START NON-MANAGEMENT PROXY SOLICITATION

John Lauve declares a NON-management proxy solicitation has begun on 27 April 2006.

The purpose is to elect alternate Directors that have been nominated according to the GM by-laws. This Renaissance Slate Directors will implement our Return to Greatness plan.

The clear record of the current Titanic Directors has been market rejection, junk credit rating, & financial loss including dividends. (See GM Annual Report).

GM must be a gas mileage, value leader, yet they refuse to install a gas gage that shows the tank capacity in gallons & when 1 gallon remains.

John Lauve will comply with SEC rules to include an approval by the SEC of our proxy statement for the June 6, 2006 Annual Meeting. Also note, www.GeneralWatch.com
