Cautionary Statement Regarding Forward-Looking Statements

Statements in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding management's expectations, hopes, intentions or strategies regarding the future. Forward-looking statements include statements regarding the Trust's future operations and prospects, the markets for real estate in the areas in which the Trust owns real estate, applicable zoning regulations, the markets for oil and gas, production limits on prorated oil and gas wells authorized by the Railroad Commission of Texas, expected competition, management's intent, beliefs or current expectations with respect to the Trust's future financial performance and other matters. All forward-looking statements in this Report are based on information available to us as of the date this Report is filed with the Securities and Exchange Commission, and we assume no responsibility to update any such forward-looking statements, except as required by law. All forward-looking statements are subject to a number of risks, uncertainties and other factors that could cause our actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, the factors discussed in Item 1A "Risk Factors" of Part I of our Annual Report to the Securities and Exchange Commission on Form 10-K and Form 10-K/A for the year ended December 31, 2009, and in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Part II, Item 1A "Risk Factors" of this Quarterly Report on Form 10-Q.

TEXAS PACIFIC LAND TRUST

Notes To Unaudited Financial Statements

March 31, 2010

- (1) In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of Texas Pacific Land Trust (the "Trust") as of March 31, 2010 and the results of its operations for the three month periods ended March 31, 2010 and 2009, respectively, and its cash flows for the three month periods ended March 31, 2010 and 2009, respectively. The financial statements and footnotes included herein should be read in conjunction with the Trust's annual financial statements as of December 31, 2009 and 2008 and for each of the years in the three year period ended December 31, 2009 included in the Trust's Annual Report on Form 10-K and Form 10-K/A for the year ended December 31, 2009.
- (2) In June 2009, the FASB issued a standard which stipulated the FASB Accounting Standards Codification is the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. This standard is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The implementation of this standard did not have a material impact on the Trust's financial position, results of operations and cash flows.
- (3) We evaluate events that occur after the balance sheet date but before financial statements are, or are available to be, issued to determine if a material event requires our amending the financial statements or disclosing the event. We evaluated subsequent events through May 5, 2010, the date we issued these financial statements.
- (4) No value has been assigned to the land held by the Trust other than parcels which have been acquired through foreclosure and a limited number of parcels which have been acquired because they were offered for sale and were contiguous to parcels already owned by the Trust. Consequently, no allowance for depletion is computed, and no charge to income is made, with respect thereto, and no cost is deducted from the proceeds of the land sales in computing gain or loss thereon.
- (5) The Sub-shares and the Certificates of Proprietary Interest are freely interchangeable in the ratio of one Certificate of Proprietary Interest for 3,000 Sub-shares or 3,000 Sub-shares for one Certificate of Proprietary Interest.
- (6) The Trust's effective Federal income tax rate is less than the 34% statutory rate because taxable income is reduced by statutory percentage depletion allowed on mineral royalty income.
- (7) The results of operations for the three month period ended March 31, 2010 are not necessarily indicative of the results to be expected for the full year.
- (8) The Trust invests cash in excess of daily requirements primarily in U.S. Treasury Bills, certificates of deposit, bank deposits and savings accounts with maturities of ninety days or less. Such investments are deemed to be highly liquid debt instruments and classified as cash equivalents for purposes of the statements of cash flows.

Supplemental cash flow information for the three month periods ended March 31, 2010 and 2009 is summarized as follows:

| | 2010 | 2009 |
|-------------------|----------|------|
| Income taxes paid | \$60,000 | \$ — |

(9) ASC 280, “Segment Reporting,” establishes standards for the way public business enterprises are to report information about operating segments. In accordance with ASC 280, the Trust utilizes the management approach as a basis for identifying reportable segments. The management approach is based on the way that management organizes the segments within the enterprise for making operating decisions and assessing performance. The Trust’s management views its operations as one segment and believes the only significant activity is managing the land which was conveyed to the Trust in 1888. The Trust’s management makes decisions about resource allocation and performance assessment based on the same financial information presented in these financial statements. Managing the land includes sales and leases of such land, and the retention of oil and gas royalties.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read together with (i) the factors discussed in Item 1A “Risk Factors” of Part I of our Annual Report to the Securities and Exchange Commission on Form 10-K and Form 10-K/A for the year ended December 31, 2009, (ii) the factors discussed in Part II, Item 1A “Risk Factors,” if any, of this Quarterly Report on Form 10-Q and (iii) the Financial Statements, including the Notes thereto, and the other financial information appearing elsewhere in this Report. Period-to-period comparisons of financial data are not necessarily indicative, and therefore should not be relied upon as indicators, of the Trust’s future performance. Words or phrases such as “does not believe” and “believes”, or similar expressions, when used in this Form 10-Q or other filings with the Securities and Exchange Commission, are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

Results of Operations for the Quarter Ended March 31, 2010 Compared to the Quarter Ended March 31, 2009

Earnings per sub-share were \$.25 for the first quarter of 2010 compared to \$.07 for the first quarter of 2009. Total operating and investing revenues for the first quarter of 2010 were \$4,251,398 compared to \$1,866,077 for the first quarter of 2009, an increase of 127.8%. This increase in revenue and earnings was due primarily to an increase in oil and gas royalty revenue, and, to a lesser extent, increases in land sales and easement and sundry income.

In the first quarter of 2010 the Trust sold approximately 1,381 acres and 223 town lots (approximately 42 acres) for a total of \$367,320, or approximately \$258 per acre. No land was sold during the first quarter of 2009.

Rentals, royalties and sundry income were \$3,599,915 during the first quarter of 2010 compared to \$1,536,559 during the first quarter of 2009, an increase of 134.3%. This increase resulted primarily from increases in oil and gas royalty income, and, to a lesser extent, increases in land sales and easement and sundry income, offset by a slight decrease in grazing income.

Oil and gas royalty revenue was \$2,946,538 for the first quarter of 2010, compared to \$1,192,739 for the first quarter of 2009, an increase of 147.0%. Oil royalty revenue was \$2,085,404 for the first quarter of 2010, an increase of 156.8% from the first quarter of 2009. This increase was due to increases in both price and volume. The average price per royalty barrel of crude oil during the first quarter of 2010 was 91.2% higher than the average price prevailing during the first quarter of 2009. In addition,

crude oil production subject to the Trust's royalty interest increased 34.4% in the first quarter of 2010 compared to the first quarter of 2009. Gas royalty revenue was \$861,134 for the first quarter of 2010, an increase of 126.1% from the first quarter of 2009 when gas royalty income was \$380,788. This increase in gas royalty income is attributable to a volume increase of 67.6% and a price increase of 34.9% in the 2010 first quarter compared to the first quarter of 2009.

Easement and sundry income was \$559,737 for the first quarter of 2010, an increase of 120.1% compared to the first quarter of 2009. This increase is primarily due to increases in sundry income, sundry lease rental income and pipeline easement income. This category of income is unpredictable and may vary significantly from quarter to quarter.

Interest income, including interest on investments, was \$284,163 for the first quarter of 2010, a decrease of 13.8% from the first quarter of 2009. Interest on notes receivable was \$277,947 for the first quarter of 2010, a decrease of 11.0% compared to the first quarter of 2009. As of March 31, 2010, notes receivable for land sales were \$15,485,925 compared to \$17,428,226 at March 31, 2009. Sundry interest was \$6,216 for the first quarter of 2010 compared to \$17,099 for the first quarter of 2009, a decrease of 63.3%. Sundry interest is affected by such variables as cash on hand for investment and the rate of interest on short-term investments.

Taxes, other than income taxes, increased 86.5% for the first quarter of 2010 compared to the first quarter of 2009. The increase is primarily due to the increase in oil and gas production taxes which resulted from the increase in oil and gas royalty revenue discussed above.

General and administrative expenses for the first quarter of 2010 were up 2.0% compared to the first quarter of 2009. This increase was primarily due to an increase in legal expenses.

Liquidity and Capital Resources

The Trust's principal sources of liquidity are revenues from oil and gas royalties, lease rentals and receipts of interest and principal payments on the notes receivable arising from land sales. In the past, those sources have generated more than adequate amounts of cash to meet the Trust's needs and, in the opinion of management, should continue to do so in the foreseeable future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in the information related to market risk of the Trust since December 31, 2009.

Item 4. Controls and Procedures

Pursuant to Rule 13a-15, management of the Trust under the supervision and with the participation of Roy Thomas, the Trust's Chief Executive Officer and David M. Peterson, the Trust's Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures as of the end of the Trust's fiscal quarter covered by this Report on Form 10-Q. Based upon that evaluation, Mr. Thomas and Mr. Peterson concluded that the Trust's disclosure controls and procedures are effective in timely alerting them to material information relating to the Trust required to be included in the Trust's periodic SEC filings.

There have been no changes in the Trust's internal control over financial reporting during the Trust's most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II
OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes in the risk factors previously disclosed in response to Item 1A “Risk Factors” of Part I of the Trust’s Annual Report to the Securities and Exchange Commission on Form 10-K and Form 10-K/A for the year ended December 31, 2009.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) During the first quarter of 2010, the Trust repurchased Sub-share certificates as follows:
