Item 1.01.

Entry into Material Definitive Agreements.

Third Amendment and Reaffirmation Agreement

On February 15, 2019, GSE Systems, Inc. (“GSE”) and its wholly owned subsidiaries GSE Performance Solutions, Inc. (“Performance Solutions” and collectively with GSE, the “Borrower”), GSE True North Consulting, LLC (“True North”), Hyperspring, LLC (“Hyperspring”), Absolute Consulting, Inc. (“Absolute”), and DP Engineering Ltd. Co. (“DP Engineering” and together with True North, Hyperspring and Absolute collectively, the “Guarantors”) entered into a Third Amendment and Reaffirmation Agreement (the “Third Amendment”) with Citizens Bank, National Association (the “Bank”), for the purpose of amending the Amended and Restated Credit and Security Agreement (the “Credit Agreement”) dated as of May 11, 2018, between the Borrower and the Bank to join DP Engineering as a credit party and further guarantee the obligations of the Borrower under the Credit Agreement. The credit facilities are secured by liens on all assets of the Borrower and the Guarantors.

The Third Amendment confirms the Bank’s consent to the Borrower’s acquisition of DP Engineering (as further described below) and affirms the effectiveness of the Credit Agreement. The Credit Agreement contains customary covenants and restrictions typical for a financing of this type that, among other things, require the Borrower to satisfy certain financial covenants and restrict the Borrower’s and Guarantors’ ability to incur additional debt, pay dividends and make distributions, make certain investments and acquisitions, repurchase its stock and prepay certain indebtedness, create liens, enter into agreements with affiliates, modify the nature of its business, enter into sale-leaseback transactions, transfer and sell material assets, and merge or consolidate. Non-compliance with one or more of the covenants and restrictions after any applicable grace period could result in the obligations under the Credit Agreement becoming immediately due and payable and termination of the credit facilities. In addition to non-compliance with covenants and restrictions, the Credit Agreement also contains other customary events of default. If an event of default under the Credit Agreement occurs and is continuing, then the Bank may declare the obligations under the Credit Agreement to be immediately due and payable and may terminate the credit facilities.

The Borrower intends to continue using the revolving line of credit for short-term working capital needs and the issuance of letters of credit in connection with business operations. The Borrower intends to use the delayed draw term loan facility to fund acquisitions of businesses consistent with its acquisition strategy.

The foregoing description of the Third Amendment does not purport to be complete and is qualified in its entirety by reference to the Third Amendment, a copy of which is filed as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

Membership Interest Purchase Agreement

On February 15, 2019, GSE, through Performance Solutions, entered into a membership interest purchase agreement (the “DP Engineering Purchase Agreement”) with Steven L. Pellerin, Christopher A. Davenport, and DP Engineering. Pursuant to the DP Engineering Purchase Agreement, Performance Solutions purchased 100% of the membership interests in DP Engineering for \$13.5 million payable at closing (subject to customary pre- and post-closing working capital adjustments) plus an additional earn-out amount not to exceed \$5 million, potentially payable in 2020 and 2021 depending on DP Engineering’s satisfaction of certain targets for Adjusted EBITDA in calendar years 2019 and 2020, respectively. The transactions contemplated by the DP Engineering Purchase Agreement closed simultaneously with its execution and delivery.

DP Engineering is a provider of value-added technical engineering solutions and consulting services to nuclear power plants with an emphasis on preparation and implementation of design modifications during plant outages. Located in Fort Worth, Texas, DP Engineering is well-regarded as a leading service provider to the nuclear power industry,

having been designated an “engineer of choice” by several of the largest power generation companies. During the twelve months ending December 31, 2018, DP Engineering generated revenue of approximately \$23.3 million.

The DP Engineering Purchase Agreement contains customary representations, warranties, covenants, and indemnification provisions subject to certain limitations. An escrow of approximately \$1.7 million was funded at the closing and is available to GSE and Performance Solutions to satisfy indemnification claims for 18 months after the closing.

The foregoing description of the DP Engineering Purchase Agreement does not purport to be complete and is qualified in its entirety by reference to the DP Engineering Purchase Agreement, a copy of which is filed as Exhibit 2.1 to this Current Report on Form 8-K and is incorporated herein by reference.
