### **Petrobras' purchase of a 40% stake in Gasmig becomes effective**

---

(Rio de Janeiro, August 25, 2004). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA], a Brazilian international energy company, announces that the Company's President, José Eduardo Dutra and the governor of the State of Minas Gerais, Aécio Neves, today formalized Petrobras' purchase of a 40% stake in Companhia de Gás de Minas Gerais (Gasmig), through the Company's Petrobras Gás S.A. - Gaspetro subsidiary. As a consequence, Gaspetro now becomes Companhia Energética de Minas Gerais' (Cemig) partner in Gasmig, a gas distribution concessionaire in the State. The investment is worth R\$ 144 million.

Petrobras, Gaspetro, Cemig and Gasmig have been involved in joint studies to set up a partnership for expanding the local natural gas market. These studies have resulted in the preparation of a Master Plan identifying the markets to be served in the State of Minas Gerais and an investment program for the development and expansion of the gas pipeline network for carrying and distributing gas in the State.

The principal objective is to significantly increase the supply of piped gas in the State by increasing natural gas volumes distributed by Gasmig from the current 3.5 million m<sup>3</sup>/day to 4.5 million m<sup>3</sup>/day by the end of 2006, rising to a total of 11.1 million m<sup>3</sup>/day by 2023. The markets which Gasmig will be serving in 2023, segmented in accordance with projected natural gas demand by volume, are: **Industrial** (5.0 million m<sup>3</sup>/day), **Residential** (0.03 million m<sup>3</sup>/day), **Commercial** (0.1 million m<sup>3</sup>/day), **Automotive** (1.2 million m<sup>3</sup>/day), **Thermal Generation** (1.6 million m<sup>3</sup>/day), **Cogeneration** (0.9 million m<sup>3</sup>/day), **Compressed Natural Gas - CNG** (0.1 million m<sup>3</sup>/day) and a **Fertilizer Plant** (2.0 million m<sup>3</sup>/day).

Complementary to Petrobras' commitments, Cemig and Gaspetro will manage Nova Gasmig on a joint basis.

The Agreement is subject to approval by the State of Minas Gerais Legislative Assembly.

This acquisition is in line with the objectives of Petrobras' Strategic Plan for developing and spearheading the Brazilian natural gas market as well as its participation on an integrated basis in the sector's activities.

#### **About Companhia de Gás de Minas Gerais - Gasmig:**

A company controlled by Companhia Energética de Minas Gerais - Cemig, Gasmig is the piped gas distribution concessionaire for the State of Minas Gerais, currently operating a 240 km distribution network serving 249 clients. The company sells a volume of 1.9 million m<sup>3</sup>/day of natural gas to the municipalities of Juiz de Fora, Barbacena, Betim, Ibitiré, Contagem, Belo Horizonte, São José da Lapa, Vespasiano, Santa Luzia, Confins, Pedro Leopoldo, Matozinhos, Prudente de Moraes and Sete Lagoas. It additionally supplies the UTE Ibitirermo and UTE Juiz de Fora thermoelectric power plants with a volume of 1.6 million m<sup>3</sup>/day.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
