THE NEW GERMANY
FUND, INC.

LETTER TO THE SHAREHOLDERS

February 4, 2005

Dear Shareholders,

We are pleased to report that for the fiscal year ended December 31, 2004, The New Germany Fund's total return based on net asset value was 24.44%, while the fund's benchmark, the Midcap Market Performance Index, rose 23.46% during the same period. The fund's total return based on its share price was 30.50% in USD terms. Please see page 2 for the fund's standardized performance as of December 31, 2004.

The strong performance of The New Germany Fund occurred in a year marked by significant global growth, although energy prices put a damper on the strong upturn in the second half of 2004. The United States and the emerging-market economies will likely remain the main engines of growth in 2005, while Euroland will continue to lag. In 2004, German gross domestic product (GDP) grew in nonworking-day-adjusted terms by 1.7% year-over-year, the strongest rate since 2000. The main pillar of growth was export industries, but the domestic economy also contributed slightly to overall GDP growth in 2004. Consumption was again a drag on overall growth, as private consumption failed to rise for the third year in a row. But investment in machinery and equipment rose in 2004. Corporate profits have also developed favorably, and the ratio between corporate profits and investment in machinery and equipment rose significantly to a new all-time high in the last few quarters. In the past such a development usually pointed to dynamic growth in investment. Despite a real effective exchange rate appreciation in 2004, German companies lost almost no export market share, which is a good indication of their strong competitiveness. According to German economics minister Clement, the economic recovery could broaden and deepen in 2005. His optimism is supported by relatively positive survey data on the German economy, which also has helped to boost public sentiment about the country's economic prospects.

The German Midcap Market Index has beaten the performance of the German Large Cap Index now for four years in a row. A large part of The New Germany Fund's outperformance relative to its benchmark occurred in the first and fourth quarters of 2004. The fund benefited from its exposure to the banks and financials sector, especially through its positions in Grenkeleasing and Hypo Real Estate Holding. In the consumer and retail sector, the fund benefited from its long-term holding in Puma, despite the poor retail environment. In addition, the fund benefited by not holding Karstadt Quelle, the worst performer of the German Midcap Market Index in 2004. The fund's holdings in the industrials sector (Rheinmetall, Sartorius) also contributed to the fund's relative outperformance. There was a large discrepancy among German mid caps between the performance of classic sectors and that of technology-related sectors, and although we were underweight the latter, our holdings in technology stocks (Suess MicroTec, IDS Scheer) impacted the fund's performance. Recently, The New Germany Fund established an overweight in the telecommunications service sector by increasing our position in Mobilcom.

After four years of outperformance for the German mid-cap market, it might be more difficult for small and medium caps to outperform again in 2005. This makes it even more crucial to emphasize stock selection to concentrate on small- and mid-cap companies that offer strong earnings growth, have unique business models and enjoy good market positions. We are continuing to position the New Germany Fund to take advantage of factors such as financial strength, good dividend yields, and the continued growth we expect to see in the global economy well into 2005.

The fund continued its open-market purchases of its shares, buying 1,245,300 shares during the fiscal year. The New Germany Fund's discount to net asset value averaged 17.38% during the year ended December 31, 2004, compared with 19.29% for the previous fiscal year.

INTERVIEW WITH THE CHIEF INVESTMENT OFFICER

QUESTION: GERMAN ECONOMIC GROWTH IS EXPECTED TO LAG THE REST OF EUROPE THIS YEAR. WHAT IS THE RATIONALE FOR INVESTORS TO PUT THEIR MONEY IN GERMANY?

ANSWER: Although Germany is expected to grow at a slower rate than the rest

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

of Europe in 2005, there are signs that the economic situation in Germany is stabilizing. For example, retail sales finally returned to positive territory at the end of 2004, indicating that domestic demand may pick up in 2005. In addition, the ZEW index, which measures economic growth expectations, has recently reversed its downward trend, signaling increased optimism. Nonetheless, the overall economic picture for Germany remains mixed. However, global growth is expected to continue at a strong pace this year and, as the world's leading exporter, Germany stands to continue benefiting from this growth. (1) With often more than 50% of their revenues coming from overseas, German companies offer investors an effective means to reap the benefits of strong global growth. This is evidenced by the fact that, despite modest domestic economic performance, the German markets performed well relative to other markets last year, finishing 2004 at the highs of the year.

QUESTION: YOU MENTIONED GERMANY'S POSITION AS THE WORLD'S LEADING EXPORTER. WHICH SECTORS OF THE COUNTRY'S EXPORT-DRIVEN ECONOMY WILL BE AFFECTED THE MOST BY CONTINUED WEAKNESS OF THE DOLLAR?

ANSWER: German companies lost almost no export market share in 2004 despite a 3.8% appreciation of the real effective exchange rate. While the continued appreciation of the euro in 2005 may finally begin to affect German companies, this impact will be limited due to the fact that more than 40% of German exports remain within the Eurozone. While potential effects vary even within sectors, depending on an individual company's currency exposure, the automotive sector is likely to be the most negatively affected by continued dollar weakness. Chemicals, pharmaceuticals and industrials may also be adversely affected. Consumer retail companies, on the other hand, are well-positioned to benefit from the weaker dollar. In particular, companies that produce goods in Asian countries with dollar-pegged currencies will benefit from reduced operating expenses.

QUESTION: THE GERMAN GOVERNMENT LAUNCHED THE LATEST PHASE OF ITS LABOR-MARKET REFORMS ON JANUARY 1, 2005. HOW QUICKLY ARE THE REFORMS EXPECTED TO HAVE AN IMPACT ON UNEMPLOYMENT, WHICH ROSE AGAIN IN 2004?

ANSWER: The goal of the German government's Hartz IV labor-market reform is to encourage unemployed citizens to re-enter the workforce. As part of the plan, unemployment and welfare benefits have been combined into a single benefit category, effectively reducing the number of people eligible to receive benefits and thereby providing an incentive for those people to find jobs. Changes in the criteria for who is counted as unemployed under the new program are expected to have a negative short-term effect on unemployment figures. For example, a significant number of welfare recipients who were not previously counted as unemployed will now be counted as such. Thus, unemployment figures for the early part of 2005 could increase to around 5 million, though this will not necessarily reflect a real deterioration in the labor market. In addition, a new measure of German unemployment will be released by the Federal Statistical Office beginning in March 2005 that should conform to standards of measurement currently used in the United States. The new statistic is expected to describe a lower level of unemployment than the current government figures reflect. In summary, 2005 will be a transition year for the German labor market in terms of both data measurement and real progress toward reducing unemployment. While the reforms are not expected to produce a significant reduction in unemployment levels this year, they should gain traction as the year progresses.

QUESTION: GERMANY HAS CONTINUALLY EXCEEDED THE 3% OF GROSS DOMESTIC PRODUCT (GDP) BUDGET DEFICIT LIMIT IMPOSED ON EUROPEAN UNION MEMBER STATES AS PART OF THE STABILITY AND GROWTH PACT. THERE ARE INDICATIONS THAT MEMBER STATES MAY FAIL TO REIN IN THE BUDGET DEFICIT AGAIN IN 2005. WHAT ARE THE RAMIFICATIONS IF GERMANY DOES NOT RECTIFY THIS SITUATION?

ANSWER: In theory, a fine of not more than 0.5% of GDP per year could be

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

levied for failure to meet this provision of the pact. However, a number of steps must occur before a fine can be imposed. First, the Commission must notify the member state that it has an excessive deficit (Germany was so notified in January 2003) and recommend corrective actions for the member state to undertake. The Commission subsequently reviews the situation to determine whether the government has taken sufficient steps to address its deficit level. If the Commission decides that the member state has failed to take adequate corrective measures, the member state may be sanctioned in the form of a non-interest-bearing deposit. The member state has two years from that point to correct the excessive deficit. On December 14, 2004, the Commission concluded that Germany has taken action to correct its excessive deficit by 2005, and therefore, no movement to impose sanctions has been taken at this time.

REPORT FROM THE INVESTMENT ADVISER AND MANAGER

ECONOMIC OUTLOOK

In 2005, the pace of growth looks set to be similar to that in 2004. Despite recent concerns that German economic growth will slow in 2005, Germany is not expected to fall back into stagnation. Rather, gross domestic product (GDP) growth is likely to consolidate at a low level. The economic environment will be more challenging than in 2004, as the world economy will likely slow down somewhat in 2005 and the euro should continue to appreciate. These two factors will probably hamper the contribution to domestic growth of German exports, which had a banner year in 2004, rising 10% and boosting the country's trade surplus to a record high.

In contrast to 2004, contributions from the domestic economy and net exports will be more balanced, as domestic demand is poised to contribute a greater share of GDP growth in 2005. Overall, disposable income could grow 1.3% in 2005 (just as in 2004). As inflation seems likely to slow, real disposable income growth should accelerate to 0.8%, up from 0.2% in 2004. Private consumption, which declined for the third straight year in 2004, is expected to rise moderately this year and should be boosted by a reduced tax rate.

Investment in machinery and equipment was up significantly in the third quarter of 2004 (4.1% quarter-on-quarter). The phase of weakness since the fourth quarter of 2001 seems to have ended, as there are some signs of continued growth in investment in machinery and equipment in the next few quarters. Corporate profits have developed favorably, growing at a non-seasonally adjusted rate of 10.7% in 2004. With data on industrial capital stock suggesting that there is significant need of replacement investment, corporate profits should enable such spending. Taking into account an expected decline in construction investment, overall investment may rise by as much as 2.4% year-on-year due to the favorable trend in investment in machinery and equipment.

At its first meeting of the year, the European Central Bank (ECB) kept interest rates unchanged at 2%. We believe that rates will remain stable in the coming months and that the next rate move will be a hike. In our view, the ECB is likely to begin raising rates by 0.25% per quarter later in the year, ultimately aiming for a more neutral rate of 3% by mid-2006.

THE NEW GERMANY FUND, INC.
NOTES TO FINANCIAL STATEMENTS--DECEMBER 31, 2004

NOTE 1. ACCOUNTING POLICIES

The New Germany Fund, Inc. (the "Fund") was incorporated in Maryland on January 16, 1990 as a non-diversified, closed-end management investment company. The Fund commenced investment operations on January 30, 1990.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

SECURITY VALUATION: Investments are stated at value. All securities for which market quotations are readily available are valued at the last sales price on the primary exchange on which they are traded prior to the time of valuation. If no sales price is available at that time, and both bid and ask prices are available, the securities are valued at the mean between the last current bid and ask prices; if no quoted asked prices are available, they are valued at the last quoted bid price. All securities for which market quotations are not readily available will be valued as determined in good faith by the Board of Directors of the Fund. The Fund calculates its net asset value per share at 11:30 A.M., New York time, in order to minimize the possibility that events occurring after the close of the securities exchanges on which the Fund's portfolio securities principally trade would require adjustment to the closing market prices in order to reflect fair value.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME: Securities transactions are recorded on the trade date. Cost of securities sold is calculated using the identified cost method. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Such dividend income is recorded net of unrecoverable foreign withholding tax.

FOREIGN CURRENCY TRANSLATION: The books and records of the Fund are maintained in United States dollars.

Assets and liabilities denominated in euros and other foreign currency amounts are translated into United States dollars at the 10:00 A.M. mid-point of the buying and selling spot rates quoted by the Federal Reserve Bank of New York. Purchases and sales of investment securities, income and expenses are reported at the rate of exchange prevailing on the respective settlement dates of such transactions. The resultant gains and losses arising from exchange rate fluctuations are identified separately in the Statement of Operations, except for such amounts attributable to investments which are included in net realized and unrealized gains and losses on investments.

Foreign investments may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among others, the possibility of political and economic developments and the level of governmental

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

supervision and regulation of foreign securities markets. In addition, certain foreign markets may be substantially smaller, less developed, less liquid and more volatile than the major markets of the United States.

CONTINGENCIES: In the normal course of business, the Fund may enter into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

TAXES: No provision has been made for United States Federal income tax because the Fund intends to meet the requirements of the United States Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS: The Fund records dividends and distributions to its shareholders on the ex-dividend date. Income and capital gain distributions are determined in accordance with United States Federal income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences, which could be temporary or permanent in nature, may result in reclassification of distributions; however, net investment income, net realized gains and net assets are not affected.

At December 31, 2004, the Fund's components of distributable earnings (accumulated losses) on a tax-basis were as follows:

Undistributed ordinary income*	\$ 3,421,072
Capital loss carryforward	\$(172,136,000)
Net unrealized appreciation	\$ 92,668,817

*For tax purposes short-term capital gains are considered ordinary income.

In addition, the tax character of distributions paid to shareholders by the Fund is summarized as follows:

	YEARS ENDED DECEMBER 31	
	2004	2003
Distributions from ordinary income	\$7,100,126	\$663,763

During the year ended December 31, 2004, the Fund reclassified permanent book and tax differences as follows:

	INCREASE (DECREASE)
Undistributed net investment income	\$1,218,654
Undistributed net realized gain on investments and foreign currency transactions	(1,218,654)

THE NEW GERMANY FUND, INC.
NOTES TO FINANCIAL--DECEMBER 31, 2004 (CONTINUED)

NOTE 2. MANAGEMENT AND INVESTMENT
ADVISORY AGREEMENTS

The Fund had a Management Agreement with Deutsche Bank Securities Inc. (the "Manager"). At its July 12, 2004 Board meeting, the Board approved transferring the Fund's management agreement with Deutsche Bank Securities Inc. to an affiliated company, Deutsche Investment Management Americas Inc. The transfer, which became effective September 1, 2004, does not involve any change in control

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

or actual management of the investment manager, which will provide the same scope of services, will utilize the same people for work on Fund matters and will charge the same fees under the agreement. The Fund has an Investment Advisory Agreement with Deutsche Asset Management International GmbH (the "Investment Adviser"). The Manager and the Investment Adviser are affiliated companies.

The Management Agreement provides the Manager with a fee, computed weekly and payable monthly, at the annual rates of .65% of the Fund's average weekly net assets up to \$100 million, .55% of such assets in excess of \$100 million and up to \$500 million, and .50% of such assets in excess of \$500 million. The Investment Advisory Agreement provides the Investment Adviser with a fee, computed weekly and payable monthly, at the annual rates of .35% of the Fund's average weekly net assets up to \$100 million and .25% of such assets in excess of \$100 million. Accordingly, for the year ended December 31, 2004, the combined fee pursuant to the Management and Investment Advisory Agreements was equivalent to an annualized effective rate of .89% of the Fund's average net assets.

Pursuant to the Management Agreement, the Manager is the corporate manager and administrator of the Fund and, subject to the supervision of the Board of Directors and pursuant to recommendations made by the Fund's Investment Adviser, determines the suitable securities for investment by the Fund. The Manager also provides office facilities and certain administrative, clerical and bookkeeping services for the Fund. Pursuant to the Investment Advisory Agreement, the Investment Adviser, in accordance with the Fund's stated investment objectives, policies and restrictions, makes recommendations to the Manager with respect to the Fund's investments and, upon instructions given by the Manager as to suitable securities for investment by the Fund, transmits purchase and sale orders and selects brokers and dealers to execute portfolio transactions on behalf of the Fund.

NOTE 3. TRANSACTIONS WITH AFFILIATES

For the year ended December 31, 2004, Deutsche Bank AG, the German parent of the Manager and Investment Adviser, and its affiliates received \$54,692 in brokerage commissions as a result of executing agency transactions in portfolio securities on behalf of the Fund, that the board determined were effected in compliance with the Fund's Rule 17e-1 procedures.

The Fund paid insurance premiums to an unaffiliated insurance broker in 2003. This broker in turn paid a portion of its commissions to an affiliate of the Manager, which performed certain insurance brokerage services for the broker. The Manager has agreed to reimburse the Fund in 2005 for the portion of commissions (plus interest) paid to the affiliate of the Manager attributable to the premiums paid by the Fund. The amount for 2003 was \$72.

For the year ended December 31, 2004, the Investment Adviser fully reimbursed the Fund \$6,425 for a trading error that occurred during the fiscal year.

Certain officers of the Fund are also officers of either the Manager or Deutsche Bank AG.

The Fund pays each Director not affiliated with the Manager retainer fees plus specified amounts for attended board and committee meetings.

NOTE 4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term investments, for the year ended December 31, 2004, were \$138,199,285 and \$155,352,893, respectively.

The cost of investments at December 31, 2004 was \$170,736,534 for United States Federal income tax purposes. Accordingly, as of December 31, 2004, net unrealized appreciation of investments aggregated \$92,668,817, of which

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

\$93,362,451 and \$693,634 related to unrealized appreciation and depreciation, respectively.

For United States Federal income tax purposes, the Fund had a capital loss carry forward at December 31, 2004 of approximately \$172,136,000, of which \$83,896,000 and \$88,240,000 will expire in 2009 and 2010, respectively. No capital gains distribution is expected to be paid to shareholders until future net gains have been realized in excess of such carry forward.

NOTE 5. CAPITAL

During the year ended December 31, 2004 and the year ended December 31, 2003, the Fund purchased 1,245,300 and 1,079,300 of its shares of common stock on the open market at a total cost of \$9,675,399 and \$6,196,319, respectively. REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
The New Germany Fund, Inc.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The New Germany Fund, Inc. (the "Fund") at December 31, 2004, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2004 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN
(UNAUDITED)

The Fund offers shareholders a Voluntary Cash Purchase Program and Dividend Reinvestment Plan ("Plan") which provides for optional cash purchases and for the automatic reinvestment of dividends and distributions payable by the Fund in additional Fund shares. A more complete description of the Plan is provided in the Plan brochure available from Investors Bank & Trust Company, the plan agent (the "Plan Agent"), Shareholder Services, P.O. Box 9130, Boston, Massachusetts 02117 (telephone 1-800-437-6269). A shareholder should read the Plan brochure carefully before enrolling in the Plan.

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

Under the Plan, participating shareholders ("Plan Participants") appoint the Plan Agent to receive or invest Fund distributions as described below under "Reinvestment of Fund Shares." In addition, Plan Participants may make optional cash purchases through the Plan Agent as often as once a month as described below under "Voluntary Cash Purchases." There is no charge to Plan Participants for participating in the Plan, although when shares are purchased under the Plan by the Plan Agent on the New York Stock Exchange or otherwise on the open market, each Plan Participant will pay a pro rata share of brokerage commissions incurred in connection with such purchases, as described below under "Reinvestment of Fund Shares" and "Voluntary Cash Purchases."

REINVESTMENT OF FUND SHARES. Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable, at the election of shareholders, either in cash or in Fund shares, or payable only in cash, the Plan Agent shall automatically elect to receive Fund shares for the account of each Plan Participant.

Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable only in cash and the net asset value per share of the Fund's common stock equals or is less than the market price per share on the valuation date (the "Market Parity or Premium"), the Plan Agent shall apply the amount of such dividend or distribution payable to a Plan Participant to the purchase from the Fund of Fund Shares for a Plan Participant's account, except that if the Fund does not offer shares for such purpose because it concludes Securities Act registration would be required and such registration cannot be timely effected or is not otherwise a cost-effective alternative for the Fund, then the Plan Agent shall follow the procedure described in the next paragraph. The number of additional shares to be credited to a Plan Participant's account shall be determined by dividing the dollar amount of the distribution payable to a Plan Participant by the net asset value per share of the Fund's common stock on the valuation date, or if the net asset value per share is less than 95% of the market price per share on such date, then by 95% of the market price per share. The valuation date will be the payable date for such dividend or distribution.

Whenever the Fund declares a capital gains distribution, an income dividend or a return of capital distribution payable only in cash and the net asset value per share of the Fund's common stock exceeds the market price per share on the valuation date (the "Market Discount"), the Plan Agent shall apply the amount of such dividend or distribution payable to a Plan Participant (less a Plan Participant's pro rata share of brokerage commissions incurred with respect to open-market purchases in connection with the reinvestment of such dividend or distribution) to the purchase on the open market of Fund shares for a Plan Participant's account. The valuation date will be the payable date for such dividend or distribution. Such purchases will be made on or shortly after the valuation date and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws.

The Plan Agent may aggregate a Plan Participant's purchases with the purchases of other Plan Participants, and the average price (including brokerage commissions) of all shares purchased by the Plan Agent shall be the price per share allocable to each Plan Participant.

For all purposes of the Plan, the market price of the Fund's common stock on a payable date shall be the last sales price on the New York Stock Exchange on that date, or, if there is no sale on such Exchange (or, if different, the principal exchange for Fund shares) on that date, then the mean between the closing bid and asked quotations for such stock on such Exchange on such date. The net asset value per share of the Fund's common stock on a valuation date shall be as determined by or on behalf of the Fund.

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN
(UNAUDITED) (CONTINUED)

The Plan Agent may hold a Plan Participant's shares acquired pursuant to the Plan, together with the shares of other Plan Participants acquired pursuant to this Plan, in non-certificated form in the name of the Plan Agent or that of a nominee. The Plan Agent will forward to each Plan Participant any proxy solicitation material and will vote any shares so held for a Plan Participant only in accordance with the proxy returned by a Plan Participant to the Fund. Upon a Plan Participant's written request, the Plan Agent will deliver to a Plan Participant, without charge, a certificate or certificates for the full shares held by the Plan Agent.

VOLUNTARY CASH PURCHASES. Plan Participants have the option of making investments in Fund shares through the Plan Agent as often as once a month. Plan Participants may invest as little as \$100 in any month and may invest up to \$36,000 annually through the voluntary cash purchase feature of the Plan.

The Plan Agent shall apply such funds (less a Plan Participant's pro rata share of brokerage commissions or other costs, if any) to the purchase on the New York Stock Exchange (or, if different, on the principal exchange for Fund shares) or otherwise on the open market of Fund shares for such Plan Participant's account, regardless of whether there is a Market Parity or Premium or a Market Discount. The Plan Agent will purchase shares for Plan Participants on or about the 15th of each month. Cash payments received by the Plan Agent less than five business days prior to a cash purchase investment date will be held by the Plan Agent until the next month's investment date. Uninvested funds will not bear interest. Plan Participants may withdraw any voluntary cash payment by written notice received by the Plan Agent not less than 48 hours before such payment is to be invested.

ENROLLMENT AND WITHDRAWAL. Both current shareholders and first-time investors in the Fund are eligible to participate in the Plan. Current shareholders may join the Plan by either enrolling their shares with the Plan Agent or by making an initial cash deposit of at least \$250 with the Plan Agent. First-time investors in the Fund may join the Plan by making an initial cash deposit of at least \$250 with the Plan Agent. In order to become a Plan Participant, shareholders must complete and sign the enrollment form included in the Plan brochure and return it, and, if applicable, an initial cash deposit of at least \$250 directly to the Plan Agent if shares are registered in their name. Shareholders who hold Fund shares in the name of a brokerage firm, bank or other nominee should contact such nominee to arrange for it to participate in the Plan on such shareholder's behalf.

If the Plan Participant elects to participate in the Plan by enrolling current shares owned by the Plan Participant with the Plan Agent, participation in the dividend reinvestment feature of the Plan begins with the next dividend or capital gains distribution payable after the Plan Agent receives the Plan Participant's written authorization, provided such authorization is received by the Plan Agent prior to the record date for such dividend or distribution. If such authorization is received after such record date, the Plan Participant's participation in the dividend reinvestment feature of the Plan begins with the following dividend or distribution.

If the Plan Participant elects to participate in the Plan by making an initial cash deposit of at least \$250 with the Plan Agent, participation in the dividend reinvestment feature of the Plan begins with the next dividend or capital gains distribution payable after the Plan Agent receives the Plan Participant's authorization and deposit, and after the Plan Agent purchases

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

shares for the Plan Participant on the New York Stock Exchange (or, if different, on the principal exchange for Fund shares) or otherwise on the open market, provided that the authorization and deposit are received, and the purchases are made by the Plan Agent prior to the record date. If such authorization and deposit are received after the record date, or if the Plan Agent purchases shares for the Plan Participant after the record date, the Plan Participant's participation in the dividend reinvestment feature of the Plan begins with the following dividend or distribution.

A shareholder's written authorization and cash payment must be received by the Plan Agent at least five business days in advance of the next cash purchase investment date (normally the 15th of every month) in order for the Plan Participant to participate in the voluntary cash purchase feature of the Plan in that month.

Plan Participants may withdraw from the Plan without charge by written notice to the Plan Agent. Plan Participants

24

VOLUNTARY CASH PURCHASE PROGRAM AND DIVIDEND REINVESTMENT PLAN (UNAUDITED)

who choose to withdraw may elect to receive stock certificates representing all of the full shares held by the Plan Agent on their behalf, or to instruct the Plan Agent to sell such full shares and distribute the proceeds, net of brokerage commissions, to such withdrawing Plan Participant. Withdrawing Plan Participants will receive a cash adjustment for the market value of any fractional shares held on their behalf at the time of termination. Withdrawal will be effective immediately with respect to distributions with a record date not less than 10 days later than receipt of such written notice by the Plan Agent.

AMENDMENT AND TERMINATION OF PLAN. The Plan may only be amended or supplemented by the Fund or by the Plan Agent by giving each Plan Participant written notice at least 90 days prior to the effective date of such amendment or supplement, except that such notice period may be shortened when necessary or appropriate in order to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory body.

The Plan may be terminated by the Fund or by the Plan Agent by written notice mailed to each Plan Participant. Such termination will be effective with respect to all distributions with a record date at least 90 days after the mailing of such written notice to the Plan Participants.

FEDERAL INCOME TAX IMPLICATIONS OF REINVESTMENT OF FUND SHARES. Reinvestment of Fund shares does not relieve Plan Participants from any income tax which may be payable on dividends or distributions. For U.S. federal income tax purposes, when the Fund issues shares representing an income dividend or a capital gains dividend, a Participant will include in income the fair market value of the shares received as of the payment date, which will be ordinary dividend income or capital gains, as the case may be. The shares will have a tax basis equal to such fair market value, and the holding period for the shares will begin on the day after the date of distribution. If shares are purchased on the open market by the Plan Agent, a Plan Participant will include in income the amount of the cash payment made. The basis of such shares will be the purchase price of the shares, and the holding period for the shares will begin on the day following the date of purchase. State, local and foreign taxes may also be applicable.

ITEM 2. CODE OF ETHICS.

As of the end of the period, December 31, 2004, The New Germany Fund, Inc. has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its President and Treasurer and its Chief Financial Officer.

There have been no amendments to, or waivers from, a provision of the code of ethics during the period covered by this report that would require disclosure under Item 2.

A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Fund's Board of Directors/Trustees has determined that the Fund has at least one "audit committee financial expert" serving on its audit committee: Mr. Robert H. Wadsworth. This audit committee member is "independent," meaning that he is not an "interested person" of the Fund (as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940) and he does not accept any consulting, advisory, or other compensatory fee from the Fund (except in the capacity as a Board or committee member).

An "audit committee financial expert" is not an "expert" for any purpose, including for purposes of Section 11 of the Securities Act of 1933, as a result of being designated as an "audit committee financial expert." Further, the designation of a person as an "audit committee financial expert" does not mean that the person has any greater duties, obligations, or liability than those imposed on the person without the "audit committee financial expert" designation. Similarly, the designation of a person as an "audit committee financial expert" does not affect the duties, obligations, or liability of any other member of the audit committee or board of directors.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

PROXY VOTING GUIDELINES

The Fund has delegated proxy voting responsibilities to its investment advisor, subject to the Board's general oversight. The Fund has delegated proxy voting to the advisor with the direction that proxies should be voted consistent with the

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

Fund's best economic interests. The advisor has adopted its own Proxy Voting Policies and Procedures ("Policies"), and Proxy Voting Guidelines ("Guidelines") for this purpose. The Policies address, among other things, conflicts of interest that may arise between the interests of the Fund, and the interests of the advisor and its affiliates, including the Fund's principal underwriter. The Guidelines set forth the advisor's general position on various proposals, such as:

- o Shareholder Rights -- The advisor generally votes against proposals that restrict shareholder rights.
- o Corporate Governance -- The advisor generally votes for confidential and cumulative voting and against supermajority voting requirements for charter and bylaw amendments.
- o Anti-Takeover Matters -- The advisor generally votes for proposals that require shareholder ratification of poison pills or that request boards to redeem poison pills, and votes "against" the adoption of poison pills if they are submitted for shareholder ratification. The advisor generally votes for fair price proposals.
- o Routine Matters -- The advisor generally votes for the ratification of auditors, procedural matters related to the annual meeting, and changes in company name, and against bundled proposals and adjournment.

The general provisions described above do not apply to investment companies. The advisor generally votes proxies solicited by investment companies in accordance with the recommendations of an independent third-party, except for proxies solicited by or with respect to investment companies for which the advisor or an affiliate serves as investment advisor or principal underwriter ("affiliated investment companies"). The advisor votes affiliated investment company proxies in the same proportion as the vote of the investment company's other shareholders (sometimes called "mirror" or "echo" voting). Master fund proxies solicited from feeder funds are voted in accordance with applicable requirements of the Investment Company Act of 1940.

Although the Guidelines set forth the advisor's general voting positions on various proposals, the advisor may, consistent with the Fund's best interests, determine under some circumstances to vote contrary to those positions.

The Guidelines on a particular issue may or may not reflect the view of individual members of the board, or of a majority of the board. In addition, the Guidelines may reflect a voting position that differs from the actual practices of the public companies within the Deutsche Bank organization or of the investment companies for which the advisor or an affiliate serves as investment advisor or sponsor.

The advisor may consider the views of a portfolio company's management in deciding how to vote a proxy or in establishing general voting positions for the Guidelines, but management's views are not determinative.

As mentioned above, the Policies describe the way in which the advisor resolves conflicts of interest. To resolve conflicts, the advisor, under normal circumstances, votes proxies in accordance with its Guidelines. If the advisor departs from the Guidelines with respect to a particular proxy or if the Guidelines do not specifically address a certain proxy proposal, a proxy voting committee established by the advisor will vote the proxy. Before voting any such proxy, however, the advisor's conflicts review committee will conduct an investigation to determine whether any potential conflicts of interest exist in connection with the particular proxy proposal. If the conflicts review committee determines that the advisor has a material conflict of interest, or certain

Edgar Filing: NEW GERMANY FUND INC - Form N-CSR

individuals on the proxy voting committee should be recused from participating in a particular proxy vote, it will inform the proxy voting committee. If notified that the advisor has a material conflict, or fewer than three voting members are eligible to participate in the proxy vote, typically the advisor will engage an independent third party to vote the proxy or follow the proxy voting recommendations of an independent third party. Under certain circumstances, the advisor may not be able to vote proxies or the advisor may find that the expected economic costs from voting outweigh the benefits associated with voting. For example, the advisor may not vote proxies on certain foreign securities due to local restrictions or customs. The advisor generally does not vote proxies on securities subject to share blocking restrictions.

The stockholder or group of stockholders must provide notice of the proposed nominee pursuant to the requirements found in the Fund's By-laws.
