EXPLANATORY NOTE

Blackhawk Network Holdings, Inc. (the “Company”) is filing this Amendment No. 1 on Form 10-K/A to amend its Annual Report on Form 10-K for the fiscal year ended December 30, 2017 (“Amendment No. 1”), as filed with the Securities and Exchange Commission (“SEC”) on February 28, 2018 (the “Original Filing”), to include the information required by Items 10 through 14 of Part III of Form 10-K. This information was previously omitted from the Original Filing in reliance on General Instruction G(3) to Form 10-K, which permits the above-referenced items to be incorporated in the Form 10-K by reference from the Company’s definitive proxy statement if such statement involves the election of directors and is filed no later than 120 days after the Company’s fiscal year ended December 30, 2017. Given the expected mid-2018 timing for the completion of the merger pursuant to which BHN Merger Sub, Inc. will be merged with and into the Company, announced on January 16, 2018, the Company is filing this Amendment No. 1 to include Part III information in its Form 10-K because it does not intend to file a definitive proxy statement which involves the election of directors within 120 days of its fiscal year ended December 30, 2017.

As required by Rule 12b-15 under Securities Exchange Act of 1934, as amended, Items 10 through 14 of Part III of the Original Filing are hereby amended and restated in their entirety. In addition, Item 15 of Part IV of the Original Filing has also been amended to contain currently dated certifications from the Company’s principal executive officer and principal financial officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002. The certifications of the Company’s principal executive officer and principal financial officer are attached to this Amendment No. 1 as Exhibits 31.3 and 31.4. Because no financial statements have been included in this Amendment No. 1 and this Amendment No. 1 does not contain or amend any disclosure with respect to Items 307 and 308 of Regulation S-K, paragraphs 3, 4 and 5 of the certifications have been omitted. Further, because no financial statements have been included in this Amendment No. 1, the Company is not including certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. Item 15 has also been amended to include certain exhibits required to be filed as part of this Amendment No. 1. Except as described above, no other changes have been made to the Original Filing. The Original Filing continues to speak as of the date of the Original Filing, and the Company has not updated the disclosures contained therein to reflect any events which occurred at a date subsequent to the filing of the Original Filing. Accordingly, this Amendment No. 1 should be read in conjunction with the Company’s filings with the SEC subsequent to the date of the Original Filing.

The following discussion and analysis of compensation arrangements of our NEOs should be read together with the compensation tables and related disclosures set forth below.

Executive Summary

Business Highlights

We are a leading prepaid payment network utilizing proprietary technology to offer to consumers and businesses a broad range of prepaid cards in physical and electronic forms, as well as related prepaid products, payment services and incentives solutions. We currently offer our products and/or solutions directly or through commercial relationships in the United States and 25 other countries and can deliver solutions in over 100 countries.

We believe our extensive network provides significant benefits to our key constituents: consumers who purchase, receive or use the products and services we offer; content providers who offer branded gift cards and other prepaid products that are redeemable for goods and services; distribution partners who sell those products; and business clients that distribute our products as customer incentives or rewards, or offer one or more of our incentive platforms to their employees or sales forces.

We are one of the largest third-party distributors of gift cards in the world based on the value of funds loaded on the cards we distribute. We have also established a leading position in the incentives and rewards marketplace. We provide a broad variety of customized employee, consumer and sales channel incentives, loyalty and engagement solutions to over 20,000 business clients worldwide.

Highlights of our fiscal 2017 financial performance include:

Adjusted operating revenues totaled \$1,079.7 million, a 21% increase from \$889.3 million for the fiscal year ended December 31, 2016. This increase was due to an 84% increase in adjusted operating revenues from the international segment which includes the acquisition of Grass Roots in late 2016; a 17% increase in adjusted operating revenues from the incentives and rewards segment primarily due to growth in loyalty and the Achievers businesses; and a 5% increase in adjusted operating revenues from the U.S. Retail segment driven by the addition of Target as a distribution partner and the acquisition of CashStar, partially offset by a decline at Cardpool.

Adjusted EBITDA totaled \$224.9 million, an increase of 19% from \$189.2 million for the fiscal year ended December 31, 2016. Growth in adjusted EBITDA was driven by growth in each of the three operating segments as described above, partially offset by a loss at Cardpool.

Adjusted net income totaled \$94.9 million, an increase of 16% from \$82.0 million for the fiscal year ended December 31, 2016.

Adjusted diluted EPS was \$1.64, an increase of 15% from \$1.43 for the fiscal year ended December 31, 2016.

For a reconciliation of adjusted operating revenues, adjusted EBITDA, adjusted net income and adjusted diluted earnings per share to GAAP, please refer to Annex A to this report.

Non-GAAP Results	FY'17	FY'16
\$ in millions except per share amounts		
Adjusted Operating Revenues	\$ 1,079.7	\$ 889.3

Adjusted Diluted Earnings per Share	1.64	1.43

On January 16, 2018, we announced that we had entered into an agreement and plan of merger (the “Merger Agreement”), dated as of January 15, 2018, with BHN Holdings, Inc., a Delaware corporation (“Parent”), and BHN Merger Sub, Inc., a Delaware corporation and a wholly owned subsidiary of Parent (“Merger Sub”). The Merger Agreement provides, among other things and subject to the terms and conditions set forth therein, that Merger Sub will merge with and into the Company (the “Merger”), with the Company continuing as the surviving corporation and as a wholly owned subsidiary of Parent. We currently expect the Merger, which is subject to regulatory approvals, and other customary closing conditions, to close mid-2018. Upon the closing of the Merger, we will become a privately-held company. The equity awards previously granted to our NEOs and outstanding as of the effective time of the Merger (other than restricted stock units (“RSUs”) granted in 2018) will be paid out in cash pursuant to the Merger Agreement, in accordance with the terms summarized below. RSUs granted in 2018 to our NEOs will be exchanged for RSUs for shares of Parent after the acquisition (and remain subject to the same vesting schedule applicable immediately before the effective time of the Merger) pursuant to the Merger Agreement. Cash payments in respect of stock options (“Options”), stock appreciation rights, RSUs granted prior to June 1, 2016 and performance share awards (“PSAs”) will be fully vested at the effective time of the Merger and will be paid as soon as reasonably practicable thereafter (or at such later time as is required by applicable law). The cash amount payable in respect of PSAs will be determined based on actual performance for completed performance periods and target performance for incomplete performance periods. Cash payments in respect of RSUs granted on or after June 1, 2016 and before January 1, 2018 will remain subject to the original vesting schedule.

Fiscal 2017 Executive Compensation Highlights

We operate in a highly competitive talent market in which executives must have expertise across both the retail/consumer products and financial services sectors, as well as advanced knowledge of the technologies that enable an efficient and effective platform for the business. It is therefore important that we provide competitive rewards programs that allow management to share in the value created for stockholders, while also holding them accountable for financial and stockholder value results. The key revenue and profitability metrics shown in the graphs above are also the metrics which our NEOs are measured against and which align pay outcomes with performance achieved. Based on our overall operating environment and the foregoing results, the following key compensation actions were taken with respect to the NEOs for fiscal 2017:

Base Salary Changes: the Compensation Committee approved annual salary increases between 0 and 6.67% for each of the NEOs, except for Mr. Tauscher, whose annual salary was decreased by 21.2% in recognition of his transition out of the Chief Executive Officer role and his reduced level of responsibilities and Mr. Brown, whose annual salary was increased by 32% in connection with his promotion to the role of Senior Vice President of International and his increased level of responsibilities.

Short-Term Cash Bonuses: cash bonuses earned for 2017 ranged from 71.25% to 96.1% of the NEOs' target cash bonus opportunities. Our CEO earned a cash bonus of \$564,520, equal to 71.25% of her target award.

Long-Term Incentive Compensation: the Compensation Committee increased the weighting of PSAs to 50% of the total long-term incentive compensation opportunities for the eligible NEOs and discontinued the granting of Options. The remaining 50% of the NEOs' long-term incentive compensation opportunities are in the form of time-based RSU awards that may be settled for shares of Common Stock. PSA awards that also may be settled for shares of Common Stock are subject to achievement of pre-established performance objectives over a 3-year time horizon.

Fiscal 2018 Executive Compensation Considerations

During 2017, we committed to introduce a direct measure of total shareholder returns in our PSA plan design. The Compensation Committee and management developed a proposed approach for these performance awards that would provide for them to be earned based on our total shareholder return relative to a benchmark of companies over a multi-year time horizon. In light of the pending Merger, as described above, the Compensation Committee determined that a performance award with a multi-year performance period would not be an effective long-term incentive compensation approach in 2018. With this in mind, the equity awards granted to our NEOs in early 2018 were granted in the form of time-based RSUs. The vesting of these awards will not accelerate upon the close of the Merger and will continue to vest over time, supporting retention of key executives who will be critical to our post-closing business strategy as well as our ongoing success.

Leadership Transition Highlights

On March 16, 2017, Jerry Ulrich, our Chief Financial Officer, notified us of his intention to retire by the end of 2017. On October 23, 2017, Charles O. Garner was appointed as our Chief Financial Officer, reporting to our CEO. In June 2017, Gregory Brown was promoted to the position of Senior Vice President of International and became an executive officer in August 2017. This change was part of our succession planning for Mr. Tauscher's responsibilities as head of international.

Say on Pay Vote

At our 2017 Annual Meeting of Stockholders, we conducted a non-binding stockholder advisory vote on the compensation of our named executive officers (commonly known as a "Say-on-Pay" vote). Our stockholders approved the Say-on-Pay proposal with approximately 96% of the votes cast in favor of the proposal. We believe that this result demonstrates that our stockholders are generally supportive of our executive compensation program.

As the Compensation Committee has reviewed our executive compensation policies and practices since the 2017 Say-on-Pay vote, it has been mindful of the level of support our stockholders have expressed for our approach to executive compensation. As a result, following our annual review of our executive compensation program, the Compensation Committee decided to retain our general approach to executive compensation.

At our 2017 Annual Meeting of Stockholders, we also conducted a non-binding stockholder advisory vote on the frequency of future Say-on-Pay votes. Our stockholders expressed a preference for holding future Say-on-Pay votes on an annual, rather than a biennial or triennial, basis. In recognition of this preference and other factors considered, the Board determined that we should continue to hold annual Say-on-Pay votes.

As noted above, we have agreed to be acquired in a transaction expected to close by mid-2018. As a result of this transaction, assuming that we de-register under the federal securities laws we do not anticipate that we will be required to conduct a Say-on-Pay vote during 2018.

Compensation Objectives and Philosophy

As noted above, the nature of our business requires executive talent that can be highly effective in the unique cross-over space of retail/consumer products and financial services and has expertise in the technologies that enable our business platform. Our compensation programs for our executive officers are designed to attract and retain excellent managers and to motivate these managers to increase the market value of Common Stock over the long term. In support of these principal objectives, our compensation programs are designed to:

- provide our executives with rewards programs that are competitive with those provided by other companies with whom we compete for executive talent, in order to attract, motivate and retain high performance individuals;
- link a significant portion of compensation including annual cash-based bonuses to performance-based metrics that reward our executives for the attainment of our financial, operational and strategic goals; and
- motivate our executives to improve our long-term performance and align them with stockholders by making equity-based compensation a significant portion of their target total direct compensation opportunity.

We believe our compensation programs place emphasis on the achievement of Company-wide financial results together with the financial results of business units and strategic objectives for which the executives and managers are directly responsible. These programs also focus our executives on their directly controllable business results if they are not fully responsible for Company-wide performance. We believe these features help align the interests of our executive officers with those of our long-term stockholders, promote the objective of compensating our executives for directly controllable and Company-wide performance and advance our objective of increasing stockholder returns.

Key Policies and Practices

We have implemented a number of policies and practices to drive performance, mitigate excessive risk taking and promote alignment of executive and stockholder interests. A summary of these policies and practices is below.

What We Do	What We Don't Do
ü Place a significant percentage of compensation at risk to align pay and performance	No historical repricing of underwater Options and no repricing allowed without stockholder approval
ü Regularly review share utilization to ensure reasonable dilution levels	No dividend or dividend equivalents paid on unearned performance awards
ü Grant a portion of long-term equity incentives as performance-based awards	No tax gross-ups (except in connection with certain reimbursements of business travel expenses for our current CFO)
ü Provide reasonable post-employment/change in control provisions	No perquisites or supplementary retirement benefits (except frozen benefits with Safeway)
ü Utilize an independent compensation consulting firm	
ü Annually review our compensation programs to evaluate incentives for risk that may have an adverse impact on our business	
ü Maintain Clawback, Anti-Hedging and Stock Ownership Policies for executives	

Elements of Compensation

The Compensation Committee uses four core compensation and benefits elements to provide a competitive overall rewards package to our executive officers. We believe each of these elements forms an integral part of the overall compensation program, and, taken collectively, these elements serve to achieve our compensation objectives. Outlined below is a summary of our program.

Compensation Element	Objective	Design Overview
Base Salary	<ul style="list-style-type: none"> — Provide a stable part of the compensation package; recognize ongoing performance of job responsibilities and provide a degree of financial certainty 	<ul style="list-style-type: none"> — Fixed compensation that is generally aligned with market median for comparable roles
Annual Performance-Based Cash Compensation (Bonuses)	<ul style="list-style-type: none"> — Emphasize corporate and individual objectives and provide reward opportunities for our NEOs when key business objectives are met 	<ul style="list-style-type: none"> — Payouts based on our Adjusted Pre-Tax Income achievement relative to pre-established targets, other than Mr. Brown, whose payout is based on both the level of our Adjusted Pre-Tax Income achievement relative to pre-established targets and the level of our Adjusted International EBITDA relative to pre-established targets — Maximum payout opportunities, as a percentage of base salary, were generally maintained at the same levels as in the prior year and required a challenging 120% of target achievement to pay out at the maximum level
Long-term Equity Incentive Compensation	<ul style="list-style-type: none"> — Incentivize and reward increases in stockholder value — Link pay to business performance and align the management team with stockholder results 	<ul style="list-style-type: none"> — NEOs other than Messrs. Brown and Garner were granted 50% of target LTI value in the form of time-vesting RSUs and 50% in the form of PSAs that will be earned based on multi-year financial performance. Messrs. Brown and Garner were granted 100% of target LTI value in the form of time-vesting RSUs. — 2017 PSAs have three 1-year performance periods with a three-year cliff vesting requirement. For each performance period, the performance metrics are Adjusted Operating Revenue, Further Adjusted and Adjusted EPS (1) — RSUs vest in equal annual installments over a four-year time horizon

How Compensation is Determined

Engagement of Compensation Consultants

Prior to November 2017, the Compensation Committee worked with Mercer as its external compensation consultant. The executive compensation services provided by Mercer to the Compensation Committee during 2017 consisted of:

- Reviewed and updated the peer group of comparable public companies for purposes of determining executive compensation levels;
- Reviewed and provided input on the design of the annual and long-term incentive compensation programs offered to our NEOs and other executives;
- Attended meetings of the Compensation Committee;
- Provided advice on governance best practices and market trends; and
- Advised on other ad hoc matters related to rewarding top executive talent.

In November 2017, the Compensation Committee engaged Compensia, a national compensation consulting firm, as its compensation consultant and terminated its relationship with Mercer. Following its engagement, a representative of Compensia attended Compensation Committee meetings and provided the following assistance to the Compensation Committee:

- Analyzed the compensation levels and practices of the companies in our compensation peer group;
- Reviewed the competitiveness of compensation paid to our NEOs including base salary, annual cash incentive awards and long-term incentive awards;
- Reviewed and provided input on the design of the annual and long-term incentive compensation programs offered to our NEOs and other executives; and
- Provided ad hoc advice and support.

Both Mercer and Compensia reported directly to the Compensation Committee and provided no services to us other than the consulting services to the Compensation Committee. Prior to retaining both Mercer and Compensia in 2017, the Committee considered the specific independence factors adopted by the SEC and the Nasdaq Global Select Market and determined that both Mercer and Compensia are independent and that their work did not raise any conflicts of interest.

Evaluation of Market Competitiveness

The Compensation Committee considers multiple data sources in making decisions about executive compensation. In general, the Compensation Committee aims to position target total direct compensation within a reasonable range of the market 50th percentile. However, market data is not applied in a formulaic manner and other factors may have an equal or greater impact on compensation decisions.

For example, the positioning of an executive officer's individual pay may be above or below the market median based on factors such as experience and proficiency as well as attraction, retention and succession planning requirements. Compensation history, as well as prior and expected performance and related reward payouts are also considered in establishing new pay levels. In addition, the positioning of each element of compensation may vary based on broader considerations, such as the desired pay mix for certain roles, the impact of compensation decisions on accounting expense or stockholder dilution, or the need to tailor the compensation package to compete with a broader set of competitors for talent.

Peer Group Comparison

The Compensation Committee uses a group of peer companies to understand the competitive market for executive talent and to evaluate the effectiveness of our executive compensation programs. The Compensation Committee selects peer companies primarily based on industry similarity and company size, which is measured by revenue. To attract, retain and engage high performing leaders, we believe that our compensation peer group needs to be aligned with our strategic vision and include companies that:

represent an appropriate range from a size and scope perspective;
 operate in Data Processing & Outsourced Services, Application Software or Consumer Finance industries; and
 are talent competitors.

The compensation peer group used for making 2017 compensation decisions was selected during 2016 and included the following 15 companies that were selected based on the criteria outlined above:

Company	Revenue (1)(2)
TOTAL SYSTEM SERVICES INC	\$3,755
VANTIV INC	\$3,476
SABRE CORP	\$3,302
GLOBAL PAYMENTS INC	\$3,089

(1) Data presented in the table above are for the four most recently disclosed four quarters as of December 31, 2017, as reported by Standard and Poor's Research Insight.

(2) All dollar amounts are reported in USD millions.

The Compensation Committee evaluates the composition of the compensation peer group annually for factors such as recent acquisitions completed by our peer companies, new markets that we have entered and changes in our market landscape. In addition, data from Radford's publicly-available Global Technology Survey was also considered by the Compensation Committee as a secondary market reference point. The survey data is scoped based on revenue to reflect similarly sized companies and represents a broader set of technology companies than the compensation peer group. Neither the peer group nor survey data is applied formulaically in making compensation decisions.

Elements of Compensation

Base Salaries

We provide our executive officers, including our NEOs, with a base salary to compensate them for services rendered to us during the fiscal year. Base salary amounts are established based on a number of factors, including the scope of the NEO's responsibilities, years of service and the Board's or the Compensation Committee's general knowledge of the competitive market based on, among other things, experience with other companies and our industry. Base salaries are evaluated annually for all executive officers. In addition to the factors above, individual factors are also considered, in a subjective manner, in setting base salaries, including the executive officer's

experience, achievements, leadership, teamwork and value to us. Consideration of these individual factors encourages our executive officers to improve their individual performances.

The base salary of our CEO is determined annually by the Compensation Committee. At the end of each fiscal year, the Compensation Committee collects information regarding the CEO's performance and discusses relevant issues and matters with the CEO. The Compensation Committee subsequently meets, without the CEO present, and conducts a formal performance review of our CEO and sets an appropriate base salary level for the next fiscal year.

Our CEO assesses the individual performance of each of our other executive officers, including each of our other NEOs, and proposes to the Compensation Committee their base salary. The Compensation Committee relies on the experience of its members and our CEO's assessment to determine the annual base salaries for these executive officers. In 2017, the Compensation Committee determined to increase the annual base salaries of our NEOs as set forth in the following table. These 2017 increases also took into consideration general industry base pay increase trends for executives as reported by Mercer as well as individual competitiveness against competitive market data. The Compensation Committee believes these increases in base salary were appropriate based on our long-term performance and each executive officer's strong individual contributions. Mr. Tauscher's base salary was decreased from 2016 to 2017 in recognition of his transition out of the Chief Executive Officer role and his reduced level of responsibilities.

Executive Officer	2016 Base Salary (\$)	2017 Base Salary (\$)	2017 Change in Salary (%)	
Talbott Roche	\$750,000	\$800,000	+6.7	%
Charles O. Garner (1)	N/A	535,000	N/A	%
Jerry Ulrich	461,250	461,250(3)	0.0	%
William Tauscher	825,000	650,000	-21.2	%
David C. Tate	400,000	425,000	+6.3	%
Gregory Brown (2)	N/A	375,000	N/A	%

(1) Mr. Garner joined the Company in October 2017.

(2) Mr. Brown was not a named executive officer in 2016.

(3) Mr. Ulrich retired in November 2017.

2017 Annual Bonuses

The primary purpose of our annual bonus program is to motivate our executive officers to meet or exceed our short-term Company-wide and business-specific performance goals. We believe that providing annual bonus opportunities at certain levels are necessary for competitive purposes to attract and retain highly qualified executives and serve the purpose of focusing attention on our key strategic and financial goals. The fact that our executive officers must be employed with us on the payment date as a condition of bonus eligibility also assists in retention. For 2017, the Compensation Committee approved the 2017 Bonus Plan, pursuant to which each executive officer, including each NEO, was eligible to receive an annual bonus based on the achievement of specified Company performance objectives. For our NEOs, their 2017 bonus targets were set and achievements were determined in accordance with the rules for performance-based compensation set forth in the Company's 2013 Equity Incentive Award Plan, as amended (the "2013 Plan").

The level of our Adjusted Pre-Tax Income achievement relative to pre-established targets was the sole performance measure for the target bonuses for our NEOs, other than Mr. Brown. This metric was selected as it provides strong line of sight to both growth and expense management, which are key drivers of stockholder value for our business. Mr. Brown's bonus opportunity was determined based on the level of our Adjusted Pre-Tax Income achievement relative to pre-established targets and the level of our Adjusted International EBITDA relative

to pre-established targets. The Compensation Committee selected these metrics because they are critical measures of our business success.

“Adjusted Pre-Tax Income” means pre-tax income, excluding any credit or expense taken for distribution partner mark-to-market expense, stock-based compensation expense, warrant amortization, interest income and expense, (1) change in fair value of contingent consideration, amortization of intangible assets, corporate acquisitions (unless an acquisition was specifically included in the annual operating plan target) and certain other non-cash and cash expenses that we believe are not indicative of our core operating performance.

“Adjusted International EBITDA” means International EBITDA per the general ledger with the following (2) “adjustments or add-backs”: Stock compensation expense, Warrant amortization, Mark-to-market, Contingent consideration, and Acquisitions.

(3) Mr. Ulrich retired in November 2017 and did not receive a bonus for his services in 2017.

The data in this row reflects Mr. Brown’s performance metrics, bonus as percentage of his salary and bonus as (4) percentage of the target after he was promoted to Senior Vice President, International. In connection with his promotion, the performance metrics became Adjusted Pre-Tax Income, weighted 50%, and Adjusted International EBITDA, weighted 50%.

In addition, the Compensation Committee approved threshold, target and maximum bonuses for each executive as a percentage of salary, as set forth below.

Named Executive Officer	Threshold (80% of Target Performance) Bonus (% of Salary)	Target (100% of Target Performance) Bonus (% of Salary)	Maximum (120% of Target Performance) Bonus (% of Salary)
Talbott Roche	50%	100%	150%

David C. Tate	50%	80%	120%
Gregory Brown	50%	80%	120%

The actual annual cash bonuses payable under the 2017 Bonus Plan were based on achievement of results for each metric, as detailed in the table below. These goals were established based on our annual operating plan and took into account our aggressive growth expectations.

Performance Attainment by Metrics

	Adjusted Pre-Tax Income (\$M)	Adjusted International EBITDA (\$M)
Threshold Goal	\$143.2	\$50.9
Target Goal	\$179.1	\$63.6
Maximum Goal	\$214.9	\$76.3
Actual Results	\$158.6	\$67.1
Attainment	88.5%	105.5%

The bonuses earned by each NEO are set forth in the “2017 Summary Compensation Table” below in the column titled “Non-Equity Incentive Plan Compensation.”

For 2018, the Compensation Committee approved a similar corporate performance bonus program under the cash-performance award provisions of the 2013 Plan. The Company’s NEOs are eligible to earn, vest in, and receive cash bonuses based on the attainment of Adjusted Pre-Tax Income and/or Adjusted International EBITDA performance objectives during the Company’s 2018 fiscal year running from December 30, 2017 through December 29, 2018. The Compensation Committee approved threshold, target and maximum bonuses for each executive based on each executive’s annual base salary, the details of which are disclosed in our current report on Form 8-K filed with the SEC on February 21, 2018, which is incorporated herein by reference.

Long-Term Incentive Compensation

The goals of our long-term incentive compensation opportunities in the form of equity awards are to reward and encourage long-term corporate performance based on the value of Common Stock and, thereby, to align the interests of our executive officers, including our NEOs, with those of our stockholders.

Generally, the Compensation Committee grants annual equity awards at its first quarterly meeting of the year, unless otherwise specified by the Board or the Compensation Committee. We believe that our use of equity awards also encourages the retention of our NEOs because the vesting of their awards requires continued employment (except in the case of disabled or retirement-eligible employees or following a change in control of the Company).

In 2017, we granted a mix of RSUs and PSAs to our NEOs. RSUs vest in equal annual installments over a four-year time horizon, subject to continued service. PSAs are eligible to be earned over three successive one-year performance periods, with any earned shares vesting in full after three years, subject to continued service, thus promoting retention by delaying full payout until after the final performance period is completed. The multi-year performance/vesting requirement promotes a long-term performance focus, while balancing the ability to set long-term performance goals in a highly dynamic business environment.

The Compensation Committee does not grant equity awards in anticipation of the release of material nonpublic information, nor do we time the release of material nonpublic information based on equity award grant dates.

2017 Equity Awards

In 2017, the Compensation Committee granted an equal value mix of RSUs and PSAs to our NEOs, except with respect to Messrs. Brown and Garner, who were granted only RSUs. The following table sets forth the RSUs and PSAs granted to our NEOs in 2017.

Named Executive Officer	2017	
	Restricted Stock Unit Grants	2017 Performance Share Award Grants (Target)
Talbott Roche	48,700	48,700
Charles O. Garner	100,000	—
Jerry Ulrich	13,550 (1)	13,550 (1)
William Y. Tauscher	23,700	23,700
David C. Tate	14,400	14,400
Gregory Brown	40,350	—

(1) With respect to the RSU grant of 13,550 shares and the PSA grant of 13,550 shares, 3,388 shares of each grant were subsequently canceled upon Mr. Ulrich's separation from service from the Company in November 2017.

The RSUs set forth in the above table vest in 25% annual installments over a period of four years. This multi-year vesting schedule appropriately encourages long-term employment with the Company while allowing our executives to realize compensation that corresponds to the value they have created for our stockholders. In connection with the pending Merger, RSUs issued to our NEOs in fiscal 2017 will be paid out in cash subject to the original vesting schedule.

The PSAs granted to Ms. Roche and Messrs. Tauscher, Ulrich and Tate are to be earned over a three-year performance period and vest in full after three years, subject to continued service, thus promoting retention by delaying full payout until after the final performance period is completed as well as increasing the linkage of pay to performance. As noted previously, Mr. Brown, our Senior Vice President, International was granted only RSUs, and Mr. Garner was granted RSUs in connection with his appointment as our Chief Financial Officer. The PSAs granted to our NEOs may convert to a number of shares of Common Stock ranging from 0% to 200% of the target number of shares granted based on the level of achievement of the performance goals during three consecutive one-year performance periods corresponding to our fiscal years 2017, 2018 and 2019. The performance goals for 2017 were established with threshold, target and maximum levels of Adjusted EPS and Adjusted Operating Revenues, Further Adjusted. The performance goals for 2018 and 2019 reflect specified levels of growth over the prior year results for each performance metric. If we do not achieve at least the threshold performance level for both performance metrics, then all of the performance shares attributable to that fiscal year will be forfeited. The Compensation Committee reserves the discretion to reduce or eliminate the amount payable at a given level of performance. The following table sets forth the threshold, target and maximum number of performance shares each NEO is eligible to earn based on the attainment of the applicable performance criteria at the threshold, target and maximum goals:

Named Executive Officer	Executive Officer Eligibility for 2017 Performance Shares		
	Threshold Number of Performance Shares	Target Number of Performance Shares	Maximum Number of Performance Shares
Talbott Roche	24,350	48,700	97,400
Charles O. Garner	—	—	—
Jerry Ulrich	6,775	13,550	27,100
William Y. Tauscher	11,850	23,700	47,400
David C. Tate	7,200	14,400	28,800
Gregory Brown	—	—	—

A portion of PSAs granted to our NEOs in both 2016 and 2017 were to be earned, if at all, based on our 2017 performance. The number of shares of Common Stock earned under both the 2016 and 2017 PSAs based on the 2017 performance period were based on our level of Adjusted Operating Revenues, Further Adjusted, and Adjusted EPS (as defined below).

Named Executive Officer	Number of Earned 2016 2018 Performance Shares Based on 2017 Performance (1/3 of target shares)	Number of Earned 2017-2019 Performance Shares Based on 2017 Performance (1/3 of target shares)	
Talbott Roche	5,635	10,876	
Charles O. Garner	N/A	N/A	
Jerry Ulrich	1,698	2,269	(1)
William Y. Tauscher	5,635	5,293	
David C. Tate	1,543	3,216	
Gregory Brown	N/A	N/A	

(1) This represents the adjusted number of shares pursuant to Mr. Ulrich's severance agreement.

"Adjusted Operating Revenues, Further Adjusted" means reported Adjusted Operating Revenues, adjusted by excluding the Adjusted Operating Revenues generated by acquisitions that were not included in the annual financial plan that was presented to the Board (the "Annual Financial Plan") if such acquisitions, on an aggregate basis, have an impact of 5% or more on the total Adjusted Operating Revenue of the Company.

"Adjusted EPS" means the Company's adjusted net income divided by the number of weighted average shares outstanding, diluted, determined as of the end of the applicable fiscal year, adjusted to exclude the Adjusted EPS generated by acquisitions that were not included in the Annual Financial Plan if such acquisitions, on an aggregate basis, have an impact of 5% or more on the total Adjusted Operating Revenue of the Company. To the extent that equity is issued in connection with any excluded acquisition then such shares will be excluded from the EPS calculation.

Other Elements of Compensation

Retirement Plan

401(k) Plan. Our eligible employees, including our NEOs, are eligible to participate in the Blackhawk Network 401(k) Plan, under which our eligible employees may defer a portion of their eligible compensation, within prescribed limits, on a pre-tax and/or Roth after-tax basis through contributions to the 401(k) Plan. Under the Blackhawk Network 401(k) Plan, we may match a portion of our eligible employee's annual contributions, within prescribed limits. Our executive officers are eligible to receive the same 401(k) plan benefits as all employees.

Employee Benefits and Perquisites

Our full-time eligible employees who are regularly-scheduled to work 30 or more hours per week, including our NEOs, are eligible to participate in our group health and welfare program. Our group health and welfare program includes: medical, dental and vision benefits; medical and dependent care flexible spending accounts; short-term disability offered through the required states and/or insurer; and long-term disability, accidental death and dismemberment, and life insurance. We pay the premium costs for short-term disability. In addition, we also pay the premium costs for both accidental death and dismemberment and basic life insurance for each eligible employee (including executive officers) in an amount equal to twice annual base salary, up to a maximum of \$1 million. Each employee is responsible for the income tax for any amount exceeding \$50,000 in coverage. Our executive officers are eligible to receive the same group health and welfare benefits as all employees.

Historically, we have neither provided any perquisites or other personal benefits to our executive officers that are not available to other employees, nor made gross-up payments to cover our executive officers' personal income taxes that may pertain to any of the compensation or benefits we offer. In the future, we may provide different and/or additional perquisites to our executive officers to ensure that we provide a balanced and comprehensive compensation structure. We believe that it is important to maintain flexibility to adapt our compensation structure to properly attract, motivate and retain the top executive talent for which we compete.

Severance and Change in Control Benefits

In April 2014, the Compensation Committee adopted the Blackhawk Network Holdings, Inc. Executive Change in Control Severance Plan, or the Severance Plan, for certain employees, including each of our NEOs, because it believes change in control and severance payments and benefits are essential to fulfill our objective of attracting and retaining key managerial talent.

In May 2017, a wholly owned subsidiary of the Company and Mr. Ulrich entered into a Separation Agreement, General Release of Claims and Covenant Not to Sue (the "Separation Agreement"). Mr. Ulrich ceased to be an employee of the Company in November 2017. Pursuant to the Separation Agreement, Mr. Ulrich released claims against the Company and continued to serve as our Chief Financial Officer for a period after the date of hire of his successor as requested by us. In consideration, he continued to receive his then base salary and received (a) a lump sum payment of \$115,312, (b) reimbursement of 12 months of COBRA insurance premiums, (c) acceleration of vesting of 10,162 shares subject to an RSU granted under the 2013 Plan, and (d) continued vesting and performance-vesting of 10,162 shares subject to a PSAs granted under the 2013 Plan.

In October 2017, a wholly-owned subsidiary of the Company entered into an offer letter with Mr. Garner pursuant to which other than due to a change of control, if the Company terminates his employment without cause, Mr. Garner is entitled to receive a severance payment in an amount equal to 52 weeks of his base salary.

Summaries of the Severance Plan and Messrs. Ulrich's and Garner's severance provisions are provided under "Potential Payments Upon Termination or Change in Control" below.

Other Guidelines and Policies

Stock Ownership Policy for Executives

We adopted a stock ownership policy for our executive officers in April 2014 and amended it in July 2015. This policy is designed to ensure that each executive maintains an equity stake in the Company and, by doing so, to appropriately link their interests with those of other stockholders. The requirement for executive officers is based on a multiple of the executive's base salary. The current ownership requirements for executive officers are a value equal to two times base salary (four times base salary for our CEO) as determined on December 31 of each year. Executive officers are expected to meet their ownership requirements by December 31, 2019. Any newly hired or promoted executives are expected to meet their ownership requirements within five years of their hire or promotion date.

Clawback Policy

In April 2014, we adopted a clawback policy, pursuant to which, in the event of a restatement of our financial statements to correct a material error or inaccuracy that the Board or the Compensation Committee determines resulted in whole or in part from the fraud or intentional misconduct of an officer (as defined under Rule 16a-1(f) of the Exchange Act), the Board or the Compensation Committee shall review all bonuses, incentive compensation and performance-based equity awards paid or vested with respect to the officer within three years prior to the date on which the Company publicly discloses the need for a restatement. To the extent that such bonuses, incentive compensation or performance-based equity awards relate to the periods with respect to which the financial statements are restated and if a lesser bonus, incentive compensation or award would have been paid or vested with respect to the officer based upon the restated financial results, the Board or the Compensation Committee may (i) seek reimbursement or forfeiture of the amounts by which the officer's bonuses, incentive compensation or awards for the restated periods exceeded such lesser bonuses, incentive compensation or awards and (ii) take additional actions, including cancellation of such officer's outstanding bonuses, incentive compensation or equity-based award opportunities.

Anti-Hedging Policy

We adopted an Insider Trading Policy in March 2013 and amended it in 2014 and 2016, pursuant to which our officers, directors and their family members are prohibited from engaging, directly or indirectly, in any

speculative transactions involving our securities, including purchases of our stock on margin, short sales of our securities, and purchase or sale of put or call options on our securities or entering into other derivative contracts. In addition, to prevent the misalignment of objectives of our officers, directors and employees from those of our other stockholders, we do not permit them to enter into certain forms of hedging or monetization transactions, such as zero-cost collars and forward sale contracts for our securities, because such transactions allow the officer, director or employee to continue to own the covered securities without the full risks and rewards of ownership.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code

Generally, Section 162(m) of the Code, as amended by the Tax Cuts and Jobs Act of 2017, disallows a tax deduction for any publicly-held corporation for individual compensation exceeding \$1.0 million in any taxable year to its chief executive officer, chief financial officer and up to three other executive officers who are among our five most highly compensated executive officers. For taxable years beginning before January 1, 2018, qualifying “performance-based compensation” was not subject to this deduction limit if specified requirements were met.

As part of the Tax Cuts and Jobs Act of 2017, the ability to rely on the “performance-based compensation” exemption was eliminated with respect to federal income taxes for any performance based incentive awards granted in taxable years beginning after December 31, 2017. Incentive awards granted in prior taxable years may still be deductible if they satisfy the requirements of the “performance-based compensation” exemption and were provided pursuant to a written binding contract that was in effect on November 2, 2017 and not modified in any material respect after that date.

In approving the amount and form of compensation for our NEOs, the Compensation Committee considers all elements of the cost to the Company of providing such compensation, including the potential impact of Section 162(m) of the Code. However, the Compensation Committee may, in its judgment, authorize compensation payments that may not be deductible when it believes that such payments are appropriate to attract and retain executive talent and/or in the best interests of the Company.

Section 409A of the Internal Revenue Code

Section 409A of the Code requires that “nonqualified deferred compensation” be deferred and paid under plans or arrangements that satisfy the requirements of the statute with respect to the timing of deferral elections, timing of payments and certain other matters. Failure to satisfy these requirements can expose employees and other service providers to accelerated income tax liabilities, additional taxes and interest on their vested compensation under such plans. Accordingly, as a general matter, it is our intention to design and administer our compensation and benefits plans and arrangements for all of our employees and other service providers, including our NEOs, so that they are either exempt from, or satisfy the requirements of, Section 409A of the Internal Revenue Code.

Section 280G of the Internal Revenue Code

Section 280G of the Code disallows a tax deduction with respect to excess parachute payments to certain executives of companies that undergo a change in control. In addition, Section 4999 of the Code, imposes a 20% excise tax on the individual with respect to the excess parachute payment. Parachute payments are compensation linked to or triggered by a change in control and may include, but are not limited to, bonus payments, severance payments, certain fringe benefits, and payments and acceleration of vesting from long-term incentive plans including Options and other equity-based compensation. Excess parachute payments are parachute payments that exceed a threshold determined under Section 280G of the Code based on the executive’s prior compensation. In approving the compensation arrangements for our NEOs since our 2013 initial public offering, the Board considers all elements of the cost to the Company of providing such compensation, including the potential impact of Section 280G of the Code. However, the Board may, in its judgment, authorize compensation arrangements that could give rise to loss of deductibility under Section 280G of the Code and the imposition of excise taxes under Section 4999 of the Code when it believes that such arrangements are appropriate to attract and retain executive talent.

Accounting for Stock-Based Compensation

We follow Financial Accounting Standards Board Accounting Standards Codification Topic 718 (“ASC Topic 718”) for our stock based compensation awards. ASC Topic 718 requires companies to calculate the grant date “fair value” of their stock-based awards using a variety of assumptions. ASC Topic 718 also requires companies to recognize the compensation cost of their stock based awards in their income statements over the period that an employee is required to render service in exchange for the award. Grants of Options, RSUs and other equity-based awards under our equity incentive award plans will be accounted for under ASC Topic 718. The Board and/or Compensation Committee will regularly consider the accounting implications of significant compensation decisions, especially in connection with decisions that relate to our equity incentive award plans and programs. As accounting standards change, we may revise certain programs to appropriately align accounting expenses of our equity awards with our overall executive compensation philosophy and objectives.

Compensation Risk Assessment

The Compensation Committee conducts an annual risk assessment of compensation programs to identify and manage any risks they may present. In 2017, Mercer reviewed the risk assessment findings and discusses them with the Committee. The key factors of our compensation programs that mitigate risk are the following: alignment of compensation mix and level to market, established maximum payout levels for incentive plans, alignment of incentive plan payouts with total company performance, and strong Compensation Committee oversight with validation of awards before payout. Based on this assessment, the Committee has determined that any risks arising from our compensation programs are not reasonably likely to have a material adverse effect on the Company.

SUMMARY COMPENSATION

The following table sets forth information concerning the compensation of our NEOs for our 2017, 2016 and 2015 fiscal years ended December 30, 2017, December 31, 2016 and January 2, 2016, respectively.

(1) Mr. Garner joined the Company in October 2017.

(2) Mr. Ulrich retired in November 2017.

(3) Mr. Brown was promoted to Senior Vice President, International in June 2017 and became an executive officer in August 2017.

Amounts represent the aggregate grant date fair value of Options, RSUs, and PSAs, as applicable, granted during the applicable year and calculated in accordance with ASC Topic 718. We provide information regarding the assumptions used to calculate the value of all of these awards in Notes 1 and 8 to our financial statements included in our Form 10-K filed February 28, 2018. These amounts do not reflect the actual economic value that will be realized by our named executive officers upon the vesting of the stock awards or the sale of the common stock underlying such awards. In addition, the maximum potential value of the PSAs granted to Ms. Roche and Messrs. Tauscher, Ulrich and Tate was \$3,701,200, \$1,801,200, \$1,029,800 and \$1,094,400, respectively, assuming the Company achieved the maximum goal for each performance criteria (the grant date fair value per share on February 13, 2017 was \$38.00). Messrs. Garner and Brown were not eligible for and did not receive any PSA grants in 2017.

(4) Includes the grant date fair value as of February 13, 2017 for an RSU grant of 13,550 shares, 3,388 shares of which were subsequently canceled upon Mr. Ulrich's separation from service from the Company in November 2017 and the grant date value of a PSA of 13,550 shares (at target), 3,388 of which were subsequently canceled upon his separation from service from the Company.

(5) This amount consists of (i) life insurance premium of \$80 paid by the Company on behalf of him, (ii) the Company's reimbursement of \$20,154 for his travel and temporary housing prior to relocation pursuant to his offer letter; (iii) "gross-up" tax reimbursement of \$31,181 in connection with the reimbursement described in (ii) above.

(6) This amount consists of (i) life insurance premium of \$812 paid by the Company; (ii) the Company's matching contributions of \$5,541 to the Blackhawk Network 401(k) Plan; (iii) an earned cash amount of \$115,312 for his transition services, the payment of which will be made in 2018, and (iv) \$2,072 for COBRA reimbursement pursuant to his Separation Agreement.

CEO Pay Ratio

Pursuant to Section 953(b) of the Dodd-Frank Act, we are providing the following information about the relationship of the annual total compensation of our employees (other than our CEO) and the annual total compensation of our CEO, Talbott Roche. For 2017:

the annual total compensation of our median employee was \$60,454; the annual total compensation of our CEO, as reported in the 2017 Summary Compensation Table and adjusted as described below, was \$5,066,480; and thus, for 2017, the annual compensation of our CEO, Ms. Roche, was approximately 84 times that of the median of the annual total compensation of all employees. This ratio is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

To identify our median employee, we extracted a list of all employees employed by us and our consolidated subsidiaries from our Human Resource Information System as of December 30, 2017. We did not exclude any employees under the de minimis exemption provided under Item 402(u). To determine the median employee, we considered the annual base salary rate for each of our employees as of December 30, 2017. We did not include any contractors or other non-employee workers in our employee population. We used exchange rates in effect as of December 29, 2017 to convert the base salaries of our non-U.S. employees to U.S. dollars, and we did not make any cost-of-living adjustments.

Using this approach, we selected the individual at the median of our employee population. We then calculated total compensation for this individual using the same methodology we use for our named executive officers as set forth in the 2017 Summary Compensation Table. Ms. Roche's total compensation for 2017 was \$5,066,480, as reported in the 2017 Summary Compensation Table included in this Annual Report.

Because SEC rules for identifying the median of the annual total compensation of all employees of our company and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions and to make reasonable estimates and assumptions that reflect their employee population and compensation practices, the pay ratio reported by other companies may not be comparable to our pay ratio, as other companies have different employee populations and compensation practices and may have used different methodologies, exclusions, estimates and assumptions in calculating their pay ratios. As explained by the SEC when it adopted these rules, the rule was not designed to facilitate comparisons of pay ratios among different companies, even companies within the same industry, but rather to allow stockholders to better understand and assess each particular company's compensation practices and pay-ratio disclosures.

Amounts shown in these columns represent each NEO’s non-discretionary incentive bonus opportunity under our 2017 Bonus Plan. The “Target” amount represents the NEO’s target bonus if the performance goals under the 2017 (1) Bonus Plan were achieved at the target levels, and the “Threshold” and “Maximum” amounts represent the NEO’s minimum and maximum bonuses, respectively, if the performance goals under the 2017 Bonus Plan were achieved at the minimum or the maximum levels.

The PSAs were awarded in 2017 for the performance periods covering our 2017, 2018 and 2019 fiscal years with one third of the granted shares to be awarded in each year. The “Threshold” number of shares represents 50% of the target number of performance shares granted, which is the number of shares that would be earned based on achieving the minimum performance goals. The “Target” number of shares represents 100% of the performance (2) shares granted, which is the number of shares that would be earned based on achieving the target performance goals. The “Maximum” number of shares shown is 200% of the performance shares granted, which is the number of shares that would be earned based on achieving the maximum performance goals. Messrs. Garner and Brown were not eligible and did not receive any PSA grants in 2017. Please see the section titled “Compensation Discussion and Analysis—Elements of Compensation—2017 Equity Awards” in this report for a detailed discussion of the PSAs.

Amounts reflect the full grant-date fair value of RSUs and PSAs granted during 2017 computed in accordance with ASC Topic 718, rather than the amounts paid to or realized by the named individual. We provide information (3) regarding the assumptions used to calculate the value of all of these awards in Notes 1 and 8 to our financial statements included in our Form 10-K filed February 28, 2018.

2017 Pension Benefits

Our NEOs possess accumulated and undistributed benefits under one or more of the following plans: Employee Retirement Plan of Safeway Inc. and its Domestic Subsidiaries, or the Safeway ERP, the Safeway Retirement Restoration Plan I, or the Safeway Retirement Restoration Plan II, (collectively, the “Safeway RRP’s”). These benefits were credited for services performed for the Company when we were a subsidiary or division of Safeway. Safeway distributed its remaining shares of our Common Stock on April 14, 2014. For a description of these plans, see our proxy statement for the 2015 Annual Meeting of Stockholders, filed with the SEC on April 8, 2015.

2017 Non-Qualified Deferred Compensation

Participation in the Blackhawk Deferred Compensation Plan was limited to our non-employee directors and certain management and highly compensated employees that are selected by the Compensation Committee. This included all of our NEOs, who could elect to defer between 1% and 50% of their base salary and between 10% and 100% of their cash bonus plan compensation to an unfunded, but fully vested account. We could, in our sole discretion, make contributions to the Blackhawk Deferred Compensation Plan from time to time. No such contributions were made. At the election of the executive officer, the account balance under the Blackhawk Deferred Compensation Plan may be invested in one or more investment funds, with the hypothetical investment gains and losses derived from the deemed investments credited to (or debited from) the executive officer’s deferred account balance. NEOs must have submitted irrevocable deferral elections with respect to amounts deferred under the Blackhawk Deferred Compensation Plan that specify when payment will commence – either a fixed date or upon their termination of service with us, provided, however, that any amounts not yet paid will always be paid upon a termination of service. NEOs could elect to receive payment in a lump sum distribution or in annual installments over a period of 5, 10 or 15 years. All amounts deferred under the plan will be paid in accordance with the distribution elections submitted by the executive officer, subject to limited exceptions for small account balances, subsequent deferral elections satisfying certain legal requirements and the liquidation of the plan.

The amounts reported as executive contributions represent compensation already included in the amounts of the (1)2017 Summary Compensation Table, with the exception of earnings on contributions, as such earnings are not considered at above-market rates or preferential earnings on compensation that is deferred.

On December 4, 2017, the Compensation Committee approved an amendment to the Blackhawk Deferred Compensation Plan, terminating it, effective as of December 15, 2017, pursuant to Treasury Regulation Section 1.409A-3(j)(4)(ix)(C). Pursuant to such amendment, all balances will be distributed on December 17, 2018. Until such distribution date, the Blackhawk Deferred Compensation Plan will continue to operate in the ordinary course, except that no new deferrals will be credited to participants under the Plan after December 15, 2017.

Mr. Ulrich had undistributed compensation under the Safeway Executive Deferred Compensation Plans (the “Safeway Deferred Compensation Plans”), attributable to service performed for the Company, when we were a subsidiary or division of Safeway. Safeway distributed its remaining shares of our Common Stock on April 14, 2014. For a description of these plans, see our proxy statement for the 2015 Annual Meeting of Stockholders, filed with the SEC on April 8, 2015.

Potential Payments upon Termination or Change in Control

Our NEOs are entitled to certain payments and benefits upon a qualifying termination of employment or a change in control. The following discussion describes the payments and benefits to which our NEOs would have become entitled pursuant to agreements in effect as of December 30, 2017. This section presumes that the triggers for the potential payments occur on December 30, 2017. Pursuant to the Merger Agreement entered into by the Company, after December 30, 2017, equity awards previously granted to our NEOs will be treated as described under “Compensation Discussion and Analysis—Executive Summary—Business Highlights” upon the closing of the Merger. The treatment of equity awards contemplated by the Merger Agreement is not reflected in this section.

Severance Arrangements

The Severance Plan provides for the payment of severance and other benefits to certain eligible employees, (including all of the NEOs) following a change in control (as defined therein) in the event of a subsequent termination of employment by the Company without “cause” or by the eligible employees for “good reason” (each, as defined in the Severance Plan, and each such termination, a “Qualifying Termination”). In the event of a Qualifying Termination during the 24-month period following a “change in control” (as defined in the Severance Plan), the Severance Plan provides for the following payments and benefits:

an amount equal to the product of (i) two (Ms. Roche and Mr. Tauscher), or one and one-half (Messrs. Garner, Ulrich, Tate, and Brown), multiplied by (ii) the sum of the executive’s base salary and target annual cash bonus opportunity for the fiscal year of termination, payable in substantially equal installments, in accordance with the Company’s normal payroll procedures,

over the 24-month period (Ms. Roche and Mr. Tauscher) or 18-month period (Messrs. Garner, Ulrich, Tate, and Brown) following the termination date;

- an additional lump sum payment equal to a prorated portion of the executive's target annual cash bonus opportunity for time served during the fiscal year of termination;
- payment or reimbursement of COBRA premiums through the earlier of the end of the applicable COBRA period or the date on which the executive becomes eligible for other health care coverage; and full accelerated vesting of the executive's time-based equity awards and accelerated vesting of the executive's performance-based equity awards with respect to 100% of the "target" number of shares subject to such performance-based equity awards.

The eligible employee's right to receive the severance payments pursuant to the Severance Plan is contingent on the person executing a general release of claims against the Company. In addition, to the extent that any payment or benefit received by an executive would be subject to an excise tax under Section 4999 of the Code, such payments and/or benefits will be subject to a "best pay cap" reduction if such reduction would result in a greater net after-tax benefit to the executive than receiving the full amount of such payments.

In May 2017, a wholly owned subsidiary of the Company and Mr. Ulrich entered into a Separation Agreement, General Release of Claims and Covenant Not to Sue (the "Separation Agreement"). Mr. Ulrich ceased to be an employee of the Company in November 2017. Pursuant to the Separation Agreement, Mr. Ulrich released claims against the Company and continued to serve as Chief Financial Officer of the Company for a period after the date of hire of his successor as requested by the Company. In consideration, he continued to receive his then base salary and received (a) a lump sum payment of \$115,312.00, (b) reimbursement of twelve (12) months of COBRA insurance premiums, (c) acceleration of vesting of 10,162 shares subject to a RSU granted under the 2013 Plan, and (d) continued vesting and performance-vesting of 10,162 shares subject to a PSA granted under the 2013 Plan.

Pursuant to the offer letter between Mr. Garner and the Company dated October 19, 2017, if the Company terminates his employment without cause, Mr. Garner is entitled to receive a severance payment in an amount equal to 52 weeks of his base salary, other than due to a change of control.

Deferred Compensation Plan

Benefits Payable upon Termination (other than Death).

Under the Blackhawk Deferred Compensation Plan, in the event of a termination of employment of a NEO for any reason other than death, including in connection with a change in control, the NEO is entitled to receive his or her account balance under such plan as of the date of termination. For a discussion of the amounts payable and manner of payment to each of our NEOs under the Blackhawk Deferred Compensation Plan, see the section titled "2017 Non-Qualified Deferred Compensation" above.

In addition, our NEOs have benefits payable upon termination of employment under one or more of the Safeway ERP, the Safeway RRP and/or the Safeway Deferred Compensation Plans. For a description of these plans, see our proxy statement for the 2015 Annual Meeting of Stockholders, filed with the SEC on April 8, 2015.

Benefits Payable Upon Death

Under the Blackhawk Deferred Compensation Plan, any undistributed balance of a NEO will be payable if the executive dies before the entire deferred account balance has been distributed. For a discussion of the amounts payable and manner of payment to each of our NEOs under the Blackhawk Deferred Compensation Plan, see the section titled "2017 Non-Qualified Deferred Compensation" above. The NEO's beneficiary will receive the balance of the executive's benefit in the form of a lump sum. In addition, our NEOs have benefits payable upon death under one or more of the Safeway ERP and/or the Safeway RRP. For a description of these plans, see our proxy statement for the 2015 Annual Meeting of Stockholders, filed with the SEC on April 8, 2015.

Acceleration of Options, RSUs and PSAs upon Death, Disability or Retirement

In the event of the retirement of a NEO at or after the one (1)-year anniversary of the date of grant of an award under the 2013 Plan and the executive officer has attained (i) age 55 and completed 10 consecutive years of service or (ii) age 65, certain Options and RSUs will accelerate and vest in full. Certain PSAs that were granted under the 2013 Plan will vest in full to the extent that they are performance-vested as of the date of retirement, and any PSAs that are not then performance-vested will remain outstanding and vest in accordance with the terms of the 2013 Plan. In the event of the death of a NEO or termination on account of disability at or after the one (1)-year anniversary of the date of grant of an award under the 2013 Plan, certain Options and RSUs will accelerate and vest in full. Certain PSAs will be deemed performance-vested with respect to the target number of performance shares, and such number of performance shares will vest in full.

Acceleration of Options and SARs upon a Change in Control

In the event we undergo a change in control, Options and SARs held by the NEOs granted under the 2007 Plan will accelerate and vest in full. In the event of a termination of employment by the Company for “cause” or by the NEO for “good reason” (each as defined in the Severance Plan) in the 24-month period following a “change in control” (as defined in the 2013 Plan), certain PSAs that were granted under the 2013 Plan will vest in full to the extent that they are performance-vested as of the change of control date, and any PSAs that are not then performance-vested will be deemed performance-vested with respect to the target number of performance shares, and such number of performance shares will vest in full.

Summary of Potential Payments

The following table summarizes the payments that would be made to certain NEOs upon the occurrence of certain qualifying terminations of employment, assuming such NEO’s termination of employment with us occurred on December 30, 2017 and, where relevant, that a change in control of the Company occurred on December 30, 2017. COMPENSATION OF DIRECTORS

Director Compensation

The Board has approved a compensation plan for non-employee directors, which we refer to as the Non-Employee Director Compensation Program, for our non-employee directors, whom we refer to as eligible directors. For the fiscal year ended December 30, 2017, each of our non-employee directors received each of the applicable retainers and fees set forth below for serving as a member of the Board, Chairman of the Board or as a Committee Chair or committee member.

Cash Compensation

As of April 27, 2018, annual retainers are paid in the following amounts to non-employee directors:

Non-employee director:	\$60,000
Chair of Audit Committee:	\$15,000
Chair of Compensation Committee:	\$10,000
Chair of Nominating and Corporate Governance Committee:	\$8,500
Audit Committee Member (for both non-Chair and Chair members):	\$10,000
Compensation Committee Member (for both non-Chair and Chair members):	\$10,000
Nominating and Corporate Governance Committee Member (for both non-Chair and Chair members):	\$7,500
Lead Independent Director:	\$20,000

All annual retainers are paid in cash quarterly in arrears promptly following the end of the applicable calendar quarter, but in no event more than thirty (30) days after the end of such quarter.

Equity Compensation

Each non-employee director serving on the Board on the date of each annual stockholder meeting of the Company is granted an RSU, or an Annual RSU, that constitutes a right to receive shares of Common Stock with an aggregate value of \$140,000 (valued based on the average market closing price per share of the Common Stock over the period of 15 consecutive trading days ending on the Friday immediately preceding the applicable annual meeting) under the 2013 Plan or any other applicable Company equity incentive plan then maintained by the Company, or the Annual RSU. The Annual RSU will be automatically granted, without further action, on the date of the applicable annual meeting, and will vest in full on the earlier to occur of (i) the first anniversary of the date of grant and (ii) the date of the annual meeting for the year following the year in which the grant is made, subject in each case to continued service through the vesting date.

Each non-employee director may defer up to 100% of the shares of Common Stock underlying Annual RSUs and RSUs that a director receives in lieu of his or her annual cash retainers until a date that is later than the vesting date. Deferral elections and deferral payments for RSUs are governed by procedures substantially similar to the procedures governing deferral elections and deferred payment under the Blackhawk Network Holdings, Inc. Deferred Compensation Plan, or the Blackhawk Deferred Compensation Plan. For a summary of the Blackhawk Deferred Compensation Plan, see the section titled "2017 Non-Qualified Deferred Compensation" above.

We reimburse all directors for reasonable travel and other out-of-pocket expenses incurred in connection with attendance at meetings of the Board and its committees. We do not provide retirement benefits to our non-employee directors.

In the table below, we have set forth information regarding the compensation of our eligible directors for the fiscal year ended December 30, 2017.

Non-employee Director Stock Ownership Guideline

We adopted a stock ownership guideline for all non-employee directors in April 2014 and amended such guideline in 2016 to increase the value of stock to be retained by non-employee directors. Currently, all non-employee directors are required to accumulate shares of the Company's stock equal in value to at least five times the amount of their annual cash retainer as determined on December 31 of each year. Under the guideline, all non-employee directors are expected to meet their ownership requirements by December 31, 2021, except that any newly appointed directors are expected to meet their ownership requirements within five years following their appointment date.

Item 13. Certain Relationships and Related Transactions, and Director Independence
Policies and Procedures for Related Party Transactions

The Board has adopted a written related party transaction policy that sets forth the policies and procedures for the review and approval or ratification of related party transactions. This policy covers, with certain exceptions set forth in Item 404 of Regulation S-K under the Securities Act of 1933, as amended, any transaction, arrangement or relationship, or any series of similar transactions, arrangements or relationships, in which we were or are to be a participant, where the amount involved exceeds \$120,000 and a related person had or will have a direct or indirect material interest, including, without limitation, purchases of goods or services by or from the related person or entities in which the related person has a material interest, indebtedness, guarantees of indebtedness and employment by us of a related person.

As provided by the Audit Committee charter, the Audit Committee is responsible for reviewing and approving in advance any related party transaction.

Indemnification Agreements

We have entered into indemnification agreements with each of our directors, executive officers and certain other employees. These agreements, among other things, require us to indemnify each individual to the fullest extent permitted by Delaware law, including indemnification of expenses such as attorneys' fees, judgments, fines and settlement amounts incurred by the individual in any action or proceeding, including any action or proceeding by or in right of us, arising out of the person's services as a director, officer or other employee.

Independence of the Board of Directors

As required under the Nasdaq listing standards, a majority of the members of a listed company's board of directors must qualify as "independent," as affirmatively determined by the board of directors. The Board consults with our counsel to ensure that its determinations are consistent with relevant securities and other laws and regulations regarding the definition of "independent," including those set forth in pertinent Nasdaq listing standards, as in effect from time to time.

Consistent with these considerations, after review of all relevant identified transactions or relationships between each director, or any of his or her family members, and the Company, its senior management and its independent auditors, the Board has affirmatively determined that the following ten directors are independent directors within the meaning of the applicable Nasdaq listing standards: Messrs. Aggarwal, Bard, Barnds, Burd, Edwards, Gyani, Hazen, Henske, Sarin and Ms. Thompson. The Board has also affirmatively determined that Mr. Jeffery H. Fox was an independent director while serving on the Board during 2017. In making these determinations, the Board concluded that none of these directors had a material or other disqualifying relationship with us. Ms. Roche is our President and Chief Executive Officer and therefore is not an independent director by virtue of her employment with us. Mr. Tauscher is our Executive Chairman and therefore is not an independent director by virtue of his employment with us. There are no family relationships among any of our directors or executive officers.

Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and non-audit services provided by its independent registered public accounting firm. This policy is set forth in the charter of the Audit Committee and available on our website at <http://ir.blackhawknetwork.com>. The Audit Committee approved all audit and other services provided by Deloitte & Touche LLP for 2017 and the estimated costs of those services. Actual amounts billed, to the extent in excess of the estimated amounts, were periodically reviewed and approved by the Audit Committee.

The Audit Committee considered whether the non-audit services rendered by the member firms of Deloitte Touche Tohmatsu Limited, and their respective affiliates were compatible with maintaining its independence and concluded that they were so compatible.

Blackhawk regards the non-GAAP financial measures presented in this proxy statement as useful measures of the operational and financial performance of its business. Adjusted EBITDA, Adjusted net income and Adjusted diluted earnings per share measures are prepared and presented to eliminate the effect of items from EBITDA, Net income and Diluted earnings per share that the Company does not consider indicative of its core operating performance within the period presented. Adjusted operating revenues are prepared and presented to offset the distribution commissions paid and other compensation to distribution partners and business clients. Adjusted EBITDA margin represents Adjusted EBITDA as a percentage of Adjusted operating revenues. Adjusted operating revenues, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted net income and Adjusted diluted earnings per share may not be comparable to similarly titled measures of other organizations because other organizations may not calculate these measures in the same manner as Blackhawk. Investors are encouraged to evaluate our adjustments and the reasons we consider them appropriate.

The Company believes Adjusted operating revenues, EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted net income, and Adjusted diluted earnings per share are useful to evaluate the Company's operating performance for the following reasons:

- adjusting operating revenues for distribution commissions paid and other compensation to retail distribution partners and business clients is useful to understanding the Company's operating margin;
- adjusting operating revenues for marketing revenue, which has offsetting marketing expense, is useful for understanding the Company's operating margin;
- EBITDA and Adjusted EBITDA are widely used by investors and securities analysts to measure a company's operating performance without regard to items that can vary substantially from company to company and from period to period depending upon their financing, accounting and tax methods, the book value of their assets, their capital structures and the method by which their assets were acquired;
- Adjusted EBITDA margin provides a measure of operating efficiency based on Adjusted operating revenues and without regard to items that can vary substantially from company to company and from period to period depending upon their financing, accounting and tax methods, the book value of their assets, their capital structures and the method by which their assets were acquired;
- in a business combination, a company records an adjustment to reduce the carrying values of deferred revenue and deferred expenses to their fair values and reduces the company's revenues and expenses from what it would have recorded otherwise, and as such the Company does not believe is indicative of its core operating performance;
- non-cash equity grants made to employees and distribution partners at a certain price and point in time do not necessarily reflect how the Company's business is performing at any particular time and the related expenses are not key measures of the Company's core operating performance;
- the net gain on the transaction to transition our program-managed GPR business to another program manager, the gain on the sale of our member interest in Visa Europe and other non-recurring gains / (losses) related to our acquisitions is not reflective of our core operating performance;
- asset impairment charges related to the write-down of technology assets as part of our post-acquisition integration efforts are not key measures of the Company's core operating performance;

intangible asset amortization expenses can vary substantially from company to company and from period to period depending upon the applicable financing and accounting methods, the fair value and average expected life of the acquired intangible assets, the capital structure and the method by which the intangible assets were acquired and, as such, the Company does not believe that these adjustments are reflective of its core operating performance; and non-cash fair value adjustments to contingent business acquisition liability do not directly reflect how the Company is performing at any particular time and the related expense adjustment amounts are not key measures of the Company's core operating performance.
