## **NATIONAL BEVERAGE CORP. AND SUBSIDIARIES**

### **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

National Beverage Corp. develops, manufactures, markets and sells a diverse portfolio of flavored beverage products primarily in North America. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. When used in this report, the terms “we,” “us,” “our,” “Company” and “National Beverage” mean National Beverage Corp. and its subsidiaries.

#### **1. SIGNIFICANT ACCOUNTING POLICIES**

##### ***Basis of Presentation***

The consolidated financial statements include the accounts of National Beverage Corp. and its subsidiaries. Significant intercompany transactions and accounts have been eliminated.

The consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (“GAAP”) and rules and regulations of the Securities and Exchange Commission for interim financial reporting. Accordingly, they do not include all information and notes presented in the annual consolidated financial statements. The consolidated financial statements should be read in conjunction with the annual consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the fiscal year ended May 2, 2015. The accounting policies used in these interim consolidated financial statements are consistent with those used in the annual consolidated financial statements.

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Results for the interim periods presented are not necessarily indicative of results which might be expected for the entire fiscal year.

##### ***Derivative Financial Instruments***

We use derivative financial instruments to partially mitigate our exposure to changes in raw material costs. All derivative financial instruments are recorded at fair value in our Consolidated Balance Sheets. The estimated fair

value of derivative financial instruments is calculated based on market rates to settle the instruments. We do not use derivative financial instruments for trading or speculative purposes. Credit risk related to derivative financial instruments is managed by requiring high credit standards for counterparties and frequent cash settlements. See Note 5.

### ***Earnings Per Common Share***

Basic earnings per common share is computed by dividing earnings available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per common share is calculated in a similar manner, but includes the dilutive effect of stock options.

### ***Inventories***

Inventories are stated at the lower of first-in, first-out cost or market. Inventories at October 31, 2015 are comprised of finished goods of \$29.3 million and raw materials of \$19.4 million. Inventories at May 2, 2015 are comprised of finished goods of \$24.9 million and raw materials of \$18 million.

## 2. PROPERTY, PLANT AND EQUIPMENT

Property consists of the following:

	(In thousands)	
	October 31, 2015	May 2, 2015
Land	\$9,500	\$9,500
Buildings and improvements	50,800	50,405
Machinery and equipment	160,637	156,702
Total	220,937	216,607
Less accumulated depreciation	(161,630)	(156,425)
Property, plant and equipment – net	\$59,307	\$60,182

Depreciation expense was \$2.6 million and \$5.3 million for the three and six months ended October 31, 2015, respectively, and \$2.6 million and \$5.3 million for the three and six months ended November 1, 2014, respectively.

## 3. DEBT

At October 31, 2015, a subsidiary of the Company maintained unsecured revolving credit facilities with banks aggregating \$100 million (the “Credit Facilities”). The Credit Facilities expire from October 10, 2017 to June 18, 2018 and, currently, any borrowings would bear interest at .9% above one-month LIBOR. There were no borrowings outstanding under the Credit Facilities at October 31, 2015 and \$10 million at May 2, 2015. At October 31, 2015, \$2.2 million of the Credit Facilities were reserved for standby letters of credit and \$97.8 million were available for borrowings.

The Credit Facilities require the subsidiary to maintain certain financial ratios, including debt to net worth and debt to EBITDA (as defined in the Credit Facilities), and contain other restrictions, none of which are expected to have a material effect on our operations or financial position. At October 31, 2015, we were in compliance with all loan covenants.

## 4. STOCK-BASED COMPENSATION

During the six months ended October 31, 2015, options to purchase 3,000 shares of common stock were granted (weighted average exercise price of \$9.59 per share), options to purchase 44,380 shares were exercised (weighted average exercise price of \$9.95 per share) and options to purchase 10,140 shares were cancelled (weighted average exercise price of \$16.24). At October 31, 2015, options to purchase 561,615 shares (weighted average exercise price of \$11.23 per share) were outstanding and stock-based awards to purchase 2,786,229 shares of common stock were available for grant.

## 5. DERIVATIVE FINANCIAL INSTRUMENTS

From time to time, we enter into aluminum swap contracts to partially mitigate our exposure to changes in the cost of aluminum cans. Such financial instruments are designated and accounted for as a cash flow hedge. Accordingly, gains or losses attributable to the effective portion of the cash flow hedge are reported in Accumulated Other Comprehensive Income (Loss) (“AOCI”) and reclassified into earnings through cost of sales in the period in which the hedged transaction affects earnings. The ineffective portion of the change in fair value of our cash flow hedges were immaterial. The following summarizes the gains (losses) recognized in the Consolidated Statements of Income and AOCI relative to cash flow hedges for the three and six months ended October 31, 2015 and November 1, 2014:

	(In thousands)			
	Three Months		Six Months	
	Ended		Ended	
	2015	2014	2015	2014
Recognized in AOCI:				
(Loss) gain before income taxes	\$(2,094)	\$643	\$(7,064)	\$1,248
Less income tax (benefit) provision	(777 )	239	(2,621)	463
Net	\$(1,317)	\$404	\$(4,443)	\$785
Reclassified from AOCI to cost of sales:				
(Loss) gain before income taxes	\$(2,446)	\$263	\$(3,837)	\$277
Less income tax (benefit) provision	(907 )	98	(1,423)	103
Net	\$(1,539)	\$165	\$(2,414)	\$174
Net change to AOCI	\$222	\$239	\$(2,029)	\$611

As of October 31, 2015, the notional amount of our outstanding aluminum swap contracts was \$25.6 million and, assuming no change in the commodity prices, \$6.4 million of unrealized loss before tax will be reclassified from AOCI and recognized in earnings over the next twelve months. See Note 1.

As of October 31, 2015 and May 2, 2015, the fair value of the derivative liability was \$6.4 million and \$3 million and the fair value of the derivative long-term liability was \$605,000 and \$751,000, which was included in accrued liabilities and other liabilities, respectively. Such valuation does not entail a significant amount of judgment and the inputs that are significant to the fair value measurement are Level 2 as defined by the fair value hierarchy as they are observable market based inputs or unobservable inputs that are corroborated by market data.

## 6. NEW ACCOUNTING PRONOUNCEMENTS

In November 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2015-17, “Balance Sheet Classification of Deferred Taxes” (“ASU 2015-17”). ASU 2015-17 requires companies to classify all deferred tax liabilities and assets as noncurrent on the balance sheet. ASU 2015-17 is effective for our fiscal year beginning April 30, 2017. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In November 2014, the FASB issued Accounting Standards Update No. 2014-16, “Derivatives and Hedging (Topic 815): Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share Is More Akin to Debt or to Equity” (“ASU 2014-16”). The amendments in ASU 2014-16 do not change the current criteria for determining when separation of certain embedded derivative features in a hybrid financial instrument is required. Rather, ASU 2014-16 clarifies how current U.S. GAAP should be interpreted in evaluating the economic characteristics and risks of a host contract in a hybrid financial instrument that is issued in the form of a share. ASU 2014-16 is effective for our fiscal year beginning May 1, 2016. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 requires an entity to recognize revenue in an amount that reflects the consideration it expects to receive in exchange for goods or services. On August 12, 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year and is effective for our fiscal year beginning April 30, 2018. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

## **7. COMMITMENTS AND CONTINGENCIES**

As of October 31, 2015, we guaranteed the residual value of certain leased equipment in the amount of \$4.7 million. If the proceeds from the sale of such equipment are less than the balance required by the lease when the lease terminates on August 1, 2017, the Company shall be required to pay the difference up to such guaranteed amount. The Company expects to have no loss on such guarantee.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Overview

National Beverage Corp. is an acknowledged leader in the development, manufacturing, marketing and sale of a diverse portfolio of flavored beverage products. Our primary market focus is the United States, but our products are also distributed in Canada, Mexico, the Caribbean, Latin America, the Pacific Rim, Asia and Europe. A holding company for various operating subsidiaries, National Beverage Corp. was incorporated in Delaware in 1985 and began trading as a public company on the NASDAQ Stock Market in 1991. In this report, the terms “we,” “us,” “our,” “Company” and “National Beverage” mean National Beverage Corp. and its subsidiaries unless indicated otherwise.

Our brands consist of (i) beverages geared toward the active and health-conscious consumer (“Power+ Brands”), including sparkling waters, energy drinks and shots, juices, and enhanced beverages, and (ii) Carbonated Soft Drinks in a variety of flavors including regular, sugar-free and reduced-calorie options. In addition, we produce soft drinks for certain retailers (“Allied Brands”) that endorse the “Strategic Alliance” concept of having our brands and Allied Brands marketed to effectuate enhanced growth of both. We employ a philosophy that emphasizes vertical integration; our manufacturing model integrates the procurement of raw materials and production of concentrates with the manufacture of finished products in our twelve manufacturing facilities. To service a diverse customer base that includes numerous national retailers as well as thousands of smaller “up-and-down-the-street” accounts, we have developed a hybrid distribution system that promotes and utilizes customer warehouse distribution facilities and our own direct-store delivery fleet plus the direct-store delivery systems of independent distributors and wholesalers.

We consider ourselves to be a leader in the development and sale of flavored beverage products. The National Beverage Corp. brand portfolio contains a wide variety of beverages to meet consumer needs in a multitude of market segments. Our portfolio of Power+ Brands is targeted to consumers seeking healthier and functional alternatives to complement their active lifestyles, and includes LaCroix®, LaCroix Cúrate™ and LaCroix NiCola™ sparkling water products; Rip It® energy drinks and shots; and Everfresh® and Everfresh Premier Varietals™, 100% juice and juice-based products. Our carbonated soft drink flavor development spans more than 125 years originating with our flagship brands, Shasta® and Faygo®.

Our strategy emphasizes the growth of our products by (i) expanding our focus on healthier and functional beverages tailored toward healthy, active lifestyles, (ii) offering a beverage portfolio of proprietary flavors with distinctive packaging and broad demographic appeal, (iii) supporting the franchise value of regional brands, (iv) appealing to the “quality-value” expectations of the family consumer, and (v) responding to demographic trends by developing innovative products designed to expand distribution.

The majority of our sales are seasonal with the highest volume typically realized during the summer months. As a result, our operating results from one fiscal quarter to the next may not be comparable. Additionally, our operating results are affected by numerous factors, including fluctuations in the costs of raw materials, changes in consumer preference for beverage products, competitive pricing in the marketplace and weather conditions.

## RESULTS OF OPERATIONS

Three Months Ended October 31, 2015 (second quarter of fiscal 2016) compared to Three Months Ended November 1, 2014 (second quarter of fiscal 2015)

Net sales for the second quarter of fiscal 2016 increased 9.2% to \$178.7 million compared to \$163.6 million for the second quarter of fiscal 2015. The higher sales resulted from a 9.6% increase in case volume, which includes 25.3% growth of our Power+ Brands and 2.6% increase in branded carbonated soft drinks. The average selling price was approximately the same for both quarters.

Gross profit for the second quarter of fiscal 2016 increased 5% to \$60.6 million compared to \$57.7 million for the second quarter of fiscal 2015. The increase in gross profit is primarily due to higher sales, partially offset by an increase in cost of sales per case of 1.8%. The increase in cost of sales per case was due to changes in product mix, which also resulted in a gross margin decline to 33.9%.

Selling, general and administrative expenses were \$37.2 million or 20.8% of net sales for the second quarter of fiscal 2016 compared to \$38 million or 23.2% of net sales for the second quarter of fiscal 2015. The decline in expenses was primarily due to lower marketing costs.

Interest expense decreased to \$62,000 for the second quarter of fiscal 2016, primarily due to a decline in average borrowings outstanding under credit facilities. Other expense includes interest income of \$16,000 for the second quarter of fiscal 2016 and \$7,000 for the second quarter of fiscal 2015.

The Company's effective income tax rate, based upon estimated annual income tax rates, was 34.2% for the second quarter of fiscal 2016 and 34.0% for the second quarter of fiscal 2015. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effect of state income taxes and the manufacturing deduction.

Six Months Ended October 31, 2015 (first six months of fiscal 2016) compared to Six Months Ended November 1, 2014 (first six months of fiscal 2015)

Net sales for the first six months of fiscal 2016 increased 7.6% to \$364.1 million compared to \$338.2 million for the six months of fiscal 2015. The higher sales resulted from a 6.6% increase in case volume and a 1% increase in average selling price. The volume increase includes 26.4% growth of our Power+ Brands partially offset by a decline in branded carbonated soft drinks and Allied Brands. The increase in average selling price is related to changes in product mix.

Gross profit for the first six months of fiscal 2016 increased 5.1% to \$123.5 million compared to \$117.6 million for the first six months of fiscal 2015. The increase in gross profit is primarily due to higher sales, partially offset by an increase in cost of sales per case of 2.2%. The increase in cost of sales per case was due to changes in product mix, which also resulted in a gross margin decline to 33.9%.

Selling, general & administrative expenses were \$74.1 million or 20.3% of net sales for the first six months of fiscal 2016 compared to \$75.6 million or 22.4% of net sales for the first six months of fiscal 2015. The decrease in expenses was primarily due to lower marketing costs.

Interest expense decreased to \$113,000 for the first six months of fiscal 2016, primarily due to a decline in average borrowings outstanding under credit facilities. Other income includes a \$1.3 million gain on sale of property in the first quarter of fiscal 2015.

The Company's effective income tax rate, based upon estimated annual income tax rates, was 34.2% for the first six months of fiscal 2016 and 34.0% for the first six months of fiscal 2015. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effect of state income taxes and the manufacturing deduction.

## **LIQUIDITY AND FINANCIAL CONDITION**

### **Liquidity and Capital Resources**

Our principal source of funds is cash generated from operations and borrowings available under our credit facilities. At October 31, 2015, we maintained \$100 million unsecured revolving credit facilities of which \$2.2 million was reserved for standby letters of credit. We believe that existing capital resources will be sufficient to meet our liquidity and capital requirements for the next twelve months.

### **Cash Flows**

The Company's cash position for the first six months of fiscal 2016 increased \$23.3 million from May 2, 2015, which compares to an increase of \$12.4 million for the first six months of fiscal 2015.

Net cash provided by operating activities for the first six months of fiscal 2016 amounted to \$37.2 million compared to \$31.2 million for the first six months of fiscal 2015. For the first six months of fiscal 2016, cash flow was principally provided by net income of \$32.4 million and depreciation and amortization aggregating \$6.1 million, offset in part by an increase in inventory.

Net cash used in investing activities for the first six months of fiscal 2016 reflects capital expenditures of \$4.4 million, compared to capital expenditures of \$4.6 million for the first six months of fiscal 2015. The first six months of fiscal 2015 includes proceeds of \$1.8 million from sale of property.

Net cash used in financing activities for the first six months of fiscal 2016 amounted to \$9.4 million, which included \$10 million in principal repayments under credit facilities. In the first six months of fiscal 2015, the Company

redeemed 120,000 shares of Series D Preferred for an aggregate price of \$6 million and repaid \$10 million in principal repayments under credit facilities.

### **Financial Position**

During the first six months of fiscal 2016, working capital increased \$21.9 million to \$123.3 million. The increase in working capital resulted primarily from higher cash and inventories, partially offset by lower receivables and higher accrued liabilities balances. Trade receivables decreased \$2.7 million and days sales outstanding improved from 33.1 days at May 2, 2015 to 29.2 days at October 31, 2015. Inventories increased approximately \$5.8 million as a result of the Company maintaining higher stock levels to support increases in sales and new product introductions. The current ratio was 2.8 to 1 at October 31, 2015 and 2.5 to 1 at May 2, 2015.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes in market risks from those reported in our Annual Report on Form 10-K for the fiscal year ended May 2, 2015.

### **ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our "disclosure controls and procedures" (as defined in Rule 13a-15(e) of the Exchange Act). Based upon that evaluation, the Chief Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective to ensure information required to be disclosed by us in reports we file or submit under the Exchange Act is (1) recorded, processed, summarized and reported within the time periods specified in SEC rules and (2) accumulated and communicated to our management, including our Chief Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

### **FORWARD-LOOKING STATEMENTS**

Certain statements in this Quarterly Report on Form 10-Q (the "Form 10-Q") constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, but are not limited to, the following: general economic and business conditions, pricing of competitive products, success in acquiring other beverage businesses, success of new product and flavor introductions, fluctuations in the costs of raw materials, our ability to increase selling prices, continued retailer support for our products, changes in consumer preferences, success of implementing business strategies, changes in business strategy or development plans, government regulations, regional weather conditions and other factors referenced in this Form 10-Q. For a further list and description of various risks, relevant factors and uncertainties that could cause future results or events to differ materially from those expressed or implied in our forward-looking statements, see the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections contained in our Annual Report on Form 10-K for the fiscal year ended May 2, 2015 and other filings with the Securities and Exchange Commission. We disclaim an obligation to update any such factors or to publicly announce the results of any revisions to any forward-looking

statements contained herein to reflect future events or developments.
