By Order of the Board of Directors,

Jill B.W Sisson, Secretary
March 29, 2002

PLEASE EXECUTE AND RETURN THE ENCLOSED PROXY CARD PROMPTLY, WHETHER OR NOT YOU INTEND TO BE PRESENT AT THE ANNUAL MEETING.

PROXY STATEMENT

This Proxy Statement is being furnished to holders of stock of Graphic Packaging International Corporation (the Company) in connection with the solicitation of proxies by the Board of Directors of the Company to be voted at the Annual Meeting of Shareholders on May 14, 2002 (the Meeting), for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. The Proxy Statement and the accompanying Proxy card are first being mailed to shareholders of the Company on or about March 29, 2002.

Time, Place and Purpose

The Meeting will be held at 10:30 a.m. (local time) on May 14, 2002 at the Ben Parker Student Center, Colorado School of Mines, 1600 Maple Street, Golden, Colorado. At the meeting the Shareholders of the Company will be asked to consider and vote upon the following proposals: (i) the election of two directors for a three-year term; (ii) to approve an amendment to the Company's Executive Incentive Plan to, among other things, increase the target performance bonus for the Chief Executive Officer/President from 55% to 60%, and (iii) the transaction of any other business that may properly come before the meeting.

Voting Procedure

If you return the signed proxy before the meeting, the shares will be voted according to your directions. UNLESS YOU INDICATE OTHERWISE ON YOUR PROXY CARD, THE SHARES WILL BE VOTED "FOR" BOTH DIRECTOR NOMINEES LISTED UNDER PROPOSAL 1 AND "FOR" PROPOSAL 2.

After giving a proxy, you may cancel it at any time before it is exercised by (1) delivering written notice to the Company, (2) substituting a new proxy executed at a later date, or (3) requesting, in person at the Annual Meeting, that the proxy be returned.

Who Can Vote and Votes Required

If you are a Shareholder of record at the close of business on March 26, 2002, you will be entitled to receive notice of and to vote at the meeting. At the close of business on March 1, 2002, there were approximately 32,366,279 shares of the Company's \$.01 par value common stock outstanding (the Common Stock) and 1,000,000 shares of the Company's \$.01 par value Series B 10% Preferred Stock (the Preferred Stock) outstanding. Each share of Common Stock is entitled to one vote, and each share of Preferred Stock is entitled to 24.242424 votes. A majority of the outstanding shares entitled to vote must be represented in person or by proxy at the meeting in order to constitute a quorum for the transaction of business. Cumulative voting is not allowed in the election of directors or for any other purposes.

With respect to the election of directors, you may vote "FOR" both nominees, you may withhold your vote for both nominees or you may withhold your vote for a specific nominee. If you withhold authority to vote for a director nominee in the election of directors, your vote will be excluded entirely and will have no effect.

If your shares are registered in the name of a broker or other "street name" nominee, your votes will only be counted as to those matters actually voted. If you do not provide voting instructions, (commonly referred to as "broker non-votes"), they will be counted for purposes of determining the presence or absence of a quorum for the transaction of business, but will not be voted in favor of the proposals. Under applicable Colorado law, abstentions and broker non-votes will have no effect on the outcome of the matters to be voted on at the Meeting.

1

Solicitation Costs

The solicitation of your proxy will initially be conducted by mail; however, further solicitations may be made by telephone or oral communication. Officers, directors and employees of the Company may solicit proxies but will not receive any special compensation. Also arrangements, including reimbursement for expenses in forwarding proxy materials, will be made with brokerage houses and other custodians, nominees and fiduciaries to forward proxy materials to beneficial owners of Common Stock. All of the expenses involved in preparing, assembling and mailing this Proxy Statement and the enclosed material will be paid for by the Company.

The Company

The Company was formed in August 1992 as a holding company for the packaging, ceramics, aluminum and developmental businesses formerly owned by Adolph Coors Company (ACCo). Effective December 27, 1992, ACCo distributed to its shareholders all then outstanding shares of the Company's Common Stock (the GPK Spin-Off). The principal subsidiary of ACCo is Coors Brewing Company (Coors Brewing or CBC). From 1992 to 1999, the Company developed a strategy of focusing on its core businesses, sold or closed the aluminum and developmental businesses, and acquired additional packaging businesses. Effective December 31, 1999, the Company distributed to its shareholders all the then outstanding shares of Common Stock of CoorsTek, the ceramics business (the CoorsTek Spin-Off). As a result, the core business of the Company is in the folding carton segment of the fiber-based product packaging industry conducted through the Company's subsidiary, Graphic Packaging Corporation. Unless the context indicates otherwise, the term the "Company" or "GPK" is used in this Proxy Statement to include Graphic Packaging International Corporation and any of its subsidiaries, including Graphic Packaging Corporation and its subsidiaries (collectively referred to as Graphic Packaging or GPC).

The balance of the retainer is paid in cash unless the director elects to take all or a portion of it in Common Stock. All shares of Common Stock received by directors are subject to forfeiture until completion of the annual term, which ends on the date of the annual shareholders' meeting following receipt of the shares. The Director Emeritus receives an annual retainer of \$20,000, twenty percent paid in

shares of Common Stock and the remainder paid in cash or stock, at his election.

Each non-employee director receives a grant of 2,000 non-qualified stock options at the beginning of his three-year term as director. The options vest in equal increments over the three-year period and expire, if unexercised, six years from the date they vest.

No additional amounts are paid to directors for committee meetings. Directors and the Director Emeritus are reimbursed for expenses incurred while attending Board or committee meetings and in connection with any other Company business. In addition, the Company purchases accidental death and dismemberment insurance for the non-employee directors and the Director Emeritus.

Jeffrey H. Coors, the only employee director, does not receive additional compensation for serving as director of the Company.

Family Relationships

Jeffrey H. Coors is the son of Joseph Coors and a nephew of William K. Coors.

PROPOSAL 2 AMENDMENT TO EXECUTIVE INCENTIVE PLAN

The Company is seeking shareholder approval of an amendment to the Company's Executive Incentive Plan (the Incentive Plan). The Board of Directors approved, subject to shareholder approval, an amendment to the Incentive Plan to increase the target performance bonus for the Chief Executive Officer/President from 55 percent to 60 percent of annual salary. In addition, the Plan has been amended to ensure compliance with the tax law requirements for performance-based compensation and the Company's ability to deduct the payments made upon attainment of performance goals by officers. The final change clarifies that performance bonuses are uncapped, except as required to comply with the Section 162(m) of the Internal Revenue Code.

The Incentive Plan is designed to reward participants for the achievement of performance goals set by the Compensation Committee. The Board of Directors believes that compensation tied to the financial performance of the Company provides a strong link between shareholder value and executive pay. The amendment to the Incentive Plan is being submitted for shareholder approval in order to

5

comply with the requirements of Section 162(m) of the Internal Revenue Code regarding performance-based compensation, so that amounts paid under the Plan are tax deductible to the Company. A summary of the features of the Incentive Plan appears below and is qualified in its entirety by reference to the terms of the Incentive Plan, a copy of which, as amended, may be obtained upon written request to the Company's Secretary.

Participation. Participants in the Incentive Plan are executive officers and division presidents (currently 8 persons).

Administration. The Incentive Plan is administered by the Compensation Committee, which consists entirely of outside directors. The Compensation Committee has the authority to determine performance goals, to establish terms and conditions of the various compensation incentives granted under the Incentive Plan, and to reduce an incentive award to adjust for an unintended benefit.

Awards. The Incentive Plan provides for payment of cash bonuses and grants of non-qualified stock options. Cash bonuses are awarded based on the achievement of financial goals established by the Compensation Committee at the beginning of the fiscal year. The financial goals may be one or more of the following: operating income, earnings before interest and taxes, return on net assets employed, return on equity, return on capital, return on invested capital, the ratio of debt to EBITDA (earnings before interest, taxes, depreciation and amortization), and earnings per share and/or cash flow of the Company or its divisions. Bonus awards as a percent of annual salary are the same for all participants except the Chief Executive Officer/President. If the financial goal is met, participants receive a "target" bonus of 50 percent of annual salary. As discussed above, the Chief Executive Officer/President may receive a "target" bonus of 55 percent of annual salary, which is proposed to be increased to 60 percent. The Compensation Committee also establishes a threshold level below which no bonus is earned. In addition, the Compensation Committee may establish long term plan goals and awards payable in cash and stock based upon the participant's level in the organization. Potential awards are uncapped and may exceed 100 percent of salary; however, the awards may not exceed certain maximums set to meet the Internal Revenue Code's Section 162(m) limitation. These maximum amounts are \$1.5 million for the Chief Executive Officer/President of the Company and \$1.0 million for all other eligible participants.

Stock options under the Incentive Plan are granted in conjunction with the Company's Equity Incentive Plan and are subject to all of the terms and conditions of the Equity Incentive Plan. The options are exercisable for a period of time as determined by the Compensation

Committee; however, no options may be exercised for at least six months after the date of grant. The exercise price of each option granted is the fair market value of the Company's stock at the time of grant. The option price may be paid in cash, by surrendering shares owned for more than six months or through irrevocable instructions to a broker to deduct the exercise price from the proceeds of the sale.

Determination of Award Payouts. The Compensation Committee established performance goals for 2002 under the Incentive Plan in November 2001. Cash bonus awards are based on the achievement of the pre-established performance goals under the Plan. For 2002, the Compensation Committee approved, pending Shareholder approval, an increase in the Chief Executive Officer/President's target bonus for his Short Term Incentive Plan (STIP) from 55 percent to 60 percent. We cannot calculate the expected result for 2002 because the bonus is based on a formula using financial goals and actual results for 2002, but we can calculate what the Chief Executive Officer/President would have received if we applied the change to 60 percent in 2001. The bonus in 2001, based on a 60 percent payout at target and using the 2001 financial goals pay-out at target and 2001 actual results would have been \$731,406.

Stock option grants under the Incentive Plan to executive officers, named in the Summary Compensation Table below, are subject to the discretion of the Compensation Committee. As of the

6

date of this proxy statement, there has been no determination by the Compensation Committee with respect to future awards under the Incentive Plan to any executive officer of the Company. Accordingly, future awards are not determinable. The table under "Executive Compensation Option/SAR Grants in Last Fiscal Year" provides information with respect to the grant of options during fiscal 2001 to the Company's chief executive officer and the other executive officers named in the Summary Compensation Table below.

Amendment. The Compensation Committee may amend the Incentive Plan without shareholder approval where it is not required to satisfy any statutory or regulatory requirements.

Change of Control. In the event of a change of control, as defined under the Incentive Plan, prorated cash bonuses will normally be calculated and paid, if any are earned. Also, outstanding stock option awards, which have not yet vested, will immediately vest and become exercisable.

Federal Income Tax Consequences. The grant of a non-qualified stock option is not taxable to the recipient. If the option is exercised, the optionee will recognize income equal to the difference between the fair market value at the time of exercise and the exercise price. At the time of exercise, the Company takes a deduction for an amount equal to the income recognized by the optionee.

Vote Required and Board of Directors' Recommendation

Approval requires the affirmative vote of a majority of the total votes cast on the proposal.

**THE BOARD OF DIRECTORS RECOMMENDS
THAT YOU VOTE "FOR" THIS PROPOSAL.**

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee (the "Committee") of the Board of Directors, which is composed entirely of independent directors, is responsible for all compensation matters regarding the Company's executive officers and for administering and granting awards under all executive compensation plans in which executive officers participate. The current members of the Committee are John Hoyt Stookey, who serves as Chairman, and James Peterson.

Compensation Policies

General

The Company's overall compensation philosophy is to link executives' total compensation to the short-term and long-term performance of the Company so as to maximize long-term shareholder value.

9

The total compensation package, consisting of salary, benefits, equity grants, an annual or short term incentive opportunity and a long term incentive program in the form of cash and stock options is designed to attract, motivate and retain the quality of executives needed to successfully lead and manage the Company. This package intentionally ties a sizable portion of the executives' total compensation to Company performance and shareholder value. During 2001, reducing the debt load of the Company was extremely important. This package was very effective at producing outstanding results.

Salary

External market salary data is targeted at the median (the 50th percentile) of salaries paid by similar-sized manufacturing companies as determined from the data in national salary surveys, a large group of manufacturing companies. The data is gathered and reported to the Company by the Corporate Compensation Manager. Salary data collected reflects companies with the same sales revenue as that of the Company. An executive officer is paid competitively in market salary range depending upon the individual's level of experience, expertise and specific job performance. Salaries are reviewed annually and any increases are approved by taking into account the Company's actual financial performance, the executive officer's performance in meeting Company goals and competitive salary data. The Company does not assign a predetermined specific weight to these items.

Annual Short-Term Incentive Plan 2001

The Annual Short Term Incentive Plan (STIP) for 2001 provided for targeted cash bonuses equal to 50 percent (55% for the Chief Executive Officer/President) of base salary if certain predetermined financial goals were achieved. These financial goals were based on the achievement of a targeted ratio of debt to earnings before interest, taxes, depreciation, and amortization (EBITDA) for GPC executive officers. The goals were set by the Committee in December 2000 and included a "threshold" level below which no bonus would be earned. Potential awards are uncapped and may exceed 100 percent of salary. Payout of the 2001 STIP awards has reinforced the importance of reducing debt. For 2001, the cash bonus paid to the Chief Executive Officer, President was 126.5 percent and for all other executive officers was 115.0 percent of base salary.

Long-Term Incentive Program

The Long Term Incentive Program (LTIP) provides a simple but effective method of aligning the interests of the shareholders with those making important strategic and operating decisions. In January 2001, the objectives of the program, to provide an incentive to Officers and Key Executives to focus their efforts on achieving the key financial goal of improving the company's Debt/EBITDA ratio and to retain officers and key executives, were communicated to Officers and Key Executives of the Company.

The incentive has a total target of approximately three times base compensation over a 4-year period. The incentive has two components: (1) Cash Target and (2) Stock Options.

Performance is measured by achievement of the ratio of debt to EBITDA. Cash Targets and Stock Option Grants are set for each Officer and Key Executive. The benefit is to significantly reduce debt without negatively impacting EBITDA. This measure was included in both the STIP and the LTIP to highlight the importance. The award opportunities will recognize the success the Company experiences in reducing debt.

Edgar Filing: GRAPHIC PACKAGING INTERNATIONAL CORP - Form DEF 14A

Fifty percent of the Cash Targets and Stock Option Grants will be triggered when the Debt to EBITDA ratio has reached 3.5 and an additional 50 percent when the ratio reaches 3.0, based on two sequential quarter averages, annualized.

10

Executive officers may elect to defer up to 100 percent of the short-term and long-term bonuses. Amounts deferred are deemed to be invested, at the executive officer's election, in either a fixed rate fund or in a stock units fund, provided the bonus is deferred for a minimum of two years. Bonuses deemed invested in the fixed rate fund earn simple interest during the deferral period equal to the average rate for 10-year Treasury notes plus two points. The bonus plus accrued interest is paid in cash at the end of the deferral period. Bonuses deemed invested in the stock units fund are denominated as a specific number of shares of Common Stock by using the market value of these shares at the time of the investment divided by the amount of the bonus invested in stock units. In addition, the holder of stock units receives one non-qualified stock option for each two stock units taken in place of the cash bonus. The options vest ratably over two years and have a 10-year term. This provision is designed to further encourage stock ownership by the executives. At the end of the deferral period, the stock units are paid by issuing an equal number of shares of Common Stock.

Equity Grants

Equity grants are variable compensation and tied 100 percent to the future performance of the Company's Common Stock. The Company's equity plan currently allows for equity grants of non-qualified stock options, restricted shares, stock units and bonus shares.

Chief Executive Officer Compensation

Each year the President/Chief Executive Officer evaluates his/her performance against certain goals approved by the Committee; in 2001 it was debt to EBITDA. The Committee considers this self-evaluation at the time it does its own evaluation of the President and Chief Executive Officer's performance.

The salary for the President/Chief Executive Officer is targeted to be competitive with the median (the 50th percentile) salary of the top executive in similar-sized manufacturing companies.

The President/Chief Executive Officer participated in the annual incentive opportunity described above and earned a bonus for 2001. The target bonus opportunity was increased to 55% since the President/Chief Executive Officer elected not to take a pay increase in 2001. For 2002, the Board of Directors has approved an increase to the target bonus from 55% to 60%, pending shareholder approval.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code generally limits the Company's tax deduction for compensation paid to the executive officers named in the Summary Compensation Table, which follows this report, to \$1 million unless certain requirements are met.

The Committee has taken and intends to continue taking the necessary steps to ensure that the Company's tax deduction is preserved and not limited by the \$1 million deductibility cap. In particular, the Committee sought and obtained shareholder approval for the Company's Executive Incentive Plan and its Equity Incentive Plan, as required under Section 162(m) and is seeking approval of an amendment to the Executive Incentive Plan at the 2002 Shareholders Meeting.

- (1) All options are granted at the Common Stock's market value on the grant date, and each grant has an expiration date as specified in the table. All options vest in the event of a change in control. The option price may be paid in cash, by surrendering shares owned for more than 6 months, or through irrevocable instructions to a broker to deduct the option price from the proceeds of the sale. Options include the right to have shares withheld by the Company to pay withholding tax obligations due in connection with the exercise.
- (2) Values indicated are an estimate based on the Black-Scholes option pricing model using the following assumptions: (a) 70.04 percent stock price volatility based on the average stock price volatility of the Company's stock; (b) 3.97 percent average risk-free rate of return; (c) zero dividend yield; (d) anticipated exercising at the end of the option term; and (e) no adjustment for non-transferability or risk of forfeiture. The actual value realized will be determined by the excess of the stock price over the exercise price on the date the option is exercised. There is no certainty the actual value realized would be at or near the value estimated by the Black-Scholes option-pricing model.
- (3) Options granted at the time of employment which vest as follows: 50% shall vest if the Company's debt/EBITDA ratio reaches 3.5; the remaining 50% shall vest when the Company's debt/EBITDA ratio reaches 3.0. The debt/EBITDA ratio shall be based upon two sequential quarter averages annualized, as calculated by the Company. On January 1, 2007 any increment not yet exercisable as a result of the preceding shall become fully exercisable.

(1) Maximum permissible benefit under ERISA from the qualified Retirement Plan for 2001 was \$140,000. In addition, the maximum compensation for 2001 which may be used in determining benefits from the qualified Retirement Plan is \$170,000. The Company has a non-qualified supplemental retirement plan which provides the benefits which are not payable from the qualified Retirement Plan because of the limitations. The amounts shown in this table include the benefits payable under the non-qualified supplemental retirement plan. The benefit is computed on the basis of a straight life annuity and is subject to a reduction to reflect, in part, the payment of Social Security benefits.

(2) The compensation covered by the Retirement Plan is salary only and does not include any of the other compensation items shown on the summary compensation table. The salary used to compute benefits is the average highest salary amount over a 36 consecutive month period in the last ten years. As of fiscal year-end 2001, average annual compensation covered by the Retirement Plan and

credited years of service with the Company, including previous compensation and years of service with ACCo and its subsidiaries, for the named executives are as follows: Jeffrey H. Coors \$513,893 and 34 years; David W. Scheible \$296,365 and 3 years; Luis E. Leon \$325,000 and 1 year; Gail A. Constancio \$197,279 and 15 years; Jill B.W. Sisson \$216,777 and 9 years; and Marsha C. Williams \$194,760 and 2 years.

Employment Contracts, Termination of Employment and Change in Control Arrangements

The Company has entered into an agreement (a Change of Control Agreement) with each of the named executive officers. Each Change of Control Agreement provides for certain payments and benefits upon the termination of the employment of such person within three years following a Change of Control (as defined in such agreement). Each Change of Control Agreement requires the Company to (a) pay to each executive officer if prior to the expiration of the three year period his or her employment is terminated without cause by the Company or by such officer upon the occurrence of certain constructive termination events, an amount equal to three times that officer's annual salary at the highest rate paid during the twelve month period immediately preceding termination plus the highest annual bonus rate paid during the three years preceding the termination, and (b) continue certain benefits for a period of thirty-six months. Also upon change of control, all unvested stock options immediately vest and may be converted into options of the surviving corporation or paid in cash. In addition, if any payments (including payments under the Change of Control Agreement, any stock option agreement or otherwise) to such officer are determined to be "excess parachute payments" under the Internal Revenue Code of 1986, as amended (the "Code"), the officer would be entitled to receive an additional payment (net of income taxes) to compensate him or her for any excise tax imposed by the Code on such payments.

Compensation received by the named executives upon retirement includes normal retirement benefits and, for Jeffrey Coors, Chairman, Chief Executive Officer/President, a number of shares of stock to be granted under the salary continuation agreements described above in footnote 2 to the Summary Compensation Table. In addition, in the case of a change in control of the Company, the Company's compensation plans will be affected as follows: (1) under the Equity Incentive Plan, all outstanding options will become exercisable in full and all stock units will become payable in full; (2) under the Executive Incentive Plan (the annual incentive plan), the plan will terminate and prorated bonuses will be calculated and paid, if earned; (3) under the deferred compensation plan, distributions of deferred amounts will be made in a lump sum within 90 days after the change in control; and (4) under the salary continuation agreements, stock units vest 100 percent without regard to the executive's age or service. The definition of change in control for these purposes is as follows: (i) The acquisition of, or the ownership of, 50 percent or more of the total Common Stock of the Company then issued and outstanding, by any person, or group of affiliated persons, or entities not affiliated with the Company as of the effective dates of these plans, without the consent of the Board of Directors, or (ii) The election of individuals constituting a majority of the Board of Directors who were not either (A) members of the Board of Directors prior to the election or (B) recommended to the shareholders by management of the Company, or (iii) A legally binding and final vote of the shareholders of the Company in favor of selling all or substantially all of the assets of the Company.

Compensation Committee Interlocks and Insider Participation

During 2001, John H. Mullin, III, and John Hoyt Stookey served on the Compensation Committee until May 2001, when Mr. Mullin's term as a director ended. Since May 2001, Mr. Stookey and James

15

Section 16(a) Beneficial Ownership Reporting Compliance

Under Section 16(a) of the Securities Exchange Act of 1934, as amended, the Company's directors and certain of its officers, and persons holding more than ten percent of the Company's Common Stock are required to file forms reporting their beneficial ownership of the Company's Common Stock and subsequent changes in that ownership with the Securities and Exchange Commission. Such persons are also required to furnish the Company with copies of all forms so filed.

Based solely upon a review of copies of such forms filed on Forms 3, 4 and 5, and amendments thereto furnished to the Company, the Company believes that during the year ended December 31, 2001, its executive officers, directors and greater than ten percent beneficial owners complied on a timely basis with all Section 16(a) filing requirements.

Transactions with Adolph Coors Company

In connection with the GPK Spin-Off from ACCo, certain subsidiaries entered into market-based, long-term supply agreements with Coors Brewing to provide packaging and other products to Coors Brewing for use in its business.

Edgar Filing: GRAPHIC PACKAGING INTERNATIONAL CORP - Form DEF 14A

Under the packaging supply agreement, Coors Brewing agreed to purchase and the Company agreed to supply substantially all of Coors Brewing's paperboard and label packaging requirements through 1997. In early 1997, this agreement was modified and extended to a three-year, rolling term contract, and in 1998 was renegotiated through 2002. Total sales under the packaging contract have been a material source of revenue for the Company, accounting for sales of approximately \$122,800,000 in 2001 and are anticipated to be approximately \$129,500,000 in 2002.

In addition, a subsidiary of the Company is the general partner and Coors Brewing is a limited partner in a real estate partnership, which owns, develops, operates and sells certain real estate previously owned by Coors Brewing or ACCo. Distributions were allocated equally between the partners until late 1999 when Coors Brewing recovered its investment. Thereafter distributions are made 80% to the general partner and 20% to Coors Brewing.
