6

**Bond Ratings**

*(unaudited)*

The definitions of the applicable rating symbols are set forth below:

## Edgar Filing: SALOMON BROTHERS MUNICIPAL PARTNERS FUND II INC - Form N-Q

*Standard & Poor's Ratings Service* (*Standard & Poor's*) ratings from [AA] to [CCC] may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.

AAA [Bonds rated [AAA] have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.

AA [Bonds rated [AA] have a very strong capacity to pay interest and repay principal and differ from the highest rated issues only in a small degree.

A [Bonds rated [A] have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.

BBB [Bonds rated [BBB] are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.

BB, B, CCC and CC [Bonds rated [BB], [B], [CCC] and [CC] are regarded, on balance, as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. [BB] represents a lower degree of speculation than [B], and [CC] the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.

*Moody's Investors Service* (*Moody's*) numerical modifiers 1, 2 and 3 may be applied to each generic rating from [Aa] to [Ba], where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa [Bonds rated [Aaa] are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as [gilt edge.] Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.

Aa [Bonds rated [Aa] are judged to be of high quality by all standards. Together with the

[Aaa] group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large in [Aaa] securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in [Aaa] securities.

A [Bonds rated [A] possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.

Baa [Bonds rated [Baa] are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.

Ba [Bonds rated [Ba] are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate and therefore not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.

NR [Indicates that the bond is not rated by Standard & Poor's or Moody's.

### Short-Term Security Ratings

(unaudited)

SP-1 □ Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.

A-1 □ Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.

VMIG-1 □ Moody's highest rating for issues having a demand feature □ VRDO.

P-1 □ Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG-1 rating.

### Note 1. Organization and Significant Accounting Policies

Salomon Brothers Municipal Partners Fund II Inc. (□Fund□) was incorporated in Maryland and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended.

The following is a summary of significant accounting policies consistently followed by the Fund and is in conformity with U.S. generally accepted accounting principles (□GAAP□):

**(a) Investment Valuation.** Tax-exempt securities are valued by independent pricing services which use prices provided by market-makers or estimates of market values obtained from yield data relating to instruments or securities with similar characteristics. When market quotations or official closing prices are not readily available, or are determined not to reflect accurately fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded (for example, a foreign exchange or market), but before the Fund calculates its net asset value, the Fund may value these investments at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term investments having maturity of 60 days or less are valued at amortized cost, which approximates market value.

**(b) Investment Transactions.** Investment transactions are recorded on the trade date.

**(c) Fund Concentration.** Since the Fund invests a portion of its assets in issuers located in a single state, it may be affected by economic and political developments in a specific state or region. Certain debt obligations held by the Fund are entitled to the benefit of insurance, standby letters of credit or other guarantees of banks or other financial institutions.

## Note 2. Investments

At September 30, 2004, the aggregate gross unrealized appreciation and depreciation of investments for Federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 6,136,012
Gross unrealized depreciation	(262,720)
Net unrealized appreciation	\$ 5,873,292
