Item 12. Results of Operations and Financial Condition.

On July 21, 2003, we announced our financial results for the fiscal quarter ended June 29, 2003, and certain other information. The press release, which has been attached as Exhibit 99, discloses a financial measure, Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA"), that is considered a non-GAAP financial measure as defined under SEC rules. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. In order to fully assess our financial operating results, management believes that EBITDA is an appropriate measure of evaluating our operating performance, because it reflects the resources available for strategic opportunities including, among others, to invest in the business, strengthen the balance sheet and make strategic acquisitions. However, this measure should be considered in addition to, and not as a substitute for, or superior to, net income or other measures of financial performance prepared in accordance with generally accepted accounting principles as more fully discussed in our financial statements and filings with the SEC. The EBITDA measures included in our press release have been reconciled to the nearest GAAP measures as is now required under new SEC rules regarding the use of non-GAAP financial measures.

As used herein, "GAAP" refers to accounting principles generally accepted in the United States
