INFORMATION CONTAINED IN THIS FORM 6-K REPORT

Attached hereto as Exhibit 1 is an update with respect to recent developments in the business of Star Bulk Carriers Corp. (the “Company”).

This Report on Form 6-K is hereby incorporated by reference into the Company’s registration statement on Form F-3 (File No. 333-153304) filed with the U.S. Securities and Exchange Commission on September 2, 2008, as amended.

Recent Developments

The Company entered into its first contract of affreightment, or COA, with Companhia Vale do Rio Doce. The contract calls for transporting approximately 700,000 tonnes of iron ore between Brazil and China in four Capesize vessel shipments with the first such shipment scheduled to commence during the first quarter of 2009.

On February 5, 2009 the Company committed the Star Alpha to the first shipment under the COA referenced above to transport iron ore between Brazil and China. The Star Alpha was redelivered to the Company by its previous charterers approximately one month earlier than the earliest date allowed under the charterparty, after having completed repairs of 25 days duration. Arbitrators' proceedings have commenced pursuant to disputes that have arisen with such previous charterers of the Star Alpha relating to vessel performance characteristics and hire. The Company has notified the charterers that it will seek additional damages in connection with the early redelivery in the current arbitration.

On January 27, 2009, the Star Gamma commenced a three year time charter at a gross daily average rate of \$38,000.

On January 28 2009, the Star Epsilon commenced a five year time charter at a gross daily rate of \$32,400.

On February 2, 2009, the Company entered into a one year time charter agreement for the Star Delta at a gross daily rate of \$11,250. This vessel is expected to be delivered to the new charterer by mid-February 2009.
