## Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

### GRUPO SIMEC ANNOUNCES PAYMENT IN FULL OF OUTSTANDING BANK DEBT OF ITS SUBSIDIARY REPUBLIC ENGINEERED PRODUCTS, INC.

GUADALAJARA, MEXICO, March 28, 2006- Grupo Simec, S.A. of C.V. ("Simec"), a subsidiary of Industrias CH, S.A. de C.V. ("ICH"), announced today the payment in full of the outstanding bank debt of its subsidiary in the U.S. Republic Engineered Products Inc. ("Republic"), which had maturities through 2009. Historically, this debt represented a significant burden for the healthy development of Republic; in 2000, total bank debt was approximately US \$1 billion. An improved financial structure and recent investments have resulted in improvements in productivity and yield that will allow Republic to take advantage of opportunities that at the moment appear in the global steel markets.

Through Republic, Simec and ICH are present in the largest automotive market in the world, where Republic has a position of leadership in the special bar quality segment (SBQ). Together Simec-Republic estimate to ship 2.5 million metric tons of finished products in 2006, having become the largest producer of SBQ in North America.
