FRANKLIN TEMPLETON LIMITED DURATION INCOME TRUST

Notes to Statement of Investments (unaudited)

1. ORGANIZATION

Franklin Templeton Limited Duration Income Trust (Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end investment company.

2. SECURITY VALUATION

Equity and other securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities. Investments in open-end mutual funds are valued at the closing net asset value.

Corporate debt securities, government securities, mortgage backed securities,

asset-backed securities, collateralized debt obligations and other debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers, and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value. Debt securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the date that the values of the foreign debt securities are determined.

Senior secured corporate loans with floating or variable interest rates generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from loan dealers and other financial institutions, and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services use independent market quotations from loan dealers or financial institutions and may incorporate valuation methodologies that consider multiple bond characteristics such as dealer quotes, issuer type, coupon, maturity, weighted average maturity, interest rate spreads and yield curves, cash flow and credit risk/quality analysis, to determine current value.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis based upon the underlying investment book value, anticipated future cash flows, market changes in comparable or similar securities, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value

procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

3. DERIVATIVE FINANCIAL INSTRUMENTS

The Fund may invest in derivative financial instruments (derivatives) in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives may contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and the potential for market movements.

Derivatives are marked to market daily based upon quotations from market makers or the Fund's independent pricing services and the Fund's net benefit or

Edgar Filing: FRANKLIN TEMPLETON LTD DURATION INCOME TRUST - Form N-Q

obligation under the contract, as measured by the fair market value of the contract, is included in net assets.

The Fund generally enters into forward exchange contracts in order to hedge against fluctuations in foreign exchange rates or to gain exposure to certain foreign currencies. A forward exchange contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency for a specific exchange rate on a future date.

4. INCOME TAXES

At December 31, 2009, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$518,258,802
	=====
Unrealized appreciation	\$ 20,872,127
Unrealized depreciation	(18,586,917)

Net unrealized appreciation (depreciation)	\$ 2,285,210
	=====

5. OTHER CONSIDERATIONS

From time to time, officers, directors or employees of the Fund's Investment Manager may have discussions or enter into agreements with issuers, underwriters or creditors' committees which, pursuant to the Fund's policies and requirements of applicable securities laws, could prevent the Fund from trading in the securities of such company for limited or extended periods of time.

6. FAIR VALUE MEASUREMENTS

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speed, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of December 31, 2009, in valuing the Fund's assets and liabilities carried at fair value:

7. NEW ACCOUNTING PRONOUNCEMENTS

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2010-6, FAIR VALUE MEASUREMENTS AND DISCLOSURES (TOPIC 820): IMPROVING DISCLOSURES ABOUT FAIR VALUE MEASUREMENTS. ASU No. 2010-6 enhances and clarifies existing fair value measurement disclosure requirements and is effective for interim and annual periods beginning after December 15, 2009. The Fund is currently evaluating the impact, if any, of applying the provisions of ASU No. 2010-6.

8. SUBSEQUENT EVENTS

The Fund has evaluated subsequent events through February 22, 2010, the issuance date of the financial statements and determined that no events have occurred that require disclosure.

For information on the Fund's policy regarding other significant accounting policies, please refer to the Fund's most recent semiannual or annual shareholder report.

ITEM 2. CONTROLS AND PROCEDURES.

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Quarterly Schedule of Portfolio Holdings on Form N-Q, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including

Edgar Filing: FRANKLIN TEMPLETON LTD DURATION INCOME TRUST - Form N-Q

the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Quarterly Schedule of Portfolio Holdings on Form N-Q.
