NOTES TO SCHEDULES OF INVESTMENTS (Unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

Adams Natural Resources Fund, Inc. (the "Fund") is registered under the Investment Company Act of 1940 as a non-diversified investment company. The Fund is an internally-managed closed-end fund specializing in energy and other natural resources stocks. The investment objectives of the Fund are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

Investment Transactions - The Fund's investment decisions are made by the portfolio management team with recommendations from the research staff. The Fund is subject to changes in the value of equity securities held in the normal course of pursuing its investment objectives. Investment transactions are accounted for on the trade date.

Valuation - The Fund's financial instruments are reported at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding money market funds) are valued at amortized cost, which approximates fair value. Money market funds are valued at net asset value.

GAAP establishes the following fair value hierarchy that categorizes inputs used to measure fair value:

- **Level 1** -- fair value is determined based on market data obtained from independent sources, for example, quoted prices in active markets for identical investments,
- **Level 2** -- fair value is determined using other assumptions obtained from independent sources, for example, quoted prices for similar investments,
- **Level 3** -- fair value is determined using the Fund's own assumptions, developed based on the best information available in the circumstances.

At September 30, 2015, the Fund's financial instruments were classified as follows:

| | Level 1 | Level 2 | Level 3 | Total |
|-------------------------------|---------------|---------|---------|---------------|
| Assets: | | | | |
| Common stocks | \$581,772,757 | \$-- | \$-- | \$581,772,757 |
| Short-term investments | 9,388,891 | -- | -- | 9,388,891 |
| Securities lending collateral | 3,005,800 | -- | -- | 3,005,800 |
| Total investments | \$594,167,448 | \$-- | \$-- | \$594,167,448 |

There were no transfers between levels during the nine months ended September 30, 2015.

2. FEDERAL INCOME TAXES

As of September 30, 2015, the identified cost of securities for federal income tax purposes was \$468,077,869 and net unrealized appreciation aggregated \$126,089,579, consisting of gross unrealized appreciation of \$195,303,811 and gross unrealized depreciation of \$69,214,232.

3. PORTFOLIO SECURITIES LOANED

The Fund makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Fund on the next business day. Cash deposits are placed in a registered money market fund. The Fund accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Fund also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Fund. At September 30, 2015, the Fund had securities on loan of \$3,147,502 and held cash collateral of \$3,005,800; additional collateral was delivered the next business day in accordance with the procedure described above. The Fund is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.
