NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION

Description of Business

Viacom Inc. is a leading global entertainment content company that connects with audiences in over 160 countries and territories and creates compelling television programs, motion pictures, short-form video, applications ("apps"), games, consumer products, social media and other entertainment content. Viacom operates through two reporting segments: Media Networks, which includes Music and Logo, Nickelodeon, Entertainment and BET Networks; and Filmed Entertainment. The Media Networks segment provides entertainment content and related branded products for consumers in targeted demographics attractive to advertisers, content distributors and retailers. The Filmed Entertainment segment produces, finances, acquires and distributes motion pictures and other entertainment content under the Paramount Pictures, Paramount Vantage, Paramount Classics, Insurge Pictures, MTV Films and Nickelodeon Movies brands. References in this document to "Viacom", "Company", "we", "us" and "our" mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise.

Unaudited Interim Financial Statements

The accompanying unaudited consolidated quarterly financial statements have been prepared on a basis consistent with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and pursuant to the rules of the Securities and Exchange Commission ("SEC"). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of our results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for the fiscal year ending September 30, 2014 ("fiscal 2014") or any future period. These financial statements should be read in conjunction with our Form 10-K for the year ended September 30, 2013, as filed with the SEC on November 14, 2013 (the "2013 Form 10-K").

Use of Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities as of the dates presented and the reported amounts of revenues and expenses during the periods presented. Significant estimates inherent in the preparation of the accompanying Consolidated Financial Statements include estimates of film ultimate revenues, product returns, allowance for doubtful accounts, potential outcome of uncertain tax positions, fair value of acquired assets and liabilities, fair value of equity-based compensation and pension benefit assumptions. Estimates are based on past experience and other considerations reasonable under the circumstances. Actual results may differ from these estimates.

Reclassification

Certain prior year amounts have been reclassified to conform to the fiscal 2014 presentation.

NOTE 2. EARNINGS PER SHARE

Basic earnings per common share is computed by dividing Net earnings attributable to Viacom by the weighted average number of common shares outstanding during the period. The determination of diluted earnings per common share includes the weighted average number of common shares plus the dilutive effect of equity awards based upon the application of the treasury stock method. Anti-dilutive common shares were excluded from the calculation of diluted earnings per common share.

The following table sets forth the weighted average number of common shares outstanding used in determining basic and diluted earnings per common share and anti-dilutive shares:

Weighted Average Number of Common Shares Outstanding and Anti-dilutive Common Shares (in millions)	Quarter Ended		Six Months Ended

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Senior Notes and Debentures

We issued a total of \$1.5 billion of senior notes and debentures in March 2014 as follows:

• 2.200% Senior Notes due April 2019 with an aggregate principal amount of \$400 million at a price equal to 99.947% of the principal amount.

• 3.875% Senior Notes due April 2024 with an aggregate principal amount of \$550 million at a price equal to 99.192% of the principal amount.

• 5.250% Senior Debentures due April 2044 with an aggregate principal amount of \$550 million at a price equal to 99.831% of the principal amount.

The proceeds, net of the discount and other issuance fees and expenses, from the issuance of the senior notes and debentures were \$1.485 billion.

On April 3, 2014, we redeemed all \$600 million of our outstanding 4.375% Senior Notes due September 2014 (the "2014 Notes") at a redemption price equal to the sum of the principal amount and a make-whole amount, together totaling \$611 million, and accrued and unpaid interest of \$1 million. As a result of the redemption, we will recognize a pre-tax extinguishment loss of \$11 million in the third quarter.

The total unamortized net discount related to our senior notes and debentures was \$425 million as of March 31, 2014.

The fair value of our senior notes and debentures was approximately \$14.3 billion as of March 31, 2014. The valuation of our publicly traded debt is based on quoted prices in active markets.

The Senior Notes due in February 2015 are classified as long-term debt as we have the intent as well as the ability, through utilization of our \$2.5 billion revolving credit facility, to refinance this debt.

Credit Facility

At March 31, 2014, there were no amounts outstanding under our \$2.5 billion revolving credit facility due November 2017. The credit facility has one principal financial covenant that requires our interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which we met as of March 31, 2014.

NOTE 5. PENSION BENEFITS

NOTE 6. FAIR VALUE MEASUREMENTS

The following table summarizes our financial assets and liabilities measured and recorded at fair value on a recurring basis as of March 31, 2014 and September 30, 2013:

Financial Asset (Liability)	Total	Quoted Prices	Significant	Significant
		In Active Markets for Identical Assets	Other Observable Inputs	Unobservable Inputs
(in millions)		Level 1	Level 2	Level 3
March 31, 2014

Derivatives	9	—	9	—
Total	\$ 113	\$ 104	\$ 9	\$—

Marketable securities	\$ 89	\$ 89	\$—	\$—
Derivatives	(2) —	(2) —
Total	\$ 87	\$ 89	\$(2) \$—

The fair value for marketable securities is determined utilizing a market approach based on quoted market prices in active markets at period end and the fair value for derivatives is determined utilizing a market-based approach.

The notional value of all foreign exchange contracts was \$412 million and \$196 million as of March 31, 2014 and September 30, 2013, respectively. At March 31, 2014, \$206 million related to our foreign currency balances, \$143 million related to anticipated investing cash flows and \$63 million related to future production costs and programming obligations. At September 30, 2013, \$178 million related to our foreign currency balances and \$18 million related to future production costs and programming obligations.

NOTE 7. COMMITMENTS AND CONTINGENCIES

Commitments

As more fully described in Notes 3 and 11 of the 2013 Form 10-K, our commitments primarily consist of programming and talent commitments, operating and capital lease arrangements, and purchase obligations for goods and services. These arrangements result from our normal course of business and represent obligations that may be payable over several years. Additionally, we are subject to a redeemable put option, payable in a foreign currency, with respect to an international subsidiary. The put option expires in January 2016 and is classified as Redeemable noncontrolling interest in the Consolidated Balance Sheets.

Contingencies

We have certain indemnification obligations with respect to leases primarily associated with the previously discontinued operations of Famous Players Inc. ("Famous Players"). In addition, we have certain indemnities provided by the acquirer of Famous Players. These lease commitments amounted to approximately \$420 million as of March 31, 2014. The amount of lease commitments varies over time depending on expiration or termination of individual underlying leases, or of the related indemnification obligation, and foreign exchange rates, among other things. We may also have exposure for certain other expenses related to the leases, such as property taxes and common area maintenance. We have recorded a liability of \$195 million with respect to such obligations as of March 31, 2014. We believe our accrual is sufficient to meet any future obligations based on our consideration of available financial information, the lessees' historical performance in meeting their lease obligations and the underlying economic factors impacting the lessees' business models.

Legal Matters

Litigation is inherently uncertain and always difficult to predict. However, based on our understanding and evaluation of the relevant facts and circumstances, we believe that the legal matters described below and other litigation to which we are a party are not likely, in the aggregate, to have a material adverse effect on our results of continuing operations, financial position or operating cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

In March 2007, we filed a complaint in the United States District Court for the Southern District of New York against Google Inc. (“Google”) and its wholly-owned subsidiary YouTube, alleging that Google and YouTube violated and continued to violate our copyrights. We sought both damages and injunctive relief. After extended discovery and decisions by both the District Court and the U.S. Court of Appeals, the matter was settled on March 18, 2014. The terms of the settlement were not material to our financial statements.

In February 2013, Cablevision Systems Corporation filed a lawsuit in the United States District Court for the Southern District of New York alleging that Viacom’s industry standard practice of offering discounts for additional network distribution constituted a “tying” arrangement in violation of federal and New York state antitrust laws. Similar arrangements have been upheld by numerous federal and state courts, including in a federal case in which Cablevision itself advocated for the legality of such arrangements. We believe the lawsuit is without merit and, in May 2013, we filed a motion to dismiss. In July 2013, Cablevision filed an amended complaint, and in August 2013, Viacom once again moved to dismiss the action. Briefing on the motion is now complete, and discovery in the action has been stayed pending the court’s decision on the motion to dismiss.

In August 2012, a complaint was filed in the United States District Court for the District of Delaware by a Viacom Class B stockholder against us and each member of our Board of Directors. The complaint purported to be a derivative action alleging that, between 2008 and 2011, we violated the terms of our 2007 Senior Executive Short-Term Incentive Plan (the “2007 Plan”) by allegedly using improper subjective criteria to determine the bonuses paid to Messrs. Redstone, Dauman and Dooley in each of those years, which, according to the complaint, constituted a breach of fiduciary duty by the members of the Board of Directors. The plaintiff alleged that during this period Messrs. Redstone, Dauman and Dooley were paid more than the 2007 Plan permitted and the plaintiff sought to recover the amount of the claimed overpayment, plus interest, for the Company. The plaintiff also alleged that adoption of the Viacom 2012 Senior Executive Short-Term Incentive Plan (the “2012 Plan”) required the vote of all Viacom stockholders and not simply holders of our voting Class A common stock. Accordingly, the plaintiff sought to enjoin any overpayment under the 2012 Plan until a new vote on that plan that included Class B stockholders occurred. In July 2013, the District Court granted our motion to dismiss the complaint, whereupon the plaintiff appealed to the United States Court of Appeals for the Third Circuit. Oral argument on the appeal was heard on March 25, 2014, and we now await a decision.

Accounts Receivable

We had \$378 million of noncurrent trade receivables as of March 31, 2014. The accounts receivable were primarily in the Filmed Entertainment segment, included within Other assets in our Consolidated Balance Sheets, and principally related to long-term television license arrangements. Such amounts are due in accordance with the underlying terms of the respective agreements and are principally from investment grade companies with which we have historically done business under similar terms, for which credit loss allowances are generally not considered necessary.

Variable Interest Entities

In the normal course of business, we enter into joint ventures or make investments with business partners that support our underlying business strategy and provide us the ability to enter new markets to expand the reach of our brands, develop new programming and/or distribute our existing content. In certain instances, an entity in which we make an investment may qualify as a variable interest entity ("VIE"). In determining whether we are the primary beneficiary of

a VIE, we assess whether we have the power to direct matters that most significantly impact the activities of the VIE and have the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

Unconsolidated Variable Interest Entities

We have an unconsolidated investment in Viacom 18, a 50% owned joint venture in India with Network 18 Fincap Limited that qualifies as a VIE. Our aggregate investment carrying value in Viacom 18 was \$63 million and \$54 million as of March 31, 2014 and September 30, 2013, respectively.

Consolidated Variable Interest Entities

Our Consolidated Balance Sheets include amounts related to consolidated VIEs totaling \$75 million in assets and \$63 million in liabilities as of March 31, 2014, and \$77 million in assets and \$56 million in liabilities as of September 30, 2013. The consolidated VIEs' revenues, expenses and operating income were not significant for all periods presented.

Income Taxes

We recognized discrete tax benefits of \$20 million in the quarter and six months ended March 31, 2014, principally related to the recognition of capital loss carryforward benefits.

We recognized discrete tax benefits of \$12 million in the six months ended March 31, 2013, principally reflecting the release of tax reserves with respect to certain effectively settled tax positions.

NOTE 11. REPORTING SEGMENTS

The following tables set forth our financial performance by reporting segment. Our reporting segments have been determined in accordance with our internal management structure. We manage our operations through two reporting segments: (i) Media Networks and (ii) Filmed Entertainment. Typical intersegment transactions include the purchase of advertising by the Filmed Entertainment segment on Media Networks' properties and the purchase of Filmed Entertainment's feature films exhibition rights by Media Networks. The elimination of such intercompany transactions in the Consolidated Financial Statements is included within eliminations in the tables below.

Our measure of segment performance is adjusted operating income (loss). Adjusted operating income (loss) is defined as operating income (loss), before equity-based compensation and certain other items identified as affecting comparability, including restructuring and other charges, when applicable.

NOTE 12. RELATED PARTY TRANSACTIONS

National Amusements Inc. ("NAI"), directly and through a wholly-owned subsidiary, is the controlling stockholder of both Viacom and CBS Corporation ("CBS"). Sumner M. Redstone, the controlling shareholder, Chairman and Chief Executive Officer of NAI, serves as our Executive Chairman and Founder and as the Executive Chairman and Founder of CBS. Shari Redstone, who is Sumner Redstone's daughter, is the President and a director of NAI, and serves as non-executive Vice Chair of the Board of Directors of both Viacom and CBS. George Abrams, one of our directors, serves on the boards of both NAI and Viacom, and Frederic Salerno, another of our directors, serves on the boards of both Viacom and CBS. Philippe Dauman, our President and Chief Executive Officer, also serves on the boards of both NAI and Viacom. Transactions between Viacom and related parties are overseen by our Governance and Nominating Committee.

Viacom and NAI Related Party Transactions

NAI licenses films in the ordinary course of business for its motion picture theaters from all major studios, including Paramount. During the six months ended March 31, 2014 and 2013, Paramount earned revenues from NAI in connection with these licenses in the aggregate amounts of approximately \$5 million and \$8 million, respectively.

Viacom and CBS Corporation Related Party Transactions

In the ordinary course of business, we are involved in transactions with CBS and its various businesses that result in the recognition of revenues and expenses by us. Transactions with CBS are settled in cash.

Our Filmed Entertainment segment earns revenues and recognizes expenses associated with its distribution of certain television products into the home entertainment market on behalf of CBS. Pursuant to its agreement with CBS, Paramount distributes CBS's library of television and other content on DVD and Blu-ray disc on a worldwide basis. Under the terms of the agreement, Paramount is entitled to retain a fee based on a percentage of gross receipts and is generally responsible for all out-of-pocket costs, which are recoupable together with any advance amounts paid. Paramount made advance payments of \$75 million to CBS in the six months ended March 31, 2014. Paramount also earns revenues from CBS through leasing of studio space and licensing of certain film products.

Our Media Networks segment recognizes advertising revenues and purchases television programming from CBS. The cost of the programming purchases is initially recorded as acquired program rights inventory and amortized over the

estimated period that revenues will be generated.

Both of our segments recognize advertising expenses related to the placement of advertisements with CBS.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

Management's discussion and analysis of results of operations and financial condition is provided as a supplement to and should be read in conjunction with the unaudited consolidated financial statements and related notes to enhance the understanding of our results of operations, financial condition and cash flows. Additional context can also be found in our Form 10-K for the fiscal year ended September 30, 2013, as filed with the Securities and Exchange Commission ("SEC") on November 14, 2013 (the "2013 Form 10-K"). References in this document to "Viacom," "Company," "we," "us" and "our" mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise. Significant components of management's discussion and analysis of results of operations and financial condition include:

Overview. The overview section provides a summary of our business.

Results of Operations. The results of operations section provides an analysis of our results on a consolidated and reportable segment basis for the quarter and six months ended March 31, 2014, compared to the quarter and six months ended March 31, 2013. In addition, we provide a discussion of items that affect the comparability of our results of operations.

Liquidity and Capital Resources. The liquidity and capital resources section provides a discussion of our cash flows for the six months ended March 31, 2014, compared to the six months ended March 31, 2013, and of our outstanding debt, commitments and contingencies existing as of March 31, 2014.

OVERVIEW

Summary

We are a leading global entertainment content company that connects with audiences in over 160 countries and territories and creates compelling television programs, motion pictures, short-form video, apps, games, consumer products, social media and other entertainment content. With media networks reaching approximately 700 million households worldwide, Viacom's leading brands include MTV[®], VH1[®], CMT[®], Logo[®], BET[®], CENTRIC[®], Nickelodeon[®], Nick Jr.[®], TeenNick[®], Nicktoons[®], Nick at Nite[®], COMEDY CENTRAL[®], TV Land[®], SPIKE[®], Tr3s[®], Paramount Channel[™] and VIVA[™], among others. Paramount Pictures[®], America's oldest film studio, is a major global producer and distributor of filmed entertainment.

We operate through two reporting segments: Media Networks and Filmed Entertainment. Our measure of segment performance is adjusted operating income (loss). We define adjusted operating income (loss) for our segments as operating income (loss), before equity-based compensation and certain other items identified as affecting comparability, including restructuring and other charges, when applicable. Equity-based compensation is excluded from our segment measure of performance since it is set and approved by the Compensation Committee of Viacom's Board of Directors in consultation with corporate executive management, and is included as a component of consolidated adjusted operating income.

When applicable, we use consolidated adjusted operating income, adjusted net earnings from continuing operations attributable to Viacom and adjusted diluted earnings per share ("EPS") from continuing operations, among other measures, to evaluate our actual operating performance and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare our results with those of other companies and allow investors to review performance in the same way as our management. Since these are not measures of performance calculated in accordance with accounting principles generally accepted in the United States of America ("GAAP"), they should not be considered in isolation of, or as a substitute for, operating income, net earnings from continuing operations attributable to Viacom and diluted EPS as indicators of operating performance and they may not be comparable to similarly titled

measures employed by other companies. For a reconciliation of our adjusted measures and discussion of the items affecting comparability refer to the section entitled “Factors Affecting Comparability”.

Media Networks

Our Media Networks segment generates revenues in three categories: (i) the sale of advertising related to our content and marketing services, (ii) affiliate fees from multichannel television service providers, including cable television operators, direct-to-home satellite television operators and telecommunications operators, subscription and advertising supported video-on-

(continued)

demand services, and other distributors of our programming and program services, and (iii) ancillary revenues, which include consumer products licensing, brand licensing, home entertainment sales and licensing of our programming, television syndication and casual gaming.

Demand and pricing for our advertising depends on our ratings and overall market conditions. We also drive additional demand through integrated sales of digital advertising inventory and through our integrated marketing services, providing unique branded entertainment and custom sponsorship opportunities to our advertisers. Our advertising revenues may be affected by the strength of advertising markets and general economic conditions and may fluctuate depending on the success of our programming, as measured by viewership, at any given time. Audience measurement ratings may vary due to the timing of availability of new episodes of popular programming, success of our programming, performance of competing programs and other entertainment alternatives for viewers, as well as variations related to the methods used by third parties to measure ratings.

Advertising revenues are principally generated from the sale of advertising time comprised of multiple commercial units. Each advertising spot comprises a deliverable for accounting purposes. Consideration for these arrangements is allocated among the individual advertising spots based on relative fair value using Viacom-specific prices, and revenue is recognized when the advertisement is aired and the contracted audience rating is met.

Affiliate revenue arrangements with certain digital distributors include multiple programs made available for distribution on one or more dates for a fixed fee. Consideration for such arrangements is allocated among the programs based on relative fair value using management's best estimate considering viewing performance and other factors, and revenue is recognized upon initial availability of the respective programs.

Media Networks segment expenses consist of operating expenses, selling, general and administrative ("SG&A") expenses and depreciation and amortization. Operating expenses are comprised of costs related to original and acquired programming, including programming amortization, expenses associated with the distribution of home entertainment products and consumer products licensing, participation fees, integrated marketing expenses and other costs of sales. SG&A expenses consist primarily of employee compensation, marketing, research and professional service fees and facility and occupancy costs. Depreciation and amortization expenses reflect depreciation of fixed assets, including transponders financed under capital leases, and amortization of finite-lived intangible assets.

Filmed Entertainment

Our Filmed Entertainment segment generates revenues worldwide principally from: (i) the theatrical release and/or distribution of motion pictures, (ii) home entertainment, which includes sales of DVDs and Blu-ray discs relating to the motion pictures we release theatrically and direct-to-DVD, as well as content distributed on behalf of Viacom and third parties, (iii) licensing of film exhibition rights to television services, including video-on-demand, subscription video-on-demand, pay and basic cable television, broadcast television and syndicated television and (iv) ancillary revenues from licensing of film exhibition rights to digital platforms, providing production services to third parties, primarily at Paramount's studio lot, licensing of its brands for consumer products and theme parks, and distribution of content specifically developed for digital platforms and game distribution.

Filmed Entertainment segment expenses consist of operating expenses, SG&A expenses and depreciation and amortization. Operating expenses principally include the amortization of film costs of our released feature films (including participations and residuals), print and advertising expenses and other distribution costs. SG&A expenses include employee compensation, facility and occupancy costs, professional service fees and other overhead costs. Depreciation and amortization expense includes depreciation of fixed assets and amortization of finite-lived intangible assets.

See the section entitled "Factors Affecting Comparability" for a reconciliation of our adjusted measures to our reported results.

Revenues

Worldwide revenues increased \$39 million, or 1%, in the quarter ended March 31, 2014. The Media Networks revenues increase of \$142 million, which reflected higher affiliate fees and advertising revenues, was partially offset by a decline in Filmed Entertainment revenues of \$110 million, driven by lower home entertainment and theatrical revenues.

Worldwide revenues decreased \$78 million, or 1%, to \$6.371 billion in the six months ended March 31, 2014. A decline in Filmed Entertainment revenues of \$404 million, driven by lower theatrical and home entertainment revenues, was partially offset by an increase in Media Networks revenues of \$289 million, reflecting higher affiliate fees and advertising revenues.

Operating Income

Operating income increased \$25 million, or 3%, to \$872 million in the quarter. Media Networks adjusted operating income increased \$76 million, reflecting higher revenues partially offset by an increase in expenses. Filmed Entertainment adjusted operating income decreased \$54 million reflecting the number and mix of current year releases.

Operating income increased \$188 million, or 11%, to \$1.832 billion in the six months. Media Networks adjusted operating income increased \$160 million, driven by higher revenues, partially offset by an increase in expenses. Filmed Entertainment generated an adjusted operating loss of \$63 million in the six months, compared to \$74 million in the prior period. Corporate expenses decreased \$14 million, or 12%, in the six months, primarily driven by lower professional fees.

See the section entitled “Segment Results of Operations” for a more in-depth discussion of the revenues, expenses and adjusted operating income (loss) for each of the Media Networks and Filmed Entertainment segments.

Net Earnings from Continuing Operations Attributable to Viacom

Adjusted net earnings from continuing operations attributable to Viacom increased \$1 million to \$482 million in the quarter and \$87 million, or 9%, to \$1.029 billion in the six months, principally due to the increase in tax-effected operating income described above and a lower effective income tax rate, partially offset in both periods by an increase in interest expense driven by higher levels of debt outstanding.

Our effective income tax rate was 32.5% and 33.0% in the quarter and six months, respectively, compared to 34.5% in both the quarter and six months ended March 31, 2013, excluding the impact of discrete tax items. The decrease in the effective income tax rate is principally due to a change in the mix of domestic and international income.

Adjusted diluted EPS from continuing operations increased \$0.12 per diluted share to \$1.08 in the quarter due to fewer shares outstanding. Including the impact of discrete taxes in the current quarter, net earnings from continuing operations attributable to Viacom increased \$21 million, or 4%, and diluted EPS from continuing operations increased \$0.17. Adjusted diluted EPS

of Results of Operations and Financial Condition

from continuing operations increased \$0.42 per diluted share to \$2.29 in the six months, reflecting fewer shares outstanding and the increase in net earnings from continuing operations. Including the impact of discrete taxes, net earnings from continuing operations attributable to Viacom increased \$95 million, or 10%, and diluted EPS from continuing operations increased \$0.44 per diluted share.

Segment Results of Operations

Transactions between reportable segments are accounted for as third-party arrangements for the purposes of presenting segment results of operations. Typical intersegment transactions include the purchase of advertising by the Filmed Entertainment segment on Media Networks' properties and the purchase of Filmed Entertainment's feature films exhibition rights by Media Networks.

Revenues

Worldwide revenues decreased \$110 million, or 12%, to \$831 million, and \$404 million, or 21%, to \$1.512 billion in the quarter and six months ended March 31, 2014 driven by lower home entertainment and theatrical revenues.

Foreign exchange had a 2-percentage point unfavorable impact on international revenues in both the quarter and six months.

Theatrical

Worldwide theatrical revenues decreased \$47 million, or 17%, to \$229 million in the the quarter, principally driven by lower carryover revenues from prior period releases. Current quarter releases were Jack Ryan: Shadow Recruit, Noah and Paranormal Activity: The Marked Ones. Releases in the prior year were Hansel and Gretel: Witch Hunters and G.I. Joe: Retaliation. Domestic theatrical revenues increased 59% due to strong carryover revenues from The Wolf of Wall Street, while international theatrical revenues decreased 47% reflecting a difficult comparison against the strong international performance of Hansel and Gretel: Witch Hunters in the prior year and timing of international releases. Foreign exchange had a 4-percentage point unfavorable impact on international revenues.

Worldwide theatrical revenues decreased \$216 million, or 36%, to \$388 million in the six months. During the current year we released eight titles, including Anchorman 2: The Legend Continues, Jackass Presents: Bad Grandpa, The Wolf of Wall Street, Jack Ryan: Shadow Recruit, Noah and Paranormal Activity: The Marked Ones, compared to ten titles in the prior year. Carryover revenues from prior period releases were \$48 million lower. Domestic theatrical revenues increased 3% and international revenues decreased 60%. Foreign exchange had a 3-percentage point unfavorable impact on international revenues.

Home Entertainment

Worldwide home entertainment revenues decreased \$76 million, or 30%, to \$180 million in the quarter, primarily driven by a \$46 million decrease in revenues from current quarter releases and a \$30 million decrease in carryover revenues. Distribution and other costs, principally print and advertising expenses, were flat in the quarter and decreased \$242 million, or 26%, in the six months as a result of the number and mix of current year theatrical releases.

Selling, General and Administrative

SG&A expenses decreased \$6 million, or 6%, to \$100 million, and \$16 million, or 7%, to \$200 million in the quarter and six months, respectively, primarily driven by lower employee costs.

Factors Affecting Comparability

The Consolidated Financial Statements as of and for the quarters and six months ended March 31, 2014 and 2013 reflect our results of operations, financial position and cash flows reported in accordance with GAAP. Results for certain of the aforementioned periods, as discussed in the section entitled "Overview", have been affected by certain items identified as affecting comparability. Accordingly, when applicable, we use adjusted measures to evaluate our actual operating performance.

The following table reconciles our adjusted measures to our reported results for the quarter and six months ended March 31, 2014 and the six months ended March 31, 2013. There were no adjustments to our results for the quarter ended March 31, 2013.

These tax benefits principally reflected the release of tax reserves with respect to certain effectively settled tax positions.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Sources and Uses of Cash

Our primary source of liquidity is cash provided through the operations of our businesses. We have access to external financing sources such as our \$2.5 billion five-year revolving credit facility and the capital markets. Our principal uses of cash from operations include the creation of new programming and film content, acquisitions of third-party content, and interest and income tax payments. We also use cash for discretionary share repurchases under our stock repurchase program, as deemed appropriate, as well as quarterly cash dividends, capital expenditures and acquisitions of businesses.

We believe that our cash flows from operating activities together with our credit facility provide us with adequate resources to fund our anticipated ongoing cash requirements. We anticipate that future debt maturities will be funded with cash and cash equivalents, cash flows from operating activities and future access to capital markets, including our credit facility.

We may continue to access external financing from time to time depending on our cash requirements, assessments of current and anticipated market conditions and after-tax cost of capital. Our access to capital markets can be impacted by factors outside our control, including economic conditions; however, we believe that our strong cash flows and balance sheet, our credit facility and our credit rating will provide us with adequate access to funding given our expected cash needs. Any new borrowing cost would be affected by market conditions and short and long-term debt ratings assigned by independent rating agencies, and there can be no assurance that we will be able to access capital markets on terms and conditions that will be favorable to us.

Cash Flows

Cash and cash equivalents as of March 31, 2014 increased \$177 million compared to September 30, 2013.

Operating Activities

Cash provided by operations was \$813 million for the six months ended March 31, 2014, a decrease of \$480 million compared with the six months ended March 31, 2013. The decrease is primarily driven by working capital requirements primarily reflecting higher income taxes paid.

Investing Activities

Cash used in investing activities was \$36 million and \$55 million for the six months ended March 31, 2014 and 2013, respectively, reflecting lower capital expenditures in the current year.

Financing Activities

Cash used in financing activities was \$606 million for the six months ended March 31, 2014, primarily driven by the settlement of share repurchases of \$1.830 billion and dividend payments totaling \$271 million, partially offset by net proceeds of \$1.485 billion from the issuance of senior notes and debentures with an aggregate face value of \$1.5 billion.

Cash used in financing activities was \$794 million in the six months ended March 31, 2013, primarily driven by the settlement of share repurchases of \$1.398 billion and dividend payments totaling \$277 million, partially offset by net proceeds of \$784 million from the issuance of senior notes and debentures with an aggregate face value of \$800 million.

Capital Resources

Capital Structure and Debt

Total debt was \$13.379 billion as of March 31, 2014, an increase of \$1.494 billion from \$11.885 billion at September 30, 2013.

We issued a total of \$1.5 billion of senior notes and debentures in March 2014 as follows:

• 2.200% Senior Notes due April 2019 with an aggregate principal amount of \$400 million at a price equal to 99.947% of the principal amount.

3.875% Senior Notes due April 2024 with an aggregate principal amount of \$550 million at a price equal to 99.192% of the principal amount.

5.250% Senior Debentures due April 2044 with an aggregate principal amount of \$550 million at a price equal to 99.831% of the principal amount.

The proceeds, net of the discount and other issuance fees and expenses, from the issuance of the senior notes and debentures were \$1.485 billion. We utilized a portion of the proceeds to redeem our Senior Notes due September 2014 (the "2014 Notes")

as detailed below. We intend to use the remaining proceeds for general corporate purposes, including the repurchase of shares under our stock repurchase program.

On April 3, 2014, we redeemed all \$600 million of our outstanding 2014 Notes at a redemption price equal to the sum of the principal amount and a make-whole amount, together totaling \$611 million, and accrued and unpaid interest of \$1 million. As a result of the redemption, we will recognize a pre-tax extinguishment loss of \$11 million in the third quarter.

Credit Facility

At March 31, 2014, there were no amounts outstanding under our credit facility.

Stock Repurchase Program

During the six months ended March 31, 2014, we repurchased 20.3 million shares of Class B common stock for an aggregate purchase price of \$1.7 billion. From April 1, 2014 through April 30, 2014, we repurchased an additional 2.3 million shares for an aggregate purchase price of \$192 million, leaving \$8.008 billion of remaining capacity under our program. Share repurchases under the program are expected to be funded through a combination of debt and cash generated by operations, as deemed appropriate.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q, including "Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition," contains both historical and forward-looking statements. All statements that are not statements of historical fact are, or may be deemed to be, forward-looking statements. Forward-looking statements reflect our current expectations concerning future results, objectives, plans and goals, and involve known and unknown risks, uncertainties and other factors that are difficult to predict and which may cause future results, performance or achievements to differ. These risks, uncertainties and other factors include, among others: the public acceptance of our programs, motion pictures and other entertainment content on the various platforms on which they are distributed; technological developments and their effect in our markets and on consumer behavior; competition for audiences and distribution; the impact of piracy; economic conditions generally, and in advertising and retail markets in particular; fluctuations in our results due to the timing, mix and availability of our motion pictures and other programming; changes in the Federal communications laws and regulations; other domestic and global economic, business, competitive and/or regulatory factors affecting our businesses generally; and other factors described in our news releases and filings with the Securities and Exchange Commission, including but not limited to our 2013 Form 10-K and reports on Form 10-Q and Form 8-K. The forward-looking statements included in this document are made only as of the date of this document, and we do not have any obligation to publicly update any forward-looking statements to reflect subsequent events or circumstances.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are exposed to the impact of interest rate changes, foreign currency fluctuations and changes in the market value of investments. In the ordinary course of business, we may employ established and prudent policies and procedures to manage our exposure principally to changes in interest rates and foreign exchange risks. The objective of such policies and procedures is to

manage exposure to market risks in order to minimize the impact on earnings and cash flows. We do not hold or enter into financial instruments for speculative trading purposes.

Item 4. Controls and Procedures.

Our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended (“Exchange Act”)) were effective, based on the evaluation of these controls and procedures required by Rule 13a-15(b) or 15d-15(b) of the Exchange Act.

We began to migrate certain financial processing systems to an enterprise-wide general ledger system in the fourth quarter of our 2012 fiscal year. The new system is a material component of our internal control over financial reporting and is being rolled out on a regional basis across our business segments based on a schedule that currently provides for substantial completion of the implementation by September 30, 2014. In connection with this implementation we are updating our internal controls over financial reporting, as necessary, through further automation and standardization of our financial transaction processes and procedures, and we continue to evaluate and monitor such changes. Except for the new system implementation noted above, there has been no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.
