MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

DECEMBER 31, 2009

NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation and its wholly-owned subsidiaries, MRC I LLC, MREIC Financial, Inc., and Monmouth Capital Corporation (MREIC, the Company or we) operate as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. In addition, the Company owns a majority interest in three limited liability companies of which the Company consolidates their results of operations and financial condition. The Company also owns a portfolio of investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2009 are not necessarily indicative of the results that may be expected for the year ended September 30, 2010. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2009.

Certain amounts in the consolidated financial statements for the prior periods presented have been reclassified to conform to the financial statement presentation for the current year.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the periods then ended. Actual results could differ

significantly from these estimates and assumptions.

Employee Stock Options

The Company accounts for stock options in accordance with ASC 718-10 which requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. Compensation costs of \$-0- and \$28,188 have been recognized in the three months ended December 31, 2009 and 2008, respectively.

On July 26, 2007, the shareholders approved and ratified the Company's 2007 Stock Option Plan (the 2007 Plan) authorizing the grant to officers and key employees of options to purchase up to 1,500,000 shares of common stock.

During the three months ended December 31, 2009, one participant exercised options to purchase 32,750 shares of common stock at an exercise price of \$5.04. As of December 31, 2009, there were options to purchase 1,511,800 shares outstanding under the 2007 plan. Options to purchase 1,042,620 shares were available to grant as of December 31, 2009.

Subsequent Events

Material subsequent events have been evaluated through February 5, 2010 and are disclosed in the accompanying consolidated financial statements.

Recent Accounting Pronouncements

ASC 805-10, Business Combinations and ASC 810-10, Consolidation, require most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value and require noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. The provisions of ASC 805-10 and ASC 810-10 are effective for this fiscal year beginning October 1, 2009. ASC 805-10 will be applied to business combinations occurring after October 1, 2009 and ASC 810-10 will be applied prospectively to all changes in noncontrolling interests, including any that existed at the effective date. The adoption of ASC 805-10 on October 1, 2009 for future business combinations resulted in the recognition of \$205,573 in professional fees and other acquisition expenses in our results of operations. These expenses would have been capitalized previously, pursuant to previous accounting standards. The Company adopted ASC 810-10 on October 1, 2009 and changed the presentation of the minority interest on the financial statements. The noncontrolling interest is now reported separately within the shareholders' equity section of the consolidated balance sheet.

NOTE 2 NET INCOME (LOSS) APPLICABLE TO MREIC COMMON SHAREHOLDERS PER SHARE

Basic net income (loss) per common share is calculated by dividing net income (loss) applicable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per common share is calculated by dividing net income (loss) applicable to common shareholders plus interest expense related to the Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period.

The following amounts related to the potential conversion of the Debentures are excluded from the calculation due to their antidilutive effect:

Three Months Ended

	<u>12/31/09</u>	<u>12/31/08</u>
Interest expense	\$279,800	\$279,800
Common shares to be issued upon conversion	1,304,148	1,304,148

Options to purchase common shares in the amount of 1,202 and 8,512 are included in the diluted weighted average shares outstanding for the three months ended December 31, 2009 and 2008, respectively. As of December 31, 2009 and 2008, options to purchase 154,987 and 207,702 shares, respectively, were antidilutive.

NOTE 8 - FAIR VALUE MEASUREMENTS

The Company measures certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of these financial assets was determined using the following inputs at December 31, 2009:

Fair Value Measurements at Reporting Date Using

Total	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
-------	--	---	--

(Level 1)

Securities available for sale	\$26,740,087	\$26,740,087	\$-0-	\$-0-
Real estate held for sale	2,724,261	-0-	2,724,261	-0-

The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate mortgage notes payable and loans payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. At December 31, 2009, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate mortgage notes payable amounted to \$202,731,191 and \$204,461,274, respectively. As of December 31, 2009, the real estate held for sale is recorded at estimated fair value.

NOTE 9 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the three months ended December 31, 2009 and 2008 was \$4,020,922 and \$3,957,728, respectively.

During the three months ended December 31, 2009 and 2008, the Company had dividend reinvestments of \$1,162,416 and \$1,090,383, respectively, which required no cash transfers.

NOTE 12 CONTINGENCIES AND COMMITMENTS

From time to time, the Company can be subject to claims and litigation arising in the ordinary course of business. Management does not believe that any such claim or litigation would have a material adverse effect on the consolidated balance sheet or results of operations.

The purchase price was \$17,900,000. The Company obtained a mortgage of \$11,700,000 at a fixed interest rate of 6.75% which matures in January 2025 and paid the remainder using a draw on the margin loan.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's September 30, 2009 Annual Report on Form 10-K.

The Company is a REIT. The Company's primary business is the ownership and management of industrial buildings subject to long-term leases to investment-grade tenants. During the three months ended December 31, 2009, the Company purchased two net-leased industrial properties, located in Memphis, Tennessee and Houston, Texas, totaling approximately 540,000 square feet, for approximately \$22,700,000. As of December 31, 2009, the Company owned

sixty industrial properties and one shopping center with total square footage of approximately 6,674,000. Total real estate investments were approximately \$366,514,000 as of December 31, 2009. These properties are located in twenty-five states. As of December 31, 2009, the Company's weighted average lease expiration term was approximately 5.3 years and the percent of square footage leased was 96% and percentage of square feet occupied was 94%. The Company's average rent per occupied square foot for fiscal 2010 is approximately \$5.70.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Income from property operations defined as rental and reimbursement revenue less real estate taxes and operating expenses increased \$302,673 or 4% for the three months ended December 31, 2009 as compared to the three months ended December 31, 2008. The income from the Company's property operations continues to meet management's expectations.

The Company has a concentration of Federal Express Corporation (FDX) and FDX subsidiary-leased properties. As of December 31, 2009, the percentage of FDX-leased square footage as a total of the Company's rental space was 49%. Annualized rental income and occupancy charges from FDX and FDX subsidiaries are estimated at approximately 56% of total rental and reimbursement revenue for fiscal 2010. This is a risk shareholders should consider.

The Company also holds a portfolio of securities of other REITs with a fair value of \$26,740,087 as of December 31, 2009, which earns dividend and interest income. The dividends received from our securities investments, which are predominately REIT preferred issues, continue to meet our expectations. It is our intent to hold these securities long-term. The Company invests in REIT securities on margin from

time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found.

See PART I, Item 1 Business in the Company's September 30, 2009 Annual Report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Changes in Results of Operations

As of December 31, 2009, the Company owned sixty-one properties with total square footage of approximately 6,674,000 as compared to fifty-eight properties with total square footage of approximately 6,070,000 as of December 31, 2008. As of December 31, 2009, the Company's weighted average lease expiration term was approximately 5.3 years. The Company's occupancy rate was 94% as of December 31, 2009 and 2008.

Rental and reimbursement revenue increased \$407,005 or 4% for the three months ended December 31, 2009 as compared to the three months ended December 31, 2008. The net increase is due mainly to the following:

-

Increases in rent and reimbursement revenue from the Topeka, KS property purchased at the end of fiscal 2009 and Memphis, TN and Houston, TX properties purchased in the first quarter of fiscal 2010 totaling approximately \$353,000.

-

Increased rent and reimbursements from the leasing of the formerly vacant property in Jackson, MS totaling approximately \$32,000.

-

Increased rent from the properties in Cheektowaga, NY and Griffin, GA, which were expanded in fiscal 2009, totaling approximately \$88,000.

-

Increases in reimbursements of other real estate taxes totaling approximately \$157,000 related to certain properties which the real estate taxes increased in fiscal 2009.

-

Decreases in rent and reimbursements totaling approximately \$223,000 from our two vacant properties in Greensboro, NC and Liberty, MO.

Real estate taxes increased \$70,596 or 5% for the three months ended December 31, 2009 as compared to the three months ended December 31, 2008. The net increase is due mainly to the real estate taxes related to the acquisition of the two industrial properties in fiscal 2010 and one in fiscal 2009 and increases in real estate taxes due to higher assessed values from the five properties expanded during fiscal 2008. Since the majority of our properties are net-leased, the increase in real estate taxes is recovered from the tenants.

Operating expenses increased \$33,736 or 9% for the three months ended December 31, 2009 as compared to the three months ended December 31, 2008. The increase is due mainly to an increase in operating expenses related to the acquisitions noted above and increases in repairs and maintenance and utilities related to our two vacant buildings.

General and administrative expense increased \$254,623 or 39% for the three months ended December 31, 2009 as compared to the three months ended December 31, 2008. The increase is due mainly to an increase in professional fees and other acquisition costs of \$205,573 related to the acquisition of the Memphis, TN and Houston, TX properties which would have been capitalized under previous accounting standards.

The following table summarizes the Company's gain (loss) on securities transactions for the three months ended December 31, 2009 and 2008:

	Three Months Ended	
	12/31/09	12/31/08

Impairment losses	-0-	(3,245,122)
Gain (Loss) on securities transactions, net	\$329,238	\$3,245,198)

During the three months ended December 31, 2009 and 2008, the Company recognized a loss of \$-0- and \$3,245,122, respectively, due to writing down of the carrying value of securities which were considered other than temporarily impaired. As of December 31, 2009, the Company had an unrealized gain on its securities portfolio of \$4,188,420.

Income from discontinued operations for the three months ended December 31, 2009 and 2008 includes the results of operations of the Quakertown, Pennsylvania property which was classified as held for sale as of December 31, 2009.

The following table summarizes the components of discontinued operations:

Changes in Financial Condition

The Company generated net cash from operating activities of \$4,229,079 and \$4,941,967 for the three months ended December 31, 2009 and 2008, respectively.

Real estate investments increased \$20,633,714 from September 30, 2009 to December 31, 2009. This increase is due mainly to the purchase of the industrial properties in Memphis, TN and Houston, TX totaling \$22,650,000.

Securities available for sale decreased \$1,084,578 from September 30, 2009 to December 31, 2009. The decrease is due mainly to the sales and redemptions of securities with an adjusted cost of \$3,237,871. These decreases were offset by purchases of securities of \$1,761,704 and an increase in the fair value of securities by \$391,589.

Tenant and Other Receivables increased \$313,584 from September 30, 2009 to December 31, 2009. The increase is due mainly to the accrual of real estate tax and other reimbursements from the tenants.

Mortgage notes payable increased \$12,410,991 from September 30, 2009 to December 31, 2009. This increase is due to new mortgage proceeds of \$15,400,000 from the financing of the Memphis, TN (\$10,000,000 at 6.25%) and Houston, TX (\$5,400,000 at 6.875%) property acquisitions. This increase was offset by principal repayments of \$2,989,009 for the three months ended December 31, 2009. The Company is scheduled to repay a total of approximately \$13,000,000 in mortgage principal in fiscal 2010.

Loans payable decreased \$2,397,234 from September 30, 2009 to December 31, 2009. The decrease was due to repayments on the margin loans from available cash. As of December 31, 2009, the Company had an outstanding balance of \$15,000,000 on its line of credit and \$1,666,516 outstanding on its margin loans.

On October 20, 2009, the Company issued 1,730,200 shares of common stock in a registered direct placement at \$6.50 per share. The Company received net proceeds from the offering of approximately \$10,430,000 after offering costs. The Company used the net proceeds to purchase two industrial properties in the ordinary course of business and for general corporate purposes.

The Company raised \$4,098,672 (including reinvestments of \$1,162,416) from the issuance of shares in the Dividend Reinvestment and Stock Purchase Plan (DRIP) during the three months ended December 31, 2009 and issued 603,953 common shares. During the three months ended December 31, 2009, the Company paid \$4,173,791 in total dividends

or \$.15 per common share to common shareholders, of which \$1,162,416 was reinvested in the DRIP. On January 13, 2010, the Company declared a dividend of \$0.15 per common share to be paid on March 15, 2010 to common shareholders of record as of February 16, 2010.

During the three months ended December 31, 2009, one employee exercised options to purchase 32,750 shares of common stock at an exercise price of \$5.04. Total proceeds to the Company were \$165,060.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its margin loans, refinance debt, or raise capital through the DRIP or capital markets.

Liquidity and Capital Resources

Net cash provided by operating activities was \$4,229,079 and \$4,941,967 for the three months ended December 31, 2009 and 2008, respectively. The decrease in cash provided by operating activities is due to a decrease in prepaid rents and an increase in tenant and other receivables. Dividends paid on common stock for the three months ended December 31, 2009 and 2008 were \$4,173,791 and \$3,687,878, respectively (of which \$1,162,416 and \$1,090,383, respectively, were reinvested).

As of December 31, 2009, the Company owned securities available for sale of \$26,740,087 subject to margin loans of \$1,666,516. These marketable securities provide the Company with additional liquidity. As of December 31, 2009, the Company had an unrealized gain on its portfolio of \$4,188,420. The dividends received from our investments, which are predominately REIT preferred issues, continue to meet our expectations.

As of December 31, 2009, the Company owned sixty-one properties, of which fifty-two carried mortgage loans totaling \$204,461,274. The unencumbered properties could be refinanced to raise additional funds, although covenants in the Company's line of credit limit the amount of unencumbered properties which can be mortgaged. The Company has fully drawn its \$15,000,000 line of credit as of December 31, 2009. The Company's total debt plus preferred equity to total market capitalization was 56% as of December 31, 2009. The Company has been raising capital through its DRIP, private placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations and the DRIP, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings leased to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FDX and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary leased properties. The percentage of FDX-leased square footage to the total of the Company's rental space was 49% as of December 31, 2009. Annualized rental and reimbursement revenue from FDX and FDX subsidiaries is estimated at approximately 56% of total rental and reimbursement revenue for fiscal 2010. FDX is a publicly-owned corporation and information on its financial business operations is readily available to the Company's shareholders.

The Company intends to acquire additional net-leased industrial properties on long-term leases to investment grade tenants or expand its current properties when needed. The Company has historically financed purchases of real estate and expansions primarily through mortgages. To the extent that funds or appropriate properties are not available, fewer acquisitions or expansions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from operations (FFO) is defined as net income, excluding gains or losses from sales of depreciable assets, plus real estate-related depreciation and amortization. FFO should be considered as a supplemental measure of operating performance used by REITs. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an

alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three months ended December 31, 2009 and 2008 is calculated as follows:

	Three Months Ended	
	12/31/09	12/31/08
Net Income (Loss) attributable to MREIC shareholders	\$2,474,274	(\$994,040)

Amortization of In-Place Lease Intangible Assets	253,925	308,919

The following are the cash flows provided (used) by operating, investing and financing activities for the three months ended December 31, 2009 and 2008:

	Three Months Ended	
	2009	2008
Operating Activities	\$4,229,079	\$4,941,967
