1.
The Group's business and general information

Cresud was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA, a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's directly principal subsidiary.

Cresud and its subsidiaries are collectively referred to hereinafter as the Group.

IFISA is the parent company and is a corporation established and domiciled in Uruguay, and IFIS Limited is the ultimate parent company.

These Financial Statements have been approved for issue by the Board of Directors on November 10, 2017.

As of September 30, 2017, the Group operates in two major lines of business: (i) agricultural business and (ii) urban properties and investments business, which is divided into two operations centers: (a) Operations Center in Argentina and (b) Operations Center in Israel. They are developed through several operating companies and the main ones are listed below:

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

Within the operations center in Israel and in relation with IDBD's financial position, its cash flow and its ability to meet its financial commitments, the following should be taken into consideration:

Since September 2016, after the sale of Adama and the increase in its subsidiaries' market value, IDBD considers that it is possible to obtain new financing or refinance its actual debts. In this regard, IDBD has recently successfully completed issuance of debentures, as mentioned in Note 22 to these Consolidated Financial Statements as of June 30, 2017. Additionally, it has made early repayments of its financial debt and has managed to renegotiate the related financial restrictions.

As mentioned in Note 7 to the Consolidated Financial Statements as of June 30, 2017, DIC declared dividends, out of which IDBD received approximately NIS 271 (approximately equivalent to Ps. 1,219), net of the exercise of warrants mentioned in Note 3.c. to the Consolidated Financial Statements as of June 30, 2017.

In February 2017, Standard & Poor's Maalot (S&P Maalot) upgraded the rating of IDBD debentures, from CCC to BB. Subsequently, in July 2017, S&P Maalot increased the rating again to BBB with stable outlook

As mentioned in Note 16 to the Consolidated Financial Statements as of June 30, 2017, IDBD sold part of its stake in Clal and signed a swap agreement for the future sale.

Given the reasons above described, IDBD considers that it has enough resources to continue operating for at least 12 months after the date of these Financial Statements.

It should be noted that the IDBD's Board of Directors has in place a cash flow forecast to June 30, 2019. This forecast presumes that IDBD will receive cash from the realization of private investments that are directly held by IDBD. As a result, IDBD expects to honor all its liabilities until the second quarter of 2019. Even though consummation of such plans does not depend entirely on factors under its control, IDBD believes it will succeed in finalizing these or other plans.

Based on the reasons described above, IDBD's management estimates that there are currently no significant uncertainties regarding its ability to operate as a going concern, given its current financial position and its ability to pay its financial commitments in time and in due form and its capacity to carry out its business plan.

Notwithstanding the foregoing, IDBD should pay financial liabilities for NIS 1,413 (approximately equivalent to Ps. 6,740 as of the closing date of these Financial Statements) in November 2019, that payment would be affected by factors that are out of control of IDBD, such as, its ability to carry out its plans to sell its equity interest in Clal considering the scheme determined by the "Capital Market, Insurance and Saving Commission of Israel" ("the Commissioner"), the requirements of the "Act to Promote Competition and Reduce Concentration" ("Concentration Act") and its ability to deal with the implications of the Concentration Act and to abide by the restrictions specified therein concerning the control of companies by means of a pyramidal structure (Note 7 to the Consolidated Financial Statements as of June 30, 2017), among others.

IDBD expects that the consideration from the sale of Clal pursuant to the Commissioner's scheme, namely the sale of 5% tranches payable every four months, to the extent it is implemented – to be low and even significantly low with respect to a block sale of its controlling interest in Clal. However, even if Clal's shares will continued to be sold in accordance to the scheme established by the Commissioner, IDBD's management considers that it would as well have additional sources of cash flows available to obtain funds to pay its commitments in November 2019. IDBD's management considers that it will be able to pay timely its commitments and continue with its operations.

It should be noted that the position of IDBD and its subsidiaries at the operations center in Israel does not affect the financial position of Cresud and subsidiaries at the operations center in Argentina.

In addition, the commitments and other covenants resulting from the loan granted to IDBD do not have impact on Cresud and IRSA since such indebtedness has no recourses against Cresud or IRSA and it is not secured by Cresud or IRSA's assets.

2.
Summary of significant accounting policies

2.1.
Basis of preparation of the Unaudited Financial Statements

The current Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2017, prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of CNV. Such information is included in notes to the Financial Statements according to IFRS.

These Financial Statements corresponding to the three-month periods ended as of September 30, 2017 and 2016 have not been audited. The management considers they include all necessary adjustments to fairly present the results of each period. Results for the three-month periods ended as of September 30, 2017 and 2016 do not necessarily reflect the proportion of the Group's full year results.

Under IAS 29 "Financial Reporting in Hyperinflationary Economies", the Financial Statements of an entity whose functional currency belongs to a hyperinflationary economy, regardless of whether they apply historic cost or current cost methods, should be stated at the current unit of measure as of the date of this Consolidated Financial Statements. For such purpose, in general, inflation is to be computed in non-monetary items from the acquisition or revaluation date, as applicable. In order to determine whether an economy is to be considered hyperinflationary, the standard lists a set of factors to be taken into account, including an accumulated inflation rate near or above 100% over a three year period.

For the Group's business in Argentina, considering the released inflation data, the declining inflation trend and in view that all other indicators do not lead to a final conclusion, the Board of Directors understands that there is no enough evidence to conclude that Argentina is a hyperinflationary economy. Therefore, no restatement has been applied on financial information, as set forth by IAS 29, for the reported periods. However, over the last years, certain macroeconomic variables, such as payroll costs and input prices, have experienced significant annual changes, which should be taken into consideration in assessing and interpreting the financial situation and results of operations of the Company in these Financial Statements.

The consolidated financial statements are presented in millions of Argentine Pesos. Unless otherwise stated or the context otherwise requires, references to 'Peso amounts' or 'Ps.', are in Argentine Pesos, references to 'US\$' or 'US Dollar' are in millions of United States dollars, references to 'Rs.' are in millions of Brazilian Reais and references to "NIS" are in millions of New Israeli Shekel.

2.2
Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements under IFRS as described in Note 2 to the Annual Financial Statements as of June 30, 2017, except for what is mentioned in Note 2.2.b).

2.2.a) Changes to financial statements previously issued due to change in accounting policies

As mentioned in Note 2 to the Consolidated Financial Statements as of June 30, 2017, during the fiscal year ended June 30, 2017 the Group's Board of Directors decided to change the accounting policy for investment property from cost model to fair value model, as permitted under IAS 40. Therefore, the previously issued Interim Financial Statements were retroactively changed as required by IAS 8.

The table below includes the reconciliation between the Statements of Income and of the Statements of Comprehensive Income / (operations) for the three-month period ended September 30, 2016 as they were originally issued, and the statements included in these Financial Statements for comparative purpose. There is no impact on the relevant total amounts in the Consolidated Statement of Cash Flows.

2.2.b) Changes in the presentation of financial statements previously issued due to change in accounting policies

Expenses relating to the agricultural activity include items as planting, harvesting, irrigation, agrochemicals, fertilizers, veterinary services and others. The Group chose not to continue to charge these costs to income as they are incurred; instead, it capitalized them as part of the cost of biological assets. The Group believes this change will help to better understand the performance of the agribusiness activity and therefore provides more relevant information to Management, users of the Financial Statements and others.

The Group has therefore retroactively changed the previously issued Consolidated Financial Statements as required by IAS 8. There is no impact on the total and subtotal amounts of the financial statements.

2.3

Use of estimates

The preparation of financial statements at a certain date requires the Management of the Group to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these Unaudited Financial Statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the annual financial statements for the year ended as of June 30, 2017, as described in Note 5 to those financial statements.

2.4

Comparability of information

Amounts as of June 30, 2017 and September 30, 2016 which are disclosed for comparative purposes have been taken from financial statements then ended, except for changes described in Notes 2.2.a) and 2.2.b).

3.

Seasonal effects on operations

Agricultural business

Some of the Group's businesses are more affected by seasonal effects than others. The operations of the Group's agricultural business are subject to seasonal effects. The harvests and sale of grains in Argentina generally take place each year since March in the case of corn and soybean, since October in the case of wheat, and since December in the case of sunflower. In Brazil, the harvest and sale of soybean take place since February, and in the case of corn weather conditions make it possible to have two seasons, therefore the harvest take place between March and July. In Bolivia, weather conditions also make it possible to have two soybean, corn and sorghum seasons and, therefore, these crops are harvested in July and May, whereas wheat is harvested in August and September, respectively. In the case of sugarcane, harvest and sale take place between April and November of each year. Other segments of the agricultural business, such as beef cattle and milk production tend to be more stable. However, beef cattle and milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results across quarters.

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

Urban properties and investments business

Operations Center in Argentina

The operations of the Group's shopping malls are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping malls experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also impact the business. As a consequence, for shopping mall operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period between January and June.

Operations Center in Israel

The operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) between March and April, and Rosh Hashaná (Jewish New Year), sometime between September and October each year.

The results of operations of Cellcom and IDBD Tourism are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4.

Acquisitions and disposals

Below are detailed the significant acquisitions and disposals for the three-month period ended September 30, 2017. The significant acquisitions and disposals for the fiscal year ended June 30, 2017, are detailed in Note 3 to the Annual Financial Statements

Sale of farmlands

On July 20, 2017, the Company executed a purchase-sale agreement for all of "La Esmeralda" establishment consisting of 9,352 hectares devoted to agricultural and cattle raising activities in the 9 de Julio district, Province of Santa Fe, Argentina. The total amount of the transaction was fixed at US\$ 19 (US\$/ha. 2,031), US\$ 4 (equivalent to Ps. 69) of which have already been paid. As for the remaining balance of US\$ 15, US\$ 3 will be collected upon execution of conveyance deed and deliver of possession in June 2018, with the remaining balance being secured with a mortgage on real property, payable in 4 equal installments, with maturity in April 2022; the balances will accrue interest at a rate of 4%.

Ispro

In August 2017, PBC's Board of Directors, decided to start a process to examine the potential sale of its interest in Ispro. In this respect, it has received several offers.

Agreement for New Pharm acquisition

As mentioned in Note 3.G to the Consolidated Financial Statements as of June 30, 2017, Shufersal entered into an agreement (the "agreement") for the purchase of the shares of New Pharm Drugstores Ltd. ("New Pharm"), representative of 100% of that Company's share capital. On September 6, 2017, the Antitrust Commission approved the merger between Shufersal and New Pharm subject to certain conditions. On September 28, 2017, the parties signed an Addendum to such agreement whereby they agreed to sell 9 New Pharm stores to a third party and one Shufersal store to another party. The proceeds from the sale of New Pharm stores will be collected by this company before the merger, thus changing the transaction price, albeit not significantly. The deadline for the execution of the sale agreement has been set on November 30, 2017 and the formalization execution date on December 31, 2017.

Tender offer of DIC

As mentioned in Note 7 to the Consolidated Financial Statements as of June 30, 2017, after June 30, 2017, Dolphin Netherlands B.V. made a non-binding tender offer for the acquisition of all DIC shares held by IDBD.

For purposes of the transaction, a committee of independent directors has been set up to assess the tender offer and negotiate the terms and conditions. In response to an inquiry, the Audit Committee has issued an opinion without reservations as to the transaction in accordance with the terms of section 72 et al. of the Capital Markets Act N° 26,831.

In September 2017, IDBD informed that the Company and Dolphin signed a letter of intent. The transaction's completion is dependent upon the execution of the definitive transaction documents (the "Definitive Documents") by the parties on or before November 16, 2017, as well as upon approval of the transaction by the parties' respective Boards of Directors and compliance with additional guarantees until December 10, 2017 (the "Transaction Closing Date"). The main items of the letter of intent are the following:

The buyer will acquire all of DIC shares held by IDBD at a stated price of NIS 16.6 per share (equal to approximately Ps. 80 per share as of the date of these Financial Statements).

The buyer will issue a promissory note, maturing five years from the effective transaction date which shall accrue interest at an annual rate of 5.5%. Until the promissory note is fully paid, any dividend payment made by DIC shall be paid through an Israeli bank and will be pledged in favor of the seller.

All DIC shares that are currently securing debt, shall continue to be collateral for that debt, and those shares that are currently unencumbered will be pledged to secure payment of the promissory note.

IDBD is currently analyzing the next steps to continue controlling its subsidiaries in 2019.

Tender offer for Clal

In July 2017, IDBD received a non-binding offer from an international group for the potential acquisition of its entire interest in Clal. For consideration that will be based on the equity value of Clal, in accordance with Clal Financial Statement at the time of specifying the transaction and is subject to the performance of a due diligence and the execution of an agreement, as well as getting the approvals required by law. IDBD is analyzing the offer. On June 30, 2017, this value amounted to NIS 4,880 (equivalent to approximately Ps. 23,278 as of the date of these Financial Statements). There is no certainty that the offer will go forward under the terms offered, or that the transaction will be completed.

5. Financial risk management and fair value estimates

These financial statements do not include all the information and disclosures of the risk management, so they should be read together with Note 4 to the Annual Financial Statements as of June 30, 2017. There have been no changes in the risk management or risk management policies applied by the Group since the fiscal year-end.

Since June 30, 2017, as of the date of these Financial Statements, there have been no significant changes in business or economic circumstances affecting the fair value of the Group's assets and liabilities (either measured at fair value or amortized cost). Neither have been transfers between the several tiers used in estimating the fair value of the Group's financial instruments.

Clal

As mentioned in Note 16 to the Annual Financial Statements, IDBD is subject to a judicial process on the sale of its equity interest in Clal. On August 30, 2017, IDBD sold an additional 5% of its equity interest in Clal through a swap transaction, based on the same principles that were applied to the swap transaction mentioned in Note 16 to the Consolidated Financial Statements as of June 30, 2017. The consideration for the transaction amounted to around NIS 152.5 (or approximately Ps. 762 on the transaction date). Following completion of the transaction, IDBD’s interest in Clal was reduced from 49.9% to 44.9% of its capital stock.

Urban properties and investment business of the operations center in Argentina

IRSA CP: On September 5, 2017 Class III and IV NCN were tendered under the Program approved for up to US\$ 500 for a nominal value of US\$ 140 to be matured 36 months after the issuing date, paid in and payable in US Dollars, which will accrue interest at an annual fixed interest rate of 5.0%, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 14, 2020. The settlement took place on September 12, 2017. The offering of Class III bonds was declared vacant.

Urban properties and investment business of the operations center in Israel

IDBD

In July 2017, IDBD made a public offering of approximately NIS 642.1 nominal value of corporate notes (Series N), the corporate notes accrue interest at a 5% annual rate. Taking into account the issue costs, the net consideration reflects an effective interest rate of 5.3% per year. Principal will be canceled in only one installment due on December 30, 2022 and interest will be payable on a quarterly basis. IDBD is entitled to redeem corporate notes, in whole or in part, through an early redemption in accordance with the provisions of the issue prospectus. To secure full compliance with all commitments, IDBD has pledged around 60.4 million of shares of DIC with a single first lien and in guarantee by means of the lien, in an unlimited amount, in favor of the trustee for the benefit of corporate note-holders.

DIC

On September 28, 2017 DIC offered the holders of NCN Series F to swap their notes for NCN Series J. NCN Series J terms and conditions differ substantially from those of Series F. Therefore, DIC recorded the payment of NCN Series F and recognized a new financial commitment at fair value for NCN Series J. As a result of the swap, DIC recorded a loss resulting from the difference between the NCN Series F cancellation value and the value of the new debt value in an amount of approximately NIS 461 (equal to approximately Ps. 2,228 as of that date), which was accounted for under "Financial costs" (Note 26).

The statutory tax rate in the countries where the Group operates for all of the periods presented are:

Tax jurisdiction	Income tax rate
Argentina	35%
Brazil	between 25% - 34%
Uruguay	between 0% - 25%

Bolivia	25%
United States	between 0% - 45%
Bermudas	0%
Israel	24% (i)

(i)

In December 2016, the Israeli government modified the income tax rate thus generating a reduction from the 25% to 24% for 2016 and 2017 calendar years, and to 23% for 2018 calendar year onwards. The change of interest rate for fiscal year 2016 became effective on December 29, 2016. The effect from the rate change is recorded as part of deferred tax expense.

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 – 23° floor
Autonomous City Buenos Aires
Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statement of financial position as of September 30, 2017 and the unaudited condensed interim consolidated statements of income and comprehensive income for the three-month period ended September 30, 2017, the unaudited condensed interim consolidated statements of changes in shareholders’ equity and the unaudited condensed interim consolidated statements of cash flows for the three-month period then ended and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2017 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and , for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements above mentioned in the first paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Report on compliance with current regulations

In accordance with current regulations, we report about Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria that:

- a) the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria are being processed for recording in the "Inventory and Balance Sheet Book", and comply, as regards those matters that are within our competence, with the provisions set forth in the Commercial Companies Law and in the corresponding resolutions of the National Securities Commission;
- b) the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria arise from accounting records carried in all formal respects in accordance with applicable legal provisions;
- c) we have read the Business Summary ("Reseña Informativa") on which, as regards those matters that are within our competence, we have no observations to make;

1.

General information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (“Cresud” or the “Company”) was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier’s shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

Cresud is a company organized and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on November 10, 2017.

2.

Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1.

Basis of preparation

These Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Company as of June 30, 2017, prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of CNV. Such information is included in notes to the Financial Statements, according to IFRS.

These Financial Statements corresponding to the three-month periods ended as of September 30, 2017 and 2016 have not been audited. The management considers they include all necessary adjustments to fairly present the results of each period. Results for the three-month periods ended as of September 30, 2017 and 2016 do not necessarily reflect proportionally the Company’s results for the complete fiscal years.

2.1.a) Changes to financial statements previously issued due to change in accounting policies

As mentioned in Note 2 to the Consolidated Financial Statements as of June 30, 2017, during the fiscal year ended June 30, 2017 the Company’s Board of Directors decided to change the accounting policy for investment property from cost model to fair value model, as permitted under IAS 40 "investment properties". The Company believes this change reflects better the current value of its core assets and therefore provides more relevant information to Management, users of financial statements and others.

Therefore, the previously issued Financial Statements were retroactively changed as required by IAS 8.

2.1.b) Changes in presentation of financial statements previously issued due to change in accounting policies

Expenses relating to the agricultural activity include items as planting, harvesting, irrigation, agrochemicals, fertilizers, veterinary services and others. The Company chose not to continue to charge these costs to income as they are incurred; instead, it capitalized them as part of the cost of biological assets. The Company believes this change will help to better understand the performance of the agribusiness activity and therefore provides more relevant information to Management, users of the Financial Statements and others.

Edgar Filing: CRESUD INC - Form 6-K

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

The Company has therefore retroactively changed the previously issued Consolidated Financial Statements as required by IAS 8. There is no impact on the total and subtotal amounts of the financial statements.

The tables below include reconciliations between the Statements of Comprehensive Income for the three-month period ended September 30, 2016 as they were originally issued, and these Financial Statements (recast). There is no impact on the relevant total amounts in the Statement of Cash Flows.

Explanation of the changes in the Separate Statement of Comprehensive Income and Other Comprehensive Income

- a)
It corresponds to changes in presentation of costs of production Note 2.1.b).
- b)
It corresponds to the re-measurement of management fees.
- c)
Changes in share of profit / (loss) in associates and joint ventures after applying the change to equity method valuation implemented by the Company.
- d)
It represents the tax impact of the changes in accounting policies.
- e)
It pertains to exchange differences in subsidiaries, associates and joint ventures following application of the same accounting policy implemented by the Company.

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

2.2.
Significant accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the Annual Financial Statements as of June 30, 2017, except for the changes mentioned in Note 2.1.a) and 2.1.b).

2.3.
Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Future results might differ from the estimates and evaluations made at the date of preparation of these Unaudited Condensed Interim Separate Financial Statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the significant judgments made by Management in applying the Company's accounting policies and the main sources of uncertainty were the same applied by the Company in the preparation of the Separate Financial Statements for the fiscal year ended June 30, 2017, except for changes in provisions for income tax, for legal claims and for doubtful accounts.

3.
Seasonal effects on operations

The operations of the Company are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between January and September every year. Wheat is generally harvested between November and February every year. However, milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results each quarter.

4.
Acquisitions and disposals

See summary of acquisitions and additional disposals of the Company for the three-month period ended September 30, 2017 in Note 4 to Unaudited Condensed Interim Consolidated Financial Statements.

5.
Financial risk management and fair value estimates

5.1.
Financial risk

The Company's activities are exposed to several financial risks, market risk (including exchange rate risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Separate Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the Annual Separate Financial Statements as of June 30, 2017. There have been no significant changes in the risk management or risk management policies applied by the Company since the fiscal year.

5.2.

Fair value estimates

Since June 30, 2017, to the balance sheet date, there have been no significant changes in business or economic circumstances affecting the fair value of the Company's financial assets, liabilities or biological assets (either measured at fair value or amortized cost). Nor there have been transfers between the several hierarchies used in estimating the fair value of the Company's financial instruments, or reclassifications among their respective categories.

Introduction

We have reviewed the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the unaudited condensed interim separate statement of financial position as of September 30, 2017, and the unaudited condensed interim separate statements of income and comprehensive income for the three-month period ended September 30, 2017, the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the three-month period then ended and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2017 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with the International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim separate financial statements above mentioned in the first paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and the separate statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

The Company's consolidated revenues increased 15.0% in the first quarter of fiscal year 2018 as compared to the same quarter of fiscal year 2017, whereas profit from operations, excluding the effect of the net gain from fair value adjustment on investment properties, reached ARS 2,074 million, 53.1% higher than in the same period of 2017.

Profit for the first quarter of fiscal year 2018 was ARS 28 million, compared to a profit of ARS 278 million in the same period of 2017, mainly due to the results of our subsidiary IRSA Inversiones y Representaciones S.A., which generated higher profits in its operations center in Argentina, offset by a non-monetary loss in its operations center in Israel. In September 2017, Discount Corporation ("DIC"), subsidiary of IDB Development Corporation ("IDBD"), made a partial debt swap, recognizing a loss equal to the difference between the repayment of an outstanding loan and the fair value of the new debt for an amount of approximately NIS 461 million (equivalent to ARS 2,228 million) recorded under Financial Results as financial costs.

Agricultural Business

Period Summary

The 2018 season is developing under a mild “El Niño” pattern in Argentina. To date, we have planted approximately 15% of the area planned to be sown during this season, and we expect to plant the largest part of our crops in the second quarter of this fiscal year.

As concerns sale of farms, in the first quarter of fiscal year 2018 we consummated the sale of “La Esmeralda” farm, located in Santa Fe, for USD 19 million. Gain from this transaction will be recorded in the fourth quarter of fiscal year 2018, upon execution of the title deed.

Our Portfolio

Our portfolio under management is composed of 764,556 hectares, of which 302,843 are in operation and 461,714 are land reserves distributed among the four countries in the region where we operate: Argentina, with a mixed model combining land development and agricultural production; Bolivia, with a productive model in Santa Cruz de la Sierra; and through our subsidiary BrasilAgro, Brazil and Paraguay, where the strategy is exclusively focused on the development of lands.

Segment Income – Agricultural Business

D) Land Development, Transformation and Sales

We periodically sell properties that have reached a considerable appraisal to reinvest in new farms with higher appreciation potential. We analyze the possibility of selling based on a number of factors, including the expected future yield of the farmland for continued agricultural and livestock exploitation, the availability of other investment opportunities and cyclical factors that have a bearing on the global values of farmlands.

During the first quarter of fiscal year 2018 we executed a preliminary agreement with an unrelated third party for the sale of the entire “La Esmeralda” farm, comprising 9,352 hectares intended for agriculture and cattle breeding, located in the District of Nueve de Julio, Province of Santa Fe, Argentina. The total transaction amount was USD 19 million (USD 2,031 per hectare) of which USD 4 million have been paid. The outstanding balance of USD 15 million will be collected as follows: USD 3 million upon execution of the title deed and surrender of possession in June 2018, and the balance (which is secured by a mortgage on the property) is payable in four equal instalments, the last one maturing in April 2022, accruing interest at 4% per annum over outstanding balances. The farm was booked at approximately ARS 52 million.

The gain from the sale of “La Esmeralda” will be booked in the fourth quarter of fiscal year 2018. In view of this, no results from disposition of farmlands were recorded in the first quarter of 2018, compared to a gain of ARS 73 million in the first quarter of 2017 resulting from the sale of “El Invierno” and “La Esperanza” farms, comprising 2,615 hectares intended for agriculture, located in the District of “Rancul”, Province of La Pampa.

Profit from operations	48	70	(31.4%)
Segment profit	48	70	(31.4%)

Profit from this segment decreased by ARS 22.9 million, from a profit of ARS 70.1 million for the first quarter of fiscal year 2017 down to a profit of ARS 47.2 million for the first quarter of fiscal year 2018. The lower gain from disposal of farmlands explained above was offset by a gain from fair value adjustment on investment properties of ARS 51.7 million derived from Brazil, reflecting approximately 1,400 additional hectares leased in the “Jatobá” farm as compared to June 2017.

(1) Includes Brasilagro, CRESCA at 50%, Acres del Sud, Ombú, Yatay and Yuchán. Excludes Agro-Uranga.

Profit the Crops business increased by ARS 170 million, from a loss of ARS 130 million during IQ17 to a profit of ARS 40 million in IQ18, mainly due to:

A positive variation of ARS 168.4 million in gross profit net of commercial expenses and commodity derivatives, mainly resulting from:

a positive variation of ARS 215.37 million, mostly originated in Argentina and followed by Brazil, reflecting the higher profit recorded in this period due to the rise in corn and soybean prices, compared to the loss posted in the previous period due to the pullback that had been observed in corn and soybean prices after the peak recorded at the end of June 2016, reflected in sale and holding results, offset by

lower production income of ARS 5.8 million, mostly originated in Bolivia, as production costs were higher than soybean prices on the one hand, and corn harvesting was delayed on the other, compared to a degree of progress of 14% in the previous period; and

a negative variation in results from commodity derivatives of ARS 39 million, mainly originated in soybean derivatives.

Sugarcane segment's profit increased by ARS 108.5 million, from ARS 9.9 million in IQ 2017 to ARS 118.4 million in IQ 2018. This was mainly due to:

a positive variation in revenues from sales net of commercial expenses of ARS 70.3 million, mainly due to higher prices and higher volumes sold in Brazil as a result of a higher output generated by the addition of 15,000 productive hectares under sharecropping agreements towards year-end; and

Edgar Filing: CRESUD INC - Form 6-K

an increase in production income of ARS 44.3 million, mainly derived from Brazil, as a result of a higher output due to a larger surface area and higher prices, partially offset by higher costs and lower yields, offset by

a loss of ARS 8 million derived from administrative expenses, mainly due to the positive variation of the exchange rate and a larger percentage of allocation of such expenses to the Brazilian segment.

(1) Includes AgroUranga, Brazil and Paraguay.

Edgar Filing: CRESUD INC - Form 6-K

The area of farms assigned to cattle production increased, mainly as a result of a larger number of hectares dedicated to this activity in Brazil (11,208 hectares) offset by fewer hectares of farmlands leased to third parties.

Revenues	20	12	66.7%
Costs	-	(2)	-
Gross profit	20	10	100.0%
Profit from operations	17	10	70.0%
Segment profit	17	10	70.0%

Profit from this segment for the first quarter of 2018 increased 70% as compared to the same period of the previous fiscal year, mainly due to an increase in leased hectares in Fazenda Jatobá and the addition of Fazenda Sao José in the first quarter of fiscal year 2018, boosted by the variation in the exchange rate.

III) Other Segments

Under “Others” we report the results from our Agro-industrial Activities and our investment in FyO.

The “Others” segment’s result was nil for the first three months of fiscal year 2018, mainly explained by lower losses from our agro-industrial business developed in our meat packing plant located in La Pampa, offset by the results posted by our subsidiary Futuros y Opciones (FyO). FyO, which is engaged in the trading of crops and sale of inputs, recorded a reduction of ARS 36.4 million in its profit due to lower revenues from consignment sales of ARS 39 million due to: (i) the strategic decision to increase holding balances and increase financial income; and (ii) sales agreed but not booked as of the period cut-off date. On the other hand, in our agro-industrial business we posted lower losses as a result of higher revenues underpinned by higher sales volumes, accompanied by a slight increase in prices and costs lagging behind the rise in revenues.

Urban Properties and Investments Business (through our subsidiary IRSA Inversiones y Representaciones Sociedad Anónima)

We develop our Urban Properties and Investments segment through our subsidiary IRSA. As of September 30, 2017, our direct and indirect equity interest in IRSA was 63.38% over stock capital.

Consolidated Results of our Subsidiary IRSA Inversiones y Representaciones S.A.

The following information has been extracted from the financial statements of our controlled company IRSA as of September 30, 2017:

Consolidated revenues from sales, leases and services increased by 13.6% in the first quarter of fiscal year 2018 as compared to the same quarter of fiscal year 2017, whereas adjusted EBITDA, which excludes the effect of the net gain from fair value adjustment of investment properties, reached ARS 3,215 million, 28.4% higher than in the same quarter of 2017.

Operations Center in Argentina

IRSA is one of Argentina's leading real estate companies in terms of total assets. IRSA is engaged, directly or indirectly through subsidiaries and joint ventures, in a range of diversified real estate related activities in Argentina and abroad, including:

The acquisition, development and operation of shopping malls and offices, through its interest of 94.61% in IRSA Propiedades Comerciales S.A., one of Argentina's leading operators of commercial real estate with a controlling interest in 16 shopping malls and 7 office buildings totaling 424,452 sqm of Gross Leaseable Area (339,080 in shopping malls and 85,378 in offices).

The acquisition and development of residential properties and the acquisition of undeveloped land reserves for future development or sale.

The acquisition and operation of luxury hotels.

Selective investments outside Argentina.

Financial investments, including IRSA's current 29.91% equity interest in Banco Hipotecario, which is one of the leading financial institutions in Argentina.

International investments, including a 49% interest in the Lipstick Building in New York and 28.5% of the voting rights in the Condor Hospitality Trust hotel REIT (NASDAQ: CDOR).

Shopping Malls

During the first three months of fiscal year 2018, our tenants' sales reached ARS 9,777.7 million, 22.5% higher than in the same period of 2017. Our portfolio's leasable area totaled 339,080 square meters during the quarter under review, whereas the occupancy rate stood at optimum levels of 98.8%, reflecting the quality of our portfolio.

Revenues from this segment grew 24.6% during this three-month period, whereas adjusted EBITDA, which excludes the impact of the net gain from fair value adjustment of investment properties, reached ARS 648.4 million (+ 26.3% compared to the same period of 2017). The EBITDA margin was 76.3%, 1.1 pp higher than the figure recorded in the previous fiscal year.

Offices

During the first three months of fiscal year 2018, revenues from the offices segment increased 20.8% as compared to the same period of 2017, whereas Adjusted EBITDA from this segment reached ARS 104 million, 35.1% higher than in the previous year, mainly due to higher revenues resulting from the depreciation of the Peso vis-à-vis the US dollar during the period, and lower loan loss charges, which offset the smaller leaseable area. Rental prices in USD per sqm increased, reaching USD 26.8 per sqm. The EBITDA margin from the offices segment reached 85.2%, much higher than the 76.2% recorded in the first quarter of 2017.

Operations Center in Israel

As of September 30, 2017, IRSA's indirect equity interest reached 68.3% of IDBD's stock capital.

Below is comparative segment information on our operations center in Israel for the period from April 1 to June 30 of both fiscal years.

Real Estate (Property & Building - PBC) - ARS MM	IQ 18	IQ 17	YoY Var
Revenues		997	1.049 (5.0%)
Net gain from fair value adjustment of investment properties		922	336 174.4%
Profit from operations	1.582	892	77.4%
Depreciation and amortization	9	7	28.6%
EBITDA	1.590	899	76.9%
Adjusted EBITDA	668	582	14.9%

The Real Estate segment recorded a reduction in revenues in IQ18 as compared to the same quarter of fiscal year 2017, mainly as a result of fewer apartments available for sale, offset by higher revenues from leases of projects completed in 2017, and higher rental prices. Adjusted EBITDA for IQ18 reached ARS 668 million, 14.9% higher than in the same quarter of 2017.

Supermarkets (Shufersal) - \$ MM	IQ 18	IQ 17	YoY Var
Revenues	13,182	11,467	15.0%
Profit from operations	489	385	27.0%
Depreciation and amortization	373	302	23.5%

Edgar Filing: CRESUD INC - Form 6-K

EBITDA 861 687 25.3%

The Supermarkets segment recorded a 15% increase in revenues and a 25.3% increase in EBITDA in IQ18 as compared to the same quarter of 2017. The higher results are explained by the depreciation of the peso during this period and higher sales due to the Passover holidays, boosted by various special offerings.

Telecommunications (Cellcom) - \$ MM	IQ 18	IQ 17	YoY Var
Revenues	4,226	3,841	10.0%
Profit from operations	172	63	173.0%
Depreciation and amortization	830	780	6.4%
EBITDA	1,002	843	18.9%

The Telecommunications segment saw a 10% increase in revenues due to the effect of the devaluation of the Argentine currency. In Israeli currency terms, revenues fell slightly in IQ18 as compared to IQ17 as a result of a 15.2% drop in revenues from the cell phone segment, offset by a 10.6% increase in revenues from the fixed line segment. Profit from operations rose 173%, reaching ARS 172 million. of which ARS 145 million derive from the sale of Rimon, one of Cellcom's subsidiaries.

As concerns "Clal", the Group values its interest in this insurance company as a financial asset at fair value. The variation in the listing price of Clal's shares during the period resulted in a gain of ARS 92 million.

Net Financial Debt (USD million)

Description	Amount
IDBD	783
DIC	769

On September 28, 2017, DIC made a partial swap offer to the holders of series F NCN, proposing them to exchange such bonds for series J NCN. Series J has substantially different terms from those applicable to series F; therefore, a payment for series F was booked, and a new financial commitment at fair value was recorded in respect of series J. In addition, the previous debt (series F) had been recorded as of October 11, 2015 (IDBD's consolidation date) at its listing value as of such date with a discount over par. As a result of this swap, DIC recorded a loss equal to the difference between the amount repaid and the amount of the new debt, for approximately NIS 461 million (equivalent to approximately ARS 2,228 million as of such date) which was included under "Financial costs".

October 2017: General Ordinary and Extraordinary Shareholders' Meeting

On October 31, 2017, the Company's General Ordinary and Extraordinary Shareholders' Meeting was held, and the following resolutions were adopted by majority vote:

— Distribution of cash dividend for ARS 395 million.

— Fees payable to the Board of Directors and Supervisory Committee for fiscal year 2017 ended June 30, 2017.

— Renewal of appointment of regular and alternate directors due to expiration of their terms and appointment of new alternate director.

— Increase in the USD 300 million Global Non-Convertible Notes Program by an additional amount of up to USD 200 million.

November 2017: Sale of Interest in FyO

On November 9 past, we sold to an unrelated third party 154,929 shares in our controlled company Futuros y Opciones.com S.A. (FyO), representing 9.493% of its stock capital, for an amount of USD 3.04 million, which was fully collected.

As a result of this sale, the Company reduced its equity interest in FyO from 59.6% to 50.1% of its stock capital.

Gain from this transaction amounts to approximately ARS 42.6 million, and it will be recorded in the Company's financial statements for the second quarter of fiscal year 2018.

Prospects for the next fiscal year

The 2018 crop season has been developing under the “El Niño” pattern in Argentina, with above-average rainfall rates. We expect results to be in line with those observed in 2017, with good production levels, average yields and constrained costs. As concerns our cattle business, we will continue to focus our production in our own farms, mainly in the northwestern region of Argentina, by controlling costs and expecting livestock prices to keep on rising. In the case of our “El Tigre” dairy facility, where we have consolidated all our milk production, we are following our strategy consisting in the selective sale of milking cows and keeping the more productive herd.

As concerns sales and development of lands, we hope to reach higher gains from the disposal of farmlands during this fiscal year. Only at the start of this fiscal year, we executed a preliminary sale agreement for the entire “La Esmeralda” farm, comprising 9,352 hectares intended for agriculture and cattle raising, located in the District of Nueve de Julio, Province of Santa Fe, Argentina, for USD 19 million (USD 2,031 per hectare). The gain will be recorded at the closing of the next fiscal year, as the execution of the title deed and surrender of possession are expected to take place in June 2018.

In connection with our meat packing plant, which we hold through our interest in Carnes Pampeanas, we trust that there will be a significant rebound in this business, prompted by the measures adopted by the new government, which point to increasing future cattle supply and promoting exports. Besides, we expect that the works currently underway, aimed at producing and exporting Kosher salted cuts to Israel, will significantly improve this business’ profitability equation.

Looking ahead to 2018, we expect to be able to secure the consents required for increasing the acreage under development, as we hold extensive land reserves in the region suitable for agricultural and/or livestock production, while we will continue selling farms that have reached their highest appreciation level. Moreover, we hope that the real estate businesses from our subsidiary IRSA will continue to be as solid as in this fiscal year in its two operations centers: Argentina and Israel.

We believe that companies such as Cresud, with a track record going back so many years and vast industry knowledge will have outstanding possibilities of taking advantage of the best opportunities arising in the market, much more so considering that our main task is to produce food for a growing and demanding world population.
