Item 3.02 Unregistered Sales of Equity Securities

On February 21, 2019, we closed a financing with GS Capital Partners, LLC for a 10% convertible note in the principal amount of \$110,000. After deducting \$4,500 of original issuance discount and \$5,500 of lender expenses, the financing provided \$100,000 of net proceeds to us. During the first 180 days after issuance, the holder of the note, at its option, may convert the unpaid principal balance of, and accrued interest on, the note into shares of common stock at a price of \$0.08 per share; thereafter, the conversion price will be a 40% discount from the lowest trading price during the 20 days prior to conversion. The Company may prepay the note at a 15% redemption premium during the first 60 days after issuance, increasing to 25% thereafter until 120 days from issuance and then to 35% until 180 days after issuance, after which the note may not be prepaid. The note also contains penalty provisions in the event of our default in repayment of the note (if not converted by the holder into shares of common stock) on the maturity date of February 20, 2020.

Any issuance of the shares upon conversion of the notes will be exempt from registration pursuant to the exemption provided by Section 4(2) of the Securities Act of 1933.
