Item 8.01. Other Events.

On August 10, 2017, American Water Capital Corp. (“AWCC”), a wholly owned subsidiary of American Water Works Company, Inc. (“American Water”), sold \$600.0 million aggregate principal amount of its 2.95% Senior Notes due 2027 (the “2027 Notes”) and \$750.0 million aggregate principal amount of its 3.75% Senior Notes due 2047 (the “2047 Notes”, and, together with the 2027 Notes, the “Notes”) pursuant to an Underwriting Agreement, dated August 7, 2017, among AWCC, American Water, and J.P. Morgan Securities LLC, U.S. Bancorp Investments, Inc. and Wells Fargo Securities, LLC, as representatives of the several underwriters named therein. The Notes have the benefit of a support agreement from American Water (the “Support Agreement”).

The Notes and the obligations of American Water represented by the Support Agreement were registered under the Securities Act of 1933, as amended, pursuant to a Registration Statement on Form S-3 (File Nos. 333-203949-01 and 333-203949). At the closing of the offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately \$1.3 billion. AWCC intends to use the net proceeds of the offering to lend funds to American Water and its regulated operating subsidiaries, and to (1) repay \$524 million principal amount of AWCC’s 6.085% Senior Notes due 2017 upon maturity on October 15, 2017, (2) prepay approximately \$138.4 million aggregate principal amount of AWCC’s outstanding 5.62% Series C Senior Notes due December 21, 2018 (the “Series C Notes”) and approximately \$181.4 million aggregate principal amount of AWCC’s outstanding 5.77% Series D Senior Notes due December 21, 2021 (the “Series D Notes”, and, together with the Series C Notes, the “Series Notes”), and (3) repay AWCC’s commercial paper obligations, and for general corporate purposes. After such prepayments, approximately \$441.7 million aggregate principal amount of Series Notes will remain outstanding.

The Notes were issued pursuant to the Indenture, dated December 4, 2009, by and between AWCC and Wells Fargo Bank, National Association, as trustee, as supplemented by officers’ certificates establishing the terms of the Notes.

AWCC intends to notify holders of the Series C Notes and the Series D Notes that AWCC will prepay approximately \$319.8 million aggregate principal amount of Series Notes outstanding on or about September 13, 2017 (the “Prepayment Date”) at a price equal to the sum of (i) 100% of the aggregate principal amount of the Series Notes to be prepaid plus (ii) a make-whole amount, which is currently estimated to be \$33 million in the aggregate, together with interest on such principal amount accrued to the Prepayment Date. As a result of AWCC’s prepayment of the Series Notes, American Water intends to record in the third quarter of 2017 a one-time debt extinguishment charge, which is currently estimated to be approximately \$7 million and is largely associated with the portion of such debt allocable to American Water. Substantially all of the debt extinguishment charges allocable to American Water’s utility subsidiaries are expected to be recorded as regulatory assets that American Water believes will be probable of recovery in future rates.

This Current Report on Form 8-K is being filed to report the closing of the offering summarized herein and the intended notification by AWCC of the prepayment of the Series Notes described above, and to include, as exhibits, certain documents executed in connection with the sale of the Notes.
