SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the federal securities laws, including, without limitation, statements concerning the conditions in our industry, our operations, our economic performance and financial condition, including, in particular, statements relating to our business and growth strategy and product development efforts under "Management's Discussion and Analysis of Financial Condition and Results of Operations." Forward-looking statements include all statements that do not relate solely to historical or current facts and can be identified by the use of words such as "may," "might," "will," "should," "estimate," "project," "plan," "anticipate," "expect," "intend," "outlook," "believe" and other similar expressions. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. These forward-looking statements are based on estimates and assumptions by our management that, although we believe to be reasonable, are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those identified under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017, subsequent reports on Form 10-Q, and elsewhere in this Quarterly Report.

The following list represents some, but not necessarily all, of the factors that could cause actual results to differ from historical results or those anticipated or predicted by these forward-looking statements:

- our ability to successfully implement our business strategy;
- general economic, market and business conditions, including foreign exchange rate fluctuation and inflation;
- levels of residential new construction; residential repair, renovation and remodeling; and non-residential building construction activity;
- the United Kingdom's formal trigger of the two year process for its exit from the European Union, and related negotiations;
- competition;
- our ability to manage our operations including integrating our recent acquisitions and companies or assets we acquire in the future;
- our ability to generate sufficient cash flows to fund our capital expenditure requirements, to meet our pension obligations, and to meet our debt service obligations, including our obligations under our senior notes and our ABL Facility;
- labor relations (i.e., disruptions, strikes or work stoppages), labor costs and availability of labor;
- increases in the costs of raw materials or wages or any shortage in supplies or labor;
- our ability to keep pace with technological developments;
- cyber security threats and attacks;
- the actions taken by, and the continued success of, certain key customers;
- our ability to maintain relationships with certain customers;
- the ability to generate the benefits of our restructuring activities;
- retention of key management personnel;
- environmental and other government regulations; and
- limitations on operating our business as a result of covenant restrictions under our existing and future indebtedness, including our senior notes and our ABL Facility.

We caution you that the foregoing list of important factors is not exclusive. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this Quarterly Report may not in fact occur. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

MASONITE INTERNATIONAL CORPORATION

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Business Overview and Significant Accounting Policies

Unless we state otherwise or the context otherwise requires, references to "Masonite," "we," "our," "us" and the "Company" in these notes to the condensed consolidated financial statements refer to Masonite International Corporation and its subsidiaries.

Description of Business

Masonite International Corporation is one of the largest manufacturers of doors in the world, with significant market share in both interior and exterior door products. Masonite operates 67 manufacturing locations in 8 countries and sells doors to customers throughout the world, including the United States, Canada and the United Kingdom.

Basis of Presentation

We prepare these unaudited condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") and applicable rules and regulations of the U.S. Securities and Exchange Commission ("SEC") regarding interim financial reporting. Accordingly, they do not include all of the information and notes required by GAAP for annual financial statements. In the opinion of management, all adjustments consisting of normal and recurring entries considered necessary for a fair presentation of the results for the interim periods presented have been included. All significant intercompany balances and transactions have been eliminated. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts in the financial statements and accompanying notes. These estimates are based on information available as of the date of the unaudited condensed consolidated financial statements; therefore, actual results could differ from those estimates. Interim results are not necessarily indicative of the results for a full year.

These unaudited condensed consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017, as filed with the SEC. Our fiscal year is the 52- or 53-week period ending on the Sunday closest to December 31. In a 52-week year, each fiscal quarter consists of 13 weeks. For ease of disclosure, the 13- and 39-week periods are referred to as three- and nine-month periods, respectively. Certain prior year amounts have been reclassified to conform to the current basis of presentation, related to Accounting Standards Updates ("ASU") 2017-07 and 2016-18, as described below.

Changes in Accounting Standards and Policies

There have been no changes in the significant accounting policies from those that were disclosed in the fiscal year 2017 audited consolidated financial statements, other than as noted below.

Adoption of Recent Accounting Pronouncements

In March 2017, the Financial Accounting Standards Board ("FASB") issued ASU 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost," which amended Accounting Standards Codification ("ASC") 715, "Retirement Benefits". This ASU required disaggregation of the service cost component from the other components of net benefit cost. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations. This standard was effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years; early adoption was permitted and retrospective application was required. We have utilized the practical expedient allowing the use of the prior years' disclosed service cost and other cost as the basis for our retrospective changes in presentation. The adoption of this standard changed the presentation of the other components of net benefit cost in our condensed consolidated statements of comprehensive income (loss), requiring the reclassification of a \$0.3 million and \$0.8 million benefit related to other components of net benefit cost out of previously-presented selling, general and administration expense and into previously presented other expense (income), net, for the three and nine months ended October 1, 2017, respectively. The effect of this reclassification

reduced previously-presented operating income by this amount for the same periods. The total benefit which will be reclassified for the years ended December 31, 2017, and January 1, 2017, will be \$1.1 million and \$0.5 million, respectively.

Table of Contents**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)**

In November 2016, the FASB issued ASU 2016-18, "Restricted Cash Flows", which amended ASC 230 "Statement of Cash Flows". This ASU clarified how entities should present restricted cash and restricted cash equivalents in the statement of cash flows. The new guidance requires entities to show the changes in the total of cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. As a result, entities no longer present transfers between cash and cash equivalents and restricted cash and restricted cash equivalents in the statement of cash flows. This ASU was effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods; early adoption was permitted and retrospective application was required. The adoption of this standard changed the presentation of restricted cash in our condensed consolidated statements of cash flows, which is now being summed with cash and cash equivalents, and had the effect of a \$0.3 million increase to previously-presented cash flow used in investing activities for the nine months ended October 1, 2017.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which created ASC 606, "Revenue from Contracts with Customers," and largely superseded the existing guidance of ASC 605, "Revenue Recognition." This standard outlined a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and superseded most current revenue recognition guidance, including industry-specific guidance. The core principle of the revenue model is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, "Revenue from Contracts with Customers - Deferral of the Effective Date," and the guidance would now be effective for annual and interim periods beginning on or after December 15, 2017. We have adopted the guidance of ASC 606 as of January 1, 2018, using the modified retrospective method and have applied the standard to only those contracts which were not completed as of the transition date. The adoption of this standard did not have any material impact on revenues in the three months ended April 1, 2018. Prior period amounts were not adjusted and have continued to be reported in accordance with our historic accounting under Topic 605. While we considered an adjustment to opening retained earnings as prescribed by the modified retrospective method, there was no material adjustment ultimately required. Furthermore, there was no material difference between the prior period amounts as reported under ASC 605 and such amounts as would have been reported under ASC 606. Information about the nature, amount and timing of our revenues from contracts with customers is disclosed in Note 10. Revenues. Our accounting policy for revenue recognition is set forth below.

Revenue Recognition

Revenue from the sale of products is recognized when control of the promised goods is transferred to our customers based on the agreed-upon shipping terms, in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. Volume rebates, expected returns, discounts and other incentives to customers are considered variable consideration and we estimate these amounts based on the expected amount to be provided to customers and reduce the revenues we recognize accordingly. Sales taxes and value added taxes assessed by governmental entities are excluded from the measurement of consideration expected to be received. Shipping and handling costs incurred after a customer has taken possession of our goods are treated as a fulfillment cost and are not considered a separate performance obligation. Shipping and other transportation costs charged to customers are recorded in both revenues and cost of goods sold in the condensed consolidated statements of comprehensive income (loss).

Other Recent Accounting Pronouncements not yet Adopted

In August 2018, the FASB issued ASU 2018-15, "Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract". This ASU amends the definition of a hosting arrangement and requires a customer in a cloud computing arrangement that is a service contract to follow the internal-use software guidance in ASC 350-40 "Intangibles—Goodwill and Other—Internal-Use Software" to determine which implementation

costs to capitalize as assets or expense as incurred. Capitalized implementation costs related to a hosting arrangement that is a service contract will be amortized over the term of the hosting arrangement, beginning when the module or component of the hosting arrangement is ready for its intended use. The guidance is effective for annual periods beginning after December 15, 2019, and interim periods within those annual periods; early adoption is permitted and either retrospective or prospective application is required for all implementation costs incurred after the date of adoption. We are in the process of evaluating this guidance to determine the impact it may have on our financial statements.

Table of Contents**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**
(Unaudited)

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)", which will replace the existing guidance in ASC 840, "Leases." This standard was supplemented by ASUs 2018-10 and 2018-11 in July 2018. The updated standards aim to increase transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet and requiring disclosure of key information about leasing arrangements. The transition option in ASU 2018-11 allows entities to not apply the new leases standard in the comparative periods they present in their financial statements in the year of adoption. These ASUs are effective for annual periods beginning after December 15, 2018, and interim periods within those annual periods; early adoption is permitted. We are currently implementing a new lease system in connection with the adoption of ASU 2016-02. We are progressing with implementation and continuing to evaluate the impact on our consolidated financial statements and disclosures. We currently anticipate that the primary impact upon adoption will be a material adjustment to our consolidated balance sheets from the recognition, on a discounted basis, of our expected future payments for our operating leases, resulting in the recognition of right to use assets and lease obligations. Our current minimum undiscounted lease commitments under non-cancelable operating leases are disclosed in Note 9. Commitments and Contingencies.

2. Acquisitions and Disposition*2018 Acquisitions*

On June 1, 2018, we completed the acquisition of the operating assets of the wood door companies of AADG, Inc., including the brands Graham Manufacturing Corporation and The Maiman Company (collectively, "Graham & Maiman"). We acquired the operating assets of Graham & Maiman for cash consideration of \$39.0 million. Graham & Maiman are based in Mason City, Iowa, and Springfield, Missouri. Graham & Maiman provide the non-residential construction industry with a full range of architectural premium and custom grade flush wood doors, architectural stile and rail wood doors, thermal-fused flush wood doors and wood door frames. The excess purchase price over the fair value of net assets acquired of \$11.0 million was allocated to goodwill. The goodwill principally represents anticipated synergies to be gained from the integration into our existing Architectural business and the goodwill is deductible for tax purposes.

On January 29, 2018, we completed the acquisition of DW3 Products Holdings Limited ("DW3"), a leading UK provider of high quality premium door solutions and window systems, supplying products under brand names such as Solidor, Residor, Nicedor and Residence. We acquired 100% of the equity interests in DW3 for cash consideration of \$96.3 million, net of cash acquired. DW3 is based in Stoke-on-Trent and Gloucester, England, and their online quick ship capabilities and product portfolio both complement and expand the strategies we are pursuing with our business. The excess purchase price over the fair value of net assets acquired of \$33.6 million was allocated to goodwill. The goodwill principally represents anticipated synergies to be gained from the integration into our existing United Kingdom business. This goodwill is not deductible for tax purposes and relates to the Europe segment. The fair value of assets acquired and liabilities assumed in the Graham & Maiman and DW3 acquisitions are as follows:

<i>(In thousands)</i>	Graham & Maiman	DW3	Total 2018 Acquisitions

The gross contractual value of acquired trade receivables was \$9.1 million for the DW3 acquisition. The fair values of intangible assets acquired are based on management's estimates and assumptions including variations of the income approach, the cost approach and the market approach. The intangible assets acquired are not expected to have any residual value. During the three months ended September 30, 2018, we completed the final customary working capital adjustment for the Graham & Maiman acquisition, which resulted in an immaterial difference in the purchase price allocation when compared to the previously-presented preliminary purchase price allocation. Additionally, we finalized the DW3 purchase price allocation during the nine months ended September 30, 2018.

Intangible assets acquired from the 2018 Acquisitions consist of the following:

<i>(In thousands)</i>	Graham & Maiman	Expected Useful Life (Years)	DW3	Expected Useful Life (Years)
Customer relationships	\$ 2,400	10.0	\$49,554	10.0

2017 Acquisition

On October 2, 2017, we completed the acquisition of A&F Wood Products, Inc. ("A&F"), through the purchase of 100% of the equity interests in A&F and certain assets of affiliates of A&F for cash consideration of \$13.8 million, net of cash acquired. A&F is based in Howell, Michigan, and is a wholesaler and fabricator of architectural and commercial doors in the Midwest United States. The excess purchase price over the fair value of net assets acquired of \$5.9 million was allocated to goodwill. The goodwill principally represents anticipated synergies from A&F's integration into our existing Architectural door business. This goodwill is not deductible for tax purposes and relates to the Architectural segment. A&F generated external net sales of \$4.4 million and \$11.7 million for the three and nine months ended September 30, 2018, respectively. Additional information relating to the A&F acquisition is

described in our Annual Report on Form 10-K for the year ended December 31, 2017.

Pro Forma Information

The following unaudited pro forma financial information represents the consolidated financial information as if the acquisitions had been included in our consolidated results beginning on the first day of the fiscal year prior to their respective acquisition dates. The pro forma results have been calculated after adjusting the results of the acquired entities to remove intercompany transactions and transaction costs incurred and to reflect the additional depreciation and amortization that would have been charged assuming the fair value adjustments to property, plant and equipment and

Our customers consist mainly of wholesale distributors, dealers, homebuilders and retail home centers. Our ten largest customers accounted for 53.3% and 56.2% of total accounts receivable as of September 30, 2018, and December 31, 2017, respectively. Our largest customer, The Home Depot, Inc., accounted for more than 10% of the consolidated gross accounts receivable balance as of September 30, 2018, and December 31, 2017. Our second largest customer, Lowe's Co. Inc., accounted for more than 10% of the consolidated gross accounts receivable balance as of December 31, 2017. The allowance for doubtful accounts balance was \$2.1 million and \$1.8 million as of September 30, 2018, and December 31, 2017, respectively.

We maintain an accounts receivable sales program with a third party (the "AR Sales Program"). Under the AR Sales Program, we can transfer ownership of eligible trade accounts receivable of certain customers. Receivables are sold outright to a third party that assumes the full risk of collection, without recourse to us in the event of a loss. Transfers of receivables under this program are accounted for as sales. Proceeds from the transfers reflect the face value of the accounts receivable less a discount. Receivables sold under the AR Sales Program are excluded from trade accounts receivable in the condensed consolidated balance sheets and are included in cash flows from operating activities in the condensed consolidated statements of cash flows. The discounts on the sales of trade accounts receivable sold under the AR Sales Program were not material for any of the periods presented and were recorded in selling, general and administration expense within the condensed consolidated statements of comprehensive income (loss).

5.75% Senior Notes due 2026

On August 27, 2018, we issued \$300.0 million aggregate principal senior unsecured notes (the “2026 Notes”). The 2026 Notes were issued in a private placement for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”), and to buyers outside of the United States pursuant to Regulation S under the Securities Act. The 2026 Notes were issued without registration rights and are not listed on any securities exchange. The 2026 Notes bear interest at 5.75% per annum, payable in cash semiannually in arrears on March 15 and September 15 of each year and are due September 15, 2026. The 2026 notes were issued at par. We received net proceeds of \$295.7 million after deducting \$4.3 million of debt issuance costs. The debt issuance costs were capitalized as a reduction to the carrying value of debt and are being accreted to interest expense over the term of the 2026 Notes using the effective interest method. The net proceeds from issuance of the 2026 Notes were used to redeem \$125.0

million aggregate principal amount of the 2023 Notes (as described below), including the payment of related premiums, fees and expenses, with the balance of the proceeds available for general corporate purposes. Subsequent to the closing of the 2026 Notes offering, the 2023 Notes were partially redeemed, with that portion of the notes considered extinguished as of September 12, 2018. Under the terms of the indenture governing the 2023 Notes, we paid the applicable premium of \$5.3 million. Additionally, the proportionate shares of the unamortized premium of \$1.0 million and unamortized debt issuance costs of \$1.1 million relating to the 2023 Notes were written off in conjunction with the partial extinguishment of the 2023 Notes. The resulting loss on extinguishment of debt was \$5.4 million and is recorded as part of income (loss) from continuing operations before income tax expense (benefit) in the consolidated statements of comprehensive income (loss). Additionally, the cash payment of interest accrued to, but not including, the redemption date was accelerated to the redemption date.

Obligations under the 2026 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis, by certain of our directly or indirectly wholly-owned subsidiaries. We may redeem the 2026 Notes, in whole or in part, at any time on or after September 15, 2021, at the applicable redemption prices specified under the indenture governing the 2026 Notes, plus accrued and unpaid interest, if any, to the date of redemption. If we experience certain changes of control or consummate certain asset sales and do not reinvest the net proceeds, we must offer to repurchase all of the 2026 Notes at a purchase price of 101.00% of their principal amount, plus accrued and unpaid interest, if any, to the repurchase date.

The indenture governing the 2026 Notes contains restrictive covenants that, among other things, limit our ability and the ability of our subsidiaries to: (i) incur additional debt and issue disqualified or preferred stock, (ii) make restricted payments, (iii) sell assets, (iv) create or permit restrictions on the ability of our restricted subsidiaries to pay dividends or make other distributions to the parent company, (v) create or incur certain liens, (vi) enter into sale and leaseback transactions, (vii) merge or consolidate with other entities and (viii) enter into transactions with affiliates. The foregoing limitations are subject to exceptions as set forth in the indenture governing the 2026 Notes. In addition, if in the future the 2026 Notes have an investment grade rating from at least two nationally recognized statistical rating organizations, certain of these covenants will be terminated. The indenture governing the 2026 Notes contains customary events of default (subject in certain cases to customary grace and cure periods). As of September 30, 2018, we were in compliance with all covenants under the indenture governing the 2026 Notes.

5.625% Senior Notes due 2023

On September 27, 2017, and March 23, 2015, we issued \$150.0 million and \$475.0 million aggregate principal senior unsecured notes, respectively (the "2023 Notes"). The 2023 Notes were issued in two private placements for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act, and to buyers outside the United States pursuant to Regulation S under the Securities Act. The 2023 Notes were issued without registration rights and are not listed on any securities exchange. The 2023 Notes bear interest at 5.625% per annum, payable in cash semiannually in arrears on March 15 and September 15 of each year and are due March 15, 2023. The 2023 Notes were issued at 104.0% and par in 2017 and 2015, respectively, and the resulting premium of \$6.0 million is being amortized to interest expense over the term of the 2023 Notes using the effective interest method. We received net proceeds of \$153.9 million and \$467.9 million, respectively, after deducting \$2.1 million and \$7.1 million of debt issuance costs in 2017 and 2015, respectively. The debt issuance costs were capitalized as a reduction to the carrying value of debt and are being accreted to interest expense over the term of the 2023 Notes using the effective interest method. The net proceeds from the 2017 issuance of the 2023 Notes are for general corporate purposes. The net proceeds from the 2015 issuance of the 2023 Notes, together with available cash balances, were used to redeem \$500.0 million aggregate principal of prior 8.25% senior unsecured notes due 2021 and to pay related premiums, fees and expenses.

Obligations under the 2023 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis, by certain of our directly or indirectly wholly-owned subsidiaries. We may redeem the 2023 Notes,

in whole or in part, at any time on or after March 15, 2018, at the applicable redemption prices specified under the indenture governing the 2023 Notes, plus accrued and unpaid interest, if any, to the date of redemption. If we experience certain changes of control or consummate certain asset sales and do not reinvest the net proceeds, we must offer to repurchase all of the 2023 Notes at a purchase price of 101.00% of their principal amount, plus accrued and unpaid interest, if any, to the repurchase date.

The indenture governing the 2023 Notes contains restrictive covenants that, among other things, limit our ability and the ability of our subsidiaries to: (i) incur additional debt and issue disqualified or preferred stock, (ii) make restricted payments, (iii) sell assets, (iv) create or permit restrictions on the ability of our restricted subsidiaries to pay dividends or make other distributions to the parent company, (v) create or incur certain liens, (vi) enter into sale and leaseback transactions, (vii) merge or consolidate with other entities and (viii) enter into transactions with affiliates. The foregoing limitations are subject to exceptions as set forth in the indenture governing the 2023 Notes. In addition, if in the future the 2023 Notes have an investment grade rating from at least two nationally recognized statistical rating organizations, certain of these covenants will be replaced with a less restrictive covenant. The indenture governing the 2023 Notes contains customary events of default (subject in certain cases to customary grace and cure periods). As of September 30, 2018, and December 31, 2017, we were in compliance with all covenants under the indenture governing the 2023 Notes.

ABL Facility

On April 9, 2015, we and certain of our subsidiaries entered into a \$150.0 million asset-based revolving credit facility (the "ABL Facility") maturing on April 9, 2020. The borrowing base is calculated based on a percentage of the value of selected U.S. and Canadian accounts receivable and inventory, less certain ineligible amounts.

Obligations under the ABL Facility are secured by a first priority security interest in certain of the current assets of Masonite's United States and Canadian subsidiaries. In addition, obligations under the ABL Facility are fully and unconditionally guaranteed, jointly and severally, on a senior secured basis, by certain of our directly or indirectly wholly-owned subsidiaries. Borrowings under the ABL Facility bear interest at a rate equal to, at our option, (i) the Base Rate, Canadian Prime Rate or Canadian Base Rate (each as defined in the Amended and Restated Credit Agreement) plus a margin ranging from 0.25% to 0.75% per annum, or (ii) the Eurodollar Base Rate or BA Rate (each as defined in the Amended and Restated Credit Agreement), plus a margin ranging from 1.25% to 1.75% per annum. In addition to paying interest on any outstanding principal under the ABL Facility a commitment fee is payable on the undrawn portion of the ABL Facility in an amount equal to 0.25% per annum of the average daily balance of unused commitments during each calendar quarter.

The ABL Facility contains various customary representations, warranties and covenants by us that, among other things, and subject to certain exceptions, restrict Masonite's ability and the ability of our subsidiaries to: (i) pay dividends on our common shares and make other restricted payments, (ii) make investments and acquisitions, (iii) engage in transactions with our affiliates, (iv) sell assets, (v) merge and (vi) create liens. The Amended and Restated Credit Agreement amended the ABL Facility to, among other things, (i) permit us to incur unlimited unsecured debt as long as such debt does not contain covenants or default provisions that are more restrictive than those contained in the ABL Facility, (ii) permit us to incur debt as long as the pro forma secured leverage ratio is less than 4.5 to 1.0, and (iii) add certain additional exceptions and exemptions under the restricted payment, investment and indebtedness covenants (including increasing the amount of certain debt permitted to be incurred under an existing exception). As of September 30, 2018, and December 31, 2017, we were in compliance with all covenants under the credit agreement governing the ABL Facility and there were no amounts outstanding under the ABL Facility.

(Unaudited)****9. Commitments and Contingencies***Leases*

For lease agreements that provide for escalating rent payments or rent-free occupancy periods, we recognize rent expense on a straight line basis over the non-cancelable lease term and any option renewal period where failure to exercise such option would result in an economic penalty in such amount that renewal appears, at the inception of the lease, to be reasonably assured. The lease term commences on the date when all conditions precedent to our obligation to pay rent are satisfied. The leases contain provisions for renewal ranging from zero to three options of generally five years each. Minimum payments, for the following future periods, under non-cancelable operating leases and service agreements with initial or remaining terms of one year or more consist of the following:

(In thousands)

Fiscal year:

2018 (remaining three months)	\$6,003
2019	23,771
2020	21,793
2021	16,863
2022	12,606
Thereafter	56,364
Total future minimum lease payments	\$ 137,400

Total rent expense, including non-cancelable operating leases and month-to-month leases, was \$7.9 million and \$23.4 million for the three and nine months ended September 30, 2018, respectively, and \$7.2 million and \$21.5 million for the three and nine months ended October 1, 2017, respectively.

We have provided customary indemnifications to our landlords under certain property lease agreements for claims by third parties in connection with their use of the premises. We also have provided routine indemnifications against adverse effects related to changes in tax laws and patent infringements by third parties. The maximum amount of these indemnifications cannot be reasonably estimated due to their nature. In some cases, we have recourse against other parties to mitigate the risk of loss from these indemnifications. Historically, we have not made any significant payments relating to such indemnifications.

Legal Proceedings

The following discussion describes certain new legal proceedings and material developments in previously disclosed legal proceedings that occurred since December 31, 2017. Refer to Note 9. Commitments and Contingencies in the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2017, for a full description of the previously disclosed legal proceedings.

Grubb Lumber Company

On October 19, 2018, Grubb Lumber Company, Inc. filed a purported class action lawsuit against us and JELD-WEN, Inc. (“Jeld-Wen”) in the United States District Court for the Eastern District of Virginia, Richmond Division, alleging, among other things, that defendants conspired to fix prices on, and to eliminate competition with respect to, interior molded doors. The complaint asserts violations of Section 1 of the Sherman Act, and Jeld-Wen’s violation of Section 7 of the Clayton Act, and seeks treble damages and costs of suit, including reasonable attorneys’ fees, and prejudgment and post-judgment interest. While we intend to defend the lawsuit vigorously, there can be no assurance that the ultimate resolution of this lawsuit will not have a material, adverse effect on our consolidated financial condition or results of operations.

Table of Contents**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)***Mathis*

In the Mathis matter, on March 29, 2018, and before any responsive pleadings were filed, the parties entered into a Settlement Agreement and General Release pursuant to which we made a nominal settlement payment in exchange for a general release and the lawsuit was dismissed with prejudice on April 23, 2018. In entering into the settlement, we denied all claims made in the lawsuit and denied any wrongdoing.

Byrd

In the Byrd matter, on March 22, 2018 the settlement previously agreed to by the parties received final court approval and the court dismissed the case. Payment of the settlement occurred on April 27, 2018. Payouts to class members were initiated on May 16, 2018 and all required payments were completed on October 4, 2018. The amount we paid as part of the settlement did not have a material impact on our financial condition or operating results.

In addition, from time to time, we are involved in various claims, legal actions and government audits. In the opinion of management, the ultimate disposition of these matters, individually and in the aggregate, will not have a material effect on our financial condition, results of operations or cash flows.

10. Revenues

We derive our revenues primarily from the manufacture and delivery of doors and door components as performance obligations that arise from our contracts with customers are satisfied. Materially all of our revenues are generated from contracts with customers and the nature, timing and any uncertainty in the recognition of revenues are not affected by the type of good, customer or geographical region to which the performance obligation relates. Our contracts with our customers are generally in the form of purchase orders and the performance obligation arises upon receipt of the purchase order and agreement upon the transaction price. The performance obligations are satisfied at a point in time when control of the promised goods is transferred to the customer and payment terms vary from customer to customer. Payment terms are short-term, are customary for our industry and in some cases, early payment incentives are offered. The transaction price recognized as revenue and accounts receivable is determined based upon a number of estimates, including:

- Incentive-based volume rebates, which are based on individual rebate agreements with our customers, as well as historical and expected performance of each individual customer,
- Estimated sales returns, which are based on historical returns as a percentage of revenues, and
- Adjustments for early payment discounts offered by us.

Contract assets are represented by our trade accounts receivable balances on the condensed consolidated balance sheets, and are described in Note 3. Accounts Receivable. There were no other material contract assets or liabilities as of either September 30, 2018, or December 31, 2017. Our warranties are assurance-type warranties and do not represent separate performance obligations to our customers. There were no material impairment losses related to contract assets during the three or nine months ended September 30, 2018, or October 1, 2017.

11. Share Based Compensation Plans

Share based compensation expense was \$1.6 million and \$8.2 million for the three and nine months ended September 30, 2018, respectively, and \$2.7 million and \$8.7 million for the three and nine months ended October 1, 2017, respectively. As of September 30, 2018, the total remaining unrecognized compensation expense related to share based compensation amounted to \$16.5 million, which will be amortized over the weighted average remaining requisite service period of 1.6 years. Share based compensation expense is recognized using a graded-method approach, or to a lesser extent a cliff-vesting approach, depending on the terms of the individual award and is classified within selling, general and administration expenses in the condensed consolidated statements of comprehensive income (loss). All share based awards are settled through issuance of new shares of our common stock. The share based award agreements contain restrictions on sale or transfer other than in limited circumstances. All other transfers would cause the share based awards to become null and void.

Table of Contents**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)***Equity Incentive Plans*

Prior to July 9, 2012, we had a management equity incentive plan (the "2009 Plan"). The 2009 Plan required granting by June 9, 2012, equity instruments which upon exercise would result in management (excluding directors) owning 9.55% of our common equity (3,554,811 shares) on a fully diluted basis, after giving consideration to the potential exercise of warrants and the equity instruments granted to directors. Under the 2009 Plan, we were required to issue equity instruments to directors that represented 0.90% (335,004 shares) of the common equity on a fully diluted basis. The requirement for issuance to employees was satisfied in June 2012, and the requirement for issuance to directors was satisfied in July 2009. No awards have been granted under the 2009 Plan since May 30, 2012, and no future awards will be granted under the 2009 Plan; however, all outstanding awards under the 2009 Plan will continue to be governed by their existing terms. Aside from shares issuable for outstanding awards, there are no further shares of common stock available for future issuance under the 2009 Plan.

On July 12, 2012, the Board of Directors adopted the Masonite International Corporation 2012 Equity Incentive Plan, which was amended on June 21, 2013, by our Board of Directors, further amended and restated by our Board of Directors on February 23, 2015, and approved by our shareholders on May 12, 2015 (as amended and restated, the "2012 Plan"). The 2012 Plan was adopted because the Board believes awards granted will help to attract, motivate and retain employees and non-employee directors, align employee and stockholder interests and encourage a performance-based culture built on employee stock ownership. The 2012 Plan permits us to offer eligible directors, employees and consultants cash and share-based incentives, including stock options, stock appreciation rights, restricted stock, other share-based awards (including restricted stock units) and cash-based awards. The 2012 Plan is effective for ten years from the date of its adoption. Awards granted under the 2012 Plan are at the discretion of the Human Resources and Compensation Committee of the Board of Directors. The Human Resources and Compensation Committee may grant any award under the 2012 Plan in the form of a performance award. The 2012 Plan may be amended, suspended or terminated by the Board at any time; provided, that any amendment, suspension or termination which impairs the rights of a participant is subject to such participant's consent and; provided further, that certain material amendments are subject to shareholder approval. The aggregate number of common shares that can be issued with respect to equity awards under the 2012 Plan cannot exceed 2,000,000 shares plus the number of shares subject to existing grants under the 2009 Plan that may expire or be forfeited or cancelled. As of September 30, 2018, there were 770,619 shares of common stock available for future issuance under the 2012 Plan.

Deferred Compensation Plan

We offer to certain of our employees and directors a Deferred Compensation Plan ("DCP"). The DCP is an unfunded non-qualified deferred compensation plan that permits those certain employees and directors to defer a portion of their compensation to a future time. Eligible employees may elect to defer a portion of their base salary, bonus and/or restricted stock units and eligible directors may defer a portion of their director fees or restricted stock units. All contributions to the DCP on behalf of the participant are fully vested (other than restricted stock unit deferrals which remain subject to the vesting terms of the applicable equity incentive plan) and placed into a grantor trust, commonly referred to as a "rabbi trust." Although we are permitted to make matching contributions under the terms of the DCP, we have not elected to do so. The DCP invests the contributions in diversified securities from a selection of investments and the participants choose their investments and may periodically reallocate the assets in their respective accounts. Participants are entitled to receive the benefits in their accounts upon separation of service or upon a specified date, with benefits payable as a single lump sum or in annual installments. All plan investments are categorized as having Level 1 valuation inputs as established by the FASB's Fair Value Framework.

Assets of the rabbi trust, other than Company stock, are recorded at fair value and included in other assets in the condensed consolidated balance sheets. These assets in the rabbi trust are classified as trading securities and changes in their fair values are recorded in other income (loss) in the condensed consolidated statements of comprehensive

income (loss). The liability relating to deferred compensation represents our obligation to distribute funds to the participants in the future and is included in other liabilities in the condensed consolidated balance sheets. As of September 30, 2018, the liability and asset relating to deferred compensation had a fair value of \$6.4 million and \$6.5 million, respectively. Any unfunded gain or loss relating to changes in the fair value of the deferred compensation liability is recognized in selling, general and administration expense in the condensed consolidated statements of comprehensive income (loss). As of

Table of Contents**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(Unaudited)**

September 30, 2018, participation in the deferred compensation plan is limited and no restricted stock awards have been deferred into the deferred compensation plan.

Stock Appreciation Rights

We have granted Stock Appreciation Rights ("SARs") to certain employees under both the 2009 Plan and the 2012 Plan, which entitle the recipient to the appreciation in value of a number of common shares over the exercise price over a period of time, each as specified in the applicable award agreement. The exercise price of any SAR granted may not be less than the fair market value of our common shares on the date of grant. The compensation expense for the SARs is measured based on the fair value of the SARs at the date of grant and is recognized over the requisite service period. The SARs vest over a maximum of three years, have a life of ten years and settle in common shares. We recognize forfeitures of SARs in the period in which they occur.

The total fair value of SARs vested was \$0.7 million and \$0.4 million during the nine months ended September 30, 2018, and October 1, 2017, respectively.

The value of SARs granted is determined using the Black-Scholes Merton valuation model, and the corresponding expense is recognized over the average requisite service period of 2.0 years for all periods presented. Expected volatility is based upon the historical volatility of our public industry peers' common shares amongst other considerations. The expected term is calculated using the simplified method, due to insufficient exercise activity during recent years as a basis from which to estimate future exercise patterns. The weighted average grant date assumptions used for the SARs granted were as follows for the periods indicated:

(Unaudited)***Restricted Stock Units*

We have granted Restricted Stock Units ("RSUs") to directors and certain employees under both the 2009 Plan and the 2012 Plan. The RSUs confer the right to receive shares of our common stock at a specified future date or when certain conditions are met. The compensation expense for the RSUs awarded is based on the fair value of the RSUs at the date of grant and is recognized over the requisite service period. The RSUs vest over a maximum of three years and call for the underlying shares to be delivered no later than 30 days following the vesting date unless the participant is subject to a blackout period. In such case, the shares are to be delivered once the blackout restriction has been lifted. We recognize forfeitures of RSUs in the period in which they occur.

(1) A portion of the vested RSUs delivered were net share settled to cover statutory requirements for income and other employment taxes. We remit the equivalent cash to the appropriate taxing authorities. These net share settlements had the effect of share repurchases by us as we reduced and retired the number of shares that would have otherwise been issued as a result of the vesting.

Approximately one-half of the RSUs granted during the nine months ended September 30, 2018, vest at specified future dates with only service requirements, while the remaining portion of the RSUs vest based on both performance and service requirements. The expense for RSUs granted in the nine months ended September 30, 2018, and October 1, 2017, is being recognized over the weighted average requisite service period of 2.6 and 2.7 years, respectively. 207,028 RSUs vested during the nine months ended September 30, 2018, at a fair value of \$13.3 million.

Our restructuring plans initiated in 2016 and prior years are described in detail in our Annual Report on Form 10-K for the year ended December 31, 2017. Costs associated with our existing restructuring plans include severance and closure charges and are substantially completed. The 2013 Plan also included impairment of certain property, plant and equipment. Actions associated with all of our existing restructuring plans are substantially completed, although cash payments are expected to continue through 2019, primarily related to lease payments at closed facilities under our restructuring plans initiated in 2012 and prior years. As of September 30, 2018, we do not expect to incur any material future charges relating to any of our existing restructuring plans.

13. Income Taxes

The effective tax rate differs from the Canadian statutory rate of 26.5% primarily due to changes in our valuation allowances, tax exempt income and mix of earnings in foreign jurisdictions which are subject to tax rates that differ from the Canadian statutory rate. In addition, we recognized \$0.8 million and \$1.1 million of income tax benefit due to the exercise and delivery of share-based awards during the three and nine months ended September 30, 2018, and \$0.6 million and \$5.7 million during the three and nine months ended October 1, 2017.

In accordance with SAB 118, we have reflected the income tax effects of the aspects of the Tax Cuts and Jobs Act of 2017 ("Tax Reform") for which the accounting under ASC 740 is complete. Our provision for income taxes does include estimates of certain deductions. The final impact of Tax Reform may differ from our estimates due to additional regulations that may be issued or changes in interpretations as we gain a more thorough understanding of

the tax law. These changes could be material to income tax expense.

Basic earnings per share ("EPS") is calculated by dividing earnings attributable to Masonite by the weighted-average number of our common shares outstanding during the period. Diluted EPS is calculated by dividing earnings attributable to Masonite by the weighted-average number of common shares plus the incremental number of shares issuable from non-vested and vested RSUs and SARs outstanding during the period.

The weighted average number of shares outstanding utilized for the diluted EPS calculation contemplates the exercise of all currently outstanding SARs and the conversion of all RSUs. The dilutive effect of such equity awards is calculated based on the weighted average share price for each fiscal period using the treasury stock method. For all periods presented, common shares issuable for stock appreciation rights which have a higher strike price than our weighted average market price have been excluded from the computation of diluted earnings per share, as their effect would have been anti-dilutive.

(Unaudited)**15. Segment Information**

Our reportable segments are organized and managed principally by end market: North American Residential, Europe and Architectural. The North American Residential reportable segment is the aggregation of the Wholesale and Retail operating segments. The Europe reportable segment is the aggregation of the United Kingdom and Central Eastern Europe operating segments. The Architectural reportable segment consists solely of the Architectural operating segment. The Corporate & Other category includes unallocated corporate costs and the results of immaterial operating segments which were not aggregated into any reportable segment. Operating segments are aggregated into reportable segments only if they exhibit similar economic characteristics. In addition to similar economic characteristics we also consider the following factors in determining the reportable segments: the nature of business activities, the management structure directly accountable to our chief operating decision maker for operating and administrative activities, availability of discrete financial information and information presented to the Board of Directors and investors.

Our management reviews net sales and Adjusted EBITDA (as defined below) to evaluate segment performance and allocate resources. Net assets are not allocated to the reportable segments. Adjusted EBITDA is a non-GAAP financial measure which does not have a standardized meaning under GAAP and is unlikely to be comparable to similar measures used by other companies. Adjusted EBITDA should not be considered as an alternative to either net income or operating cash flows determined in accordance with GAAP. Adjusted EBITDA is defined as net income (loss) attributable to Masonite adjusted to exclude the following items:

- depreciation;
- amortization;
- share based compensation expense;
- loss (gain) on disposal of property, plant and equipment;
- registration and listing fees;
- restructuring costs;
- asset impairment;
- loss (gain) on disposal of subsidiaries;
- interest expense (income), net;
- loss on extinguishment of debt;
- other expense (income), net;
- income tax expense (benefit);
- loss (income) from discontinued operations, net of tax; and
- net income (loss) attributable to non-controlling interest.

This definition of Adjusted EBITDA differs from the definitions of EBITDA contained in the indentures governing the 2026 Notes and 2023 Notes and the credit agreement governing the ABL Facility. Adjusted EBITDA is used to evaluate and compare the performance of the segments and it is one of the primary measures used to determine employee incentive compensation. Intersegment transfers are negotiated on an arm's length basis, using market prices. Certain information with respect to segments is as follows for the periods indicated:

As described in Note 1. Business Overview and Significant Accounting Policies, the adoption of ASU 2017-07 required a reclassification of prior periods' other expense (income), net. This resulted in a consolidated decrease of \$0.3 million and \$0.8 million to Adjusted EBITDA for the three and nine months ended October 1, 2017, compared to the same figures previously presented. On a segment basis, Adjusted EBITDA for the Europe segment was increased by \$0.1 million and \$0.2 million for the three and nine months ended October 1, 2017, while Adjusted EBITDA for the Corporate & Other category was decreased by \$0.3 million, and \$1.0 million for the three and nine months ended October 1, 2017, respectively, compared to the same figures previously-presented. Amounts for the segments do not sum to consolidated amounts due to rounding.

18. Variable Interest Entity

As of September 30, 2018, and December 31, 2017, we held an interest in one variable interest entity ("VIE"), Magna Foremost Sdn Bhd, which is located in Bintulu, Malaysia. The VIE is integrated into our supply chain and manufactures door facings. We are the primary beneficiary of the VIE via the terms of the existing operating principles with the VIE. As primary beneficiary via the operating principles, we receive a disproportionate amount of earnings on sales to third parties in relation to our voting interest, and as a result, receive a majority of the VIE's residual returns. Sales to third parties did not have a material impact on our condensed consolidated financial statements. We also have the power to direct activities of the VIE that most significantly impact the entity's economic performance. As its primary beneficiary, we have consolidated the results of the VIE. Our net cumulative investment in the VIE was comprised of the following as of the dates indicated:

<i>(In thousands)</i>	September 30, December 31,	
	2018	2017
Current assets	\$ 9,963	\$ 7,213

Non-controlling interest	(3,196) (4,029
Net assets of the VIE consolidated by Masonite	\$ 19,547	\$ 19,361

Current assets include \$4.6 million and \$3.2 million of cash and cash equivalents as of September 30, 2018, and December 31, 2017, respectively. Assets recognized as a result of consolidating this VIE do not represent additional assets that could be used to satisfy claims against our general assets. Furthermore, liabilities recognized as a result of consolidating these entities do not represent additional claims on our general assets; rather, they represent claims against the specific assets of the consolidated VIE.

19. Fair Value of Financial Instruments

The carrying amounts of our cash and cash equivalents, restricted cash, accounts receivable, income taxes receivable, accounts payable, accrued expenses and income taxes payable approximate fair value because of the short-term maturity of those instruments. The estimated fair value of the 2026 Notes as of September 30, 2018, was \$302.6 million, compared to a carrying value of \$295.7 million. The estimated fair value of the 2023 Notes as of September 30, 2018, was \$510.5 million, compared to a carrying value of \$499.4 million, and the estimated fair value of the 2023 Notes as of December 31, 2017, was \$653.6 million, compared to a carrying value of \$624.1 million. These estimates are based on market quotes and calculations based on current market rates available to us and are categorized as having Level 2 valuation inputs as established by the FASB's Fair Value Framework. Market quotes used in these calculations are based on bid prices for our debt instruments and are obtained from and corroborated with multiple independent sources. The market quotes obtained from independent sources are within the range of

management's expectations.

20. Subsequent Event

On November 1, 2018, we completed the acquisition of the operating assets of Bridgewater Wholesalers Inc. (“BWI”) for total consideration of approximately \$23 million, subject to certain customary post-closing adjustments. BWI is headquartered in Branchburg, New Jersey, and is a fabricator and distributor of residential interior and exterior door systems, supporting customers in the Mid-Atlantic and Northeastern United States. Their product offerings include residential interior and exterior doors, commercial doors and hardware as well as value added pre-finishing services. Due to the timing of the acquisition, the purchase price allocation was not complete as of the date the financial statements were issued.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is based upon accounting principles generally accepted in the United States of America and discusses the financial condition and results of operations for Masonite International Corporation for the three and nine months ended September 30, 2018, and October 1, 2017. In this MD&A, "Masonite," "we," "us," "our" and the "Company" refer to Masonite International Corporation and its subsidiaries.

This discussion should be read in conjunction with (i) the unaudited condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and (ii) the annual audited consolidated financial statements, including the accompanying notes and MD&A, which are included in our Annual Report on Form 10-K for the year ended December 31, 2017. The following discussion should also be read in conjunction with the disclosure under "Special Note Regarding Forward Looking Statements" elsewhere in this Quarterly Report on Form 10-Q. Our actual results could differ materially from the forward-looking statements as a result of these risks and uncertainties. Certain prior year amounts have been reclassified to conform to the current basis of presentation.

Overview

We are a leading global designer, manufacturer and distributor of interior and exterior doors for the new construction and repair, renovation and remodeling sectors of the residential and the non-residential building construction markets. Since 1925, we have provided our customers with innovative products and superior service at compelling values. In order to better serve our customers and create sustainable competitive advantages, we focus on developing innovative products, advanced manufacturing capabilities and technology-driven sales and service solutions.

We market and sell our products to remodeling contractors, builders, homeowners, retailers, dealers, lumberyards, commercial and general contractors and architects through well-established wholesale, retail and direct distribution channels as part of our cross-merchandising strategy. Customers are provided a broad product offering of interior and exterior doors and entry systems at various price points. We manufacture a broad line of interior doors, including residential molded, flush, stile and rail, louver and specially-ordered commercial and architectural doors; door components for internal use and sale to other door manufacturers; and exterior residential steel, fiberglass and wood doors and entry systems.

We operate 67 manufacturing and distribution facilities in 8 countries in North America, South America, Europe and Asia, which are strategically located to serve our customers through multiple distribution channels. These distribution channels include: (i) direct distribution to retail home center customers and homebuilders; (ii) one-step distribution that sells directly to homebuilders and contractors; and (iii) two-step distribution through wholesale distributors. For retail home center customers, numerous door fabrication facilities provide value-added fabrication and logistical services, including pre-finishing and store delivery of pre-hung interior and exterior doors. We believe our ability to provide: (i) a broad product range; (ii) frequent, rapid, on-time and complete delivery; (iii) consistency in products and merchandising; (iv) national service; and (v) special order programs enables retail customers to increase comparable store sales and helps to differentiate us from our competitors. We believe investments in innovative new product manufacturing and distribution capabilities, coupled with an ongoing commitment to operational excellence, provide a strong platform for future growth.

Our reportable segments are organized and managed principally by end market: North American Residential, Europe and Architectural. In the nine months ended September 30, 2018, we generated net sales of \$1,105.8 million or 67.4%, \$279.1 million or 17.0% and \$240.5 million or 14.7% in our North American Residential, Europe and Architectural segments, respectively.

Key Factors Affecting Our Results of Operations

Product Demand

There are numerous factors that influence overall market demand for our products. Demand for new homes, home improvement products and other building construction products have a direct impact on our financial condition and

results of operations. Demand for our products may be impacted by changes in United States, Canadian, European, Asian or other global economic conditions, including inflation, deflation, interest rates, availability of capital, consumer

28

MASONITE INTERNATIONAL CORPORATION

spending rates, energy availability and costs, and the effects of governmental initiatives to manage economic conditions. Additionally, trends in residential new construction, repair, renovation and remodeling and architectural building construction may directly impact our financial performance. Accordingly, the following factors may have a direct impact on our business in the countries and regions in which our products are sold:

- the strength of the economy;
- the amount and type of residential and commercial construction;
- housing sales and home values;
- the age of existing home stock, home vacancy rates and foreclosures;
- non-residential building occupancy rates;
- increases in the cost of raw materials or wages or any shortage in supplies or labor;
- the availability and cost of credit;
- employment rates and consumer confidence; and

• demographic factors such as immigration and migration of the population and trends in household formation.

Additionally, the United Kingdom's formal trigger of the two year process for its exit from the European Union, and related negotiations, has created uncertainty in European demand, particularly in the United Kingdom, which could have a material adverse effect on the demand for our products in the foreseeable future.

Product Pricing and Mix

The building products industry is highly competitive and we therefore face pressure on sales prices of our products. In addition, our competitors may adopt more aggressive sales policies and devote greater resources to the development, promotion and sale of their products than we do, which could result in a loss of customers. Our business in general is subject to changing consumer and industry trends, demands and preferences. Trends within the industry change often and our failure to anticipate, identify or quickly react to changes in these trends could lead to, among other things, rejection of a new product line and reduced demand and price reductions for our products, which could materially adversely affect us. Changes in consumer preferences may also lead to increased demand for our lower margin products relative to our higher margin products, which could reduce our future profitability.

Business Wins and Losses

Our customers consist mainly of wholesalers and retail home centers. In fiscal year 2017, our top ten customers together accounted for approximately 44% of our net sales and our top customer, The Home Depot, Inc. accounted for approximately 18% of our net sales. Net sales from customers that have accounted for a significant portion of our net sales in past periods, individually or as a group, may not continue in future periods, or if continued, may not reach or exceed historical levels in any period. Certain customers perform periodic product line reviews to assess their product offerings, which have, on past occasions, led to business wins and losses. In addition, as a result of competitive bidding processes, we may not be able to increase or maintain the margins at which we sell our products to our customers.

Foreign Exchange Rate Fluctuation

Our financial results may be adversely affected by fluctuating exchange rates. In the nine months ended September 30, 2018, and October 1, 2017, approximately 36% and 34% of our net sales were generated outside of the United States, respectively. In addition, a significant percentage of our costs during the same period were not denominated in U.S. dollars. For example, for most of our manufacturing and distribution facilities, the prices for a significant portion of our raw materials are quoted in the domestic currency of the country where the facility is located or other currencies that are not U.S. dollars. We also have substantial assets outside the United States. As a result, the volatility in the price of the U.S. dollar has exposed, and in the future may continue to expose, us to currency exchange risks. Also, since our financial statements are denominated in U.S. dollars, changes in currency exchange rates between the U.S. dollar and other currencies have had, and will continue to have, an impact on many aspects of our financial results. Changes in currency exchange rates for any country in which we operate may require us to raise the prices of our

products in that country or allow our competitors to sell their products at lower prices in that country. Unrealized exchange gains and losses arising from the translation of the financial statements of our non-U.S. functional currency operations are accumulated in the cumulative translation adjustments account in accumulated other comprehensive income (loss).

Table of Contents**MASONITE INTERNATIONAL CORPORATION***Inflation*

An increase in inflation has had and could have in the future a significant impact on our results of operations. Wage inflation, increased prices for raw materials or finished goods used in our products, higher inbound or outbound freight rates and/or interruptions in deliveries of raw materials or finished goods have had, and could continue to have, an adverse effect on our profitability, margins and net sales, particularly if we are not able to pass these incremental costs on to our customers. In addition, interest rates normally increase during periods of rising inflation. Historically, as interest rates increase, demand for new homes and home improvement products decreases. An environment of gradual interest rate increases may, however, signify an improving economy or increasing real estate values, which in turn may stimulate increased home buying activity.

Seasonality

Our business is moderately seasonal and our net sales vary from quarter to quarter based upon the timing of the building season in our markets. Severe weather conditions in any quarter, such as unusually prolonged warm or cold conditions, rain, blizzards or hurricanes, could accelerate, delay or halt construction and renovation activity.

Acquisitions

We have pursued a strategic initiative of optimizing our global business portfolio. As part of this strategy, in the last several years we have pursued strategic acquisitions targeting companies who produce components for our existing operations, manufacture niche products and provide value-added services. Additionally, we target companies with strong brands, complementary technologies, attractive geographic footprints and opportunities for cost and distribution synergies. We also continuously analyze our operations to determine which businesses, market channels and products create the most value for our customers and acceptable returns for our shareholders.

BWI: On November 1, 2018, we completed the acquisition of the operating assets of Bridgewater Wholesalers Inc. (“BWI”) for total consideration of approximately \$23 million, subject to certain customary post-closing adjustments. BWI is headquartered in Branchburg, New Jersey, and is a fabricator and distributor of residential interior and exterior door systems, supporting customers in the Mid-Atlantic and Northeastern United States. Their product offerings include residential interior and exterior doors, commercial doors and hardware as well as value added pre-finishing services. Due to the timing of the acquisition, the purchase price allocation was not complete as of the date the financial statements were issued.

Graham and Maiman: On June 1, 2018, we completed the acquisition of the operating assets of the wood door companies of AADG, Inc., including the brands Graham Manufacturing Corporation and The Maiman Company (collectively, “Graham & Maiman”). We acquired the operating assets of Graham & Maiman for cash consideration of \$39.0 million. Graham & Maiman are based in Mason City, Iowa, and Springfield, Missouri. Graham & Maiman provide the non-residential construction industry with a full range of architectural premium and custom grade flush wood doors, architectural stile and rail wood doors, thermal-fused flush wood doors and wood door frames.

DW3: On January 29, 2018, we completed the acquisition of DW3 Products Holdings Limited (“DW3”), a leading UK provider of high quality premium door solutions and window systems, supplying products under brand names such as Solidor, Residor, Nicedor and Residence. We acquired 100% of the equity interests in DW3, funded solely by cash on hand of \$96.3 million, net of cash acquired. DW3 is based in Stoke-on-Trent and Gloucester, England, and their online quick ship capabilities and product portfolio both complement and expand the strategies we are pursuing with our business.

A&F: On October 2, 2017, we completed the acquisition of A&F Wood Products, Inc. (“A&F”), through the purchase of 100% of the equity interests in A&F and certain assets of affiliates of A&F, funded solely by cash on hand of \$13.8 million, net of cash acquired. A&F is based in Howell, Michigan, and is a wholesaler and fabricator of architectural and commercial doors in the Midwest United States.

Three Months Ended September 30, 2018, Compared with Three Months Ended October 1, 2017**Net Sales**

Net sales in the three months ended September 30, 2018, were \$557.1 million, an increase of \$39.6 million or 7.7% from \$517.5 million in the three months ended October 1, 2017. Net sales in the third quarter of 2018 were negatively impacted by \$4.6 million as a result of foreign exchange rate fluctuations. Excluding this exchange rate impact, net sales would have increased by \$44.2 million or 8.5%. Our 2018 and 2017 acquisitions contributed \$37.9 million or 7.3% of incremental net sales in the third quarter of 2018. Average unit price increased net sales in the third quarter of 2018 by \$22.1 million or 4.3% compared to the 2017 period. Lower base volume decreased net sales by \$19.4 million or 3.7% in the third quarter of 2018 compared to the 2017 period. Net sales of components and other products to external customers were \$3.7 million higher in the third quarter of 2018 compared to the 2017 period.

North American Residential

Net sales to external customers from facilities in the North American Residential segment in the three months ended September 30, 2018, were \$368.3 million, an increase of \$4.1 million or 1.1% from \$364.2 million in the three months ended October 1, 2017. Net sales in the third quarter of 2018 were negatively impacted by \$3.9 million as a result of foreign exchange rate fluctuations. Excluding this exchange rate impact, net sales would have increased by \$8.0 million or 2.2%. Average unit price increased net sales in the third quarter of 2018 by \$15.6 million or 4.3% compared to the 2017 period. Lower volume decreased net sales in the third quarter of 2018 by \$9.0 million or 2.5% compared to the 2017 period, due to the previously-announced loss of certain retail business, which was partly offset by growth from wholesale customers. Net sales of components and other products to external customers were \$1.4 million higher in the third quarter of 2018 compared to the 2017 period.

Europe

Net sales to external customers from facilities in the Europe segment in the three months ended September 30, 2018, were \$91.2 million, an increase of \$16.4 million or 21.9% from \$74.8 million in the three months ended October 1, 2017. Net sales in the third quarter of 2018 were negatively impacted by \$0.3 million as a result of foreign exchange fluctuations. Excluding this exchange rate impact, net sales would have increased by \$16.7 million or 22.3%. Our 2018 acquisition of DW3 contributed \$18.5 million or 24.7% of incremental net sales in the third quarter of 2018. Average unit price increased net sales in the third quarter of 2018 by \$3.3 million or 4.4% compared to the 2017 period. Lower base volume decreased net sales by \$5.0 million or 6.7% in the third quarter of 2018 compared to the 2017 period, primarily due to softer end markets. Net sales of components and other products to external customers were \$0.1 million lower in the third quarter of 2018 compared to the 2017 period.

Architectural

Net sales to external customers from facilities in the Architectural segment in the three months ended September 30, 2018, were \$92.1 million, an increase of \$18.5 million or 25.1% from \$73.6 million in the three months ended

October 1, 2017. Net sales in the third quarter of 2018 were negatively impacted by \$0.4 million as a result of

32

Table of Contents**MASONITE INTERNATIONAL CORPORATION**

foreign exchange fluctuations. Excluding this exchange rate impact, net sales would have increased by \$18.9 million or 25.7%. Our 2018 acquisition of Graham & Maiman and our 2017 acquisition of A&F contributed \$19.4 million or 26.4% of incremental net sales in the third quarter of 2018. Average unit price increased net sales in the third quarter of 2018 by \$3.2 million or 4.3% compared to the 2017 period. Lower base volume decreased net sales in the third quarter of 2018 by \$5.9 million or 8.0% compared to the 2017 period, due to an extended recovery in demand following service-level issues encountered in the second half of 2017 and a planned slowdown associated with an ERP implementation at our Northumberland facility. Net sales of components and other products to external customers were \$2.2 million higher in the third quarter of 2018 compared to the 2017 period.

Cost of Goods Sold

Cost of goods sold as a percentage of net sales was 80.1% and 79.9% for the three months ended September 30, 2018, and October 1, 2017, respectively. Overhead, direct labor and depreciation as a percentage of net sales in the third quarter of 2018 increased by 0.4%, 0.2% and 0.1%, respectively. The overhead and direct labor increases were primarily attributable to manufacturing wage and benefit inflation. Partly offsetting these increases, distribution costs as a percentage of net sales in the third quarter of 2018 decreased by 0.5% compared to the 2017 period. Material costs in the third quarter of 2018 were flat as a percentage of sales compared to the third quarter of 2017, as material cost inflation was offset by increased average unit price.

Selling, General and Administration Expenses

In the three months ended September 30, 2018, selling, general and administration (“SG&A”) expenses, as a percentage of net sales, were 11.6% compared to 11.4% in the three months ended October 1, 2017, an increase of 20 basis points.

SG&A expenses in the three months ended September 30, 2018, were \$64.5 million, an increase of \$5.4 million from \$59.1 million in the three months ended October 1, 2017. The overall increase was driven by incremental SG&A from our 2018 and 2017 acquisitions of \$4.5 million, an increase in personnel costs of \$3.4 million, an increase in professional fees of \$1.0 million and other increases of \$0.1 million. These increases were offset by a \$3.4 million reduction of non-cash items in SG&A expenses, including share based compensation, depreciation and amortization, deferred compensation and loss on sale of fixed assets, as well as favorable foreign exchange impacts of \$0.2 million. The incremental SG&A from our 2018 and 2017 acquisitions was driven by amortization of intangible assets, the increase in personnel costs was primarily due to incentive compensation and the increase in professional fees was driven by acquisition costs.

Restructuring Costs, Net

There were no material restructuring costs in the three months ended September 30, 2018. Restructuring costs in the three months ended October 1, 2017, were \$1.4 million and were related to costs incurred for plant closure under the 2016 Plan. This plan is described in our Annual Report on Form 10-K for the year ended December 31, 2017.

Interest Expense, Net

Interest expense, net, in the three months ended September 30, 2018, was \$10.2 million, compared to \$7.2 million in the three months ended October 1, 2017. This increase primarily relates to the issuance of \$150.0 million aggregate principal amount of additional 2023 Senior Notes on September 27, 2017.

Loss on Debt Extinguishment

Loss on extinguishment of debt was \$5.4 million in the three months ended September 30, 2018, as we partially redeemed our senior unsecured notes due 2023. This charge represents the difference between the redemption price of our senior unsecured notes due 2023 of \$130.3 million and the net carrying amount of such notes of \$124.9 million. In addition to the \$125.0 million of principal, the redemption price included a make-whole premium of \$5.3 million and the net carrying amount included a proportional share of total debt issuance costs of \$1.1 million, partially offset by a proportionate share of total unamortized premiums of \$1.0 million.

Table of Contents**MASONITE INTERNATIONAL CORPORATION****Other Expense (Income), Net**

Other expense (income), net, in the three months ended September 30, 2018, was \$(1.1) million compared to \$(0.5) million in the three months ended October 1, 2017.

Income Tax Expense (Benefit)

Our income tax expense in the three months ended September 30, 2018, increased by \$0.2 million compared to the three months ended October 1, 2017, primarily due to the mix of income or losses within the tax jurisdictions with various tax rates in which we operate, income and losses in tax jurisdictions with existing valuation allowances, income tax benefits related to tax-exempt income and discrete income tax benefits of \$0.6 million in the three months ended September 30, 2018, compared to \$0.5 million of discrete income tax benefit recorded in the three months ended October 1, 2017. Discrete items may occur in any given year, but are not consistent from period to period.

Adjusted EBITDA in our North American Residential segment increased \$3.3 million, or 6.6%, to \$53.4 million in the three months ended September 30, 2018, from \$50.1 million in the three months ended October 1, 2017. Adjusted EBITDA in the North American Residential segment included corporate allocations of shared costs of \$13.7 million in both the third quarter of 2018 and 2017. The allocations generally consist of certain costs of human resources, legal, finance, information technology and research and development.

Table of Contents**MASONITE INTERNATIONAL CORPORATION**

Adjusted EBITDA in our Europe segment increased \$2.4 million, or 28.9%, to \$10.7 million in the three months ended September 30, 2018, from \$8.3 million in the three months ended October 1, 2017. This increase included the impact of the DW3 acquisition.

Adjusted EBITDA in our Architectural segment increased \$2.5 million, or 28.7%, to \$11.2 million in the three months ended September 30, 2018, from \$8.7 million in the three months ended October 1, 2017. This increase was primarily due to the impacts of the A&F and Graham & Maiman acquisitions. Adjusted EBITDA in the Architectural segment also included corporate allocations of shared costs of \$2.3 million in both the third quarter of 2018 and 2017. The allocations generally consist of certain costs of human resources, legal, finance, information technology and research and development.

Net sales in the nine months ended September 30, 2018, were \$1,641.8 million, an increase of \$117.4 million or 7.7% from \$1,524.4 million in the nine months ended October 1, 2017. Net sales in the first nine months of 2018 were positively impacted by \$17.3 million as a result of foreign exchange rate fluctuations. Excluding this exchange rate impact, net sales would have increased by \$100.1 million or 6.6%. Our 2018 and 2017 acquisitions contributed \$79.0 million or 5.2% of incremental net sales in the first nine months of 2018. Average unit price increased net sales in the first nine months of 2018 by \$52.5 million or 3.4% compared to the same period in 2017. Lower base volume decreased net sales by \$36.1 million or 2.4% in the first nine months of 2018 compared to the same period in 2017. Net sales of components and other products to external customers, were \$4.7 million higher in the first nine months of 2018 compared to the same period in 2017.

Net sales to external customers from facilities in the North American Residential segment in the nine months ended September 30, 2018, were \$1,105.8 million, an increase of \$35.7 million or 3.3% from \$1,070.1 million in the nine months ended October 1, 2017. Net sales in the first nine months of 2018 were positively impacted by \$2.7 million as a result of foreign exchange rate fluctuations. Excluding this exchange rate impact, net sales would have increased by \$33.0 million or 3.1%. Average unit price increased net sales in the first nine months of 2018 by \$26.3 million or 2.5% compared to the same period in 2017. Higher volume increased net sales in the first nine months of 2018 by \$3.4 million or 0.3% compared to the same period in 2017, as growth from wholesale customers was mostly offset by the previously-announced loss of certain retail business. Net sales of components and other products to external customers were \$3.3 million higher in the first nine months of 2018 compared to the same period in 2017.

Europe

Net sales to external customers from facilities in the Europe segment in the nine months ended September 30, 2018, were \$279.1 million, an increase of \$60.5 million or 27.7% from \$218.6 million in the nine months ended October 1, 2017. Net sales in 2018 were positively impacted by \$13.9 million as a result of foreign exchange fluctuations. Excluding this exchange rate impact, net sales would have increased by \$46.6 million or 21.3%. Our 2018 acquisition of DW3 contributed \$48.0 million or 22.0% of incremental net sales in the first nine months of 2018. Average unit price increased net sales in the first nine months of 2018 by \$13.4 million or 6.1% compared to the same period in 2017. Lower base volume decreased net sales in the first nine months of 2018 by \$14.9 million or 6.8% compared to the same period in 2017 due to unusually harsh weather conditions in the United Kingdom during the first quarter of 2018 and softer end markets. Net sales of components and other products to external customers were \$0.1 million higher in the first nine months of 2018 compared to the same period in 2017.

Architectural

Net sales to external customers from facilities in the Architectural segment in the nine months ended September 30, 2018, were \$240.5 million, an increase of \$21.6 million or 9.9% from \$218.9 million in the nine months ended October 1, 2017. Net sales in 2018 were positively impacted by \$0.4 million as a result of foreign exchange fluctuations. Excluding this exchange rate impact, net sales would have increased by \$21.2 million or 9.7%. Our 2018 acquisition of Graham & Maiman and our 2017 acquisition of A&F contributed \$31.0 million or 14.2% of incremental net sales in the first nine months of 2018. Average unit price increased net sales in the first nine months of 2018 by \$12.8 million or 5.8% compared to the 2017 period. Lower base volume decreased net sales in the first nine months of 2018 by \$24.0 million or 11.0% compared to the 2017 period, due to an extended recovery in demand following service-level issues encountered in the second half of 2017 and a planned slowdown associated with an ERP implementation at our Northumberland facility. Additionally, volume was slightly lower as a result of order flow in the first quarter due to timing of major projects. Net sales of components and other products to external customers were \$1.4 million higher in the first nine months of 2018 compared to the 2017 period.

Cost of Goods Sold

Cost of goods sold as a percentage of net sales was 79.3% and 79.9% for the nine months ended September 30, 2018, and October 1, 2017, respectively. Distribution and direct labor costs as a percentage of net sales in the first nine months of 2018 decreased by 0.4% and 0.2%, respectively. Depreciation and overhead costs as a percentage of net sales decreased by 0.1%, each, compared to the 2017 period. Partially offsetting these decreases, material cost of sales as a percentage of net sales in the first nine months of 2018 increased 0.2% over the 2017 period, due to inflation, partly offset by increases in average unit price.

Selling, General and Administration Expenses

In the nine months ended September 30, 2018, SG&A expenses, as a percentage of net sales, were 12.5% compared to 12.3% the nine months ended October 1, 2017, an increase of 20 basis points.

SG&A expenses in the nine months ended September 30, 2018, were \$204.6 million, an increase of \$16.6 million from \$188.0 million in the nine months ended October 1, 2017. The overall increase was driven by incremental SG&A from our 2018 and 2017 acquisitions of \$10.7 million, an increase in personnel costs of \$7.0 million, an increase in professional fees of \$1.8 million and unfavorable foreign exchange impacts of \$1.8 million. These increases were

37

Table of Contents**MASONITE INTERNATIONAL CORPORATION**

partially offset by a \$3.5 million reduction of non-cash items in SG&A expenses, including share based compensation, depreciation and amortization, deferred compensation and loss on sale of fixed assets, a \$1.1 million decrease in marketing costs and \$0.1 million of other decreases. The incremental SG&A from our 2018 and 2017 acquisitions was driven by amortization of intangible assets, the increase in personnel costs was primarily due to incentive compensation and the increase in professional fees was driven by acquisition costs.

Restructuring Costs, Net

There were no material restructuring costs in the nine months ended September 30, 2018. Restructuring costs in the nine months ended October 1, 2017, netted to \$1.0 million of loss and were related primarily to costs incurred for severance and plant closure under the 2016 Plan partly offset by a recovery of \$1.1 million received in the final settlement of the Stay of Proceedings in Israel as part of the 2014 Plan. These plans are described in our Annual Report on Form 10-K for the year ended December 31, 2017.

Loss (Gain) on Disposal of Subsidiaries

There was no loss (gain) on disposal of subsidiaries in the nine months ended September 30, 2018, compared to a loss of \$0.2 million in the nine months ended October 1, 2017. The prior year loss arose as a result of the liquidation of our legal entity in Hungary and is comprised of the recognition of the cumulative translation adjustment out of accumulated other comprehensive income (loss).

Interest Expense, Net

Interest expense, net, in the nine months ended September 30, 2018, was \$28.0 million, compared to \$21.3 million in the nine months ended October 1, 2017. This increase primarily relates to the issuance of \$150.0 million aggregate principal amount of additional 2023 Senior Notes on September 27, 2017.

Loss on Debt Extinguishment

Loss on extinguishment of debt was \$5.4 million in the nine months ended September 30, 2018, as we partially redeemed our senior unsecured notes due 2023. This charge represents the difference between the redemption price of our senior unsecured notes due 2023 of \$130.3 million and the net carrying amount of such notes of \$124.9 million. In addition to the \$125.0 million of principal, the redemption price included a make-whole premium of \$5.3 million and the net carrying amount included a proportional share of total debt issuance costs of \$1.1 million, partially offset by a proportionate share of total unamortized premiums of \$1.0 million.

Other Expense (Income), Net

Other expense (income), net, in the nine months ended September 30, 2018, was \$(2.3) million compared to \$(1.3) million in the nine months ended October 1, 2017.

Income Tax Expense (Benefit)

Our income tax expense in the nine months ended September 30, 2018, increased by \$7.5 million compared to the nine months ended October 1, 2017, primarily due to (i) the \$6.8 million reduction in discrete income tax benefit recorded as of the third quarter of 2018, which was driven by the \$5.7 million of benefit due to exercise and delivery of share-based awards as of the third quarter of 2017 compared to \$1.1 million of benefit as of the third quarter of 2018, and (ii) income and losses in tax jurisdictions with existing valuation allowances, including the increase in income tax expense in Canada due to the valuation allowance release recorded in the fourth quarter of 2017. Overall increases were partially offset by (i) the mix of income or losses within the tax jurisdictions with various tax rates in which we operate, including the decrease in tax rate in the United States resulting from the Tax Cuts and Jobs Act of 2017 and (ii) discrete income tax benefits of \$2.0 million recorded in the nine months ended September 30, 2018.

Adjusted EBITDA in our North American Residential segment increased \$13.1 million, or 8.8%, to \$162.8 million in the nine months ended September 30, 2018, from \$149.7 million in the nine months ended October 1, 2017. Adjusted EBITDA in the North American Residential segment included corporate allocations of shared costs of \$41.0 million in both 2018 and 2017. The allocations generally consist of certain costs of human resources, legal, finance, information technology and research and development.

Adjusted EBITDA in our Europe segment increased \$9.3 million, or 37.2%, to \$34.3 million in the nine months ended September 30, 2018, from \$25.0 million in the nine months ended October 1, 2017. This increase was primarily due to the impact of the DW3 acquisition.

Adjusted EBITDA in our Architectural segment increased \$9.5 million, or 44.4%, to \$30.9 million in the nine months ended September 30, 2018, from \$21.4 million in the nine months ended October 1, 2017. This increase included the impacts of the A&F and Graham & Maiman acquisitions. Adjusted EBITDA in the Architectural segment also included corporate allocations of shared costs of \$6.7 million in both 2018 and 2017. The allocations generally consist of certain costs of human resources, legal, finance, information technology and research and development.

Liquidity and Capital Resources

Our liquidity needs for operations vary throughout the year. Our principal sources of liquidity are cash flows from operating activities, the borrowings under our ABL Facility and accounts receivable sales program with a third party ("AR Sales Program") and our existing cash balance. Our anticipated uses of cash in the near term include working capital needs, capital expenditures and share repurchases. On a continual basis, we evaluate and consider strategic acquisitions, divestitures, and joint ventures to create shareholder value and enhance financial performance.

We believe that our cash balance on hand, future cash generated from operations, the use of our AR Sales Program, our ABL Facility, and ability to access the capital markets will provide adequate liquidity for the foreseeable future. As of September 30, 2018, we had \$192.8 million of cash and cash equivalents, availability under our ABL Facility of \$147.9 million and availability under our AR Sales Program of \$14.6 million.

MASONITE INTERNATIONAL CORPORATION

Cash Flows

Cash provided by operating activities was \$140.5 million during the nine months ended September 30, 2018, compared to \$98.1 million in the nine months ended October 1, 2017. This \$42.4 million increase in cash provided by operating activities was partially due to a \$7.0 million increase in our net income (loss) attributable to Masonite, adjusted for non-cash and non-operating items, with the balance attributable to changes in net working capital in the first nine months of 2018 compared to the same period in 2017.

Cash used in investing activities was \$188.0 million during the nine months ended September 30, 2018, compared to \$54.2 million in the nine months ended October 1, 2017. This \$133.8 million increase in cash used in investing activities was driven by \$135.3 million of cash used in the DW3 and Graham & Maiman acquisitions (net of cash acquired), partly offset by a \$1.0 million decrease in cash additions to property, plant and equipment and a decrease in other investing outflows of \$0.5 million in the first nine months of 2018 compared to the same period in 2017.

Cash provided by financing activities was \$63.4 million during the nine months ended September 30, 2018, compared to \$35.9 million during the nine months ended October 1, 2017. This \$27.5 million increase in cash provided by financing activities was driven by a net increase in debt-related transactions of \$10.2 million, a \$15.4 million decrease in cash used for repurchases of common shares and a \$2.6 million decrease in cash used for tax withholding on share based awards. These decreases in cash used were partially offset by a \$0.7 million increase in distributions to non-controlling interests in the first nine months of 2018 compared to the same period in 2017.

Share Repurchases

We currently have in place a \$600 million share repurchase authorization, stemming from three separate authorizations by our Board of Directors. On February 23, 2016, our Board of Directors authorized a share repurchase program whereby we may repurchase up to \$150 million worth of our outstanding common shares and on February 22, 2017, and May 10, 2018, our Board of Directors authorized an additional \$200 million and \$250 million, respectively (collectively, the “share repurchase programs”). The share repurchase programs have no specified end date and the timing and amount of any share repurchases will be determined by management based on our evaluation of market conditions and other factors. Any repurchases under the share repurchase programs may be made in the open market, in privately negotiated transactions or otherwise, subject to market conditions, applicable legal requirements and other relevant factors. The share repurchase programs do not obligate us to acquire any particular amount of common shares, and they may be suspended or terminated at any time at our discretion. Repurchases under the share repurchase programs are permitted to be made under one or more Rule 10b5-1 plans, which would permit shares to be repurchased when we might otherwise be precluded from doing so under applicable insider trading laws. During the nine months ended September 30, 2018, we repurchased and retired 1,464,700 of our common shares in the open market at an aggregate cost of \$94.5 million as part of the share repurchase programs. During the nine months ended October 1, 2017, we repurchased 1,654,628 of our common shares in the open market at an aggregate cost of \$109.9 million. As of September 30, 2018, \$276.4 million was available for repurchase in accordance with the share repurchase programs.

Other Liquidity Matters

Our cash and cash equivalents balance includes cash held in foreign countries in which we operate. Cash held outside Canada, in which we are incorporated, is free from significant restrictions that would prevent the cash from being accessed to meet our liquidity needs including, if necessary, to fund operations and service debt obligations in Canada. However, earnings from certain jurisdictions are indefinitely reinvested in those jurisdictions. Upon the repatriation of any earnings to Canada, in the form of dividends or otherwise, we may be subject to Canadian income taxes and withholding taxes payable to the various foreign countries. As of September 30, 2018, we do not believe adverse tax consequences exist that restrict our use of cash or cash equivalents in a material manner.

We also routinely monitor the changes in the financial condition of our customers and the potential impact on our results of operations. There has not been a change in the financial condition of a customer that has had a material

adverse effect on our results of operations. However, if economic conditions were to deteriorate, it is possible that there could be an impact on our results of operations in a future period and this impact could be material.

MASONITE INTERNATIONAL CORPORATION

Accounts Receivable Sales Program

We maintain an accounts receivable sales program with a third party (the "AR Sales Program"). Under the AR Sales Program, we can transfer ownership of eligible trade accounts receivable of certain customers. Receivables are sold outright to a third party that assumes the full risk of collection, without recourse to us in the event of a loss. Transfers of receivables under this program are accounted for as sales. Proceeds from the transfers reflect the face value of the accounts receivable less a discount. Receivables sold under the AR Sales Program are excluded from trade accounts receivable in the condensed consolidated balance sheets and are included in cash flows from operating activities in the condensed consolidated statements of cash flows. The discounts on the sales of trade accounts receivable sold under the AR Sales Program were not material for any of the periods presented and were recorded in selling, general and administration expense within the condensed consolidated statements of comprehensive income (loss).

Senior Notes

On August 27, 2018, we issued \$300.0 million aggregate principal senior unsecured notes (the "2026 Notes"). The 2026 Notes were issued in a private placement for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), and to buyers outside of the United States pursuant to Regulation S under the Securities Act. The 2026 Notes were issued without registration rights and are not listed on any securities exchange. The 2026 Notes bear interest at 5.75% per annum, payable in cash semiannually in arrears on March 15 and September 15 of each year and are due September 15, 2026. The 2026 notes were issued at par. We received net proceeds of \$295.7 million after deducting \$4.3 million of debt issuance costs. The debt issuance costs were capitalized as a reduction to the carrying value of debt and are being accreted to interest expense over the term of the 2026 Notes using the effective interest method. The net proceeds from issuance of the 2026 Notes were used to redeem \$125.0 million aggregate principal amount of the 2023 Notes (as described in the footnotes to the condensed consolidated financial statements), including the payment of related premiums, fees and expenses, with the balance of the proceeds available for general corporate purposes.

Obligations under the 2026 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis, by certain of our directly or indirectly wholly-owned subsidiaries. We may redeem the 2026 Notes under certain circumstances specified therein. The indenture governing the 2026 Notes contains restrictive covenants that, among other things, limit our ability and the ability of our subsidiaries to: (i) incur additional debt and issue disqualified or preferred stock, (ii) make restricted payments, (iii) sell assets, (iv) create or permit restrictions on the ability of our restricted subsidiaries to pay dividends or make other distributions to the parent company, (v) create or incur certain liens, (vi) enter into sale and leaseback transactions, (vii) merge or consolidate with other entities and (viii) enter into transactions with affiliates. The foregoing limitations are subject to exceptions as set forth in the indenture governing the 2026 Notes. In addition, if in the future the 2026 Notes have an investment grade rating from at least two nationally recognized statistical rating organizations, certain of these covenants will be terminated. The indenture governing the 2026 Notes contains customary events of default (subject in certain cases to customary grace and cure periods). As of September 30, 2018, we were in compliance with all covenants under the indenture governing the 2026 Notes.

On September 27, 2017, and March 23, 2015, we issued \$150.0 million and \$475.0 million aggregate principal senior unsecured notes, respectively (the "2023 Notes"). The 2023 Notes were issued in two private placements for resale to qualified institutional buyers pursuant to Rule 144A under the Securities Act, and to buyers outside the United States pursuant to Regulation S under the Securities Act. The 2023 Notes were issued without registration rights and are not listed on any securities exchange. The 2023 Notes bear interest at 5.625% per annum, payable in cash semiannually in arrears on March 15 and September 15 of each year and are due March 15, 2023. The 2023 Notes were issued at 104.0% and par in 2017 and 2015, respectively, and the resulting premium of \$6.0 million is being amortized to interest expense over the term of the 2023 Notes using the effective interest method. We received net proceeds of \$153.9 million and \$467.9 million, respectively, after deducting \$2.1 million and \$7.1 million of debt issuance costs in

2017 and 2015, respectively. The debt issuance costs were capitalized as a reduction to the carrying value of debt and are being accreted to interest expense over the term of the 2023 Notes using the effective interest method. The net proceeds from the 2017 issuance of the 2023 Notes are for general corporate purposes. The net proceeds from the 2015 issuance of the 2023 Notes, together with available cash balances, were used to redeem \$500.0 million aggregate principal of prior 8.25% senior unsecured notes due 2021 and to pay related premiums, fees and expenses.

Table of Contents**MASONITE INTERNATIONAL CORPORATION**

Obligations under the 2023 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis, by certain of our directly or indirectly wholly-owned subsidiaries. We may redeem the 2023 Notes under certain circumstances specified therein. The indenture governing the 2023 Notes contains restrictive covenants that, among other things, limit our ability and our subsidiaries' ability to: (i) incur additional debt and issue disqualified or preferred stock, (ii) make restricted payments, (iii) sell assets, (iv) create or permit restrictions on the ability of our restricted subsidiaries to pay dividends or make other distributions to us, (v) create or incur certain liens, (vi) enter into sale and leaseback transactions, (vii) merge or consolidate with other entities and (viii) enter into transactions with affiliates. The foregoing limitations are subject to exceptions as set forth in the indenture governing the 2023 Notes. In addition, if in the future the 2023 Notes have an investment grade rating from at least two nationally recognized statistical rating organizations, certain of these covenants will be replaced with a less restrictive covenant. The indenture governing the 2023 Notes contains customary events of default (subject in certain cases to customary grace and cure periods). As of September 30, 2018, we were in compliance with all covenants under the indenture governing the 2023 Notes.

ABL Facility

On April 9, 2015, we and certain of our subsidiaries entered into a \$150.0 million asset-based revolving credit facility (the "ABL Facility") maturing on April 9, 2020. The borrowing base is calculated based on a percentage of the value of selected U.S. and Canadian accounts receivable and inventory, less certain ineligible amounts. Obligations under the ABL Facility are secured by a first priority security interest in certain of the current assets of Masonite's United States and Canadian subsidiaries. In addition, obligations under the ABL Facility are fully and unconditionally guaranteed, jointly and severally, on a senior secured basis, by certain of our directly or indirectly wholly-owned subsidiaries. Borrowings under the ABL Facility bear interest at a rate equal to, at our option, (i) the Base Rate, Canadian Prime Rate or Canadian Base Rate (each as defined in the Amended and Restated Credit Agreement) plus a margin ranging from 0.25% to 0.75% per annum, or (ii) the Eurodollar Base Rate or BA Rate (each as defined in the Amended and Restated Credit Agreement), plus a margin ranging from 1.25% to 1.75% per annum. In addition to paying interest on any outstanding principal under the ABL Facility a commitment fee is payable on the undrawn portion of the ABL Facility in an amount equal to 0.25% per annum of the average daily balance of unused commitments during each calendar quarter.

The ABL Facility contains various customary representations, warranties and covenants by us that, among other things, and subject to certain exceptions, restrict Masonite's ability and the ability of our subsidiaries to: (i) pay dividends on our common shares and make other restricted payments, (ii) make investments and acquisitions, (iii) engage in transactions with our affiliates, (iv) sell assets, (v) merge and (vi) create liens. The Amended and Restated Credit Agreement amended the ABL Facility to, among other things, (i) permit us to incur unlimited unsecured debt as long as such debt does not contain covenants or default provisions that are more restrictive than those contained in the ABL Facility, (ii) permit us to incur debt as long as the pro forma secured leverage ratio is less than 4.5 to 1.0, and (iii) add certain additional exceptions and exemptions under the restricted payment, investment and indebtedness covenants (including increasing the amount of certain debt permitted to be incurred under an existing exception). As of September 30, 2018, and December 31, 2017, we were in compliance with all covenants under the credit agreement governing the ABL Facility and there were no amounts outstanding under the ABL Facility.

Supplemental Guarantor Financial Information

As described above, obligations under the ABL Facility are secured by a first priority security interest in substantially all of the current assets of Masonite and our subsidiaries. In addition, our obligations under the 2023 Notes and the ABL Facility are fully and unconditionally guaranteed, jointly and severally, by certain of our directly or indirectly wholly-owned subsidiaries. The following unaudited supplemental financial information for our non-guarantor subsidiaries is presented:

Our non-guarantor subsidiaries generated external net sales of \$490.4 million and \$1.4 billion for the three and nine months ended September 30, 2018, and \$446.0 million and \$1.3 billion for the three and nine months ended October 1, 2017, respectively. Our non-guarantor subsidiaries generated Adjusted EBITDA of \$59.5 million and \$175.7 million for the three and nine months ended September 30, 2018, and \$56.3 million and \$161.1 million for the three and nine months ended October 1, 2017, respectively. Our non-guarantor subsidiaries had total assets of \$1.8 billion and \$1.6 billion as of September 30, 2018, and December 31, 2017, respectively; and total liabilities of \$713.2 million and \$693.8 million as of September 30, 2018, and December 31, 2017, respectively.

Changes in Accounting Standards and Policies

Changes in accounting standards and policies are discussed in Note 1. Business Overview and Significant Accounting Policies in the Notes to the Condensed Consolidated Financial Statements in this Quarterly Report.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

For our disclosures about market risk, please see Part II, Item 7A., "Quantitative and Qualitative Disclosures about Market Risk," in our Annual Report on Form 10-K for the year ended December 31, 2017. We believe there have been no material changes to the information provided therein.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter covered by this Quarterly Report that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II – OTHER INFORMATION****Item 1. Legal Proceedings**

The information required with respect to this item can be found under "Legal Proceedings" in Note 9. Commitments and Contingencies in the Notes to the Condensed Consolidated Financial Statements in this Quarterly Report and is incorporated by reference into this Part II, Item 1. In addition, we are providing supplemental disclosure relating to the matter below.

United Kingdom Fire Door Testing and Review

The following discussion supplements, and should be read in conjunction with, the information previously reported in Part II, Item 1. "Legal Proceedings" in our Quarterly Report on Form 10-Q for the period ended July 1, 2018. In July 2018, the United Kingdom Ministry for Housing, Communities and Local Government ("MHCLG") issued a statement indicating that their interpretation of the applicable regulations requires testing of fire resistance on both sides of fire doors, in contrast with long-standing industry practice to test on the one side of a fire door perceived to be weaker. The MHCLG subsequently clarified that its new interpretation only applies to composite/fiberglass fire doors. Our composite/fiberglass fire doors have now been tested in accordance with the MHCLG's new interpretation and have passed. Following completion of this testing, we resumed the production of composite/fiberglass fire doors in the UK in the fourth quarter of 2018. Separately, as part of the MHCLG's extension of their industry-wide review to timber fire doors, the MHCLG requested that we provide timber fire doors to it for testing, which timber fire doors are expected to be tested in the fourth quarter of 2018.

Item 1A. Risk Factors

You should carefully review and consider the information regarding certain factors which could materially affect our business, financial condition or future results as set forth under Item 1A "Risk Factors" in our Annual Report on Form 10-K filed for the year ended December 31, 2017. There have been no material changes from the risk factors disclosed in such Annual Report on Form 10-K.

We currently have in place a \$600 million share repurchase authorization, stemming from three separate authorizations by our Board of Directors. On February 23, 2016, our Board of Directors authorized a share repurchase program whereby we may repurchase up to \$150 million worth of our outstanding common shares, and on February 22, 2017, and May 10, 2018, our Board of Directors authorized an additional \$200 million and \$250 million, respectively (collectively, the “share repurchase programs”). The share repurchase programs have no specified end date and the timing and amount of any share repurchases will be determined by management based on our evaluation of market conditions and other factors. Any repurchases under the share repurchase programs may be made in the open market, in privately negotiated transactions or otherwise, subject to market conditions, applicable legal requirements and other relevant factors. The share repurchase programs do not obligate us to acquire any particular amount of common shares, and they may be suspended or terminated at any time at our discretion. Repurchases under the share repurchase programs are permitted to be made under one or more Rule 10b5-1 plans, which would permit shares to be repurchased when we might otherwise be precluded from doing so under applicable insider trading laws. As of September 30, 2018, \$276.4 million was available for repurchase in accordance with the share repurchase programs.
