QUESTAR NET INCOME GROWS 36% IN 2006**Company Lowers 2007 Earnings Guidance, Raises Production Estimate**

SALT LAKE CITY Questar Corp. (NYSE:STR) – a natural gas-focused energy company – grew net income 36% in 2006 to \$444.1 million, or \$5.07 per diluted share, compared to \$325.7 million, or \$3.74 per diluted share, for the prior year. The increase was driven by higher natural gas production and higher realized prices for natural gas, oil and natural gas liquids (NGL) in the company's exploration and production businesses. The 2006 result included a \$15.8 million, or \$0.18 per diluted share, net after-tax gain from the sale of non-core assets. 2005 results included a fourth-quarter \$10.4 million, or \$0.12 per diluted share, after-tax impairment of a pipeline investment.

For the fourth quarter of 2006, Questar net income was \$121.5 million, or \$1.39 per diluted share, compared to \$104.0 million, or \$1.19 per diluted share, for the 2005 period, a 17% increase.

All Questar business units posted record net income in 2006 with higher returns on invested capital, the primary long-term value driver in our business, said Keith Rattie, Questar chairman, president and CEO. From the Rockies to the Midcontinent, in the office and in the field, the execution by our people was superb.

2006 Highlights

-

Questar E&P grew natural gas, oil and NGL production to 129.6 billion cubic feet of natural gas equivalent (Bcfe) compared to 114.2 Bcfe in 2005. Natural gas comprised 88% of reported volumes during the year.

-

Questar E&P replaced 217% of 2006 production and grew proved reserves to 1,631 Bcfe at year-end 2006, compared to 1,480 Bcfe at year-end 2005, a 10% increase.

•

Realized natural gas prices at Questar E&P rose 16% and realized crude oil and NGL prices rose 18%. Natural gas hedges, including NYMEX/Rockies basis swaps, increased reported revenues by \$53.7 million, while oil hedges reduced revenues by \$19.6 million.

•

Net mark-to-market losses on NYMEX/Rockies basis swaps reduced net income \$1.2 million.

•

Market Resources sold non-core properties, primarily in western Colorado, and recognized net after-tax gains totaling \$15.8 million, or \$0.18 per diluted share.

•

Questar E&P recorded an after-tax charge of \$16.5 million related to unsuccessful exploratory wells.

•

Wexpro's investment base grew 26% to \$260.6 million at December 31, 2006, compared to \$206.3 million a year earlier. Wexpro produced 40.9 Bcfe on behalf of affiliate Questar Gas. Wexpro net income also benefited from 15% higher realized oil and NGL prices.

•

Gas-processing volumes increased 59% to 120 million MMBtu compared to 75 million MMBtu a year earlier. Gross gas-processing margin increased 72% to \$41.7 million. Gas-gathering margins rose 9% over 2005, driven by 7% higher throughput and higher average fees.

•

Questar Pipeline net income was driven by new transportation revenues from its southern system in central Utah and on Overthrust Pipeline in southwestern Wyoming, and by higher NGL prices. The 2005 period included a \$10.4 million after-tax asset impairment for the California segment of the company's Southern Trails Pipeline in the fourth quarter of 2005. Excluding this charge from the year-ago period, Questar Pipeline net income grew 22% in 2006.

•

Questar Gas 2006 net income increased 3% over a year ago, driven primarily by a 3.2% increase in customers.

•

Questar earned a 16.4% return on assets (ROA defined as earnings before interest and income taxes divided by average total assets) for the 12-month period ended December 31, 2006. Market Resources ROA was 20.3%, Questar Pipeline ROA was 11.4%, and Questar Gas ROA was 7.5%.

Questar Lowers 2007 Earnings Guidance, Raises Production Estimate

Questar expects 2007 earnings to range from \$5.15 to \$5.35 per diluted share, compared to previous guidance of \$5.20 to \$5.50 per diluted share. The change is primarily due to significantly lower than forecast realized prices for natural gas and oil-equivalent production in January and February this year. The lower end of the estimate is based on an assumed average NYMEX price of \$7.25 per million Btu (MMBtu) for currently unhedged 2007 natural gas production and an average prompt-month NYMEX oil price of \$60.00 per barrel applied to unhedged volumes. The upper end of the range is based on an average NYMEX gas price of \$8.25 per MMBtu and an average prompt-month NYMEX oil price of \$65.00 per barrel applied to unhedged 2007 production. The company now expects Questar E&P 2007 production to range from 133 to 136 Bcfe. The company's guidance excludes one-time items, assumes hedges in place on the date of this release, and assumes natural gas and oil prices and basis differentials as summarized in the following table:

Earnings Guidance Assumptions

	2007	2007
	<u>Current</u>	<u>Previous</u>
Earnings per diluted share	\$5.15-\$5.35	\$5.20-\$5.50
Average diluted shares (millions)	88.1	88.1
Questar E&P production Bcfe	133-136	132-135
Pinedale wells completed	45-48	45-48
NYMEX gas price per MMBtu*	\$7.25-\$8.25	\$7.25-\$8.25
NYMEX/Rockies basis differential per MMBtu*	\$2.00	\$2.00
NYMEX/Midcontinent basis differential per MMBtu*	\$1.00	\$1.00
NYMEX crude oil price per barrel*	\$60.00-\$65.00	\$60.00-\$65.00

* On unhedged volumes for the remainder of 2007

•

Questar E&P has hedged about 73% of forecast 2007 natural gas and oil-equivalent production with fixed-price swaps. Additionally, the company has hedged about 6% of forecast 2007 production with NYMEX/Rockies basis-only swaps. The estimated average net to-the-well price for oil hedges has been adjusted to reflect a widening of Rocky Mountain oil basis (see table at the end of this release).

•

The company estimates that a \$1.00 per MMBtu change in the average NYMEX price of natural gas for the remainder of 2007 would result in about an \$0.11 change in earnings per diluted share.

•

A \$10.00-per-barrel change in the average NYMEX price of oil for the remainder of 2007 would result in about a \$0.05 change in earnings per diluted share.

Questar E&P Net Income Increases 47% in 2006

Questar E&P a Market Resources subsidiary that conducts natural gas and oil exploration, development and production benefited from growing production and higher realized prices in 2006. Questar E&P production increased 13% to 129.6 Bcfe compared to 114.2 Bcfe in 2005. Natural gas comprised about 88% of Questar E&P production. For the fourth quarter of 2006, Questar E&P net income increased 7% as the result of a 2% increase in production and higher realized natural gas, oil and NGL prices compared to the year-earlier period.

Questar E&P Production by Region

(Bcfe)

	3 Months Ended			12 Months Ended

* Questar E&P shut in approximately 1 Bcfe (net) of production from the Rocky Mountain region during October in response to low natural gas prices.

Questar E&P Realized Prices and Hedging Impact

	3 Months Ended			12 Months Ended		
	December 31,			December 31,		
	<u>2006</u>	<u>2005</u>	<u>% Change</u>	<u>2006</u>	<u>2005</u>	<u>% Change</u>
Realized natural gas price (per Mcf)	\$ 6.03	\$ 5.87	3%	\$ 6.00	\$ 5.18	16%
Hedge impact on realized price (per Mcf)	1.15	(3.69)	131	0.47	(1.74)	127
Realized oil and NGL price (per bbl)	\$46.14	\$44.19	4	\$49.12	\$41.54	18
Hedge impact on realized price (per bbl)	(3.78)	(11.67)	68	(7.48)	(10.43)	28
Net mark-to-market gain (loss) on basis swaps (millions before tax)	\$ 8.8	\$ 0.0		(\$ 1.9)	\$ 0.0	

Questar may hedge sales prices on up to 100% of forecast production from proved reserves to lock in acceptable returns on invested capital and to protect returns, cash flow and net income from a decline in commodity prices. The company uses basis-only swaps to protect cash flows and net income from widening natural gas-price basis differentials that may result from capacity constraints on regional gas pipelines.

Questar E&P production costs (the sum of depreciation, depletion and amortization expense, lease operating expense, general and administrative expense, allocated interest expense, and production taxes) per unit of gas-equivalent production increased 6% compared to 2005 and 9% in the quarter-to-quarter comparison.

Questar E&P Production Cost Structure

(Per Mcfe)

	3 Months Ended			12 Months Ended		
	December 31,			December 31,		
	<u>2006</u>	<u>2005</u>	<u>% Change</u>	<u>2006</u>	<u>2005</u>	<u>% Change</u>
Depreciation, depletion and amortization	\$1.63	\$1.21	35%	\$1.43	\$1.18	21%
Lease operating expense	0.63	0.52	21	0.57	0.54	6
General and administrative expense	0.36	0.26	38	0.33	0.30	10
Allocated interest expense	0.20	0.20		0.21	0.21	
Production taxes	<u>0.43</u>	<u>0.79</u>	(46)	<u>0.45</u>	<u>0.60</u>	(25)
Production costs	<u>\$3.25</u>	<u>\$2.98</u>	9%	<u>\$2.99</u>	<u>\$2.83</u>	6%

-

Per-unit production costs in the 2006 quarter were higher due to voluntary production curtailments in the Rocky Mountain region during October and reduced gathering-system capacity related to scheduled shutdowns for expansion projects.

-

Depreciation, depletion and amortization expense increased due to higher costs for drilling, completion and related services, increased cost of steel casing, other tubulars and wellhead equipment, and the ongoing depletion of older, lower-cost reserves.

-

Per-unit lease operating expense increased due to increased costs of materials and consumables, increased produced-water disposal costs and higher well-workover costs.

-

Per-unit general and administrative expense increased in the fourth quarter due primarily to higher labor and legal costs. Those cost factors, along with an increase in the provision for uncollectible accounts receivable, drove the increase in the full-year comparison.

-

Production taxes per unit decreased due to lower natural gas sales prices during the 2006 periods.

Wexpro Net Income Up 14% in 2006

Wexpro a Market Resources subsidiary that develops and produces cost-of-service reserves for Questar Gas reported higher net income driven by a 26% increase in its investment base at December 31, 2006, to \$260.6 million compared to \$206.3 million a year ago. Wexpro net income also benefited from 15% higher realized oil and NGL prices. Fourth-quarter 2006 net income increased 18% as the result of a 24% increase in the average quarterly investment base. Under a long-standing agreement with the states of Utah and Wyoming, Wexpro recovers its costs and earns an unlevered after-tax return of about 19 to 20% on its investment base the investment in commercial wells and related facilities, adjusted for working capital and reduced for deferred income taxes and accumulated depreciation.

Gas Management Net Income Up 19% in 2006

Questar Gas Management (Gas Management) Market Resources gas-gathering and processing-services business benefited from a 72% increase in gas-processing plant margin compared to 2005. Gathering volumes were up 7% to 274.1 million MMBtu equivalent compared to 257.0 million MMBtu for 2005, driven by growing Questar E&P and third-party Pinedale production and new gathering and processing projects serving third parties in the Uinta Basin.

Higher volumes and improved margins in both gathering and processing drove the 10% increase in fourth-quarter 2006 net income.

Questar Pipeline Net Income Up 74% in 2006

Questar Pipeline a subsidiary that provides interstate natural gas-transportation and storage services reported higher net income driven by an \$11.7 million increase in transportation revenues from recent system expansions. Gas-processing and NGL revenues in 2006 were \$2.5 million higher than the prior year. The 2005 results were reduced by a \$10.4 million after-tax asset impairment for the California segment of the company's Southern Trails Pipeline in the fourth quarter of 2005. The 2005 results also included a \$2.4 million increase in revenues related to pre-2005 fuel charges recovered through a settlement with shippers in the third quarter of 2005. Operating, maintenance, general and administrative costs per decatherm transported decreased to \$0.11 in 2006 from \$0.14 in 2005 due to a 15% increase in transportation volumes and a 6% decrease in expenses. Net income in the fourth quarter of 2006 was driven by \$2.2 million in higher transportation revenues from system expansions.

Questar Gas Net Income Up 3% in 2006

Questar Gas which provides natural gas distribution services in Utah, Wyoming and Idaho reported higher net income driven by customer growth. At December 31, 2006, Questar Gas served 851,000 customers, up 26,000 or 3.2% from the end of 2005. Operating and maintenance expenses per customer declined from \$137 in 2005 to \$135 in 2006. Lower bad-debt and depreciation expense offset a mid-year rate reduction. A pilot conservation-enabling tariff, which decouples gas margin from volumes of gas sold per customer, reduced margins by \$1.7 million, offsetting a slight increase in usage per customer. Questar Gas fourth-quarter 2005 net income increased \$3.0 million as a result of a gas-processing settlement agreement.

2006 Earnings Teleconference

Questar management will discuss 2006 results and the outlook for 2007 in a conference call with investors Wednesday, February 14, beginning at 9:30 a.m. EST. The call can be accessed on the company Internet site at www.questar.com.

About Questar

Questar Corp. (NYSE:STR) is a natural gas-focused energy company with an enterprise value of about \$8 billion. Questar finds, develops, produces, gathers, processes, transports, stores and distributes natural gas.

Forward-Looking Statements

This release includes forward-looking statements within the meaning of Section 27(a) of the Securities Act of 1933, as amended, and Section 21(e) of the Securities Exchange Act of 1934, as amended. Such statements are based on management's current expectations, estimates and projections, which are subject to a wide range of uncertainties and business risks. Factors that could cause actual results to differ from those anticipated are discussed in the company's periodic filings with the Securities and Exchange Commission, including its annual report on Form 10-K for the year ended December 31, 2005. Questar undertakes no obligation to publicly correct or update the forward-looking statements in this news release, in other documents, or on the Web site to reflect future events or circumstances. All such statements are expressly qualified by this cautionary statement.
