Inc. (Fidelity) serves as the record keeper to maintain the individual accounts of each of the Plan's participants.

Eligibility

All employees regularly scheduled to work a minimum of 20 hours per week or 1,000 hours in a Plan year on the domestic payroll of Oracle and its subsidiaries that have adopted the Plan are eligible to participate in the Plan as of the first date, or any succeeding entry date following the date the employee is credited with one hour of service with Oracle. However, the following employees or classes of employees are not eligible to participate: (i) employees whose compensation and conditions of employment are subject to determination by collective bargaining; (ii) employees who are non-resident aliens and who received no earned income (within the meaning of the Code) from Oracle; (iii) workers who are performing services at an Oracle facility as an employee of a third-party entity that is not an employment agency; (iv) employees of employment agencies; and (v) persons who are not classified as employees for tax purposes.

Contributions

Each year, participants may contribute up to 40% of their eligible compensation as defined by the Plan document. Annual participant contribution amounts are limited to \$18,000 of salary deferrals for the year ended December 31, 2017 (\$24,000 for participants 50 years old and older), as determined by the Internal Revenue Service (IRS). Salary deferrals consist of pre-tax and/or Roth 401(k) contributions. Participants may also contribute up to 15% of their eligible compensation, subject to certain annual dollar limitations, on a post-tax basis.

Edgar Filing: ORACLE CORP - Form 11-K

Oracle matches 50% of an active participant's salary deferrals up to a maximum deferral of 6% of compensation for the pay period, with maximum aggregate matching of \$5,100 in any calendar year. Oracle has the right, under the Plan, to discontinue or modify its matching contributions at any time. Participants may also contribute amounts representing distributions from other qualified plans. All of Oracle's matching contributions are made in cash on a pre-tax basis.

Table of Contents

Oracle Corporation

401(k) Savings and Investment Plan

Notes to Financial Statements (Continued)

December 31, 2017

Investment Options

Participants direct the investment of their contributions and Oracle's matching contributions into various investment options offered by the Plan. The Plan currently offers investments in Oracle's common stock, common/collective trust funds, mutual funds, separately managed account funds (including a stable value fund) and Brokerage Link. Brokerage Link balances consist of the mutual funds offered by the Plan, as well as mutual funds offered by other registered investment companies, common stock or other investment products.

Participant Accounts

Each participant's account is credited with the participant's and Oracle's contributions and allocations of Plan earnings. All amounts in participant accounts are participant directed.

Vesting

All elective contributions made by participants and earnings on those contributions are 100% vested at all times. Participants' vesting in Oracle's matching contributions is based on years of service. Participants are 25% vested after one year of service and vest an additional 25% on each successive service anniversary date, becoming 100% vested after four years of service.

Participants forfeit the nonvested portion of their accounts in the Plan upon termination of employment with Oracle. Forfeited balances of terminated participants' nonvested accounts may be used at Oracle's discretion, as outlined in the Plan, to reduce its matching contribution obligations. During the year ended December 31, 2017, Oracle used \$7,700,000 of forfeited balances to reduce its matching contribution obligations. The amounts of unallocated forfeitures at December 31, 2017 and 2016 were \$822,000 and \$681,000, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 and up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Loan terms may not exceed five years unless the loan is used to purchase a participant's principal residence, in which case repayment terms may not exceed 10 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing lending rates determined by the 401(k) Committee. Principal and interest is paid ratably through payroll deductions, and participants may elect to submit additional payments outside of payroll deductions in order to reduce principal loan balances on an accelerated basis. Loans are generally due in full within 60 days of termination with Oracle unless the participant arranges for loan repayments to continue via monthly debit from a checking or savings account in a bank located in the United States.

Payment of Benefits

Upon termination of service, death, disability, or normal or early retirement, participants may elect to receive a lump-sum amount equal to the vested value of their account or may waive receipt of a lump sum benefit and elect to receive monthly, quarterly or annual installments, a partial distribution, or may request a rollover from the Plan to another eligible retirement plan. Failure of a participant to make an election of one of these options within 60 days is deemed to be an election to defer commencement of payment. If the participant's account is valued at \$1,000 or less, the amount is distributed in a lump sum. Distributions of investments in Oracle's common stock may be taken in the form of common stock. Hardship withdrawals are permitted if certain criteria are met.

Table of Contents

Oracle Corporation

401(k) Savings and Investment Plan

Notes to Financial Statements (Continued)

December 31, 2017

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair values of investments.

Administrative Expenses

Administrative expenses are borne by Oracle, except for fees related to administration of participant loans and certain withdrawal transactions, which are deducted from the applicable participants' accounts. Oracle, at its discretion, may also choose to utilize available revenue sharing (based on a revenue sharing agreement between Oracle and Fidelity) or forfeited balances of terminated participants' nonvested accounts to pay for reasonable expenses related to the administration of the Plan.

Plan Termination

Although it has not expressed any intent to do so, Oracle has the right, under provisions of the Plan, to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting and Presentation

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

The Plan's investments are generally stated at their fair values with the exception of the Galliard Stable Value Fund (a separately-managed account fund investment), which is stated at its contract value in the statements of net assets available for benefits at December 31, 2017 and 2016. The shares of registered investment companies (mutual funds) are valued at quoted market prices. The money market funds are valued at cost plus accrued interest, which approximated fair values. Common stock, including Oracle's common stock, is traded on a national securities exchange and is valued at the last reported sales price on the last day of the Plan year. The valuation techniques used to measure the fair values of the common/collective trust funds with significant balances as of December 31, 2017 are

included in Note 4 below.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

The Oracle Stock Fund (the Fund) is tracked on a unitized basis, which allows for daily trades. The Fund consists of Oracle common stock and investment in the Fidelity Investments Money Market Government Portfolio sufficient to meet the Fund's daily cash needs. The value of a unit reflects the combined market value of Oracle

Table of Contents

Oracle Corporation

401(k) Savings and Investment Plan

Notes to Financial Statements (Continued)

December 31, 2017

common stock and the cash investments held by the Fund. At December 31, 2017, 2,313,067 units were outstanding with a value of \$360.56 per unit. At December 31, 2016, 2,451,197 units were outstanding with a value of \$289.03 per unit.

Fair Value Measurements

The Plan performs fair value measurements in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification 820, *Fair Value Measurement* (ASC 820). Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Risks and Uncertainties

The Plan provided for various investment options in common stock, registered investment companies (mutual funds), common/collective trusts, separately-managed account funds (including a stable value fund) and short-term investments. The Plan's exposure to credit losses in the event of nonperformance of investments is limited to the carrying value of such investments. Investment securities, in general, are exposed to various risks, such as risk of foreign currency fluctuations relative to the U.S. Dollar, interest rate risk, credit risk, and overall market volatility risk. During the year ended December 31, 2017, net appreciation in fair values of investments totaled \$2.4 billion. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, participant account balances and the statement of changes in net assets available for benefits.

3. Fair Value Measurements

The Plan performs fair value measurements in accordance with the guidance provided by ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at their fair values, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the assets or liabilities, such as inherent risk, transfer restrictions, and risk of nonperformance.

ASC 820 establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. An asset's or a liability's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value:

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair values of the assets or liabilities.

Table of Contents**Oracle Corporation****401(k) Savings and Investment Plan****Notes to Financial Statements (Continued)****December 31, 2017*****Investments Measured at Fair Value on a Recurring Basis***

Investments measured at fair value on a recurring basis consisted of the following types of instruments (Level 1 and 2 inputs are defined above):

(in thousands)	December 31, 2017			December 31, 2016		
	Fair Value Measurements			Fair Value Measurements		
	Using Input Types			Using Input Types		
	Level 1	Level 2	Total	Level 1	Level 2	Total
Money market funds	\$ 208,606	\$	\$ 208,606	\$ 223,396	\$	\$ 223,396
Oracle Corporation and other common stock	1,729,843		1,729,843	1,537,625		1,537,625
Mutual funds	2,921,731		2,921,731	4,732,217		4,732,217
Corporate securities and others	17,287	4,067	21,354	7,762	7,880	15,642
Total investments measured at fair value	\$ 4,877,467	\$ 4,067	\$ 4,881,534	\$ 6,501,000	\$ 7,880	\$ 6,508,880
Common/collective trust funds measured at net asset value			9,685,100			5,622,520
Total investments			\$ 14,566,634			\$ 12,131,400

The Plan's valuation techniques used to measure the fair values of money market funds, common stock, mutual funds and corporate securities and others that were classified as Level 1 in the table above were derived from quoted market prices as substantially all of these instruments have active markets. Our level 2 instruments are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the securities are valued using a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. A description of the valuation techniques used to measure the fair values of common/collective trust funds and separately-managed account fund investments with significant balances as of December 31, 2017 and 2016 are included in Note 4 below. Redemption for common collective trust funds is permitted daily with no restrictions and same-day or one-day notice periods and there are no unfunded commitments.

4. Composition and Valuation of Certain Plan Investments

Fidelity Commingled Funds

The Plan held investments in Fidelity Contrafund Commingled Pool, Fidelity Growth Company Commingled Pool and Fidelity Low-Priced Stock Commingled Pool as of December 31, 2017 and 2016 (collectively, the Fidelity Commingled Funds). The Fidelity Commingled Funds are common/collective trust funds managed by Fidelity Management Trust Company. Fidelity Pricing and Cash Management Services, an affiliate of Fidelity Management Trust Company, determines the fair values of the Fidelity Commingled Funds on a daily basis using the net asset value (NAV) of units held of the commingled funds. The NAV is based on the fair value of the underlying investments held by each commingled fund less its liabilities. The fair value of the underlying investments is generally derived from the quoted prices in active markets of the underlying securities as substantially all of the underlying investments have active markets.

Table of Contents

Oracle Corporation

401(k) Savings and Investment Plan

Notes to Financial Statements (Continued)

December 31, 2017

Vanguard Trusts

The Plan held investments in certain Vanguard Institutional Index Trusts and certain Vanguard Target Retirement Trusts (collectively, the Vanguard Trusts), which are more specifically listed in Schedule H, Line 4(i) Schedule of Assets (Held at End of Year) as of December 31, 2017 and 2016. The Vanguard Trusts are common/collective trust funds sponsored and maintained by Vanguard Fiduciary Trust Company. The trustee, Vanguard Fiduciary Trust Company, generally determines the fair values of the Vanguard Trusts' units each day the New York Stock Exchange is open for trading. The underlying investments of the Vanguard Trusts are valued based on quoted market prices as substantially all of these underlying investments have active markets. The values of the Vanguard Trusts are determined based upon the values of these underlying investments held for benefit of the Vanguard Trusts less any liabilities.

Galliard Stable Value Fund

During the years ended December 31, 2017 and 2016, the Plan held investments in Galliard Stable Value Fund (Galliard Fund). The Galliard Fund is exclusively managed for the Plan by Galliard Capital Management, Inc. The Galliard Fund primarily invests in common/collective trust funds in the Plan's name for the sole benefit of Plan participants, security-backed investment contracts, separate accounts guaranteed investment contracts and money market funds. Security-backed investment contracts are issued by insurance companies and other financial institutions that wrap underlying bond funds, fixed income common/collective trust funds or separate accounts (Wrap Contract).

The issuer of the Wrap Contract guarantees a minimum rate of return and provides full benefit responsiveness, provided that all terms of the Wrap Contract have been met. Wrap Contracts are normally agreements entered with issuers rated in the top three long-term rating categories (equaling A- or above) as determined by any of the nationally recognized rating organizations. The Galliard Fund is credited with contributions from participants and earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

As of December 31, 2017 and 2016, there were no reserves against the Wrap Contracts' carrying values due to credit risks of the issuers. Certain events limit the ability of the Plan to transact at contract value with the wrap issuer. However, the Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants. The issuer may terminate a Wrap Contract at any time.

The following table provides the disaggregation of contract value between types of investment contracts held by the Plan:

(in thousands)	December 31,	
	2017	2016
Security-backed investment contracts	\$ 675,005	\$ 677,789
Separate account guaranteed investment contracts	88,687	89,274
Total investment contracts	\$ 763,692	\$ 767,063

5. Income Tax Status

On October 20, 2015, the Plan received a determination letter from the IRS stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. This determination

Table of Contents**Oracle Corporation****401(k) Savings and Investment Plan****Notes to Financial Statements (Continued)****December 31, 2017**

letter superseded the determination letters issued by the IRS on April 3, 2015 and May 29, 2014. The 401(k) Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-in-Interest Transactions

Transactions in shares of Oracle common stock qualify as party-in-interest transactions under the provisions of ERISA. During the year ended December 31, 2017, the Plan made purchases of approximately \$41,565,000 and sales of approximately \$60,898,000 of Oracle common stock. In addition, the Plan made in-kind transfers of Oracle common stock to participants, related to certain qualifying distribution, of approximately \$16,402,000 during the year ended December 31, 2017.

Certain members of Oracle Corporation management perform administrative and fiduciary duties for the Plan that qualify them as parties-in-interest and/or related parties of the Plan. Transactions between such members of Oracle Corporation management and the Plan were routine in nature and conducted pursuant to the Plan's provisions as of and during the year ended December 31, 2017.

As described in Note 1 above, Fidelity Management Trust Company is a directed trustee of the Plan and Fidelity Investments Institutional Operations Company, Inc. serves as the record keeper to maintain the individual accounts of each Plan participant. Certain Plan investments include shares of mutual funds that are managed by affiliates of Fidelity.

7. Differences between Financial Statements and Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Plan's Form 5500:

(in thousands)	December 31,	
	2017	2016
Net assets available for benefits per the financial statements	\$ 15,444,333	\$ 13,015,463
Adjustment from contract value to fair value of certain Galliard Stable Value Fund assets	(388)	695
Amounts allocated to withdrawing participants and other	(1,190)	(1,285)
Net assets available for benefits per the Form 5500	\$ 15,442,755	\$ 13,014,873

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Plan's Form 5500:

(in thousands)	Year Ended December 31,	
	2017	2016
Net increase in net assets available for benefits per the financial statements	\$ 2,428,870	\$ 1,025,320
Net change in fair value adjustment of certain Galliard Stable Value Fund assets	(1,083)	(2,301)
Net change in amounts allocated to withdrawing participants and other	95	(92)
Net income per the Form 5500	\$ 2,427,882	\$ 1,022,927

Table of Contents

Oracle Corporation

401(k) Savings and Investment Plan

Notes to Financial Statements (Continued)

December 31, 2017

The fair value adjustment for certain Galliard Stable Value Fund assets represented the differences between contract values of certain fully benefit-responsive contracts within the Galliard Fund as included in the statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the respective fair values of these contracts as reported in the respective Form 5500. Certain investments within the Galliard Fund are presented at contract value in both the statements of changes in net assets available for benefits and the Form 5500, and therefore, do not result in a difference between the Plan's financial statements and the Form 5500. Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to each respective year-end but were not yet paid.

8. Excess Contributions

Contributions received from participants for the year ended December 31, 2017 included approximately \$257,000 of excess contributions (net of corresponding gains and losses) that were remitted during January 2018 through April 2018 to certain participants. The excess deferral contributions, originally deducted in the year ended December 31, 2017, were returned to comply with the participants' applicable maximum annual contributions permitted under the Code. The amount is included in the Plan's statement of net assets available for benefits as excess deferrals due to participants at December 31, 2017.
