### **Petrobras completes drilling and testing well in Transfer of Rights area**

Rio de Janeiro, May 23<sup>rd</sup>, 2013 – Petróleo Brasileiro S.A – Petrobras announces it has completed drilling and conducted a formation test in the well that discovered oil at the Transfer of Rights area referred to as Florim, in the Santos Basin pre-salt.

Well 1-BRSA-1116-RJS (1-RJS-704), informally known as Florim, is located at a water depth of 2,009 meters, 206 km off the coast of the Rio de Janeiro state. The well confirmed the discovery of good quality oil (29° API) in carbonate reservoirs located just below the salt layer starting at a depth of 5,342 meters. The well was completed at a depth of 6,004 meters after achieving the objectives outlined in the Transfer of Rights Agreement.

After drilling was complete, a formation test was conducted that confirmed the excellent productivity of the reservoirs without the presence of CO<sub>2</sub> and H<sub>2</sub>S.

Petrobras will proceed with activities in the area by drilling another appraisal well this year. The Transfer of Rights agreement sets a volume of 467 million barrels of oil for the Florim area and the contract determines the end of the exploratory phase in September 2014.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
