Yes

No

If marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-_____

PRESS RELEASE

AWARDED THE FIRST DESIGN, BUILD & OPERATE CONTRACT FOR THE WASTEWATER TREATMENT PLANT IN ROCKLAND COUNTY IN THE STATE OF NEW YORK

Paris, June 19, 2006. After a call for tender, Veolia Water North America, a Veolia Water subsidiary, has been awarded a contract to design, build and operate a wastewater treatment plant for Rockland County in the State of New York. It is the first design, build & operate contract for a greenfield wastewater treatment plant awarded in this state. The contract will generate total revenues of nearly 35 million euros (US\$45 million) for Veolia Water.

Veolia Water Solutions & Technologies, working through its US subsidiary, will be responsible for the design and build phase, in partnership with Jett Industries, Camp Dresser & McKee and Delaware Engineering. On completion of this two-year phase, Veolia Water North America will operate the plant under a five-year contract. The operating contract will include management of maintenance and repairs, sludge thickening and removal, and operation of an analysis and control laboratory.

The plant will be located in Hillburn, 30 km from New York City. It will have the capacity to treat 5 600 m³/day and will be equipped with state-of-the-art technology □ such as sequential batch reactors (ICEAS®) and ultraviolet disinfection □ delivering effluent quality treatment that exceeds the environmental standards set by the US Environmental Protection Agency and the legislation of the State of New York. The installation will be built in an enclosed structure to reduce odors.

According to Antoine Frérot, Head of the Water Division: "*The technologies used, combined with our know-how in wastewater treatment, will greatly enhance protection of surface water and groundwater by preserving the aquifer of Ramapo Valley, which supplies drinking water to over 280,000 inhabitants of Rockland country and one million people in New Jersey.*"

Edgar Filing: VEOLIA ENVIRONNEMENT - Form 6-K

Veolia Water, the water division of Veolia Environnement, is the world leader in water and wastewater services. Specialized in outsourcing services for municipal authorities, as well as industrial and service companies, it is also one of the world's major designers of technological solutions and constructor of facilities needed in water and wastewater services. Veolia Water serves 108 million people worldwide. With 70,700 employees, its 2005 revenues amounted to €8.9 billion www.veoliawater.com.

Veolia Water North America is the leader in municipal and industrial water services. The company serves over 600 communities and 15 million people throughout the USA.

Veolia Environnement (Paris Euronext: VIE and NYSE: VE) is world leader in environmental services.
