**Item 7.01. Regulation FD Disclosure**

On November 27, 2007, we posted on our website a presentation of our strategy and financial guidance for the upcoming fiscal years, including the timing of our proposed name change of the Company to Pervasip Corp., which was approved at our last shareholders meeting. The presentation is available on our website, [www.pervasip.com](http://www.pervasip.com).

The information contained herein and in the accompanying exhibit is being furnished pursuant to "Item 7.01 Regulation FD." The information contained herein and in the accompanying exhibit shall not be incorporated by reference into any of our filings with the Securities and Exchange Commission ( SEC ), whether made before or after the date hereof, regardless of any general incorporation language in such filing, unless expressly incorporated by specific reference to such filing. The information in this report, including the exhibit hereto, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section or Sections 11 and 12(a)(2) of the Securities Act of 1933, as amended.

**SAFE HARBOR STATEMENT**

The information contained in this Current Report on Form 8-K (including the exhibit hereto) should be read in conjunction with our filings made with the Securities and Exchange Commission. This Current Report on Form 8-K (including the exhibit hereto) contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those that do not relate solely to historical fact. They include, but are not limited to, any statement that may predict, forecast, indicate or imply future results, performance, achievements or events. Words such as, but not limited to, believe, expect, anticipate, estimate, intend, plan, targets, projects, likely, will, would, could and similar expressions or phrases identify forward-looking statements.

All forward-looking statements involve risk and uncertainties. The occurrence of the events described, and the achievement of the expected results, depend on many events, some or all of which are not predictable or within our control. Actual results may differ materially from expected results.

In light of these risks and uncertainties, expected results or other anticipated events or circumstances discussed in this Current Report on Form 8-K might not occur. We undertake no obligation, and specifically decline any obligation, to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. See the section entitled Risk Factors in our Annual Report on Form 10-K for the fiscal year ended November 30, 2006 as filed with the SEC for a more complete discussion of these risks and uncertainties and for other risks and uncertainties. Those factors and the other risk factors described therein are not necessarily all of the important factors that could cause actual results or developments to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors also could harm our results. Consequently,

there can be no assurance that actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, us. Given these uncertainties, prospective investors are cautioned not to place undue reliance on such forward-looking statements.

#### NON-GAAP FINANCIAL MEASURES

Item 7.01 of this Current Report on Form 8-K includes the financial measure operating cash flow, which is a non-GAAP financial measure. Operating cash flow, as it is used in this document, is meant to be net income plus net interest expense, income taxes, depreciation and amortization. Operating cash flow is not a recognized term under GAAP and does not purport to be an alternative to operating income as a measure of operating performance as it does not consider certain cash requirements, such as dividend payments and debt service requirements. Because all companies do not use identical calculations, the presentation of operating cash flow may not be comparable to other similarly titled measures of other companies.
