Forward-Looking Statements

This Form 8-K (including Exhibit 99.1) contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The statements regarding Arbitron Inc. and its subsidiaries ("we," "our," "Arbitron" or the "Company") in this document that are not historical in nature, particularly those that utilize terminology such as "may," "will," "should," "likely," "expects," "anticipates," "estimates," "believes," or "plans" or comparable terminology, are forward-looking statements based on current expectations about future events, which Arbitron has derived from information currently available to it. These forward-looking statements involve known and unknown risks and uncertainties that may cause our results to be materially different from results implied in such forward-looking statements. These risks and uncertainties include, in no particular order, whether we will be able to:

- successfully implement the rollout of our Portable People Meter™ service;
  - renew contracts with large customers as they expire;
  - successfully execute our business strategies, including entering into potential acquisition, joint-venture or other material third-party agreements;
  - effectively manage the impact of any further ownership shifts in the radio and advertising agency industries;
  - respond to rapidly changing technological needs of our customer base, including creating new proprietary software systems and new customer products and services that meet these needs in a timely manner;
  - successfully manage the impact on our business of any economic downturn generally and in the advertising market in particular;
  - successfully manage the impact on costs of data collection due to lower respondent cooperation in surveys, privacy concerns, consumer trends, technology changes and/or government regulations;
  - successfully design, recruit, and maintain PPM panels that appropriately balance research quality, panel size and operational cost;
  - successfully develop and implement technology solutions to measure multi-media and advertising in an increasingly competitive environment;
- and
- successfully obtain and/or maintain Media Rating Council® accreditation for our audience measurement services.

Additional important factors known to Arbitron that could cause actual results to differ materially from our forward-looking statements are identified and discussed from time to time in Arbitron's filings with the Securities and Exchange Commission, including in particular the risk factors discussed under the caption "ITEM 1A. RISK FACTORS" in Arbitron's Annual Report on Form 10-K for the year ended December 31, 2006.

The forward-looking statements contained in this document speak only as of the date hereof, and Arbitron undertakes no obligation to correct or update any forward-looking statements, whether as a result of new information, future events or otherwise.
